Jessica Does KOY Act On-Air

Jessica Hahn, the former church secretary whose method of ministering comfort led to widespread exposure in the popular press, launched a new career this week as KOY-FM/Phoenix's

"Moming Zoo Y95 Weather & Prize Bunny." Her debut attracted na-

tional media as well as irate callers complaining about "Bimbo

the results. Hahn's deal with KOY-FM calls for a 30-day trial with option to renew. Pictured is the Y-Moming Zoo on the alr: (I-r) Tim Hat-

RADIO BUSINESS HOTTER THAN EVER

Radio is a booming participant in one of the most "exciting business sectors in the US," the media business, according to the new Morgan Stanley "Communications Industry Databook." Transactions are continuing their record-setting pace, and the outlook is rosy. Page 6

SALES STYLES FOR THE NINETIES

If the sixties were the era of the "good ol' boy" in sales, and the eighties stressed ideas, the prized quality for nineties salespeople looks to be versatility. Successful sales will call for knowledgeable personnel with marketing savvy and hard answers at their fingertips, Chris Beck maintains.

SPOT CHECK: CREATING **GREAT COMMERCIALS**

When KGB/San Diego turns up the bass, it's not adjusting its sound mix. In a TV commercial reminiscent of "Saturday Night Live" 's legendary "bass-o-matic" bit, a fish is pureed in a food processor as a striking visual representation of what happens to listeners' brains while listening to the AOR's morning show. Lucky R&R readers not only can see a frame-by-frame run-through of the fish that nauseated San Diego, but can also read a step-by-step guide to creating more effective spots.

RKO Deals WRKS To Summit For \$50 Million Beasley Close To KRTH \$87 Million Deal

RKO General's march into the broadcasting history books continued last week with word the company has sold WRKS/ New York and is close to selling KRTH-AM & FM/Los Angeles. Last Tuesday (8/23) Summit

Communications Group signed an agreement in principle to purchase WRKS for \$50 million. Summit VP Mary Catherine Sneed declined to discuss details of the agreement except to say it was the result of some whirlwind negotiations. "It was very obvious to us

that (RKO) wanted to resolve this as soon as possible," said Sneed. "The whole thing was resolved in a matter of weeks." Sneed said Summit officials want to move quickly to sign a purchase contract with RKO.

WYLD VP/GM Position Goes To Brazile

Penny Brazile, former Director/ Human Services for the city of New Orleans, has been named VP/GM at Inter-Urban's WYLD-AM & FM/New Orleans. It is her first radio industry position.

Inter-Urban President Jim Hutchinson commented, "Traditionally, especially in major markets, one seeks VP/GMs steeped in the radio business and brings them to a town where it may take a year or two for them to learn the major players and be accepted by the community. What we decided to do was find someone already highly regarded in New Orleans, with significant administrative skills and budget management experience, and teach that person the radio business. 25 STAFFERS LET GO WFBR Drops Talk For Gold Approach

Talk-formatted WFBR/Baltimore will switch to Oldies on September 16. It is not known if new calls will be used by incoming owners JAG. Only seven of the present 32 staffers will remain at the station after the change.

One employee exiting is GM Ed Graham, who told R&R, "I'm not exactly sure of the mix they're going to use, but since they have a 1957 Chevy on their billboard I would think it will be a standard Gold format. Essentially, all the staff is gone, although they will retain one salesman, one engineer, a few board operators, and a couple of secretaries."

Graham said the new owners had a "preconceived idea that Talk is an expensive format. Gut level, I just think they don't like Talk radio. Their business plan was probably to have a Beautiful Music station – which they have in WLIF – and an Oldies AM, and sell the two in combination. There's already an FM Gold station in the

Hickman Returns To WXDJ As PD

Former WXDJ/Miami PD Terry Hickman has returned to the station in his previous programming capacity. WXDJ dropped SMN's "Wave" programming yesterday (9/1) in favor of live programming.

GM Tony Novia told R&R, "For lack of a better term, we will be doing sophisticated AC." Artists the station will play include David Sanborn, Sade, Spyro Gyra, Steely Dan, and Luther Vandross. Said Novia, "I think this is the first time somebody is doing something quite like this."

Regarding the selection of Hickman as PD, Novia said, "I interviewed people on a national basis and here in Florida. Terry had the best knowledge of this type of music and what we need to program in South Florida. A large HICKMAN/See Page 32 market with a 3.9 share (WQSR). I wish them well, but music doesn't work that well on AM anymore. I fought that battle too long."

Malrite's Private Plan **Spawns Several Shareholder Suits**

Malrite Communications has announced that several shareholder suits have been filed against the company in the wake of Chairman Milton Maltz's bid to take the broadcast group private.

In the proposed buyout, holders of the outstanding Class A stock and holders of the outstanding common stock would receive \$10.25 per share in cash, representing premiums of 46% and 28% over the closing prices of the Class A stock and the common stock, respectively, on August 12, the last trading day before the merger proposal was announced.

The class actions were filed against Malrite and its directors in the Delaware Court of Chancery by persons claiming to be holders of the company's common stock, Class A stock, and nine percent convertible subordinated debentures due October 1, 2010.

The actions allege, among other things, that the proposed transaction is unfair to class members and involves breaches of fiduciary and other duties owed to securityholders. The plaintiffs seek to block the deal and, in addition, ask for unspecified monetary damages. Malrite and the management group say the suits are without merit.

Malrite operates 11 radio and six television stations in the New York, Los Angeles, Philadelphia, San Francisco/Oakland, Houston, Cleveland, Minneapolis/St. Paul, Puerto Rico, Cincinnati, West Palm Beach, Jacksonville, and Rochester markets.

THIRD BUY THIS YEAR

BPI Acquires Century 21 Format Division

Seattle-based Broadcast Programming has acquired the taped format division of Century 21, and thereby becomes one of the country's largest distributors in that field

Broadcast Programming GM Edith Hilliard commented, "We're excited about this move. We've been gearing up for it over the last few months. We've settled into new, expanded facilities and added personnel and state-of-the-art equipment. We have a terrific staff of highly experienced broadcasters, all of whom are committed to high-quality programming." **Century 21 President Dave Scott**

noted, "We've decided to specialize

in the areas of music libraries on CDs and DAT, production libraries, music rotation software, and jingles. Broadcast Programming's track record of quality and service in recent years has been superb, and they have the people, the resources, and the commitment to provide our reel-to-reel affiliates with superior service."

This is the third acquisition of a competing format distributor for Broadcast Programming in the last year. It previously purchased Peters Productions of San Diego and Radio Arts of Los Angeles. The company says it now has 500 affiliates on more than 30 formats.

NEW CALLS KBPI KNUS Loses News/Talk Format, Simulcasts AOR

KNUS fell sharply in both spring

surveys, from 2.8-1.9 in Arbitron

and 2.1-1.5 in Birch.

Sandusky's KNUS/Denver has abandoned its seven-year N/T format to simulcast with AOR KBPI. The call letters have been changed to KBPI (AM). Over 30 people virtually the entire staff - have been let go.

KBPI VP/GM Kip Gilbert said the decision was a painful one, necessitated by a number of factors. "It's no news flash that AMs around the country are having problems, and that's been the case here. Denver's economy is very bad. Three or four AMs have had to make changes within the last few months. Our AM signal is not great, and the station just had a bad book. We were doing battle with KOA, a 50 kw monster.

"I think you could realistically say there was a serious effort made. We spent a lot of money on talent and promotion; it just didn't look like things were turning around."

Frost **Upped To** Q107 PD

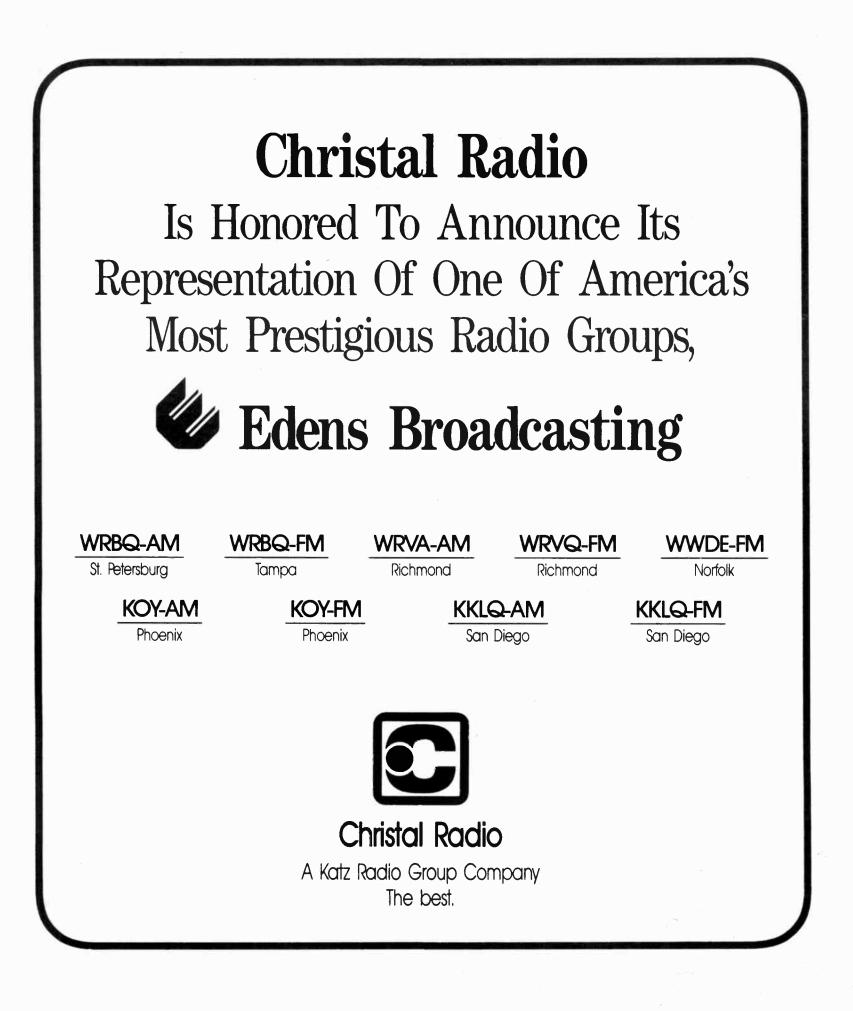

CILQ (Q107)/Toronto APD/MD Andy Frost has been upped to fill the PD opening created when Bob Mackowycz left the Westcom AOR outlet four months ago.

CILQ VP/GM Don Shaffer said Frost's promotion has been planned since the position became available, adding, "We're thrilled to have someone with Andy's experience and talent at the helm. I'm sure he'll do a fabulous job."

Frost retains the MD title he's held since arriving at the station three years ago. Prior to that he was MD for CITI/Winnipeg for six years. He also did color for the National Hockey League's Winnipeg Jets. This is his first PD job.

"Face it - this is one of the best radio gigs in Canada," Frost told R&R. "I'm thrilled to have the opportunity to work in a great city like Toronto. I'm surrounded by the best people in the country, which will only make my job that much easier."

WASHINGTON REPORT

Morgan Stanley Says Radio's Red Hot

New Financial Study Outlines Dealmaking Frenzy, Increased Revenues

Washington lawmakers determined to reregulate broadcast station trading have some new information to consider. A report from a top Wall Street investment house says the industry is thriving financially like never before.

The findings are reported by Morgan Stanley & Co. in its justreleased fourth annual Communications Industry Databook, a study certain to be cited by both proponents and opponents of efforts to reimpose "anti-trafficking" rules.

Trading Stayed High After October Crash

Morgan analysts say despite the October 1987 stock market decline, radio mergers and acquisitions activity continued at a high level and the sale values of media properties continued to set records.

"The media remains one of the most exciting business sectors in the United States," said Morgan **Communications Group Director** Steven Rattner. "The unique franchises and quality management that most media companies enjoy, together with an attractive operating environment, have produced strong recent results and an equally promising future."

The study says 442 radio acquisitions totalled nearly \$2.2 billion in the first six months of 1987, compared with 518 deals totalling \$1 billion for the same period in 1986.

'While broadcast cash flow multiples for cash flow generating stations remained in the 10-60-12 times range, there appeared to be some downward pressure on multiples paid for mature stations with hefty margins, whereas price paid for non-cash flow or 'stick' properties continued to set record prices," the study reports. It goes on to note that the overall economic outlook of a particular market - not just a station's relative market position is becoming an increasingly important factor in determining station trading values.

Market Values Skyrocketed In 1987

The report says the market values of publicly-traded radio companies "skyrocketed" last year because of positive research findings from Wall Street analysts who had suddenly discovered the industry. The bubble burst during last October's stock market collapse, and radio stocks were especially hard hit. Composite equity values of six major radio-only companies - Clear Channel, Infinity, Jacor, Malrite, Olympia, and Osborn - dropped 30.5% from their value in September 1987, ver-

FCC Plans Freebie Seminar On Tax Certificates

Broadcasters coming into Washington for the NAB "Radio '88" convention might find it profitable to stick around town after the show closes Saturday night (9/17).

The FCC and the National Telecommunications & Information Administration says it will host a seminar Monday (9/19) morning on the use of minority tax certificates to finance station acquisitions. The conference kicks off at the FCC's Washington headquarters, 1919 M St. NW, at 9:30am and is scheduled to wrap by 1pm - allowing broadcast execs to catch early afternoon flights home. Best of all, it's free. The seminar will explore how to use tax certificates to trade stations and leverage capital, and detail how the certificates are processed by the FCC and IRS. Panelists include Washington communications attorneys Erwin Kras-

now and William Kennard of Verner, Llipfert, Bernhard, McPherson & Hand; FCC deputy Mass Media Bureau Chief Roderick Porter; and Robin Martin of the Deer River Group. Those interested in attending should

the market did not respond and the stocks continue to trade "at significant discounts to private market value.' Other Morgan Stanley findings:

 Noting that the radio industry enjoyed its 26th consecutive year of uninterrupted growth in revenues, Morgan analysts noted that growth in radio advertising did not outpace the growth in America's Gross National Product for the first time in eight years. A trend toward local advertising continues, with local revenues reaching 80% of station revenues for the first time as operators tapped new, non-traditional sources of ad dollars. National spot dollars dropped 1.3% as big advertisers worried about an uncertain economic future.

BUSINESS OVERVIEW Net proceeds from the offering will **Merriman Returns**

To TM Communications

TM Communications founder Tom Merriman has agreed to help save the financially troubled company. Merriman, who left TM two years ago, last week announced his intentions to lend the company \$500,000 in exchange for a stock option. Perhaps more importantly, he will also become active in management as Vice Chairman/National Creative Director

"I felt that if I didn't come back the company wasn't going to make it," said Merriman. "What I want to do is take the company back to what it was when it was the industry leader in broadcast services.

TM is currently in the midst of a severe cash crunch that Merriman attibutes to the company's failed attempt to move into radio ownership.

Said Merriman,"I think (TMCI management) underestimated the cost involved in making the move to ownership, especially when you are trying to make that move with stations that are all turnarounds.

TM last week received tentative FCC approval to sell its four stations to former TM President Patrick Shaughnessy. Upon completion of the sale, Shaughnessy's Marathon Communications will assume \$5.5 million in TM debt.

Merriman spent much of the past two years composing music for Las Vegas d industrial shows US and Britain. "I guess I just needed to get away from 30-second spots for awhile," he said.

The remaining net proceeds, together with cash generated from operations, will be used to expand IDB's satellite communications facilities in New York and Los Angeles, which will enable the company to complete the IDB satellite communications network over the next 18 months.

Drexel Burnham Lambert Inc. acted as exclusive placement agent for the sale of the notes. IDB is a supplier of satellite transmission and distribution services for radio and television programming and data/voice communications

Olympia, Malrite Credit **Ratings Under Scrutiny**

Analysts at Standard & Poor's Corp. have cut the credit rating of one major broadcaster and are waving warning flags about the creditworthiness of another

About \$30 million worth of Olympia Broadcasting Corp.'s senior subordinated debentures were downgraded from "CCC" to "CC" status Monday (8/22). S&P analysts say the Seattlebased broadcasting company doesn't have enough cash on hand to meet a mandatory repurchase of about \$7 million worth of junk bonds on September 30. Due to continued operating losses, Olympia failed to meet a net worth test mandated when the bonds were originally sold, thus triggering the partial debenture repurchase.

