Happy Summer!!!

*Debbie McDermott-Cooper TDIA
(MI)*

Dear Associate Members,

This is actually the second editorial I am writing. I am putting the first one on the shelf for now.

First of all I would like to thank the majority of you, the hard working volunteers who are dedicated to helping people with the help of your wonderful Therapy Dogs. You have experienced what our dogs can do. Indeed, they even can change someone's life for the better and give something to people, something they have not experienced in a long time or perhaps never! Just think, if we can change even one person's life for the better with one volunteer at a time, what a difference this would make.

Why do I say the majority of you? Could it be that there are some registered TDI dogs who never visit?

Why bother to be tested and registered?
There is such a need for qualified Therapy Dogs.
Just think about how many lonely people there are in this world.
You can start by visiting in nursing homes.
People are there in the last phase of their life.
Yes, waiting to die!

Just picture yourself in a nursing home.
All you see is the staff.
No one coming to see you.
You used to have dogs.
Now, there is nothing very much to look forward to.

It is important in our life to have something which will bring us joy and look forward to. This will give us something, "HOPE". You and your Therapy Dog can be that "SOMEONE". If you think now, yeah, yeah. I know all of that. If you do, why don't you do something about it? Your experience will also give you so much. Meaning, that is your reward! Seeing the difference you and your Therapy Dog can make in the life of even one person will give you so much joy!

If only one of you non-visiting Therapy Dog owners will read this and make a difference, then the time I have taken to write this has been well worth while!

Have a wonderful summer!

Best Regards,
Ursula Kempe

DISASTER STRESS RELIEF DOG (DSRD) TEST

Jackson, Ohio

Date: Saturday September 16th, 2017

Please note: Our testing requirements are stringent. It goes without saying the temperament of the dog must be outstanding, and the dog should be able to handle a variety of situations without prior experience.

We evaluate you as well as your dog (including a handler evaluation).

- Your dog must be able to pass all parts of the TDI test.
- You and your dog must be in good physical condition, and be able to walk a distance of one mile.
- You and your dog will be subjected to extreme noise from fire engines, etc.
- Your dog must be able to work and be transported with other dogs (both genders) in close quarters, such as in cars, trolleys, boats, elevators, etc.
- Your dog must be able to work under various conditions, with people crowding the dog and approaching from all sides, and without prior warning or introduction.
- You, the handler, must go through additional training, see below:

The following three courses can be taken online at: <http://training.fema.gov/IS/crslist.asp>

Introduction to the Incident Command System (ICS 100) IS-00100
Introduction for Single Resources and Initial Action Incidents (ICS 200) IS-00200
National Incident Management System (NIMS) an Introduction IS-00700

The following course can be taken online at: <http://learn.nctsn.org/login/signup.php>

Psychological First Aid

Step 1: Create an account (free): <http://learn.nctsn.org/login/signup.php>

Step 2: Check your email and confirm your account (click on link)

Step 3: Return to <http://learn.nctsn.org>, and enroll in Psychological First Aid Online

- For more information or to request an application: contact the TDI office (973) 252-9800 or mm@tdi-dog.org
- Test dates and locations will be posted on the members pages of our website when ready.
- We will also email our members in the state in which the test is being given, as well as the neighboring states.
- If you are interested in holding a DSR Test, please contact TDI.

DSR work means being ready to go where and when one is needed.

Disasters don't wait!!

Could it be that the Therapy Dogs have been caught going gambling???

A Healing Moment By Carolyn C. Meltzer, MD

I have had the pleasure of taking my TDI dog, Dudley, for visits to Camp Peace, a summer camp for children who have witnessed domestic violence. We adore the children, who are beautiful and so appreciative of time spent with the TDI pups.

On a recent visit one young boy pointed to scarring on Dudley's left rear leg, and asked me how Dudley had gotten hurt. I responded that we didn't really know since

Dudley was a rescue dog and had not always had a good home. In fact, the scar was superficial and didn't seem to bother Dudley. And of course, Dudley was now happy and well taken care of. The boy then turned to Dudley, gently cupping his face in his hands. Gazing into those gentle, soulful beagle eyes, the boy said: "Dudley, you don't have to worry. You are safe now, and no one will ever hurt you again."

