## WON CASH PRIZE AT SAGINAW FAIR

Again Crawford County demonstrated before fair visitors that this county can raise as fine agricultural products as can be produced in Michigan. Our exhibit at the Saginaw fair last week captured one of the cash prizes—\$65. While we did not win first prize as we did at the Bay City fair we have every reason to feel proud of the splendid showing that was made. Several exhibits were shown from Saginaw county, fresh from the fields and orchards, thus having a big advantage over the exhibit shown by our county, which was first shown at the Bay City fair then repacked and shipped to Grayling where, after a whole week's holding it had to again be packed and shipped to the Saginaw fair. To even be

within the money limits was indeed surprising, after all that our exhibit had to go thru. The supervisors' committee and County Agent Bailey, who had charge of the exhibits are highly elated with the results of their efforts at these two fairs. But they remind us that it was only thru the co-operation of our farmers that they were able to present the fine exhibit that was shown.

### LOW RATES TO WASHINGTON EVENT.

Reduced rates on all railroads have been made for those who will journey to Washington, D. C., for the ceremonies in connection with the laying of the cornerstone of the George Washington Masonic National Memorial Nov. 1. The largest number of Masons ever assembled at any one place at any one time is promised for these ceremonies, which will take place at Alexandria, Va., just outside the city of Washington.

## THE SCHOOL TATTLER

Donald Reynolds—Editor.  
Helen Sherman—Asst. Editor.  
Vernon Kilgusmith—Athletics.

The Tattler—A medium through which you can reap revenge upon your adversaries.  
The Tattler—A name which can be applied to anybody—remember it.

Back again with a BANG ready to prove to our readers that this term will be a BANNER ONE for G. H. S. Kindly regard our TATTLER with a little consideration and slip us a few "Tattles" now and then. Boost your school and by that you will be boosting the Tattler.

A letter received from Mr. Johnson, Superintendent of Public Instruction, reminds us that one hundred and thirty six years ago, Sept. 17th, 1787, the Declaration of Independence was completed—remember it.

Bring all your mice, rats and snakes to Miss Fox, the biology teacher. She is starting a menagerie.

The library has reopened and extends its services to all those who find joy in its contents.

A large number of interesting books have been received.

We have a large number of tuition students on record this year. A big factor in boosting G. H. S.:

- Myrtle Vance.
- Sarah Vance.
- Wilbur Gould.
- Carl Olson.
- Rufus Edmonds.
- Lena Duffell.
- Alice Wellington.
- Cora King.
- Caroline Hanson.
- York Edmonds.
- Edgar Douglas.
- Henry Rucsky.
- Ruby Stephan.
- Erma Sjolholm.
- Audrey Barrett.
- Frank McGuire.
- Lloyd Simpson.
- Philomena Krause.
- Edna Leibtze.
- Carrie Feldhauser.
- Glenn Diltz.
- Norval Stephan.
- Lacy Stephan.
- Rosemary McGuire.

The H. S. orchestra has been organized, and we are pleased to boast of a few new members. Among them we find: Buelah Colten and Francella

Corwin at the piano; Farnham Mattson, C melody saxophone; James Richardson, B flat soprano; George Granger and Beatrice Trudo, violins; Archibald Cripps, Albert Trudo and Donald Reynolds, cornets; Mrs. Crane, director.

Hit the line hard says the gridders and get through.

Wonder why the ribbons won't stay on the typewriter? Ask Al Schroeder, typewriter's reception.

### TEACHERS' RECEPTION

The teachers were entertained last Saturday evening by a reception given in their honor by the Women's Clubs. The program was as follows:

Vocal solo—Mrs. Crane.  
Piano accompaniment—Mrs. B. E. Smith.

Violin solo—Herman Hanson with accompaniment.

Vocal solo—Mrs. Milnes.  
Dancing concluded the evening. The music was rendered by Schram's Ramblers.

### FOOLISHNESS.

Helen Johnson—Don't you think Gorma Nish is just thrilling in her "Wild Oats?"

Lillian Ziebell—Yes, that's her best cereal.

Coach (to freshman in for football)—What experience have you had before? "Pinkey" Kilgusmith—Well this summer I was hit by two aptos and a truck.

Miss Fox (in biology)—What is an oyster?

Carl Olson—A fish built like a nut.

When Maude Taylor went on her trip with her friends, she was urged by them to show the signs of being accustomed to ocean life. As soon as they were on the boat she pointed to a row of life buoys and asked the captain what was the idea of the extra tires.

The art of walking logs is now included in the Domestic science course.

## TRAIN KILLED ROSCOMMON LAB

WAS SON OF PROSECUTING ATTORNEY HIRAM SMITH.

The Roscommon Herald-News will publish this week the accidental death of Harold, the young son of Prosecuting Attorney Hiram Smith of Roscommon. Through the courtesy of Editor D. E. Matheson the Avalanche is privileged to publish the same.

One of the saddest accidents to occur here in many a day was that which befell Harold, the seven year old son of Prosecuting Attorney Hiram K. Smith and wife, last Friday afternoon, about 2:30 o'clock, through which the little fellow lost his life, causing a pall of gloom to fall over the entire community.

The little fellow left home to go to school as usual but knowing that his parents had gone to Grayling for the afternoon decided to take a little holiday and with little Bobby Darvey, skipped from school.

The boys first went to LaRoche's lumber shed where they played for a little while and then went down to the Standard Oil station where they were seen playing and crawling over the supply tanks. A little later a freight train pulled into the long siding near the oil station to let the south bound passenger pass and here they thought to have a little "thrilling" game. Approaching the train Harold caught hold of the foot steps on a box car for a ride, trailing his feet on the ground. It is that in some manner his foot became caught in the frog of the oil station switch and was thrown under the moving train, and was killed almost instantly. His left leg was severed below the knee and crushed, the hip, his left arm crushed and his skull fractured at the base of the brain.

Seeing the accident that befell his companion, Bobby started down the track crying frantically. At the Dr. Curmalia home he related the incident to Miss Inez Carpenter who ran to the track and heroically gathered up the little form in her arms and carried him to the doctor's house. He died in her arms. Dr. Curmalia worked hard to restore life but his efforts were of no avail. Mr. and Mrs. Smith were hastily summoned home from Grayling only to learn after their arrival that their precious little son had gone to the arms of his maker.

Harold was a bright little fellow, was well known and liked by everyone and his untimely death was a severe shock, not only to his parents, but to the whole community.

The funeral services were held from the parental home Sunday afternoon, and were attended by a large number of sorrowing relatives and friends. The services were conducted by Rev. Lyon of Farwell, former pastor of the Congregational church here. The remains were taken to Howell, Monday morning for burial.

## THE TEACHERS' RECEPTION

For a number of years it has been the custom for the Women's Clubs to get together with the School Board to give a public reception and dance at the School gymnasium, that parents and friends might have the pleasure and opportunity of meeting and becoming better acquainted with the teachers of our public schools.

So on Saturday evening a fair size crowd gathered at the gymnasium to avail themselves of this privilege. The spacious room had been attractively decorated with autumn leaves and flowers and presented a very welcoming appearance. Mrs. B. Eagle Smith, president of the Goodfellowship Club, Mrs. L. J. Kraus, president of the Women's Club, and Mrs. Bates and Mrs. Keyport greeted the people as they arrived. At eight-thirty o'clock the teachers, faculty, and members of the School Board formed in line and received the many guests.

Immediately following the reception, Schram's Orchestra struck up the music for the dance and the floor was soon filled. During the evening vocal solos were sung by Mrs. Clifford Crane and Mrs. Roy Milnes. Also a violin solo was rendered by Herman Hanson. These were all much enjoyed as was shown by the hearty applause which followed each selection.

Punch and wafers were served by the ladies of the Clubs throughout the evening. This kept the crowd refreshed and added greatly to the pleasantness of the occasion.

