OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

May 1, 2023

Michael Sarli Senior Director of Regulatory Chemsico P.O. Box 142642 St. Louis, MO 63114

Subject: Notification per PRN 98-10 – Adding graphics & reference to the potential use of text translated into Spanish Product Name: Chemsico Home Insect Control 55L EPA Registration Number: 9688-345 Application Date: 02/24/2023 Decision Number: 591603

Dear Mr. Sarli:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "NOTIFICATION" and placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, please contact Jamey Shuler by phone at (202) 566-2898, or via email at <u>Shuler.Jamey@epa.gov</u>.

Sincerely,

d Herrick

Jacquelyn Herrick, Product Manager 03 Invertebrate & Vertebrate Branch 1 Registration Division (7505T) Office of Pesticide Programs

Notification ABN or Label Acceptable v.20220527

# Chemsico Home Insect Control 55L

(Please see back page for optional marketing claims and language)

## NOTIFICATION

#### 9688-345

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

#### 05/01/2023

Active Ingredient:	
Lambda-Cyhalothrin	0.055%
Other Ingredients	99.975%

## KEEP OUT OF REACH OF CHILDREN

CAUTION See [side panel] [back panel] [back booklet] for First Aid, additional Precautionary Statements, Directions for Use and Storage & Disposal.

Net Contents:

## **STOP.** READ ENTIRE LABEL BEFORE USE.

## **PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals

**CAUTION.** Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

## First Aid

#### If Swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not give anything by mouth to an unconscious person.
- Do not induce vomiting unless told to do so by a poison control center or doctor

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

## **Environmental Hazards**

This product is toxic to fish and other aquatic organisms. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### RESTRICTIONS

For use around the home only. Do not use on pets.

Do not allow people or pets to enter treated areas until after spray has dried.

- Do not water the treated area to the point of runoff.
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
  - 1. Treatment to soil or vegetation around structures
  - 2. Applications to lawns, turf and other vegetation
  - 3. Applications to building foundations, up to a maximum height of 3 ft. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

## [SHAKE WELL BEFORE USING]

## {Note to Reviewer – Various Optional SPRAYER DIRECTIONS Follow}

#### {OPTION A} [SPRAYER INSTRUCTIONS]

[How to prime and care for your sprayer:]

- 1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
- 2. Turn sprayer nozzle one half-turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10 to 15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
- 3. To store, turn nozzle to "OFF" position and [store with sprayer above level of liquid in container to prevent leakage] [store sprayer on hook located near bottle handle to prevent leakage].
- 4. Do not contaminate food, feedstuffs and domestic water supplies. Cover all food-processing surfaces and utensils during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

# {OPTION B} [OPTIONAL DIRECTIONS FOR TRIGGER SPRAYER PRODUCT] HOW TO USE

- 1. Shake well before each use.
- 2. Adjust nozzle to narrow fan spray, to prevent excessive wetting and waste of product. Spray just enough to cover area to be treated.
- 3. Do not contaminate food, feedstuffs and domestic water supplies. Cover II food-processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

## {OPTION C} [OPTIONAL DIRECTIONS FOR NESTED SPRAYER APPLICATOR] HOW TO USE

- 1. Shake well before each use.
- 2. Pull tab outward.

- 3. Rotate lock ring counterclockwise to unlock.
- 4. Pull sprayer to uncoil tubing.
- 5. Turn sprayer nozzle one half-turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10 to 15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
- 6. To store, turn nozzle to "OFF" position and return sprayer to bottle opening.
- 7. Drape tubing through slot in the spray handle.
- 8. Turn lock ring clockwise to lock.
- 9. Do not contaminate food, feedstuffs and domestic water supplies. Cover all food-processing surfaces and utensils during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

#### {OPTION D} [OPTIONAL DIRECTIONS FOR CAPTIVE SPRAYER PRODUCT] HOW TO USE

BEFORE USE:

- BEFURE USE: 1 Shaka wall bafara a
- 1. Shake well before each use.
- 2. Peel sticker from flip-top cap and open cap. Discard sticker.
- 3. Remove sprayer from its slot beneath the bottle handle and remove and discard plastic wrap. Pull black hose tip to completely extend tubing.
- 4. Firmly press black hose tip into opening in cap until it snaps into place.
- 5. Hold sprayer below the level of the container and prime by pumping trigger several times until product is dispensed.
- 6. Adjust nozzle to desired setting.