As a long-time therapy dog handler and certified TDI evaluator, I have witnessed the comforting and healing effect of TDI dogs many times...yet never so powerfully as on this day.

Molly's New Job by John Tiso

My dog, Molly, has come up on 14 years. As a large ASD Labradoodle, she is considered to be quite old. However, she has aged gracefully. Her night vision and hearing are not as good as they used to be, and she has a touch of arthritis (like her owner).

The scope of our work, was mostly with children - with and without disabilities. We had some set routines, including an educational program for children. However, I found that as Molly was growing older she was having more and more trouble with the kids. She tended to get very tired out from working. This concerned me, as Molly was still able to regularly walk and snowshoe with my wife and I for miles effectively. So, we put Molly in 'semi-retirement' only working occasionally and for special events. I did get an e-mail from the TDI office requesting a therapy dog for a

local assisted living facility for elderly memory impaired residents. Molly and I have been working 2-3 times a month. The visit and the work is quite different than what Molly and I historically have done. The residents are quite gentle with Molly and the visits are shorter. Depending on how the day is going with the residents, our visits have been anywhere from 25-90 minutes. The residents are generally very happy to see Molly, and I generally engage in 'small talk' with the residents.

I've found Molly is again energetic and enthusiastic both before and after working. She has really found a new purpose as a therapy dog.

As your dog ages, their capabilities and temperament will age. As a handler, you should be conscious of this and be open to adapting the type of work you do together. As mentioned, adapting our volunteering and being open to new situations has given Molly new life as a Therapy Dog. Although our routine has changed, Molly and I have found our new adventures rewarding.

Strong Hands by Ann Lacey

In 2010, I was visiting a cancer patient at Strong Hospital. During one of our visits, Kendall fell asleep with his head in the patient's hand. For 10-15 minutes he slept, with the full permission of the patient. I took my camera on my next visit because I thought it was so sweet.

His wife was there this time. Kendall put his head in the patient's hand (yet again) and Taylor (team tested with Kendall and with us on this visit) turned and put her head in the hand of his wife. To me, a perfect pet therapy picture!

We are there for the patients but also for the families (& staff). The man passed away a couple of months later. As it turns out, the wife (they had just gotten a puppy) went on to register their Boxer with you and now have a Min. Poodle also registered with you. We have been working together for the last 5+ years. Some things are just meant to be...

Oliver by Louise Fletcher

I would like you to know how much Oliver and I enjoy our visits through TDI. We are asked to visit each and every person who would like to spend individual time with Oliver on their bed or on my lap, right next to their bed. I have many "stories" to tell about the fantastic interactions between Oliver and children and folks we visit.

It is truly heart-warming for me to observe and watch the relationships grow. At Metro a Child Life staff member is always with us. Patti was with us that day. We visited a very young child lying on her bed with her Mom sitting close by. She shook her head in response to the question "Do you like dogs?" She could not see Oliver on the floor so I picked him up, held him in my arms, walking very slowly toward her bed while Mom was admiring Oliver.

After a few minutes the little girl told her Mother she wanted Oliver to sit on her bed. (on a blanket/sheet of course) She patted Oliver on his back as I watched the reaction (a great big smile).

All of a sudden the little girl told her Mother she wanted to take the dog for a walk! After gaining permission from the medical staff her Mother helped her daughter off of the bed, slippers on her feet, ready to go with her big smile. Without hesitation, she took hold of the leash near Oliver. I held the long end with one hand next to hers on the leash, prepared to stay in control of Oliver, but no need to worry. Together, the three of us marched down the hall, heads held high--Oliver marched right beside her step by step, both, as if this was an every day event. Mom and Patti right behind us---everyone smiling.

Oh, I wish I could have had a video. I was so VERY proud to watch the change Oliver had made for this little girl.....lying in bed, frowning, shaking her head no, to a very strong, confident, happy little girl "walking her dog". Physicians, nurses, staff, visitors came into the hall to watch.... everyone in awe, smiling.

Happy Day !!!

PAWS UP!!!

