In that case the buyer or prospective buyer is obliged to pay to Winefield's Auctioneers all additional costs, including in any case the costs of storage.

**6.2** When taking possession of the purchased items, the buyer or prospective buyer must observe the necessary caution and comply unconditionally and in full with the instructions issued by or on behalf of Winefield's Auctioneers. The buyer or prospective buyer is obliged to provide security to Winefield's Auctioneers immediately on its request for the event that damage is caused in the context of taking possession of the purchased items. No interest will be paid on security deposits paid by the buyer or prospective buyer.

**6.3** In the event that (among other things) the buyer or prospective buyer does not take possession of the purchased items within the time period fixed for this and/or the buyer or prospective buyer acts contrary to the provisions of paragraph 2 of this clause, the buyer or prospective buyer is automatically in default and Winefield's Auctioneers is entitled to terminate the agreement with the buyer or prospective buyer by means of a written statement and/or to sell the purchased items to one or more third parties. The buyer or prospective buyer is obliged to reimburse to Winefield's Auctioneers

any and all damage caused by his negligence. Once the title to the purchased items has been transferred to the buyer or prospective buyer, he can no longer claim termination of the purchase agreement.

## Glossary of Terms

### Into Neck:

Normal level for all wines. In wines over 10 years of age, this level suggests excellent provenance. Rarely used, except to emphasize a particularly good fill level when other fill levels in the same lot are less than perfect.

### Base Neck:

A common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

### Top-Shoulder:

Again, a common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

### Very High Shoulder:

Acceptable fill level for wines 8 or more years of age. Suggests proper storage conditions throughout its life. Natural occurrence for wines of this age.

### High Shoulder:

Usually not a problem for wines in excess of 20 years of age. This level may be caused by easing of the cork combined with natural evaporation. Check the clarity and the color of the wine in the bottle as a secondary indicator of provenance.

### High-to-Mid-Shoulder:

Refer to High Shoulder and Mid-Shoulder level descriptions.

### Mid Shoulder:

May suggest ullage during the life of the wine due to either easing of the cork or inconsistent storage conditions. Not abnormal for wines 30 or more years of age. As additional indicators of risk, definitely inspect clarity and color of the wine in the bottle, as well as condition of the cork.

### Low Shoulder and Below:

Suggests poor provenance. Definitely a risk and generally not saleable, with exception given to rare bottlings and/or labels. Not recommended for consumption.

Wines are described in this catalogue as accurately as possible. Buyers are urged to make allowances for slight variations in ullages and conditions. No guarantee is made regarding provenance, and no returns will be accepted.
