WORTMANN AG
IT. MADE IN GERMANY.

(intel)

Windows 10 Pro

Dear Sir or Madam,

The mobile area of IT has always been particularly innovative. The requirement to design IT products portably has always established smaller and more powerful products on the market.

In addition to a continuing high demand for modern, slim and power-ful notebooks, Tablets and PADs are establishing a category that is growing at an above-average rate and also produces a wide variety of variants

The new technologies, such as more powerful and streamlined processors, smaller batteries with higher capacities, as well as thinner displays with innovative touch functions, enable further develop-ment progress.
The border between traditional Notebooks, PADs or Tablet PCs and Netbooks blurred visibly.
Tablets, and in particular the variants marked as 2in1 with keyboard, will play an increasingly important role as competitors to Notebooks and Smartphones.

In the TERRA MOBILE product range, you will find a wide range of different mobile systems that meet almost all requirements. Also many tablets with Windows 10 as well as robust systems from the TERRA MOBILE INDUSTRY series.

Latest technology, high quality and service from Germany.

Karl Koopmann

We assemble notebooks in the built-to-order process and also offer numerous standard configurations.
We can respond to your wishes and quickly and flexibly react.
Just in case something happens, you will receive your support directly from the WORTMANN AG Germany.

Best regards

Karl Koopmann
Product manager MOBILE

Mobile on the go with TERRA trolleys

Classmobile S-Tablet trolley

The lightweight ClassMobil S-series is a trolley system for transport and charging from notebooks or PADs. The system comes with stable automatic die-cast aluminum locks.
All tablets or notebooks are stored in individual compartments and and are easily accessible from above.
The power supply of the integrated devices is central via a single connection. An inrush current limiter with a 10 amp fuse allows the simultaneous switching on of all components, e.g.
16 TERRA Mobile 360-11 or 24 Terra PAD 1062 without type cover.

                            including bag

TERRA EDU Trolley T16MLx

The TERRA EDU trolley T16MLx has been specially designed for the models TERRA Mobile 360-11 and TERRA PAD 1062 and is designed for everyday use in education.
The Maximum amount of devices that can be used in the trolly at one time is 16.
When choosing materials, strong emphasis was placed on durable, resistant materials. Due to its absolutely robust construction, the trolley can also be carried over staircases without items being damaged.

Service and further information

SERVICE

TERRA notebooks and PADs usually have a pickup service of at least 2 years. In case of defects, the device will be picked up quickly and free of charge, repaired and redelivered after repair. In the case of a warranty extension, the pickup service will also be renewed free of charge.

For all models except pads, the warranty can be extended up to five years..

Express production 24 hours: If there is no suitable storage device, we will, on request Build your individual PC in a maximum of 24 hours.

Express repair service: The repair time at the Wortmann AG factory is a maximum of 48 hours.
If this value is exceeded, the customer will receive at least an equivalent device for the repair period. The service is valid for devices with a warranty period of 24 or 36 months, with a longer warranty period of 36 months.

Financing solutions
No matter whether you need PCs, notebooks, monitors, servers or storage systems - with our flexible financing solutions you can optimize the innovation cycles of your hardware. Find out about leasing, renting and hire-purchase offers of WORTMANN Beteiligungs GmbH

Individualise your notebook
By engraving your notebooks it can be used as an advertising medium or for a uniform corporate design, as well as better identification against theft.