Grayling is a little unusual in giving these fine annual affairs for teachers and patrons and the friendly spirit which should exist between parents, children and teachers is bound to be enhanced by these get-together meetings. It means no little effort on the part of the organizations mentioned to give these receptions and we are sure they must be appreciated by the Grayling citizens.

## START BUILDING LEGION CAMP

IN BUILDING-BEE LEGIONAIRES DIRECT MESS HALL.

Hard work becomes a pleasure when the motive behind it is inspired by the promise of loyal comradeship and recreation, as was the case with the members of the American Legion that gathered at Camp Curmalia on the shores of beautiful Higgins lake, last Saturday and Sunday to begin the construction of what promises to be a real legion summer home or club.

All told about 45 legionaires gathered at Camp Curmalia and proceeded to erect the first, and most essential unit of this camp that promises to become a very popular summer home and club. Armed with hammers and saws, and with materials already upon the grounds, the fellows went into the work of constructing a 2000 foot mess hall. All day Saturday and Sunday the surrounding woods rang with the merry sound of the carpenter's tools, and by Sunday night the mess hall was well along toward completion. Most of the counties of the eighth and tenth congressional districts were represented by workmen. Grayling and Roscommon Posts naturally had the largest representation present, these places being nearest the camp. Col. Augustus H. Gausser of Bay City also was present.

Will Henningson of Grayling took charge of the construction work, which was an assurance that everything would be done right and well. "Bitty" has proven himself an excellent carpenter. Thirty cots had been provided from the Hanson Military camp, so that the fellows had comfortable sleeping equipment for the nights. Meals were prepared and served by Mr. and Mrs. Jerry LaMonte, and they were ably assisted by Lloyd Jennings and it required better than army rations to feed the hungry mouths that circled about the improvised banquet tables.

To say that the legion members are happy over the prospects of having a club house at this place would be putting it mildly. The location is ideal, adjoining the Higgins lake forestry, and consists of 65 acres and has a lake shore frontage of three quarters of a mile. We are sure this is to become the most popular American Legion summer club in Michigan, and is going to attract thousands each summer to the shores of this beautiful body of water.

Camp Curmalia is a very pretty name and was given it in honor of Dr. Curmalia of Roscommon, who was one of the principal movers in the affair. The name was selected at the State meeting of the American Legion that was held at Ironwood, in the Upper Peninsula in August. It was a fine compliment to the Doctor and one that we are sure he is most worthy of and that he will wear with due dignity.

The mess hall is only a small part of the plans that are made for the camp. In due time there will be a comfortable lodge, with large fire place, where the members may spend many happy-pleasure hours. A large garage and other necessary buildings will eventually follow, until every comfort that may be desired will be provided.

Suction Solid gym shoes at \$1.25 and up at E. J. Olson's.

## REV. HART APPOINTED TO FREDERIC

Rev. Fred S. Hart, of Caro, Mich., has been appointed pastor of the Methodist church at Frederic and he and his family have arrived and taken up their abode in our neighboring village at the north.

Rev. Hart held his first service in Frederic last Sunday and reports an attendance at the evening service of

REV. FRED S. HART

about 60 people. He says he intends to expand his service to take in some of the communities in the county where there are no regular pastors. Already arrangements have been made to hold services regularly at the Maple Forest school house.

During the past few years Rev. Hart has been a pastor in Caro, and it will be interesting to many here to

learn that he and Rev. Doty, a former Grayling pastor, have become warm friends, and he speaks very highly of the work Rev. Doty is doing at Caro.

The new pastor appears to be a sincere and very much alive preacher and we are sure the people of Frederic are fortunate in having him for their regular pastor. We are sure he is a worthy successor of Rev. Terhune, the grand old man who all loved so well.

BASEBALL PLAYED IN ALL PARTS OF WORLD

Chinese Have Developed Remarkable Proficiency.

Baseball is fast spreading to all four corners of the earth. France, Germany, Italy, Japan, China, Mexico, Cuba, Canada, several South American countries, Australia—these are only a few of the places which have taken up the great national pastime of the United States.

Strange as it may appear, the Chinese have developed remarkable proficiency in baseball, ranking even better than the Japanese.

During the tour of the big leagues in the East last winter some stiff opposition was encountered in China.

A team of all-Chinese players has been visiting this country for the last five years. Their record against the best college teams is 80 per cent on the credit side. The first year only one college nine was able to beat the Chinese, who won 27 games out of 28, and that was the crack Notre Dame aggregation.

"Tok" Liu, a Chinese living near Philadelphia, was a member of the first team to come over. He was offered a berth with the Philadelphia Nationals but was unable to stick. He played for two years in the East.

Cubans have also shown great aptitude for baseball, and there are several Cuban teams that are almost a match for any big league team in this country. League, the best major league pitcher of the year, is a Cuban.

Mexico is becoming quite enthusiastic about baseball. In the majority of the other countries mentioned, the pastime is still in the experimental stage, though slowly winning popularity.

It is not at all beyond the range of possibility that within five or ten years a world series may mean an ocean trip for one of the two contending teams.

Why Don't You Sneak in Alone, Felix

Maybe Einstein Could Understand This

So Helpful to Mother

"Hard at it, I see, Mrs. Grey." "Yes, Mrs. Blucher. This is my washing day, and looking after a family of ten doesn't leave much time on my hands." "Is that Kitty's voice that I hear in the parlor?" "Yes, that's her. I don't see how I'd get along without that girl. Always on those days when I have the most tiring work, she picks out her nicest pieces, like 'Sweet Rest By-and-By,' 'Mother's Growing Old,' habits, too. One thing which he is fond of doing is boring his way, with amazing perseverance, through all sorts of thick substances. For instance, this ant will eat his way through the side of a trunk or box, bore straight through whatever is within and emerge on the other side. Behind him he leaves a tiny, clean, straight little tunnel right through the whole thing—wool or wood, or even tin, a pretty substantial material that wise inhabitants have learned to use as a

Berg's Batting Faulty

Willard Robertson, manager of the Brooklyn nationals, thinks so well of Max Berg, the short-stop who joined the Superbas fresh from Princeton, that he is taking extra pains to correct the defects shown in the young man's batting.

As a fielder, Max has lived up to his advance notices, but at the plate, he fails to please the boss. Robertson believes Berg can overcome his faults, and is willing to spend the time on him.

Donor of Davis Cup

Dwight Davis, donor of the famous international tennis trophy, watched the first Davis Cup matches of the season, between Australia and Hawaii, at the Orange Lawn Tennis club, Orange, N. J.

Coach Russell Callow

Lauds His Boat-BUILDER

Russell Callow, coach of the champion University of Washington eight-oared shell crew, gives much credit to Broock, the boat-builder, for his success.

Premier Girl Diver

Miss Helen Wainwright, hailed as the world's greatest all-round woman aquatic performer, will try to add the national senior fancy diving championship to her laurels. Miss Wainwright holds a number of national championships and world's records, and she is one of the premier girl divers of the world.

Dubbed "Lefty Allen"

Herbert Thormalden, the Kansas City southpaw, is now "Lefty Allen" to his team mates. It happened this way: Thormalden pitched in Toledo one of the Toledo papers named "Allen" as the Kansas City pitcher, and in the story Thormalden was referred to as "Lefty Allen."

A young baseball writer was covering the game in the day of absence of the regular baseball man. This young man evidently caught just a flash of the announcer's "Thormalden" and, evidently not being familiar with the Kansas City pitcher, just jotted the name down as "Allen."

"Bubbles" Hargrave

"Bubbles" Hargrave has been one of the big factors in keeping Pat Moran's Cincinnati Redlegs to the front this season. Hargrave's defensive and offensive play has been far superior to that of many other backstops.

Sporting Squibs of All Kinds

University of Washington will add lawn tennis to its sports calendar. "The going is to get a lawyer and register, unless Willard. That ought to be easy."

Boston Elm, in the year 1878, is generally conceded to have been the first three-minute trotter. Four-fifths of the athletic games played throughout the world had their origin in Great Britain.

