# Plant Catalog 2024

*Growing with you... Since 1984*

Reflections

40 years ago....

Newly prepped phlox border

Dragon hunt for the kids

Daylily 'Blood, Sweat and Tears'

## Dear Gardening Friends

40 years ago we started the greenhouse hoping we could sell some plants just to make a living. Little did we know that the business would grow to the size it is now, with such a wide variety of plant species and with such supportive customers as you.

As we **celebrate 40 years** of planting dreams and growing with, and for you, we realize how fortunate we are to do what we do. We couldn't do it without YOU.

On June 15<sup>th</sup> we hope to share the celebration with everyone at our **Customer Appreciation Day**. There will be the opportunity to enjoy free lunch refreshments and special Anniversary Sales.

## Activities

Many sections of the display garden are close to 40 years old and in need of some re-thinking (read re-digging!). This past summer we dug up all the plants in the large summer border to make room for some newer phlox varieties and to give it a fresh design. No less than 20 phlox varieties will be featured here. Including this years Perennial Plant of the Year, the tall, disease resistant and long blooming, **Phlox 'Jeanna'** - seen on the right. Before the new phlox are planted in early summer, cheerful tulips and alliums will be filling in the empty spaces.

Here is to a perennial bed with another 40 years of color and food for the pollinators!

After yet another successful **Dragon Hunt season**, the kids are in for a BIG surprise with a fun new dragon added to the hunt. Neither you, nor your kids, will miss it when you visit us in the spring - guaranteed!

## Our Guarantee

For many reasons, including the rapidly changing temperatures and snow covers of our current winters, we have decided to revisit and update our **Tree & Shrub Guarantee**. Starting 2024, our guarantee will cover the **current season only**, not over the winter. This will apply to the trees and shrubs you purchase in 2024 and forward, not for 2023. While we are bidding farewell to the extended plant guarantee, we are doubling down on our promise to deliver the best selection of plants with the same top quality you have grown accustomed to. Our aim has always been to make you as successful as possible in all of your gardening activities, and to be here to support and advise you when questions and concerns arise!

## New and Note Worthy Perennials

You would think 40 years of traveling down the long and winding perennial road would exhaust the possible new introductions. But no, there are always more where they come from. Just look at **Daylily 'Blood, Sweat and Tears'**, which is aptly named to reference the years of hard work it took the breeders to develop it. This is a truly exceptional red daylily. Or how about a new take on the native Little Blue Stem. The variegated foliage of **Little Blue Stem 'Cream & Green'** blushes pink with cooler temps. This grass is a true living bird feeder! **Fern 'Aubergine Lady'** is an exciting, new cultivar! Green fronds emerge and mature to a deep purple-black color. A plant that falls right in line with the trending Goth-Gardening or 'Dark Chic' theme, which uses only black and dark colored foliage or blooms. Suffer from decision fatigue? Try **Monarda 'Balmy Tri Color'**. Three colors planted in one container. Masses of hot pink, soft pink and lavender-purple flower bloom that stand 10-12 inches tall. Last, but not least you could try **Nepeta 'Chartreuse on the Loose'**. A perennial with season long interest. Perfect for lining the front of the border. It will continue to produce flowers without being cut back. For many more color pictures please visit the insert in the middle of the catalog.

**Happy gardening for many more years to come!**

## Table of Contents

Perennials . . . . .	3
Grasses . . . . .	9
Hostas . . . . .	12
Herbs . . . . .	22
Waterplants . . . . .	24
Ornamental Shrubs . . . . .	25
Vines . . . . .	32

## Hostas

Hostas have a real presence, never letting gardeners down as they fill spaces with attractive mounds of foliage. Their typically broad leaves offer the garden shades of green, white, cream, bluish gray, chartreuse, gold all beautiful tones for decorating any shaded garden bed or woodland pathway. While shady and moist areas are perfect for Hostas, many thrive in sunnier locations. Dappled light, for at least some portion of the day, can help these sun-tolerant Hostas avoid fading or scorching. Hostas work hard to make the garden beautiful.

While Hostas are a classic element in most gardens, new varieties offer fresh excitement each year. So, for 2024, **What's New? Hosta 'Canadian Blue'**, is an impressive large beauty in the most serene blue-gray. For something different, there is **Hosta 'Zebra Stripes'**, with white leaves that emerge in spring and become striped with green as the season progresses. There is also Proven Winners® **Hosta 'Love Story'** which has green margins, chartreuse jetting, and creamy centers. It does well in sun or shade. And shade-loving **Hosta 'Captain's Adventure'** has an overall look that is much paler than that of most Hostas we are used to seeing. Going from pale and creamy to bold with color, there is the new **Hosta 'Lemon Snap'** which appears in chartreuse, not shy at all. All of these are fresh and new Hostas, ready for your garden. And if you are looking to fill smaller spaces, consider a **mini Hosta** such as **'Mini Skirt'**. Though not new, there is continued interest in this Hosta's overall performance and wonderfully ruffled foliage, to the point of gaining it the honor of being the American Hosta Growers Association's choice for Hosta of the Year, 2024. Keep an eye out also for Proven Winners® **Hosta** of the Year, **'Hudson Bay'**, with bluish leaf margins, jetting (streaks) in green apple tones, and creamy centers. Its colors stay true under white blooms that show midway through summer. We have carried it for some years, and it is really living up to it's name as a 'proven winner'!

# Herbs

From good looks to fragrance to flavor, Herbs offer a great deal to the gardener. Plant them near certain veggies and fruits to create a utilitarian Kitchen Garden. Plant them in sun-baked parts of your yard, and create a Mediterranean-Style Garden that can handle droughts and still look spectacular. Mix them with flowers and enjoy the beauty of an old-fashioned Cottage Garden, full of charming sights and pleasant scents. Whatever your choice, Herbs have got you covered and they cover a good deal of garden ground while requiring only straightforward care, such as well-draining aerated soil and good sunlight.

**New for 2024:** Recently introduced **Lavandula angustifolia 'Annet'** is a mounding English Lavender with dark purple blooms that show in good number from late spring to the very end of summer. Its fragrant, bushy green foliage makes an attractive base from which sturdy and tall flower stems emerge. You'll love this long-blooming ornamental Herb, and you will grow it with ease. It has been successfully grown in a zone 4 trial garden and we hope it will be hardy for us as well. You will also fall in love with **Oregano 'Bellissimo'**, an ornamental Herb (not for eating) with unusual downward-curving stems of foliage and pink flowers that bloom late in the season. With almost no worries about caretaking for this plant, you'll be carefree as you place this pastel-toned Oregano in patio baskets and window boxes, spilling out its attractive colors and spicy scent.

While our offerings always include some newly bred herbal varieties, Herbs have been an important part of gardening for eons, having satisfied the ancients with their beauty, fragrance, ability to enhance foods, and medicinal qualities. They are multi-purpose garden must-haves, just waiting to show you all they can offer.

## Perennial Herbs

<b>Dill</b> , Fernleaf, <i>Anethum graveolens</i>	Yellow; lacy green foliage	18in	wd,mo,hu,lo		○	D	F	Summer			3.69
<b>Fennel</b> , Bronze, <i>Foeniculum vulgare</i> 'Bronze'	Red-bronze foliage	36in	wd,lo		○	D	F	Summer			3.69
<b>Stevia</b> , <i>Stevia rebaudiana</i>	White, insignificant	16-18in	wd,hu,lo,sa		○	D		Aug		6.99	

## Water Gardening

Few things are as peaceful as a water garden. Although water gardening seems as though it might be a challenge, it is very much within reach of all who love nature. Given the right plants, and keeping just a few guidelines in mind, your garden vista can echo that of Monet's Garden and welcome in dragonflies, butterflies, bees, friends and family... and perhaps even a painter who wants to capture the look of your garden on canvas.

**New and Worth Mentioning:** The dramatic **Colocasia 'Redemption'** shows off large tropical leaves in black and hot pink, complete with graceful rippling and a nice sheen to make the plant even more of a standout. Offsetting blue-sky reflections in clear water, this plant which balances dark leaf margins with bright and bold centers will thrive in the wettest conditions. And we have to remark about how excited we are to have gotten a small number of very special hardy water lilies from a much-admired Virginia breeder. **Nymphaea 'Gary Wagner'** is a purple aquatic lily that can tolerate cold (Zone 4). The breeding in both characteristics, purple color and cold-hardiness, is a feat.

