CONSOLIDATED TRANSLATION SURVEY

↙ An author index to items in this issue is appended.

This Survey is prepared monthly by Foreign Documents Division, CIA, from lists received through cooperation of US government agencies and includes translations of such agencies, private industry, universities, research institutions, and commercial translation organizations. It is a compilation of foreign documentary projects, completed or started during the month preceding this publication.

Translations are listed by area and subject category. Scientific projects are grouped as a section regardless of geographic area. Title in English, author, foreign language title of source of material, date and data of publication, and publication identification of the completed project are given when available.

↑ Some of the above details may be unavailable on projects listed "in process." New projects in process will be listed only once, their subsequent listing being made when they are reported completed. Projects in process, i.e., not completed as of the date of this Survey, are noted with an asterisk (*), and when available, a project-control or "in-process" number is noted in parentheses following the title.

TABLE OF CONTENTS

Vol. 4, No. 4-A, 1960

1. Geological prospects of discovery of new oil and gas fields in the Stavropol district and Kalmyk ASSR.
K. A. Belov p. 185
2. The geology and oil-gas prospects of Eastern Kopet-Dag. S. P. Val'be, Yu. G. Kir'yanov and L. N. Smirnov p. 193
3. Direction of geologic-geophysical work for oil and gas in the Gaurdak-Kerki region. R. E. Ayzberg, M. M. Germanuk and N. N. Kamyshev p. 198
4. Use of seismic surveying for study of the subsurface structure of southeast Turkmenistan. D. M. Mil'shteyn p. 201
5. Geologic interpretation of gravity anomalies of West Uzbekistan. B. M. Geyman p. 206
6. Seismogeologic regionalization. A. I. Khramoy. p. 208
7. Problems of development of the Devonian oil pools of the Shkapov field. M. Kh. Musin p. 209

7 September 2004

Ms. Roberta Schoen
Deputy Director for Operations
Defense Technical Information Center
7725 John J. Kingman Road
Suite 0944
Ft. Belvoir, VA 22060

Dear Ms. Schoen:

In February of this year, DTIC provided the CIA Declassification Center with a referral list of CIA documents held in the DTIC library. This referral was a follow on to the list of National Intelligence Surveys provided earlier in the year.

We have completed a declassification review of the "Non-NIS" referral list and include the results of that review as Enclosure 1. Of the 220 documents identified in our declassification database, only three are classified. These three are in the Release in Part category and may be released to the public once specified portions of the documents are removed. Sanitization instructions for these documents are included with Enclosure 1.

In addition to the documents addressed in Enclosure 1, 14 other documents were unable to be identified. DTIC then provided the CDC with hard copies of these documents in April 2004 for declassification review. The results of this review are provided as Enclosure 2.

We at CIA greatly appreciate your cooperation in this matter. Should you have any questions concerning this letter and for coordination of any further developments, please contact Donald Black of this office at (703) 613-1415.

Sincerely,

A handwritten signature in black ink that reads "Sergio N. Alcivar".

Sergio N. Alcivar
Chief, CIA Declassification Center,
Declassification Review and Referral
Branch

Enclosures:

1. Declassification Review of CIA Documents at DTIC (with sanitization instructions for 3 documents)
2. Declassification Status of CIA Documents (hard copy) Referred by DTIC (with review processing sheets for each document)