The fame of the Gibbons boys is still spreading. Les Moines, Iowa, now boasts of a light heavyweight who calls himself Jack Gibbons.

The title "world's champion billiard player" generally is associated with the best player at 18.2 ball-and-a-half and at this style of play, Willie Hoppe is the champion.

John Kuck, eighteen years old, a junior in the high school at Wilson, Kan., who won the highest individual points at the national interscholastic track meet this summer at Chicago, is a remarkable athlete. Kuck has never been coached.

Millie Suzanne Longlen of France has held the world's tennis title five years.

Buffalo may not be represented in the National three-cushion billiard league during the 1923-4 season.

Charleston, S. C., is credited with having been the first place where golf was played on the American continent. The game was regularly organized in 1794.

Bernon S. Prentice recently won the tennis singles championship of the Seabright (N. J.) Lawn Tennis and Cricket club for the fifteenth time.

Duke Kahanamoku, the noted Hawaiian swimmer, at the age of thirty-three is displaying wonderful skill and is now wearing the colors of the Los Angeles A. C.

Horseback swimming is the popular sport at the summer session at the University of Wisconsin. The only equipment necessary is a bathing suit, a horse and bride.

CIRCLING THE DIAMOND

Pitcher W. Shupe of Grand Island has been sold to the Syracuse, New York club of the International league.

Thomas Probo, infielder, has been released by the Memphis Southern association club to the Washington Americans.

The Joplin club has taken on an Indian pitcher named Carl Wright, who has been pitching independent ball in the Southwest claims a record of 31 games won out of 34 played.

Phil (Rip) Collins, pitcher on the Rockford team, has been sold to the Chicago Cubs.

Gossip in Minneapolis has it that Cleveland would like to obtain Carl East, the veteran, outfielder and former pitcher now with the Millers.

Hal Drew and Sul Dunning, Terra Haute, outfielders, have been sold to the Rochester club of the International league.

The Evansville club of the Three-I league has sold outfielder Bob Ganzel to the Birmingham club of the Southern league.

Arthur Fletcher, manager of the Philadelphia National league baseball club, has signed a contract to pilot the team again next year. He refused, however, to sign a three-year contract.

The Wichita Falls club announced the acquisition of Pitcher Earl Kuz, right-hander, from the Pittsburgh Pirates. The Pittsburgh club got Kuz from Sacramento and paid mighty well for him.

Yucatan has bought \$18,000 worth of baseball equipment, according to report. He can't be much of a pitcher.

Eddie Hoek, outfielder with Oklahoma City on option from Cincinnati, is a popular favorite with the fans of Jack Holland's town.

Horace Milan, outfielder and younger brother of Clyde Milan, is back in the Western league, the Sioux-City club having bought him from Bloomington of the Three-I.

Martinsburg has been making a run-away race in the Blue Ridge league this season.

The Wichita management made a good deal when it took on the veteran Joe Casey for emergency duty.

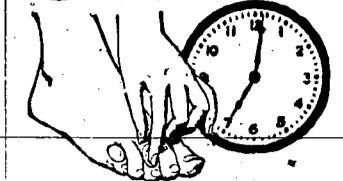

The scouts this year, after their hunt down the ivory ways, report that there are few good looking ballplayers. Scouts always have been reporting that.

Pitcher Harry Blueholder, who looked like a corner for Salt Lake before the season opened, has been sent home for the rest of the year as useless.

Bruce Hitt, right-handed pitcher, who has been sojourning in the Texas association this season, is on the upturn again. He has been obtained by purchase by the Des Moines club.

Manager Bernard Kelly of the Spartansburg team has reason to believe he has found a treasure in his namesake, Harry Kelly, recruited from Greenwood of the defunct Cotton States league.

CORNS

Stop their pain in one minute!

For quick lasting relief from corns, Dr. Scholl's Zino-pads stop the pain in one minute by removing the cause—friction and pressure.

Zino-pads are thin, safe, antiseptic, healing, waterproof and cannot produce infection or any bad after-effects. Three sizes—for corns, callouses and bunions. Cost but a trifle. Get a box today at your druggist's or shoe dealer's.

BELLE ISLE HARD TO REACH

Mariners Dread to Approach It Through Treacherous Bay of Biscay, Owing to Swift Currents.

Belle Isle is a rocky islet jutting out of the Bay of Biscay off the Brittany coast. While Belle Isle is but ten miles from shore, the water is so rough that few people care to risk the passage. The Bay of Biscay has always been the dread of mariners because of the high tides, fierce currents and dangerous reefs.

Belle Isle was inhabited from early times, for the remains of rock structures made by the Romans are numerous. Later the Romans occupied it as an outpost of their empire. Then it was held for a long time by a Catholic monastery. In 1761 the British captured the island, after a long siege, but it went back to France soon after. Napoleon started to fortify Belle Isle, but never finished the job. Dumas, in "The Three Musketeers," tells how the gigantic Porthos labored with the great rocks used for the earlier foundations.

Love Will Roll the Clouds Away, and sing them for me while I'm running the clothes through the first water. Talk every girl who'd be so thoughtful, I can tell you.—London Telegraph.

There Are Ants and Ants. In the various parts of the world you will find widely differing varieties of ants.—For instance, in Australia, there is an ant that resembles a tiny silver fish. He has most peculiar

habits, too. One thing which he is fond of doing is boring his way, with amazing perseverance, through all sorts of thick substances. For instance, this ant will eat his way through the side of a trunk or box, bore straight through whatever is within and emerge on the other side. Behind him he leaves a tiny, clean, straight little tunnel right through the whole thing—wool or wood, or even tin, a pretty substantial material that wise inhabitants have learned to use as a

trunk lining.

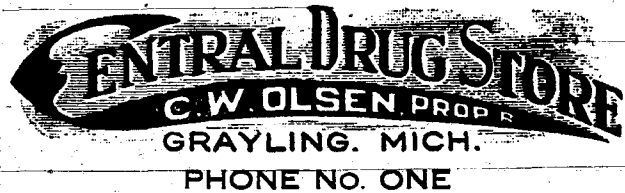

# Service

.....Is Our Motto

- To please the customer,
- To keep a promise,
- To keep the price down where the customer can reach it without the aid of an airship.
- That's our interpretation of service.

Everything a Good drug store should have.

# Red Crown Keeps Your Engine With You

It is never behind your whim. Answer—flexibility and a response so instantaneous as to make the machine seem part of yourself.

Flexibility comes from even vaporization at definite temperatures.

Even vaporization is possible only when there is a perfect chain of boiling point fractions. The chain in Red Crown gasoline is perfect, producing a steady, unbroken flow of power.

# Drive Your Own Car?

Then you'll appreciate Red Crown gasoline. You get the joy of perfect performance— instant starting—a snappy get-away—eager acceleration—sustained pulling power—racing speed if you want it—maximum mileage per gallon.

Red Crown is the year 'round gasoline—it performs with equal efficiency winter or summer—it vaporizes to the last drop. It leaves a minimum of carbon and fouled plugs. These are important features in cold weather driving.

**FARM BUREAU NOTES**  
R. D. BAILEY  
County Agricultural Agent

**LIMESTONE LEGUMES LIVESTOCK**

MEAN PROFITS IN FARMING

**OPPORTUNITIES.**

We Don't Take Them When They Come. Yet We Complain.

A greater degree of prosperity could be enjoyed by every farm family in Crawford County if the heads of those families had greater adaptability—which means power of fitting into the situation at hand.

A few illustrations will be given. The farmers of the county do not produce anywhere near the poultry products and dairy products that the county needs. Yet, only a very few farmers keep as many cows as the farm could carry, and those are usually poorly stabled, poorly watered, and poorly fed in winter. Yet, these same farmers hold "hard lines."

On but few farms is the hen house clean, warm, light and free from flies. On but few farms has the owner culled out unproductive hens, or shown any interest in the meetings to which I invited him to learn how.

On but few farms are hens given a fair show; yet, there would be a nice income from eggs and chickens to cook.