**Tips for Planting:** When an aquatic plant is to be placed in a bog bed surrounding a pond, the plant can be treated the same as any perennial. But for marginal plants that will be planted in the water of the pond a peat-based potting mediums containing perlite, the white porous substance so commonly seen in plant grow-pots, are not the best. The perlite floats, making the pond unsightly. What is worse, the peat will turn pond water brown and eventually decay, promoting algae blooms. So, at Winter Greenhouse, we find it is best to use a heavy clay soil that is top-dressed with gravel, a special aquatic planting medium called calcified clay, or common pea gravel. We like all three, but most beneficial is the calcified clay, which does not float or decay, is clean, holds water, absorbs nutrient, helps eliminate algae bloom and can be reused when re-potting the plant.

Generally, before aquatic plants are added to a pond, they should be transplanted in larger containers for plenty of room to grow. We have found the best containers for this purpose to be fine-meshed aquatic fabric bags which retain the potting medium but let water penetrate. Or they can just be embedded in gravel. For waterlilies we add 3-5 teaspoons of an aquatic fertilizer each spring. This gives the plants enough nutrients to put forth plenty of growth and blooms during the season.

If you are considering creating or adding to a pond, know that we are happy to assist you. We have **handouts** filled with useful tips based on years of experience with our own ponds. Water gardening is a worthwhile effort with great rewards.

## Waterplants

Name – See also cross-reference in back	Flower Color	Remarks	Height	Zone	Spread	Light	F Blooms	Price (\$)
* <b>Nymphaea</b> , Almost Black, <i>Waterlily</i>	Dark red	Fragrant 5-6 inch dark burgundy red flowers that floats on the surface		3	6-12ft	○	Jun-Sep	49.99
<b>Nymphaea</b> , Barbara Dobbins, <i>Waterlily</i>	Apricot blend	Blend of yellow, pink, and apricot blooms; medium to large ponds		3	6-8ft	○	Jun-Sep	49.99

# A selection of new plants for 2024

**Achillea Milly Rock Yellow Terracotta - p3**

A compact, mounding habit with yellow blooms tinged with orange and peach. Very floriferous and the habit stays nice all summer.

**Allium Windy City - page 3**

A clumping habit of dark green foliage and 2" violet-purple blooms in mid summer. The ornamental seed heads provide winter interest.

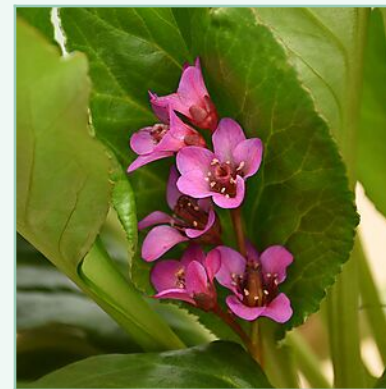

**Baptisia Grape Escape - page 5**

A tidy vase shaped habit. Dusky purple blooms with cream keels. Very floriferous. A long lived perennial with a deep tap root that does not like to be disturbed once established.

**Baptisia Plum Rosy - page 5**

'Plum Rosy' has a bicolor bloom that opens a mauve-pink and matures to a near white. A long lived perennial that can be used in place of a shrub.

**Bergenia Once upon a Dream - page 6**

Carmine-pink blooms on red stems appear in spring. Glossy green leaves have bronze and burgundy highlights in fall. Plant in a shady location with moist, humusy soil.

**Clematis Kitty - page 6**

Full, bushy habit grows to 2-3' with 3" white blooms. This free flowering Clematis does best in partial shade.

**Clematis Lindsay - page 6**

Large 6-7" blue-purple blooms appear in spring and again in fall. 'Lindsay' grows to 6-8' tall in sun to partial shade.

**Clematis Princess Kate - page 7**

Prolific bloomer, 3" bell-shaped blooms with white inner petals and reddish-purple outer. Blooms summer into fall.

**Clematis Trit Rubro Marginata - page 7**

Vigorous and free flowering. Grows 10-13' tall covered with fragrant, star-shaped blooms from July to September.

**Clematis Vicki - page 7**

Great for a shaded area. Compact habit with 4-5" pink blooms with a rose colored bar. Best grown in partial shade.

**Clematis Violet Stardust - page 7**

Broad leaved bush clematis with 1.5" blue-violet, star-shaped blooms throughout summer. Although this is a bush clematis, a support is beneficial.

**Delphinium Delgenius Blue Fabulosa - p7**

Compact habit that does not need staking! The Delgenius series gets multiple, strong stems bearing semi-double blooms and will rebloom early summer to fall with deadheading. Heat tolerant.

**Echinacea Kismet Pink Lemonade - p8**

Compact, rounded habit. A vigorous grower with bi-colored blooms throughout summer into fall. Drought tolerant once established.

**Echinacea One in a Melon - page 8**

The 5-5.5" blooms have melon petals and matching cone. Blooms throughout summer into fall. Drought tolerant once established.

**Echinacea Prima Tiger - page 8**

Perfect for the front of the border at 10" tall and covered with blooms throughout summer into fall. Drought tolerant once established.

**Echinacea SunSeekers Swt Fuchsia - p8**  
Rich fuchsia colored blooms have several rows of petals that hold their color without fading. Blooms throughout summer into fall. Drought tolerant once established.

**Echinacea Watermelon Sugar - page 8**  
Large, pom-pom-like blooms atop strong sturdy stems through summer into fall. Perfect for the middle of the border.

**Fern Athyrium Aubergine Lady - page 9**  
This unique new fern emerges green in the spring and matures to black in color! Beautiful in mass plantings in partial shade.

**Schizachyrium Chameleon - page 9**  
A short and compact variety with green and white striped foliage. In early summer the foliage changes to shades of pink, red and purple. Burgundy-red flowers in late summer.

**Heliopsis Luna Roja - page 10**  
Compact, rounded habit with dense, dark foliage. The long lasting blooms are supported by strong stems. Abundant blooms in July through September.

**Helleborus Childhood Sweetheart - p10**  
The yellow petals have a heavy red veining and backside. Plant in a moist woodland area.

**Helleborus Irish Luck - page 10**  
Single, green blooms with burgundy flare. Plant in a moist woodland area.

**Helleborus Mother of the Bride - page 10**  
Helleborus bloom for six weeks or more beginning in late winter. 'Mother of the Bride' has 3", peach blooms with a light pink picotee edge.

**Hemerocallis Blazing Glory - page 10**  
A mid-season bloomer. The large, 6" blooms are a golden-yellow with a burgundy eye and picotee edge. Mid-season bloomer.

**Hemerocallis Blood Sweat and Tears - p10**  
The large 6" blooms are raspberry-red with pink eye and yellow throat. Daylilies are salt and rabbit resistant!

**Hemerocallis Catcher in the Eye - p10**  
This prolific award winner is a vigorous bloomer getting up to 30 blooms per scape.

**Hemerocallis Cryptic Message - page 10**  
Ruffled, 5.5" blooms are cream with a magenta eye and picotee. Plant in full sun to partial shade with moist well drained soil.

**Sporobolus Gone With The Wind - p10**  
The green foliage is topped with wispy tan flowers that smell like buttered popcorn. Foliage gets red hues in late fall.

**Hemerocallis Kansas Kitten - page 11**  
A compact habit and high bud count makes 'Kansas Kitten' a great choice for borders. The mid season bloomer gets 5" lavender-purple blooms with a dark purple eye.

**Hemerocallis Stephanie Returns - p11**  
A vigorous daylily with plentiful blooms. Daylilies are very easy to grow and look good in mass plantings and as borders.

**Hibiscus All Eyes on Me - page 12**

A well rounded habit of dark green foliage covered from top to bottom with 8", blushing pink blooms in the fall. Hibiscus are late to emerge in the spring, but grow very fast.

**Hibiscus Marshmallow Moon - page 12**

A well behaved habit of dark green foliage. The pure white blooms appear the length of the stems for a higher bud count. Hibiscus are late to emerge in the spring, but grow very fast.

**Hibiscus Watermelon Ruffles - page 12**

The dark green foliage has a bronze cast that shows off the highly ruffled, magenta-pink bloom in the fall. Blooms earlier than traditional cultivars.

**Hosta Canadian Blue - page 13**

A medium mound with unique blue-green frosty color and long heart shaped leaves makes it hard to miss. A trouble free stunner for the garden.

**Hosta Lemon Snap - page 13**

A bright statement in a little package. This bright yellow hosta has a splash of bright red and fertile purple flowers.

**Hosta Love Story - page 13**

Green, chartreuse, and cream all come together to create an intriguing pattern. Elongated heart shaped leaves make a dramatic statement.

**Hosta Zebra Stripes - page 14**

Starting white this hosta gains its green features as it grows. Some morning light is recommended to hold its white color longer.

