ADVERTISING INFORMATION & RATES CAN BE OBTAINED BY CALLING YOUR BUSINESS OFFICE

Every preparation is taken to avoid errors and omissions in the yellow pages. However, should any occur, the telephone company's liability shall be limited to a pro-rata abatement of the charge paid to the company for such advertisement in the same proportion that the error or omission reduces the value of the entire advertisement, to no extent shall such liability exceed the amount payable to the company for the advertisement during the time it is in error. All customers having business service are entitled to one listing in both the yellow and white pages section of the directory. Notice is given that those customers receive these listings at their sole risk and responsibility, and waive any claims against the telephone company arising by reason of errors in or omissions of these listings.

Every department of your business should be completely represented in these Yellow Pages.

Customer-provided telephone equipment & systems

General Information

Public Land Mobile Radiotelephone Service is offered to the customers of Mountain Bell Telephone Company, subject to the availability of the necessary facilities for such service. When facilities are insufficient to permit furnishing of such service in all those desiring it, applications for service shall be filled in accordance with priorities set forth in the FCC Rules and Regulations and the Telephone Company's applicable tariffs. Mobile radio equipment may be provided either by the telephone company or the customer. Radio equipment provided by a customer may be used on the telephone company's land mobile radiotelephone systems, pursuant to the Rules and Regulations of the Federal Communications Commission and the tariffs governing these systems on file with the Public Utilities Commission of the State of Colorado. In general, these rules and regulations provide for the use of customer-provided radio equipment subject to the following conditions:

- All radio equipment must be type accepted by the Federal Communications Commission.
- A Letter of Intent to provide service must be obtained from the Telephone Company whose system will handle the majority of the calls made by the customer. A request by a customer for a Letter of Intent must specify the primary area in which the equipment will be operated.
- A license for the equipment must be obtained from the Federal Communications Commission before that equipment may be operated. The Letter of Intent from the servicing Telephone Company must be submitted to the Federal Communications Commission with the license application.
- Upon submission of a copy of the Federal Communications Commission license to the Telephone Company which provided the Letter of Intent, a mobile telephone number will be issued and use of the equipment may commence.

The Yellow Pages Are Used Ten Million Times A Day.

MEMORIES ARE MIGHTY SHORT

When a name RECOMMENDED has been forgotten!

You remember the recommendation but don't remember the name. If you'll look in the

yellow pages

you'll probably recognize the name when you see it—and when you call the firm, tell them you found their name in the YELLOW PAGES.

Colorado Country LTD.
 REAL ESTATE MATCHMAKER OF COLORADO WEST

Up Front
 Yes, from ASPEN to RIFLE, the World Skiing Capital to the World Oil Shale Capital, we are Up Front in Real Estate Matchmaking.

We're Up Front for several reasons. For instance, we have fully staffed offices at BASALT, CARBONDALE and Rifle in addition to ASPEN. And we are enthusiastic members of both the ASPEN and UPPER COLORADO multi-list services.

But mostly we're Up Front because of the people who work for us.

They know the mighty mountain wonderland we call COLORADO COUNTRY like the palms of their hands.

They're good at their jobs. They learned long ago that to be successful, you have to be good.

Yes, our people are the main reason we're the Up Front real estate matchmaker for Colorado West.

And reason, too, why you should put them to work for you today.

We want your telephone directory to be as helpful to you as we can make it. If you need help quickly, the Yellow Pages are the place to look. Roofers, painters, plumbers and thousands of other services and dealers are listed in the Yellow Pages.

WHEN EMERGENCIES ARISE

In emergency situations you want to call someone in a hurry. Whether it's a radio repairman, veterinarian, electrician, or nurse, you can find who is nearby when you look in the

yellow pages

The firm you call will be glad to know you found them in the "YELLOW PAGES" - why not tell them?

Simplify your buying - know where to buy if. The dealers in many nationally advertised articles are listed in the Yellow Pages. Make it a habit before buying to "Look at the Yellow Pages."

MEMORIES ARE MIGHTY SHORT

When a name RECOMMENDED has been forgotten!

You remember the recommendation but don't remember the name. If you'll look in the

yellow pages

You'll probably recognize the name when you see it - and when you call the firm, tell them you found their name in the YELLOW PAGES.

WHEN EMERGENCIES ARISE

In emergency situations you want to call someone in a hurry. Whether it's a radio repairman, veterinarian, electrician, or nurse, you can find who is nearby when you look in the

yellow pages

The firm you call will be glad to know you found them in the "YELLOW PAGES" — why not tell them?

MEMORIES ARE MIGHTY SHORT

When a name **RECOMMENDED** has been forgotten!

You remember the recommendation but don't remember the name. If you'll look in the

yellow pages

you'll probably recognize the name when you see it—and when you call the firm, tell them you found their name in the **YELLOW PAGES**.

Mountain Bell

Customer-provided telephone equipment & systems

General Information
 Equipment provided by a customer may be used with the Company's facilities if such use complies with the Company's tariffs. These tariffs permit installation of both voice and data transmitting equipment. However, these tariffs stipulate that customer-provided equipment (other than decorator telephones modified by the Telephone Company or permissible attachments or acoustic or inductive connections) must be used with Telephone Company furnished protective connecting arrangements for which a charge is made, and must meet the technical criteria described in the Company's tariffs. The tariffs do not permit jacks, plugs, extension cords, etc., not provided by the Company to be connected directly to Telephone Company lines.

The tariffs are designed in the interest of good telephone service and to prevent hazards to customers and Company employees. A customer's service is subject to suspension when customer-provided equipment or jacks, plugs, extension cords, etc., are used in violation of these tariffs.

A service charge will apply when and if the Company makes a repair or service call and the trouble is found to result from the use of customer-provided equipment.