Bees would do well in this county; but, no one keeps bees. Tons of honey could be sold here; but, no one produces it.

Strawberries would do splendidly here, but, just one family raises them with any skill, for market.

Sprayed, perfect winter apples, free from defects and worm holes, would sell here by the wagon load.

We go without winter apples, or buy those shipped from the Pacific coast, at high price, because we have too many early apples planted; and because no one will prune, spray and thin their apples.

Thousands of dollars worth of ice cream are shipped in because the creamery cannot furnish it, because farmers fail to furnish those tons and tons of dollars worth of sweet cream.

We farmers are asleep at the switch. Strut and swagger and assuming an independent attitude won't get us anywhere. Accomplishment counts. It is the stuff turned out of the farm and the looks of the place, and the farmer's appearance and attitude towards good things that count.

No one offers sweet cider for sale, nor apple butter; nor fruit butter, nor vinegar; yet, these all are in demand, and tons of early apples and culls of later apples are rotting in the woods.

Adaptability—that's the word.

**Sweet Cider.**

Cider can be kept sweet all winter by proper heating and bottling. It would be nice for the farm family, and nice for the farmer to sell. The prohibition laws do not allow the sale of hard cider; but, cider, preserved by heat to keep it sweet, may be sold.

The U. S. Department of Agriculture has found that apple cider may be kept sweet for an indefinite time by Pasteurization. The process is very simple. Sterilize glass top jars or bottles by boiling for 15 minutes. Fill them with freshly made cider and seal. Then place them in a wash boiler on a wooden rack to keep them from touching the bottom. Cover the jars with cold water and heat slowly to 175 degrees F. Keep pint bottles at this temperature for 15 minutes; quart bottles 20 minutes, and half gallon bottles, 25 minutes. Allow them to cool in the water bath and then store them in a cool dark place. Farmers' Bulletin 1264 will give more detailed directions if the cider is intended for sale.

**Vinegar.**

Genuine, pure cider vinegar sells readily at a high price. Why not take in some money that way? Dear R. S. Shaw, of our Agricultural College, East Lansing, will supply a free bulletin showing how to make good vinegar.

**Apple Butter.**

There is no better way to use good apples and the sound portions of windfall, wormy, and bruised apples than to make them into butter, either in small or large quantities.

While almost any apples will make good apple butter, those which have a distinctively rich tart flavor and good cooking quality are most satisfactory. Such old standard varieties as "Northern Spy," Rhode Island Greening, Tompkins King, and Smokehouse are excellent for this purpose. It has been found in recent tests by the United States Department of Agriculture that the summer varieties make as rich and snappy apple butter as the fall and winter varieties. Varieties of coarse texture naturally make a rather coarse product unless put through a colander or wire sieve after first being made into apple sauce before adding them to the cider. Sometimes sweet apples are used with tart apples, the usual proportion being one-third of the former or to two-thirds of the latter. Over-ripe apples are not desirable, but if they must be used add a little vinegar to give some snap to the butter. The proportion of vinegar required must be determined by the taste.

It has been accepted generally that the sweet cider must be boiled down at least one-half before the apples are added and cooking begun and that slow cooking for hours was absolutely necessary. This, however, is not necessary; in fact, it is a loss of time and fuel to boil down the cider first and then cook the apples in it

for a long time. Just as high a grade of butter will result by adding the apples to the unboiled cider and cooking rapidly until finished. Small lots of apple butter may be made in one hour, or less, by putting the apples into sweet cider and cooking as fast as is safe without scorching. Large quantities take a longer time but may be cooked as rapidly as possible. Stricter attention must be given to stirring, in order that the butter may not scorch and stick to the kettle.

Apple butter with cider—Either fresh cider or commercial sterilized cider may be used. The usual proportion of peeled and sliced apples and cider is gallon for gallon, but from one-half to three-quarters of a gallon of cider to a gallon of peeled and sliced apples give a rich product if the apples are good cooking. Less than half as much cider as prepared apples is likely to make an apple sauce rather than a butter, unless it is cooked very slowly for four to six hours.

Continue the cooking until the cider and apples do not separate and the butter, when cold, is as thick as good apple sauce. Determine the thickness at frequent intervals by cooling small portions.

If sugar is used, add it after cooking of cider and apples is about two-thirds done. About a pound of either white or brown sugar is the usual proportion per gallon of apple butter, but more or less (or not any) may be used, to suit the taste.

Apple butter is spiced according to taste, about half a teaspoonful each of ground cinnamon, cloves, and allspice being used for each gallon. These are stirred into it when the cooking is finished.

Vanilla extract added after the apples are stirred in improves the quality and adds to the snappiness of the butter. Use from 2 to 4 teaspoonfuls per gallon of butter, according to taste.

Apple butter without cider—Good apple butter is often made without the use of cider. Acid apples of good quality are best for this purpose, as they make a snappy product. Add enough water to the peeled and sliced apples to make a thin apple sauce, cook very slowly, or simmer, over a low fire for three or four hours and stir often. Brown rather than white sugar is usually used, being added when the cooking is two-thirds done.

The sugar which settles at the bottom of a barrel of New Orleans molasses is excellent for this purpose. A pound per gallon is usually sufficient; but this amount is a matter of taste, as is also the amount of cinnamon, allspice, cloves, and vanilla to be added when the cooking is done.

Apple butter with grape juice.—If a snappy flavor is desired in apple butter it may be obtained by the use of grape juice. To each gallon of peeled and sliced apples, cooked into sauce in a strained add 1 pint of grape juice, 1 cup of brown sugar, and one-quarter of a teaspoonful of salt. Cook slowly and stir often for two hours, or until of the desired thickness; then strain in 1 teaspoonful of cinnamon.

Apple butter with lemons.—Slice four lemons, cover with water, and let stand over night. Next morning put them in a preserving kettle with 8 pounds of apples, pared, cored, and sliced. Cook for one hour, add 3 pounds of sugar, and cook slowly with frequent stirring one and one-half hours, or until of the proper thickness.

Apple butter with plums.—An excellent rich and snappy butter is made with apples and plums. Use one pound of plums to 2 measures of peeled and sliced apples. Wash and cook the plums and rub through a strainer or colander to get out the pits. Cook the apples into sauce, add the sliced plums, and continue cooking for an hour or two or until of the right consistency. When two-thirds cooked, add 2 pounds of sugar per gallon. When finished use spices and vanilla according to taste.

Apple butter with rhubarb.—A fairly satisfactory butter, or perhaps, rather, a made of apples and rhubarb. Peel and cut the rhubarb into short pieces and use from one-eighth to one-quarter as much as of peeled and sliced apples. Place the rhubarb and the apples together in the kettle and add enough water to make a rather thin sauce. Cook until the proper thickness. Use sugar and spices, as mentioned for apple butter with cider. This must be sterilized and tightly sealed at once, because molds attack and grow in it so readily.

**Plum Butter.**

Wash the plums, place them with a little water in a preserving kettle, and cook until soft. Then separate the skins and the pits by rubbing the pulp through a colander or a coarse wire sieve. In the case of large freestone plums it will probably be easier and quicker to dip the fruit into boiling water a few seconds until the skins crack, then dip into cold water; so that the skins can be readily slipped off, the flesh split open, and the pits removed.

If the plums are very juicy, the pulp put through a colander will be quite thin and ought to be boiled down to thicken it somewhat before the sugar is added. For each measure of pulp, whether put through the colander or not, use a half to three-fourths of a measure of sugar and cook slowly with frequent stirring until the butter is as thick as desired. If a tart butter is favored, less sugar should be used. Cinnamon, allspice, and cloves should be added to suit the taste when the cooking is finished.

Plum butter should be packed hot in hot sterilized jars or glasses and then covered with hot paraffin, or else sterilized as directed for apple butter.