**Iris Tsukiyono - page 14**

A cross between Iris pseudocorus and Iris ensata, giving it a higher bud count and longer bloom time. 40-44" tall, clumping habit.

**Limonium Dazzle Rocks - page 16**

A well branched compact habit. A prolific bloomer great for cut and dried flowers. Use in rock gardens and containers. Heat and drought tolerant once established.

**Monarda Balmy Tri Color - page 16**

A mix of rose, pink and purple. Compact habit, very floriferous and improved mildew resistance.

**Nepeta Chartreuse on the Loose - p16**

Beautiful chartreuse foliage with lavender-blue blooms all summer without cutting back. At 8-10" 'Chartreuse on the Loose' is perfect for the front of the border.

**Nepeta Purple Prelude - page 16**

A tidy, mounded habit with mint scented foliage. Larger blooms than other varieties, the purple flowers are non-fading. Plant in full sun to part shade in a well drained area.

**Paeonia Cytherea - page 16**

The mounded habit of glossy, dark green foliage stays attractive all season. The strong, erect stems do not require staking! An American Peony Society Gold Medal winner.

**Paeonia Going Banana - page 16**

This prolific bloomer has lightly scented, semi-double blooms. The compact habit stays attractive all season. The foliage gets red and purple tints in the fall.

**Paeonia Athens - page 17**

Patio peonies have a compact, bushy habit with very sturdy stems. Great in containers or as a border plant.

**Paeonia Catharina Fontijn - page 17**

Coloring will be slightly different each year, always have a shade of pink. The strong stems stand up well to heavy rain.

**Paeonia Lovely Rose - page 17**

Sturdy habit with glossy, dark green foliage the stays attractive all season. No staking required. Receptient of the Award of Landscape Merit.

**Paeonia Miss America - page 17**

Strong stems support the soft pink buds that open to a pure white 6" double blooms. Vigorous grower and prolific bloomer.

**Paeonia Singing In The Rain - page 17**

A vigorous grower with strong, erect stems. Attractive foliage all season. A mature plant will have up to 50 blooms.

**Phlox Fancy Girl - page 18**

A compact, clumping habit with powdery mildew resistant foliage. The soft pink blooms have a dark pink eye and white halo. Fragrant and makes an excellent cut flower.

**Phlox Flame Watermelon - page 18**

Dwarf, upright habit with strong stems and excellent branching. Fragrant blooms and mildew resistant foliage.

**Polygonatum Ruby Slippers - page 18**

A ground cover for shady areas. The green foliage has a silvery underside. Red, arching stems with white flowers in spring and blue berries that remain until fall.

**Primula Oakleaf Magenta - page 18**

Oak-leaf shaped foliage, strong stems and magenta blooms with a yellow eye. Spring bloomer great for borders and containers.

**Pulmonaria Pink A Blue - page 18**

The flower buds are pink, opening blue giving it a two-tone effect. The foliage is dark green with silver spots. A beautiful groundcover for shade gardens.

**Pulmonaria Raspberry Frost - page 19**

Silver, spotted foliage with a white margin. Raspberry to coral-red blooms in spring. Attractive foliage throughout the summer.

**Tradescantia Brainstorm - page 21**

The magenta-purple blooms are larger and more profuse than other varieties. An easy care plant for sun to partly shaded areas.

**Veronica Pink Candles - page 21**

Compact and disease resistant. Abundant, deep-pink blooms appear in early summer. Use as a mass planting, border or containers.

**Veronica Purplegum Candles - page 21**

Compact habit with strong, erect stems. The intense purple blooms appear in early summer, deadhead for extended bloom. Excellent for mass planting, borders and containers.

**Veronica Snowmass - page 21**

A ground cover variety with glossy, green foliage and covered with white blooms with a blue eye beginning in mid-spring.

**Viola Eco Artist Palette - page 21**

Forms a dense clump of narrow, dissected foliage. Bi-colored blooms appear in spring with a sporadic rebloom until frost.

**Cornus Sgt Pepper - page 26**

Clean green and white variegated foliage emerges with vivid pink tones in spring. Those fade in the summer, leaving just the refreshing variegation. Available May 21st.

**Hydrangea Eclipse - page 27**

With dark purple, almost black, foliage, it is a standout. Eclipse holds the dark color all season. Continuous bloom. Available blooming May 5th.

**Philadelphus Illuminati Sparks - page 28**

Mockoranges look fabulous in bloom but this one offers cheery yellow variegation in addition to the fragrant blooms. Available May 21st.

**Physocarpus Spicy Devil - page 29**

Great structural shrub with plenty of multi-season interest to keep your garden exciting spring through fall. Leaves emerge a fiery combination of orange.

**Potentilla Happy Face Orange - page 29**

Extra-large flowers, low maintenance. Non-stop orange blooms all summer long. Prune hard every 3-5 years. Edging and foundation shrub. Available May 21st.

**Lonicera Mandarin - page 32**

Blooms in a heavy early summer flush, with repeat blooms until fall. Purple and mandarin on the outside with a lighter orange on the inside. Very fragrant.

**Viburnum Glitters and Glows - page 32**

Fantastic for wildlife gardens where birds can enjoy berries and pollinators feast on flowers. Two Viburnums TOGETHER in one pot! Available May 21st.

**Weigela Sonic Bloom Wine - page 32**

The first-ever dark-leaved weigela with repeat flowering throughout the season. The purple foliage provides a wonderful, summer-long contrast to the pink flowers. Available May 21st.

**Acer Firefall - page 33**

A silver maple/red maple seedless hybrid with an upright growth habit. Impressive fall color that develops earlier than many other varieties.

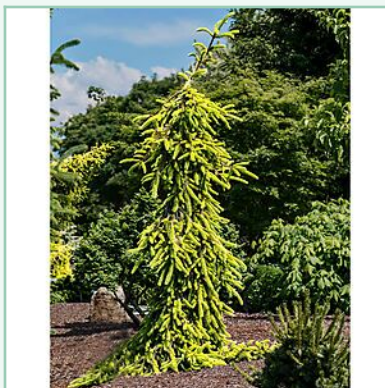

**Parthenocissus Fenway Park - page 33**

Intense chartreuse summer and spring foliage. Like the species, Fenway Park Boston Ivy is perfect for accenting or covering walls and structures.

**Cornus Golden Shadows - page 34**

This pagoda dogwood grows with a distinctive horizontal branching habit. Golden variegated foliage. Best planted in part shade. Available May 21st.

**Picea abies Gold Drift - page 36**

Adds color to the garden. The foliage that is fully exposed to the sun turns a vibrant yellow in late spring and summer. Grow 12-15" per year. Available May 21st.

**Vaccinium Sky Dew Gold - page 40**

An ornamental blueberry with such appealing bright gold foliage that the flowers and berries are almost an afterthought. Good fall color. Available May 21st.

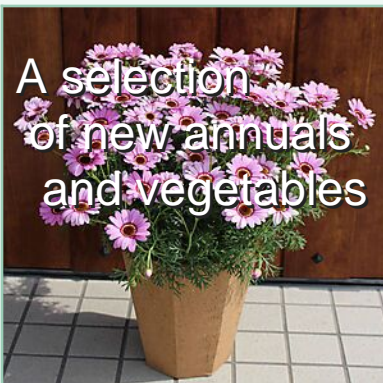

**Rose Nitty Gritty Peach - page 43**

Rose flowers appear from early summer through fall and have a slight fragrance. The foliage is highly resistant to common rose diseases.

**Rose Oso Easy Peasy - page 43**

The size of this rose and its blooms is perfect for incorporating into flower gardens. No deadheading needed to keep flowers coming all summer. Available May 21st.

## A selection of new annuals and vegetables

**Argyranthemum Pink Halo**

A mass of beautiful shell pink daisy flowers with harvest gold eyes and a hot pink ring at the ends of the stems. Blooms all summer. The flowers are excellent for cutting.

**Begonia Dragon Wing Red with Bronze**

Features a best-in-class bulletproof performance. Fast fill-in and an easy-care nature. Unique and beautiful arching, pendulous habit is spectacular in baskets, large containers and in the landscape..

**Begonia IConia Portefino Sunrise**

Features bold yellow frilly flowers with orange overtones at the ends of the stems from late spring to early fall. Its heart-shaped leaves remain dark green in color throughout the year.

**Bidens Blazing Star**

Yellow and red flowers from early spring through summer. Flourishing in partial or full sun. Blazing Star attracts pollinators and excels in mixed containers.

**Calibrachoa Superbells Double Redstone**

Striking crimson red petals and bright gold picotee edges form the fully double blossoms that pair perfectly with other strong colors like royal purple, blue and gold.

