

IVE-W554ABT 6.1" MOBILE MEDIA STATION with PANDORA INTERNET RADIO

PANDORA
INTERNET RADIO

This all-new Mobile Media Station provides a multitude of media playback options, including DVD, CD, iPod or iPhone USB music and video, and it's ready to connect Pandora Internet Radio for limitless music content.

Bass Engine SQ provides 10 preset EQ modes for easy sound tuning on the fly. For more detailed adjustments, the 9 Band Parametric EQ, 6 Channel Time correction and High Pass/Low Pass filters enable the sound to be perfectly tailored to the listener's taste. Built-in Bluetooth provides convenient handsfree operation of your mobile phone, as well as wireless playback of your music with A2DP. Plus, Android smartphone users can take advantage of Bluetooth for wireless use of the Tunelt app and Pandora Internet Radio (app required).

An intuitive new graphic user interface, selectable background colours and stylish fascia means the IVE-W554ABT will look great in any car, while being easy to use and minimise distraction. Furthermore, a reverse camera can be connected for maximum safety, and a convenient direct access button means it can be used at any time.

PANDORA
INTERNET RADIO

Whether you have an iPhone or Android smartphone, the IVE-W554ABT gives you full control of Pandora straight from your dash. Whether you choose to connect through USB (iOS) or stream wirelessly (Android), you can enjoy your favourite Pandora channels with Thumbs Up/Thumbs Down buttons directly on the display, quick search features, and even the ability to create a new Pandora station and bookmark your favourite tunes on the go.

BASS ENGINE SQ puts the power of advanced sound processing in your car to maximise bass sound and overall tone balance, plus lots of custom tuning functions like Digital Time Correction and 9-Band Parametric EQ. Best of all, you can control them easily from your smartphone with the Tunelt app.

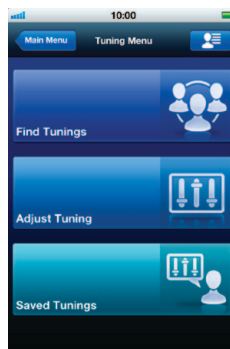

Alpine's Tunelt App

Alpine's Tunelt application is designed to make smartphone integration a breeze, offering advanced audio tuning, search and download of preset audio parameters and Facebook access optimised for on-the-run information. Best of all, the IVE-W554ABT supports the use of both Android and iOS devices to access the Tunelt app.

Now it's easy to keep up with Facebook while you're on the road. The Tunelt app not only gives you a notification list and wall link, it lets you "Like" messages and even reads them to you via Text-to-Speech.

Adjust the sound to perfection, with parameters including 9-Band parametric EQ, time correction, high pass and low pass filters, subwoofer phase, fader/balance and Media Xpander. Plus, browse custom tunings based on car type and genre. Tunings can be uploaded and shared with other users for easy access to a large range of tuning setups.
