ADD DESIGN TO YOUR LIFESTYLE

FLUVAL

Roma

The Fluval Roma is a rectangular aquarium designed on clean, simple lines to bring sophistication to modern home decor. With a choice of four sizes, each with co-ordinating furniture, the Fluval Roma Collection has something for everyone.

Remember exploring rock pools when you were young? Childhood is often where our fascination for the underwater world begins and, for most of us, it never ends. Bringing that world into our home is easy with Fluval and the Roma Collection makes it possible for anyone to create a living, breathing work of art which not only provides a fabulous insight into the natural world, but also co-ordinates with today's modern interiors.

ADD DESIGN TO YOUR LIFESTYLE

FLUVAL

Vicenza

Starting a new aquarium is an exciting experience and the waterscapes you create can be as different and diverse as the fish and plants you choose to keep in it. With a choice of 2 sizes, the Vicenza bow fronted aquarium brings designer style into your home and is the perfect way to display your aquatic creation, whether it's cool and minimal or lush and exotic.

See pages 12-15 for features, specifications and equipment included

With its graceful curves, the Fluval Vicenza bow-fronted aquarium adds a beautiful dimension to flat walls. Designed to enhance modern decor with a choice of finishes to co-ordinate with today's look.

PRODUCTS INCLUDED: Each Fluval aquarium set contains a selection of the world's best selling aquarium products

1 Fluval U Filters

2 Fluval M Heater

3 Marina LCD Digital Thermometer

4 GLO Aquarium Lamps

5 Fluval External Filter

Nutrafin Food and Water Treatments

9 Fluval Aquarium Care Guide

1 Fluval U Filters

(included with Roma 90/125/200)

Discreet, but powerful, the Fluval U Filter combines mechanical, biological and chemical filtration within a fully submersible unit. Operates quietly and effectively, removing both solid and liquid wastes. Simple to install and maintain.

2 Fluval M Heater

The Fluval M-Series Heater is designed to blend into the natural look of the aquarium with a specially coated glass casing reflecting the colours and shapes around it. Rigorous safety and quality tests ensure this high quality heater is safe and reliable.

3 Marina LCD Digital Thermometer

An accurate, easy-to-read LCD display.

4 Glo Fluorescent Aquarium Lamps

Specially designed aquarium lighting

GLO T8 fluorescent lighting provides essential light stimulation to fish and plants.

GLO T5 super high output lamps create a stunning display.

5 Fluval External Filters

(included with Roma 240, Vicenza 180/260, Venezia 190 and Profile 1000/1200)

The Fluval external filter is powerful and reliable. Its multi-stage system allows pro-active control of water characteristics. Operates outside the aquarium where it is easy to access for cleaning and maintenance.

6 Nutrafin Aqua Plus

Nutrafin Aqua Plus neutralises the chlorine and chloramine in tap water to make it safe for fish to live in. It also contains a pure herbal extract, known to be calming to fish.

7 Nutrafin Cycle

Nutrafin Cycle is a super concentrated formula of beneficial bacteria which, when added regularly, helps to quickly 'mature' the water conditions for the introduction of fish.

8 Nutrafin Max Tropical Fish Food

Quality food providing a balanced diet for tropical fish which also helps to enhance their vibrant colours. Nutrafin Max is formulated to provide precisely the right amount of phosphorus which helps to control algae and reduces the amount of fish wastes.

9 Fluval Aquarium Care Guide

Essential guide for setting up and looking after an aquarium.

FLUVAL EDGE

ADD DESIGN TO YOUR LIFESTYLE

Clean, architectural lines and supreme simplicity...

all you see is style

Fluval EDGE brings an exciting new look to aquatics, combining the most modern aquarium design with the beauty of nature.

The result is an utterly stylish complement to any home or office space.

Design

The Fluval EDGE aquarium has been designed for today's lifestyle with a contoured casing module and a 6-sided glass tank. Whether in an ultra modern or more traditional setting this versatile aquarium adds the 'designer' look to almost any room in the home and, with its compact dimensions, Fluval EDGE can fit almost anywhere.

The gentle flow of the water and the glow of the lighting combine to produce a beautiful 'shimmering' effect...reminiscent of sunlight on open water. Positioned at a lower level, the glass top ensures this stunning effect can also be viewed from above, unhindered by equipment or trailing wires.

