InterWrap® announces opening of global manufacturing support office in Hong Kong

Vancouver, BC January 23, 2014 – InterWrap Corporation, a world leader in the manufacture and distribution of coated woven products announced today the opening of a new management support and technical services office located in the Central Building, 1-3 Pedder Street building in Hong Kong. This facility has been established to coordinate and strengthen InterWrap’s global manufacturing capabilities. “It’s an exciting time for InterWrap as it continues to grow its company and workforce” said Eduardo Lozano Chief Executive officer. Today’s announcement underscores InterWrap long term commitment to industry leading quality and continued improvements in production safety and capacity.

A key element in InterWrap fast paced growth and success has been its ability to attract and retain some of the best talent in the industry. This location will include the following key global manufacturing personnel:

- Manish Khedkar – *Global Polymer Engineer – global resource for new technical formulations and applications*
- Teresa Lin – *Global Ocean Freight Supply Chain Senior Manager*
- Terence Chan – *Director of Manufacturing Engineering – in charge of all manufacturing engineering for the corporation including process, machinery, and engineering.*
- Gilbert Au – *Director of Lean – in charge of all lean initiatives throughout the corporation to improve production flow and reduce waste.*
