Our Mission

The South Florida Palm Society is a not-for profit organization whose mission is to disseminate information about and encourage interest in palms and the use of those plants. Funds donated to the Chapter through its annual sales are used to help support Fairchild Tropical Botanic Garden, Montgomery Botanical Center and other institutions, individual research, planting projects, and educational efforts.

Featured Palm

Dypsis sp. 'Orange Crush'

Also referred to as *Dypsis pulifera*, this palm is a threatened species in habitat and can be found in the moist forest of Marojejy and Mantady in the Sambirano region of Madagascar. It is a highly ornamental palm with a green trunk and an often bright orange crownshaft. The bright orange color is most apparent immediately after the boots from older branching is removed and then fades to a greener color. 'Orange Crush' is solitary, medium sized and has long, thin leaflets which are bright green and very evenly spaced. The palm heart is often harvested and eaten which is putting serious pressure on the populations—even within Marojejy and Mantady protected areas.

Photographs courtesy of Bo-Goran Lundkvist

This tropical palm likes moist conditions in a well drained area and is not very cold tolerant. It prefers full sun from the time it has grown into a 5 gallon size.

Volunteer Spotlight

Danny and Barbara Lutz

Many *SFPS* members donate their time in an array of activities that contribute to *SFPS* and make *SFPS* events possible. ***Danny and Barbara Lutz*** are two extraordinary examples of this growing list of volunteers.

Both are semi-retired registered nurses. ***Danny*** is from Salem Ohio and moved to Miami with his family in 1957. ***Barbara*** specializes in the study of auto-accident injury for two large corporations and is from the Pittsburgh, Pa area. She moved to Miami in 1970 to get away from the long Pennsylvania winters. They both became passionate about plants from a young age, ***Danny*** while working on his grandfather's farm every summer and ***Barbara*** while growing up with a father who was an avid and award winning gardener, both vegetable and ornamental.

Danny and Barbara were active with two local orchid societies in 2002 when a friend invited the two of them to a *SFPS* general meeting. We would like to thank that friend for bringing them to that meeting as they have contributed countless hours to our cause since then. They have volunteered at many events and have helped with everything from cashier to security.

We are so proud to have ***Barbara and Danny*** as a part of our *SFPS* family. Please join us in recognizing their efforts at making the *SFPS* experience a better one for all of us.
