Weingut Keller: The Superstar from Rheinhessen

Winefield's Auctioneers proudly presents a fairly complete collection of the best wines from Weingut Keller; the phenomenon that has turned around the wine world since the beginning of this century.

The origins of the Keller family go back to Switzerland when Johann Leonhard Keller left his homeland in 1789. Driven by the misery of the French Revolution, he bought a house in Dalsheim, Germany, and started an agri- and viticulture business. Soon, he also acquired the Dalsheimer Oberen Hubacker vineyard, which was owned by the monastery.

Today, the Dalsheimer Hubacker site covers 35 ha and is still owned by the Keller family and is planted with over 95% of Riesling vines. Expressive Rieslings ripen from the medium-sized, skeletal soil with mighty limestone rocks in the subsoil, which impress with its delicate combination of fruit, acidity and the finest minerality.

The yields in the Dalsheimer Hubacker site are on average 45 hl/ha, and the family's diary already reported the outstanding qualities of the location back in the 19th century.

In 1996, father Klaus was able to buy the

Abtserde vineyard (2.5 ha) which he leased out for a period of 10 years. For this reason, his son Klaus-Peter produced his first Abtserde only in 2006. In addition, Kirchspiel vineyard (3.5 ha) could be purchased in 1999, followed in 2001 by the Morstein vineyard (0.5 ha). In 2009 the family managed to acquire the Grand Cru sites Pettenthal and Hipping in Nierstein. Part of these vineyards were already in the possession of the family of Klaus-Peter's wife Julia. Her family already owned many top parcels in Westhofen, including the Morstein and Kirchspiel vineyards.

In 2001, the couple took over the domain from father Klaus and started a revolution by changing the main style of the wines into dry Rieslings, instead of sweet wines. Both Klaus-Peter and Julia studied oenology at the famous university of Geisenheim. After that, Klaus-Peter gained experience in South Africa (Haut-Cabrières in Franschhoek) and in Burgundy (Hubert Lignier and Armand Rousseau). Julia worked in the Rheingau with Robert Weil and Hanz Gunther Schwartz, and in the Rheinpfalz at Müller-Catoir.

The vineyards have been ‘forgotten over the centuries’ and are now, thanks to the research of Klaus-Peter, rediscovered again as a ‘renaissance’ in Rheinhessen. In order to gain insight over every square meter of the domain, Klaus-Peter has had more than 60.000 holes (!) drilled for soil investigation purposes.

Klaus-Peter is very passionate and rapidly makes drastic changes in the vineyards and in the cellar, such as:

- With new plantings, he works to the extreme with 7,000 to 7,500 vines per ha. More condensed is not possible since sufficient space needs to remain between the vines for the use of equipment. By doing so, Klaus-Peter forces the vines to grow deep into the soil, to reach adequate water supply, even during periods of drought.
- He let grasses grow between the tendrils, to maintain the moisture and thereby protect the vines during periods of drought.
- He limits the alcohol content of the wines by, amongst other things, planting a clone of Riesling of which the volume of the grape remains small.
- Klaus-Peter is one the last in the region to start harvesting (mid-November) to obtain the absolute ripeness of the grapes. Besides that, he uses special techniques to slow down the ripening process (lots of leaves around the grape bunches to prevent sun burn, cut grapes between the bunches for maximum ventilation to prevent botrytis).

- Fermentation in oak casks instead of stainless-steel ones.
- Only the use of wild yeasts.
- Peel maceration for 30 to 40 hours before pressing.
- Before bottling, wines 'sur lie' for 4 months in oak casks, (originating from Domaine de la Romanée-Conti) without batonnage for white as to avoid greasy wines.
- Light filtration; bottle-aging for another 6 months in the cellar.
- Wines must be at least 15 years old for the grand cru level, with a maximum of 30 hl/ha.

Today, Klaus-Peter is a recognized superstar and his wines are top-listed and received many awards in recent years. Gault Millau even awarded the 1999 Dalsheimer

Hubacker Riesling Trockenbeereauslese with the perfect score of 100 points. The estate has been highest ranked in Germany several times and Klaus-Peter is worldwide ranked as best winemaker.

It took more than two decades to build up this collection, which has been purchased at the famous Grossen Ring Wein-versteigerung or directly at the domain and has been stored in perfect condition in a climatized wine cellar ever since.

Do not miss this one-off opportunity to get your hands on wines from this unique collection, many of which are no longer available on the market or practically impossible to find!

Glossary of Terms

Into Neck:

Normal level for all wines. In wines over 10 years of age, this level suggests excellent provenance. Rarely used, except to emphasize a particularly good fill level when other fill levels in the same lot are less than perfect.

Base Neck:

A common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

Top-Shoulder:

Again, a common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

Very High Shoulder:

Acceptable fill level for wines 8 or more years of age. Suggests proper storage conditions throughout its life. Natural occurrence for wines of this age.

High Shoulder:

Usually not a problem for wines in excess of 20 years of age. This level may be caused by easing of the cork combined with natural evaporation. Check the clarity and the color of the wine in the bottle as a secondary indicator of provenance.

High-to-Mid-Shoulder:

Refer to High Shoulder and Mid-Shoulder level descriptions.

Mid Shoulder:

May suggest ullage during the life of the wine due to either easing of the cork or inconsistent storage conditions. Not abnormal for wines 30 or more years of age. As additional indicators of risk, definitely inspect clarity and color of the wine in the bottle, as well as condition of the cork.

Low Shoulder and Below:

Suggests poor provenance. Definitely a risk and generally not saleable, with exception given to rare bottlings and/or labels. Not recommended for consumption.

Wines are described in this catalogue as accurately as possible. Buyers are urged to make allowances for slight variations in ullages and conditions. No guarantee is made regarding provenance, and no returns will be accepted.
