2017 BUSINESS PERFORMANCE AND EXECUTIVE COMPENSATION PROGRAM HIGHLIGHTS

During 2017, the Company achieved strong operating and financial results and continued delivering on the Wendy’s® brand promise to Delight Every Customer™ and execute every element of The Wendy’s Way by investing in the quality of our food and providing great value, exceptional service and an elevated restaurant experience. Led by President and Chief Executive Officer Todd Penegor and our senior leadership team, the Company drove significant improvements in the corporate and restaurant-level economic model, continued to strengthen the Wendy’s franchise system and created significant value for stockholders. We achieved significant year-over-year improvements in our key operating and financial metrics, persisted in transforming our brand through global restaurant development and image activation, completed our transition to a predominantly franchised business model and returned \$196 million in cash to stockholders through dividends and share repurchases. Through our strong operating results and execution of our strategic initiatives, we delivered cumulative total stockholder return of 24% in 2017, 96% on a three-year basis and 289% on a five-year basis.

Our executive compensation program is designed to support the Company’s business objectives by linking executive pay to individual performance, the Company’s attainment of annual and multi-year operating and financial goals and the creation of long-term stockholder value. In accordance with our pay-for-performance philosophy, variable (*i.e.*, at-risk) incentives constituted the most significant portion of total direct compensation for 2017 for our Chief Executive Officer (83%) and other Named Executive Officers as a group (71%). (Our Named Executive Officers (“NEOs”) are identified under the caption “Compensation Discussion and Analysis—Named Executive Officers.”)

The primary components of our 2017 executive compensation program are summarized in the table below and further described in the “Compensation Discussion and Analysis” in this Proxy Statement.

ELEMENT	AT-RISK	FORM	METRICS	PURPOSE
Base Salary	No	Cash	—	Attract and retain highly qualified executives by providing a competitive level of fixed cash compensation that reflects the experience, responsibilities and performance of each executive.
Annual Cash Incentives	Yes	Cash	<ul style="list-style-type: none"> • Adjusted EBITDA (60%) • Same-Restaurant Sales (North America) (40%) 	Align executive pay with Company performance by motivating and rewarding executives over a one-year period based on the achievement of strategic business objectives.
Long-Term Equity Incentives	Yes	Equity <ul style="list-style-type: none"> • Stock Options (50%) • Performance Units (50%) 	Share Price <ul style="list-style-type: none"> • Adjusted EPS (50%) • Relative TSR (50%) 	Align the interests of executives with the interests of stockholders and retain highly qualified executives by motivating and rewarding executives to achieve multi-year strategic business objectives. Create a direct link between executive pay and the long-term performance of our Common Stock.

Consistent with our executive compensation philosophy, the base salaries, target total cash compensation and target total direct compensation of our senior executives for 2017 fell within a competitive range of market median, in the aggregate. The Company’s strong operating and financial performance in 2017 supported an annual cash incentive payout at 109.0% of target, prior to adjustment for individual performance for executives other than the Chief Executive Officer.

We encourage you to read the “Compensation Discussion and Analysis” in this Proxy Statement for a detailed discussion of how our executive compensation program was designed and implemented in 2017 to achieve our overall compensation objectives. Stockholders should also review the “2017 Summary Compensation Table” and other related compensation tables, notes and narratives in this Proxy Statement, which provide detailed information regarding the compensation of our NEOs for 2017.

This Proxy Statement and an accompanying proxy card will first be mailed to stockholders, or made available to stockholders electronically via the Internet, on or about April 23, 2018.

VOTING YOUR PROXY

When a stockholder returns a proxy card that is properly signed and dated, the shares represented by the proxy card will be voted by the persons named as proxies in the proxy card in accordance with the stockholder's instructions. Stockholders may specify their choices by marking the appropriate boxes on their proxy card. If a proxy card is signed, dated and returned by a stockholder without specifying choices, the shares represented by the proxy card will be voted as recommended by the Board of Directors. The Company does not have cumulative voting.

Pursuant to the Company's Amended and Restated Certificate of Incorporation (as amended and restated, the "Certificate of Incorporation") and By-Laws (as amended and restated, the "By-Laws"), business transacted at the Annual Meeting is limited to the purposes stated in the Notice of Annual Meeting of Stockholders and any other matters that may properly come before the Annual Meeting. Except for the proposals described in this Proxy Statement, no other matters currently are intended to be brought before the Annual Meeting by the Company or, to the Company's knowledge, any other person. The proxy being solicited by the Board does, however, convey discretionary authority to the persons named as proxies in the accompanying proxy card to vote on any other matters that may properly come before the Annual Meeting. A proxy may be revoked by a stockholder at any time prior to the time it is voted by giving notice of revocation either personally or in writing to the Secretary of the Company at our corporate offices at the address provided under the caption "Contacting the Secretary and Corporate Offices."

ANNUAL MEETING ADMISSION

Only holders of shares of the Company's common stock, par value \$0.10 per share (the "Common Stock"), at the close of business on April 9, 2018, their authorized representatives and invited guests of the Company will be able to attend the Annual Meeting. For your comfort and security, admission to the Annual Meeting will be by admission ticket only, and you will also be required to present a valid government-issued photo identification and valid proof of stock ownership as of the April 9, 2018 record date (such as a bank or brokerage account statement or a letter from the bank or broker verifying that you were the beneficial owner of the shares on the record date). In addition, if you are a beneficial owner (*i.e.*, your shares are held in the name of a broker, bank or other nominee), you must also provide a legal proxy from the record holder to vote your shares in person at the Annual Meeting.

If you are a registered stockholder (*i.e.*, your shares are held in your name) and plan to attend the Annual Meeting, your admission ticket is either your Notice of Internet Availability of Proxy Materials (the "Notice of Internet Availability") or the top portion of your proxy card, whichever you have received. If you are a beneficial owner and plan to attend the Annual Meeting, your admission ticket is either your Notice of Internet Availability or the top portion of your voting instruction form, whichever you have received.

You may also obtain an admission ticket in advance of the Annual Meeting by sending a written request to the Secretary of the Company at the address of our corporate offices provided under the caption "Contacting the Secretary and Corporate Offices." With your written request, you must enclose valid proof of stock ownership as of the record date and a copy of your admission ticket, as described above. Stockholders who do not obtain admission tickets in advance but plan to attend the Annual Meeting must satisfy the admission requirements described above. The Company may issue admission tickets to persons other than stockholders in the Company's sole discretion.

Stockholders who hold shares of our Common Stock in a joint account may be admitted to the Annual Meeting if they provide valid proof of joint stock ownership as of the record date and both stockholders satisfy the other admission requirements described above.

If you are the representative of a corporation, limited liability company, partnership or other legal entity that holds shares of our Common Stock, you must bring acceptable evidence of your authority to represent that legal entity at the Annual Meeting. Please note that only one representative may attend the Annual Meeting on behalf of each legal entity that holds shares of our Common Stock.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING

Q: Who is soliciting my proxy?

A: The Company's Board of Directors is soliciting your proxy in connection with the Board's solicitation of proxies for use at the Annual Meeting. Certain of our directors, officers and employees also may solicit proxies on the Board's behalf by personal contact, telephone, mail, e-mail or other means. The Company has hired Innisfree M&A Incorporated, 501 Madison Avenue, 20th Floor, New York, New York 10022, to assist in soliciting proxies from brokers, banks and other stockholders.

Q: What should I do with these materials?

A: Please carefully read and consider the information contained in this Proxy Statement, and then vote your shares as soon as possible to ensure that your shares will be represented at the Annual Meeting. You may vote your shares prior to the Annual Meeting even if you plan to attend the Annual Meeting in person.

Q: What am I being asked to vote on?

A: You are being asked to vote on the following three proposals:

- (1) To elect 11 directors to hold office until the Company's next annual meeting of stockholders;
- (2) To ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2018; and
- (3) To approve an advisory resolution to approve executive compensation.

Q: How do I vote?

A: You may vote your shares prior to the Annual Meeting in any of the following ways:

- Visit the website shown on your Notice of Internet Availability, proxy card or voting instruction form to vote via the Internet;
- Use the toll-free telephone number shown on your Notice of Internet Availability, proxy card or voting instruction form to vote by telephone; or
- Complete, sign, date and return the enclosed proxy card or voting instruction form in the enclosed postage-paid envelope if you have requested and received our proxy materials by mail.

If you are a registered stockholder, you may also vote your shares in person at the Annual Meeting. If you are a beneficial owner and hold your shares in street name, then you must obtain a legal proxy from the broker, bank or other nominee who holds the shares on your behalf in order to vote those shares in person at the Annual Meeting.

Q: Who is entitled to vote?

A: All holders of record of our Common Stock at the close of business on April 9, 2018, the record date for the Annual Meeting, are entitled to vote on all business transacted at the Annual Meeting.

Q: What is the deadline for submitting a proxy?

A: In order to be counted, proxies submitted by telephone or via the Internet must be received by 11:59 p.m. (EDT) on Monday, June 4, 2018. Proxies submitted by mail must be received prior to the start of the Annual Meeting.

Q: What is the difference between a registered stockholder and a "street name" holder?

A: If your shares are registered directly in your name with American Stock Transfer & Trust Company, LLC, our stock transfer agent, you are considered a stockholder of record, or a registered stockholder, of those shares.

If your shares are held by a broker, bank or other nominee, you are considered the beneficial owner of those shares, and your shares are said to be held in "street name." Your broker, bank or other nominee should have enclosed, or should provide you with, a Notice of Internet Availability or a voting instruction form for you to use in directing it on how to vote your shares.

Q: What constitutes a quorum?

A: At the close of business on April 9, 2018, the Company had 239,924,148 shares of Common Stock outstanding and entitled to vote at the Annual Meeting. Each share of Common Stock entitles the holder to one vote on each

matter properly brought before the Annual Meeting. The presence, in person or by proxy, of stockholders entitled to cast at least a majority of the votes that all stockholders are entitled to cast at the Annual Meeting will constitute a quorum. Abstentions and “broker non-votes” (described below) will be included for purposes of determining whether a quorum is present at the Annual Meeting.

Q: What are abstentions and broker non-votes and how do they affect voting?

A: *Abstentions.* If you specify on your proxy card that you “abstain” from voting on an item, your shares will be counted as present and entitled to vote for the purpose of establishing a quorum. Abstentions will be the equivalent of an “against” vote on proposals that require the affirmative vote of a majority of the shares of Common Stock present (in person or by proxy) and entitled to vote at the Annual Meeting (Proposals 2 and 3). Abstentions will not be included in the tabulation of voting results for proposals that require the affirmative vote of a majority of the votes cast (Proposal 1).

Broker Non-Votes. Under the rules of The NASDAQ Stock Market (“NASDAQ”), if your shares are held in street name, then your broker has discretion to vote your shares without instructions from you on certain “routine” proposals, such as the ratification of the appointment of the Company’s independent registered public accounting firm (Proposal 2). Your broker does not, however, have such discretion on the election of directors (Proposal 1) or the advisory resolution to approve executive compensation (Proposal 3). If you do not provide your broker with voting instructions for these proposals, then your broker will be unable to vote on these proposals and will report your shares as “broker non-votes” on these proposals. Like abstentions, broker non-votes are counted as present for the purpose of establishing a quorum, but, unlike abstentions, they are not counted for the purpose of determining the number of shares present (in person or by proxy) and entitled to vote on particular proposals. As a result, broker non-votes will not be included in the tabulation of voting results for proposals that require the affirmative vote of a majority of the votes cast (Proposal 1) or the affirmative vote of a majority of the shares of Common Stock present (in person or by proxy) and entitled to vote at the Annual Meeting (Proposal 3). Because brokers are entitled to vote on Proposal 2, we do not anticipate any broker non-votes with regard to that proposal.

Q: What vote is needed to elect the 11 director nominees (Proposal 1)?

A: Pursuant to our By-Laws, each of the 11 director nominees must receive the affirmative vote of a majority of the votes cast with respect to that nominee’s election in order to be elected as a director at the Annual Meeting.

Q: What vote is needed to ratify the appointment of the Company’s independent registered public accounting firm (Proposal 2)?

A: The affirmative vote of a majority of the shares of Common Stock present (in person or by proxy) and entitled to vote at the Annual Meeting is required to ratify the appointment of Deloitte & Touche LLP as the Company’s independent registered public accounting firm for 2018 (Proposal 2).

Q: What vote is needed to approve the advisory resolution to approve executive compensation (Proposal 3)?

A: The affirmative vote of a majority of the shares of Common Stock present (in person or by proxy) and entitled to vote at the Annual Meeting is required to approve the advisory resolution to approve the 2017 executive compensation of our NEOs (Proposal 3). The vote is advisory and therefore not binding on the Company, the Board of Directors or the Compensation Committee of the Board. However, the Compensation Committee will review the voting results of Proposal 3 and take those results into consideration when making future decisions regarding executive compensation as the Compensation Committee deems appropriate.

Q: How do Nelson Peltz and Peter May intend to vote?

A: The Company has been informed that the shares of Common Stock beneficially owned as of the record date by Nelson Peltz and Peter May representing, in the aggregate, approximately 20.8% of the votes entitled to be cast at the Annual Meeting, will be voted in accordance with the recommendations of the Board of Directors **FOR** the election of each of the 11 director nominees named in Proposal 1 and **FOR** Proposals 2 and 3.

Q: If I deliver my signed proxy card or voting instruction form but do not indicate how I want to vote on the proposals, how will my shares be voted?

A: If you submit your proxy card or voting instruction form but do not indicate how you want to vote on the proposals, your proxy will be counted as a vote in accordance with the recommendations of the Board of Directors **FOR** the election of each of the 11 director nominees named in Proposal 1 and **FOR** Proposals 2 and 3.

Q: Can I change my vote after I have delivered my proxy card or voting instruction form?

A: Yes. You can change your vote at any time before your proxy is voted at the Annual Meeting by revoking your proxy. You can revoke your proxy by giving notice of revocation either personally or in writing to the Secretary of the Company at the address of our corporate offices provided under the caption "Contacting the Secretary and Corporate Offices." You also can revoke your proxy by submitting a later-dated proxy by mail, by telephone, via the Internet or by attending and voting in person at the Annual Meeting. Your attendance at the Annual Meeting by itself will not revoke a previously submitted proxy.

If your shares are held in an account with a broker, bank or other nominee, you should contact your broker, bank or other nominee if you wish to change your vote or revoke your proxy.

Q: Why did I receive a Notice of Internet Availability of Proxy Materials rather than the printed Proxy Statement and 2017 Annual Report to Stockholders?

A: As permitted by SEC rules, we are making our proxy materials available to stockholders electronically via the Internet at www.proxyvote.com. On or about April 23, 2018, we will begin mailing the Notice of Internet Availability to our stockholders containing information on how to access our proxy materials online or request a printed copy of the proxy materials. If you received that notice, then you will not receive a printed copy of our proxy materials unless you request a printed copy by following the instructions contained in the Notice of Internet Availability. Adopting this "notice and access" process allows us to reduce the overall costs, as well as the environmental impact, of printing and mailing our proxy materials.

Q: What does it mean if I receive more than one Notice of Internet Availability of Proxy Materials, proxy card or voting instruction form?

A: If you receive more than one Notice of Internet Availability, proxy card or voting instruction form, this means that you have multiple accounts with our stock transfer agent or with brokers, banks or other nominees. Please follow the instructions set forth on each Notice of Internet Availability, proxy card or voting instruction form you receive to ensure that all your shares are voted.

Q: Who will bear the expenses of this solicitation?

A: The Company will pay the costs and expenses of this solicitation. In addition to soliciting proxies by mailing our proxy materials to stockholders and by making our proxy materials available to stockholders electronically via the Internet, proxies may be solicited by our directors, officers and employees by personal contact, telephone, mail, e-mail or other means without additional compensation. Solicitation of proxies will also be made by employees of Innisfree M&A Incorporated, our proxy solicitation firm, who will be paid a fee of \$20,000, plus reasonable out-of-pocket expenses. As is customary, we will also reimburse banks, brokers, custodians, nominees and fiduciaries for their reasonable costs and expenses incurred in forwarding our proxy materials to beneficial owners of our Common Stock.

Q: Where can I find the voting results of the Annual Meeting?

A: We intend to announce preliminary voting results at the Annual Meeting and publish final voting results in a Current Report on Form 8-K filed with the SEC within four business days of the Annual Meeting. After the Form 8-K has been filed, you may obtain a copy by visiting the SEC's website at www.sec.gov or by visiting our Company website at www.wendys.com/who-we-are.

Q: Whom should I call with questions?

A: Please call Innisfree M&A Incorporated, the Company's proxy solicitor, toll-free at (888) 750-5834 with any questions about the Annual Meeting. Banks, brokers and other nominees may call collect at (212) 750-5833.

PROPOSAL 1

ELECTION OF DIRECTORS

(Item 1 on the Company's Proxy Card)

As of the date of this Proxy Statement, there are 12 members of our Board of Directors.

One of the Company's current directors, Emil J. Brolick, will conclude his service on the Board when his term expires at the Annual Meeting, after having served as a member of our Board since September 2011 when he joined the Company as our President and Chief Executive Officer. Mr. Brolick served as our President until January 2016 and as our Chief Executive Officer until his retirement from management duties with the Company in May 2016. He continued to serve on the Board upon his retirement to ensure continuity of leadership and strategic focus for the Company, and we are grateful for Mr. Brolick's many contributions, outstanding service and distinguished leadership during his executive and Board tenure. The Board has determined that the size of the Board will be reduced from 12 to 11 members upon the expiration of Mr. Brolick's term at the Annual Meeting.