**Sterilization of Containers for Fruit Butters.**

The ordinary glass or stone jars, hermetically sealed stone jars, or any glass or stoneware containers with or without air-tight covers may be used for holding fruit butters. Sterilize all containers and pour in the boiling hot butter. If the containers do not have air-tight covers, pour hot melted paraffin over the butter, at once to seal the top and keep out molds. Sterilize filled containers with tight covers on by setting them in a vessel fitted with a false bottom and deep enough to hold them, pour in a little water, put on the cover to hold the steam, and set over the fire. Begin to count time when the steam starts to escape, and after 5 minutes for quart or smaller sizes, 10 minutes for half-gallon

# BAND MILL ENDS OPERATIONS

AFTER ABOUT QUARTER CENTURY OF LOG SAWING.

The Band mill, formerly the property of Salling Hanson company, and later of R. Hanson & Sons and for the past three years the Hanson Land & Lumber company, ceased operations definitely last Saturday noon. The mill crew of about 35 men, with exception of about six yard men, walked out at that time to seek other employment.

For about 25 years this mill has been actively engaged in the sawing of logs into lumber, and has produced millions upon millions of feet of lumber for the home, factories, automobiles, Pullman cars, ocean and lake ships, and for many other things. The ceasing of operations here writes the final chapter of an institution that has furnished many men with long terms of employment and has contributed vast quantities of lumber to the world's needs.

Practically all the men who were employed at the band mill have found employment in the other mills, or at the Port plant or railroad. T. P. Peterson, assistant manager, reports that six men will be required to close out the lumber that is in the yards, which will take from six to eight months time. Considerable standing timber owned by this company will be sold to Salling Hanson company, and cut in the large mill, thus adding several years of operations to this mill.

## MASONS ATTENTION.

First degree communication, on Thursday evening, July 27th at 7:30.

## USE OF THE TELEPHONE.

There are approximately 14,000,000 telephones in use in the United States about 39,000,000 conversations daily. In other words one out of every three persons in the United States utilizes the telephone at least once daily through the year.

New Bell-owned telephones added yearly, average about 600,000.

At the end of 1922 the Bell system controlled more than 36,000,000 miles of wire of which 64 per cent was in underground cables.

The Bell system offers one of the best illustrations of the results of private initiative and incentive compared with the stagnation policy that develops under government control such as exists in Europe.

In the U. S. the telephone is a household necessity. In Europe the average person does not know how to use it and as for having an instrument in the home of a working man or farmer, it is almost unheard of.

Singer Sewing Machine Oil. Nothing better for fine machinery and guns. 3 oz. bottles 15 cts. E. J. Olson.

Twice-told testimony. Grayling People Are Doing All They Can for Fellow Sufferers.

Grayling testimony has been published to prove the merit of Doan's Kidney Pills to others in Grayling who suffer from bad backs and kidney ills. Last any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Grayling people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Grayling case:

Peter Wm. Christenson, Ghestnut St. says: "I have used Doan's Kidney Pills on different occasions and they have always proven of great benefit to me. When my back was weak and lame and the kidney secretions were too frequent in action, a box or so of Doan's have always cured the complaint."

The above statement was given on October 11, 1916 and on April 28, 1920, Mr. Christenson said: "Doan's are one good kidney medicine. They cured me in good shape, so I am glad to recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Christenson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

**FUNCH SCHOOL NOTES.**

The following school notes are collected by the pupils of the Funch schools:

Nothing is more reasonable and cheap than good manners.—Aron.

School opened on September 4th with an enrollment of six.

Our school room has been greatly improved by new slate blackboards.

Arthur Corwin was absent from school Thursday owing to illness.

Parents: Come and see the work we are doing.

Teacher to pupil in Penmanship class: Sit straight up and down.

Our teacher became so interested talking to neighbors Monday she was a half hour late to school.

Teacher—Vella Hermann.  
Editor—Albert Schreiber.

## IODIN AS A PROPHYLACTIC FOR GOITER.

Typical of the careful progress of scientific medicine is the gradual development of the prophylactic administration of iodine for goiter, since Marine and Kimball published their first results several years ago. As pointed out by them in their first report on the experiment in Akron, O., the administration of iodine for prophylaxis is based on sound experimental data including work in various laboratories for ten years previously. In 1917, they presented the problem and concluded that the risk of inducing manifestations of exophthalmic goiter from the use of iodine in physiologic doses is exceedingly small, even in those cases in which there are large hyperplastic thyroid glands. They suggested the administration of sodium iodide daily for two weeks as a prophylactic agent. The progress of their work and its gradual spread through goiter districts has been recounted in The Journal both editorially and in the original contributions. These fundamental articles have recently been collected under one cover by the Western Reserve University in its monthly bulletin for July. The bulletins concludes with a brief summary by Dr. O. P. Kimball, giving the progress of the work to the present time. In Zurich, in 1918, the prophylactic administration was begun. It was found that almost every child in some of the Swiss schools was goitrous, so that the treatment was given to both boys and girls of all school grades, a few milligrams of iodine being given weekly throughout the year. The results are reported as being even more striking in Switzerland than in this country. For instance in one canton, the incidence of goiter in all-school children in January 1919, was 87.6; in January 1922, 13.1. On account of the extraordinary results obtained during the last three years, the goiter commission of Switzerland has recommended that this method be instituted as a public measure throughout the republic. In this country the schools of Akron, Kent and Ravenna counties, in Ohio, have been using the method as a routine. It has been employed in Berea and Warren, O., and extensively administered in some of the large factories in Cleveland. This year, according to Dr. Kimball, the schools in East Cleveland, Shaker Heights, Warren, Niles and Findlay, Ohio; Grand Rapids, Mich.; and Hammond, Ind., are using tablets, each containing 10 mg. of an organic iodine, and each girl takes one tablet a week throughout the year. The possibility of harm from the dosage of iodine is said to be absolutely negligible. There has been only one rash in a thousand cases, and not in a single instance has an exophthalmic goiter been produced. It is recommended that in endemic goiter districts every woman keep the thyroid saturated with iodine by this method during pregnancy, and that every girl keep the thyroid saturated with iodine during the ages from 11 to 16 years.

## Most Girls Can Have Pretty Eyes

No girl or woman is pretty if her eyes are red, strained or have dark rings. Simple camphor, hydratis, witchhazel, etc., as mixed in Lavo-lin eye wash, will brighten the eyes and a week's use will surprise you with its QUICK results. Regular use of Lavo-lin keeps the eyes healthy, sparkling and vivacious. The quick change will please you. Dainty aluminum eye cup FREE. A. M. Lewis, druggist.—Advertisement.

Mr. and Mrs. J. E. Fletcher returned Saturday from a couple of week visit in Lansing and Detroit, and on their return were accompanied by the latter's sister Mrs. Frank Schmidt of Detroit, and at Bay City were joined by Mrs. Charles Hewitt and daughter, Audrey, who accompanied them home for a visit. Mr. Hewitt is also with his family here.

After years of faithful, ever-ready service, on Tuesday the Linotype machine that sets each week the news for the AVALANCHE sustained a setback from a broken gas burner. It is only a minor break however it was enough to hold up operations until Thursday night. This explains the reason for being late in publishing this week. During the delay, the crew resorted to hand setting of type but when, excuse us from that antiquated method of getting our newspaper, it really is a new machine and no further trouble is anticipated.

A business and social meeting of the officers, teachers and co-workers of the Michigan Memorial Sunday school was held at the home of Peter McNeven Tuesday evening. There were seventeen present. R. D. Bailey acted as chairman of the meeting. The following officers were appointed for the ensuing year: Ralph Hollowell, Superintendent; Elizabeth Alexander, Asst. Superintendent; Vera Matson, Secretary; Loretta McDonald, Asst. Secretary; Beulah Fawcett, Treasurer; Mrs. B. E. Smith and Bernice McNeven, Organists; R. D. Bailey, Librarian. Plans were made for Children's Week to be held October 14-21 and several good suggestions offered which will improve conditions of the Sunday School. A dainty lunch was served and a very enjoyable evening was spent by all present.