Olympia has been seeking additional bank financing and recently announced plans to sell KPRM-AM & FM/Seattle for \$12 million in an effort to raise cash to meet the payment.

Meanwhile, the "B" rating on Malrite Communications Group's nine percent junk bonds have been placed on S&P's "Creditwatch" with "developing implications" and an implied senior

NAB RADIO EXEC COMMITTEE MEETS - When the NAB Radio Executive Committee met last week in Washington, a major topic of discussion was the Radio '88 convention, which is just two weeks away. pand, accounting for 71% of all listening in 1987 as compared to only 44% in 1976. Morgan analysts concluded that "the future of AM radio - if indeed there is a future lies in news, information, and talk formats." For the third consecutive year, AC/Soft Rock/Gold

formats were the most popular with audiences, accounting for 17.1% of all listeners. According to Duncan's American Radio statistics cited by the analysts, CHR followed with 14.1% of the audience and AOR came in third with 12.5% of the audience.

rating of "BB-." The move comes after a management group headed by Chairman Milton Maltz announced plans to take the company private in a \$170 million leveraged buyout. S&P analyst Richard Siderman said the LBO will require Malrite to incur additional debt of about \$90 million.

"With this additional debt, cash generated from Malrite's broadcasting operations may be insufficient to cover interest expense and capital expenditures. This would result in a substantial downgrade. Additionally, the management group has indicated that it may make an offer to purchase the company's debentures at an as-yet-undetermined price. If such a purchase is consummated, the rating will be withdrawn," Siderman said.

Group W Stations To Carry FNN Business News

The Financial News Network and Starstream Communications Group have announced that several Group W radio stations will carry the "FNN Business Radio News" network, which premieres October 3. The major market Group W stations utilizing the new network include WINS/New York. KFWB/Los Angeles, and KYW/Philadelphia.

In addition to the Group W stations, FNN has signed on stations in major markets including: WHDH/Boston, WWNZ/Orlando, WINZ/Miami, and WCKY/Cincinnati.

The FNN Business Radio News network will provide stations with oneminute reports twice hourly between 6am-7pm local time, Monday through Friday. Stations will also have access to the following options: daily feeds of the world's business and financial actualities, voiced by actual newsmakers; regional business and financial reports; and live, continuous "crisis coverage" when emergencies occur in the business world.

The Strategic advantage:

Radio is not a typical consumer product like cigarettes or spaghetti sauce. Tastes and attitudes change very quickly in our field. If you're only researching your listeners once a year, you're missing a genuine competitive advantage.

Strategic Radio Research offers a unique, customized research program that could keep you in touch with your listeners every week of the year. Weekly perceptual research to monitor the changing attitudes of your target audience. Weekly tracking on your current music. Plus weekly research on your oldies. All in one comprehensive system that we've been fine-tuning and improving for over eight years.

Great programmers and managers like KMEL/ San Francisco's Paulette Williams & Keith Naftaly, WODS/Boston's John Gehron & Dave Van Dyke, WJLB/Detroit's Verna Green & James Alexander, KRXY/Denver's Joe Parish & Mark Bolke, and WGCI/Chicago's Marv Dyson, Sonny Taylor, & Barbara Prieto have all learned that the closer you get to your listeners, the more successful you'll be.

To request a research proposal for your station, call Sue Bell, Director of National Sales, or Kurt Hanson, President, today at (312) 280-8300.

In our industry, gimmicks and "quick fixes" abound. But *keeping in touch with your listeners* on a weekly basis gives you an inarguably real, long-term advantage. It improves your product. It will help you win.

How does it feel to be treated like a commodity?

Not very good, we're sure.

There's no way to avoid this feeling when you're just one of 10, 12 or 20 stations that are being represented by one of the megareps.

So if you're beginning to get that sinking feeling of becoming just a supplier of inventory, we have a way for you to escape the "numbers game."

Move to a place where you don't have to compete for attention.

At Eastman, you're an individual station with a unique personality, not a commodity. We don't blur the competitive differences between stations.

In fact, our people work overtime to understand your individual market, station and audience. They look for ideas and values that contribute to your getting a higher price for your product. In the top 20 markets, where Eastman reps a leading station, the market cost per point has increased 11 percent in two years.

Does your rep really sell your station the way you want it sold...or is it just price and ratings? If you're ready to be sold on quality, not just quantity, give Eastman a call at (212) 581-0800.

In some relationships, more than one partner is a crime.

In matrimony, it's called bigamy. In commerce, it's called conflict-of-interest. In research, it's called "business as usual".

Most research companies are promiscuous. They'll have a fling with a station in every format. Which can create problems. What do they do when their research suggests one of their stations should change to the format of another client?

Emmis Research makes a commitment to only one radio station per market. Because we believe in forming *partnerships*. Lasting partnerships. Exclusive partnerships.

SIX E-Z STEPS

How To Be A Bad, Bad Manager

While good management practices are sometimes overlooked, bad policies are often so glaring that they cannot be ignored — except by those unscrupulous executives who practice them. The Los Angeles-based IBM Systems Science Institute recently examined six of the most questionable, yet common, management methods.

• When forced into an argument, ask an irrelevant question. While your opponent is fishing for this red herring, change the subject.

• While listening to the arguments of others, seize the weakest premise that you hear and proceed to rip it to shreds.

• When you're lucky enough to have a clever and capable assistant, keep his or her talents and accomplishments in the dark.

• Always walk at a fast pace when moving through the workplace to minimize or dodge possible questions.

• Maintain a "closed-door" policy. A shut office door gives the appearance that an important meeting is going on and puts would-be visitors at a disadvantage.

• Avoid leaving "paper trails." The creation and maintenance of damaging files can be avoided by only giving verbal orders.

Small Talk Good For Business

he average employee spends about 30 minutes a day talking with co-workers about matters that are completely unrelated to the job at hand. Are these people sloughing off?

Not necessarily, say a group of managers recently surveyed by the Adia Personnel firm. These managers feel that such time spent on "small talk" is not completely wasted as it fosters camaraderie and team spirit, making for happier, more productive workers.

Will Account For Half Of 1990's \$1.6 Billion Market

The US currently has more than 11 million home-based offices and nearly five million businesses with fewer than 100 employees – numbers that are growing by nearly 75,000 annually.

As the number of these firms increase, there's expected to be a corresponding rise in the sale of office equipment, especially with re-

What you may ask? It really doesn't matter. All of the italicized words found in the above paragraph are among the top ten most frequently used in advertising slogans, according to a recent study by the Hermosa Beach, CAbased *Sharpshooters* monthly newsletter of business and marketing trends. (The list excludes such obvious connecting words as "and" or "or.")

Along with the five words cited in the first paragraph, the remainder of the top ten words most commonly used in advertising slogans are, as follows:

gard to facsimile machines. The Norwell, MA-based CAP International Inc. marketing research firm predicts that sales of fax machines will soar from last year's \$281 million to \$1.6 billion by the end of the decade, with homebased and small businesses accounting for as much as 40% to 50% of this boom.

With facsimiles leading the way, sales of other so-called "image products" (those involved with text creation; duplication, and transmission) are expected to rise about 13% yearly from now until 1990. At that time the total market for such products will top \$5.3 billion.

Of these products, copier sales will bring in the most cash (\$2.3 billion by 1990), despite a somewhat slow 2.9% growth rate and a declining percentage of the overall image-product market.

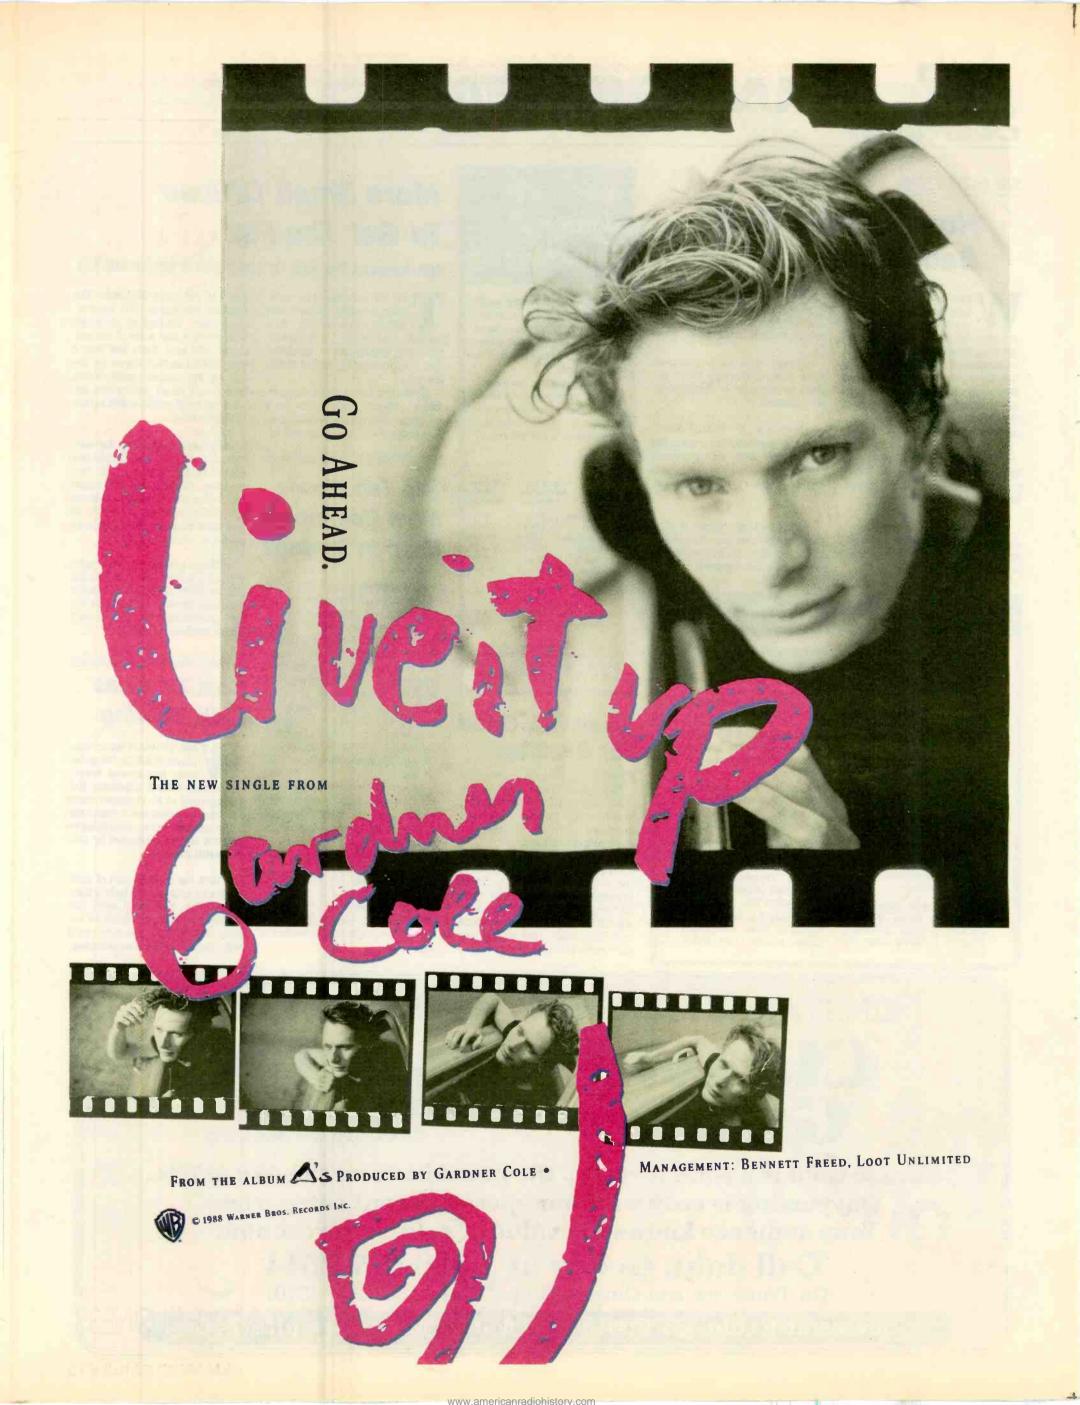

Cost Of Sales Calls Soaring

hen you total up an employee's salary, commission, bonus, and travel and entertainment expenses, the average cost of an in-person sales call has increased more than \$100 in the last nine years, according to a recent survey conducted by Mc-Graw-Hill Research.

In 1979, the average cost of such a call was estimated to be less than \$150. Today, that same sales call will set your company back an average of \$251.63. At that rate, you'd better hope the customer is buying.

SALES STRATEGY /ERVIEW

APPROACH & CALL STRATEGIES

Adapting Selling Styles For The 1990s

The '70s: The Sales

Consultant Decade

By the 1970s, technical develop-

ments dictated positioning yourself

as a consultant instead of a sales-

person. One then-popular tele-

phone strategy consisted of telling

a potential client you were a con-

sultant who worked with busi-

nesses, and all you wanted to do

ness

As we approach a new decade, we find ourselves entering an evolutionary period, needing to learn new technologies and fresh ways of approaching our business. You'll find that each previous decade has had its own unique selling style that includes the following three components:

- Approach & call strategies
- Closing
- Attack platforms

This week's column will address approach and call strategies past and present, and ways to adapt those stategies for the future. Remember, it's okay to look back at the past - as long as you don't stare.

The '60s: "I'm OK, You're OK"

The 1960s were the "I'm OK, You're OK" years, when virtually all selling was based on the "good ol' boy" network of relationships. Sales technologies were not highly refined, computers were not a major factor, and most deals were done over lunch.

The telephone skills of the '60s were marked by such catch phrases as "I'm going to be in the neighborhood," or "I'd like to get together with you." It was the age of pitches and broad, sweeping generalities.

line, retail changed dramatically. This forced salespeople to think up ways to provide tangible benefits for clients.

This decade can be referred to as the "having a better idea" era. Salespeople who once faced resistance to the questions they used to ask in order to gain knowledge about potential clients' businesses have learned the importance of having an idea to offer upfront.

Call strategy currently includes discussing target marketing ideas by drawing parallels between a client's customer base and your audience. In addition, qualitative information began to play an important role

One leading marine manufacturer (Sun Runner) is currently targeting auto dealers across the country, trying to get them to carry its line of boats. Meanwhile, General Motors has already entered the boat financing business.

The '90s: The Integrated **Business Professional** Generation

Accordingly, the 1990s will be the decade of the "Integrated Business Professional Generation." Successful salespeople will be those who can pursue and deal with multiple desicion-makers while targeting more than one platform. There will be no single way to do things in a world where orders often come from people who don't even have the word "advertising" on their business cards.

Salespeople will need to know the history of a business going in, instead of being educated by the potential account. There will be less reliance on advertising and more on marketing, and many of the professionals who have sold for decades will find themselves outmoded by the new techniques they need to know

The 1990s will be less personal than any other decade in history. In the past, knowing how to deal with an answering machine wasn't of primary importance. Today, when personal contact is becoming more difficult due to the increasing number of businesses screening calls with such devices, this skill is essential.

Looking Ahead

Next week's column will review closing techniques and attack platforms of the past and provide ways to update and apply these technologies for the 1990s.

However, questioning rather than pitching became less effective as clients were more pressed for time. At a certain point they had heard enough presentations, and got tired of answering your questions. They began wanting to know what you could do for them as soon as you walked in the door.

Tips For The Future

Clients will want to know more about your qualifications and those of your station, and not only from letters saying how satisfied your clients have been. Decision-makers will want to see actual examples of how advertising on your station has moved products and increased traffic.

Accounts' business will no longer be funnelled through only one agency or contact. Multiple agencies will place business for various

"It's OK to look back at the past — just don't stare."

products and departments of a single company. It won't be uncommon for three or four salespeople to be assigned to alternate contacts within a single company.