FLUVAL EDGE

ADD DESIGN TO YOUR LIFESTYLE

Power

The unique equipment module hides and holds all the essential equipment needed to keep the aquarium looking good. Low voltage Halogen bulbs provide economical lighting and the EDGE filter is quiet, powerful and easy to use.

The constant cascade from the filter oxygenates water and 3-stage filtration ensures a clear and healthy environment...

MECHANICAL

Foam filter - traps particles and debris.

CHEMICAL

Carbon insert - absorbs odours, discolorations and impurities.

BIOLOGICAL

BIOMAX insert - expands biological capacity to encourage growth of friendly bacteria.

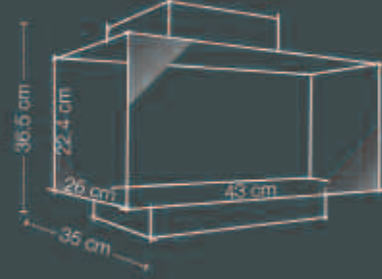

Versatility

Fluval EDGE is extremely versatile, perfect for any home or office. Its compact proportions make it a beautiful addition to any interior décor where space may be limited and in low light areas the aquarium glows like a jewel, bringing light and life to dull corners or uninteresting walls. Neat design solutions take care of the essentials, even wiring is beautifully hidden, allowing a good, all round view whether placed on a desk, coffee table or kitchen top.

Available in a choice of 3 colours: Burnt Orange, Pewter or Matte Black to blend with any interior decor.

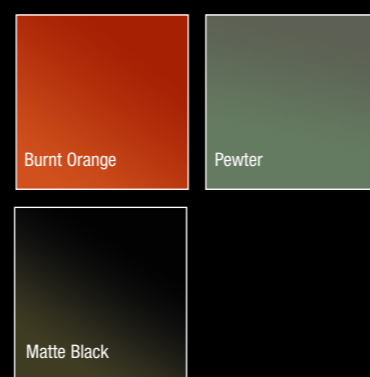

Dimensions:

Capacity: 23 Litres (6 US Gal)

OTHER ITEMS AVAILABLE IN THE FLUVAL EDGE RANGE:

12290 ZEN WALL DECOR ORNAMENT
Modern, linear design ornament, made of durable resin and glass, with plant holders and a screen wall with cutout to accommodate the filter inlet pipe and optional heater, if required.

A756 HEATER
Required for tropical fish set-ups. Compact, safe and submersible, pre-set to 26°C/78°F with no adjustment necessary.

11259 FISH NET
Angled, triangular head allows access into corners. Soft mesh netting is safe for small or delicate species.

11059 GRAVEL CLEANER
Contoured to reach all corners of the aquarium. Includes 2 cleaning heads, easy start valve and an exclusive gravel guard.

11206 DIGITAL THERMOMETER
Mounts to the outside glass for an accurate and clear temperature reading.

11024 ALGAE MAGNET
Low profile design with large internal scrubbing pad for effective glass cleaning. Corrosion resistant.

REPLACEMENT MEDIA AND ACCESSORIES:

A1389 FOAM AND BIOMAX RENEWAL KIT
Foam Pad traps particles and debris. BIOMAX provides optimal colonisation of beneficial bacteria and enhances the reduction of fish wastes. Renew every 2-3 months.

A1379 CARBON CLEAN & CLEAR RENEWAL SACHET
Convenient sachets contain a premium grade carbon providing superior absorption qualities, which eliminate toxic impurities, odours and discolorations. Replace every 2-4 weeks to maintain a healthy environment.

A1387 PRE-FILTER SPONGE
Traps fine debris and prevents small or baby fish from being drawn into the filter.

11349 ALGAE CLEAR
Absorbs and traps phosphate, nitrate and nitrite denying algae the nutrients it needs to grow and multiply. Helps to provide clear water and reduce odours.