**Calibrachoa Calitastic Cappuccino**

Award winning large-flowered, early-to-bloom variety featuring a tidy, mounding habit. It is incredibly uniform in habit and flower timing. Blooms stay open and in flower under low light conditions.

**Calibrachoa Uno Pink Radiance**

Unique semi double color-shifting blooms that change from pink-rose to yellow! Very uniform in habit. Grow in full sun. Makes an amazing hanging basket.

**Canna Cannova Rose Dark Bud**

Great for landscapes and container plantings in full sun! Striking foliage contrasts with the flowers, making them a great option for combinations or in-ground plantings.

**Coleus Sun Coral Candy**

Coral Candy features unique, multicolored foliage on a uniformly compact plant. This new plant form has narrow, serrated leaves that gracefully drape down the mounded plants.

**Cuphea Sweet Talk Red**

These beautiful cuphea blooms are a natural source of pollinator-attracting nectar, providing gardeners with a lively backyard gathering place for bees and hummingbirds.

**Dahlia Labela Maggiore Fun Rose Bicolor**

A beautiful, long blooming variety that features an upright habit and produces large white blooms with rose colored tips with dark green foliage.

**Duranta Golden Edge**

This accent plant adds a splash of color to the mixed basket or planter. The bright yellow margins on the leaves contrast and enhance most color combinations.

**Euphorbia Starblast Pink**

Dainty flowers with an airy form, disguise a rugged performer. This plant has amazing heat tolerance and will still be looking good in the height of summer when many other plants start to look exhausted.

**Evolvulus Beach Bum**

Excellent branching, heat and drought tolerance with a compact but spreading habit. Light blue flowers with endless combination possibilities.

**Geranium Caldera Salmon**

Puts on quite a show. Caldera is a new series that is similar to Caliente but with a spreading habit. It will work well in large pot sizes and hanging baskets.

**Gomphrena Cosmic Flare**

This one will brighten any border or container with its stunning foliage and flower color. You can use it directly in the ground or in containers for a punch of WOW in any border.

**Hibiscus Hollywood Rico Suave**

Stunning orange and fiery red. Prolific bloomers from spring to fall, hollywood hibiscus give a lush tropical look to any landscape or container.

**Isotoma Bottle Rocket Blue**

Bright, star-shaped blooms on a small upright-mounding plants that will bloom all summer long. Naturally heat and drought tolerant.

**Jamesbittania Safari Dawn**

Bright bicolor rose flowers with a soft yellow eye (occasional orange shades may appear). Use in combination plantings, hanging baskets and in containers.

**Lantana Passion Fruit**

A standalone variety that never cycles out of flower. It has a trailing, spreading habit with dark green foliage and abundant flowers. Perfect for hanging baskets and works well in landscapes.

**Mandevilla Sun Parasol Giant Peach**

Produce large flowers that span up to 5 inches. Natural climbers, these beauties are stunning trained to a trellis or obelisk in patio pots. Grows up to 8 feet during a season.

**Osteospermum Zion Denim Blue**

Inspired by the colors of Zion National Park in Utah. Soft lavender-blue petals and compact habit make this African daisy a great option for containers.

**Petchoa SuperCal Premium Red Maple**

Large very weather resistant flowers, an improved habit and a more mounded, refined growth. Large, scarlet-red flowers are very vibrant and provide a wow factor.

**Petunia Blanket Silver Surprise**

One plant will exhibit flowers of white, silver, lavender, purple and pink even half and half on the same flower. Great for larger baskets and borders.

**Petunia Cascadias Arizona Sky**

Features large flowers that cover the plants and cascade down the sides. A great option for hanging baskets and combinations.

**Petunia Double Double Stuff Bordeaux**

Double flowers that are slightly smaller for better weather tolerance. It is self-cleaning and has a mounding and semi-trailing habit.

**Petunia Glamouflage Grape**

The first variegated petunia that will brighten any garden spot. The plant makes an excellent spiller as a component of gorgeous baskets and planters.

**Petunia Itsy Triflection**

Uses are endless with the three color combination. Good for containers, baskets and in the garden.

**Petunia Surfina Patio Party Pink**

A mounding petunia with outstanding garden performance. Extremely fast-growing, profuse bloomer and is self-cleaning.

**Rudbeckia Sunspot Yellow Bicolor**

A compact plant with a tidy appearance. Blooms from May through first frost. A great choice for your garden. One of the best plants for attracting butterflies and other pollinators.

**Cabbage Kalibos**

Beautiful bright red pointed cabbage. The best red cabbage of this type with an average head weight of 1.5 to 2 pounds.

**Soybean Edamame Tohya**

Early maturing variety that produces an abundance of plump, well formed furry pods, typically yielding 3 seeds each, Matures in 80 days.

**Flowering Kale Crane Red**

Grow tight. Once plants are about 10-12" tall, remove the lower leaves. Repeat 3 or 4 times as the plants grow taller. Great cut flower.

**Lettuce Salanova Red Stem**

Attractive, deep red leaves in an exceptional mini head. A salanova lettuce gives between two and four times the yield of a normal lettuce.

**Lettuce Slot Machine**

Vigorous Iceberg lettuce with large, rounded heads produces reliable, uniform, rounded heads. Adaptable to many growing regions.

**Onion Conservor Shallot**

An elongated, slightly teardrop shaped onion with papery reddish-copper skins and deep pink flesh. Fine texture and a sweet flavor.

**Pepper Ornamental Onyx Orange**

Purple/black fruits matures to orange and red respectively. Attractive compact, habit and dark foliage with shiny red fruit.

**Pepper Prism F1**

Sweet medium bells matures from light green to orange, and then to red. Can be harvested at all stages of maturity.

**Rutabaga Marian**

A delicious and vigorous variety. The yellow fleshed, purple tinged roots reach up to 8 inches and are well suited to late fall harvest.

**Squash Carnival**

High quality and unique color. Carnival squash stores in fine condition for months with excellent eating quality.

**Squash Mashed Potatoes**

Unique white acorn squash has a white rind and interior. It resembles mashed potatoes when baked and whipped.

**Zucchini Costata Romanesco**

Traditional Italian heirloom with great flavor. The striped and mottled skin stays tender even to 18". In Italy they are picked at 4-5".

**Tomato Love Gourmandia Red**

Produces beautiful, red beefsteak tomatoes. Everyone will fall in love with this tomato and its great-tasting, heart-shaped fruit. Indeterminate Growth

**Tomato Tiny Temptations Orange**

Easy-to-grow. Heavy yielder. Determinate. Tiny fruits are filled with sweet flavor. Dwarf, bushy plants have a mounding/trailing habit.

**Tomato Zenzei F1**

High-yielding Roma tomato. This regional winner produces a great yield of fleshy plum tomatoes that are perfect for canning and freezing. AAS winner in 2023. Indeterminate Growth

## Ornamental Shrubs, Shade Trees, Fruits & Evergreens

Trees and shrubs define a garden. They offer privacy and create a polite demarcation of property lines. They provide shade during the hot summers, so essential to smaller plants below and no less important to homeowners in lawn chairs. And they offer lasting greenery, summer fruits, and/or seasonal flowers. Trees and shrubs are a key starting point to creating any good garden space, and they need refreshing and replacing from time to time to fill their roles well.

When adding or replacing trees and shrubs, bareroot stock is often chosen. Gardeners appreciate the ease of transporting compact bareroots, with no need for tractors and trucks to get full-grown selections home. Bareroots are manageable for us, too, and we offer them at favorable prices during our annual **Three-Day Bareroot Sale**, running this year from **Thursday, April 25<sup>th</sup> to Saturday, April 27<sup>th</sup>**. At the Sale, bareroots will be sold at **25% off** the potted catalog price.

To know which plants will be offered as bareroots, check here in our catalog to see which varieties are listed with a notation of BR (Bareroot), for example, "1yr BR". With that notation in place, you can be sure of getting a bargain during our opening sale. Other plants will be offered as QT (quart) containers or BB (ball and burlap). Most of the largest container sizes will be available at the time of opening, whereas all quart containers and most of new evergreens will be available between mid-May and Memorial Day. Reach out if you have questions. And keep in mind that even small roots can become some of the most majestic beauties one day!