While advertising revenue still will be pursued, it will be only one of several possible options to pursue with a contact in the future. Other areas you should keep in mind with regard to businesses' increasing needs include recruitment, local promotion, and business-to-business corporate advertising

Japanese Beers As sales of Mexican beers begin to slide, the heir apparent in the "trendy beer" category looks to be Japanese brews. While many brands of Japanese beers already enjoy significant sales at food establishments, the breweries are now starting to focus their attention on increasing retail sales. Two Japanese companies whose brands are not currently distributed in the US have recently cut deals with a pair of Canadian breweries

Radio Days Revisited In New Book

ORIENT RADDU

PERSONALITIES

n his movie "Radio Days," Woody Allen took a fond albeit slightly fictionalized look back at radio's so-called Golden Age, that pre-TV era when America's favorite escape was basically that wireless box in the living room, and such great entertainers as Al Jolson, Orson Welles, and Will Rogers were the superstars of the day.

In his new book "Great Radio Personalities" (Vestal Press, Vestal, NY; \$11.95 paperback), entertainment historian Anthony Slide also takes a fond look back at those golden days of radio, presenting 239 classic, black & white photos of the era's greatest and bestloved radio stars and characters.

NEW THIS WEEK

WYNTON MARSALIS: BLUES & SWING (CMV Enterprises)

This 79-minute, digital hi-fi stereo program showcases the multi-Grammy award-winning trumpeter and his quintet in concert last year at Los Angeles's Westwood Playhouse. Among the numbers performed are "Caravan" and "Cherokee," both of which Marsalis originally recorded for his recent "Standards" LP. Interspersed among the musical selections are approximately 15 minutes' worth of segments showing Marsalis conducting workshops at Harvard University and the Duke Ellington School of Arts in Washington, DC. (Street date: 9/6).

DEAD OR ALIVE: RIP IT UP LIVE (CMV Enterprises)

This evah-so-trendy British group has a couple of US hits, as well as a slew of dance club hits in their native UK. Epic Records recently released "Rip It Up," a collection of megamix versions of their biggest Brit hits. And this hourlong video, shot live in Japan, contains concert versions of these songs plus others not found on the audio configuration, including their cover of KC & The Sunshine Band's "That's The Way I Like It." Anyone for a '70s revival? (9/6)

• SUPER SESSIONS: JAMES BROWN & FRIENDS (HBO)

The Godfather Of Soul, Mister Dynamite, Soul Brother Number One, the Hardest Working Man In Show Bidness, the man with more monikers than Liz Taylor has had husbands is caught live at the Taboo Club in Detroit, playing host to a slew of friends, including Aretha Franklin, Robert Palmer, Joe Cocker, Wilson Pickett, and Billy Vera. Each of themlends their musical talents to a variety of James Brown classics, ranging from "Out Of Sight" to "Living In America." (9/7). • CARLY SIMON: LIVE FROM MARTHA'S VINEYARD (HBO)

The stage-shy singer/songwriter is captured giving her first live performance in more than seven years. Although this was originally seen last year on the HBO pay channel under the title "Carly In Concert: Coming Around Again," this home video version is augmented by exclusive behind-thescenes interviews. Selections include "Anticipation," "Nobody Does It Bet-ter," "You're So Vain," "Coming Around Again," and others. (9/7). • SUPER SESSIONS: THE ALL-STAR REGGAE SESSION (HBO)

Filmed in Jamaica, mon, this special features great Pretender Chrissie Hynde as well as JA's own Ziggy Marley, Jimmy Cliff, Toots Hibbert, FThrees, Bunny Waller, Sly & Robble, Tyrone Downie, Stephen "Cat" Coore, and Grace Jones. Other non-Jamaicans contributing to this festive occasion include Coati Mundi, the Neville Brothers, and Carlos Santana. Among the featured songs are "Conscious Party" (Marley), "The Harder They Come" (Cliff)," and "My Jamaican Guy" (Jones). Smoke ... (9/7). • SUPER SESSIONS: SASS & BRASSS (HBO)

Another all-star HBO gathering, this was filmed at the Storyville club in New Orleans and features such semi-legendary jazz luminaries as Sarah Vaughan, Dizzy Gillespie, Herble Hancock, Chuck Mangione, Al Hirt, Maynard Ferguson, Don Cherry, Ron Carter, and Billy Higgins. Musical selections include "Bimsha's Swing," "I Can't Get Started," "Watermelon Man," and "Round Midnight." (9/7).

LEAVING ON A JET PLANE? US Airlines' Lost Ticket Policies

hanks to Karl Malden, we're now all aware that we shouldn't leave home without our travelers' checks, but what happens if our airline tickets happen to be lost or stolen? Airlines have become much tougher about replacing lost tickets in the last several years. Some, such as United, refuse to replace them under any circumstances, although others will replace them for a fee.

The following, reprinted from the Wall Township, NJ-based *Travel Expense Management* publication, is a guide to major airlines' latest policies with regards to lost plane tickets:

• American: The customer buys a new ticket, and fills out a lostticket form. If the missing ticket isn't used within 90 days, a refund - minus \$35 - is issued. American replaces tickets for international travel on the spot, without financial penalty. • Continental: The same procedure and fee as above, although the refund is given in the form of a Continental travel certificate. A check is issued for international flights.

New Fix For Flat Tires

rom the automotive minds of Europe comes an ingenious innovation with a roadtested appeal to America's fast-paced lifestyle. "Ouickwheel" is a 14-pound, ramp-like device that puts flat-tired motorists back on the road within minutes — without changing the tire!

Deflated drivers simply unfold the gadget, place it before the flat, drive onto its cradling ramp, and attach a special safety strap over the disabled tire. Quickwheel then allows the motorist to resume driving safely at speeds of up to 45 mph, with normal braking and steering capabilities.

Available in mid-September, Quickwheel is retail priced at \$130 and comes in two models: one for 12, 13 and 14-inch wheels; the other for larger, 15-inch tires. A six-year or 5000-mile warranty accompanies the product. For more information, contact Greenwich, CT-based Quickwheel Inc. at (203) 629-2573.

Let's Spend The Night ... At Home!

hatever gets you through the night, so the song goes – and a recent survey by the Lexington, MA-based Decision Research Corp. reveals that although Americans currently feel they lack sufficient leisure time, they are spending more and more of their evening leisure time at home.

In fact, the survey shows that most Americans (75%) spend the entire evening at home, with single working adults the most likely to spend some time outside the home at night and married couples – whether they have kids or not – the least likely to go out.

Only 20% Find Evenings Enjoyable

The study also found that less than half (43%) of US adults feel they have sufficient leisure time, while only 20% *really* enjoy their evenings (the standard leisure time period) a great deal.

People aged 55 or older enjoy their evenings the most (28%), followed by childless working couples (23%), singles (15%), and couples with kids (10%). Married women under the age of 55 feel the most stress in the evenings, while employed women without children feel the greatest need for personal time alone.

Most-Popular Nighttime Activities

So what kind of activities are these people using to get through their nights? The top activity, of course, is TV watching (71%), followed by eating (63%), driving/ commuting (42%), reading (22%), working (18%), and bathing/personal care (12%).

Interestingly enough, although marketing experts are most interested in the affluent active segment of professional achievers, the study shows that they are the most elusive target group, as they have low media involvement, are less attentive to advertising, and feel life is hectic.

Pizza: The All-American Pie

hat's your favorite type of pie? Apple? Cherry? Blueberry? Based on statistics compiled by the NYCbased Research Alert publication, the most-popular pie in America is pizza pie.

And we have plenty of opportunities to consume pizza. There are over 38,000 pizza restaurants nationwide, which comprise 11% of all US restaurants. (Hamburger hangouts account for only 8.5% of all restaurants.)

All this pizza consumption adds up: each person in the US eats an average of 22.5 pounds of pizza per year. Three-quarters of all pizzas are eaten at supper time, placing the traditional Italian dish fifth in the competition for most-popular dinner food.

But the important question to ask pizza lovers is, "What's your favorite topping?" Most Americans prefer their pizzas with at least three toppings, followed by the pepperoni/cheese combination and - in third place - just plain cheese.

Geffen Welcomes Page

Schwartz Segues To WJQI As Manager

WTMG/Nashville GM Howard Schwartz has been named GM of Format 41 affiliate WJQI/Norfolk. Paul Todd, WJQI's last GM, left the station five months ago.

Schwartz told R&R, "The future of the station is very bright. We're strong with 25-49 women and don't anticipate making any changes down the road. The format is hitting on all eight cylinders. If we commit to the advertising support necessary to keep it going, we expect to grow." Prior to joining WTMG four years ago, Schwartz worked as

GSM at WDNC & WDCG/Durham, NC; was GSM for the North Carolina and South Carolina News Networks; and held AE duties at WPLR/New Haven and WROR/ Boston.

In the spring Arbitron, WJQI ranked tenth 12+ with a 4.2 and was third 35-64. In Birch, the station's 12+ share was 3.9.

KFBK Sets Oliva As New Program Manager

News/Talk-formatted KFBK/ Sacramento has selected George Oliva as its new Program Manager. He replaces Tyler Cox, who left two months ago for the same position at Group W co-owned WBZ/ Boston.

KFBK VP/GM Rick Eytcheson told R&R, "This selection is the culmination of a national search that involved 25 candidates. George has all the right ingredients for this job: the News/Talk experience, the academic credentials, and significant experience with strategic research."

Oliva most recently served as VP/Programming for WERE & WGCL/Cleveland. He started with WERE in its sales department, later being promoted to Asst. PD, PD, and then OM for both stations.

Dancer/actor Gregory Hines's debut Epic solo album, produced by Luther Vandross, has recently been released. Shown marking the occasion are (I-r) E/P/A Sr. VP & GM Dave Glew, CBS Records Inc. President Walter Yetnikoff, Hines, CBS Records Division President Tommy Mottola, and VP/Black Music Promotion Don Eason.

Thumbs Up For Taylor

Livingston Taylor recently released his first album in five years, "Life Is Good." Pictured giving their evaluation of the effort are (I-r) Critique Records' Rod Stevens, Linda Cataldo, Michael Patt, Jonathan Lev, label President Carl Strube, and (seated) Taylor.

Jimmy Page stopped by the Los Angeles office of Geffen Records, his new label, prior to beginning a 36-date US concert tour in support of his "Outrider" solo debut album. Shown are (I-r) Geffen President Ed Rosenblatt, Page, manager Brian Goode, and Geffen's John David Kalodner.

KZAN Drops Country For Niche 29

KZAN/Salt Lake City, which had been Country since its sign-on in 1979, changed format to Transtar's AOR-based Niche 29 August 20. The station had switched from locally programmed Country to Transtar Country in May '87.

OM Kim Hall, who has been with the station since 1986 and will stay on to oversee operations, said KZAN will add a live morning show in the next 30-60 days and is looking for talent.

Explaining the format switch, which came two months after the station's transfer from owner John Webb to J.D. Mattus, Inc., Hall said, "We felt there was more opportunity for us here. KKAT has the Country audience sewn up, and we just couldn't take any shares from them with a satellite format. 'Niche 29' sounds great, and we think we can score well with it."

Jackson Signs With BMG

Top radio engineers tell what's wrong with Century 21 GOLDDISCS.

Recent published remarks by top radio engineers illustrate a major problem with Century 21 compact discs. It's the old 'garbage in, garbage out' theory from the computer industry. That is, if you take the same old oldies from vinyl (with compression, dynamic noise filtering, and electronic 'depopping') and just transfer them over to digital, they still sound the same: muddy and compressed with the absence of real dynamic range. Consider these quotes:*

> "We have some Century 21 discs and when I listened at home, I thought my processing had gone out the window. I took the CD into the studio and found the piano was distorted on the disc... It's the same old problem. It's a matter of who's mastering — it doesn't make any difference what the medium is."

— Dave McKenzie, Director of Engineering, CRB Corporation

"This problem has reached national proportions. When I called Denon to discuss this, the very first question they asked was whether I was using any Century 21 discs!"

> — Steve Davis, Special Projects Engineer, Clear Channel Communications

*excerpted from New Ideas in Digital Audio Technology, June 1988, Broadcast Marketing/Engineering. HOW THE DATGOLD OLDIES LIBRARY MASTERS THE COMPETITION. It isn't simply digital recording that improves the sound, it's a matter of who's mastering.

You have to have the masters! Paul Ward, DATGOLD Executive Producer, has spent years securing the original master tapes of thousands of oldies and has transferred them direct to digital, with equalization and phase correction as necessary. The result has to be heard to be believed.

WE'LL SEND YOU A DAT PLAYER AND DEMO TAPE TO PROVE OUR POINT!! If you're ready to dramatically improve your station's music sound, we'll be happy to provide a no obligation demo and the loan of a DAT player for demo purposes. Compare DATGOLD to Century 21's GOLDDISCS, or any other oldies library, and you'll hear an incredible difference. And, that's no distortion.

MCA's Roth To Resign

T hears that Myron Roth will not accept his recent promotion to Sr. VP of the MCA Music & Entertainment Group and has decided to leave the company by the end of this month.

KMEO/Phoenix GSM J.D. Freeman has been tapped as the GM who will lead crosstown KMLE in its assault on crosstown Country giant KNIX. Now, the burning question on everyone's lips is, "Who's gonna program KMLE?"

Assuming that those previous announcements of KMLE's going Country are true - there are conflicting reports - the shootout should begin October 1.

WCBM/Baltimore is back on the air - as a Gold format. The former Sports/Talk outlet went dark (5/27) when the entire staff walked out in protest of the station's repeated failure to meet its payroll on time. If WCBM had not returned to the airwaves by September 15, it would have risked losing its license, which expires 10/1

Incidentally, of the ten staffers currently employed at the financially-troubled station, nine were working at 'CBM at the time of the walkout.

KTWV/L.A. PD John Sebastian called the ST "fun-fone" to report that he's in the process of hiring a complete airstaff for the New AC outlet. T&Rs ASAP.

CKLW's Death Highly Exaggerated

Rumors that those legendary call letters CKLW were available turned out to be, like the news of Mark Twain's death, highly exaggerated. Here's the lowdown:

CKLW (AM) is still doing its "Music Of Your Life" thing. However, CKLW-FM no longer exists. Last Sunday (8/28), the station became CKMR, operating under the moniker "More 94."

TOO HOT TO HANDLE? - Behold the eyecatching cover for the "Nothing's Shocking" LP, the debut Warner Bros. effort from L.A. sin-sations Jane's Addiction. A photograph of a sculpture by group frontman Perry Farrell, the artwork has been deemed objectionable by an alarming number of retailers, including Musicland, Target, Camelot, Hastings, Lieberman, Handleman, and the Sound Warehouse. Considering that the original cover art for the first run of Geffen recording artists Guns N' Roses' "Appetite For Destruction" LP was also thought offensive enough to be recalled, this makes debut efforts from 1988 L.A.-based hard rock outfits two for two in driving the heartland's Obnoxi-O-Meter levels "all the way to eleven."

'Twas all accompanied by a "Mystery Man" promotion that starred CKMR morning dude Deano Day, who cruised around the Motor City in a white limo, tux, and dyed white hair, tossing out \$50 bills at each stop. With each picture of U.S. Grant was a business card that read "Everybody needs some More."

The skies will soon be filled with the sounds of a third, satellite-delivered, 24-hour country music network. This one will be based out of Nashville. Further details next week.

STREET TALK

Continued from Page 26

What a week for **Ed Levine!** Not only did he land the **KLOL/Houston** PD gig (see Page 3), he also was the proud recipient of one of **WXRK/NY** morning madcap **Howard Stern**'s coveted "F-Emmys." Levine's three-day war o' the words with Stern at the '88 Grammy awards ceremonies earned him the "Best Confrontation With Howard" award. When the Sternster called Levine to chat about the honor on-air, Levine graciously offered Howard a weekend overnight slot.

The fax is in and **Burkhart/Douglas &** Associates wish to dispel any notions that the organization is involved with **WQCD/NY**.

Don't Give Up Your Day Job

Scott Smith has signed on for overnights at **CFOX/Vancouver**, starting September 8. This would scarcely be earth-shattering news, if it weren't for Smith already having a pretty good gig in this little thing we like to call show business — as the bass player for **Loverboy!**

After nine years as an on-air personality, including the last three as PD, **Jeff Davis** has exited **WPFM/Panama City**, **FL** to do local promotion for **Elektra** in Houston.

