

OUR PRODUCTS ARE ECO FRIENDLY AND BIO DEGRADABLE

Quality :

Just as the beautiful bird Swan symbolizes cleanliness and justice; Swan Laundry Care Products also represent these qualities and provide justice to every fabric by rendering it dirt free. These products have been formulated to derive the most out of surfactants, alkalis, sequestrants and inhibitors (anticatalysts), resulting in the best detergency, ideal solvent treatment and lather control.

Economy :

Money saved is, money earned! This philosophy applies to the results of using Swan Laundry Care Products. The products work out to be economical for the users by minimizing the wash time and by reducing the number of rinses, thereby saving time, electricity and water requirement.

Technical Services :

Several years of experience is embodied in each of the Swan Laundry Care Products. The customers can make the best use of these products upon consulting with our technical personnel for the right choice of products, their dosages and using methods suiting the laundry load qualitatively and quantitatively.

Our Products :

We offer the following Class A detergents, emulsifiers, softeners, boosters and neutralizers in powder form, that are safe for all kinds of fabrics and are effective even in regular hard water!