11699 SHIELDED HALOGEN REPLACEMENT BULBS
2 x 10W halogen bulbs give shimmering light to plants, rocks and fish.

12290
Zen Wall
Decor Ornament
(plants not included)

ADD DESIGN TO YOUR LIFESTYLE

Creating a superb display

A beautifully installed aquarium can make a huge difference to any interior space. In the home or office, you can create a feature which reflects the surrounding decor or blends with existing colour schemes. Give some prior thought to gravel, rocks, plants and fish as there are many ways to achieve an individual look. Look out for our exciting range of Marina accessories which includes a range of pictorial or moulded rock backgrounds. As well as adding interest and atmosphere to the scene they help to hide any unsightly wires or tubes. Every Fluval designer aquarium provides an ideal environment to support a living ecosystem and setting it up can be an enjoyably creative experience.

Choosing the right location

POSITION AWAY FROM DIRECT SUNLIGHT

POSITION AWAY FROM TV'S, HI-FI EQUIPMENT AND ANY SOURCES OF SOUND AND VIBRATION

POSITION WHERE THE AQUARIUM CAN BE SEEN AND APPRECIATED

POSITION AWAY FROM COMPUTER EQUIPMENT AND OTHER ELECTRICAL APPLIANCES WHICH MAY BE SERIOUSLY DAMAGED BY WATER SPILLAGES

POSITION AWAY FROM DRAUGHTS

POSITION AWAY FROM DIRECT SOURCES OF HEAT

POSITION CLOSE TO A PLUG SOCKET

Planning

Deciding where your aquarium is going to live is an important decision and deserves some preparation and thought. Once the tank is fully set up with water and decorations it cannot be moved. The only alternative is to completely empty and dismantle it to start again in a new location - definitely NOT a good start to your new aquatic hobby!

Choosing the right place also depends on various factors which may have undesirable effects on the aquarium conditions. Radiators, sunny windows, fireplaces and other sources of heat should be avoided. TV's, speakers, hi-fi and any other sources of sound and vibration should be sited away from the aquarium as this will cause distress to the fish.

Location

Study, dining room, living room, kitchen, entrance hall and office - wherever its final position you can be sure that your aquarium will attract interest from visitors and children. Be careful if you are considering using a conservatory - areas with temperature fluctuations are inadvisable. Don't hide it behind other furniture either- it deserves to be seen in pride of place. Use the room planner overleaf to help work out a good position. You may want to change the existing furniture arrangement to accommodate it too.