**New in 2024:** So what's new? To name a few, let's start with **Maple Firefall™**, a vibrant Acer, bred to withstand the cold of North Country. Firefall™ is strong and fast-growing, reaching a height of 50' while showing off highly cut leaves that turn as red as anything we have seen. Bred at U. Minnesota, you can feel confident it will do well in our Wisconsin winters. Next on our list is a Wisconsin-perfect fruiting bush, the **Sky Dew® Gold Blueberry**. This selection from Proven Winners® has gold-toned foliage that turns orange-red when the nights get cooler, plus great fruiting capacity. Rest assured, the fruit is blue, not golden. This one is a feast for the eyes and the belly. And speaking of gold, we find ourselves marveling at **Picea 'Gold Drift'**, a golden Norway Spruce that grows slowly, filling out as an ornamental evergreen with an unusual upside-down shape. A real eye-catcher! Next up on the "new" list is a stunning Hydrangea. Now, sometimes a plant is not exactly bred for our area, but we fall in love with it anyway. That is the case with the mophead **Hydrangea Eclipse®**. Although Eclipse® would prefer a warmer setting, it can settle into our climate if planted in a protected area and mulched for added winter warmth. In Wisconsin, we should expect fewer of the large mopheads in pink and cream. But the consistently dark (almost black) foliage on this beauty will make it a remarkable addition to our gardens. Also new is **Cornus Sgt. Pepper™**, singing the familiar song of a respectably sized dogwood (about 6' by 8' at maturity), while putting on a vibrant color show. Its foliage spends the warm part of the year in green with white variegation, accented by white flowers in late spring. Come fall, it turns shades of pink, while its stems heat up in a pretty red. Stunning! Finally, to round out the garden with a lower growing beauty, we look forward to sharing **Weigela Sonic Bloom® Wine**, with wine-colored foliage and blooms that are so pink, they will take you back to your bubblegum chewing days. Sweet, with great color, and it re-blooms until frost.

Be sure to ask for our **Planting Guides** and other useful handouts, or download them from our website, [www.wintergreenhouse.com](http://www.wintergreenhouse.com). These Guides have been designed to make your gardening adventure a success. If you need help, please don't hesitate to ask our Nursery staff.

**Our Guarantee** for nursery stock covers the **current growing season** in which the stock is purchased, so long as appropriate planting, watering and reasonable care was given.

## Fruit Trees &amp; Small Fruits

## Apple Trees

Type	Fruit Description	Remarks	Zone	Blooms	Fruit Ripens	Pot Size	Price (\$)
Apple, 3 in 1	Semi-Dwarf Connell Red, KinderKrisp, Zestar	3 semi-dwarf apple tree varieties in one pot	4	Earl+Mid	Aug - Oct	#10 Ct	169.99
Apple, Connell Red	Standard Large red fruit; distinctive sweet flavor	Red selection of 'Fireside'	4	Mid	Mid Oct	#5 Ct	79.99
Apple, Cortland	Semi-Dwarf Medium red fruit; sweet to tart; all purpose	Stores two months or longer	4	Mid	Early Oct	11/16"	74.99
Apple, Cortland	Standard					#5 Ct	79.99
Apple, Cortland	Standard					11/16"	74.99
Apple, Fireside	Semi-Dwarf Large red striped fruit; crisp, sweet and juicy	Resistant to rust; stores 3-4 months	4	Mid	Mid Oct	11/16"	74.99
						#5 Ct	79.99
						#15 Ct	89.99
Apple, Goodland	Standard Medium red fruit; crisp, juicy & aromatic	All purpose; very hardy; stores well	2	Mid	Late Sep	7/8"	79.99
						#5 Ct	79.99
						#7 Ct	89.99
Apple, Haralred	Semi-Dwarf Medium red fruit; crisp, tart & juicy; all purpose	Fireblight resistant; very hardy; store well	3	Late	September	11/16"	74.99
						#5 Ct	79.99
						#7 Ct	89.99
Apple, Honeycrisp	Semi-Dwarf Large red; sweet and explosively crisp	Up to 7 months storage; very popular	4	Mid	Late Sep	11/16"	74.99
						#5 Ct	79.99
Apple, Honeycrisp	Standard					11/16"	74.99
						#5 Ct	79.99
						#15 Ct	149.99
Apple, Honeygold	Semi-Dwarf Medium large golden; crisp, sweet, juicy	All purpose; stores 2-3 months	4	Mid	Mid Oct	11/16"	74.99
						#5 Ct	79.99
Apple, Honeygold	Standard					11/16"	79.99
						#5 Ct	79.99
						#15 Ct	149.99
Apple, KinderKrisp	Semi-Dwarf Fruit tastes like Honeycrisp, only lunchbox size.	Sweet, crisp apple; stores 3-4 months	4	Early	Late August	11/16"	74.99
						#5 Ct	79.99
Apple, KinderKrisp	Standard					#5 Ct	79.99
Apple, Liberty	Semi-Dwarf Medium red fruit; crisp & juicy; for dessert	Scab-resistant; keeps well into February	4	Early	Early Oct	11/16"	74.99
						#5 Ct	79.99
Apple, McIntosh	Semi-Dwarf Medium sized, dark red with crunchy bite	Good storage life	4	Earl+Mid	Early Sept	#5 Ct	79.99
Apple, McIntosh	Semi-Dwarf Medium red fruit; sprightly flavor; all purpose	Medium storage life; mild flavor	4	Mid	Late Sep	11/16"	74.99
Apple, McIntosh	Standard					11/16"	74.99
						#5 Ct	79.99
Apple, Norland	Standard Medium red fruit; stores 16 wks if picked early	Natural semi-dwarf; for cold regions	2	Early	August	#5 Ct	79.99
Apple, Prairie Magic	Standard Crisp and delicious; for eating or cooking	Very hardy and disease resistant	3	Mid	Late Sep	9/16"	69.99
						#5 Ct	79.99
Apple, Red Baron	Standard Medium yellow-red fruit; crisp & juicy; all purpose	Resistant to fireblight; stores 2 months	3	Mid	Late Sep	#5 Ct	79.99

<b>Apple, Snowsweet</b>	Semi-Dwarf	Delicious sweet and slightly tart taste; large fruit	Flesh stays white when cut; stores 2 months	4	Mid	Sep	11/16"	#7 Ct	79.99
<b>Apple, Snowsweet</b>	Standard						9/16"		69.99
<b>Apple, State Fair</b>	Semi-Dwarf	Medium size striped red; crisp, juicy, tart	All purpose; matures early; stores 1 month	3	Mid	Late Aug	11/16"	#5 Ct	74.99
<b>Apple, State Fair</b>	Standard						9/16"		69.99
							#5 Ct		79.99
<b>Apple, Sweet Sixteen</b>	Standard	Medium size; sweet flavor; exc. dessert apple	Fireblight resistant; stores 2 months	4	Mid	Late Sep	7/8"	#5 Ct	84.99
<b>Apple, Triumph</b>	Semi-Dwarf	Medium sized, pleasantly tart, well balanced	Excellent apple scab resistance	4	Mid	Late Sep	11/16"		79.99
<b>Apple, Wealthy</b>	Semi-Dwarf	Medium; yellow-red; crisp & juicy; fresh vinous flavor	For fresh & cooking; stores 1 month	3b	Early	Early Sep	#5 Ct		79.99
<b>Apple, Wodarz</b>	Standard	Larger apple; yellow to green skin with pink blush	Flesh is white, firm and sweet; stores 3 months	3	Mid	Early Oct	7/8"	#5 Ct	74.99
<b>Apple, Wolf River</b>	Standard	Fruit up to 5" large; tart; exc. cooking apple	Antique variety; long lived & stores well	4	Mid	Mid Sep	11/16"	#5 Ct	69.99
							#5 Ct		79.99
<b>Apple, Yellow Transparent</b>	Standard	Medium size; yellow; soft; excellent all-purpose apple	Pick before maturity; scab resistance	3	Early	Late July	#5 Ct		79.99
<b>Apple, Zestar</b>	Semi-Dwarf	Medium large; excellent sweet tart flavor	All purpose; 6-8 weeks storage	4	Early	Late Aug	#15 Ct		149.99
							#5 Ct		79.99

## Tips for Growing Fruit Trees and Small Fruits

**Pollination of apple trees:** The tree should be within 100 feet of the pollinator tree. Length of bloom is 7-15 days. Crabapple trees can also be used as pollinators for apple trees. Early bloomers need early or mid-season apple trees as pollinator. Late bloomers pollinate with late or mid-season bloomers. Mid-season bloomers can use all apple trees as pollinators. • Most **pears** are only partially self-fertile, thus yields increase with two or more trees. Most pears that bloom at the same time are suitable pollinators. Pears require more pollinators and bees than any other fruit. • All **American plums** flowering at the same time will pollinate each other, but Toka or native plums are the best pollinators. European plums are generally self-fertile – like Mt. Royal. • **Cherries** are self fertile, but **cherry plums** require 2 different varieties to pollinate. • **Honeyberries** require two different varieties to pollinate. • **Blueberries** generally have higher yields when planted two or more. Chippewa and Northblue are self-fruitful. Northcountry is partially self-fruitful. Our other blueberries require another blueberry variety in order to pollinate. • **Yezberries** are self-pollinating, but use 2 varieties for biggest fruits and best yields.