Ending two years of legal turmoil, **Roulette Records** comptroller **Howard Fisher**'s convictions on two counts of federal conspiracy-to-extort charges have been overturned.

KLSX/L.A. morning cohost Marshall Phillips has resigned and will relocate to San Francisco. He's expected to be replaced by former WLLZ/Detroit air personality Roz. ST hears there may be further AM drive changes in the works as well.

WTVR-FM/Richmond dropped Country for Beautiful Music this Friday (9/2), leaving nearby WKHK/Petersburg, VA as the only FM Country outlet serving Richmond. WTVR (AM), which had been simulcasting with the FM, will remain Country, with the entire simulcast staff shifting to the AM.

Jem Records, which filed Chapter 11 proceedings just last week, now reports that it has wrapped up a refinancing package with Security Pacific bank.

Congratulations to **E/P/A** VP/Pop Promotion **Polly Anthony** — we're told she's **CBS**'s first female promotion VP.

Evils In Your Children's Bedroom

KSD/St. Louis morning star **J.C. Corcoran** will be a guest on the **Sally Jessy Raphaei** show set to air (9/7). The topic: "Evils In Your Children's Bedroom." Joining J.C. will be the Peters Brothers, two Minneapolis ministers noted for conducting mass album burnings. Other guests include an atheist, a minister who preaches that "Smurfs" and "Care Bears" are satanic, and the creator of a doll whose velcro hands can be pressed together to simulate prayer.

Radio group owner **Robert F.X. Sillerman** has signed a letter of intent to purchase the **Seltel** rep firm from its Canadian owner, the **Selkirk** company, for approximately \$16 million cash.

Airborne Records has hired former RCA Sr. VP Eddie Mascolo and former Mercury/PG Nashville Marketing Director Joe Polidor as consultants. Mascolo will coordinate the label's rock, pop, and Urban promotion efforts. Polidor will assist in the sales, marketing, and distribution areas.

Becky Cohee will be doing SW Regional promo for **IRS**, coming from a programming assistant post at **KEGL/Dallas**.

Major changes at WQOK/Raleigh, NC, as Curtis Downey comes in as GM from WIKS/New Bern, NC, replacing Mike Selinski. Also from WIKS comes new PD Caesar Gooding, who replaces Vinnie Brown. Meanwhile, 'QOK MD Jay Carneal is down the road and Candi Eastman glides down from WILD/Boston to do the midday shift.

Congratulations to **Pasha Records** President **Spencer Proffer** and his wife Suzanne on the birth of their son, Morgan Samuel (8/30).

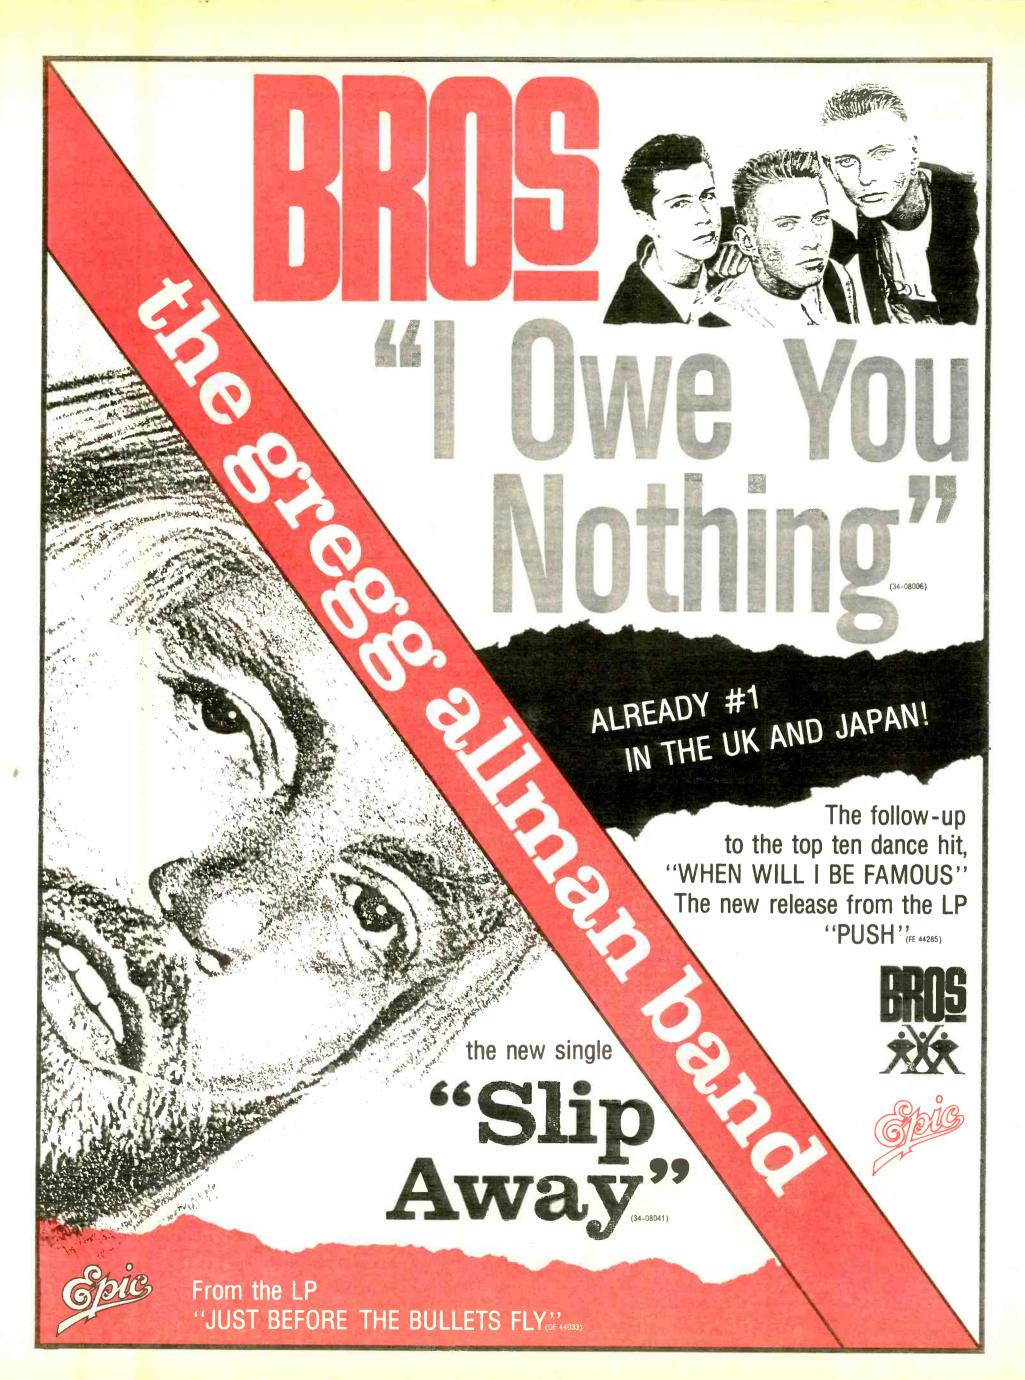

Radio industry attorney **Barry Skidelsky** has moved offices to 655 Third Ave., Suite 1100, New York, NY 10017. Phone him at (212) 818-0990; fax him at (212) 490-2932.

For the second in a series of command performances, L.A.'s most-exclusive "dayclub" — the **R&R** Conference Room — was the site for the pumpin' piano of **Atlantic**'s **Y Kant Tori Read.**

Radio's Greatest Bits

Attention radio archivists! As part of **R&R**'s gala 15th Anniversary Celebration, we're compiling airchecks of Radio's Greatest Bits from the past 15 years. Major league jocks, significant sign-ons and sign-offs, fantabulous format changes, prototypical publicity stunts, out# ** % in'-rageous moments — if you've got the tapes, we want them NOW.

So head for the production studio, dig through Mama's Closet, and send dubs of your station's Greatest Bits to the attention of your **R&R** format editor. Tapes must be received no later than Friday, September 30. Void where inhibited

All members of the national staff except Terry will be based on the West Coast.

Smith joined PolyGram in '86 as National Singles Specialist. He pre-viously headed RCA's National CHR Promotion department. Delatte was most recently with IRS Records, where he had been National Singles Director since '86.

Ellison joined the company last year as National Director/R&B Promotion. Before that he served as VP/R&B Promotion at Warner Bros. Watkins was most recently National Director/Promotion at Motown, and Terry, who will be based in Atlanta, was most recently Director/R&B Promotion for PolyGram.

Jackson was previously Local Promotion Manager/Houston for PolyGram, Lew, a 12-year Poly-Gram vet, was most recently National Director/Album Promotion, West Coast.

Anthony

Continued from Page 1 Anthony told R&R, "Setting goals is one thing, achieving them is another. E/P/A is a company that encourages and demands both. I'm proud to be associated with the people at E/P/A and CBS, and am honored by this appointment. Now, does anybody know of a great apartment in Manhattan?"

Anthony joined the Portrait promotion department in 1978. She was moved to Manager/AC Promotion for E/P/A in 1981, Associate Director/AC Promotion in '83. Director/National AC-Trade Liaison in '84, and then to Director/National Promotion in '87.

Hickman

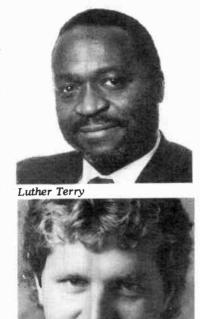

Continued from Page 3 part of the population here is Hispanic and black, and we have to play music for them. You just don't ignore these people, and I think SMN does.

"The 'Wave' format is very in-flexible," he continued. "We feel this market is a perfect setting to do this format - and do it right. The 'Wave' people have been totally uncooperative. Their reaction to our needs, wants, and the listener complaints that we've passed on to them has been, 'You have a con-tract, live with it.' I just can't run a radio station that way.

Hickman told R&R, "We've got a brand new airstaff, a brand new alignment on the format, and a brand new studio. I've sent out for the extra strength Anacin - we're all set. This is the most wonderful thing that could have happened for me. I raised the station from a pup. I know what turns the market on, and that's why I'm back in here again. The 'Wave' music mix wasn't on target here.

Prior to joining WXDJ, Hickman was Operations Director for WTIX/New Orleans and had programmed WIBR/Baton Rouge.

In the spring Arbitron, WXDJ ranked 23rd 12+ with a 1.4 and was 14th 18-34. In the corresponding Birch, the station posted a 2.4 to place 16th

No Four-Digit Books

Feuer disputed Kenney's fig-"We called numbers that ures. were four, five, six, and seven digits long," he recounted, "and we discovered that there were no fourdigit numbers in the field. Those four-digit numbers represented about five percent of the total numbers. There was no attempt to prevent people from winning at all."

Broadcast lawyer Jason Shrinsky said it would be unlikely Noble could lose its license to operate the CHR station if it came forward with all the facts. But he added the station could still be slapped with penalties up to a maximum of \$20.000.

Feuer said any disciplinary action toward KBEQ employees is unlikely at this time. "We're ex-

amining the extent of how that sloppiness took place," he said. "We're not going to punish human error, but if there was some attempt to defraud, there absolutely would be disciplinary action."

There are a great number of people in the broadcasting world with their own agenda, which is not necessarily the organization's agenda. Brazile's background also includes the post of medical consultant to the state of Louisiana

Levine

He combines skills as a tactician and strategist with the ability to handle people real well and make them want to kill for him.

Levine, who in recent months has been rumored to be a candidate for a number of PD openings, cited three primary reasons for taking the KLOL job. "First: the opportunity to work with Pat Fant, who is as creative as any GM I've ever come across. Second: the fact that the radio station is legendary, very successful, but still has a lot of room to grow. And third: Houston. I admit I was a bit skeptical, but I really fell in love with the city.'

Levine's appointment was greeted with some wariness by the record community. Under his direction. WPYX - like the bulk of the nation's AORs - has taken a classic-intensive approach. In contrast, Lambert has been very aggressive with new music, and KLOL's percentage of currents is one of AOR's highest.

Staying Current

Asked if he planned any significant musical changes, Levine said, "I would like to think people would give me a little more credit than that. KLOL is obviously a very healthy station. The currentintensive posture has worked very well in the market, and I have no intention of changing that. In fact, I think there's room for even more diversity. We really would like to be a beacon for the entire format, and we have the potential to do that. KLOL has proved you can get 25+ audiences while being very current - you just have to make sure you're playing the right currents.

Levine has spent the last decade programming rock 'n' roll in up-state New York. He was PD of WAQX/Syracuse for eight years before moving to WPYX in 1986.

including price. However, according to a radio broker familiar with the deal, Beasley will pay \$86.6 mil-lion for the stations in a stock purchase agreement.

"It's an outstanding buy for Beasley," said the broker. "The stations will have a cash flow of \$7 million this year, and the Los Angeles radio market is up 18% in cash sales for the first six months of this year compared to last year. Assuming the (radio ad sales) market grows at ten percent a year and KRTH can capture five percent of that money, which it should be able to do with the Oldies format, the stations will be worth \$200 million in five years."

RKO Radio Division President Jerry Lyman declined to comment on the WRKS and KRTH deals.

Under guidelines established by the FCC for the sale of the RKO broadcast properties, RKO must retain less than 75% of the sale price with the balance going to the competing license applicants. According to a source familiar with the KRTH deal, RKO will keep 70%, or \$60.6 million of the \$86.6 million. It is still uncertain exactly how much RKO will net from the WRKS sale

Earlier this summer the FCC subtly warned RKO to unload its stations by year's end to avoid being stripped of its licenses. Last month the Commission approved RKO's plan to sell WGMS-AM & FM/Washington for \$33.9 million. In July the company got the nod to unload WHBQ/Memphis and KHJ-TV/Los Angeles.

Smith

growth opportunity for our combo, and he's figured a game plan to maximize both facilities.'

Smith, who also spent time in sales at WAVA/Washington and is native to the Baltimore/Washington metro, said, "It's nice to be headed home. My immediate plans are to relearn the market and begin to grow with it. I believe this is one of the more attractive situations in the country, and I'm really loving the idea of working with Ragan Henry and Bob Hughes. My initial thrust will be toward expanding both stations' visibility and community involvement.'

A replacement for Smith at Y100 is being sought.

long as (PD) Guy Zapoleon is around, so I feel good about taking the job at WKTI. Like KZZP, WKTI is an institution in the market. It has one of the finest morning shows in America and an outstanding lineup in all other dayparts. My job is to go in and strengthen the efforts of the entire station and make WKTI even more dominant.

Fisher's replacement at KZZP is pending.

Using **Boinneville**'s contemporized Easy Listening format, **WRCH** scored its best numbers in three years. The station aired a locallyproduced **TV** spot, did some moderate outdoor advertising, and maintained an ongoing on-air promotion. It also recruited a new female air personality for afternoon drive. For the first time in recent memory, **WTIC** beat its FM sister in the Birch. AOR **WHCN's** lead over competitor **WCCC** was bolstered, and the Gold stations were off.

Helmed by PD **Robert John, WMC-FM** scored its first Arbitron victory in four years, breaking an 11-book number one string held by UC **WHRK.** In the Birch, WHRK was hit on the other side by UC competitor **KRNB.** Country-formatted **WGKX** hit record ARB and Birch figures for its five-year history.

While this market's ABB trends tend to be steady, the Birch results have displayed remarkable swings among the contemporaries. Examples: WPXY went 11.9-17.0-21.6-14.6-12.0; and WCMF moved 18.1-19.0-21.6-17.3-23.5. WCMF conducted a telemarketing campaign during the spring, enticing listeners to tune into the station's key song variation called the "Boss's Favorite Song." They also aired thousanddollar Thursdays, and geared up a bumper sticker campaign the last half of the book. Soft AC WVOR rebounded from a soft winter

Since its January 22 sign-on, Urban-slanted WCKZ has stormed past its CHR competitors for the top spot in the Birch, and number two in the Arbitron. Consulted by Jerry Clifton, Kiss 102 was particularly devastating to WPEG, which was knocked down two notches in the Birch, four in the ARB. PD Mike Beach said the station invested \$200,000 in TV and outdoor at the beginning of the sweep. Elsewhere in the market, WWMG's gains made the FM AC race much closer this time, and WSOC continued to lead the Country market decisively.

