

A host index to Hansford's Monograph of the Meliolineae*)

By John A. Stevenson

Collaborator, National Fungus Collections, U.S. Dept. of Agriculture,
Beltsville, Maryland

Hansford in his monograph points out the importance of host relations in the Meliolineae, but did not consider it necessary to provide a host index for his authoritative account of the group. It has been considered highly desirable to provide such an index and it is presented herewith. It should be noted that the figures used refer to species and not page numbers so as to conform with Hansford's index of fungus species.

A

- | | |
|--------------------------------------|--------------------------------|
| Abelmoschus moschatus 403 | Acer oblongum 1066 |
| Abrus canescens 630 | Achatocarpus sp. 163 |
| Abutilon stratum 399 | Achudemia javanica 766 |
| Abutilon sp. 399, 403 | Achyropermum axillaris 1656 |
| Acacia binervata 598 | oblongifolium 1657 |
| cunninghamii 598 | Ackama paniculata 520 |
| floribunda 591 a | Acmena smithii 276 |
| harpophylla 598 | smithii var. minor 276 |
| koa 599 | Acnistus arborescens 1504 |
| linifolia 580 | Acnistus sp. 150 |
| mabellae 580 | Acridocarpus natalitius 415 |
| maidenii 580 | plagiopterus 417 |
| melanoxydon 580 | sp. 415 |
| pedicellata 602 | Acrista monticola 1715 |
| penninervis 580 | Acrotrema sp. 194 |
| polyphylla 602 | Actinodaphne chinensis 60 |
| riparia 57 | mushaensis 45 |
| sp. 584, 598 | sp. 73 |
| Acaena sp. 529 | Adelia ricinella 518 |
| Acalypha bipartita 462 | Adenantha microsperma 593, 630 |
| bisetosa 438 | Adenocalymma sp. 1569, 1579 |
| cuspidata 438 | Adiantum latifolium 1781 |
| diversifolia 438 | Adiantum macrophyllum 1781 |
| fruticosa 465 | trapeziforme 1782 |
| Acalypha sp. 438, 440, 443, 447, 467 | sp. 1781 |
| Acanthaceae 1611, 1615, 1615 a, 1618 | Adina sp. 1395 a |
| Acanthopanax trifoliatum 1145 | Aegiphila elata 1628 |
| | sp. 1634, 1636 |
