

## Queen of Kings

Be warned, you wont see him crossing, the ocean blue  
Unreckoning his armor white and pure  
Her every wish, they must endure  
He's enchanted

Now that you see the curse bestowed upon him

Many a throat he has slit for her  
Many have known death after dishonor

Her every wish is his command  
But this is the only path he knows

Truth may be hard to see  
But it was long ago  
Before she came to be in power  
He was so enchanted with love  
Or was it lust that caused his soul to become lost

My ship awaits  
Just to be  
Forever lost at sea  
For you my queen  
Your every wish  
Let it be  
My undoing  
Hail to the queen

## Believers

Come one, come all, step inside and take the times of your life

Like your lips knew the taste of defeat

The torch will be passed down

The failing hands rise

What the fuck do you know about rock n roll?

There's a new sound coming in, that we're bringing

And oh you silly girl, they can't burn down your home

Home you know it is, where your heart is

Home is where your heart is

You were right, my mistakes shone bright like the sun

You're the one who allows me too, shine on crazy like I do

By my side, and if you should ever leave me

I'll pull myself out again, without my love you'd be dead

Pull me out in due time to salvage strength to

Pull myself out through, the depths of life's deepest blues

If you came down tonight it's to party, if you dig this sound

Get down to the ground, we've just lost all control

I like it so down and dirty, if you dig that sound

Get down, let fists pound 'til we lay in the ground

You think we're evil but lately you do you know you've got it all wrong

This loves not a promise it's the truth for this world

Like you know you could, just like you know I would

Bring ease to your mind, you know it's true

We believe in you

We believe in you baby everything that you deem as truth

Never listened to maybe we believe in you

We believe I believe in you even through your mistakes

Never let us down, always stood your ground

We believe in you

## Concord

I close my eyes so tightly and hope this is a dream  
Its not, run as fast as you can  
And I know I'm not ready to let you go again  
Come on, I can't leave you behind

And we both have to be ready to go on this  
Cold blood covered path  
Irrevocably scarred and alone  
Baby if I get bit, put the gun to my head, take me home, yeah

So baby if I get bit, just put that gun to my head  
And just blow my fucking brains out  
I hope you know your own way out  
Get out

Hope you know your way out  
Because I am so lost  
But I know  
If I make it to the safe point  
Ill be greeted by my friends and family there

Tonight we join together  
And we celebrate  
Our small victories in this battle called life  
So come on  
So all my brothers come down  
Sisters you're where you should be at  
Tonight we join together and celebrate  
The art of rock n roll

My boys like rock n roll

So come on girl hope you brought along your finest dancing shoes  
Cause tonight we're going out on the town  
That burns with the sweet scent of chartreuse  
If you came to get down tonight  
There's only one thing you should know  
When you see these boys around  
We get down right dirty

## Nomad's Land

Now my sweet child  
Are you afraid  
Of what you'll find in the corners of your mind  
Or are you a slave  
To all the rules  
That they give to you and you feel you must obey  
Listen to me

There's a sound deep inside your soul  
And when you listen to it  
And give it complete control  
It can take you out onto  
The open sea  
Where some go and never return

My brother I'm so happy you  
Decided to take this step again

Hitting the road and finding our way back home

And every night when the lights go out we light the torches  
Leaving our blood on every stage  
Until we retire, we're home set

Always weathered and torn but ready for this journey home

I want some bloodshed on this floor  
Please take me home  
Straight to my throne

So now we ride, home is so far away  
Carry on, screaming victory

'Til bloodshed or home sight well find our way home

I would follow you into the depths of hell  
Tomorrow we ride  
'Til black of day or dead of night  
'Til bloodshed or home sight

Nomad, make your way back home  
Nomad, there's nowhere left to roam  
I said  
Nomad, make your way back home

Nomad, these lands you must no longer roam