Winwood & Elton: **Tracking Their Appeal**

Fans' Age, Gender, Format Preferences

There's no doubt that the potential shelf life of individual albums has gotten longer – witness the length of time albums such as Def Leppard's "Hysteria," Debbie Gibson's "Out of the Blue," and the "Dirty Dancing" soundtrack have been on the charts. It has also become apparent that the length of pop artists' careers has expanded. Two examples are English gentlemen who have been on the music scene for 20 years, Steve Winwood and Elton John, both of whom are enjoying current chart success.

Winwood Perseveres

You've got to hand it to Steve Winwood: the man knows how to persevere. After a career spanning more than 20 years, which includes stints with the Spencer Davis Group, Traffic, Blind Faith, and Go (there's a hard one to remember) and a series of solo albums, he's finally made it to the pinnacle of number one success. Data indicates his stay there may be quite a long one

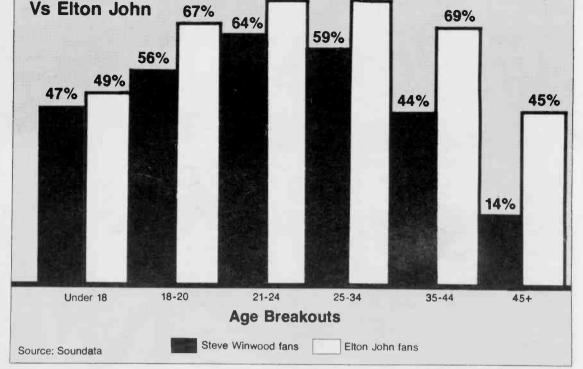

When the Street Pulse Group first tested Winwood with music consumers before the release of his new "Roll With It" LP, 50% said they strongly liked or liked him as an artist. Only five percent of those questioned said they didn't like him. Twenty-five percent had no opinion, indicating they weren't sure who Winwood was.

Males were slightly more positive than females; 55% of all the

"Of those music consumers who like Winwood, a much higher than average percentage of his fans own compact disc players."

males questioned strongly liked or liked Winwood. Positive numbers among females were in the high forties

Age segmentation revealed that Winwood's strongest attraction is among 21-34 year-olds. Among the younger members of that segment 21-24 year-olds - 64% are fans. The numbers are only slightly

77%

77%

lower for 25-34 year-olds: 59% of that total age segment said they like him.

Steve Winwood

A look at the education level of those who liked Winwood the most showed a segment with some college education reacting more positively than people who had either a college degree or only a high school diploma

Regionally, Winwood fares strongest in the Northeast part of the country. In the East his positive scores were nearly in the 60th percentile, while in the West - his his positive weakest region scores were in the 46th percentile.

Radio, Magazine Preferences

Despite Winwood's current CHR radio success, 31% of the positives cited an AOR as their first or second favorite, while an additional four percent cited a Classic AOR. The combined figure -35% – is higher than the 28% combined score for those who picked CHR and CHR/Urban stations. Fourteen percent of the Winwood fans gave the nod to an AC station.

Rolling Stone is a very important magazine with Winwood fans, 40% of whom had read or seen a copy in the 30 days prior to the survey. Only one magazine had been read by more of his fans in that time period: People.

"Winwood's strongest attraction is among 21-24 year-olds. Among the younger members of that segment — 21-24 - 64% are fans."

Age Of Technology

As a direct result of the age of those music consumers who like Winwood, a much higher than average percentage of his fans own compact disc players 25% higher than among music consumers in general. Radio stations planning to do giveaways should keep this in mind

The Michelob folks are getting a good bang for their bucks with Winwood. His enormous current popularity notwithstanding, Winwood's fans are beer drinkers, more so than the average music consumer. "Roll With It" and his new single "Don't You Know What The Night Can Do," which is featured in a Michelob TV commercial, are encouraging new fans to discover and purchase his album and concert tickets

Who's Buying

Initial feedback indicates that two-thirds of the Winwood album purchases were made by women. The age of these buyers concurs with the numbers mentioned previously: strong 21-34 on up to 35-44. Sales were strongest in the Northeast, which also echoes earlier statements

Since CHR has a strong appeal for teen females, expect to see an

increase in awareness among that particular segment. Winwood's core, however, remains firmly entrenched among those consumers 21 years of age and older

John Strikes Back, And Back, And . . .

John's first US album was 1970's "Elton John," which yielded his first hit single, "Your Song." Un-

like Winwood, John has had many number one singles and albums. Sixty-six percent of the Street Pulse survey sample said they strongly liked or liked John. and nine percent said they didn't like him. Compared to Winwood, there are fewer people who don't hold an

opinion or don't know John; only 17% fall into that category One difference between the two artists is that John's appeal is stronger with females than with males. Sixty-eight percent of the

females sampled are fans, com-

pared to 65% of the males

"John's appeal is stronger with females than with males. Sixtyeight percent of the females sampled are fans, compared to 65% of the males."

John's fans and Winwood's fans are the same age. John's strongest age breaks are 21-34, with skew toward 35-44 year olds. His overall scores in those age categories are 10 points higher, on average, than Winwood's.

Audience Preferences

Radio format preference for John is evenly split CHR/AOR. One of four fans favors the former. and one in four favors the later. The third most popular format among Elton fans is AC. The magazine preferences for Rolling Stone and People found among Winwood's fans holds true here as well.

NEW ARTISTS LACK FAMILIARITY QUOTIENT **Consumer 'Comfort Zone'**

Obviously, artist familiarity is directly related to those albums music consumers do or don't purchase. But just how much? In a recent Street Pulse Group poll, ten percent said they didn't have to hear any music from a new release by a familiar artist before feeling comfortable enough to purchase the product

Additionally, seven out of ten said they'd buy an album by an artist they've previously heard based on listening to one or two songs. In total, four out of five active music consumers will purchase an album by an artist such as Steve Winwood based on the first two singles.

Just the opposite is true in regard to new artists. Only 30% of the active buyers surveyed said they would buy an album from a new artist or group upon hearing one or two songs. And not one of them will purchase music by a new artist without hearing a song from the album.

Two-Single Purchase Indicator

Forty-seven percent said they had to hear between three and four songs before they felt comfortable enough to make such a purchase. That leaves 20% of active music consumers who wouldn't feel comfortable enough to make a new artist purchase until they'd heard at least five songs from the album.

five songs from an album while waiting for the active music consumer to react and make a purchase? Currently, not many. This is a very important point. Many stations that look at local record retail lists as an airplay indicator (or "vindicator") do not take into account that the consumer needs a socalled "comfort zone" of more than two singles before he makes a commitment. Radio should look for more subtle retail indicators before making a decision not to continue playing additional singles by a new

How many radio stations will play

if you have played a new artist's first two singles, gotten requests, and also picked up street talk from your retail record clerks, stay the course. You've made an investment: let it mature.

PROMOTIONAL UPDATE #3

HUMAN RIGHTS NOW!

Small Markets Promote In A Big Way

Promotional momentum for the U.S. leg of the Human Rights Now! Tour is building at breakneck speed, and it's not just the larger markets that are developing innovative promotions. The tools provided by Reebok have enabled stations in smaller markets to create promotions and events that are serious audience grabbers

In Springfield, Illinois, home of the University of Illinois, WPGU sales/promotion manager Leslie Cole has created a promotion that is targeted directly toward the collegiate audience. According to Cole, Amnesty International has traditionally received strong support on the U of I campus, so any tie-in with the Tour was a natural for the station.

Beginning Aug. 29, WPGU kicked off a multi-level promotion involving call-in contests, petition signings, PSAs and a grand prize trip for two to the Buenos Aires Tour finale

Initially, the station will announce a daily "sixpack" of songs including at least one of the Tour's core artists. Whenever the "six-pack" is played, the first listener to call in and identify all six songs will win an album from one of the Tour's artists and automatically be registered to win an all-expense-paid trip for two to

the Buenos Aires concert date.

All qualifiers will be invited to a Buenos Airesthemed party at the end of the promotion where the grand prize drawing will be held. Runners-up will receive Reebok shoes and other prizes related to the Tour

Throughout the promotion, WPGU will run the Westwood One-produced PSAs promoting the AI "800" number for the Audio Declaration Drive and AI membership information. Plans are also being finalized for a petition signing drive on the U of I campus cosponsored by the station and the local AI chapter.

The objectives and activities of AI are important to many of our listeners," said Cole. "This promotional program is sending a clear signal to them that we support the same issues and philosophies. While the Tour is an exciting international event, our promotion really has evolved into an awareness generator of AI. We've been particularly impressed with Reebok's high level of support but low-key identification with the event.'

Benji Norton, program director at WMFX, Columbia, South Carolina has pulled out all the stops in promoting the Tour and AI. A promotion involving station contests and local Reebok retailer tie-ins began Aug. 30 and will run through Sept. 14.

Each day during the promotion an "artist of the

day" (one of the Tour core artists) will be announced at 7:10am. Whenever a song by that day's artist is played, the tenth caller to identify the performer will receive a cassette of the artist, a Tour merchandise item, or a pair of Reebok shoes and will be automatically entered in a drawing for an all-expensepaid trip for two to the Philadelphia concert date plus \$102 cash for the trip.

Simultaneously, up to ten Reebok retailers in Columbia will be running in-store promotions for customers to register to win another trip for two to the Philadelphia concert, receive information on AI and sign the AI petition.

"The basic issue of human rights is important to many of our listeners and to WMFX as well," said Norton. "For that reason alone, a promotion for Human Rights Now! is worthwhile. The caliber of the Tour artists and the excitement the event is generating internationally is icing on the cake. It's great to be a part of this."

MADE POSSIBLE By THE RECOOK FOUNDATION

Reebok Lets U.B.U.

Celebrating the right of individuals to freely express their views and personalities has become the focal point of Reebok International's marketing campaign and corporate philosophy.

The company's role as underwriter of the Human Rights Now! Tour underscores this very real commitment to individuality and freedom of expression.

According to Angel Martinez, vice president of business development for Reebok, "Our commitment to this Tour represents our support of the goals and objectives of Amnesty International. This is neither a money-making nor sales-oriented venture for us. We have intentionally adopted a very low profile since our primary intent is to assist Angel Martinez

AI in generating awareness of its activities and increasing membership in the organization. We believe the Tour serves as a strong reinforcement of what Reebok stands for as a company.'

Radio was selected as the Tour's primary promotional medium because of the flexibility it offers.

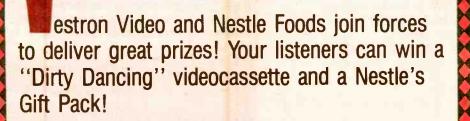

The theme and variety of these local market promotions tend to supplement our national print and television advertising campaign, 'Reebok Lets U.B.U.'

"Reebok has provided limited promotional guidelines and maximum promotional options and merchandise to radio. Our intent was to create the opportunity for all participating stations to design programs that best suit their individualized personalities and needs," said Martinez.

"Radio's decisionmakers realized immediately that the Tour and its objectives were solid, thanks to the involvement of Amnesty International, the Tour's core artists, Westwood One, and R&R - all of whom have established remarkable levels of credibility in their respective areas of operation. Human Rights Now! would have been a far more complex sell without their involvement," he said.

The level of radio's support for the Tour, AI and the audio declaration has exceeded Reebok's wildest expectations. "While the Tour itself represents an exceptional promotional opportunity because of the caliber of artists involved, not a single participating station has missed the mark in supporting the real intent of Human Rights Now! - promoting the right of people around the world to determine their own destiny and to speak their views without fear of retribution.

"No one has trivialized the event or ignored the Tour's primary goal. And for that alone, Reebok is proud and grateful to have become so closely involved with radio," said Martinez.

Each winner will also receive a videocassette of either "Platoon," "Hoosiers," or "Prizzi's Honor." And to make the deal even sweeter, there's a tasty grand prize of all four films and a new VCR!

Campaign Shouting: Songs About The Elective Process

I have been known from time to time to raise my head from an auction list of old records and note that it's raining outside, or the sun has gone down, or the Olympics are being staged. So it was not a total shock to friends and confidantes when I suddenly realized the other week that another quadrennial event, a presidential election, was underway.

This flash of insight led me to the subject of elections in song. Another catalyst was the first non-CD release on the new Dunhill label, a single by the late Harry Chapin entitled "I Don't Want To Be President." (I don't recall anybody mounting a draft campaign for him, but that snide aside aside, the song has a present-day relevance and does make a good jumping-off place for this column.)

Wonder what kind of oath Alice was swearing

ON THE RECORDS

Little Steven: Not a "party" animal

I don't want to start any Fairness Doctrine problems, so I'm not going to mention any candidate-advocacy records (records pro-Carter, pro-Goldwater, and probably proanyone up (or down) to Lyndon LaRouche or Harold Stassen have been released, in some ephemeral fashion, at least). There is at least one highly anti record around, Little Steven's Reagan tribute "Vote That Mutha Out" (original title when it was released in Europe, changed to "Vote" as the flip side of the grammatically atrocious but deeply felt "No More Party's." in which Mr. Van Zandt berates

www.americanradiohistory.com

Van Zandt stands for the flag and motherhood

Democrats and Republicans in equally fervent fashion).

On more neutral ground, the Radiants' 1965 hit "Voice Your Choice," although concerned with more personal matters, could be adapted to election fever. Tommy Boyce & Bobby Hart's "L.U.V. (Let Us Vote)" was directly concerned with the elective process, being part of the 1968 campaign to win 18-year-olds the vote (the eventual victory of which effort has certainly wreaked radical changes in our electoral decision-making. But I digress).

One campaigner whose election

Tommy & Bobby campaign for the female youth vote

would have wreaked radical changes, had anything so preposterous transpired, was Alice Cooper, who certainly did his part with the 1972 hit "Elected." There were a few third-party draft attempts, like "Ringo For President" by some dimwitted girl group or another (historical accuracy is a way of life in this column), or the Royal Guardsmen's even more imbecilic "Snoopy For President," but Alice's platform (which was under his shoes, if I recall) must be regarded as the most meaningful rock & roll assault on the presidency.

John Lennon's Love Pang(s) Revealed

nother side of JOHN LENNON was revealed to us this week by his onetime assistant and lover, MAY PANG, who found herself visiting London at the height of controversy surrounding the ALBERT GOLD-MAN biography. Speaking to us in positive terms about their 18-month relationship, which lasted from mid-1973 to early '75, Pang – who also wrote an earlier Lennon expose entitled "Loving John" - says: "In lots of ways, the Gold-

man book title, 'The Lives Of John Lennon,' is true because each person had a different time with him, and he reacted differently (to each). He always used to say he was a chameleon.'

Pang says she has only read excerpts of the Goldman book, but reveals: "Of the bits that I've read and the things I know, I can only comment more or less on my own, and that's anywhere between 90 and 95 percent true." She states that during the time she spent with him, there was no evidence to support Goldman's allegations of Lennon's homosexuality. But with regard to the book's suggestion that Lennon suffered from anorexia, Pang remembers when she worked for him and YOKO that he used to make himself sick after a good meal. Later on, two years before he died, she was shocked to see him on a macrobiotic diet that left him weighing just 135 pounds.

An interesting fact that emerged during our conversation was that it was Pang's voice and not Yoko's that's featured on "#9 Dream."

And Still More On The Nurk Twins.

Meanwhile, longtime BUDDY HOLLY fan PAUL McCARTNEY who recently urged people to boycott Goldman's aforementioned book - has teamed up with Holly's band, the Crickets. Macca has produced "T-Shirt," a new single on CBS, for the band that helped the BEATLES choose their "insect" moniker, with an album of the same title to follow. The Crickets celebrate with a month-long British tour beginning on September 9.

And still more on the Lennon front . . . This month's "Imagine" exhibition in North London will attempt to show the many sides of the former Beatle through the media of art, photography, music, and biography. Taking place September 20-25, the exhibit will feature Lennon's own art as its centerpieces, presented in a series of three: "This Is My Story Both Humble And True," "Bag One Continued," and "Dakota Days." Archive material relating to his life is being presented by the Observer Sunday newspaper, co-promoter of the event along with Virgin. The latter will sell various biographies as well as the music of Lennon and his contemporaries.