The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has nominated the 11 persons named below for election as directors of the Company at the Annual Meeting. Each of the other nominees is presently serving as a director of the Company, and each of the other nominees was elected as a director at the Company's 2017 annual meeting of stockholders, except for Kristin Dolan.

Ms. Dolan joined the Board of Directors in July 2017 when the Board, upon the recommendation of the Nominating and Corporate Governance Committee, increased the size of the Board from 11 to 12 members and elected Ms. Dolan to serve as a director of the Company for a term expiring at the Annual Meeting. Ms. Dolan was recommended to the Nominating and Corporate Governance Committee by one of our non-management directors after consulting with our Chief Executive Officer and other members of senior management. The Nominating and Corporate Governance Committee, after reviewing Ms. Dolan's qualifications, making a determination as to her independence and considering the needs of the Board of Directors, recommended to the Board that Ms. Dolan be elected to serve as a director of the Company.

The Board of Directors recommends that the 11 nominees named below be elected as directors of the Company at the Annual Meeting. If elected, each of the nominees will hold office until the Company's next annual meeting of stockholders and until his or her successor is elected and qualified, or until his or her earlier death, resignation, retirement, disqualification or removal. The persons named as proxies in the accompanying proxy card will vote **FOR** the election of each of the 11 nominees unless a stockholder directs otherwise.

Each nominee has consented to be named and to serve as a director if elected at the Annual Meeting. The Company is unaware of any reason why any nominee would be unwilling or unable to serve as a director if elected. Should, however, any nominee be unwilling or unable to serve as a director at the time of the Annual Meeting, the persons named as proxies in the accompanying proxy card will vote for the election of such substitute person for such directorship as the Board of Directors may recommend.

REQUIRED VOTE

The affirmative vote of a majority of the votes cast with respect to the election of a director nominee is required to elect such nominee as a director at the Annual Meeting. Abstentions and broker non-votes will not be included in the tabulation of voting results for this proposal.

**THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR
THE ELECTION OF EACH OF THE 11 DIRECTOR NOMINEES.**

CORPORATE GOVERNANCE

BOARD LEADERSHIP STRUCTURE

The Board of Directors is currently led by Nelson Peltz, the Company's non-executive Chairman, and Mr. May, the Company's non-executive Vice Chairman. Mr. Penegor, the Company's Chief Executive Officer, also serves as a member of the Board. Meetings of the Board of Directors are called to order and led by the Chairman or, in his absence, the Vice Chairman, or in the absence of both, the Chief Executive Officer. In the absence of the Chairman, Vice Chairman and Chief Executive Officer, a majority of the directors present may elect any director present as chairman of the meeting. Non-management directors generally meet in executive session without management present after each regularly scheduled Board meeting.

The Board of Directors separated the positions of Chairman and Chief Executive Officer in June 2007 when Mr. Peltz, after serving as Chairman and Chief Executive Officer of the predecessor of the Company from 1993 to June 2007, became our non-executive Chairman. The positions of Chairman and Chief Executive Officer have remained separate since that time, with Mr. Peltz currently serving as our non-executive Chairman and Mr. Penegor currently serving as our Chief Executive Officer.

The Board believes that separating these two positions enables our Chairman to lead the Board of Directors in its oversight and advisory roles and allows our Chief Executive Officer to focus on supervising the Company's day-to-day business operations and developing and implementing the Company's business strategies and objectives. Because of the many responsibilities of the Board of Directors and the significant time and effort required by each of the Chairman and the Chief Executive Officer to perform their respective duties, the Board believes that having separate persons in these roles enhances the ability of each to discharge those duties effectively and, as a result, enhances the Company's prospects for success. The Board also believes that having separate positions of Chairman and Chief Executive Officer provides a clear delineation of responsibilities for each position and fosters greater accountability of management.

The Board of Directors has carefully considered and approved its current leadership structure and believes that this structure is appropriate and in the best interests of the Company and our stockholders, who benefit from the combined leadership, judgment, knowledge and experience of our Chairman, Mr. Peltz, and our Chief Executive Officer, Mr. Penegor.

BOARD MEMBERSHIP CRITERIA AND DIRECTOR NOMINATIONS

The Board of Directors adopted general Board membership criteria, which are set forth in the Company's *Corporate Governance Guidelines*. The Board seeks members from diverse professional and personal backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. The Board's assessment of potential director candidates includes an individual's qualification as independent, as well as consideration of diversity, age, educational background, other board experience and commitments, business and professional achievements, skills and experience in the context of the needs of the Board. The Company does not have a stated policy regarding the diversity of nominees or Board members; rather, the Nominating and Corporate Governance Committee and the Board view diversity (whether based on concepts such as gender, race and national origin, or broader principles such as differences in backgrounds, skills, experiences and viewpoints) as one of many elements to be considered when evaluating a particular candidate for Board membership.

The Nominating and Corporate Governance Committee considers recommendations regarding possible director candidates from any source, including stockholders. Stockholders may recommend director candidates for consideration by the Nominating and Corporate Governance Committee by giving written notice of the recommendation to the Chair of the Nominating and Corporate Governance Committee, in care of the Secretary of the Company at our corporate offices at the address provided under the caption "Contacting the Secretary and Corporate Offices." The notice must: (i) include the candidate's name, age, business address, residence address and principal occupation; (ii) describe the qualifications, attributes, skills or other qualities possessed by the candidate; and (iii) be accompanied by a written statement from the candidate consenting to serve as a director, if elected. Candidates who have been recommended by stockholders will be evaluated by the Nominating and Corporate Governance Committee in the same manner as other potential candidates. Stockholders who wish to formally nominate a candidate for election to the Board may do so provided they comply with the applicable eligibility, notice, content, stock ownership and other requirements set forth in our Certificate of Incorporation and By-Laws, which are described under the caption "Other Matters—Stockholder Proposals for 2019 Annual Meeting of Stockholders."

DIRECTOR INDEPENDENCE

Under the rules and listing standards of NASDAQ, the Board of Directors must have a majority of directors who meet the criteria for independence required by NASDAQ. Pursuant to our *Corporate Governance Guidelines*, the Board is required to determine whether each director satisfies the criteria for independence based on all relevant facts and circumstances. No director qualifies as independent unless the Board of Directors affirmatively determines that such director has no relationship that, in the opinion of the Board, would interfere with his or her exercise of independent judgment in carrying out the responsibilities of a director.

In accordance with the *Corporate Governance Guidelines*, the Board adopted the *Director Independence Categorical Standards* (the “*Independence Standards*”) to assist the Board in determining the independence of the Company’s directors. Copies of the *Corporate Governance Guidelines* and the *Independence Standards* are available on our website at www.wendys.com/who-we-are. Pursuant to the *Independence Standards*, the following relationships will preclude a director from qualifying as independent:

- The director is, or at any time during the past three years was, an employee of the Company, or an immediate family member of the director is, or at any time during the past three years was, an executive officer of the Company;
- The director or an immediate family member of the director accepted, during any 12-month period within the past three years, more than \$120,000 in direct or indirect compensation from the Company, other than: (i) compensation for Board or Board committee service; (ii) compensation paid to an immediate family member who is a non-executive employee of the Company; or (iii) benefits under a tax-qualified retirement plan, or non-discretionary compensation;
- The director or an immediate family member of the director (i) is a current partner of the Company’s outside auditor or (ii) was a partner or employee of the Company’s outside auditor who worked on the Company’s audit at any time during the past three years;
- The director or an immediate family member of the director is employed as an executive officer of another entity where at any time during the past three years any of the Company’s executive officers served on the compensation committee of such other entity; or
- The director or an immediate family member of the director is a partner in, or a controlling stockholder or an executive officer of, any organization (including a non-profit organization, foundation or university) to which the Company made, or from which the Company received, payments for property or services in the current fiscal year or any of the past three fiscal years that exceed the greater of \$200,000 or 5% of the recipient’s consolidated gross revenues for that year, other than (i) payments arising solely from investments in the Company’s securities and (ii) payments under non-discretionary charitable contribution matching programs.

In applying these objective disqualifiers, the Board of Directors will take into account any commentary, interpretations or other guidance provided by NASDAQ with respect to NASDAQ Listing Rule 5605. Under the *Independence Standards*, any relationships or transactions not described above will preclude a director from qualifying as independent only if:

- The director has a “direct or indirect material interest” in such relationship or transaction within the meaning of Item 404(a) of SEC Regulation S-K and the material terms of the relationship or transaction are materially more favorable to the director than those that would be offered at the time and in comparable circumstances to unaffiliated persons; or
- The Board of Directors, in exercising its judgment in light of all relevant facts and circumstances, determines that the relationship or transaction interferes with the director’s exercise of independent judgment in carrying out the responsibilities of a director.

The *Independence Standards* provide that a relationship between the Company and an entity for which a director serves solely as a non-management director is not by itself material.

The Nominating and Corporate Governance Committee and the Board of Directors considered and reviewed certain transactions and relationships identified through responses to annual questionnaires completed by the Company’s directors, as well as other information presented by management related to transactions and relationships during the past three years between the Company, on the one hand, and the directors (including their immediate family members and business, charitable and other affiliates), on the other hand. As a result of these reviews, the Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, affirmatively determined that under applicable NASDAQ rules and the *Independence Standards*, each of Mses. Dolan and Mathews-Spradlin and Messrs. Gilbert, Kass, Levato, May, Rothschild and Winkleblack qualified as an independent director.

In making its independence determinations with respect to Ms. Dolan and Mathews-Spradlin and Messrs. Gilbert, Kass, Levato and Rothschild, the Board noted that these directors did not have any transactions or relationships with the Company during the past three years. In making its independence determinations with respect to Messrs. May and Winkleblack, the Board of Directors considered the following transactions and relationships, each of which was deemed by the Board not to interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director:

- Mr. May is the President and a founding partner of Trian Partners, which, as noted above, is a significant and long-term stockholder of the Company and party to that certain agreement with the Company described under the caption "Certain Relationships and Related Person Transactions." Mr. May also served as President and Chief Operating Officer of the predecessor of the Company from April 1993 through June 2007. The Board of Directors considered the relationship of Trian Partners and its partners with the Company and the presence of Trian Partners representatives (including Nelson Peltz) on the board of directors of Sysco Corporation, which is one of the Company's suppliers.
- Mr. Winkleblack serves as a non-management director of Performance Food Group Company, a leading marketer and distributor of food and food-related products across the United States. The Company and its franchisees purchased food, beverages and supplies from Performance Food Group Company.

One of the Company's former directors, Janet Hill, served on the Board of Directors until May 2017 when her term expired at the Company's 2017 annual meeting of stockholders. In February 2017, the Board, upon the recommendation of the Nominating and Corporate Governance Committee, affirmatively determined that Ms. Hill qualified as an independent director under applicable NASDAQ rules and the *Independence Standards*.

In accordance with the *Corporate Governance Guidelines*, directors are expected to attend the Company's annual meetings of stockholders. Each of the Company's directors who were then serving on the Board attended the Company's 2017 annual meeting of stockholders.

Committee Functions:

As more fully described in its charter, the primary purpose of the Compensation Committee is to assist the Board of Directors in discharging the Board's responsibilities relating to compensation of the Company's directors and executive officers, including administering any salary, compensation and incentive plans that the Committee is designated by the Board to administer. In carrying out its duties, the Compensation Committee:

- Reviews and approves the goals and objectives relevant to compensation of our Chief Executive Officer, evaluates the Chief Executive Officer's performance in light of those goals and objectives and determines (or recommends to the Board for determination) the compensation of the Chief Executive Officer based on such evaluation;
- Reviews and approves the compensation of our other executive officers, oversees an evaluation of the compensation program's effectiveness for such officers and determines the compensation of such officers upon considering any other relevant matters, including any recommendations made by the Chief Executive Officer and the Compensation Committee's independent outside compensation consultant;
- Reviews and approves the overall compensation philosophy, policies and procedures for the Company's executive officers, including the use of employment agreements, severance plans and arrangements, deferred compensation plans and other executive benefits and perquisites;
- Reviews and advises the Board with respect to executive officer incentive programs, compensation plans and equity-based plans, and administers such plans as the Board designates, which includes the determination of awards to be granted to executive officers and other employees under such plans and evaluation of achievements of established plan goals and objectives;
- Reviews the competitiveness and appropriateness of our non-employee director compensation program and approves (or makes recommendations to the Board) with respect to non-employee director compensation and perquisites;

- Provides recommendations to the Board on compensation-related proposals to be considered at stockholder meetings (including say-on-pay and say-on-frequency advisory votes), reviews the results of any stockholder advisory votes on executive compensation matters and considers whether to implement (or recommend to the Board the implementation of) any modifications to the Company's compensation programs and policies in response to such voting results;
- Performs certain settlor functions with respect to the Company's 401(k) plan and other pension, profit sharing, thrift or other retirement plans and ERISA welfare benefit plans (collectively, the "ERISA Plans");
- Reviews, approves and adopts any new retirement plan, or any amendment to the Company's 401(k) plan or other retirement plan, that would result in a material cost increase or material change in benefit levels, subject to applicable plan documents;
- Appoints, monitors and removes (if necessary), members of the Investment Review Committee and Benefits Administrative Committee (two committees composed of Company employees responsible for oversight of our ERISA Plans), which includes conducting annual reviews of such committee and modifying such committees' responsibilities as the Compensation Committee considers appropriate (such as the delegation of specific compliance monitoring, plan review or other ERISA plan-related responsibilities); and
- Conducts an annual review of each ERISA Plan's operations (except as otherwise specified in the applicable plan documents).

Performance Compensation Subcommittee. The Performance Compensation Subcommittee (the “Subcommittee”) was also established by the Board in 1997 to administer the Company’s compensation plans that are intended to meet the requirements of Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), including the Company’s 2010 Omnibus Award Plan, as amended (the “2010 Omnibus Award Plan”), and any other salary, compensation and incentive plans that the Subcommittee is designated by the Board to administer.

Independence. The Board has determined that each member of the Compensation Committee and the Subcommittee satisfies the independence requirements of NASDAQ. In addition, each member of the Subcommittee is an “outside director” for purposes of Section 162(m) of the Internal Revenue Code and a “non-employee director” for purposes of Section 16 of the Exchange Act.

Compensation Committee Report. The report of the Compensation Committee with respect to 2017 is provided below under the caption “Compensation Committee Report.”

Additional information about the actions taken by the Compensation Committee and Subcommittee in 2017 with respect to the executive compensation of our NEOs is discussed in the “Compensation Discussion and Analysis” and under the caption “Compensation Committee Report.” The actions taken by the Compensation Committee in 2017 regarding the compensation of our non-employee directors are discussed under the caption “Compensation of Directors.”

Authority to Delegate

The Compensation Committee and the Subcommittee each may delegate authority to subcommittees composed of one or more of its members, and also may delegate authority to its Chair when it deems appropriate, subject to the terms of its charter. The Compensation Committee and the Subcommittee also may delegate to one or more directors or officers the authority to make grants of equity-based compensation to eligible employees who are not executive officers, subject to the terms of the Company’s compensation plans and applicable legal and regulatory requirements. Any director or officer to whom the Compensation Committee or the Subcommittee grants such authority must regularly report any grants so made, and the Committee or the Subcommittee may revoke any delegation of authority at any time.

Role of Compensation Consultants in the Executive Compensation Process

In carrying out its responsibilities, the Compensation Committee periodically reviews and evaluates the components and competitiveness of the Company’s executive compensation program, using information drawn from a variety of sources, including information provided by outside compensation consultants, legal counsel and other advisors, as well as the Committee’s own experience in recruiting, retaining and compensating executives. The Compensation Committee has the sole authority to retain and oversee the work of outside compensation consultants, legal counsel and other advisors in connection with discharging its responsibilities, including the sole authority to determine such consultants’ or advisors’ fees and other retention terms. The Company provides such funding as the Compensation Committee determines to be necessary or appropriate for payment of compensation to consultants and advisors retained by the Committee.

Since December 2009, the Compensation Committee has engaged Frederic W. Cook & Co., Inc. (“FW Cook”) to serve as its independent outside compensation consultant. Representatives from FW Cook regularly attend Compensation Committee meetings and provide advice to the Committee on a variety of compensation-related matters. The Compensation Committee seeks input from FW Cook on competitive market practices, including evolving trends and best practices. During 2017, FW Cook assisted the Compensation Committee with respect to the design of the Company’s executive compensation program and determination of targeted compensation levels thereunder, including base salary levels, the 2017 annual cash incentive and long-term equity incentive awards, and the overall mix of total direct compensation for the Chief Executive Officer and other senior executives. FW Cook also advised the Compensation Committee in connection with its review and approval of compensation packages offered to executives, as well as the design of and modifications to the executive compensation program for 2018. At the request of the Compensation Committee, FW Cook periodically reviews the compensation components and levels of the Company’s executive officers and advises the Committee on the appropriateness of the Company’s executive compensation program in the context of its overall compensation philosophy. Under the terms of its engagement, FW Cook does not provide any other services to the Company and works with management only on matters for which the Compensation Committee has oversight responsibility. The Compensation Committee has assessed the independence of FW Cook pursuant to applicable SEC and NASDAQ rules (including consideration of the six independence factors specified in NASDAQ Listing Rule 5605(d)(3)(D)) and concluded that no conflict of interest exists that would prevent FW Cook from serving as an independent compensation consultant to the Committee.