**Soil Requirements:** Fruit trees & small fruits appreciate a loamy soil with good drainage and pH 6-7. Blueberries require rich, well drained acid soil (pH 4.5-5.5) in order to thrive.

**Please Note:** *Fruit Ripens* refers to Minnesota. In Northern Wisconsin (Zone 3-4) fruit ripens 1-2 weeks later!

### Approximate Sizes for Full Grown Apple Trees

	Standard	Semi-Dwarf (SM7A Rootstock)
Height	20-25'	12-15'
Width	25'	14'

Semi-Dwarf varieties will normally bear one to two years earlier than standard apple trees.

## Other Fruit Trees

	Type	Fruit Description	Remarks	Zone	Blooms	Fruit Ripens	Pot Size	Price (\$)
<b>Mulberry White, Trader</b>	Standard	Sweet, purple fruits	Long fruiting period; self-fertile	3	May	July-Sep	#7 Ct	129.99
<b>Pear, Early Gold</b>	Standard	Excellent tasting, 3"x1.5"; yellow	About 25 ft tall; use 'Ure' as pollinator	3	May	Early August	9/16"	74.99
							#5 Ct	79.99
<b>Pear, Golden Spice</b>	Standard	1.75"; yell.+red; good f.canning, fair for eating	Needs Ure as pollinator & pollinates Ure	3	May	September	7/8" M	84.99
<b>Pear, Parker</b>	Semi-Dwarf	Large, yellow-bronze; sweet and juicy	15ft tall; use "Summercrisp" as pollinator	4	Mid-spring	August	1"	84.99
							#5 Ct	79.99
<b>Pear, Summercrisp</b>	Semi-Dwarf	Pyramidal, 2.5 "x 3", green/red; sweet and crisp	Stores 2 month; use Parker as pollinator	4	Early May	August	7/8"	84.99
<b>Pear, Ure</b>	Standard	2"; green+yellow+red; very juicy; good flavor	Needs 'Golden Spice' as pollinator	3	May	Mid Aug	7/8"	79.99
							#5 Ct	79.99
<b>Plum, Blackice</b>	Standard	Large, sweet, juicy, round fruit; red flesh	Ripens early; pollin.by Toka; pollen sterile	4	Early spring	Early August	11/16"	79.99
							#7 Ct	89.99
<b>Plum, Mount Royal</b>	Standard	Med. size, blue; tender, juicy flesh; all purpose	Self-fertile; dwarf sized 8-12ft	4	May	Late Aug	7/8"	79.99

**Other Fruit Trees** *continued*

Name	Type	Fruit Description	Remarks	Zone	Blooms	Fruit Ripens	Pot Size	Price (\$)
<b>Plum, Mount Royal</b>	Standard	Med. size, blue; tender, juicy flesh; all purpose	Self-fertile; dwarf sized 8-12ft	4	May	Late Aug	#5 Ct	79.99
<b>Plum, Superior</b>	Standard	Large, dark red; sweet, juicy; high yields	Pollinated by Toka; 10-15ft tree	4	April-May	Mid Aug	11/16" #7 Ct	74.99 74.99
<b>Plum, Toka</b>	Standard	Medium size, red; richly flavored; yellow flesh	Pollinated by 'Superior'; 15-20ft tree	3	May	Mid Aug	11/16" #5 Ct #7 Ct	74.99 79.99 79.99
<b>Tart Cherry, Evans Bali</b>	Standard	1" dark red fruit; sweet; good for pies & jam	Extremely hardy buds; self-fertile; 15' high	3	May	August	11/16" #5 Ct	79.99 79.99
<b>Tart Cherry, Mesabi</b>	Standard	Small pitted red cherries	Self-fertile; 12ft high, pyramidal form	4	May	Early July	11/16" #5 Ct	79.99 79.99
<b>Tart Cherry, Sweet Cherry Pie</b>	Standard	1" dark red fruit; very sweet taste	Sour pie cherry; self-fertile; 15ft tree	3	May	Mid-July	11/16" #5 Ct	79.99 79.99

**Small Fruits**

Name	Type	Fruit Description	Remarks	Zone	Blooms	Fruit Ripens	Pot Size	Price (\$)
<b>Asparagus, Jersey Knight</b>		Mostly male plants; very productive	1yr-plant; resists rust & fusarium crown rot	3		May	1yr10pl	20.99
<b>Asparagus, Sweet Purple</b>		Mild, nutty flavor; 20% higher sugar content	Larger and more tender than green asparagus	3		May	1yr10pl	20.99
<b>Blackberry, Chester Thornless</b>		Medium to large berries; sweet in flavor	Thornless; self-fruitful; keeps firm in heat	5	May	July	1yr BR #1 Ct	16.99 19.99
<b>Blackberry, Darrow</b>		Firm, juicy fruit with honey sweet flavor; 1" across	Self-fruitful; matures young	5	May	Early July	#2 Ct	26.99
<b>Blueberry, Blueray</b>		Large, powder blue; outstanding flavor	Heavy producer of high quality; 5' high	4	May	July	#1 Ct	24.99
<b>Blueberry, Chippewa</b>		Dark blue, sweet berries; self-pollinating	High yields like Northblue; ht 30-40"	4	May	July	#1 Ct	24.99
<b>Blueberry, Northblue</b>		Dark blue, large; good blueberry flavor	Self-pollinating; 3-4' high	4	May	July	#1 Ct	24.99
<b>Blueberry, Northcountry</b>		1/2", sky blue; sweet and mild; 2-7 lbs./plant	Partially self-fruitful; 30-40" high	4	May	July	#1 Ct	24.99
<b>Blueberry, Northland</b>		Small, dark blue; wild berry flavor	Fresh eating, jams, desserts; 3-4' tall	4	May	July	#1 Ct	24.99
<b>Blueberry, Patriot</b>		Very large, firm fruit; excellent flavor	Productive, pollinator needed, 4-6' high	4	May	Early July	#1 Ct	24.99
<b>★ Blueberry, Sky Dew Gold</b>		Golden foliage; ornamental value; medium crop yield	For pollination use another highbush blueberry	4	May	July	QT	19.99
<b>Blueberry, St. Cloud</b>		Sweet and mild flavor; heavy bearer	Pollinator needed; height 4'	4	May	July	#1 Ct	24.99
<b>Blueberry, Superior</b>		Firm berries; light to medium blue; balanced flavor	Exceptional producer. 4-5' tall	3	May	Late July	#1 Ct	24.99
<b>Currant, Consort Black</b>		Med size, black; strong flavor; for jam & jelly	Self-fertile; high yields	3	May	July	#1 Ct #2 Ct	19.99 24.99
<b>Currant, Red Lake</b>		Med size, bright red berries; all purpose	Very productive; vigorous grower	3	May	July	2yr BR #1 Ct	19.99 22.99
<b>Gooseberry, Hinnomaki Red</b>		Large red fruit; outstanding kiwi-like flavor	Favorite of the home gardener	4	May	July	2yr BR #1 Ct	19.99 24.99
<b>Grape, Beta</b>		Blue-black; good for all purpose	Vigorous; improved Concord	3	Early June	Late	#1T BR #1 Ct #3 Ct	24.99 26.99 39.99
<b>Grape, Bluebell</b>		Med. blue-black, tender skin; good quality	Resembles Concord but hardier	4	Early June	Mid Sep	#1 Ct #2 Ct	26.99 34.99
<b>Grape, Edelweiss</b>		Greenish white, dessert and wine grape	Vigorous; very disease resistant	4	Mid Spring	Late July	#1 Ct	26.99
<b>Grape, Itasca (Wine)</b>		Aromas of pear, melon, honey, florals + minerals	For high quality, dry white wine	4	June	Late Sept	#1Ct	29.99

