CLOTHES are the outward indication of a woman's character. They may also mark her as a person of taste. With true appreciation of art in dress and an ability to distinguish between mere whims of fashion and modes destined to reign undisputed throughout the season, we have assembled for your approval, the most desirable and the new in FROCKS, SUITS, COATS and other costume essentials.

Aside from presenting apparel values of striking character they offer the fashion-loving woman a wealth of inspiration and help.

CAN YOU AFFORD

to miss a full representation of your business in the Classified part of the City Directory? It is a Buyer's Guide and through its consultation thousands of dollars worth of goods are sold annually.

Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people; although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display Advertising

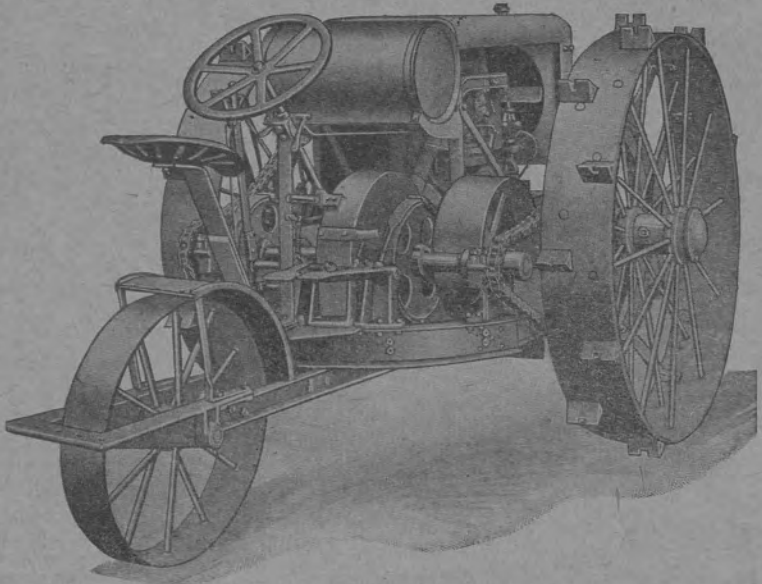

does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference Advertising

places wherever people may look for you or your goods, information that will point to you like a signboard.

Your Advertisement

in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

LESHNICK DIRECTORY CO.

PUBLISHER

Peoria, Ill.

Introductory

This issue of the Stevens Point City Directory, including the rural route patrons of the city, records another step forward in the history of this prosperous and growing community. It presents an endless array of important and necessary information, compiled in convenient and logical order, and instantly at the service of the reader.

The publishers take pleasure in presenting this volume, with the assurance that the high standard established by them on all their publications has been fully maintained and that neither labor or expense has been spared to produce a work as thoroughly correct as possible for a publication of this kind.

In taking over the publication of the Stevens Point Directory we can assure the people of this community that it will always be our aim to merit their confidence and support, by giving them at all times a work that will compare favorably with any similar publications, and to issue the Directory at regular intervals.

In conclusion, we desire to express our thanks for the many courtesies that have been extended to our representatives, and for the patronage bestowed upon the work.

LESHNICK DIRECTORY CO., Publishers.

Stevens Point, Wis.

WHERE IT IS:

To find Stevens Point, place your finger on the center of the map of Wisconsin. It is on the Saulte St. Marie main lines from Chicago to Superior and Duluth; Ashland, St. Paul & Minneapolis; and the Portage branch of the Soo Line, making direct connections daily between Stevens Point and the city of Portage; and a branch of the Green Bay & Western R. R. connecting with Green Bay and Winona, Minn.

It is situated on the Wisconsin river and has an elevation of 1100 feet above sea level.

It is 208 miles to Minneapolis; 158 miles to Milwaukee and 240 miles to Chicago.

WHAT IT IS:

Stevens Point is the county seat of Portage County.

It has an area of 6.34 square miles, and a population of 12,000—an increase of 30.8% (last census). It is the center of railroad activity, employing over 850 men, with an annual payroll of \$1,250,000. It is the hub of industrial development with an annual payroll of \$4,000,000, which gives employment to better than 2,500 citizens.

It is the seat of learning for central Wisconsin and has the State Normal School, employing 46 teachers, with an enrollment of over 500 students, and property valuation of \$600,000. There is one High School and seven Grade Schools, employing 57 teachers, with an enrollment of 1494 students, and property valuation of about \$311,000. One Vocational School, employing four teachers, with an enrollment of 202 students; and three Parochial Schools, employing 17 teachers and giving instruction to 846 pupils.

WHY IT IS:

Due to its natural location Three State Highways enter Stevens Point and the Yellowstone Coast to Coast Trail passes through the center of the city.

The vast supply of hydraulic power, combined with its many potentialities and resources, is sufficient assurance that Stevens Point is destined to be the Central Manufacturing and Distributing City of Wisconsin.

In a nut-shell Stevens Point has:

- (1) The geographical location;
- (2) The cheapest power in the State;
- (3) A plentiful supply of contented labor;
- (4) The right community spirit.

THOSE WHO HAVE COME ARE GLAD THEY'RE HERE,
WITH MORE TO FOLLOW FROM YEAR TO YEAR.

"THE CITY WORTH WHILE"

Chamber of Commerce.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display Advertising

does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference Advertising

places wherever people may look for you or your goods, information that will point to you like a signboard.

Your Advertisement

in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people; although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display Advertising

does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference Advertising

places wherever people may look for you or your goods, information that will point to you like a signboard.

Your Advertisement

in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people; although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.