Management provides information and makes recommendations to the Compensation Committee from time to time regarding the design of the Company's executive compensation program. In formulating its recommendations, management reviews information from a variety of sources, including information provided by outside compensation consultants. During 2017, management engaged Willis Towers Watson to serve as management's outside compensation consultant. Willis Towers Watson provided market data and other information to management in connection with the design of the Company's executive compensation program, including a review of base salary, total cash compensation and total direct compensation levels for the Chief Executive Officer and other senior executives. Willis Towers Watson also advised management on potential voting recommendations by proxy advisory firms with respect to the Company's executive compensation program. Certain of the market data and other information provided by Willis Towers Watson was also made available to the Compensation Committee and its independent outside compensation consultant, FW Cook.

Management's Role in the Executive Compensation Process

The Company's executive officers provide support and assistance to the Compensation Committee and the Subcommittee on a variety of compensation-related matters. Each year, the Chief Executive Officer and other senior executives provide input to the Subcommittee regarding the design of the Company's annual cash incentive plan and annual long-term equity incentive plan, including proposed performance goals and objectives and a list of participants eligible to receive awards. The Subcommittee then determines the structure and components of the annual cash incentive and long-term equity incentive awards after considering management's recommendations, as well as input from the Subcommittee's independent outside compensation consultant. With respect to performance-based awards, following the completion of each performance period, the Chief Financial Officer provides the Subcommittee with a certification of the Company's actual performance relative to the stated performance goals and the resulting payouts to participants based on such performance. Under the terms of the annual cash incentive plan, payouts to executives other than the Chief Executive Officer can be adjusted by the Subcommittee by up to +/-25% (subject to the maximum incentive award opportunities established by the Subcommittee for purposes of Section 162(m) of the Internal Revenue Code) at the recommendation of the Chief Executive Officer, based on his assessment of each executive's individual performance. The Subcommittee then determines the actual incentive payouts to eligible participants after taking into account Company and individual performance and any other relevant facts and circumstances.

The Chief Executive Officer and other executives with expertise in compensation, benefits, tax, accounting and legal matters provide information and make recommendations to the Compensation Committee from time to time on compensation-related matters, including proposed employment, retention, relocation, severance and other compensatory arrangements, base salary levels, annual cash incentive plans, long-term equity incentive awards, annual compensation risk assessments and evolving trends and best practices in executive compensation. Executives also present information to the Compensation Committee regarding the Company's business and financial performance, strategic initiatives, legal and regulatory developments and other relevant matters. In accordance with applicable NASDAQ rules, the Chief Executive Officer may not be present during any voting or deliberations by the Compensation Committee or Subcommittee with respect to his compensation.

Compensation Committee Interlocks and Insider Participation

Six non-management directors served on the Compensation Committee during 2017: Ms. Hill (until her retirement from the Board in May 2017), Ms. Mathews-Spradlin and Messrs. Kass, Levato, May (upon his appointment to the Compensation Committee in May 2017) and Rothschild.

During 2017: (i) no member of the Compensation Committee had ever served as an officer or employee of the Company, except that Mr. Levato served as the Company's Executive Vice President and Chief Financial Officer from April 1993 to August 1996 and Mr. May served as President and Chief Operating Officer of the predecessor of the Company from April 1993 to June 2007; (ii) no member of the Compensation Committee was party to any related person transaction or other relationship requiring disclosure under Item 404 of SEC Regulation S-K, except that, as previously noted above, Mr. May is the President and a founding partner and Principal of Trian Partners, which is a significant and long-term stockholder of the Company and party to that certain agreement with the Company described under the caption "Certain Relationships and Related Person Transactions;" and (iii) none of the Company's executive officers served as a member of the board of directors or the compensation committee, or a similar committee, of any other entity, one of whose executive officers served on the Board of Directors, the Compensation Committee or the Subcommittee.

Peter H. Rothschild (Chair)
Joseph A. Levato
Arthur B. Winkleblack

As more fully described in its charter, the Nominating and Corporate Governance Committee assists the Board by:

- Identifying individuals qualified to become members of the Board, consistent with any guidelines and criteria approved by the Board;
- Considering and recommending director nominees for the Board to select in connection with each annual meeting of stockholders;
- Considering and recommending nominees for election to fill any vacancies on the Board and to address related matters;
- Recommending to the Board the committee assignments of directors;
- Developing and recommending to the Board corporate governance principles applicable to the Company; and
- Overseeing an annual evaluation of the Board's performance.

Independence. The Board of Directors has determined that each member of the Nominating and Corporate Governance Committee satisfies the independence requirements of NASDAQ.

OTHER BOARD COMMITTEES

Capital and Investment Committee. The Capital and Investment Committee is responsible for approving the investment of the Company's excess funds (*i.e.*, funds not currently required for operations or acquisitions) and exercising approval authority for certain transactions (such as capital expenditures, acquisitions, dispositions and borrowings) within amounts specified by the Board.

Corporate Social Responsibility Committee. The Corporate Social Responsibility Committee meets at least once annually and oversees and reviews the Company's various social responsibility initiatives, as well as related risks and opportunities. The Corporate Social Responsibility Committee is also responsible for reviewing and approving the Company's charitable contributions (subject to review and approval by the Audit Committee of any proposed charitable contribution that would constitute a related person transaction) and recommending to the Board any changes to the maximum amount of charitable contributions that may be made by the Company in any fiscal year.

Executive Committee. During intervals between meetings of the Board, the Executive Committee may exercise all of the powers and authority of the Board in the management of the business and affairs of the Company, including, without limitation, all such powers and authority as may be permitted under Section 141(c)(2) of the Delaware General Corporation Law.

Technology Committee. In November 2017, the Board established the Technology Committee to assist the Board in discharging the Board's oversight responsibilities relating to information technology and cybersecurity matters involving the Company's digital customer engagement initiatives, including restaurant point-of-sale systems, digital ordering tools (such as kiosks, online ordering capabilities and mobile ordering applications) and digital and mobile customer loyalty programs. To the extent practicable, the Technology Committee will also review with management any supply chain-related technology matters.

EXECUTIVE SESSIONS OF THE BOARD

The Board of Directors holds regularly scheduled executive sessions in which non-management directors meet without any members of management present. The Chairman or, in his absence, the Vice Chairman, presides over these executive sessions. The Board also meets at least twice a year in executive session with only independent directors present. Annually, the Chair of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee rotate presiding over these executive sessions, with Mr. Rothschild presiding in 2017.

BOARD'S ROLE IN RISK OVERSIGHT

The Board of Directors provides oversight with respect to the Company's risk assessment and risk management activities, which are designed to identify, prioritize, assess, monitor and mitigate material risks to the Company, including financial, operational, compliance and strategic risks. While the Board has primary responsibility for risk

oversight, the Board's standing committees support the Board by regularly addressing various risks in their respective areas of responsibility. The Audit Committee focuses on financial risks, including reviewing with management, the Company's internal auditors and the Company's independent registered public accounting firm the Company's major risk exposures (with particular emphasis on financial risk exposures), the adequacy and effectiveness of the Company's accounting and financial controls and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies. The Compensation Committee considers risks presented by the Company's compensation policies and practices for its executive officers and other employees, as discussed below under the caption "Compensation Risk Assessment." The Nominating and Corporate Governance Committee reviews risks related to the Company's corporate governance structure and processes, including director qualifications and independence, stockholder proposals related to governance, succession planning and the effectiveness of our *Corporate Governance Guidelines*. The Board's risk oversight function is also supported by a Risk Oversight Committee composed of members of senior management. The Risk Oversight Committee is exclusively devoted to prioritizing and assessing all categories of enterprise risk, including risks delegated by the Board of Directors to the Board committees, as well as other operational, compliance and strategic risks facing the Company. Each of these committees reports directly to the Board.

The Board believes that its current leadership structure supports the risk oversight function of the Board. Having the roles of Chief Executive Officer and Chairman filled by separate individuals allows the Chief Executive Officer to lead senior management in its supervision of the Company's day-to-day business operations, including the identification, assessment and mitigation of material risks, and allows the Chairman to lead the Board in its oversight of the Company's risk assessment and risk management activities.

COMPENSATION RISK ASSESSMENT

As part of the Board's risk oversight function, the Compensation Committee conducts an annual review of compensation-related risk. In February 2018, the Compensation Committee and its independent advisors met with management to review management's conclusion that the Company's compensation policies and practices for its employees do not create risks that are reasonably likely to have a material adverse effect on the Company. Management reviewed with the Compensation Committee the various factors underlying management's conclusion, including the performance objectives and target levels used in connection with the Company's incentive awards, as well as the features of the Company's compensation plans that are designed to mitigate compensation-related risk, including the following:

- Plan and award metrics are tied directly to overall profitability;
- Various methods for delivering compensation are utilized, including cash-based and equity-based incentives with different time horizons that provide a balanced mix of both short-term and long-term incentives;
- Performance-based awards have fixed maximum payouts;
- The Company has the right to reduce or eliminate payouts under incentive awards through the use of negative discretion, including if a participant's behavior is in conflict with the Company's *Code of Business Conduct and Ethics* or any other Company policy or procedure;
- Annual incentive payouts are not made until the Company's financial statements are audited by the Company's independent registered public accounting firm and plan results are certified by the Chief Financial Officer; and
- All incentive awards granted under the 2010 Omnibus Award Plan contain clawback provisions in favor of the Company in the event the Company is required to materially restate its financial statements or a court determines that a participant has engaged in a "detrimental activity" (as defined in the 2010 Omnibus Award Plan).

With respect to the Company's compensation program for executive officers, the Compensation Committee concluded that this program is appropriately designed to support the Company's business objectives by linking executive compensation to individual performance, the Company's attainment of annual and multi-year operating and financial goals and the creation of long-term stockholder value. The executive compensation program includes the following features that are designed to prevent risk-taking that could have a material adverse effect on the Company:

- Base salaries represent a sufficient component of executives' total cash compensation so that excessive risk-taking that might be associated with performance-based compensation is mitigated;
- Performance goals and metrics under the Company's annual cash incentive plan are based upon realistic operating levels that can be attained without taking inappropriate risks or deviating from normal operations or approved strategies;

- Long-term equity incentive awards are based in part upon the Company's performance over a multi-year period, which mitigates against the taking of short-term risk;
- Incentive compensation plan design allows for adjustment of performance metrics for nonrecurring and other special items so that executives are rewarded based on the Company's actual operating results;
- Equity-based awards represent a significant portion of executives' total compensation, which links executive compensation to the long-term value of our Common Stock; and
- The Board of Directors adopted the *Stock Ownership and Retention Guidelines for Executive Officers and Directors* that require significant stock ownership by executives, which further aligns the interests of executives with the interests of stockholders.

CODE OF BUSINESS CONDUCT AND ETHICS AND RELATED GOVERNANCE POLICIES

The Board of Directors has adopted several governance policies to support its risk oversight function, including our *Code of Business Conduct and Ethics* (the "Code of Ethics"), *Securities Trading Policy* and *Public Disclosure Policy*.

Code of Ethics. The *Code of Ethics* is designed to ensure that the Company's business is conducted with integrity. The *Code of Ethics* sets forth the Company's standards and expectations regarding business relationships, franchisee relations, compliance with law, business conduct, conflicts of interest, use of Company assets, confidential information and recording and reporting information. Our *Code of Ethics* applies to all of the Company's directors, officers and employees, including the principal executive officer, principal financial officer and principal accounting officer. A copy of the *Code of Ethics* is available on our website at www.wendys.com/who-we-are. Any amendments to or waivers from the *Code of Ethics* that are required to be disclosed by applicable SEC rules will also be posted on the Company's website.

Securities Trading Policy. The *Securities Trading Policy* is intended to assist the Company and its directors, officers and employees in complying with federal and state securities laws and avoiding even the appearance of questionable or improper conduct in connection with securities transactions. Under our *Securities Trading Policy*, covered persons:

- May not trade in Company securities if they are aware of material nonpublic information;
- May not trade in the securities of another company if they are aware of material nonpublic information about that company which was obtained during the course of their employment with the Company;
- May not speculate in Company securities through engaging in puts, calls or short positions;
- May not engage in any other hedging transactions without pre-clearance from the Company's legal department;
- May not share material nonpublic information with others or recommend to anyone the purchase or sale of any securities when they are aware of material, undisclosed information; and
- Must comply with certain pre-clearance and blackout procedures described in the policy.

Public Disclosure Policy. The *Public Disclosure Policy* is intended to support the Company's commitment to providing timely, transparent, consistent and credible information to the investing public, consistent with legal and regulatory requirements, including the SEC's Regulation FD (Fair Disclosure). BOARD'S ROLE IN SUCCESSION PLANNING

As reflected in our *Corporate Governance Guidelines*, one of the key responsibilities of the Board of Directors is planning for Chief Executive Officer succession. Succession planning addresses both contingency planning for emergencies (such as death or disability) and succession in the ordinary course of business (such as retirement). The Board's goal is to ensure senior leadership continuity by overseeing the development of executive talent and planning for the efficient succession of the Chief Executive Officer. The Board has delegated oversight responsibility for succession planning to the Nominating and Corporate Governance Committee, which periodically reviews succession plans and makes recommendations to the Board in the event of an emergency or the retirement of the Chief Executive Officer.

The Board of Directors, with input from the Nominating and Corporate Governance Committee, conducts a periodic review of senior leadership succession plans. During this review, the Board discusses with the Chief Executive Officer and Chief People Officer organizational needs, competitive challenges, candidates for senior leadership positions, succession timing for those positions and development plans for high-potential candidates.

BOARD AND COMMITTEE EVALUATIONS

Pursuant to our *Corporate Governance Guidelines*, the Board of Directors and its committees conduct annual self-evaluations under the direction of the Nominating and Corporate Governance Committee. The evaluations are intended to provide the Board and its committees with an opportunity to evaluate their performance for the purpose of improving Board and committee processes and effectiveness. As part of the Board's self-evaluation, directors consider and provide feedback on a range of issues, including interactions with and information flow from management, nature and scope of agenda items, adequacy and efficiency of meetings, Board structure and composition, committee composition and responsibilities, processes to ensure open communication and timely action, the effectiveness of executive sessions and consideration of stockholder value and interests. Committee self-evaluations are led by the committee chairs and include, among other topics, a review of the roles and responsibilities set forth in the committee charters, interactions with and information flow from management, nature and scope of agenda items, adequacy and efficiency of meetings, committee structure and composition, committee resources and the role of outside consultants and advisors. The results of the committee self-evaluations are discussed with the full Board.

2017 EXECUTIVE SUMMARY

In 2017, the Company reported another year of strong performance and global growth, with our North America and International restaurants contributing to our continued strategic and financial progress. We achieved 20 consecutive quarters of positive North America same-restaurant sales, global systemwide sales eclipsed \$10 billion for the first time in Company history, North America average unit volumes reached an all-time high of \$1.61 million, and we recorded our highest global net new restaurant growth since 2004. The Company significantly increased cash flows, and our overall operating and financial results demonstrate the vitality of the Wendy's brand and validate our successful transition to a predominantly franchised business model. During 2017, we drove significant improvements in our economic model, continued to strengthen the Wendy's franchise system and created significant value for stockholders. Looking forward, the Company is poised to achieve our 2020 global growth goals by building upon the Company's current operating momentum, growing the customer base of our restaurants, expanding brand access, enhancing restaurant-level profitability and achieving savings through continued execution of our general and administrative cost savings plan.

The Company's key operating and financial results for 2017, along with a summary of key strategic achievements, are highlighted below. **Please refer to Annex A for a reconciliation of the non-GAAP financial measures (adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share and free cash flow) referred to below and in this Compensation Discussion and Analysis.**

- **Improving the Core Economic Model**
 - Generated \$406.2 million of adjusted EBITDA, a 3.7% increase year-over-year, despite the loss of approximately \$57.0 million of adjusted EBITDA attributed to the ownership of 295 fewer Company-operated restaurants. An increase in franchise net rental income, royalties and fees and significant general and administrative cost savings contributed to the improvement.
 - Improved adjusted EBITDA margin¹ by 590 basis points to 33.2%.
 - Achieved North America system same-restaurant sales growth of 2.0% (3.6% on a two-year basis).
 - Improved cash flows from operations by 33.2% to \$251.6 million.
 - Attained positive year-over-year free cash flow² of \$169.9 million, with year-over-year growth of \$131.0 million.
 - Delivered adjusted earnings per share growth of 7.5% to \$0.43.

¹ The Company calculates adjusted EBITDA margin by dividing adjusted EBITDA by total revenues. (See Annex A for the calculation of adjusted EBITDA margin for 2017.)

² The Company defines "free cash flow" as cash flows from operations minus capital expenditures, both as reported under GAAP. Free cash flow is a non-GAAP financial measure that is used by the Company as an internal measure of liquidity. (See Annex A for a reconciliation of non-GAAP financial measures.)