Of interest to Grayling friends will be the announcement of the marriage of Miss Maude M. Tetu to Mr. W. J. Aberle, that took place on the morning of Thursday, September 6th at St. Anthony's church in Long Beach, California. Rev. E. J. Haggerty performing the ceremony. The bride is the oldest daughter of Mrs. Henry Brusson and was born in Grayling. She attended Grayling schools, and has the honor of being a member of the first class that graduated from Grayling Mercy Hospital Training school. Since finishing her nursing course she has spent most of her time in Bay City and Detroit, where she practiced her profession. She has many friends in her home community who extend congratulations and best wishes. Mr. and Mrs. Aberle will reside in Los Angeles.

Made to order hats at prices that fit your pocket book. Redson and Cooley.

Suction Soled gym shoes at \$1.35 and up at E. J. Olson's.

Walter Naucau is driving a new Ford touring car.

Miss Gertrude Forester of Escanaba is visiting Miss Kristine Salling. The young ladies will be roommates at Ypsilanti this year.

C. M. Schwartz of the Schwartz Boiler Co. of Saginaw was in Grayling Tuesday looking after the job of repairing the smoke stack of the Grayling Dredge & Tie Plant Co., that fell over Tuesday morning.

Wonderful assortment of high top shoes, for the whole family. E. J. Olson.

Benton Jorgenson has closed out his auto supply store here and left Tuesday morning for Ypsilanti where he is about to open a store to handle a similar line of merchandise. During the two summers Mr. Jorgenson has been in business in Grayling he built up a fine trade and drew customers from many surrounding communities besides his home town. He carried a class of supplies that are seldom found in a city the size of Grayling and it seemed that there wasn't anything an auto owner could desire that he did not have in stock, and whenever new things came into the market he was quick to show them. He says he believes in advertising and has copy in for large advertisements to appear in the Ypsilanti newspaper announcing his opening day, which he says will be Saturday. Benton is a graduate from Grayling schools and is a bustling young business man, and we are sure he is going to have fine success in his new field. The short season for autos in his community is his reason for leaving. Autos run every month in the year at Ypsilanti, he says.

**THE PUBLIC RELATIONS OF INSURANCE.**

Business would be at a standstill if insurance should go on a strike. Not a train would move; not a ship would sail. The machines in factories would be stilled; automobiles would be left in garages. Even the banker's hand would be paralyzed—he would not know which would be the better policy; to call a loan, the collateral support of which is unprotected by insurance. Indeed, the sense of security against misfortune, which the public enjoys, is given to it by insurance. The lamentable feature of it, however, is that the public in general is not acquainted with the fact.

It has been well said that insurance is the basis of credit. An analysis of the situation proves this fact. Any action which injures a man's credit, limits his opportunity to do business. An injury to the insurance industry automatically affects the business credit of the nation.

## OUR BULLETIN

The Busy Shopper's Guide

O-CEDAR WEEK. The manufacturers demonstrator will visit Grayling in the near future and will be at our store for one solid week to demonstrate O-Cedar products. You will be interested in knowing more about this nationally advertised Mop and Oil. Watch our advertisement for the date; and be sure to come.

Michigan Happenings

Michigan peaches are going as far south as Tampa, Fla., as far west as Omaha, Neb., and as far east as Boston, in carload lots, according to a report by the United States department of agriculture.

The state has a cash balance of \$46,983,170.98, the monthly report of State Treasurer Frank M. Gorman recently revealed.

Deputy Secretary of State Elbert V. Chilson has returned from Chicago where he attended a conference of secretaries of state from all mid-western states held for the purpose of discussing uniform traffic laws.

The executive committee of the State Association of Farmers' clubs has decided to hold its thirty-first annual convention in Lansing, December 4 and 5.

The Michigan Trust company, as receiver for Manistee & Northeastern R. R. Co., asked the interstate commerce commission for authority to abandon its Honor branch extending from Platte river, to Empire Junction, a distance of 16 miles.

Russell Corey, 7-year-old son of Mrs. Bertha Corey, living near Nashville, narrowly escaped death when he fell down a 65-foot well on his mother's farm.

Illness has been known among the 600 men in the 1st road-company maintained by the state since their establishment, according to reports to the state health department.

Dr. Guy L. Connor, of Detroit, was elected president of the Michigan State Medical society at its 10th annual conference at Grand Rapids.

Captain Walter E. Campbell, president and general manager of the Detroit and Windsor...

Not more than 10 of the surviving members of the famous first regiment Michigan Engineers and Mechanics...

Coming in contact with an electric current of 4,600 volts, while adjusting an outdoor radio aerial, Lloyd Kridler, 35 years old of Fernside, was killed almost instantly.

Leelanau county has been freed of bovine tuberculosis, Dr. A. W. Ebert, county agent, announced.

The United States destroyer Chauncey, which plied up with other destroyers off Santa Barbara, California, was christened by Dorothy May Todd, of Grand Rapids, then a girl 15 years old, at the launching five years ago.

Postal receipts, always looked on by government officials as a reliable barometer of general business conditions, showed an increase of 5.88 per cent during August.

At a meeting of the Allegan County Milk Producers Association at Osgood, attended by 2,000 people, it was decided to build a condenser in that city.

The Smiths, by apoplexy at Seattle, of Andrew J. Anderson, one of the prominent early lumbermen of Cadillac, was reported.

Gov. Alex J. Groesbeck and State Highway Commissioner Frank Rogers have tentatively completed plans which call for the construction in 1924 of 500 miles of concrete pavement.

Tuscola county road commissioners have sold \$102,000 of road bonds for the building of Covert cut roads in the county.

Few men can boast of a longer service record with one company than Philip M. Sullivan, Escanaba, engineer on the Peninsula division of the Northwestern road.

Claim of Representative James A. Richards, of the Second Calhoun county district, to continued membership in the state house of representatives will have to be decided by the house members.

Manistee county was relieved of its timber some time ago, but apparently that does not prevent it from still being a part of the "wilds" for Stanley Axsum, farmer in the Pine Creek neighborhood.

Judge Harry J. Dingeman, of Detroit, was re-elected presiding circuit judge of Michigan at the thirty-second annual convention of the Association of Judges of Michigan.

The Lesmer business block at Port Huron was practically destroyed by fire last week, entailing a loss of between \$50,000 and \$75,000.

Leaders of Michigan in the work with the foreign born will meet at Grand Rapids September 27 and 28 under auspices of the Michigan State Council on Immigrant Education.

Aided by a gift of \$3,157 from Gortchick county war chest funds, Roosevelt American Legion Memorial hospital at Battle Creek will be able to carry on its work through the official gift fund of the institution.

Phelps Ferris, son of Genoa Wood bridge N. Ferris, has been relieved of his position as member of the Island State Park commission.

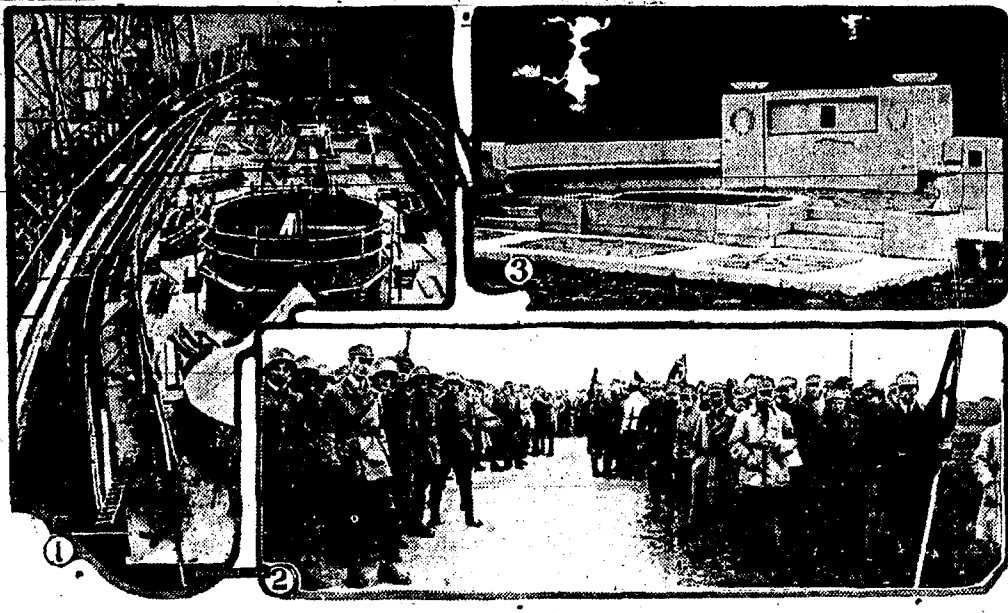

Mrs. Laura Heady, a resident of Oakland county for 20 years, has just celebrated her 101st birthday at Orion.

