The BIGGEST, easiest-to-read LCD screen on any PDU is the one in your hand

ST Eye

Introducing the latest innovation from Server Technology

Bring your mobile device to work. The ST Eye mobile application allows you to monitor critical power and environmental data directly from your Android or Apple app. It's the first Bluetooth® capable PDU technology on the market and the latest innovation from Server Technology.

- The quickest and easiest way to monitor your PDU at the cabinet level.
- A Free Android or Apple app allows simple remote access to the PDU's critical power and environmental information.
- Power, Environmental & System Information in the palm of your hand.
- No need to connect to a computer or physically connect to the PDU (either via the network or the serial port) to get information from the PDU when at the cabinet.
