Group Purchasing Power At Its Best!

A Letter from the Executive Directors

The Wisconsin Health Care Association and the Wisconsin Center for Assisted Living together form the Badger State's most representative long-term care association, representing about 250 facilities from around the state and across the care continuum. Our diverse membership includes proprietary, non-profit, and government-operated facilities, and ranges from the smallest of Adult Family Homes to the largest of skilled nursing facilities in Wisconsin. We believe this diversity is the source of our organization's strength, effectiveness and integrity.

Our members are committed to providing the outstanding quality and compassionate care required to meet the ever-changing needs of Wisconsin's elderly and disabled citizens. WHCA/WiCAL is proud of our role in representing, protecting, and advancing the interests of Wisconsin's skilled nursing and assisted living facilities, and the residents they serve.

The commitment of WHCA/WiCAL member facilities to quality is mirrored in the array of professional services and products offered by our associate members – individuals, firms, and organizations who are dedicated to bringing our members the latest products and developments in long-term care. These associate members and our member facilities are true colleagues in care, engaging with and supporting one another. They work together, toward the common purpose of ensuring that the quality of life and care provided to assisted living and nursing home residents throughout the state remains a national model.

In the 2012 Membership Directory and Buyers' Guide, you will find a complete listing of and additional information about WHCA and WiCAL members, as well as our associate members.

Additionally, this guide was designed to facilitate identification and contact information for all organizations that play key operational, political, or regulatory roles in Wisconsin's long-term care delivery system.

Sincerely,

Tom Moore
 WHCA Executive Director

Brian Purtell
 WiCAL Executive Director

About WHCA and WiCAL

The Wisconsin Health Care Association and the Wisconsin Center for Assisted Living (WHCA/WiCAL) are dedicated to representing, protecting and advancing the interests of Wisconsin skilled nursing and assisted living facilities throughout the state, taking great pride in its role as Wisconsin's most representative long-term care association.

WHCA was founded in 1951 with a goal to advocate for and assist members through ethically, effectively, and efficiently providing the highest quality of services to the elderly and disabled citizens of Wisconsin. This history was enhanced by the creation of WiCAL in 2008 to serve as the voice for assisted living providers throughout the state;

Based in Madison, WHCA/WiCAL represents about 250 skilled nursing and assisted living facilities, as well as the employees and residents they serve.

WHCA/WiCAL strives to keep both its facility and associate membership fully apprised of developments at the state and national levels. From educational seminars, conventions, advocacy and public relations efforts, to our daily Twitter and Facebook posts, weekly electronic newsletter, *Friday Update*, and biannual magazine *Continuum*, WHCA/WiCAL's focus is on continually providing our members and the public the education and information critical to helping provide quality care and quality of life for the residents we serve.

...Helping People Live Better

It's what we do and it's who we are. At Extendicare Health Services, Inc., we help people live better by providing high quality health care and rehabilitation in a person-centered environment.

With roughly 20% of all hospitalized older adults receiving care in a post-acute center, the post-acute arena is playing an increasingly critical role in improving the efficiency and effectiveness of healthcare delivery as a whole. Post-acute centers offer a lower-cost setting for healthcare delivery, while providing patients with complex clinical care developed around recovery and healing.

However, all post-acute centers are not alike. Extendicare stands apart through our commitment to provide significant value and innovation to both our patients and to our collaborative partners across the care continuum. We are proud to be leaders in accountable care-achieving high clinical quality, while realizing efficiency through appropriate utilization of care resources.

We accept admissions 24/7

Wisconsin Director of Nursing Council Education Forum, Inc.

www.WI-DON-Council.org

The Wisconsin Director of Nursing Council – Education Forum, Inc. provides education and support for Long Term Care Professionals as they enhance the quality of life for residents and staff across the Continuum of Care.

Quality education and networking are vital to the delivery of compassionate care in the long term care continuum. Through our annual education offerings: Symposium, Workshop, Seminars and Webinars, our membership can enhance their knowledge on issues affecting the long term care continuum.

The WI D.O.N. Council encourages membership for Directors of Nursing, Assistant Directors of Nursing, Nurse Managers and Supervisors, Hospice Leaders and others who represent all phases of care for an aging population.

Additionally, we encourage Associate Membership for other LTC professionals and Patron Memberships for vendors to the LTC industry.