For the first time ever, a Therapy Dog was selected from approximately 400 nominees in the state of Wisconsin for the prestigious “High Five Service Excellence Award” from Ministry Healthcare! Prince & his owner (chauffeur), Jim Papenfuss of Oshkosh, Wisconsin, also received accolades from Wisconsin Senator Ron Johnson and the Mayor of Oshkosh. WBAY-TV featured a press conference with Prince & Jim discussing the work they do to try to bring happiness to some folks who need a “warm fuzzy”. The team spends 15-20 hours a week volunteering with hospice, hospitals, chemo centers, and various healthcare facilities. Both enjoy their visits as much as the people they visit.

Barbara Coupe and her Shetland Sheepdog Abbey were recognized in an event sponsored by Stoneycreek Veterinary Hospital on March 18, 2017. Abbey was in the company of dogs from the K-9 unit, US Customs, Service Dogs, and Therapy Dogs. The team received a Certificate of Special Congressional Recognition as well recognition from the Pennsylvania House of Representatives.

Susan Simmons and her Siberian Huskies Chai Sox TDIA and Cinnamon TDIAOV recently received an award from Rush Copley Medical Center where they volunteer. The announcement was quite the surprise and they were honored to receive the award. There were tears of joy and sadness upon acceptance. Susan shares this award with her sister who lost her cancer battle in February. It was her sister who planted the seed to register Cinnamon for Therapy Dog testing back in 2010. In 2015 Chai Sox was registered with TDI.

On February 18th, 2017 Lothair, owned by Melanie Paul of Hampton, Virginia, was awarded the Virginia Veterinary Medical Association Animal Hero Award during the VVMA yearly Conference and Awards Banquet held in Roanoke, Virginia. As of February 2017 Lothair has 682 documented therapy visits. Each year, the VVMA presents an animal hero award to an animal who has performed an act of heroism, or has provided such outstanding service to humans that he would qualify as an Animal Hero. Lothair frequently visits hospitals, libraries, nursing homes, rehabilitation facilities, and substance abuse programs. In 2015 Lothair received the TDIG award in recognition of over 500 documented visits made.

Saying Good Bye

All of us together, whether we know or have known each other personally or not, are and have been part of something which is good, is alive and growing. TDI has been perpetuating itself since the beginnings in 1976 so many are and have been part of this by adding to this "Building". The message of Therapy Dogs has spread. Through the dedication of people with their dogs, we are learning and understanding that there is so much more to be done for the good of all, whether it is for humans or for dogs. By contributing our work with the help of our dogs, all of us in our unique way, have and are making a difference for the good of all Mankind.

Thank you and Good Bye to you who have completed your work here on earth. You have left behind something which has made it worthwhile to have been part of in this world. You will be missed and remembered as having been part of something which is greater than any work of each individual alone!

THE RAINBOW BRIDGE

There is a bridge connecting Heaven and Earth. It is called the Rainbow Bridge because of its many colors. Just this side of the Rainbow Bridge there is a land of meadows, hills, and valleys with lush green grass. When a beloved pet dies, the pet goes to this place. There is always food and water and warm spring weather. The old and frail animals are young again. They play all day with each other. There is only one thing missing. They are not with their special person who loves them on Earth. So, each day they run and play until the day comes when one suddenly stops playing and looks up! The nose twitches! The ears are up! The eyes are staring! And this one suddenly runs from the group! You have been seen, and when you and your special friend meet, you take him or her in your arms and embrace. Your face is kissed again and again and again, and you look once more into the eyes of your trusting pet. Then you cross the Rainbow Bridge together never to be separated.

In Memory . . .

We are saying good-bye to the following TDI dogs. We will always be grateful for the contributions these dogs have made to the lives of others. A very special thank you to their owners for sharing these remarkable creatures with us and for representing TDI so well.

Newsletter Submission Guidelines

TDI wants to hear about your visits! We publish stories and photographs that grab and engage the reader, as well as portray the healing power of Therapy Dogs. Before you submit your work, follow these guidelines.

- Photographs of people must be accompanied with a photo release form (available online).
- Photographs should be printed on quality paper.
- Photographs should be properly labeled, i.e., identify the dogs or people in the picture.
- Stories must contain few or no mistakes (proofread).
- Stories should be to the point and the author must illustrate solid examples throughout the story, i.e., show a visit, don't summarize one.
- A hospital, nursing home, etc. is full of sights, sounds, people, and emotions. We want you to capture all these details.