<b>Grape, Marquette</b>	Big clusters with high sugar content	Excellent disease resistance	3	Mid Spring	September	#3 Ct	39.99
<b>Grape, Somerset Seedless</b>	Deep-red fruit; sweet flavor; edible at pink stage	Very productive & hardy table grape from WI	4	May	Aug-Sep	#1 Ct	24.99
<b>Grape, St Theresa Seedless</b>	Seedless slipskin grape; great flavor; purple fruits	Wonderfully vigorous vine for arbors & screens	4	Early June	Early Sep	#2 Ct	34.99
<b>Grape, Valiant</b>	1/2" fruits, blue; for dessert & wines	Very hardy & productive; 4" long clusters	3	May-June	Early Aug	#1 Ct	26.99
<b>Honeyberry, Borealis</b>	Soft-skinned oval type berry; sweet, tangy flavor	Use Tundra as pollinator	3	Early Spring	August	#2 Ct	29.99
<b>Honeyberry, Maxie Yezberry</b>	Very large, dark blue, plump fruit	Self-pollinator; for best yields plant with Solo	3	Spring	August	#1 Ct	26.99
<b>Honeyberry, Solo Yezberry</b>	Dark blue, olive-shaped fruit	Fresh eating; use Maxie for large fruits/high yields	3	Spring	Summer	#2 Ct	34.99
<b>Honeyberry, Sugar Pie</b>	Long, delicious, juicy berries	Smallest Yezberry variety (3-4 ft)	3	Early Spring	Early Summer	#1 Ct	26.99
<b>Horseradish</b>	Strong, sharp flavor	Long stems; white flowers; 2nd year harvest	2	Mid-Summer	Fall	#1 BR	8.99
<b>Raspberry, Boyne</b>	Summer-bearing; medium sweet; aromatic	Extremely hardy	3	May	Mid / Late July	#1 BR	12.99
<b>Raspberry, Bristol Black</b>	Summer-bearing; large; black; firm; good flavor	Hardier than Blackberries; high yielding	4	May	Mid July	#1 Ct	15.99
<b>Raspberry, Caroline</b>	Fall-bearing; large, red, outstanding flavor	Root rot & yellow rust resistant	4	May	Early Sept	1yr BR	16.99
<b>Raspberry, Fallgold</b>	Fall-bearing; golden; very sweet, juicy	Two full crops each year	4	May	Jul & Sep	#1 Ct	16.99
<b>Raspberry, Heritage</b>	Fall-bearing; medium size red; sweet flavor	Self-fruitful; ripens mid-July and then Sept.	4	May	Jul & Sep	1yr BR	12.99
<b>Raspberry, Killarney</b>	Med size, red; great flavor	Disease resistant; very hardy; good for freezing	3	May	July	#1 Ct	15.99
<b>Raspberry, Royalty</b>	Summer-bearing; large, red-purple; sweet; flavorful	2 crops per year; insect resistant	4	May	Late July	1yr BR	12.99
<b>Rhubarb, Chipmans Canada Red</b>	Bright red stems; very sweet	For delicious sauces and pies	3		May-June	1yr BR	9.99
<b>Strawberry, Fort Laramie</b>	Large, bright scarlet; outstanding flavor	Extremely hardy; good hanging basket variety	3		Everbearing	10 for	8.99
<b>Strawberry, Honeoye</b>	Large, bright, attractive shiny fruit with a firm flesh	Very disease resistant; sweet as honey	3		June	10 for	8.99
<b>Strawberry, Ozark Beauty</b>	Large, deep red; tasty, firm berries	Good dessert berry; freezes well	3		Everbearing	10 for	8.99
<b>Strawberry, Seascape</b>	Large delicious berries; good disease resistance	Excellent flavor; long season of yield	3		Everbearing	10 for	9.99

# Roses

Do you think of Roses as being challenging to grow? You don't need to feel that way. New-style Roses are accessible to everyone, novice and expert gardeners alike. Bred for impressive blooming, perfuming the air with classic scents, and resisting disease, new-style Roses are as easy to grow as can be.

Knowing the harshness of our northern Wisconsin winters, we offer some of the hardiest Shrub Roses available. We have **Rugosa hybrids**, able to withstand wind, weather, and even a fair bit of salt! We stock a range of Canadian Roses from the **Parkland** and **Explorer series**, knowing how well these handle the cold. And new hybrids offer plenty of choices when it comes to size, blooming habit, and overall style. Bred for success and far-from-finishy, these varieties surely will make Rose gardeners out of all of us.

**New for 2024:** Let's get down to the nitty gritty. '**Nitty Gritty**' Roses come in pleasing colors that will stick with you through the summer, given the continuous blooming of these carefree plants. With dark leaves, delicate fragrance, and excellent blooming capacity, you are sure to love these. Similarly, '**Frau Dagmar Hastrup**' is a repeat-bloomer, needs no deadheading, and resists deer and drought while looking classically elegant. And the new '**Oso Easy Peasy**' shows off hot pink blooms with Rugosa-style centers... pretty, and requiring the spraying of nothing but water.

**Growing roses:** Roses need bright sun for six straight hours. Try not to crowd them out, as they need adequate space around them for good air circulation. Roses thrive in loosely packed soil with excellent drainage, and they appreciate compost as a soil amendment. Water deeply once a week, in the morning, if there has not been at least an inch of rain.

**We recommend the following products for low-maintenance, effective Rose care:**

- For spring fertilizers, we recommend 'Espoma Rose-tone®' or 'Fertilome Start & Grow'. Bonemeal also can be applied to promote blooming.
- We recommend 'Espoma Earth-tone® 3n1 Disease Control' or 'Fertilome Triple Action' (neem oil plus pyrethrins) as excellent products for controlling common insects and diseases.
- Deer problems can be handled by applying repellents such as 'Bobbex Rose™ Deer & Insect Repellent' and 'Repellex® Systemic Granular'. Bobbex-Rose promises an environmentally friendly way to repel pests through taste aversion. The undesirable taste that deer and such insects as aphids will experience from Bobbex-treated Roses will not lessen after watering or rain. A sticking agent keeps the formulation in place after it is sprayed on. And Repellex® is a granular product which gets sprinkled onto the ground and watered in. Dissolved granules send hot pepper concentrate throughout all parts of the plants. Animals steer clear of these plants, which absorb the formula to the cellular level where it remains all season to do its job.
- Japanese beetles pose problems for Roses. With stages in their life cycle unfolding both below and above ground, they are a challenge at best. The absence of native predators means that more than one strategy must be used to keep the garden free of this particular pest. Methods can be mechanical, such as meshing and netting, manual in the sense of removing the pests one-by-one, trapping, using natural insecticides, and combining chemicals and biocontrol agents. Ask our staff for advice regarding your options.

## Hardy Shrub Roses

Name – See also cross-reference in back	Flower Color	Foliage	Height	Zone	Fragrant	Blooms	Flower Size	Remarks	Pot Size	Price (\$)	
<b>Above &amp; Beyond Climber</b>	First Editions	Apricot	Dark green	10-14ft	3	Slight	Recurrent	Semi-dbl, 3"	Hardy climber; large apricot blooms	Ct OR #3	44.99
<b>All the Rage</b>	Easy Elegance	Apricot blend	Medium green	2.5-4ft	4	Yes	Everblooming	Semi-dbl., 3-4"	Wonderful landscape rose	#2 Ct	44.99
<b>Belle Poitevine</b>	Hybrid Rugosa	Medium Pink	Deeply veined	4-5ft	3	Strong	Recurrent	Sem-Dbl., 3"	Large, soft pink flowers; red hips	#2 Ct	34.99
<b>Blanc Double de Coubert</b>	Hybrid Rugosa	White	Dark green	5-7ft	3	Yes	Recurrent	Double, 2-3"	Sweet licorice scent; own root	#2 Ct	34.99
<b>Calypso</b>	Easy Elegance	Apricot blend	Glossy dark	2ft	4	Yes	Recurrent	Double, 2.5"	Loads of apricot double blooms	#2 Ct	39.99
<b>Campfire</b>	First Editions	Yellow, pink edges	Glossy green	3ft	3	Slight	Everblooming	Semi-dbl., 2"	Disease resistant; bi-colored petals	#2 Ct	39.99
<b>Champagne Wishes</b>	Easy Elegance	Antique white	Dark green	3-4ft	4	yes	Recurrent	Double, 3"	Spread 2-3 ft; good for cutting	#2 Ct	39.99
<b>Champlain</b>	Explorer	Bright red	Dark green	3ft	3	Yes	Everblooming	Double, 2-3"	Striking red clusters of blooms	#2 Ct	34.99
<b>Coral Cove</b>	Easy Elegance	Pink-orng.-yellow	Dark green	2-3ft	4	Slight	Everblooming	Double, 3"	Small, perfectly round form	BR	34.99
<b>Flavorette Honey Apricot</b>	Flavorette Rose	Apricot-orange	Green	3-4ft	4	Yes	Everblooming	Double, 3"	Vigorous; edible and fragrant	#1 Ct	26.99
<b>★ Frau Dagmar Hastrup</b>	Rugosa	Pink	Glossy green	2ft	3	Yes	Everblooming	Single, 4"	Compact, repeat bloomer, large hips	#2 Ct	34.99
<b>High Voltage</b>	Easy Elegance	Medium yellow	Green	3-4ft	4	Yes	Recurrent	Double, 2-3"	Vase shape; upright growth pattern	#2 Ct	39.99
<b>Kashmir</b>	Easy Elegance	Dark red	Green	2-3ft	4	Yes	Recurrent	Very full, 2.5-4"	Velvety soft red blossoms	#2 Ct	39.99
<b>Morden Centennial</b>	Parkland	Medium pink	Glossy green	3-5ft	3	Slight	Recurrent	Full, 4"	Prolific flushes of rich pink blooms	#2 Ct	39.99
<b>Morden Sunrise</b>	Parkland	Yellow-orange	Dark green	2-3ft	3	Yes	Everblooming	Semi-dbl., 2.5-3"	Resistant to blackspot	BR	29.99
<b>Music Box</b>	Easy Elegance	Yellow	Medium green	36in	4	Yes	Everblooming	Double, 2"	Yellow blooms brushed with pink	#2 Ct	34.99