Power

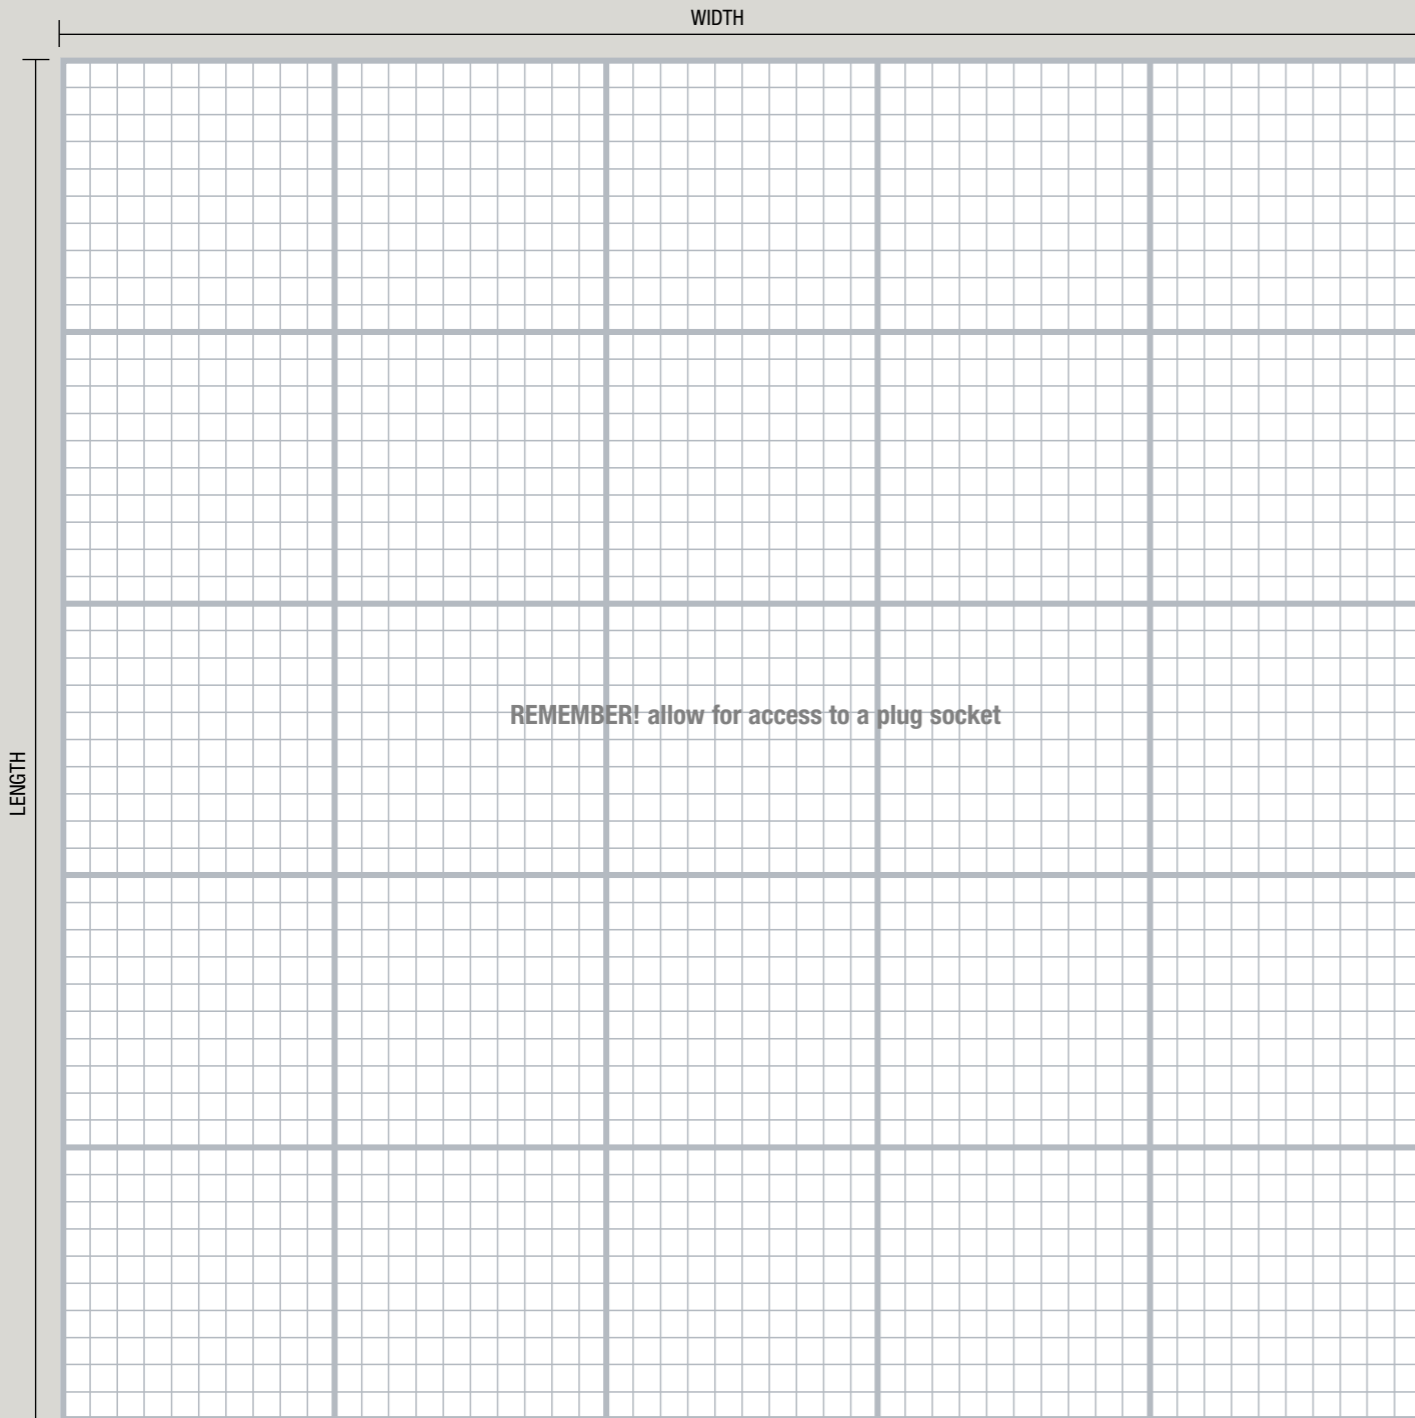

Items of electrical equipment need access to mains power, so bear this in mind when choosing a site. Make sure you can reach the socket easily. Don't position too close to other electrical appliances where water spills may cause serious damage or safety hazards.