Mrs. E. J. Mallory, wife of the Alton postmaster, has received a personal letter of appreciation from Mrs. Warren G. Harding, wife of the late president.

Mrs. N. T. Wile, 66 years old, of Fremont, died suddenly just after she prepared dinner for a family reunion.

After living about nine weeks with a fractured neck, Eben Cronk-hite, Lawton farmer, died at the home of a daughter at Kalamazoo.

The Dyer cemetery, started in 1847 and where 40 people have since been buried, will be restored by North Alton residents.

1—Battleship South Dakota, partly completed, now offered for sale as junk. 2—Members of the "Hitler Guard" in Bavaria out for a military drill. 3—Memorial to F. W. Galbraith, late commander of American Legion, to be unveiled in Cincinnati on Armistice day by General Pershing.

WILL ATTRACT LEGION MEN

Pretty Girls to Help Entertain Visitors Attending National Convention at San Francisco.

When San Francisco opens its gates to the 150,000 members of the American Legion expected to be present at the fifth annual convention, some of the nation's prettiest girls will be ready to show the "doughboys" and "gals" visitors about the city.

Special entertainment has been arranged for the women of the American Legion auxiliary and other women guests by the committee of the city's society leaders.

Mrs. Alfred Carlier, wife of a Belgian war veteran and a former war worker in army cantonments herself, has agreed to return from New York to assist in entertaining the Legion visitors during their stay in her native city.

Mrs. Alfred Carlier.

charge of several important social events during the week of the convention. Other San Francisco women have promised to take charge of a number of "cafeteria" to be established throughout the city in order to assist in providing food for the visitors.

The popularity of canton workers was well known during the war, and it is not likely that the average Legion man has forgotten them since his return to civil life.

MANY POSTS SEEK TROPHIES Legion Organizations Display Great Interest in Honors to Be Awarded at National Meeting.

Legionnaires will strive for two principal trophies—the Hanford MacNider and the Franklin D'Olier trophies. The department that has the highest percentage of members as compared with the membership total for the year 1922 will win the MacNider cup, which is presented by the town department.

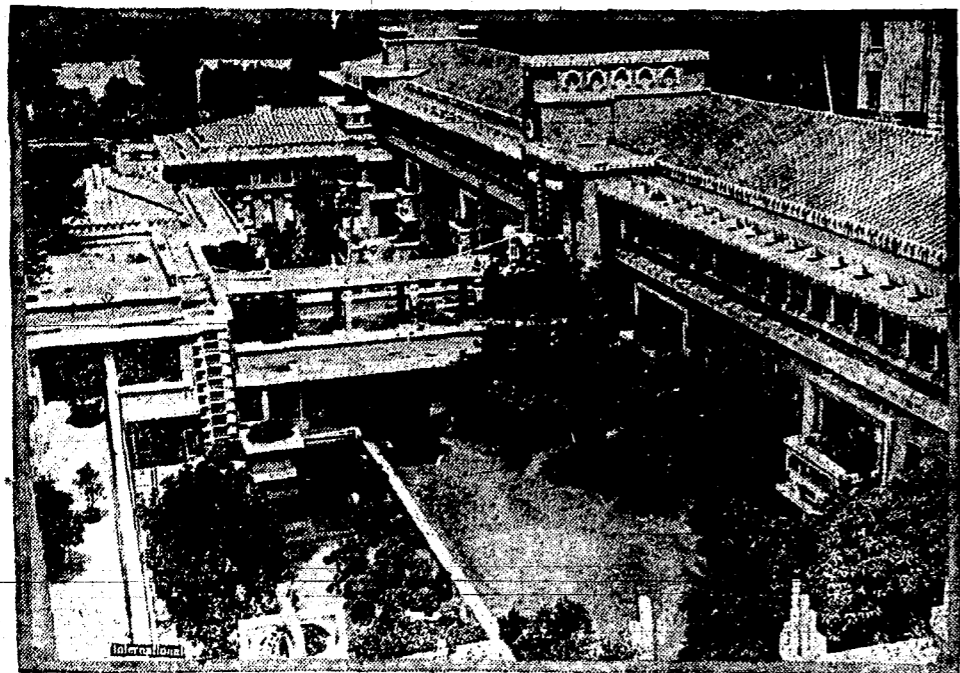

The D'Olier trophy has not yet been awarded, as it was first announced at the New Orleans convention. The department obtaining as members the highest percentage of eligible ex-service men in the state will receive this trophy, the gift of the Pennsylvania department.

The trophies will not remain the permanent property of departments, but must be turned over each year. A gold-plate will be awarded to each department winning a trophy. This will be suitable to be attached to the department's banner, which will bear an inscription reciting the honor won.

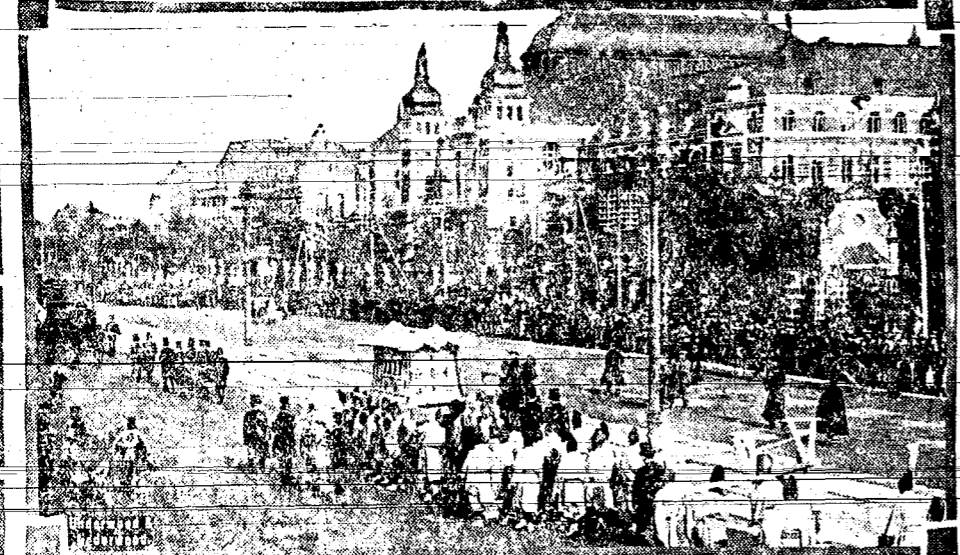

Washington—Secretary Weeks was presented with a copy of a letter believed to have been hitherto unpublished from George Washington.

BY MARY GRAHAM BONNER

SWANS

"Of course," said the Trumpeter Swan, "my voice is interesting. Though I am in the zoo now I cannot say that I have traveled very far in order to reach this spot."

"I came from this country, but my handsome white feathers are much admired even though I am not a foreign wonder or a wonder from far away."

"And I think it is nice that people should appreciate and like creatures from their own parts as well as those from far away."

"Of course I belong to a very, very old family. Trumpeter Swans have been in existence for years and years and years and years and even then a few more years!"

"I am very tame because I was brought here when I was young, and if one is brought up among people when one is young, then one is not afraid."