<b>Nearly Wild</b>	Floribunda	Rose-pink	Light green	2-3ft	4	Yes	Everblooming	Single, 3"	Sweetly scented; AARS 7.7	#2 Ct	34.99
<b>✿ Nitty Gritty Peach</b>	Nitty Gritty Series	Peach	Dark green	3ft	4	Slight	Everblooming	Semi dbl, 3-4"	Fast growing; no dead heading	#2 Ct	59.99
<b>✿ OSO Easy Peasy</b>	OSO Easy Peasy	Magenta-pink	Green	2.5-3ft	4	Slight	Everblooming	1.5" dbl clusters	No dead-heading; award winner	QT	19.99
<b>Pinktopia</b>	Easy Elegance	Medium pink	Dark green	4ft	5	Yes	Recurrent	Semi-dbl., 2"	Masses of pink flowers all season	#2 Ct	39.99
<b>Purple Pavement</b>	Hybrid Rugosa	Purple-crimson	Bright green	3ft	3	Very	Everblooming	Semi-dbl., 3"	Intense fragrance; very healthy	#2 Ct	34.99
<b>Ramblin' Red Climber</b>	Hybrid Bailey	Medium red	Dark green	6-10ft	3	Yes	Everblooming	Double, 3-4"	Outstanding climbing rose	#3 Ct	39.99
<b>Ringo All-Star</b>	Hybrid Hulthemia	Or-red-pink-lav	Green	2.5-3ft	4	Yes	Recurrent	Semi-dbl., 2-3"	Multi-color; rebloomer	#1 Ct	29.99
<b>Rise Up Ambersness</b>	<b>Climber</b> , Rose	Yellow	Green	3-5ft	4	Yes	Recurrent	Full, 3"	First Proven Winner mini climbing rose	QT	19.99
<b>Rise Up Lilac Days</b>	<b>Climber</b> , Rose	Lilac	Glossy green	5-8ft	4	Yes	Everblooming	Semi-dbl, 3"	Fragrant and nearly thornless	#1 Ct	26.99
<b>Screaming Neon</b>	Easy Elegance	Neon red	Dark green	3-4ft	4	Slight	Recurrent	Single, 2-3"	Standout neon red blooms	#2 Ct	39.99
<b>Sunrise Sunset</b>	Easy Elegance	Pink blend	Bluish-green	2-3ft	4	Yes	Everblooming	Semi-dbl., 2-3"	Exceptional color blend	BR	29.99
<b>Super Hero</b>	Easy Elegance	Medium red	Dark-green	3-5ft	4	Yes	Everblooming	Full, 2-3"	Easy to grow, tea rose-like blooms	#2 Ct	39.99
<b>William Baffin Climber</b>	Explorer	Deep pink	Glossy green	8-10ft	3	Slight	Recurrent	Double, 2.5-3"	Extremely hardy climber	#2 Ct	39.99

## Abbreviations and Symbols

	New plant in this year's catalog
<b>HB</b>	Hardy Biennial
<b>Nat</b>	Native plant
<b>NP</b>	Native Prairie plant
<b>Nat*</b>	Cultivars or improved selections of Native plants
<b>NP*</b>	Cultivars or improved selections of Native Prairie plants
	Sun, Partial Shade, Shade The order shows the plant's preference.
	Plant attracts birds.
<b>S</b>	Shoreline restoration plant
<b>F</b>	Fragrant
	Cut Flowers
	Groundcover
<b>SI.</b>	Slug resistant
	Deer resistant
<b>D</b>	Drying
	Rock Gardens
<b>Z</b>	Hardiness Zone

## Container Sizes & Measurements

<b>No. 3 Pot</b>	= 9.5 fl oz. (281 ml)
<b>No. 4 Pot</b>	= 1.16 pt. (549 ml)
<b>No. 5 Pot</b>	= 1.15 qt. (1.09 l)
<b>No. 6 Pot</b>	= 56.8 fl oz. (1.68 l)
<b>No. 7 Pot</b>	= 2.62 qt. (2.48 l)
<b>No. 8 Pot</b>	= 1 gal. (3.79 l)
<b>Bio-4 Pot</b>	= 8 fl oz. (237 ml)
<b>Bio-5 Pot</b>	= 16 fl oz. (473 ml)
<b>QT</b>	= 0.33 gal. (1.25 l)
<b>#1 Ct</b>	= 0.75 gal. (2.83 l)
<b>#2 Ct</b>	= 1.6 gal. (6.06 l)
<b>#3 Ct</b>	= 2.3 gal. (8.71 l)
<b>#5 Ct</b>	= 3.75 gal. (14.2 l)
<b>#7 Ct</b>	= 5.8 gal. (22.0 l)

## Explanation to Soil Requirements

<b>ac</b>	acidic	<b>po</b>	poor, low feeders
<b>al</b>	alkaline	<b>ri</b>	rich, high feeders
<b>hu</b>	humusy, rich in organic matter	<b>sa</b>	sandy
<b>lo</b>	loamy, average garden soil	<b>wd</b>	well drained
<b>mo</b>	moist	<b>we</b>	wet, constant moisture
<b>np</b>	not particular		

## Explanation to Sizes for Shrubs & Trees

<b>BR</b>	indicates Bare Root	<b>" or '</b>	the height of the plant, e.g. 16" or 3'
<b># Ct</b>	indicates container grown, all other sizes come bareroot	<b>lb</b>	the tree is lightly branched
<b>BB</b>	indicates 'Ball & Burlap'	<b>wh</b>	the tree is a whip
<b>/16"</b>	the diameter of trunk in 16 <sup>th</sup> of an inch, e.g. 9/16"	<b>yr</b>	the age of the plant, e.g. 2 yr
		<b>cl</b>	clump
		<b>M</b>	indicates Mature plant

## Explanation to Habit for Shrubs & Trees

<b>Ar</b>	Arching	<b>Ir</b>	Irregular	<b>Ov</b>	Oval	<b>Sy</b>	Symmetrical
<b>Cl</b>	Climbing	<b>Lo</b>	Low	<b>Pe</b>	Pendulous	<b>Up</b>	Upright
<b>Co</b>	Compact	<b>Mo</b>	Mounded	<b>Py</b>	Pyramidal	<b>Va</b>	Vase shaped
<b>Cr</b>	Creeping	<b>N</b>	Narrow	<b>Ro</b>	Rounded	<b>We</b>	Weeping
<b>Gl</b>	Globe	<b>Op</b>	Open	<b>Sp</b>	Spreading	<b>Wi</b>	Wide

## Plant Spacing Chart

Spacing	Plants you need per 10 sq. ft.
4"	90.0
6"	40.0
9"	17.8
12"	10.0
15"	6.4
18"	4.4
24"	2.5
36"	1.1

## Mulch

1 scoop = 1 cu yd = 27 cu ft  
1 cubic yard will cover approximately 150 sq ft **2" thick**

Area	Cu yd needed	2 cf bags needed	1.5 cu ft
50 sq ft	.33	4.25 (5)	6
100 sq ft	.67	8.5 (9)	12
150 sq ft	1.00	13	18
250 sq ft	1.50	21	30
400 sq ft	2.50	34	45

2" mulch for clay / loamy soils  
3" mulch for sandy soils  
Do not exceed 3" mulch!

### Mulch

- controls weeds
- helps retain soil moisture
- moderates soil temperature
- adds nutrients / organic matter to the soil as it breaks down

Some of the images of the new plants' selection are courtesy Walters Gardens Inc. and Bailey Nurseries.