Weight

Water is extremely heavy - around 1 kilo per litre. Even the smallest Roma aquarium holds 90 litres - around 14 stones! - and that's before adding any gravel or rocks! Always use the specially constructed aquarium cabinet and give some thought to the flooring too - is it strong enough to support the combined weight of a filled aquarium and cabinet?

ADD DESIGN TO YOUR LIFESTYLE

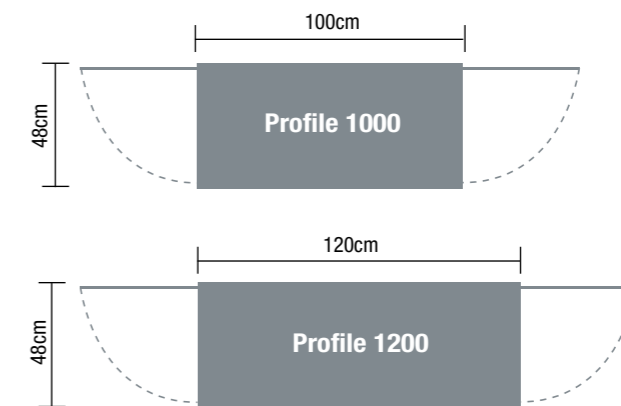

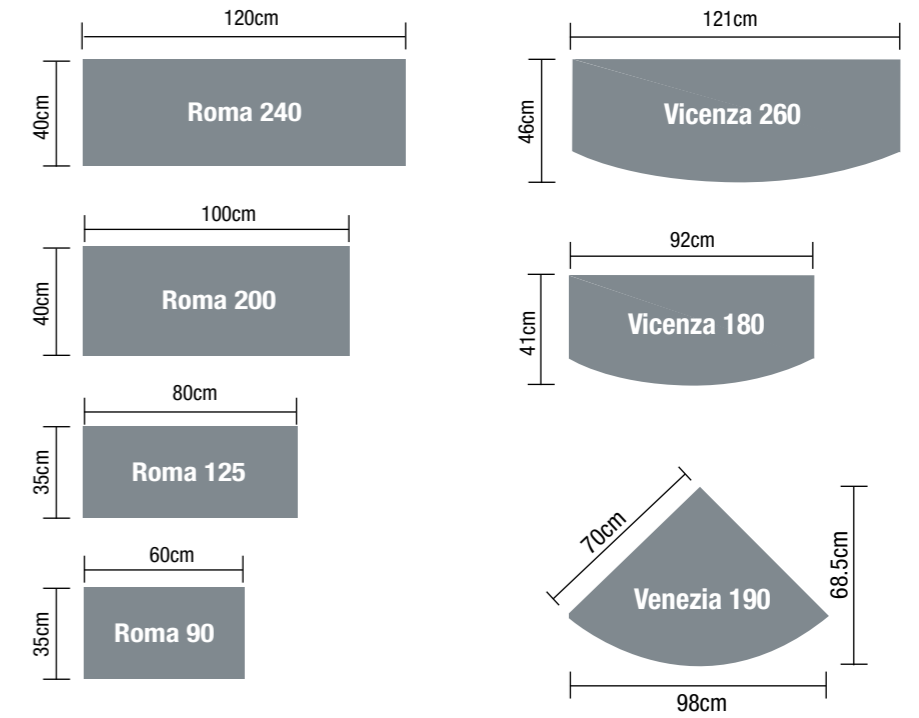

Room Planner

One large square = 1 metre (100cm) and one small square = 10cm (100mm)

Use tracing paper or cutout the shapes to lay over the graph and indicate the dimensions of the room or area where you plan to put the aquarium. Mark the sizes and positions of principal features including chimney breasts, alcoves, doors, windows, plug sockets and sloping ceilings and any other features which may affect the positioning of the aquarium unit.

The graph will help you to plan the location of your aquarium. The aquarium drawings on this page are drawn to the same scale as the graph (one small square = 10cm) so you can work out how everything fits.

Allow for side opening doors