Approximately once a month, Pollstar publishes directory information in place of its weekly touring information. The Concert Pulse chart and New Tours information will return next week

And Now For The Other "Greatest Rock Band

In The World . . . " Musicians on KEITH RICH-ARDS's forthcoming solo LP, "Talk Is Cheap," include former LABELLE vocalist SARAH DASH and funk legend BOOTSY COL-LINS. In a recent magazine interview, Richards said nothing to deny the rumors of a ROLLING STONES album and tour next year, but he did say he'll be touring on his own with a band he'll name the X PENSIVE WINOS later this year. The magazine reported that MICK JAGGER stopped by Richards's Manhattan home three weeks ago to listen to the new solo LP. "He talked most of the way through," said Keef. "But he does that with everything."

moss.

Sixties legend SANDIE SHAW has assembled an interesting list of musicians for her new LP, "Hello Angel," which is due in late October. Two songs have been penned by MORRISSEY, including the first single, "Please Help The Cause Against Loneliness," out in the UK on September 26. The album is produced by Morrissey's collaborator, STEPHEN STREET. CHRISSIE HYNDE is guest vocalist on one track, and DEON ESTUS took time off from GEORGE MICHAEL to play bass. Other guests include NEIL CONTI of PREFAB SPROUT, RICHARD COLES of the COMMUNARDS, and KEVIN ARMSTRONG of IG-GV POP's hand. In addition, the track "Cool About You" was written for Shaw by the JESUS AND MARY CHAIN.

Good Vibrations . . . BRIAN WILSON will be one of 18

'The Ballad Of John & May?' Nah, the rhvthm ain't right .

Other acts on the bill include LEVEL 42, BELINDA CARLISLE, NATALIE COLE, CHRIS REA, and SUZANNE VEGA. The event will be filmed for worldwide television, and both Showtime and MTV are expected to run it in the US.

On a more downbeat note, a fan injured at the Donington Festival is still in serious condition at Nottingham Hospital. IRON MAIDEN the headliners of the festival -

have sent messages to him, as well as condolences to the familes of the two young men who died at the concert.

New Releases

SIOUXSIE & THE BANSHEES' new "Peepshow" LP, now in the shops, features their last UK single, "Peek-A-Boo," and the followup, "The Killing Jar," which is due in the shops on September 19. The UK release for ROBERT PLANT's "Ship Of Fools" single is Monday (9/5). "Helen Of Troy" is on the B-side, and the 12-inch features a live version of "Heaven Knows." A 3-inch CD is also available, featuring live versions of "Helen Of Troy" and "Dimples".

Compact The Russians Are Rockin'! The Russians Are Rockin'!

Glasnost is obviously still a strong word in the music world. Last weekend (8/26-28) saw the first international rock festival ever held in the Soviet Union at the Tallinn Amphitheater in Tallinn, Estonia, Sponsored by Radio One (Finland's largest commercial radio station), "Glasnost Rock '88: The Tallin Concerts'' featured several Western acts, including Public Image Ltd., Big Country, Steve Hackett, and Leather Nun, as well as bands from Italy, Scandinavia, and the Eastern Bloc. The free concert also featured 12 Soviet acts, many of which had to rely on an underground network to distribute their music until now. Radio One filmed the concerts for a documentary to be released by the end of the year. A record release is also planned.

Meanwhile, 20 top American songwriters are planning to spend three weeks in the Soviet Union in mid-October, collaborating with 20 of their Soviet counterparts. The "Songwriters' Summit" is being subtitled "Music Speaks Louder Than Words," and those presently scheduled to take part include Gregory Abbott, Michael Bolton, Todd Cerney, Desmond Child, Paul Chiten, Frannie Golde, Albert Hammond, Kelly & Steinberg, Jerry Knight, Dennis Lambert, Lieber & Stoller, Barry Mann, Michael Masser, Pamela Phillips-Oland, Franke Previte, Alan Roy Scott, Dianne Warren, and Jimmy Webb.

An album featuring the best work resulting from the songwriters' junket is being planned for early spring '89, and will feature top American and Soviet recording artists, record producers, session musicians, and vocalists. Among those scheduled to participate are Aerosmith, Autograf (USSR), Jellybean Benetiz, Michael Bolton, Karla Bonoff, Peter Bunetta, Judy Collins, L.L. Cool J., Emmanuel, Jay Graydon, Waylon Jennings, Knight & Zigman, Dennis Lambert, Michael McDonald, Nick Martinelli, Hiroko Minato, Brenda K. Starr, Starship, the Judds, Tiffany, and Time Machine (USSR). The final phase of the junket will be a live televised concert of the best and brightest of these new Soviet/American collaborations.

Short Cuts

• ASCAP recently awarded \$1.1 million to writer members of the organization for 1988-89. The annual awards - which are in addition to standard royalty payments - are given to reward writers whose works have unique prestige value, as well as to compensate those whose works are performed in mediums not surveyed by the organization

• DAVE EDMUNDS is producing the forthcoming LP by his formerly estranged ROCKPILE mate, NICK LOWE.

• Warner Bros. is planning to release R.E.M.'s first album for the label on November 8, which also happens to be election day.

• CROSBY, STILLS, NASH & YOUNG have tentatively set the end of September for the release of their reunion LP. Recorded at Young's California ranch, it's their first project together in 14 years. Meanwhile, DAVID CROSBY is working on a solo project for A&M, as well as his autobiography, "Long Time Gone," which Doubleday will publish this fall.

 JOHN LENNON will receive his star on the Hollywood Blvd. "Walk Of Fame" in front of the Capitol Records building on Friday, September 30 at 12:30pm. Capitol has set October 4 as the release date for the 21-song, double soundtrack album accompanying Warner Bros.' forthcoming "John Lennon: Imagine" documentary. The records feature two unreleased tracks: "Real Love" and a rehearsal version of "Imagine."

. In other Fab Four news, Capitol and EMI Records (UK) have announced the coordinated worldwide release in October of a boxed set including the BEATLES' entire studio works. Released in all configurations (CD, LP, and cassette) and duplicated from digital masters, the collection will feature all 15 Beatle albums released on CD, including the two "Past Masters" volumes.

. LOU REED's forthcoming LP, his first for Sire, is being produced by his former drummer, FRED MAHER. Maher now plays with SCRITTI POLIT-TI, and also produced the new INFORMATION SOCIETY single.

· BONO recently said that U2's forthcoming "Rattle & Hum" -- which will now be half live material/half new studio recordings - is the band's "first rock 'n' roll album.

• BONNIE RAITT has signed a new contract with Capitol. Her LP is set to be produced by DON WAS of WAS (NOT WAS) fame. No word yet as to whether it will include the songs she recorded last year with PRINCE.

. The DOORS were recently picked as L.A.'s greatest rock band in an informal survey of 34 music industry insiders by the Los Angeles Times. The BEACH BOYS placed second, followed by the EAGLES, BYRDS, and BUFFALO SPRINGFIELD, the latter band tying with VAN HALEN for fifth place

• CARLOS SANTANA has put together three members of his original band - GREGG ROLIE, CHEPITO AREAS, and MICHAEL SHRIEVE - for his new tour. Santana is also releasing a three-disc anthology titled "Viva!" this fall to celebrate his 20th anniversary of recording. The LPs will feature greatest hits, live cuts, and previously unreleased tracks, spanning the period from Woodstock to the present.

• HERB ALPERT is featured on a track of the debut LP by the WAGONEERS.

acts scheduled to perform at this year's "Ibiza 92" music TV festival on September 30 and October 1.

CAREFUL ODOR FRIES, SIR?

Horseshoes & English: Close Counts

If you ever begin to doubt your own announcing ability, take a cruise through the real world and hear English as she is spoke by the rest of the natives. At a burger joint drive-thru, I ordered two quarter-pounders and a chocolate shake; what came back out of the speaker sounded like, "Took a ponders, chalk shay, yawl careful odor fries?"

While telling the girl I didn't careful odor fries, I got an idea for a feature story, a humorous one in which I would simply go around to different drive-thrus and roll tape on my good brothers and sisters who, like me, get paid to speak into a mike. Taking a gulp of the chalk shay, I realized that speaking English is like having sex: it can be done professionally with no formal training.

Ain't it marvelous that in either case, language or lovemaking, regardless of how low the skill level. the end result is almost always achieved?

Language Permutation Back to English. My alltime fav-

orite permutation of our language is a fairy tale entitled "Ladle Rat Rotten Hut," written around 1940 by a Miami University professor of French named H.L. Chase, to demonstrate the importance of intonation in language. Taken individually, the words are nonsense; given the right emphasis and rhythm, the sounds of the words jell to tell a familiar story. I quote the first paragraph of Prof. Chase's handiwork: "Wants pawn term, dare worsted ladle gull hoe lift wetter murder inner ladle cordage, honor itch offer lodge, dock florist. Disk ladle gull orphan worry putty ladle rat cluck wetter ladle rat hut, an fur disk raisin pimple colder Ladle Rat Rotten Hut.'

To some people, Chase's wrongwords version of "Little Red Riding Hood" is hilarious, but don't feel bad if it doesn't make sense to you, for he says some people never get the gist of it.

Chase got his whimsical idea early in World War II, when America had rationing. "I thought about what would happen if we had to ration language," he said. "If our words were cut in half, we'd have to get by with other words."

If you would like to read more of the story, including the exciting parts involving the wicket woof at Groin Murder's ladle cordage, send me a self-addressed, stamped envelope, and I'll sneak you a copy through the Xerox machine.

As for my keen feature story idea about the mumblers at drivethrus, you can go ahead and steal it if you want. I don't think I'll ever get around to doing it because it would be too much work. There's never a traffic jam on the Extra Mile, is there?

Like Edwards, Rybak stressed the need to pay parttimers a good salary. "Union scale in Connecticut is around \$7.50 an hour, but we pay up to \$10 an hour to start. He's got it made, so why should he want to go fulltime?"

eager for more on-air time.'

On-air consistency is also a critical KC101 criterion. Rybak, who works closely with his parttimers to perfect their talent, explained, "I'm a big believer in critiquing their tapes as often as possible, because we want consistency on the weekends. The trick is finding parttimers who are compatible with the rest of the station.

"Another way we keep a consistent weekend sound is by mixing fulltimers with parttimers, instead of using only parttimers on-air Saturdays and Sundays. To familiarize them with the audience I also send parttimers to outside appearances and promotions. This attitude makes for a winning team spirit.'

Lousy Pay, Lousy Hours

Jack Armstrong takes a very keen interest in KFXD's parttimers and receives loyalty and tremendous effort in return. "I hear from a lot of people who want to get a start in broadcasting," he said. "Boise has a longstanding reputation as a training market. In fact, my three weekenders are all first-time radio people.

"They were all willing to start at almost nothing, work lousy hours and, most importantly, learn and grow. Attitude is very important. You can teach skill, but you can't buy a good attitude."

Armstrong's one-on-one time with his weekenders is regular and intense. "I go over airchecks with them twice a week. The first time I tell them what I think is wrong. Later in the week we listen to the same aircheck, only this time they point out a few things they need to

Party your way to the top.

Open House Party is the hot live CHR weekend show that's beamed coastto-coast via satellite on Saturday and Sunday nights. It's got an intense music mix, star-studded interviews, live requests, outrageous contests, and a spontaneous kind of fun canned shows just can't touch.

It's playing now in 27 marketsalthough that figure is about to double. And ratings are up on every station.

"We get real strong street talk. Open House Party is an absolutely fun show to listen to. John Garabedian is a magic guy who makes Saturday and Sunday nights sizzle in Buffalo." Larry Levite, Pres/GM, WMJO, Buffalo

"Open House Party is the biggest show on CHR radio today. Our listeners think it's our own show, and we're selling it as prime time. It definitely pays to party". Sunny Joe White, National PD, Pyramid Broadcasting

"I came in on the following Monday after we added the show, and our entire staff was raving to me about it. Open House Party sounds big, sounds live, and sounds like part of my station." Leslie Fram, Program Director, WABB-FM, Mobile

improve upon. It really reinforces the positive things about their onair performance.

"My parttimers are heard almost exclusively on the weekends. I'm cautious about using them during the week, although we have one parttimer named Wombat who's almost a swing man. He works with me on the morning show and also does fill-ins where needed. I got him from across town at KIYS. "Another of my parttimers, 17-year-old Victor Fox, is a walking technical whiz in addition to being good on the air. My other weekender, Rick Sable, has always wanted to be in the biz. He proved himself on overnights, and now he's going to do his first daytime shift on Sundays from noon to 6pm."

Armstrong believes communication is the key to his parttimers' growth. "They're not here every day, so it's vitally important they be kept up to speed on everything that's going on since they're not a part of the general information flow. We also have a weekly jock meeting they're expected to attend."

While a lot of cash may not be flowing into his parttimers' pockets, Armstrong is generous with freebies like concert tickets, albums, cassettes, and CDs. "We have a fraternity atmosphere at KF95, but we work real hard," he said. "Everyone looks forward to coming to work. My parttimers feel in synch with the station, because I've got an open door policy. They're encouraged to bring me their input."

Creating Effective TV Commercials

Whether television is already part of your marketing strategy or you're thinking about using the boob tube for the first time, this column is especially for you.

Given the tremendous costs involved with running a TV campaign, it's essential you do everything you can to ensure a commercial's effectiveness. Steve Stockman has been helping stations do just that for several years, first as Promotion/Marketing/Advertising Director for WAAF/Worcester and parent company Katz Broadcasting and now as President of Framingham, MA-based Custom Productions. Here is his step-by-step approach to creating TV commercials for AOR.

Step 1: Establish **Campaign's Goal**

In 25 words or less, describe your

goal for using TV to market your radio station. If you don't know exactly what your goal is, neither will

your target audience. • Example: "Our goal is to increase sampling of the new WXYZ morning show.

> **Step 2: Develop** 'Form Criteria'

"Form criteria" are the key attributes of a TV campaign that will work for your station. Here you are looking at the form of the spot, not its content. Each idea generated later will be held up to this list of descriptors. Ideas that don't do all the things on the list must be revised or thrown away.

The question to ask yourself is: What things must a commercial do if it is to work for my station? Here are some possible form cri-

teria: • It must support the "content criteria" (described below).

• It must be unique; not like another commercial, not like another

Classic CD Wars

AORs and CRs began marketing classic CDs last year and have experienced uniformly excellent results. Last Christmas, for example, several stations found the CDs actually outsold many core artists' current releases.

station

Intrigued by the concept, KSHE/St. Louis decided to get in on the fun. Promotion Director JIm Marchyshyn called Dublin, Ohiobased Discovery Artists, the primary source of such CDs. However, Marchyshyn learned to his chagrin that the company was already working with another station in the market.

"When I was shut out of there, had to scramble rather quickly,' Marchyshyn recalls. "It was time to get down in the trenches, go head to head, and may the best station win

Marchyshyn found the way to win sitting on his desk. Coincidentally, an MCA classics album had just ar-

Quick-thinking — along with a little luck — enabled KSHE to rush this CD out before the competition. It has two songs in common with the 'GTR CD: the James Gang's "Walk Away" and - naturally - Lynyrd Skynyrd's immortal "Free Bird

This is the second CD WGTR/Miami has produced with Discovery Artists. The station sold ads (on both the artwork and the CD itself) to Coke and a local stereo chain. Ironically, two of the "classics" on this CD have recently charted: "Green-Eyed Lady" and "After Midnight."

rived to be used for giveaways. KSHE got permission to repackage it as "KSHE 95 Rock Classics (Volume 1 & II)." Priced at \$7.95 each, the CDs have sold briskly since being rushed into KSHE's "Schtuff" outlets

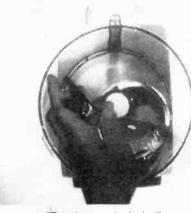

As of this writing, Marchyshyn still didn't know for sure what station had forced him to seek another source for the project (although it's a pretty safe bet it's Classic Rock KSD). "Whoever it was, we beat them to the punch," Marchyshyn says. "And to me, that's the most important thing.

Fish Brains For Breakfast?

What do a dead fish, a food processor, and the KGB/San Diego morning show have in common? They're all part of an outrageous - some might say sick - TV spot produced by Steve Stockman.

