

YOUNG MEN AND LADIES WANTED

TO LEARN

TELEGRAPHY, R. R. ACCOUNTING, TYPEWRITING AND STENOGRAPHY.

.....

This institution is exclusively endorsed by over fifty railroads and telegraph companies as the only practical school of its kind in America.

We give our students a \$500 bond to furnish them a position as agent or operator, at a salary of not less than \$50.00 per month, on the day their course is completed.

We have been established over 18 years, and have students from nearly every State in the Union during each year.

It will interest you to call at this institution and see our miniature railroad in operation for practical work.

Telegraph Operators are always in great demand, and we have no competition within 500 miles from Cincinnati in teaching telegraphy exclusively.

A life scholarship in Telegraphy, \$40; Railroad Accounting, \$10, and Typewriting \$10. Unlimited scholarship in Shorthand, \$30.

Tuition may be paid monthly. Day and Night sessions every week-day of the year. Call or write for free catalogue.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide **protection** to the public against **fraudulent advertising schemes which operate under the name of Directories**, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any **fraudulent or fake directory.**

❖ ARTIFICIAL LIMB COMPANY. ❖

The Fiber and Aluminum Artificial Limb Co. manufacture the J. Forster Improved Limb. It is pliable and will adjust itself to the stump. It is the lightest limb made. It has as natural action in all its parts as is possible in an artificial limb. On stumps, six inches or more below the knee, we get rid of all metallic joints, thus saving the extra weight of the wearer and giving the knee its natural action.

POCAHONTAS This beautiful Indian Princess, whose romantic story has filled so many bosoms with wondering emotion, and whose sad and early fate has dimmed so many eyes, was born about 1594, at the Pocahontas Coal Mines, from whence this Celebrated Coal assumes its name. The name Pocahontas signifies "a run between two hills."
