EXPERT CARE

- making our customers' life at sea better

Dear Customer

Welcome to the new 2022 Wrist Catalogue.

As always we strive to create a catalogue that meets the demands of our customers, especially the seafarers.

We hope that our selection and quality of items in this new catalogue, as well as our constant optimizing of sourcing patterns to ensure competitive pricing, enable us to reach our mission; EXPERT CARE - MAKING OUR CUSTOMERS' LIFE AT SEA BETTER.

In the midst of a rapidly changing world, we acknowledge our important role in the supply chain from ordering until safe delivery onboard.

We are proud to be a professional, proactive and reliable supplier and we are proud to be your first choice, and to be of support to you and your colleagues.

The Covid-19 impact, on the international trade and economy, especially the higher freight rates, availability and delays of/for consumer goods, makes this even more important than ever.

We are continuously strengthening and developing our supply chain to ensure that you can still count on us.

In this challenging time, and to honour our commitment to seafarers, we continue to proudly sponsor the 2020 ISWAN awards, in recognition of respect and support for the many women and men who take to the seas every day.

We look forward to continue working together with you as a preferred partner in 2022.

Enjoy

Taste the difference: Delicious Danish ice cream

Danish ice cream tradition has its roots in the small creameries scattered across the Danish countryside - and it continues until today, even though most of Denmark's ice cream production has evolved from small creameries to larger production sites, the typical ice cream production in Denmark is still based on skilled craftsmanship and the use of real fresh cream.

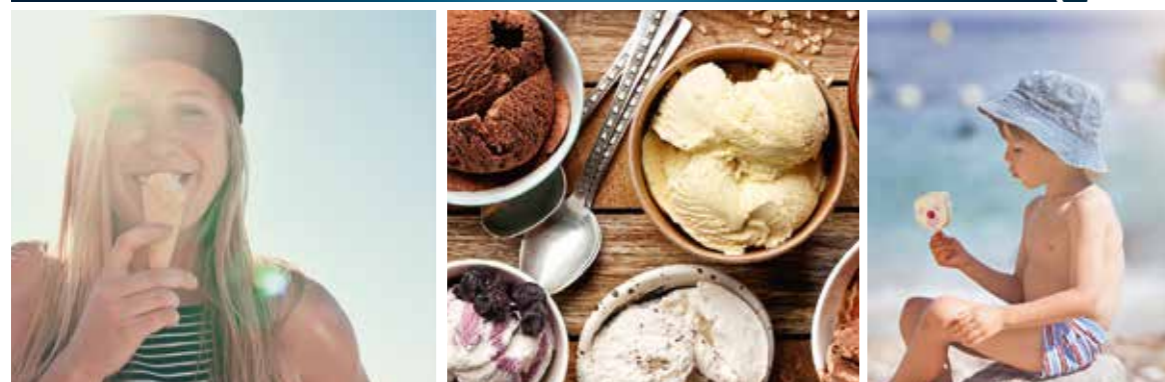

The making of good quality ice cream requires expertise and premium ingredients. After careful blending and pasteurization, the raw ice cream mixture is left to mature. This maturation process balances out the different ingredients in relation to each other and allows all the delicious flavours to develop.

The matured ice cream mixture is carefully churned in order to make the texture deliciously creamy.

The result is a smooth soft ice cream which can be further enriched with fruit, chocolate, nuts or other quality ingredients. Simply delicious!