- **Transforming the Wendy's Brand through Global Restaurant Development and Image Activation**
 - Continued to contemporize and elevate the restaurant experience and drive increased customer traffic and sustained sales through our global growth strategy, driven by new restaurant development and image activation.
 - Achieved 1.5% global net new restaurant growth, our highest growth rate since 2004, with North America contributing 0.5% and International contributing 14.8% net new restaurant growth in 2017. We opened 174 total new restaurants and 97 net new restaurants globally in 2017.
 - Accelerated the enhancement of the Wendy's brand image by reimagining 551 North America restaurants in 2017, an increase from the 521 reimages completed in 2016. At the end of 2017, 43% of Wendy's global system restaurants were image activated, ahead of prior Company expectations.
- **Strengthening the Wendy's System**
 - Remained focused on recording strong 2017 results and fortifying the Wendy's brand under our predominantly franchised business model, which facilitated our successful attainment of 20 consecutive quarters of positive North America same-restaurant sales, two consecutive years of positive global net new restaurant growth and all-time high North America average unit volumes (AUVs) of \$1.61 million.
 - Further optimized our system by strengthening our franchisee base through the facilitation of franchisee-to-franchisee transfers of 540 restaurants in 2017 to new and existing franchisees who are well-capitalized and committed to long-term growth, high operating standards and our global growth strategy.
- **Creating Significant Value for Stockholders**
 - Returned approximately \$196.0 million in cash to stockholders through \$127.4 million in share repurchases and \$68.3 million in dividends.
 - Delivered one-, three- and five-year total stockholder return of 24%, 96% and 289%, respectively.
 - Increased our quarterly dividend rate by 8% to 7.0 cents per share in the first quarter of 2017, then subsequently announced in February 2018 an additional 21% increase from 7.0 cents per share to 8.5 cents per share.
 - Announced a new \$175 million share repurchase authorization from our Board of Directors in February 2018, which is a 17% increase compared to the prior authorization.

The following graph illustrates our total stockholder return over the past three years relative to the S&P MidCap 400[®] index, assuming an initial investment of \$100 and reinvestment of all dividends when received.

TOTAL STOCKHOLDER RETURN

The Wendy's Company vs. S&P Midcap 400[®]

The Company’s favorable performance in 2017 was reflected in the compensation delivered to our senior executives, as described in this Compensation Discussion and Analysis and set forth under the “2017 Summary Compensation Table” and the related compensation tables, notes and narrative that follow. Our North America system same-restaurant sales and adjusted EBITDA performance resulted in an annual cash incentive payout at 109.0% of target, prior to adjustment for individual performance (other than for the Chief Executive Officer). In addition, performance unit awards granted to senior executives in February 2015 were based on two equally weighted performance measures, relative total stockholder return and the Company’s cumulative adjusted earnings per share performance over the three-year performance period beginning December 29, 2014 and ending December 31, 2017, and resulted in an overall weighted attainment of 167.9% of target.

Our stockholders expressed positive support of our compensation governance through their 2017 annual say-on-pay advisory vote, and the Compensation Committee remains committed to best practices in compensation governance consistent with our pay-for-performance philosophy. The following table highlights key features of our executive compensation program that demonstrate the Company’s ongoing commitment to protecting stockholder interests through sound compensation governance practices.

WHAT WE DO	WHAT WE DO NOT DO
<ul style="list-style-type: none"> ✓ Hold an annual say-on-pay advisory vote for stockholders. ✓ Use an appropriate mix of cash and non-cash compensation, with an emphasis on variable (at-risk) compensation. ✓ Engage independent outside compensation consultants and utilize market and industry data to ensure we compensate fairly and competitively, but not excessively. ✓ Set meaningful performance goals at the beginning of annual and multi-year performance periods. ✓ Balance short-term and long-term compensation to discourage short-term risk taking at the expense of long-term results. ✓ Mitigate undue risk-taking by utilizing multiple performance metrics, imposing caps on individual payouts, employing a clawback policy for equity awards and performing an annual compensation risk assessment. ✓ Limit accelerated vesting of equity awards by requiring a “double trigger” upon a change in control. ✓ Set significant stock ownership and retention guidelines for the Chief Executive Officer and other executives. 	<ul style="list-style-type: none"> ⊗ Provide annual or multi-year incentive guarantees. ⊗ Provide excessive perquisites or benefits to executives. ⊗ Grant equity awards at less than fair market value. ⊗ Offer pension benefits to executives. ⊗ Pay dividends on equity awards that are not earned or vested. ⊗ Gross-up excise taxes upon a change in control. ⊗ Reprice underwater stock options. ⊗ Permit speculative trading, hedging or derivative transactions in our Common Stock.

A PHILOSOPHY OF PAY-FOR-PERFORMANCE

Objectives of the Executive Compensation Program

The compensation program for the Company’s senior executives is designed to support the Company’s business objectives by linking executive compensation to individual performance, the Company’s attainment of annual and multi-year operating and financial goals and the creation of long-term stockholder value. The primary objectives of the executive compensation program are to:

- Motivate achievement of the Company’s performance and strategic business goals;
- Attract and retain highly qualified executives by paying competitive compensation levels if performance commensurate to peers is achieved; and
- Align the interests of executives with those of the Company’s stockholders.

Emphasis on Variable Compensation

The Compensation Committee believes that a substantial portion of the total compensation for senior executives should be variable (*i.e.*, at-risk) and tied to Company performance. Variable compensation is dependent on our financial and operational success and the achievement of strategic business objectives that create value for our stockholders. This pay-for-performance philosophy aligns executive pay with the Company’s business objectives and ensures that executives are responsive and accountable to stockholder interests.

Total direct compensation for senior executives is composed of three elements: (i) base salary; (ii) annual cash incentives; and (iii) long-term equity incentives. The charts below illustrate how these three components (at targeted levels of performance) were allocated for 2017 to create the overall pay mix for the Chief Executive Officer and the other NEOs as a group.

As reflected by the charts, performance-based incentives constitute the most significant portion of total direct compensation for senior executives, consistent with the Company’s pay-for-performance philosophy. By utilizing a high proportion of at-risk compensation, the executive compensation program offers senior executives an opportunity for increased compensation in the event of successful Company performance, matched with the prospect of reduced compensation in the event Company performance goals are not achieved.

Alignment of CEO Compensation and Company Performance

Our annual cash incentives and long-term equity incentives are designed to motivate and reward executive performance based on the Company’s achievements under the four key performance metrics of our 2017 annual and long-term incentive plans.³ Highlighting the alignment between our executive pay and Company performance, the charts below show the total direct compensation of our Chief Executive Officer as compared to the Company’s performance under these four metrics.

CEO Compensation

CEO COMPENSATION

This chart indicates the total direct compensation of our Chief Executive Officer for each of 2015, 2016 and 2017, as reported in the “2017 Summary Compensation Table.” Mr. Brolick’s compensation is shown for 2015 when he served as our Chief Executive Officer, and the amounts shown for 2016 and 2017 reflect only Mr. Penegor’s compensation. (Mr. Brolick retired from management duties in May 2016. As part of the Chief Executive Officer succession plan, Mr. Penegor became our President in January 2016 and then succeeded Mr. Brolick as Chief Executive Officer effective in May 2016.)

³ See Annex A for a reconciliation of non-GAAP financial measures. The Company’s 2015 adjusted EBITDA and adjusted earnings per share have been reclassified to conform to the 2016 presentation to reflect (i) the Company’s sale of its bakery operations in May 2015 and presentation of its bakery results as discontinued operations and (ii) changes to the Company’s presentation of its System Optimization initiative in its statements of operations beginning in 2015. The Company has provided reclassified statements of operations and updated reconciliations of non-GAAP financial measures on the *Investors* section of its website under “Non-GAAP Financial Measures.”

Same-Restaurant Sales Growth

20 Consecutive Quarters of Positive SRS in North America

SAME-RESTAURANT SALES

On a one- and two-year basis, the Company experienced positive same-restaurant sales growth that was achieved by our focus on driving profitable customer counts supported by a balanced marketing strategy. As a result of our efforts, in fourth quarter 2017, we recorded 20 consecutive quarters of positive same-restaurant sales in North America.

Adjusted EBITDA

Strong Earnings and Adjusted EBITDA Margin Growth

ADJUSTED EBITDA

The Company's continued brand transformation and aim to generate higher quality of earnings resulted in a favorable increase in adjusted EBITDA margin from 21.0% in 2015 to 33.2% in 2017. Our adjusted EBITDA remained resilient and increased from \$392 million in 2015 to \$406 million in 2017, despite a significant reduction in ownership of Company-operated restaurants during that three-year period.

Adjusted Earnings Per Share

Solid and Consistent Earnings Growth

ADJUSTED EARNINGS PER SHARE

The strength of the Company's business model has generated consistent adjusted earnings per share accretion that creates value for our stockholders, as demonstrated by the increase in our adjusted earnings per share from \$0.29 at the end of 2014 to \$0.43 at the end of 2017, a 48% increase over this three-year period.

Total Stockholder Return

Delivered Significant 3-Year TSR of 96%

TOTAL STOCKHOLDER RETURN

Our stockholders were rewarded by the Company's continued growth in our stock price and dividends, including an increase in the market price of our stock from \$8.92 on the last trading day of 2014 to \$16.42 on the last trading day of 2017, an 84% increase over this three-year period. We also increased our quarterly cash dividend rate from 5.5 cents per share in first quarter 2015 to 7.0 cents per share in fourth quarter 2017, which was a 27.3% increase over this three-year period.

As discussed under the “Emphasis on Variable Compensation” caption above, a substantial portion of our NEO compensation is at-risk compensation. This correlation between executive compensation and Company performance and business results is an important component of our executive compensation strategy, which has been effective in establishing a strong alignment between the Company’s executive compensation and the interests of our stockholders, as well as our ability to attract, motivate and retain executive talent. This pay-for-performance strategy has resulted in Chief Executive Officer compensation that is reasonable and directly aligned with the Company’s business objectives.

ELEMENTS OF EXECUTIVE COMPENSATION

The primary components of the executive compensation program are described in the following table.

COMPONENT	PURPOSE
Base Salary	<ul style="list-style-type: none"> Attract and retain highly qualified executives by providing a competitive level of fixed cash compensation that reflects the experience, responsibilities and performance of each executive.
Annual Cash Incentives	<ul style="list-style-type: none"> Align executive pay with Company performance by motivating and rewarding executives over a one-year period based on the achievement of strategic business objectives.
Long-Term Equity Incentives	<ul style="list-style-type: none"> Align the interests of executives with the interests of stockholders and retain highly qualified executives by motivating and rewarding executives to achieve multi-year strategic business objectives. Create a direct link between executive pay and the long-term performance of our Common Stock.
Perquisites and Benefits	<ul style="list-style-type: none"> Provide limited perquisites and benefits, consistent with competitive market practice.

HOW EXECUTIVE COMPENSATION IS DETERMINED

On an annual basis, the Compensation Committee reviews the effectiveness of our executive compensation philosophy, evaluates the performance of our senior executives and establishes the executive compensation program for the then-current year. In determining the appropriate compensation package for senior executives, the Compensation Committee, in consultation with its independent outside compensation consultant, FW Cook, considers a number of factors, including: (i) individual and Company performance; (ii) scope of responsibilities and relative importance of each role; (iii) qualifications and experience; (iv) competitive market practice; (v) internal pay equity; (vi) alignment with stockholder interests; and (vii) creation of long-term stockholder value.

For 2017, consistent with prior years, the Compensation Committee utilized the following approach to guide the Committee in making executive compensation decisions:

- Targeted Compensation Levels.** Compensation levels for base salary, annual cash incentives and long-term equity incentives are targeted at a competitive range of market median (*i.e.*, +/-10% for base salary, +/-15% for target total cash compensation and +/-20% for target total direct compensation), with realized actual compensation above or below that median range based on individual and Company performance. Individual executive compensation levels may be set above or below the median range depending on unique situations, such as recruiting considerations for new hires, sustained high performance and the degree to which the Company position has greater or lesser responsibilities than the comparable market or industry position.
- Competitive Market Reference.** Data from companies with comparable revenue size included in the *Willis Towers Watson U.S. CDB General Industry Executive Compensation Survey Report* (“General Industry Data”) is used as a reference point to evaluate the overall competitiveness of our executive compensation levels.

Also, data from the *Chain Restaurant Total Rewards Association Executive and Management Compensation Survey Report* (“Restaurant Industry Data”) is used as a secondary reference for relevant positions.⁴

- **Annual Cash Incentives.** The performance measures utilized for annual cash incentives are focused on our key performance metrics that measure earnings and growth, with adjustments of up to +/-25% to calculated payouts based on individual performance for executives other than the Chief Executive Officer.
- **Long-Term Equity Incentives.** Long-term equity incentive awards consist of (i) performance units that are tied to the Company’s achievement of two key performance metrics that measure stockholder value creation and market performance over a three-year performance period and (ii) stock options that vest over three years.

The Compensation Committee believes this approach continues to be effective in maintaining a strong link between executive compensation and Company performance, as reflected by the Company’s strong earnings and sales growth in 2017, the continued transformation of the Wendy’s brand and the Company’s ability to attract and retain a highly qualified and motivated leadership team.

Incentive Compensation Performance Metrics

In determining the appropriate incentive compensation award levels for our senior executives, the Subcommittee (*i.e.*, the Performance Compensation Subcommittee) considers the Company’s achievement of pre-established performance targets focused on a balanced mix of value-driving performance metrics. For the 2017 incentive compensation program, the Subcommittee approved four key performance metrics to measure earnings, growth, stockholder value creation and market performance for purposes of calculating components of our incentive compensation, as shown in the following table.

INCENTIVE COMPENSATION COMPONENT	PERFORMANCE METRICS (MEASURES)
Annual Cash Incentives	<ul style="list-style-type: none"> • Adjusted EBITDA (earnings). • North America Same-Restaurant Sales (growth).
Performance Units— Long-Term Equity Incentives	<ul style="list-style-type: none"> • Adjusted Earnings per Share, Cumulative Three-Year (stockholder value creation). • Total Stockholder Return Relative to S&P MidCap 400 (market performance).

These four performance metrics and the framework of our executive compensation program are further discussed below under the caption “Compensation Decisions for 2017.” The Subcommittee determined that for 2017, the performance metrics were appropriate and consistent with our executive compensation philosophy because the metrics (i) align with earnings and growth expectations of our stockholders, (ii) serve as key indicators of our business operating performance, growth and profitability and (iii) hold our executives accountable for growth results and operational, relative total stockholder return and market performance against annual and long-term business objectives. The key performance metrics of our 2018 executive compensation program are further discussed below under the caption “Changes to the Executive Compensation Program for 2018.”

⁴ With respect to the Compensation Committee’s review of General Industry Data (approximately 507 companies) and Restaurant Industry Data (approximately 92 companies): (i) the Committee does not select the companies that provide information for the surveys; (ii) the aggregate survey data is size-adjusted prior to being provided to the Committee; and (iii) the Committee does not link information back to particular companies as the aggregate survey data is reported by executive position and not by company. The Compensation Committee utilizes this broad-based, third-party survey data to gain a general understanding of the current compensation practices and trends in the market and the restaurant industry. As described above, competitive market practice is only one of several factors considered by the Compensation Committee when approving the elements and amounts of compensation awarded to senior executives.

2017 Non-GAAP Financial Measures

The Company used adjusted EBITDA and adjusted earnings per share for the 2017 key performance metrics, each of which are non-GAAP financial measures, as internal measures of the Company's business operating performance and as performance measures for benchmarking against our peers and competitors (see Annex A for a reconciliation of non-GAAP financial measures). The Compensation Committee determined that using these measures (i) provides our stockholders with a meaningful perspective of how our executive incentive compensation links to the underlying operating performance of our current business and (ii) enables our stockholders to better understand and evaluate our historical and prospective operating performance as it relates to executive incentive compensation awards. The Compensation Committee believes that adjusted EBITDA and adjusted earnings per share are important supplemental measures of the Company's operating performance because these metrics eliminate items that vary from period to period without correlation to our core operating performance, as well as highlight trends in our business that might not otherwise be apparent when relying solely on GAAP financial measures.

COMPENSATION DECISIONS FOR 2017

Base Salary

In February 2017, the Compensation Committee reviewed the base salaries for the Company's senior executives, taking into account individual and Company performance and the other factors described above under the caption "How Executive Compensation is Determined." After consulting with its independent outside compensation consultant, FW Cook, and considering recommendations from the Chief Executive Officer with respect to the other members of the senior executive leadership team, the Compensation Committee approved base salary increases for certain executives, including Mr. Penegor (\$30,000), Mr. Plosch (\$25,000), Mr. Wright (\$22,000), Mr. Kane (\$15,000) and Mr. Wunsch (\$10,000). In approving these increases, the Compensation Committee noted that the base salaries of the senior executives remained within a competitive range of market median, in the aggregate, consistent with the Company's executive compensation philosophy.

Guiding Principles for Annual and Long-Term Incentive Plans

In February 2017, the Subcommittee approved the 2017 annual cash incentive and long-term equity incentive compensation framework for senior executives. The design of the 2017 annual and long-term incentive plans was guided by four key principles:

- ***Growth must be achieved for any payment.*** Growth over the prior year is required for incentive payouts, even at threshold levels of performance.
- ***Reward executives consistent with external stockholder guidance.*** Target payout levels were designed to motivate and reward performance that is equal to or greater than the Company's external stockholder guidance range to align executives' interests with those of our stockholders.
- ***Align executive compensation with Company performance relative to restaurant industry competitors.*** Performance goals were pre-established taking into consideration the historic performance of the Company's peers as well as stockholder expectations.
- ***Establish challenging and appropriate incentive performance goals.*** Incentive design and payouts should support achievement of the Company's growth goals and align with the Company's annual operating plan, with achievement of performance targets resulting in target incentive payouts and outperformance of business goals providing for additional compensation opportunities.

Annual Cash Incentive Compensation

The 2017 annual incentive plan was based on the achievement of two key performance metrics—adjusted EBITDA and same-restaurant sales. Adjusted EBITDA measures earnings and reflects the Company's focus on increasing operating profitability, while same-restaurant sales measures growth and represents a fundamental operating performance measure for the Company's business. In selecting these metrics, the Subcommittee noted that adjusted EBITDA and same-restaurant sales are prevalent restaurant industry measures, and management's ability to attain the pre-established goals for these metrics was critical to achieving the Company's business objectives for 2017 and driving long-term stockholder value.

