SPECIFICATIONS

Connection	USB	USB	USB	WiFi
Network	3G/4G LTE	3G/4G WiMAX	3G	3G
Hotspot Capability	No	No	No	Up to 5 devices

DESCRIPTION

Plug-in-Connect Tri-Mode USB is an easy-to-use mobile broadband solution for instant connectivity to 4G LTE, 4G WiMax or 3G CDMA networks. Use with any laptop, or desktop with a Windows, Mac or Linux OS without certification or installation permissions on the host PC.

- 4G LTE high speed with fall back service to 3G
- Speeds up to 10x faster than 3G
- No Software Installation Required
- Easy to use Web User Interface
- Control your modem from your Web Browser (Web UI)
- Flexible fold-away & 180° rotating USB connector

Sierra Wireless 250u connects to your laptop, netbook, or PC via rotating USB, so you can make the most of any tight spot. Check email, participate in web conferences, download massive presentations – all from wherever your mobile office takes you.

- Dual-mode 3G/4G device, dependable 3G speeds and accelerated 4G speeds where available
- Unique, first rounded USB design with 180 degree rotating connector
- GPS Navigation enabled
- Web browsing capable
- Email capable
- Connects to broadband router

The powerful performance of broadband Internet, high capacity removable memory storage and GPS is now all wrapped up in the thumb-drive sized Novatel MC760.

- Broadband Internet with NovaSpeed
- Removable microSD storage up to 8GB
- Internal antenna
- No CD required for installation
- Branding, customization, and multiple language options

With the simple push of a button, wirelessly access the Internet from virtually anywhere with any WiFi-enabled device. And because it supports multiple users, you can share your high-speed connection with friends, family members and co-workers.

- Access EV-DO Rev.A mobile broadband networks with the world's smallest Intelligent Mobile Hotspot
- Connect up to 5 WiFi-enabled devices.
- Easily fits in the palm of your hand
- Simple, one-touch connectivity
- NovaSpeed™ capable
- Automatic installation (USB tethered modem with cable)
- GPS-enabled for location-based services

For more information about Mitel Mobile devices, please contact:

Mobile HotSpot feature requires a Mobile HotSpot monthly service plan. Mitel Mobile service is powered by the Now Network from Sprint. 3G and 4G coverage may not be available in all areas. Please see www.mitel.com/mobile for the current Mitel Mobile voice coverage map. Mitel Mobile devices will provide service by roaming when the primary network is not available in certain areas. Coverage is not guaranteed and subject to change. Some devices may contain embedded or user added software applications which do not function or fully function on the Mitel Mobile network and software application performance is subject to coverage, device limitations and other certain factors and not guaranteed. All services provided by Mitel Mobile are governed by the Mitel Mobile Terms and Conditions, Mitel Mobile Acceptable Use Policy and Mitel Mobile Customer Agreements. Mitel Mobile service is provided by and invoiced through Mitel NetSolutions, Inc.