Announcer: "This is your brain in the morning." (A large dead fish falls onto a tabletop and lies there.)

Announcer: "This is your brain in the morning while listening to Berger & Prescott on 101 KGB FM." (The hands put the fish in the processor.)

Berger & Prescott

Announcer: "This is Berger & Prescott, mornings on 101 KGB FM." (A pair of hands plunk a large food processor onto the counter behind the fish.)

(The processor is turned on.)

Announcer: "Listen to Berger & Prescott. An outrageously funny morning show

• It must be credible to the target audience; something they will care about.

• It must be consistent with your station personality.

• It must make the call letters and dial position memorable.

• It must create talk. • It must be humorous

Step 3: Develop

'Content Criteria'

"Content criteria" are exactly what messages you want the audience to get. These messages can be divided into two groups:

• Thesis Statement: Just as with radio spots, TV commercials that try to cover too many topics in 30 seconds are doomed to failure. The thesis statement is the main idea of the commercial, summed up in one sentence, which tells the one message you are trying to convey to your target audience.

www.americanradiohistory.com

An example of a thesis statement: "The new WXYZ morning show at 97.5 FM plays more nonstop rock in the morning."

messages or bits of information you would also like to communicate to the audience if you can fit them in without detracting from the main idea. If a sub-theme supports and works harmoniously with the thesis statement, leave it in. If it's clutter, get rid of it.

Possible sub-themes • The names of the WXYZ morning team

• Hits from Bruce Springsteen,

Van Halen, Phil Collins · City's number one morning

show in a recent poll Sub-themes don't necessarily end up in the copy of the spot. They may be represented by on-screen graphics, background music, or props.

Step 4: Create!

(Photos copyright 1988 Custom Prod.)

Use what works best for you to go wild in creating new ideas for your station's campaign: brainstorming sessions, encounter groups, meditation, "Twister," old movies, ten-day fasts ... whatever. Use the rules of brainstorming: go for quantity of ideas, without judging how good or bad they are. When you have a lot of ideas down, then you can weed through them.

One hint: the more people you involve in the initial phases of creative, the more good ideas you'll end up with.

Step 5: Compare Creative With Criteria

Creative ideas and rough scripts literally should be checked off against your form and content criteria. Ideas that fail on any criteria Continued on Page 56

• Sub-Themes: These are other

They said Classic Rock would never work, would never last. Five years later, we're still consistently proving them wrong.

Now, they will probably say the same things about the new format from Media Strategies:

format from Media Strategies: "The Edge."SM The first exciting new format in years targeted to a different, modern state of mind. A young audience dissatisfied with conservative AOR and wimpy, dance-oriented Top 40.

"The Edge." A unique new format consisting primarily of new music and 80s rock that's on the cutting edge. Groups like U2, INXS, Talking Heads. Plus newer acts like the Smithereens and Midnight Oil.

"The Edge." Already researched, with logos and production packages ready. To give stations just that. There's nothing so powerful as a format whose time has come.

should be revised or trashed. Don't let anyone talk you into compromising your standards or getting off the track you established earlier in the process. If you want to change the criteria you set up, change them across the board. Making exceptions is the first step on the road to bad creative.

Step 6: Pick A Winner Ideas that meet your criteria should work for your station. Revise and polish the ones you like best into finished scripts for consideration.

If you are going to use research to help you make your final decision — which is highly recommended — produce story boards and test the spots you like best (the ones with which you feel most comfortable.) Don't test a spot you hate or believe deep in your gut is wrong for the station. It might win.

PROMOTION REVIEW

Spicy Summer Summaries

The monthly promotions review is chock full of tasty tidbits from cereal to seafood this time around. Feel free to adapt these idea starters from around the country for your own needs.

Denver's Frosted Flakes

Jacor's KOAQ/Denver announced the arrival of "Q103 Morning Flakes" cereal in all Denver metro Safeway grocery stores early last month. Sixty area stores stocked 24,000 boxes of the morning mainstay.

Sporting colorful caricatures of AM drive show hosts **Dave & Abby** (5:30-10am weekdays), the 12ounce boxes sell for \$1.03 to correspond with the station's dial position. According to Q103 Promotion Director **Kristi McCauley**, the price is a real bargain. "We're supposed to make money on this, but I really doubt we will," she said. "The cereal costs 85 cents to make, and Safeway keeps the rest. We did a bit where we compared prices of other cereals, and \$1.03 is the lowest price on the shelf."

Although the station promoted the fact that the "Flakes" were available for sales, listeners initially were skeptical. Said McCauley, "They found it hard to believe Safeway really had it in stock, until they went to the stores and saw it. Sales have actually been quite good." Q103 Morning Flakes hit Denver
Appetites satisfied at WRRM & KEX food festivals
KSSK dishes out 100 grand to one listener
WKSZ gives away 10,000 Manilow tickets
\$2100 buys two historic Cub tickets

The promotion is being supported by a billboard campaign, remotes from Safeway, and on-air cereal giveaways. The benefits of listening to Q103 (morning show, traffic reports, giveaways, etc.) are listed on the back of the boxes.

Portland's Big Bite

Approximately 200,000 people attended the fifth annual Portland "Bite," Oregon's largest outdoor food festival. The event, sponsored in part by Full-Service KEX, ran three days. Mayor and Mrs. Bud Clark opened the festivities August 12. Admission was free, but a onedollar donation for the Special Olympics was encouraged.

Thirty of the city's finest restaurants served their house specialties, and all offerings were priced under \$3.50. Gutman said strawberry shortcake was one of the most popular items. There was also an Oregon wine-tasting pavilion showcasing 19 local wineries. Sixty local bands provided continuous entertainment.

KEX broadcast from the site at Tom McCall Waterfront Park each day. Promotion Director Amy Guttman said the station livened things up with special activities including a "Mystery Person" promotion, in which listeners had to ask strangers if they were the KEX Mystery Money Man (or Woman). Correct guessers won \$111.90, and the station gave away approximately \$1000 in all.

Guttman said the KEX staff went downtown at noon one Friday to hand out menus inviting people to the event. KEX also sold commemorative Bite pins for two dollars, with profits going to the Oregon Special Olympics.

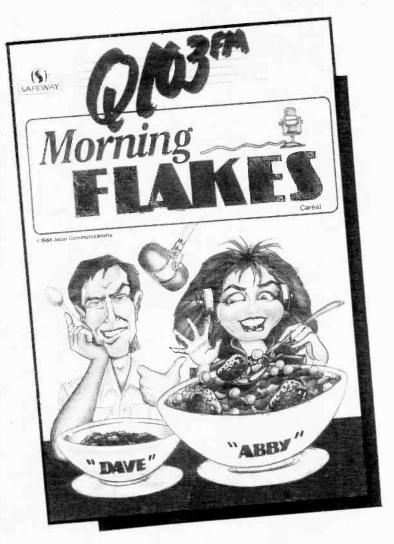

Warm Seafood

WRRM (Warm 98)/Cincinnati was once again the official radio station for one of Cincinnati's premier summer festivals – the Great Inland Seafood Fest. Twentytwo Northern Kentucky and Cincinnati restaurants participated this year (8/20-21). Each establishment's seafood samplings cost no more than \$2.50.

Warm 98 planned a series of free concerts as part of the festival with co-sponsors Budweiser, the Cincinnati Recreation Commission, and the Restaurant Associations for Cincinnati and Northern Kentucky.

Heavy Hawaiian Bread

Several years ago, KSSK/Honolulu gave away one million dollars to one listener. The Full-Service AC handed out more megabucks August 20, this time dishing out a cool \$100,000 to one person. Actually, the payoff was \$10,000 up front and the same sum for each of the next nine years.

PD Paul Holt explained the giveaway was associated with a print ad campaign and banked on forced listening. "We've been running three-quarter page ads in the local paper in both morning and afternoon editions about twice a week," he said. "We invited people to mail in entry blanks from the ad. From those entries, we read out names on the air. People had ten minutes to call us back and qualify for the \$100,000 drawing."

An estimated 850,000 entry blanks were returned to the station. That, incidentally, compares to *four million* entries received for the million dollar prize. Ten names were called out every day beginning July 18, and approximately 220 people qualified for the drawing. Each qualifier and a guest also won breakfast that day at the site of the drawing.

Manilow's Mann-date

WKSZ (Kiss-100)/Philadelphia sponsored a Barry Manilow concert at the Mann Theater August 19 and gave away over 10,000 tickets a pair at a time to pre-registered listeners who called the station within 100 minutes of hearing their names announced on the air (WKSZ is located at 100.3). Each winner also received a print from Manilow's "Moments in Music Poster Collection," a series of graphic prints depicting Manilow songs.

In addition, proceeds from limited Manilow International Fan Club ticket sales were given to three local charities.

Let There Be Lights

Last month, amidst enormous media hype and attention, Chicago's Wrigley Field was the site of a history-making event – using newly-installed lights, the ballpark hosted its first night baseball game.

Infinity's WJMK (Magic 104 FM)/Chicago held an on-air auction during AM driver Tommy Edwards's shift for two tickets to that game (with the Phillies). While tickets had been sold out for months, the station was able to conduct the promotion in cooperation with an automobile interest (Chicago/ Northwest Indiana Buick Dealers).

Bidding started at 5:30am and continued for over three hours. The highest bidder was a determined Cubs fan who wished to remain anonymous. The price tag for the two tickets: \$2100. As Promotion Director Judy Spitzer told R&R, "There were no photo opportunities because she didn't even pick up the tickets – her chauffeur did."

The mysterious winner surprised her husband with the ducats. While the July 8 game was washed out, the couple reportedly attended the Cubs-Mets encounter the following night. The big winner was the Children's Memorial Hospital, which received the \$2100.

Air Talent

WNLT/Tampa adds new AM drivers Morgan & Mimi (Rick Morgan and Mimi Lawson). The complete lineup is PD Dr. Chuck Crane (10am-noon); Marvin Boone (noon-4pm); Marti Ryan (4-8pm); Steve Michaels (8pm-midnight); and Jay Johnson (midnight-6am) . . . WVBF/Boston parttimer Jack Riccardi gets promoted to 4-8pm.

WUSN Adopts Naked Talk

WUSN/Chicago recently adopted a programming strategy that's long been part and parcel of AOR. To my knowledge, however, it is one that hasn't heretofore been used by Country radio - and certainly not in a major market.

US99 PD J.D. Spangler said the station's personalities no longer talk over the musical intros of the records they play. "It just makes sense to let country music fans hear the entire song," he explained. "After all, who's more into the music than country fans?

"The music is the star of the station. The only reason to talk over it would be if you could make the song better. Giving the time, temp, and what we had for breakfast over the music people want to hear definitely does not make the song better.'

Spangler theorized that this technique hasn't been used in Country radio because it's tough on jocks, particularly those who have been saying meaningless things for years just to fill the intro time on their way to hitting the post. "We as an industry have been afraid to do it because it's hard," he said. "Jocks can't coast through a show. You really have to work to keep a good energy level. Talking

"Jocks can't coast through a show. You really have to work to keep a good energy level."

-J.D. Spangler

'naked' makes you get to the point in a hurry. Bad jocks, whose ramblings can be masked by the music, sound even worse."

This new programming policy is supported by on-air promos which tell listeners, "We never talk over your favorite songs." Another liner points out that WUSN "respects the music" and won't talk over it.

If you've been doing this, or if you have strong opinions either way, let me know.

True Country

Far West Communications President and architect of its "True Country" format Paul Ward called to say the format is now on 14 stations and showed some real strengths during the spring sweep. A few of the best stories:

KTRW/Spokane, which adopted the format on March 1, leaped .4-4.3 (12+, fall '87-spring '88 Arbitron). It debuted with 25-54 numbers good for eighth place and 35-64 shares that put it in third

"The music is the star of the station. The only reason to talk over it would be if you could make the song better." -J.D. Spangler

place in that demo.

KGTM/Wichita Falls, TX was up 4.9-6.4 12+. It was up four 25-54 shares and ahead almost six-and-ahalf points 35-64.

WACT/Tuscaloosa, AL scored its third consecutive up book with the format, moving 3.4-4.7-5.5 since the spring '86 ARB. 35-64 shares have also moved steadily upward over the three books.

Ward believes his format's success could be an answer for ailing AMs.

Busman's Holiday

I always drive my wife and kids nuts when we go somewhere on vacation by car. They just can't un-

derstand why anybody would change radio stations when the songs come on, in search of someone talking. Such is the curse of a radio junkie. Sound familiar? Anyway, here are some thoughts about what I heard while driving between Nashville and South Carolina:

The WGAR "Hoser Patrol" at work.

• The battle for Atlanta is hotter than ever. Arbitron Country winner WKHX has liners proclaiming it as "Atlanta's Country leader," while WYAY shouts it is "Atlanta's

fastest-growing Country station." WKHX continues to give away a lot of cash. Y106 has reined in its personalities after the morning Zoo crew, promising "the most country music in Atlanta." WYAY now breaks just twice for spot breaks in many hours.

· Savannah's number one 25-54 station, WCHY-FM, has an interesting show at night called the "Great American Gold Hour." It seems to fill the need of longtime country fans yearning to hear

The Lawn Hot Summer

A forlorn WAHC contest winner sits in the middle of his

losing (winning) yard The long, hot summer and accompanying drought spawned a number of related promotions. Among them:

WGAR/Cleveland sent its "Hoser Patrol" (left photo) to the rescue of needy lawns. Two days a week, a WGAR personality aboard a Chemlawn truck carrying 1200 gallons of water would cruise neighborhoods, watering particularly parched yards. PD Allan Matthews reports people were running into the streets, flagging down Chemlawn trucks every-

where

WAHC/Appleton-Oshkosh, WI searched for the "Worst Lawn" among its listeners. Co-sponsored by a hardware store and a lawn service, the poor soul pictured above (right photo) won a care package to help get his lawn back in the green

> songs not in the regular oldie rotation. Daytime promos for the music of yesterday's country superstars provides great imaging, as well.

• Charleston's number one 12+ station is WEZL. I stopped by for a chat with PD Charlie Lindsay, who's been there almost 15 years and in the market almost 20. He showed me some great locally-produced TV spots.

Charleston is home to huge Navy and Air Force bases. WEZL originally cut a spot showing a sailor on the deck of a ship, longing for home and the woman he left behind. The spots aired whenever a ship was due in port. When the Air Force called WEZL asking why it was left out, a similar spot for the Air Force was done with the base's cooperation. Both commercials utilized appropriate country songs, and I have to admit getting goosebumps watching them.

WEZL also produced "singalong" spots featuring a local state senator and the police and fire chiefs lip-synching to country songs fitting their very well-known, local personas.

Lindsay feels spots specifically targeted to the locale are much more memorable to a TV audience inundated with advertising messages.

"HOT DOG!" BUCK IS BACK

Capitol To Release New Owens LP

Buck Owens, who hasn't released an album since "Buck 'Em" in 1976 for Warner Bros./Nashville, will soon have a new record in the stores. Owens has spent the last few weeks in Los Angeles in Capitol's Studio B – where he did all his original Capitol hits – recording a new LP for Capitol/Nashville. The album, "Hot Dog," was coproduced by Owens and Jim Shaw, his keyboard man of 19 years. It will be Owens's first LP for Capitol since "The Best Of Buck Owens/Volume Six" came out in 1975. So why is it that Owens, at 59, has found himself back in the studio?

The excitement and chart success that greeted the current Owens/Dwight Yoakam duet "Streets Of Bakersfield" prompted Capitol/Nashville President Jim Foglesong to personally write Owens, asking him to come back to Capitol. Somewhat to Foglesong's surprise, according to Capitol Director/West Coast Operations George Collier, Buck said "yes." The project became a joint effort by Capitol's Nashville and Los Angeles operations and Owens.

Buck has said Yoakam "came along and inspired me" – and must have really turned on Buck's creative juices. Collier said Owens is involved in all aspects of the project, including marketing, production, booking, and a video's direction and concept. He added, "Buck's got so much energy. He really knows what this recording part of his life is going to be, and he's working his tail off at it. It's like having a brand new artist here, except you don't have to teach him anything and he'll teach you a lot."