#### AFTER USE:

- 7. To store, turn sprayer nozzle off.
- 8. DO NOT disconnect hose.
- 9. Return sprayer to its slot. Hose can be pushed back into sprayer handle.

## {OPTION E} [AUTO TRIGGER [SPRAYER] DIRECTIONS]

Shake well before use.

- 1. Remove plastic tab near top of sprayer to activate batteries
- 2. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- 3. [Press the trigger to spray]. Spray just enough to cover area to be treated.
- 4. Do not contaminate food, feedstuffs and domestic water supplies. Cover all food-processing surfaces and utensils during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.
- 5. Release the trigger to stop spray.

Keep the reusable auto trigger [sprayer] for use on compatible refills.

#### {OPTION F1} [OPERATING INSTRUCTIONS FOR EZ SPRAY™][AccuShot Sprayer]

- 1. Remove sprayer from side holder. [Unwrap the tubing] [Gently pull tubing out].
- 2. Remove seal from top of cap. Unplug cap.
- 3. Securely snap the [green] plug into hole on cap.
- 4. Remove plastic tab near [top] [bottom] of sprayer to activate batteries.
- 5. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- 6. [When priming the sprayer, hold sprayer level to the ground. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction.]

## {OPTION F2 – Alternate to F1} [OPERATING INSTRUCTIONS FOR AccuShot Sprayer]

- 1. Remove cap and replace with reusable AccuShot Sprayer. Make sure sprayer cap is tightly closed before use
- 2. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- 3. [When priming the sprayer, hold sprayer level to the ground. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction.]

## HOW TO USE THE EZ SPRAY™[AccuShot Sprayer]

- Aim toward target [site] [area to be treated], and away from people and pets.
- [To improve accuracy, use slider to extend wand.][Use slider to extend wand and to improve accuracy.]
- Press the trigger to spray.
- Release the trigger to stop spray.

After use: 1. Twist nozzle completely to CLOSE position. 2. Secure sprayer [upright] [tip down] in [holster] [holder]. 3. Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in [holster] [holder] may result in leakage and damage to property or injury to people or animals.

#### [Keep reusable AccuShot sprayer for use with Chemsico Home Insect Control 55L]

**To replace batteries:** 1. [Slide battery compartment door to unlatch and open.] [Push release button near nozzle and lift up on battery hatch.] [Use screwdriver to open battery compartment] 2. Remove used batteries and insert [four] [two] new AA batteries *in correct positions* as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. *Always* use a complete set of new batteries of the same type when replacing batteries. *Never* mix alkaline, carbon-zinc or rechargeable batteries. 3. Securely close battery compartment door. 4. *Always* follow manufacturer's recommendations for use and disposal of batteries.

Additional Operating Notes: • Do not submerge in water. • Before each use, inspect sprayer carefully, making sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. • When storing sprayer for prolonged periods, remove batteries.

#### (Option G1) [Directions for EzSpray<sup>™</sup>Sprayer and AccuShot<sup>™</sup> Sprayer with Snap Adapt Cap] [Optional Subheading: How to Use [AccuShot Sprayer<sup>™</sup>] [Alternate: EzSpray<sup>™</sup>]]

- 1. [Unwrap sprayer.] Remove sprayer from side holder [Alternate: holster]. [Unwrap the tubing] [Gently pull tubing out].
- 2. Open flip top closure
- 3. Securely snap the hose plug into opening in cap until it snaps into place.
- 4. Slide switch on hose plug counter-clockwise to "OPEN."
- 5. Remove plastic tab near [top] [bottom] of sprayer to activate batteries.
- 6. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- 7. [When priming the sprayer, hold sprayer level to the ground. Squeeze and hold trigger until liquid comes out the nozzle. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction.]

#### {OPTION G2 – Alternate to G1} [AccuShot Sprayer Directions with Snap Adapt Cap]

- 1. Remove cap and replace with reusable AccuShot cap and Sprayer. Make sure sprayer cap is tightly closed before use
- 2. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM.
- 3. Slide switch on hose plug counter-clockwise to "OPEN."
- 4. [When priming the sprayer, hold sprayer level to the ground. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction.]