Our organization continues to support educational offerings to nursing students who have a passion and commitment to pursuing a career in long term care through our scholarship program. Each year The WI D.O.N. Council provides \$1000 scholarships to those who demonstrate this passion and commitment.

We welcome your active involvement and invite you to participate in our educational events, provide articles for newsletters, join our working committees or just provide feedback to the issues that are affecting you.

For membership information, visit our website or contact one of the following Board Members:

How to Contact Your Legislator

The tools of effective communication

FOLLOW THESE GUIDELINES TO ACHIEVE GREATER SUCCESS

You can help to increase WHCA's influence by staying in close contact with your local elected and appointed officials at all levels of government. Take advantage of every opportunity possible to communicate with them in writing, through e-mail, by phone and in person. WHCA staff will also call upon you periodically to help support WHCA's efforts in Madison.

Remember that WHCA's staff is one of the most valuable tools you have. They know the ins and outs of legislative activities, committees, processes, and staff contacts. All of us, speaking together, present a strong voice for the long-term care industry. Take a few minutes now to read these guidelines. If you have any questions, please feel free to contact WHCA's staff in Madison. You will find addresses and e-mail addresses for elected officials on the WHCA Web-site at www.whca.com. The site even gives you a way to send e-mail messages instantly.

LETTERS AND E-MAILS

A well-crafted letter or e-mail is the most commonly used and effective means of communicating with elected officials. Legislative offices are set up to receive, log and respond to constituents' letters. (Handwritten letters from constituents get noticed; they positively impact the votes of elected officials.) Many, though not all, Congressional and state legislators offices use e-mail to communicate with constituents.

IMPROVE YOUR LETTERS & E-MAILS!

- Be straightforward and clear. Avoid using industry lingo. (Do you really think legislators know what "SNF" means?)
- Keep it short (one page – not smaller than 10 point type).
- Make your primary point in the first paragraph.
- Avoid long, drawn-out paragraphs that keep your reader guessing as to what your conclusion may be.
- Use facts and the experiences of your staff and residents to back up your opinions.
- Use your credentials to support your views. This lets the reader know you are qualified to be making your statements.
- Share your expertise without boasting.
- Be tactful and polite – remember that you will be asking for something from the reader and that there will be an additional issue down the road. It is not wise to alienate your legislator with anger because of a "disagreement" on a current issue.
- Handwritten letters get noticed. Make sure your handwriting is legible and if you have doubt, use a word processor.

VISITS WITH ELECTED OFFICIALS

Congressional and state legislative district offices are staffed with people whose job it is to communicate with constituents like you. We have several members who make a point to stop in to visit their legislator every time he/she has office hours in their area. This is the impact each member should strive for. There are no barriers to stopping by local offices and establishing relationships with the staff. Don't feel put off if you meet with a staff member. They are essential advisors to legislators.

GET THE MOST FROM YOUR VISITS!

- Call ahead of time for an appointment and tell them what issues you wish to discuss.
- Time with legislators is extremely valuable. Have an agenda so that you don't just "chat" until the clock runs out.
- Don't be disappointed if you meet with staff. Treat a meeting with staff as you would with any elected official.
- Expect them to say they will have their staff "look into the issue."
- Stick to the facts and use the human story to serve as examples.
- Give the legislator a one-page paper describing the issue and solution and ask him/her to support your position.
- Leave the meeting open-ended for further discussion – and ALWAYS follow up with a personal "thank you" note AND call, fax or e-mail your WHCA lobbyists.

TELEPHONE CALLS

A phone call is not as personal as a visit, but more so than a letter. The rules are the same – make your points clearly and succinctly and then say goodbye. Don't act surprised or annoyed if a staff member takes your call. Treat staff members with the same respect and courtesy you would an elected official.

MAKE YOUR PHONE CALLS COUNT

- Use the phone when time for action is short.
- Use the phone when you want to convey urgency.
- Leave a simple message of your support or opposition to a bill by leaving the Assembly or Senate bill number and the name it is known by and then ask your legislator to support your position.
- Always mention your name, title and local affiliation.
- It is fine to ask the staff person to call you back and let you know what action the legislator took.

FAXES

Grassroots lobbying, in particular, often takes advantage of the immediacy of faxes on important issues. Use these methods of communication only when time is critical.

SEND FAXES THAT GET READ

- These messages are brief by nature.
- Stick to the facts but in an even briefer form than your letters or phone calls.
- Just make your main point and ask the legislator to take a specific action.