The following table identifies the performance metrics, incentive opportunities and actual results achieved under the 2017 annual incentive plan.

DESIGN OF 2017 ANNUAL INCENTIVE PLAN

PERFORMANCE METRIC	WEIGHT	THRESHOLD (50% PAYOUT)	TARGET (100% PAYOUT)	MAXIMUM (200% PAYOUT)	2017 ACTUAL ACHIEVEMENT	2017 ACTUAL PAYOUT %	WEIGHTED PAYOUT %

2017 Total Payout %							109.0%

The following table shows the target opportunities and actual payouts for the NEOs under the 2017 annual incentive plan. The target payout levels are expressed as a percentage of base salary in effect as of the end of 2017. Annual cash incentive payouts can be adjusted upward or downward by 25% based on an assessment of each executive's individual performance for all NEOs other than the Chief Executive Officer. In no event may an executive's payout exceed the maximum incentive award opportunity established for that individual. Our Chief Executive Officer is not eligible for individual performance adjustments because the Compensation Committee determined that Chief Executive Officer performance is reflected in the aggregate results of our senior executive leadership team and the Company's overall short- and long-term financial results. In approving the target payout levels, the Subcommittee noted that the 2017 target total cash compensation for the Company's senior executives fell within a competitive range of market median, in the aggregate, consistent with the Company's executive compensation philosophy. The actual payouts for the NEOs were approved by the Subcommittee in February 2018 based on the Company's 2017 adjusted EBITDA and same-restaurant sales results and the application of individual performance multipliers for each NEO other than our Chief Executive Officer.

⁵ "Adjusted EBITDA" is defined as earnings for fiscal 2017 before interest, taxes, depreciation and amortization, as adjusted (i) within the "Reconciliation of Net Income to Adjusted EBITDA" non-GAAP reconciliation table (or similarly titled non-GAAP reconciliation table) as presented in the Company's fiscal 2017 earnings release and (ii) to exclude the impact of specific non-recurring and unusual items or other adjustments, to the extent approved by the Subcommittee. For purposes of the 2017 annual incentive plan, the specific adjustments applied in calculating adjusted EBITDA from the Company's reported 2017 financial results are shown in Annex A.

⁶ "Same-restaurant sales" is defined as North America system same-restaurant sales for Company-operated restaurants and franchised restaurants located in the U.S. and Canada, excluding the impact of currency translation. Same-restaurant sales are reported for new restaurants that have been open for 15 continuous months and for reimaged restaurants as soon as they reopen.

⁷ In conjunction with establishing the 2017 annual incentive plan, the Subcommittee approved an Internal Revenue Code Section 162(m)-compliant plan with a threshold performance goal for 2017 of net operating profit (before taxes) of \$180.5 million, excluding: (i) all asset write-downs (including asset impairment and goodwill impairment charges); (ii) reorganization and realignment costs; and (iii) "System optimization gains, net" as reported by the Company on its financial statements. Achievement of this performance goal (which was \$20.8 million higher than the 2016 performance goal) allowed for the funding of an annual incentive pool with maximum incentive award opportunities for eligible participants. Based on 2017 results, the Subcommittee certified that the Company satisfied such threshold performance goal. The Subcommittee then approved incentive payouts to senior executives under the 2017 annual incentive plan based on the Company's achievement of the performance metrics under that plan (i.e., adjusted EBITDA and same-restaurant sales), as adjusted for individual performance, which resulted in payouts below the maximum incentive award opportunities established for purposes of Section 162(m).

the fiscal year. The Subcommittee determined that positive adjustments were appropriate to reward these executives' contributions to the Company's strong financial performance and successful execution of our strategic initiatives in 2017.

Long-Term Equity Incentive Compensation

In February 2017, the Subcommittee approved the 2017 long-term equity incentive compensation framework for senior executives. Consistent with the prior year, 2017 long-term equity incentive awards were comprised of equally weighted performance units and stock options, as summarized in the following table.

DESIGN OF 2017 LONG-TERM INCENTIVE PLAN

COMPONENT	WEIGHT	VESTING	TIMING OF GRANT ⁸	RATIONALE

2017 Performance Unit Awards. The extent of the vesting and payout of the 2017 performance unit awards is based on the Company's achievement of the performance goals under two equally-weighted performance metrics – cumulative adjusted earnings per share and relative total stockholder return – over a three-year performance period (January 2, 2017 through December 29, 2019), as described in the following table.

PERFORMANCE METRICS FOR 2017 PERFORMANCE UNIT AWARDS

⁸ The Subcommittee has not adopted any formal policy to time the grant of equity awards with the release of non-public information and retains discretion to determine the grant dates for annual and special equity awards taking into account all relevant factors. All of the performance unit awards and stock options granted to senior executives during 2017 were issued during open trading windows established under the Company's Securities Trading Policy.

⁹ "Adjusted earnings per share" is defined as diluted net income per share (after taxes) as reported on the Company's Consolidated Statements of Operations, as adjusted (i) within the "Reconciliation of Net Income and Diluted Earnings per Share to Adjusted Income and Adjusted Earnings per Share" non-GAAP reconciliation table (or similarly titled non-GAAP reconciliation table) as presented in the Company's fiscal 2017, 2018 and 2019 earnings releases and (ii) to exclude the after-tax impact of any other extraordinary, unusual or nonrecurring events as described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" appearing in the Company's annual report to stockholders for the applicable fiscal year.

The Subcommittee considered both cumulative adjusted earnings per share and relative total stockholder return to be important indicators of Company performance compared to the market. Further, the Subcommittee selected these two performance metrics in recognition of compensation governance best practices and marketplace trends to utilize multiple performance metrics in long-term incentive plan design. The Subcommittee concluded that the design of the 2017 performance unit awards was consistent with market and industry practice and intended to align with stockholder interests and the creation of long-term stockholder value.

Following the end of the performance period, the Subcommittee will review the extent to which the performance metrics have been achieved under the 2017 long-term incentive plan and will determine the number of shares of Common Stock that are issuable to each participant. Under the terms of the awards, there is no vesting of performance units if actual performance falls below threshold levels of performance. Consistent with prior year awards, the performance units include dividend equivalent rights, representing the right to receive additional performance units in lieu of cash dividends paid with respect to the shares of Common Stock actually earned, if any, at the completion of the performance period.

Grant Date Target Value of 2017 Long-Term Equity Incentive Awards. The Subcommittee determined the grant date target value of the 2017 long-term equity incentive awards for senior executives by assessing the impact of the value of these awards on each executive's target total direct compensation, competitive market practices and the performance of the Company and each executive.

In determining the grant date target value of Mr. Penegor's 2017 long-term equity incentive award, the Subcommittee discussed Mr. Penegor's 2017 performance objectives and 2016 performance results, including certain quantitative and qualitative measures, and gave particular consideration to Mr. Penegor's leadership role in driving improved Company performance during 2016 and his contributions to the Company's success since he became Chief Executive Officer in May 2016. The Subcommittee also discussed competitive market compensation data and information provided by the Subcommittee's independent outside compensation consultant, FW Cook. After considering the foregoing and all other relevant factors, the Subcommittee determined that a 2017 long-term equity incentive award with a grant date target value of \$3,250,000 (which placed Mr. Penegor's target total direct compensation for 2017 at the lower end of a competitive range of market median) was appropriate in light of Mr. Penegor's recent promotion to Chief Executive Officer in May 2016 and experience relative to the market. This compares to his 2016 long-term equity incentive award with a grant date target value of \$2,750,000, with the increase reflective of competitive practice, as well as Mr. Penegor's exceptional leadership and the continued momentum in the Company's performance, strategic direction and brand and economic relevance.

The values of the 2017 long-term equity incentive awards for Messrs. Plosch, Wright, Kane and Wunsch were determined by the Subcommittee after consideration of several factors, including individual and Company performance, the value of prior year awards, competitive market practice, internal pay equity, the terms of individual employment arrangements (if applicable) and recommendations from Mr. Penegor. In approving these awards, the Subcommittee noted that the 2017 target total direct compensation for senior executives fell within a competitive range of market median, in the aggregate, consistent with the Company's executive compensation philosophy.

Retention Long-Term Equity Incentive Award for Mr. Kane. To reinforce the retention and engagement of Mr. Kane in his current leadership role, in August 2017, the Compensation Committee approved a one-time retention long-term equity incentive award for Mr. Kane. This retention award was provided in addition to the equity incentive award granted to Mr. Kane under our 2017 long-term incentive plan for senior executives. The retention award was valued at \$250,000, consisted of restricted stock units and is subject to a three-year cliff vesting period that requires Mr. Kane to remain with the Company until the vesting date to realize the full value of the award.

ADDITIONAL COMPENSATION DECISIONS

Vesting of 2014 Performance Unit Awards

In February 2014, the Subcommittee awarded performance units to the Company's senior executives, including Messrs. Penegor and Wright, as part of the Company's 2014 executive compensation program. The performance units vested and became payable upon the conclusion of the three-year performance period (December 30, 2013 through January 1, 2017), based on the Company's achievement of adjusted earnings per share growth over such performance period. The performance goal, actual achievement and payout levels are described in the following table.

PERFORMANCE	ADJUSTED EARNINGS PER SHARE ¹⁰		
	VALUE	COMPOUNDED GROWTH RATE	PAYOUT AS % OF TARGET
Below Threshold Level	< \$0.32	—	0.0%
Threshold Level	\$0.32	2.0%	37.5%
Above Threshold	\$0.35	5.0%	75.0%
Target Level	\$0.40	10.0%	100.0%
Above Target	\$0.45	14.0%	150.0%
Maximum Level	\$0.50	19.0%	200.0%
Actual Achievement	\$0.41	10.8%	110.0%

In February 2017, the Subcommittee certified the Company's achievement of the adjusted earnings per share performance goals and approved share payouts equal to 110% of the performance unit awards to Mr. Penegor (53,206 shares) and Mr. Wright (19,346) without exercising negative discretion.

Changes to the Executive Compensation Program for 2018

In December 2017, the Compensation Committee conducted its annual review of the Company's executive compensation philosophy and determined that the executive compensation program has been effective in attracting and retaining top talent, is strongly aligned with the interests of stockholders and provides a significant link between executive compensation and Company performance. Accordingly, the Compensation Committee, after consultation with FW Cook, decided to continue the current executive compensation program, subject to certain enhancements as approved by the Compensation Committee and described in the following table. The Compensation Committee determined that the framework of the 2018 executive compensation program reinforces our pay-for-performance philosophy and aligns with the Company's business strategies and our stockholders' interests.

2018 EXECUTIVE COMPENSATION PROGRAM	RATIONALE
Annual Cash Incentives <ul style="list-style-type: none"> • Maintained a 40% weighting and focus on growth metrics: <ul style="list-style-type: none"> ○ Introduced global systemwide sales, weighted at 20%, as an additional key growth performance metric. ○ With the addition of the new global systemwide sales measure, decreased the weighting of the same-restaurant sales key growth performance metric from 40% to 20%. • Retained adjusted EBITDA, weighted at 60%, as a key earnings performance metric. 	<ul style="list-style-type: none"> • Consistent with the Company's objectives to drive global unit growth and organic growth of existing restaurants through increased sales and customer visits. • Recognizes the Company's transition to a predominantly franchised business model.

(Table continued on the following page.)

¹⁰ With respect to the 2014 performance unit awards only, "adjusted earnings per share" was defined as diluted net income (loss) per share (after taxes) attributable to The Wendy's Company as reported on the Company's Consolidated Statements of Operations appearing in the Company's annual report to stockholders for the applicable fiscal year, as adjusted to exclude the after-tax impact of certain adjustments detailed in the performance unit award agreement. In February 2017, the Subcommittee also determined that the Company's sale of its bakery operations in May 2015 and presentation of its bakery results as discontinued operations fell within the provisions of the 2014 performance unit award agreements that allowed reported earnings per share adjustments for, among other things, extraordinary, unusual or non-recurring events. This determination resulted in the exclusion of the bakery's earnings per share impact of \$0.01 from the performance results. (This treatment was consistent with the computation of adjusted earnings per share that was applied to the vesting of the 2013 performance unit awards.)

2018 EXECUTIVE COMPENSATION PROGRAM	RATIONALE
Performance Units — Long-Term Equity Incentives	<ul style="list-style-type: none"> • Added cumulative three-year free cash flow, weighted at 50%, as a key earnings performance metric, which replaced cumulative three-year adjusted earnings per share, weighted at 50%. • Retained relative total stockholder return, weighted at 50%, as a key market performance metric.
Peer Group Utilization	<ul style="list-style-type: none"> • The Compensation Committee will continue utilizing General Industry Data for all NEOs and restaurant industry survey data for all NEOs other than the Chief Executive Officer and Chief Financial Officer. • For Chief Executive Officer and Chief Financial Officer compensation, the Compensation Committee will utilize an industry peer group as a secondary compensation benchmark, in lieu of restaurant industry survey data.

2018 Non-GAAP Financial Measures. The Company will use adjusted EBITDA, global systemwide sales and free cash flow for the 2018 key performance metrics, each of which are non-GAAP financial measures, as internal measures of the Company’s business operating performance and as performance measures for benchmarking against our peers and competitors (see [Annex A](#) for a reconciliation of 2017 non-GAAP financial measures). The Compensation Committee determined that utilization of adjusted EBITDA and global systemwide sales (i) provides our stockholders with a meaningful perspective of how our executive incentive compensation links to the underlying operating performance of our current business and (ii) enables our stockholders to better understand and evaluate our historical and prospective operating performance as it relates to executive incentive compensation awards. The Compensation Committee also determined that free cash flow, which we define as cash flows from operations minus capital expenditures (both as reported under GAAP), is an important liquidity measure that communicates how much cash flow is available for working capital needs or for repurchasing shares, paying dividends, repaying or refinancing debt, financing possible acquisitions or investments, or other uses of cash. Furthermore, the Compensation Committee considers these three non-GAAP measures to be important supplemental measures of the Company’s operating performance because these metrics eliminate items that vary from period to period without correlation to our core operating performance, as well as highlight trends in our business that might not otherwise be apparent when relying solely on GAAP financial measures.

COMPENSATION GOVERNANCE MATTERS

Clawback Provisions in Equity Awards

All of the equity awards granted to senior executives and other eligible participants during 2017 contain clawback provisions in favor of the Company, as described below.

- In the event of a material restatement of the Company’s financial statements, the Compensation Committee will review the facts and circumstances underlying the restatement (including any potential wrongdoing by the participant) and may, in its sole discretion, direct the Company to recover all or a portion of the award or any gain realized on the vesting, exercise or settlement of the award.
- If a court determines that a participant has engaged in any “detrimental activity” (as defined in the 2010 Omnibus Award Plan), the Company may cancel the award and require the participant to return the award or any gain realized on the vesting, exercise or settlement of the award.
- If the Company is required by law to include an additional clawback or forfeiture provision in an outstanding award, then such provision will apply to the award as if it had been included in the award on its grant date.

Stock Ownership and Retention Guidelines

The Board of Directors adopted the *Stock Ownership and Retention Guidelines for Executive Officers and Directors* (the “*Stock Ownership and Retention Guidelines*”) that require executive officers and directors to own a specified number of shares of Common Stock based on the executive’s annual base salary or the director’s annual cash retainer for serving

on the Board. The guidelines, which are described under the caption “Stock Ownership and Retention Guidelines for Executive Officers and Directors,” are intended to encourage executives and directors to maintain a long-term equity stake in the Company, align the interests of executives and directors with the interests of stockholders and promote the Company’s commitment to sound corporate governance.

Anti-Hedging Policy

The Board of Directors has adopted a Securities Trading Policy to assist the Company’s employees and directors in complying with securities laws and avoiding even the appearance of improper conduct. Under this policy, executives and directors are prohibited from engaging in speculative transactions or transactions that are intended to hedge or offset the value of Company securities they already own. Specifically, executives and directors: (i) may not sell Company securities that are not then owned; (ii) may not engage in transactions in publicly traded options of Company securities; (iii) may not engage in any other hedging transactions without pre-clearance from the Company’s legal department; (iv) may not sell Company securities within six months of their purchase; and (v) are discouraged from pledging or hypothecating Company securities. Furthermore, Company securities held in a margin account or otherwise pledged as collateral for a loan do not count toward satisfaction of the applicable Common Stock ownership requirement under the Company’s *Stock Ownership and Retention Guidelines*. As of the date of this Proxy Statement, none of the Company’s executive officers or directors has pledged any shares of Common Stock.

Tax and Accounting Considerations

Repeal of Section 162(m) Performance-Based Compensation Exemption. In evaluating our executive compensation program for 2017, the Compensation Committee and Subcommittee considered the potential impact on the Company of Section 162(m) of the Internal Revenue Code. As effective in 2017, Section 162(m) imposed a \$1.0 million limit on the amount the Company could deduct for compensation paid in any tax year to the Chief Executive Officer and the three most-highly compensated executive officers other than the Chief Executive Officer and the Chief Financial Officer (“covered executives”). At the time the Compensation Committee and Subcommittee made its compensation decisions with respect to the compensation awarded to covered executives in 2017, certain types of “performance-based compensation” were exempt from the \$1.0 million limit (including income from stock options, performance-based restricted stock and certain formula-driven compensation that meets the requirements of Section 162(m)) if, among other requirements, such compensation was subject to certain performance goals under a plan established by the Subcommittee and approved by our stockholders.