# **[Optional Subheading: How To Use the AccuShot™ Sprayer [Alternate: EzSpray™]]** (For use with Snap Adapt Cap version of Directions)

- Aim toward target [site] [area to be treated], and away from people and pets.
- [To improve accuracy, use slider to extend wand.][Use slider to extend wand and to improve accuracy.]
- Press the trigger to spray.
- Release the trigger to stop spray.

After use: 1. Twist sprayer nozzle completely to CLOSE position. 2. Turn hose plug switch clockwise to "CLOSED". 3. Secure sprayer upright [tip down] in [holster] [holder]. 4. *Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in [holster] [holder] may result in leakage and damage to property or injury to people or animals.* [Keep reusable AccuShot sprayer for use with Chemsico Home Insect Control 55L]

#### (Optional Directions for Replacing Batteries)

[**To replace batteries:** 1. [Slide battery compartment door to unlatch and open.] [Use screwdriver to open battery compartment [Push release button near nozzle and lift up battery hatch.] 2. Remove used batteries and insert [four] [two] new AA batteries *in correct positions* as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. *Always* use a complete set of new batteries of the same type when replacing batteries. *Never* mix alkaline, carbon-zinc or rechargeable batteries. 3. Securely close battery compartment door. 4. *Always* follow manufacturer's recommendations for use and disposal of batteries.]

Additional Operating Notes: Do not submerge in water. Before each use, inspect sprayer carefully, making sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. When storing sprayer for prolonged periods, remove batteries.

#### **INDOORS** {Note to Reviewer: Other insects from Master Pest List may be added as appropriate}

As a spot or crack and crevice treatment to Kill cockroaches, palmetto bugs, ants<sup>§</sup>, spider mites, crickets, beetles, houseflies (and other non-biting flies), fleas, firebrats, water bugs, silverfish, earwigs, box elder bugs, centipedes, millipedes, stink bugs, pillbugs, sowbugs, ticks, scorpions and spiders directly spray insects from a distance of 8-12 inches.

To control\* (\*for up to 12 months indoors on non-porous surfaces) cockroaches, palmetto bugs, ants\*\* (\*\*excluding pharaoh ants and fire ants), beetles, crickets, firebrats, water bugs, silverfish, box elder bugs, and spiders, spray areas where they are found or normally occur, including dark corners of rooms and closets; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; and around plumbing and other utility installations. 2 gallons cover 1,000 sq ft.

For ants<sup>§</sup>, apply to ant trails, around doors and windows and wherever else ants may find entrance. Pharaoh ants and fire ants must be directly sprayed from a distance of 8-12 inches.

§Argentine, southern, field, Allegheny mound, Florida carpenter, black carpenter, cornfield, honey, pavement, nuisance, harvester, fire, pharaoh

**To kill fleas and ticks**, thoroughly non-porous surfaces of resting quarters, along and behind baseboards, window and door frames, localized areas of floor and floor covering and nearby cracks and crevices, where fleas and ticks may be present. Pet bedding should be replaced with clean, fresh bedding after treating the area. Fleas and ticks must be sprayed directly to be killed. *Do not treat pets with this product.* To control the source of flea infestations, pets should be treated with a product registered for application to animals.

Note: Test inconspicuous sample of, flooring or other indoor surfaces for staining before use.

#### **OUTDOORS** {Note to Reviewer: Other insects from Master Pest List may be added as appropriate}

To kill bees, , box elder bugs, centipedes, millipedes, pillbugs, sowbugs, scorpions, spiders, house flies and other non-biting flies, Asian beetles, Japanese beetles, stink bugs, spider mites, and mosquitoes: spray insects directly from a distance of 8-12 inches. For use only as an aid in reducing annoyance from these insects. Apply to cracks and crevices in and around doors, window frames, light fixtures, on porches, in garages and other places where insects may enter the structure.

Ants<sup>§</sup>, ticks (including ticks which may transmit Lyme disease), crickets, fleas and earwigs: For treatment of infestation of these insects in areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. When treating for ticks, give special attention to areas frequented by pets. For ants, thoroughly wet hills and runways. Fleas, ticks, carpenter ants, harvester ants, pharaoh ants and fire ants must be sprayed directly to be killed.

§ Argentine, southern, field, Allegheny mound, Florida carpenter, black carpenter, cornfield, honey, pavement, nuisance, harvester