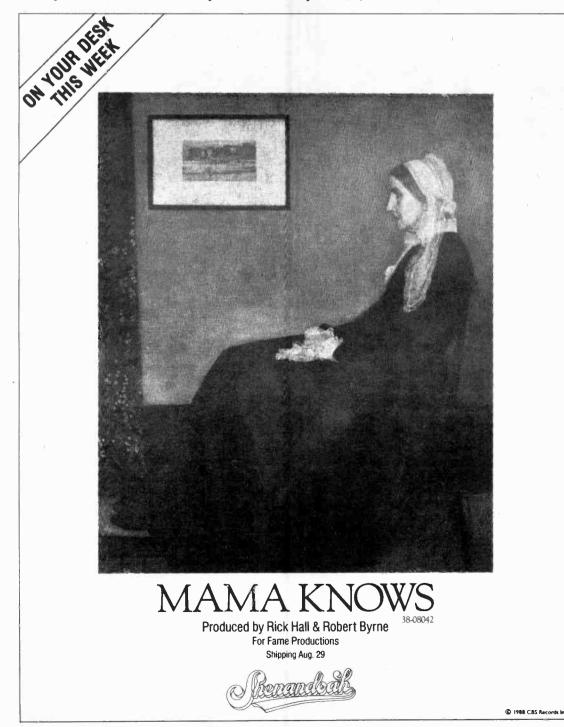

Fifteen songs have been cut for the album, which is set for a mid-November release, though only three have received final approval for inclusion. The title cut, written by Owens and Danny Dedmon, is also the first single and is expected to ship September 21. The record jacket was shot using the famous Los Angeles hot dog stand Tail O' The Pup (shaped like a giant hot dog) as a backdrop. Following the theme, a video will be shot in the same place in a few weeks.

The other two songs chosen thus far are "A-11" by Hank Cochran (originally released by Johnny Paycheck), and "Second Fiddle" by Owens. Other contributing writers include Red Simpson, Harlan Howard, Chuck Berry, and the late Eddie Cochran.

Owens also will resume touring on a limited basis. His longtime former manager, Jack McFadden of McFadden & Associates, is back on board booking dates for Owens.

Cash & Friends & Friends & Friends

Johnny Cash's soon-to-be-released album, "Water From the Wells Of Home," has a list of credits that reads like a musical "Who's Who." Side one goes like this: "Ballad Of A Teenage Queen" with Rosanne

A BIT LIKE BAKERSFIELD — Buck Owens (I) doffs his hat to Desert Rose Band members and fellow Californians Herb Pedersen (c) and Chris Hillman as they meet during a TV taping in Nashville.

Cash & the Everly Brothers; "As Long As I Live" with Emmylou Harris, (harmonies by Waylon Jennings, Jessi Colter, and a special appearance by Roy Acuff); "Where Did We Go Right" with June Carter & the Carter Family; "The Last Of the Drifters" with Tom T. Hall, who wrote it; and "Call Me The Breeze" with John Carter Cash.

Side two keeps things going with: "That Old Wheel" with Hank Williams Jr.; "Sweeter Than The Flowers" with Jennings, and harmonies by Harris and Colter; "A Croft In Clachan (The Ballad Of Rob MacDunn)" with Glen Campbell; "New Moon Over Jamaica" with Paul McCartney, which was written by McCartney, Tom T. Hall, and Cash and features harmonies by June Carter, Linda Mc-Cartney and Hall; and "Water From The Wells Of Home" with John Carter Cash.

The album was produced by Jack Clement, except for "New Moon Over Jamaica," which was produced by Paul McCartney, remixed by Clement, and took seven months to complete. You can expect the first single, "That Old Wheel," to arrive any day. Advance copies of the LP will ship September 26, and retail copies will appear on October 10.

Nashville Notes

• Columbia/Nashville's Shenandoah had finished a show in Austin, TX and were headed home when an oncoming driver spotted flames shooting from beneath the group's van.

After being flagged down and alerted to the danger, driver and lead singer Marty Raybon woke the other members of the group, who got out just before the van exploded in flames.

Fortunately, the observant driver who stopped them had unhooked the trailer containing the group's sound equipment just prior to the fire consuming the vehicle.

Police and fire officials from New Boston, TX, along with the good Samaritan, helped the stranded group hook up with another volunteer. He drove the band all the way to Muscle Shoals, AL in a rented vehicle so the group wouldn't miss a recording session.

• MCA/Nashville has released an eight-song compilation album titled "Country & Eastern" featuring four non-traditional artists: Steve Earle, Nanci Griffith, Lyle Lovett, and the Desert Rose Band. Each act contributed two songs. Cassettes and albums will list for \$6.98, and CDs will be in MCA's budget line.

• Harlan Howard's "Birthday Bash" number five is set for September 8 (rain date September 9) in the BMI parking lot (10 Music Square East, Nashville) beginning at 6:30pm. Tickets are \$15.

• Bobby Daniels, longtime drummer for Kenny Rogers, allegedly shot and killed his ex-wife, Sylvia Coakley, in Nashville August 15 after an apparent argument at Coakley's home. Daniels was arrested the following day without incident.

• Grammy winner David Hungate's publishing company, Brownie Music, has signed a catalog management pact with Keeling & Company, headed by Lisa K. Thoresen.

Producer/bassist Hungate has worked with Barbra Streisand, Toto, Cher, Joe Cocker, Diana Ross, the Pointer Sisters, Rosanne Cash, Lee Greenwood, Tanya Tucker, and Amy Grant. He is currently in pre-production with Shurfire, as the group makes a bid for a major label deal.

• Ronnie McDowell, Tanya Tucker, and Juli Maners doubled the house attendance record at Red Boiling Springs, Tennessee's Deerwood Amphitheatre, drawing 9400 ticket-buyers. The old record was held by Randy Travis.

• The 17th annual Talent Buyers Entertainment Marketplace, sponsored by the CMA, will feature 15 new country artists in three showcases. The three-day event will be held at the Hyatt Regency/Nashville October 7-9. Artists scheduled to appear are: Mary Chapin Carpenter; Rodney Crowell; Skip Ewing; Foster & Lloyd; Vince Gill; Michael Johnson; the McCarters; Dana McVicker; Schuyler, Knobloch & Bickhardt; Jo-El Sonnier; the Shooters; Karen Staley; Darden Smith; the Wagoneers; and Randy Vanwarmer.

• Baylor University President Herbert Reynolds canceled a concert by Willie Nelson scheduled for November 14 because of "concern for the well-being of the American people." Nelson's concert was to be a benefit for a failed Leroy, Texas bank's depositors. A spokesman for Baylor later cited the singer's personal behavior as the cause for cancellation, specifically mentioning Nelson's three marriages, long hair, earring, and on-stage drinking. — Debe Fennell

'Hall Of Fame' Among Issues Tapped At 12th Annual Jack The Rapper Convention

"Let's Network" was the theme of this year's Jack The Rapper convention, held August 18-21 at Atlanta's Airport Mariott Hotel. Dubbed "Family Affair '88," the convention attracted the largest turnout in its 12-year history, with Jack Gibson (aka the Rapper) welcoming 1100 Black radio and record industry attendees.

As in years past, entertainment was abundant, with every major record company presenting several of their key acts. The workshops, meanwhile, featured well-versed panelists who were eager to share their knowledge

Syndicated radio show host and WBLS/New York morning personality Ken Webb moderated a very useful Friday morning (8/19) session entitled "This Legal Business Of Radio & Records." Panelists included Entertainment & Sports Law Forum Chairwoman Patricia L. Johnson, entertainment law attorney Karl L. Guthrie, Capital Cities/ABC Inc. Asst. General Attorney Monique J. Reid, and R&R's Walt Love.

The workshop focused mainly on the importance of proper legal representation for on-air personalities, recording artists, record companies, and broadcast facilities. Also joining the discussion was William Lewis, general counsel of ASCAP's New York office.

Split Income

For American blacks, now is the best of times and the worst of times. US black households fall into approximate thirds by income: one-third solidly middle class or above (\$25,000+ annual household income); onethird on the lower side of middle class (\$10,000-\$25,000); and one-third comprising the underclass (-\$10,000).

The top two-thirds have made notable progress in recent decades, while the bottom third has continued to slide into greater hardship - and the gap is widening. Over 31% of blacks 65+ live in poverty (vs. 11% for 65+ whites), and an additional 38% of 65+ blacks live on the borderline of poverty.

Source: National Policy Institute, Washington, DC. FM (K104)/Dallas fly-jock Tom Joyner, and yours truly.

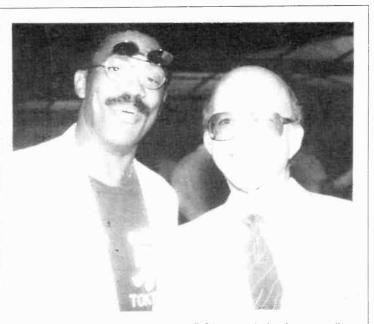

The basic consensus reached by the panel was that UC stations should concentrate on programming to their core audience. Otherwise, they risk losing the audience altogether.

lisher of the Urban Network, moderated the "Programming For The Future" panel. This session - one of the convention's most-discussed events - featured CHR programming veteran and WXKS-AM & FM/Boston PD Sunny Joe White, WGCI-AM & FM/Chicago PD Sonny Taylor, WRKS/New York PD Tony Gray, WGCI-FM and KKDA-

Other key issues bandied about during the convention included the need for more professional respect between the various facets of the industry and the need for a Black Music Hall Of Fame. The latter idea was introduced by Ron Ellison, PolyGram's VP/Black Music Division; Jack Gibson was asked to spearhead the effort.

"Married" Soundtrack Mobs CMJ

he "Married To The Mob'' soundtrack played a gangbuster role on the CMJ chart, with SINEAD O'CONNOR gunning down the eighth spot and **DEBBIE HARRY** and the FEELIES knocking out Moving Up positions.

Not much changed near the chart's top, as SIOUXSIE & THE BANSHEES and BIG AUDIO DY-NAMITE (with the first of two charted tracks) held their own. The PRIMITIVES moved into third, the first of two SUGARCUBES tunes climbed a notch to fifth, and HOT-HOUSE FLOWERS. sprang all the way up from 20 to 6.

Following Sinead's big debut, the SWANS levelled at 9 and BAD's 'Other 99" graduated to 10 (up from 23 on the CMJ's full 40). The Sugarcubes' "Coldsweat" chilled at 12, in front of debuts from Australia's HUNTERS & COLLEC-TORS, EDIE BRICKELL & THE NEW BOHEMIANS, and the PSYCHEDELIC FURS. CLOSE LOBSTERS clawed its way 30-19 and JOY DIVISION, with the second - and original - charting version of "Love Will Tear Us Apart," climbed 26-20.

MICHELLE SHOCKED topped a fistful of Moving Up tracks that included LET'S ACTIVE and Australia's SCREAMING TRIBESMEN Joy Division's "Warsaw," a throwback to the group's early name. surged upward, as did the latest from LITTLE FEAT, ESCAPE CLUB, and TRANSVISION VAMP. MY DAD IS DEAD and the aforementioned Debbie Harry and Feelies tunes rounded out the list.

BROTHER BEYOND made a three-point try, nabbing second place but not quite unseating fiveweek chart champs YAZZ & THE PLASTIC POPULATION for top honors on the British listing. The IGLESIAS-WONDER duet moved into third and FAIRGROUND AT-TRACTION maintained a hold on sixth place.

BOMB THE BASS's double-shot rocketed to 8 (up from 23 on the complete UK chart), TANITA TIKARAM climbed to 9, and CHRIS REA's "Beach" blanketed the ten spot. ROBBIE ROBERTSON's "River" swelled to 11 in front of a big 27-12 jump from WOMACK & WO-MACK. BIG COUNTRY claimed #13, while Switzerland's YELLO (at 14) and A-HA's "Touchy" (15) logged charting debuts.

Current CHR top-track GUNS N' ROSES followed its US success with a move to 16 and STATUS QUO's reworked version of its '77 hit "Rockin" stepped up to 18. PHIL COLLINS, running in front of the "Buster" soundtrack, debuted at 19, as GLORIA ESTEFAN & MH AMI SOUND MACHINE inched up 21-20. JANE WIEDLIN and MORY KANTE remained headed for the chart. Other up-n-comers included SPAGNA, METALLICA. EUROPE. and comeback-minded DONNY OSMOND.

GLASS TIGER's "Sun" continued to shine atop the Canadian list. DOUG & THE SLUGS held on to second, as BARNEY BENTALL moved into third and CANDI, with the chart's second celestial song, improved to fifth. FROZEN GHOST scored at 7, 22-year-old COLIN JAMES held steady at 9, BLVD. debuted at 10, with the NORTH-ERN PIKES once again claiming Most Added honors.

On the Australian chart, JOHN FARNHAM far outdistanced all competitors to remain at #1. 1927 jumped into second place. CROWDED HOUSE stayed at third, and JIMMY BARNES finished the week at #6. The DIVINYLS rebounded to 8 and Crowded House's second charting track debuted at 9. No new Aussie releases qualified for Most Added status this week

NOUVEAUX VIDEO

PROGRAMMING NOTES

•... AND I'D ESPECIALLY LIKE TO THANK MY HAIR-DRESSER: Yes, it's time for the "1988 MTV Video Music Awards," telecast live from the Universal Amphitheatre in Los Angeles (9/7, 9pm ET; 6pm PT).

The two-and-a-half hour gala is the music channel's fifth annual ceremony. Comedian Arsenio Hall will play host to a variety of performers; those scheduled to appear include INXS, Guns N' Roses, Crowded House, Aerosmith, and Depeche Mode. Performances by Michael Jackson and Elton John will be shown via satellite.

This year MTV will present 17 awards for video excellence. Peter Gabriel (also via satellite), Cyndi Lauper, comedian Sam Kinison, and Los Angeles Laker Magic Johnson are among those set to hand out the statuettes. (MTV will rebroadcast the ceremony 9/8, 7pm ET; 4pm PT.) • OLDIES BUT GOODIES: Bob Dylan, the Beatles, Rod Stewart, Fleetwood Mac, the Eagles, the Doobie Brothers, Paul Simon, and James Taylor are among the artists featured during VH-1's "Classic Oldies Weekend," beginning 9/2, 4pm ET; concluding 9/4, 11pm ET. Music videos and interview footage of classic rock performers will air hourly throughout the weekend. In addition, a half-hour interview and music special will be shown 9/2, 7:30pm ET; 9/3, 5:30pm ET; and 9/4, 3pm ET.

OL' BLUE EYES — Bob Dylan strikes a classic pose.

PAINT THEM BLACK — Aussie trendsetters INXS make a colorful fashion statement.

Breakers are those records that have achieved concurrent airplay at 60% of our reporting stations. New & Active records are those receiving airplay at 30-59% of the stations. Records in Significant Action are receiving airplay at 5-29% of the stations. Records do not have to reach Breaker in order to chart. However, once a record charts, it must reach the 60% airplay level within the two following weeks to achieve Breaker status.

SUMMARY

ONE

www.americanradiohistory.com

One week after churning out 44 Current-Based adds, Phil Collins walks away with FSA and GB Most Added honors. Collins's FSA strength is in the Midwest (WOOD, WHBC, WJBC, WCIL, KFSB, WASK). WCCO jumps on the John Williams Olympics in-strumental. Peter Cetera is Hottest for a second week; hottest debuts: Rick Astley, Beach Boys, Richard Marx, Hall & Oates. GB P1s slotting Collins are 2WD, KMGC KKCW. Elton John holds the GB HottestJead for a third week. Huey Lewis (+5) and Cetera (+4) post the most significant gains. Astley and Taylor Dayne make Hot debuts.

PLAYLISTS - An artist's name is listed once per playlist in the highest rotation that any of an album's tracks are reported. For example, if tracks from the same album are reported in both heavy and medium, the artist will appear in heavy. Records being played in power are included in a station's heavy rotation

For all stations, light rotation is condensed to include only those records added to the rotation this week. For P-2 and P-3 stations, medium rotation is condensed in the same manner.

Symbols:

'A' - Record is newly reported or additional tracks have been added

(M); (L) — Other tracks from that album are in those rotations (medium or light).

An artist's name with no abbreviations means all airplay is in the listed rotation.

A "frozen" list indicates that a current report was not received, and last week's rotations are included in the data base.