In making executive compensation decisions in 2017 and prior years, the Compensation Committee and Subcommittee sought to structure Section 162(m) compliant incentive compensation for covered executives in order to maximize the deductibility of such compensation. At the same time, the Compensation Committee and Subcommittee believed that it was important to retain discretion and maximum flexibility in designing appropriate executive compensation programs and establishing compensation levels that were in the best interests of the Company and our stockholders, as there might have been circumstances in which the Compensation Committee or Subcommittee determined, in the exercise of its independent judgment and to the extent consistent with our executive compensation philosophy, that it was in the best interests of the Company and our stockholders to approve compensation that was not fully deductible. With respect to the compensation awarded to the NEOs during 2017, all of the cash incentive awards, stock options and performance unit awards were designed to satisfy then-applicable requirements for deductible compensation.

The “performance-based compensation” exemption from Section 162(m) was repealed in the Tax Cuts and Jobs Act of 2017, effective for tax years beginning after December 31, 2017, such that compensation paid to our covered executives in excess of \$1.0 million will not be deductible unless the compensation qualifies for transition relief applicable to certain arrangements in place as of November 2, 2017. The Company cannot give any assurance that any annual and long-term incentive awards outstanding after December 31, 2017 that the Compensation Committee and Subcommittee intended to satisfy the Section 162(m) “performance-based compensation” exemption requirements will in fact do so because of uncertainties regarding the application and interpretation of Section 162(m) and related issued regulations, including the uncertain scope of the abovementioned transition relief. Our Compensation Committee and Subcommittee reserve the right to modify compensation that was initially intended to be exempt from Section 162(m) if the Compensation Committee or Subcommittee determines that such modifications are consistent with the Company’s business needs.

Accounting Costs Related to Long-Term Equity Awards. The Compensation Committee and Subcommittee also take into consideration the accounting costs associated with long-term equity incentive awards granted to senior executives and other eligible employees. Under U.S. Generally Accepted Accounting Principles (“GAAP”), grants of stock options, performance units and other share-based awards result in an accounting charge for the Company. In designing the

executive compensation program, the Compensation Committee and Subcommittee consider the accounting implications of equity awards, including the estimated cost for financial reporting purposes and the aggregate grant date fair value computed in accordance with FASB ASC Topic 718.

Deferred Compensation Plan

Effective January 1, 2017, the Company introduced the Wendy's International, LLC Deferred Compensation Plan (the "Deferred Compensation Plan"). We offer participation in the Deferred Compensation Plan to key managerial and highly compensated employees because their 401(k) plan contributions are limited under federal income tax rules applicable to highly compensated employees. Our Deferred Compensation Plan provides these key leaders with similar means of saving for retirement by contributing additional amounts on a tax-deferred basis, subject to the provisions of the Deferred Compensation Plan. The Deferred Compensation Plan provisions also allow the Company to make discretionary contribution credits for a plan year; however, to date, we have elected not to make any such contributions. Although each NEO is eligible for participation, none of our NEOs participated in our Deferred Compensation Plan in 2017.

Consideration and Frequency of Annual Stockholder Say-on-Pay Vote

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), the Company provides stockholders with the opportunity to cast an annual advisory vote to approve the compensation of the NEOs (*i.e.*, an annual "say-on-pay" vote), as discussed under the caption "Proposal 3—Advisory Resolution to Approve Executive Compensation." At the Company's 2017 annual meeting of stockholders, approximately 96% of the votes cast on the say-on-pay resolution were voted in favor of the compensation of our named executive officers for 2016, as disclosed in the Company's 2017 proxy statement. In August 2017, the Compensation Committee considered those voting results and believes that our stockholders generally support our executive compensation program and therefore determined that no changes to the Company's executive compensation program were warranted at that time. In December 2017, the Compensation Committee conducted its annual review of the Company's executive compensation philosophy and approved the existing framework for the executive compensation program for 2018, subject to the modifications described above under the caption "Additional Compensation Decisions—Changes to the Executive Compensation Program for 2018."

Pursuant to the Dodd-Frank Act, the Company also asked stockholders to vote on whether future advisory say-on-pay votes on executive compensation should occur every year, every two years or every three years (*i.e.*, a "say-on-frequency" vote). In February 2017, after careful consideration, our Board, upon the recommendation of the Compensation Committee, determined that holding a say-on-pay vote every year is appropriate and allows our stockholders to express their collective views and provide timely, direct input on the Company's executive compensation program and practices. At the 2017 Annual Meeting of Stockholders, approximately 91% of the votes cast on the say-on-frequency resolution were voted in favor of holding annual say-on-pay votes. We have conducted an annual say-on-pay vote every year since 2011, consistent with the Board's recommendations and the preferences expressed by our stockholders.

The Compensation Committee will continue to review the design of the executive compensation program in light of future say-on-pay votes, developments in executive compensation and the Company's pay-for-performance philosophy to ensure that the executive compensation program continues to serve the best interests of the Company and its stockholders.

(1) The amounts shown represent the aggregate grant date fair value of stock awards made to the NEOs in the year shown, computed in accordance with FASB ASC Topic 718, disregarding any estimates of forfeitures related to performance-based vesting conditions. See Note 15 (Share-Based Compensation) to the Company's consolidated financial statements included in the 2017 Form 10-K for the assumptions made in determining these values.

The amounts shown for 2017 reflect, among other items, the target grant date fair values of performance unit awards granted to the NEOs in February 2017 under the 2010 Omnibus Award Plan that are subject to the Company's achievement of performance goals established by the Subcommittee for the performance period beginning January 2, 2017 and ending December 29, 2019, as follows: Mr. Penegor, \$1,624,988; Mr. Plosch, \$387,488; Mr. Wright, \$487,486; Mr. Kane, \$349,988; and Mr. Wunsch, \$274,983. For more information regarding the performance goals and potential payouts with respect to the 2017 performance unit awards granted to the NEOs, see "Compensation Discussion and Analysis—Compensation Decisions for 2017—Long-Term Equity Incentive Compensation" above.

The 2017 amount shown for Mr. Kane also reflects a restricted stock unit award granted on August 11, 2017 under the 2010 Omnibus Award Plan to reinforce the retention and engagement of Mr. Kane in his current leadership role. The restricted stock units will vest in full on the third anniversary of the grant date, subject to Mr. Kane's continued employment with the Company on the vesting date. The restricted stock units include dividend equivalent rights, representing the right to receive additional restricted stock units in lieu of cash dividends paid with respect to the shares of Common Stock underlying the award (if and when the award vests).

- (2) The amounts shown represent the aggregate grant date fair value of stock option awards made to the NEOs in the year shown, computed in accordance with FASB ASC Topic 718. - (3) The amounts shown represent the annual cash incentive payouts earned by the NEOs under the 2010 Omnibus Award Plan for the year shown based on the Company's achievement of annual performance goals established by the Subcommittee, as adjusted for individual performance. For more information regarding the performance goals and potential payouts with respect to the 2017 cash incentive awards granted to the NEOs, see "Compensation Discussion and Analysis—Compensation Decisions for 2017—Annual Cash Incentive Compensation" above.
- (4) The following table sets forth the details of the "All Other Compensation" paid to the NEOs for 2017:

E. J. Wunsch	10,800	16,800	121,781	3,077	152,458

- (a) The amounts shown reflect matching contributions made by the Company to the NEOs' respective 401(k) plan accounts.
- (b) The Company maintains a relocation policy that provides for the reimbursement of reasonable relocation expenses incurred by eligible employees who are hired, promoted or transferred at the Company's request. Under the relocation policy, an employee's taxable relocation expenses are generally tax-assisted, meaning that the reimbursed expenses are increased to offset the impact of applicable taxes. The relocation policy also provides eligible employees with financial, marketing and other assistance in connection with selling their existing home and buying a new home, including reimbursement of real estate commissions and customary closing costs. Under the relocation policy, eligible employees also may participate in a guaranteed home sale program administered by a third-party relocation firm, where a minimum sales price is determined by independent, licensed relocation appraisers.

The amount shown for Mr. Wunsch includes (i) relocation assistance covered by the Company through its third-party provider under the Company's relocation policy in connection with his relocation to Dublin, Ohio, which was provided to Mr. Wunsch under his employment terms with the Company, and (ii) a tax assistance payment of \$1,700 made by the Company in accordance with the terms of the relocation policy.

- (c) The amounts shown for Messrs. Penegor, Wright, Kane and Wunsch include the Company's reimbursement of \$2,800 for medical expenses incurred by the respective NEO under the Company's executive physical examination program. The Company adopted this program to encourage executive officers to have routine medical check-ups in an effort to maintain good health, identify health issues and drive productivity.

The amounts shown for Messrs. Penegor, Wright and Wunsch also include the Company's reimbursement of commercial travel expenses for each individual's respective spouse. On certain occasions, an executive officer's spouse may accompany the executive on a trip for a specific business-related purpose. In those cases, the executive officer is reimbursed for their spouse's commercial travel expenses only with the prior permission of our Chief Executive Officer.

The amount shown for Mr. Penegor also includes the Company's payment of certain residential security costs that were approved by the Compensation Committee following the Company's review of potential security concerns related to Mr. Penegor's service as the Company's Chief Executive Officer. The amount shown for Mr. Penegor also includes a related tax assistance payment of \$912 made by the Company.

- (5) Mr. Plosch was not a Named Executive Officer in 2015 and, therefore, his compensation information for that year has not been provided.
- (6) Mr. Kane was not a Named Executive Officer in 2015 and, therefore, his compensation information for that year has not been provided.
- (7) Mr. Wunsch was not a Named Executive Officer in 2015 or 2016 and, therefore, his compensation information for those years has not been provided.

2017 GRANTS OF PLAN-BASED AWARDS

The following table provides information concerning the annual cash incentive awards and long-term equity incentive awards granted to the NEOs in 2017.

For more information regarding the performance goals and potential payouts with respect to such awards, see “Compensation Discussion and Analysis—Compensation Decisions for 2017—Annual Cash Incentive Compensation” above. The actual amounts paid to the NEOs pursuant to such awards based on Company and individual performance during 2017 were as follows: Mr. Penegor, \$1,267,125; Mr. Plosch, \$470,000; Mr. Wright, \$490,000; Mr. Kane, \$405,000; and Mr. Wunsch, \$375,000.

Such amounts are included in the “Non-Equity Incentive Plan Compensation” column of the “2017 Summary Compensation Table” above.

- (2) Represents threshold, target and maximum payout levels based on Company performance over a three-year period for performance unit awards granted to the NEOs under the 2010 Omnibus Award Plan. For more information regarding the performance goals and potential payouts with respect to such awards, see “Compensation Discussion and Analysis—Compensation Decisions for 2017—Long-Term Equity Incentive Compensation” above. The performance units include dividend equivalent rights, representing the right to receive additional performance units in lieu of cash dividends paid with respect to the shares of Common Stock underlying the award (if and when the award vests).
- (3) For Mr. Kane, reflects a restricted stock unit award granted to Mr. Kane under the 2010 Omnibus Award Plan on August 11, 2017 to reinforce the retention and engagement of Mr. Kane in his current leadership role. The restricted stock units will vest in full on the third anniversary of the grant date, subject to Mr. Kane’s continued employment with the Company on the vesting date. The restricted stock units include dividend equivalent rights, representing the right to receive additional restricted stock units in lieu of cash dividends paid with respect to the shares of Common Stock underlying the award (if and when the award vests).
- (4) Reflects stock options granted to the NEOs under the 2010 Omnibus Award Plan, each having an exercise price equal to the “fair market value” (*i.e.*, the average of the high and low per share sales price) of the underlying shares of Common Stock on the grant date and expiring ten years from the grant date, unless sooner exercised or forfeited. All of the stock

options vest and become exercisable in three equal installments on the first, second and third anniversaries of the grant date, subject to the executive's continued employment on the applicable vesting date.

- (5) Represents the grant date fair value of equity awards granted to the NEOs, computed in accordance with FASB ASC Topic 718, disregarding any estimates of forfeitures related to performance-based vesting conditions. The grant date fair value of the performance unit awards granted to Messrs. Penegor, Plosch, Wright, Kane and Wunsch on February 28, 2017 is based on achieving target levels of performance. See Note 15 (Share-Based Compensation) to the Company's consolidated financial statements included in the 2017 Form 10-K for the assumptions made in determining those values.

OPTION EXERCISES AND STOCK VESTED DURING 2017

The following table provides information for 2017 concerning the exercise of stock options and vesting of stock awards granted to the NEOs in prior years.

NAME	OPTION AWARDS		STOCK AWARDS	
	NUMBER OF SHARES ACQUIRED ON EXERCISE (#)	VALUE REALIZED ON EXERCISE (\$ (1))	NUMBER OF SHARES ACQUIRED ON VESTING (#)	VALUE REALIZED ON VESTING (\$ (2))

Robert D. Wright	—	—	81,557 (3)	1,235,769
Kurt A. Kane	—	—	—	—
E. J. Wunsch	—	—	23,650 (4)	363,146

- (1) Based on the difference between the exercise price of the stock options and the market price of our Common Stock at the time of exercise.
- (2) Based on the average of the high and low per share sales price of our Common Stock on the applicable vesting date.
- (3) This number includes the number of shares of Common Stock earned with respect to performance unit awards granted on February 20, 2014 for the performance period that began on December 30, 2013 and ended on January 1, 2017. The performance unit awards vested on February 28, 2017 following the Subcommittee's determination of the Company's level of achievement of the adjusted earnings per share performance goal. Regarding such awards, the number of shares of Common Stock actually received by each individual was reduced by the withholding of shares (18,453 shares withheld by Mr. Penegor and 6,478 shares by Mr. Wright) to pay the income taxes associated with the value realized upon vesting.

This number also includes the number of shares of Common Stock received on December 17, 2017 from the pro rata vesting of each individual's respective restricted stock unit award granted on December 17, 2014. Regarding such awards, the number of shares of Common Stock actually received by each individual was reduced by the withholding of 30,804 shares, respectively, to pay the income taxes associated with the value realized upon vesting.

The number of shares of Common Stock actually received by Mr. Wunsch was reduced by the withholding of 7,770 shares to pay the income taxes associated with the value realized upon vesting.

EMPLOYMENT ARRANGEMENTS AND POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Following careful consideration and consultation with its executive compensation advisors, beginning in 2013, the Company adopted a philosophy to discontinue the use of formal employment agreements. The Company believes this practice is a responsible approach aligned with stockholder interests and best practice. Employment arrangements for our NEOs are governed by the terms of their individual employment offers, as well as an *Executive Severance Pay Policy* adopted by the Compensation Committee in December 2015 (the “*Executive Severance Policy*”). The key provisions related to termination of employment for the NEOs are summarized in the tables below.

The NEOs also have received equity awards under the 2010 Omnibus Award Plan, which provides for the accelerated vesting of certain awards in connection with a qualifying termination event. Awards granted under the 2010 Omnibus Award Plan are subject to “double-trigger” vesting requirements in connection with a “change in control” of the Company. This means that, in order for an outstanding award to be accelerated and become vested, a “change in control” must occur and the participant must be terminated without “cause” or for “good reason” following the change in control.

The Company considers these limited severance and change in control benefits to be an important part of the executive compensation program and consistent with competitive market practice. The Company believes that providing appropriate severance benefits helps to attract and retain highly qualified executives by mitigating the risks associated with leaving a previous employer and accepting a new position with the Company, and by providing income continuity following an unexpected termination. These arrangements also allow the Company to protect its interests through corresponding confidentiality, non-compete and other restrictive covenants in the event of an executive’s termination.

A summary of the key severance provisions in effect as of the end of 2017 for Messrs. Penegor, Plosch, Wright, Kane and Wunsch is set forth below. This summary is qualified in its entirety by reference to the complete text of the employment arrangement documents for the NEOs, the *Executive Severance Policy* and the 2010 Omnibus Award Plan, copies of which have been filed with the SEC.

KEY ASSUMPTIONS AND DEFINITIONS

The following assumptions were made in calculating the value of the severance payments and benefits described the tables above:

- The triggering event took place on December 29, 2017, the last business day of 2017;
- The price of our Common Stock was \$16.42 per share, the closing price on December 29, 2017;
- No compensation offset for executives whose second-year severance payments would otherwise be subject to reduction for outside earnings;
- The immediate exercise and sale of all stock options and the immediate sale of all restricted stock units and performance units that vested as of the December 29, 2017 triggering date;
- Accelerated vesting of performance units is based on the assumed achievement of target performance; and
- No six-month delay in payment to any “specified employee” that would otherwise be required under Section 409A of the Internal Revenue Code.

“Cause” is generally defined to include: (i) commission of any act of fraud or gross negligence that has a material adverse effect on the business or financial condition of the Company or its affiliates; (ii) willful material misrepresentation to the Company or the Board; (iii) willful failure or refusal to comply with any material obligations or any reasonable and lawful instructions of the President and Chief Executive Officer or the Board; (iv) engagement in any misconduct or commission of any act that is injurious or detrimental to the substantial interest of the Company or any of its affiliates; (v) indictment for any felony; (vi) failure to comply with any material written rules, regulations, policies or procedures of the Company; (vii) willful or negligent failure to comply with the Company’s policies regarding insider trading; or (viii) the executive’s death or disability.

“Triggering event” is generally defined to include: (i) material reduction in the executive’s authority, duties or responsibilities; (ii) requirement to report to any person other than the President and Chief Executive Officer or the Board; (iii) reduction in the executive’s base salary or target annual cash incentive opportunity percentage; or (iv) requirement to relocate to a work site outside of Columbus, Ohio.

“Change in control” is generally defined to include: (i) acquisition by any person or group of beneficial ownership of 50% or more of the outstanding shares of our Common Stock or the combined voting power of the outstanding voting securities of the Company entitled to vote generally in the election of directors, subject to certain exceptions; (ii) during any period of 24 months, individuals who, at the beginning of such period, constitute the Board of Directors (*i.e.*, “incumbent directors”) cease for any reason to constitute at least a majority of the Board, provided that any director whose election or nomination for election was approved by at least two-thirds of the incumbent directors then on the Board is deemed an incumbent director; (iii) stockholder approval of a plan of complete dissolution or liquidation of the Company; (iv) sale, transfer or other disposition of all or substantially all of the business or assets of the Company; or (v) consummation of a reorganization, recapitalization, merger, consolidation, share exchange or similar transaction involving the Company that requires stockholder approval, subject to certain exceptions. May (or any person controlled by Messrs. Peltz or May) will not constitute a “change in control.”

PAY RATIO DISCLOSURE

As mandated by Section 953(b) of the Dodd-Frank Act and called for under Item 402(u) of SEC Regulation S-K, beginning with this Proxy Statement, we are required to annually disclose the ratio of the annual total compensation of our Chief Executive Officer (Mr. Penegor) to the annual total compensation of our median employee, pursuant to the calculation and disclosure requirements.

Approximately 90% of our employee population is comprised of restaurant team members who are paid hourly. Our restaurant roles provide flexible employment opportunities for Wendy's team members who seek accommodating work schedules, supplemental income or social connection, although such flexible and part-time employment has the effect of lowering the annual total compensation for our median employee. We identified the median employee by examining the tax and payroll records of our employee population (including full-time, part-time, temporary and seasonal employees), excluding our Chief Executive Officer, on December 1, 2017. Other than Mr. Penegor and our non-U.S. employees, all employees of the Company and its subsidiaries were considered in our identification of the median employee. We excluded 58 non-U.S. employees, which represents approximately 0.5% of the Company's total employee population of approximately 12,425 individuals as of December 1, 2017. Of the excluded employees, 44 are employed in Canada, four in Singapore, four in the United Arab Emirates and one in each of Brazil, Guatemala, Hungary, Japan, Philippines and Puerto Rico.

To determine the median employee, we used total cash compensation paid in 2017 as reported to the Internal Revenue Service on Form W-2, which includes base salary for salaried colleagues, base hourly compensation and overtime for hourly permanent employees, actual compensation for seasonal or temporary colleagues, and any cash incentive compensation. No cost of living adjustments were made to determine the median employee. We did not make any assumptions, adjustments or estimates with respect to total cash compensation, nor did we annualize the compensation for any employees who were not employed by us for all of 2017. We believe the use of such reported total cash compensation is a consistently applied compensation measure because we do not widely distribute annual equity awards to employees.

Based on total cash compensation, our median employee was identified as a restaurant team member who in 2017 was paid on an hourly basis and worked 1,892 hours.

Upon identifying the median employee, such employee's annual total compensation was calculated using the same methodology that we use to determine the annual total compensation of Mr. Penegor and our other Named Executive Officers as set forth in the "2017 Summary Compensation Table" in this Proxy Statement.

Based on the foregoing, our median employee's 2017 annual total compensation was \$18,573. Mr. Penegor's 2017 annual total compensation was \$5,472,993, as reported in the "2017 Summary Compensation Table" above. As a result, we estimate that for 2017, the ratio of Mr. Penegor's annual total compensation to that of our median employee was approximately 295:1.

We believe our pay ratio is a reasonable estimate calculated in a manner consistent with applicable SEC rules, based on our employment and payroll records and the methodology described above. The SEC rules governing pay ratio disclosure allow companies to apply numerous different methodologies, exclusions and reasonable assumptions, adjustments and estimates that reflect their compensation practices. For that reason, the pay ratio reported above should not be used as a basis for comparison between companies, as other companies might have different employment and compensation practices and might use various methodologies, exclusions, assumptions, adjustments and estimates in calculating their own pay ratios. Previously, the Company was not required to provide pay ratio disclosures. Accordingly, our executive compensation process does not include an examination of our pay ratio. We have provided this pay ratio information for compliance purposes, and neither the Compensation Committee nor Company management have used the pay ratio measure to influence any compensation actions or decisions.

COMPENSATION OF DIRECTORS

The Company's compensation program for non-management directors is designed to:

- Be competitive with companies against which the Company competes for director talent;
- Encourage and facilitate ownership of our Common Stock by non-management directors; and
- Take into consideration stockholder views regarding director compensation.

The Compensation Committee has responsibility for reviewing the competitiveness and appropriateness of the compensation program for non-management directors and for approving or making recommendations to the Board of Directors with respect to director compensation. In carrying out its duties, the Compensation Committee has established a process to review the competitive positioning of the Company's director compensation program. Such review was previously conducted on a biennial basis, and in May 2017, the Compensation Committee determined that the frequency of such review process should instead be conducted on an annual basis in order to maintain the competitiveness of our director compensation program based on evolving market trends. The Compensation Committee also requested that its independent outside compensation consultant, FW Cook, prepare a competitive analysis of the Company's director compensation program to ensure that such program was providing appropriate levels of compensation. The analysis, which compared the compensation of the Company's non-management directors against a peer group of 19 restaurant companies, confirmed that both the design and compensation levels of the Company's director compensation program were reasonably aligned with market practice.

In May 2017, the Compensation Committee considered and evaluated market data and other guidance provided by FW Cook and a number of other factors, including: (i) the Company's performance since the director compensation program was last changed in May 2016 and June 2015; (ii) the Company's current initiatives and future growth strategies; (iii) the number of Board and Board committee meetings held; (iv) the increase in the complexity of matters addressed by directors; and (v) stockholder expectations regarding director compensation. After consulting with FW Cook, the Compensation Committee approved the following changes to the director compensation program to more closely align the program with market practice and to maintain the program's competitiveness in attracting and retaining highly qualified directors: (a) an increase in the grant date fair value of the annual restricted stock award from \$85,000 to \$105,000; (b) an increase to the annual chair retainer amount for the Compensation Committee Chair from \$10,000 to \$12,500; and (c) for all members of the Nominating and Corporate Governance Committee, the elimination of the \$2,000 per meeting fee and replacement with an annual retainer of \$8,000. Based on guidance from FW Cook, the retainers aligned within the competitive range of market median.

The components of the Company's current compensation program for non-management directors, which include the changes discussed above that were approved by the Compensation Committee in May 2017, are described below.

Annual Retainers

- Each non-management director receives an annual retainer for Board service of \$67,500.
- Each member of the Audit Committee receives an annual retainer of \$14,000, and the Audit Committee Chair receives an additional annual chair retainer of \$15,000.
- Each member of the Compensation Committee receives an annual retainer of \$10,500, and the Compensation Committee Chair receives an additional annual chair retainer of \$12,500.
- Each member of the Nominating and Corporate Governance Committee receives an annual retainer of \$8,000, and the Nominating and Corporate Governance Committee Chair receives an additional annual chair retainer of \$7,500.

Meeting Fees

- Except as otherwise specifically determined by the Compensation Committee, no meeting fees are paid to members of the Audit Committee, Compensation Committee, Subcommittee or Nominating and Corporate Governance Committee. Members of all other Board committees receive a fee of \$2,000 for each meeting they attend.

Annual Restricted Stock Awards

- Each non-management director receives a restricted stock award in connection with his or her initial election and annual re-election to the Board. Each restricted stock award has an annual grant date fair value of \$105,000 and vests on the earlier of the first anniversary of the grant date and the date of the Company's next annual meeting of stockholders, subject to the director's service on the Board on the vesting date.

Non-management directors may elect to receive all or a portion of their annual retainers and meeting fees in shares of Common Stock in lieu of cash. In addition, pursuant to the Company's 2009 Directors' Deferred Compensation Plan (the "2009 Directors' Deferred Compensation Plan"), non-management directors may elect to defer a set percentage or amount of their annual retainers, meeting fees and restricted stock awards into restricted stock units. The restricted stock units represent a contingent right to receive shares of Common Stock and, in the case of a deferral of restricted stock awards, are subject to the same vesting schedule as the underlying restricted stock. Dividend equivalent units accrue on all amounts deferred under the 2009 Directors' Deferred Compensation Plan. All deferred amounts are payable in shares of Common Stock in a lump sum on the earlier of the director's termination of Board service, a fixed number of years or the director's death, as elected by the director at the time of deferral.

2017 DIRECTOR COMPENSATION

The table below summarizes the compensation earned by or paid to the Company's non-management directors for their Board and Board committee service during 2017. Todd Penegor, the Company's Chief Executive Officer, did not receive any additional compensation during 2017 for his service as a director and is therefore not included in the table. The compensation paid to Mr. Penegor during 2017 for his service as an executive officer of the Company is set forth in the "2017 Summary Compensation Table" above.

For 2017, Messrs. N. Peltz, May and M. Peltz elected to receive payment of their entire annual retainers and meeting fees in shares of Common Stock in lieu of cash. - (3) In connection with Nelson Peltz's service as non-executive Chairman, the Board of Directors has approved reimbursement to Mr. Peltz for a portion of his security-related expenses. In connection with this reimbursement, an independent professional security consulting firm provides the Compensation Committee with periodic security assessments regarding Mr. Peltz's security arrangements, including the security issues arising in connection with the business of the Company and the portion of Mr. Peltz's security costs reimbursed by the Company. The amount shown reflects the aggregate amount of such security-related expenses reimbursed by the Company during 2017.

STOCK OWNERSHIP AND RETENTION GUIDELINES FOR EXECUTIVE OFFICERS AND DIRECTORS

The Board of Directors, upon the recommendation of the Compensation Committee, adopted the *Stock Ownership and Retention Guidelines for Executive Officers and Directors*, a copy of which is available on our website at www.wendys.com/who-we-are. The *Stock Ownership and Retention Guidelines* were adopted by the Board to further align the interests of executive officers and directors with the interests of stockholders and to promote the Company's commitment to sound corporate governance. A summary of the *Stock Ownership and Retention Guidelines* is set forth below.

STOCK OWNERSHIP AND RETENTION GUIDELINES FOR EXECUTIVE OFFICERS

The Chief Executive Officer must own an amount of Common Stock equal to at least five times his base salary, and each of the other executive officers must own an amount of Common Stock equal to at least three times his or her base salary. Until an executive officer satisfies the applicable ownership requirement, he or she is required to hold at least 75% of the net shares received upon the exercise of stock options, the vesting of restricted stock or restricted stock units and the payout of performance units. Once the ownership requirement is met, the executive officer must continue to hold at least that number of shares until leaving his or her position with the Company.

STOCK OWNERSHIP AND RETENTION GUIDELINES FOR NON-MANAGEMENT DIRECTORS

Each non-management member of the Board must own an amount of Common Stock equal to at least five times the annual cash retainer payable for Board service. Until a director satisfies the ownership requirement, he or she is required to hold at least 75% of the net shares received upon the exercise of stock options, the vesting of restricted stock or restricted stock units and the payout of performance units. Once the ownership requirement is met, the director must continue to hold at least that number of shares until leaving the Board.

GENERAL PROVISIONS

Because executive officers and directors must retain at least 75% of the net shares received from any exercise of stock options, vesting of restricted stock or restricted stock units and payout of performance units until they satisfy the applicable ownership requirement, there is no set time period for initial satisfaction of the *Stock Ownership and Retention Guidelines*. In the case of financial hardship or other unusual situations, the ownership requirements may be waived upon the approval of the Compensation Committee and, in the case of executive officers, the Chief Executive Officer.

In August 2017, the Board, upon the recommendation of our Compensation Committee, approved a modification to the "net shares" definition to expand the meaning to encompass both withholding taxes and any other applicable taxes. Such modification provides our executive officers with the ability to sell additional shares as may be necessary to fund their anticipated tax liability based on their individual tax situation. For stock options, "net shares" means the number of shares of Common Stock received upon exercise of the option, net of any shares used to pay the exercise price and/or applicable taxes upon such exercise. For restricted stock, restricted stock units and performance units, "net shares" means the number of shares received upon the vesting of the restricted stock or restricted stock units or the payout of the performance units, as applicable, net of any shares used to pay applicable taxes upon such vesting.

In addition to shares owned directly by an executive officer or a director, the *Stock Ownership and Retention Guidelines* provide that shares held in a trust, shares held by immediate family members residing in the same household, shares held in qualified plans, vested shares or share units held in nonqualified plans and unvested time-based restricted stock or restricted stock units will be counted toward satisfaction of the applicable ownership requirement. Shares held by an executive officer or a director in a margin account or otherwise pledged by an executive officer or a director as collateral for a loan will not be counted toward satisfaction of the applicable ownership requirement. As of the date of this Proxy Statement, none of the Company's executive officers or directors has pledged any shares of Common Stock.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth the beneficial ownership as of April 9, 2018 (except as otherwise indicated by footnote) by: (i) each person known by the Company to be the beneficial owner of more than 5% of the outstanding shares of our Common Stock (constituting our only class of voting securities); (ii) each of the Company's directors and director nominees; (iii) each of the Company's NEOs included in the "2017 Summary Compensation Table" above; and (iv) all of the Company's directors and executive officers as a group. CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

REVIEW AND APPROVAL OF RELATED PERSON TRANSACTIONS

Pursuant to its written charter, the Audit Committee has responsibility for the review and approval or ratification of all related person transactions involving more than \$10,000, using appropriate counsel or other advisors as the Committee may deem necessary.

The Company adopted the *Related Person Transactions Policy* (the “*RPT Policy*”) which sets forth in writing the procedures for the Audit Committee’s review, approval and ratification of related person transactions. The *RPT Policy* defines a “related person transaction” as any transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which the Company or any of its subsidiaries was, is or will be a participant and in which any related person had, has or will have a direct or indirect interest and which involves more than \$10,000. A “related person” is defined as any director, director nominee or officer of the Company, any person who is known to beneficially own more than 5% of the Company’s voting securities, any immediate family member of any of the foregoing persons and any entity in which any of the foregoing persons is employed, is a director, trustee, general partner or principal or holds a similar position or has a 10% or greater beneficial ownership interest. The Company’s legal department is primarily responsible for obtaining information from the applicable related person with respect to a proposed related person transaction and for determining, based on the relevant facts and circumstances, whether the transaction is subject to the *RPT Policy*. If the transaction is subject to the *RPT Policy*, the legal department then presents information concerning the transaction to the Audit Committee for review and consideration.

In the course of its review of a proposed related person transaction, the Audit Committee will consider all relevant facts and circumstances, including: (i) the benefits of the transaction to the Company; (ii) the impact of the transaction on the independence of the Company’s directors; (iii) the availability of other sources for comparable products or services; (iv) the terms of the transaction; (v) the terms available to unrelated third parties or to employees generally; and (vi) other facts and circumstances that may bear on the materiality of the transaction under applicable legal and regulatory requirements. The Audit Committee may seek bids, quotes or independent valuations from third parties in connection with assessing any proposed related person transaction.

Pursuant to the *RPT Policy*, the Audit Committee will approve only those related person transactions that are in, or are consistent with, the best interests of the Company and its stockholders, as the Committee determines in good faith. If a proposed related person transaction involves any member of the Audit Committee (or an immediate family member of any Audit Committee member), such member would not participate in the review, consideration, approval or ratification of the proposed transaction.

RELATED PERSON TRANSACTIONS

On December 1, 2011, the Company entered into an agreement with Trian Partners and certain of its affiliates, including Nelson Peltz, Peter May and Edward Garden (collectively, the “Covered Persons”). Pursuant to the agreement, the Board of Directors, including a majority of the independent directors, approved, for purposes of Section 203 of the Delaware General Corporation Law, the Covered Persons becoming the owners of or acquiring an aggregate of up to 32.5% (subject to certain adjustments set forth in the agreement) of the outstanding shares of our Common Stock, such that no such persons would be subject to the restrictions set forth in Section 203 solely as a result of such ownership. Certain other provisions of the agreement terminated when the Covered Persons’ beneficial ownership of the Company’s Common Stock decreased to less than 25% of the outstanding voting power of the Company in January 2014.

The related person transaction described above was reviewed and approved by the Audit Committee in accordance with the terms of its written charter and the *RPT Policy*.

AUDIT COMMITTEE REPORT*

In accordance with its written charter, the Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements, and assists the Board of Directors in its oversight of the accounting, audit and financial reporting practices of the Company. The Audit Committee is composed of four members who satisfy the independence and financial literacy requirements of NASDAQ and Section 10A of the Exchange Act. The Company's management is responsible for the Company's financial reporting process and for preparing the Company's financial statements, and the Company's outside auditors are responsible for performing an independent audit of such financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and for issuing a report thereon. The members of the Audit Committee are not professionally engaged in the practice of accounting or auditing. The Audit Committee relies, without independent verification, on the information provided to the Committee and on the representations made by management and the independent registered public accounting firm that the Company's financial statements have been prepared in conformity with U.S. Generally Accepted Accounting Principles.

In performing its oversight function, the Audit Committee reviewed and discussed the audited consolidated financial statements of the Company as of and for the fiscal year ended December 31, 2017 with management and Deloitte & Touche LLP, the Company's independent registered public accounting firm. The Audit Committee also discussed with Deloitte & Touche LLP all matters required to be discussed by PCAOB Auditing Standard No. 16, *Communications with Audit Committees*. In addition, the Audit Committee, with and without management present, reviewed and discussed the results of Deloitte & Touche LLP's examination of the Company's financial statements.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, management is required to prepare a report as to its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2017, and Deloitte & Touche LLP is required to prepare an attestation report with respect to the effectiveness of the Company's internal control over financial reporting. The Audit Committee reviewed and discussed with management its report regarding its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2017, and reviewed and discussed with Deloitte & Touche LLP its report as to the effectiveness of the Company's internal control over financial reporting. Management's report and Deloitte & Touche LLP's report are each included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

The Audit Committee received from Deloitte & Touche LLP a written statement regarding all relationships between Deloitte & Touche LLP and the Company that might bear on Deloitte & Touche LLP's independence, consistent with applicable requirements of the Public Company Accounting Oversight Board regarding an independent accountant's communications with the Audit Committee concerning independence. The Audit Committee discussed with Deloitte & Touche LLP any relationships that may have an impact on their objectivity and independence and satisfied itself as to Deloitte & Touche LLP's independence. The Audit Committee also considered whether the provision of services by Deloitte & Touche LLP to the Company not related to the audit of the Company's annual financial statements referred to above or to the reviews of the interim financial statements included in the Company's quarterly reports on Form 10-Q is compatible with maintaining Deloitte & Touche LLP's independence.

Based on the above-mentioned review and discussions with management and Deloitte & Touche LLP, and subject to the limitations on the role of the Audit Committee and the Audit Committee's responsibilities described above and in the Audit Committee's written charter, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

The Audit Committee:

Dennis M. Kass
Joseph A. Levato

(Item 2 on the Company's Proxy Card)

The Audit Committee has determined to appoint Deloitte & Touche LLP ("Deloitte") as the Company's independent registered public accounting firm to examine the consolidated financial statements of the Company and its subsidiaries for 2018. In accordance with its written charter, the Audit Committee assists the Board of Directors in fulfilling its responsibility relating to the engagement of the independent registered public accounting firm and the evaluation of such firm's qualifications, independence and performance.

A representative of Deloitte is expected to be present at the Annual Meeting and will have the opportunity to make a statement and to respond to appropriate questions. AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee adopted the *Policy Relating to Pre-Approval of Audit and Permitted Non-Audit Services* (the "Pre-Approval Policy") that requires the Committee to pre-approve all services provided by the Company's independent registered public accounting firm to the Company and its subsidiaries. In general, predictable and recurring covered services, together with the related fees, may be approved by the Audit Committee on an annual basis. Pre-approval in such circumstances will generally be by reference to classes of covered services, provided that the pre-approval is sufficiently detailed to identify the scope of services to be provided. The *Pre-Approval Policy* sets forth a list of covered services that may be pre-approved by class on an annual basis. Covered services that are not pre-approved by class must be pre-approved on an individual basis by the Audit Committee.

Under the *Pre-Approval Policy*, any engagement of the independent registered public accounting firm to perform pre-approved “tax” or “all other” services must be reported by management to the Audit Committee at its first scheduled meeting following the engagement. The total payments that may be made with respect to “tax” or “all other” services that have been pre-approved by class may not exceed \$200,000 per year. Once the \$200,000 threshold has been met in any year, any additional “tax” or “all other” services (including any additional payments for “tax” or “all other” services that were previously pre-approved) must be pre-approved on an individual basis unless otherwise authorized by the Audit Committee.

Pursuant to the *Pre-Approval Policy*, the Audit Committee will establish fee levels or limits for covered services that are pre-approved on a class basis not less frequently than annually. Any covered services for which the estimated fees would cause the total fees for that class of services to exceed the applicable fee limit must be specifically approved by the Audit Committee. For services that are approved by the Audit Committee on an individual basis, the Committee will indicate an approval fee level or limit at the time of approval. The Audit Committee periodically reviews a schedule prepared by management showing the fees paid and estimated to be paid to the independent registered public accounting firm during the fiscal year for each covered service that was or is being provided by the firm.

The *Pre-Approval Policy* permits the Audit Committee to delegate pre-approval authority to one or more of its members, provided that (i) the aggregate estimated fees for any covered service approved by delegates may not exceed \$100,000 for any applicable fiscal year and (ii) the aggregate estimated fees for all covered services approved by delegates during any fiscal year may not exceed \$1.0 million. Any pre-approval granted by delegates must be reported to the Audit Committee at its next scheduled meeting.

In considering whether to grant pre-approval, the Audit Committee considers the nature and scope of the proposed service in light of applicable legal and regulatory requirements, including the rules and regulations promulgated by the SEC and the Public Company Accounting Oversight Board with respect to auditor independence. The Audit Committee retains discretion to prohibit services that, in its view, may compromise, or appear to compromise, the independence and objectivity of the independent registered public accounting firm.

All of the services provided to the Company by Deloitte during 2017 were pre-approved by the Audit Committee or its delegates in accordance with the terms of the *Pre-Approval Policy*.

PROPOSAL 3

ADVISORY RESOLUTION TO APPROVE EXECUTIVE COMPENSATION

(Item 3 on the Company's Proxy Card)

In accordance with Section 14A of the Exchange Act, we provide our stockholders with the opportunity to cast an annual advisory vote to approve the compensation of our NEOs (also known as a “say-on-pay” vote). We encourage stockholders to read the “Compensation Discussion and Analysis” section of this Proxy Statement, which describes in detail how our 2017 executive compensation program was designed and implemented to achieve our overall compensation objectives. Stockholders also should review the “2017 Summary Compensation Table” included in this Proxy Statement, as well as the related compensation tables, notes and narrative, which provide detailed information regarding the compensation of our NEOs for 2017.

Our executive compensation program is designed to support the Company's business objectives by linking executive pay to individual performance, the Company's attainment of annual and multi-year operating and financial goals and the creation of long-term stockholder value. The executive compensation program utilizes a variety of sound compensation governance practices that support the Company's commitment to protecting stockholder interests.

The primary objectives of our executive compensation program are to:

- Motivate achievement of the Company's performance and strategic business goals;
- Attract and retain highly qualified executives by paying competitive compensation levels if performance commensurate to peers is achieved; and
- Align the interests of executives with those of the Company's stockholders.

Under our executive compensation program, a substantial portion of the total compensation for senior executives is variable (*i.e.*, at-risk) and tied to Company performance. During 2017, performance-based incentives constituted the most significant portion of total direct compensation for our Chief Executive Officer (83%) and our other NEOs as a group (71%). This pay-for-performance philosophy aligns executive pay with the Company's business objectives and ensures that executives are responsive and accountable to stockholder interests.

The primary components of our executive compensation program are described in the table below.

COMPONENT	PURPOSE
Base Salary	<ul style="list-style-type: none"> • Attract and retain highly qualified executives by providing a competitive level of fixed cash compensation that reflects the experience, responsibilities and performance of each executive.
Annual Cash Incentives	<ul style="list-style-type: none"> • Align executive pay with Company performance by motivating and rewarding executives over a one-year period based on the achievement of strategic business objectives.
Long-Term Equity Incentives	<ul style="list-style-type: none"> • Align the interests of executives with the interests of stockholders and retain highly qualified executives by motivating and rewarding executives to achieve multi-year strategic business objectives. • Create a direct link between executive pay and the long-term performance of our Common Stock.
Perquisites and Benefits	<ul style="list-style-type: none"> • Provide limited perquisites and benefits, consistent with competitive market practice.

During 2017, the Company reported another year of strong performance and global growth, with our North America and International restaurants contributing to our continued strategic and financial progress, as discussed under the “Compensation Discussion and Analysis—2017 Executive Summary” caption in this Proxy Statement. Through our strong overall operating and financial results, we delivered total stockholder return of 24% in 2017, 96% on a three-year basis and 289% on a five-year basis. At the same time, the overall compensation of our senior executives remained competitive with the market and the restaurant industry, consistent with our executive compensation philosophy.

Notwithstanding strong stockholder support of our executive compensation program, we continue to evaluate ways to further strengthen our commitment to best practices in compensation governance. For 2018, for our annual cash incentives, we retained adjusted EBITDA, weighted at 60%, as the key earnings performance metric and maintained the

40% weighting and focus on key growth performance metrics by introducing global systemwide sales, weighted at 20%, as an additional key growth performance metric and by decreasing the weighting of the same-restaurant sales key growth performance metric from 40% to 20%. For our long-term equity incentives, we retained the equal weighting of the performance unit and stock option components at 50% of grant value for each. For the performance unit component, we also retained relative total stockholder return, weighted at 50%, as a key market performance metric and replaced cumulative three-year adjusted earnings per share, which was weighted at 50%, by adding cumulative three-year free cash flow, weighted as 50%, as a key earnings performance metric.

We believe our strong results in 2017 are a reflection of our pay-for-performance philosophy and demonstrate that our executive compensation program is effectively designed and continues to serve the best interests of the Company and our stockholders.

After considering the foregoing information, together with the more detailed information regarding our executive compensation program set forth in this Proxy Statement, the Company proposes that stockholders approve the following resolution:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the Company's Named Executive Officers as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the "Compensation Discussion and Analysis," the "2017 Summary Compensation Table" and the related compensation tables, notes and narrative included in this Proxy Statement for the Company's 2018 Annual Meeting of Stockholders.

The vote on this resolution is advisory, which means that the vote is not binding on the Company, the Board of Directors or the Compensation Committee. However, the Board of Directors and Compensation Committee will carefully review the voting results and, to the extent there is a significant vote in favor of or against our executive compensation program as described in this Proxy Statement, the Compensation Committee will consider whether to implement, or recommend to the Board of Directors the implementation of, any modifications to the Company's compensation programs and policies in response to such vote.

REQUIRED VOTE

The affirmative vote of a majority of the shares of Common Stock present (in person or by proxy) and entitled to vote at the Annual Meeting is required to approve this proposal. Abstentions will have the same effect as votes "against" this proposal. Broker non-votes will not be included in the tabulation of voting results for this proposal.

STOCKHOLDER PROPOSALS FOR 2019 ANNUAL MEETING OF STOCKHOLDERS

Our Certificate of Incorporation and By-Laws provide that, except as otherwise provided by law, only business properly brought before an annual meeting of stockholders may be conducted at such meeting. To do so, a stockholder proponent and stockholder proposal (including Rule 14a-8 Proposals and Proxy Access Director Nominations) must satisfy the applicable eligibility, notice, content, stock ownership and other requirements set forth in our Certificate of Incorporation and By-Laws. Rule 14a-8 Proposals must additionally meet the applicable requirements of Rule 14a-8 of the Exchange Act.

All stockholder proposals must be (i) addressed to the Secretary of the Company and (ii) received by the Company at our corporate offices within the timeframes noted below (the address for our Secretary and corporate offices is provided below under the caption "Contacting the Secretary and Corporate Offices"). Please note that delivery of any stockholder proposal must be made personally or by mail, and delivery by e-mail, facsimile or other means will not satisfy the requirements of our Certificate of Incorporation. A stockholder who wishes to submit any business before the 2019 annual meeting of stockholders (the "2019 Annual Meeting") is encouraged to seek independent counsel regarding the requirements under our Certificate of Incorporation and By-Laws and SEC rules and regulations, and the Company reserves the right to forego consideration of any submitted business that is not timely or otherwise does not satisfy the appropriate requirements.

Bringing Stockholder Proposals Before the 2019 Annual Meeting

Stockholders may submit proposals (including director nominations) for consideration at the 2019 Annual Meeting that are not Rule 14a-8 Proposals, not Proxy Access Director Nominations and not otherwise intended for inclusion in the Company's proxy materials for the 2019 Annual Meeting. To be timely and properly brought before the 2019 Annual Meeting, any such stockholder proposal must be received by the Company not earlier than February 5, 2019 and not later than March 7, 2019. However, if the date of the 2019 Annual Meeting occurs more than 30 days before, or more than 60 days after, June 5, 2019, the Company must receive such stockholder proposals (i) not earlier than 120 calendar days before the 2019 Annual Meeting date and (ii) not later than the later of (a) 90 calendar days before the 2019 Annual Meeting date or (b) the tenth day after the date on which we publicly disclose the 2019 Annual Meeting date by mail, in a press release or in a document filed with the SEC.

Stockholder Proposals Intended for Inclusion in 2019 Proxy Materials

Stockholders may submit proposals (other than Proxy Access Director Nominations) under Rule 14a-8 of the Exchange Act for inclusion in our 2019 proxy materials and consideration at the 2019 Annual Meeting ("Rule 14a-8 Proposals"). Pursuant to Rule 14a-8, to be timely and properly brought before the 2019 Annual Meeting, any Rule 14a-8 Proposal must be received by the Company not later than the close of business on December 21, 2018. Please note that, as the SEC rules make clear, simply submitting a Rule 14a-8 Proposal does not guarantee that such proposal will be included in our 2019 proxy materials.

Director Nominations Intended for Inclusion in 2019 Proxy Materials (Proxy Access)

In 2016, our stockholders approved amendments to our Certificate of Incorporation to implement “proxy access” procedures for director nominations submitted by stockholders. As provided in more detail in our Certificate of Incorporation, proxy access permits a stockholder, or a group of up to 25 stockholders, owning 3% or more of the Company’s outstanding Common Stock continuously for at least three years, to nominate and include in the Company’s proxy materials director nominees constituting up to 20% of our Board of Directors (or 25%, if the number of directors serving on the Board is less than ten) (“Proxy Access Director Nominations”).

Stockholders may submit Proxy Access Director Nominations for inclusion in our 2019 proxy materials and consideration at the 2019 Annual Meeting. To be timely and brought before the 2019 Annual Meeting, any Proxy Access Director Nomination must be received by the Company not earlier than November 21, 2018 and not later than December 21, 2018. However, if the date of the 2019 Annual Meeting occurs more than 30 days before, or more than 60 days after, June 5, 2019, the Company must receive Proxy Access Director Nominations (i) not earlier than 120 calendar days before the 2019 Annual Meeting date and (ii) not later than the later of (a) 90 calendar days before the 2019 Annual Meeting date or (b) the tenth day after the date on which we publicly disclose the 2019 Annual Meeting date by mail, in a press release or in a document filed with the SEC.

HOUSEHOLDING OF ANNUAL MEETING MATERIALS

Some banks, brokers and other nominees follow the practice of “householding” proxy materials. This means that multiple beneficial owners of our Common Stock who share the same address or household may not receive separate copies of this Proxy Statement, the Notice of Internet Availability or the Company’s 2017 Annual Report to Stockholders. The Company will promptly deliver separate copies of such documents to stockholders who write or call the Secretary of the Company at our corporate offices and telephone number provided under the caption “Contacting the Secretary and Corporate Offices.”

Stockholders who wish to receive separate copies of the Company’s proxy materials in the future also may call or write to the Secretary of the Company at the address and telephone number under the caption “Contacting the Secretary and Corporate Offices.” Alternatively, if you and other stockholders of record with whom you share an address currently receive multiple copies of the Company’s proxy materials, or if you hold stock in more than one account and, in either case, you wish to receive only one copy of the Company’s proxy materials for your household, you may contact the Secretary of the Company at the address and telephone number under the caption “Contacting the Secretary and Corporate Offices.”

ANNUAL REPORT ON FORM 10-K

The Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017 is included in the 2017 Annual Report to Stockholders that is being delivered, or made available electronically via the Internet, to stockholders with this Proxy Statement. Additional copies of the 2017 Form 10-K may be obtained free of charge by sending a written request to the Secretary of the Company at the address provided under the caption “Contacting the Secretary and Corporate Offices.” Copies of the 2017 Form 10-K are also available on our website at www.wendys.com/who-we-are.

DISCLOSURE REGARDING NON-GAAP FINANCIAL MEASURES

The Company uses adjusted EBITDA, adjusted EBITDA margin and adjusted earnings per share, which exclude certain expenses and benefits, as internal measures of the Company's business operating performance and as performance measures for benchmarking against the Company's peers and competitors. Adjusted EBITDA, systemwide sales and free cash flow are also used by the Company in establishing performance goals for purposes of executive compensation. For 2017, adjusted EBITDA (with certain modifications approved by the Performance Compensation Subcommittee of the Company's Board of Directors) was used as a performance metric for the Company's annual cash incentive compensation for senior executives, and adjusted earnings per share was used as a performance metric for the

¹ The benefit from income taxes on "System optimization losses, net" was \$598 for the twelve months ended December 31, 2017. The benefit from income taxes on "System optimization losses, net" includes the impact of non-deductible goodwill disposed of in connection with our system optimization initiative, adjustments related to prior year tax matters, changes to state deferred taxes and changes to valuation allowances on state net operating loss carryforwards. The benefit from income taxes on all other adjustments was calculated using an effective tax rate of 39.11% for the year ended December 31, 2017.

Company's long-term equity incentive compensation for senior executives. The Company believes adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share and systemwide sales provide a meaningful perspective of the underlying operating performance of the Company's current business and enables investors to better understand and evaluate the Company's historical and prospective operating performance. Free cash flow is a non-GAAP financial measure that is used by the Company as an internal measure of liquidity. The Company believes that free cash flow is an important liquidity measure because it communicates how much cash flow is available for working capital needs or to be used for repurchasing shares, paying dividends, repaying or refinancing debt, financing possible acquisitions or investments or other uses of cash. Adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share, free cash flow and systemwide sales are not recognized terms under GAAP, and the Company's presentation of these non-GAAP financial measures in this Proxy Statement does not replace the presentation of the Company's financial results in accordance with GAAP. Because all companies do not calculate adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share, free cash flow and systemwide sales (and similarly titled financial measures) in the same way, those measures as used by other companies may not be consistent with the way The Wendy's Company calculates such measures. Adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share, free cash flow and systemwide sales should not be construed as substitutes for, or as better indicators of, the Company's performance than the most directly comparable GAAP financial measures.