"Of course, that is provided the people are good to you. They were all very good and kind and nice to me and so I became very tame."

"I am still very tame, too. I did not get out of it with any other tame, always tame, I say."

And then the Trumpeter Swan gave a loud trumpet-like call, which showed how well trained he was.

"We have a cousin here who is the opposite of us," the Trumpeter Swan continued. "Cousin Mute, Swan, is very quiet, and Cousin Mute, Swan, is well named. Cousin Mute doesn't believe in noise. No indeed."

"But I'll tell you that you may always tell Cousin Mute because he has a black comb at the bottom of his neck."

"Cousin Mute has lovely little babies, eyes—they're called."

"Their feathers are dirty looking, but soon beautiful white feathers will come in place of the dirty ones."

"I suppose Mother Mute thinks it is as well not to dress up the little ones too much."

"Little ones are not apt to take such good care of their finery. And then she knows they will be beautifully dressed later on."

"Ah, yes, she is wise with her children."

"And she likes to have them here with her in the zoo."

"Trumpeter made a few more loud sounds and then he went on talking."

"Shocking housekeepers are the Cousin Mutes. They build such careless nests on the ground nearest the water and the nests are so badly looked after as far as neatness and beauty is concerned."

"But still, what does it matter if one's home is not beautiful when one is so beautiful one's self?"

"I am sure that is the way the Cousin Mutes think about it. Of course, others may feel differently upon this subject."

"Now, I'm not a bad-looking swan," said the Black Swan. "If you're talking about looks you should talk to me and mention me."

From an Australian continent, continued Black Swan, "and I have a cousin from Tasmania, which happens to be near Australia, too. You thought for a moment perhaps that it was in another part of the world, eh, Trumpeter? Wasn't that what you thought?"

"No," said Trumpeter. "I hadn't thought that because I never do think a great deal of geography anyway."

"I don't like geography much. I don't like to try to think whether one place is nearer to another than the next place."

"That is queerly worded, but you see the minute I talk about anything that has any suggestion of geography about it I don't speak well, nor do I feel at ease."

"But you asked me to admire your looks. And that I will gladly do. For you are very large and very magnificent and your shiny black feathers are gorgeous and look a differently from those of other swans."

"Of course, I think it is nice most swans prefer white, but you're fine to meet by way of contrast—opposite from the rest of us, I mean."

"And you're always much admired."

"Yes, Black Swan, I must say you have many friends and every one likes to see you and gaze upon you. So I will give you both attention and mention on account of your looks for you possess both, most assuredly you do."

And Black Swan was very grateful as Trumpeter gave a long call of congratulations.

Busy Baby.

"Willie!"

"Yes, mamma."

"What in the world are you pinching baby for? Let him alone!"

"Oh, I ain't doin' nothin'! We're only playing autos and he's the horn!"

Will It Come to This?

Father—Son, I want you always to remember what the immortal Emerson said, "Hit your wagon to a star!"

Young Son—Say, dad, tell me what's a wagon?—Notre Dame Juggler.

Power of a Smile.

A young woman carelessly tossed an apple core out of the auto she was riding in and a motorcycle cop who was speeding past received it full in the face. He stopped and turned to her with a scowl, and the young woman had visions of an interview with the magistrate. But she smiled at him and her smile won his heart, for he said with a grin, "Lady, I'm glad you are not a bricklayer," and remounting his wheel he sped away.—Boston Transcript.

Accessories Are Important;

Hat and Scarf Sets Stay

STYLES in clothes may come and go, making transitions from one extreme to another, but accessories of dress—the fans, combs, earrings, and jewels that one up dress for women, and harmonize it with different backgrounds, seem to be less susceptible to change than other things. Novelties that appear in accessories are added to the store of feminine knick-knacks that every woman appears to gather about her and cherish, whether their money value is great or small.

Hence the ostrich fan, tortoise shell comb and drop earrings of an earlier day are still fashionable in the present year of grace. In fact, old-fashioned jewelry of all descriptions is still in a spectacular comeback. At the right of the illustration several of the prettiest of these accessories are shown. A scarf that is quiet and elegant wherever they are shown. The fabric is woven with a square mesh having a brooch, chain and earrings which has been decorated in several colors and appear on the hat and scarf and the latter is teamed with a deep fringe of yarn. Every well-dressed woman will appreciate the possibilities of adornment which

Two of the Latest Hat and Scarf Sets.

fan is also in a color that harmonizes with the color of her gown and, brace let shown is of white vegetable ivory. It is very pretty set with billiards. In accessories for less formal wear there is a fan for "lilac bracelets" of thin glass made in all sorts of brilliant colors. Several of these are worn on the wrist at the same time and the faint music of their clashing gives them their name. A brand new idea in swagzer sticks has recently come out. These sticks are made of composition resembling celluloid and come in all colors. Generally they have tips and beads of gold or silver, or they may be finished with the same substance in a different color. Four neckties are still the most popular item in costume jewelry and just now tone-colored glass beads appear to be in every woman's mind as more to be desired than any others. These red-brown tones harmonize with all the colors most fashionable for dresses and suits, and lighter tones ranging into amber, share their popularity. The color of the costume dictates what that of the necklace

this particular cloth offers and the opportunity for the display of individual taste in the matter of embellishments. A hat of chinchilla cloth with wing trimming of angora is shown at the left, and starts to match either of these fabrics are made. But one of the new knitted scarfs is shown—a smart and comfortable affair having knitted ornaments and yarn tassels at the gathered ends. It bears a plain tweed tailored suit company and together they proclaim their fitness for crisp autumn days. All street clothes are now arranged with sports styles that have the street as in the sports class. They have a cheerful, sporty and we shall meet them everywhere. Women who are adept at knitting and crocheting, make the scarf and hat or sweater-and-hat sets for themselves.

Nervous? If Coffee disagrees Drink Postum There's a Reason

"ORDER OF FOOLS" Founded for humane and charitable purposes, the "Order of Fools" was a society whose name quite belied its mission. Adolphus, count of Cleves, founded the order in 1381, and the membership was limited to noblemen of high rank. The insignia, the figure of a clown, was embroidered in brilliant colors on the left side of the member's mantle. Annual grand reunions of the "Order of Fools" lasted for a week. The order continued strong and helpful until well into the Sixteenth century, when, gradually, its original purposes were lost sight of and it died out. Oldest Armchair. The oldest armchair in the world is the throne of Queen Hatshepsut, who flourished in Egypt 1500 years B. C. It is made of ebony and beautifully carved. It is now among the treasured possessions of the British museum.

Power of a Smile. A young woman carelessly tossed an apple core out of the auto she was riding in and a motorcycle cop who was speeding past received it full in the face. He stopped and turned to her with a scowl, and the young woman had visions of an interview with the magistrate. That Ceiling Light. In our home we were forever neglecting to turn off the ceiling light, I am a writer. This is my remaining plan. I have a good-sized parlor placed on which is printed in black letters, "The Light Is On," hanging to the ceiling light switch in the kitchen. Now, when a member of the family turns on the switch he removes the card before descending to the cellar. Upon returning he sees the card, is reminded of the burning light, hangs up the card, and turns off the switch.

This saves much unnecessary burning of electricity.—Milwaukee Sentinel. Yellow and Gray. Canary yellow and gray is a combination that is favored by the most smartly dressed women. Yellow, sport hats are very popular. Black Satin. Black satin is to be very popular this fall—and is particularly adapted for the soft draped effects now in vogue.

#### Woman's Case Amazes Grayling

A business man's wife suffered for two years with sore, watery eyes, which pained day and night. Finally she tried simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. This helped her AT ONCE. Another lady reports "it leaves eyes cool and fresh." One small bottle Lavoptik usually helps ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. A. M. Lewis, druggist.

Moved and supported we adjourn. Motion carried.  
Chris Jensen, Village Clerk

#### NOTICE TO CONTRACTORS.

Crawford County Road No. 1, Maple Forest Township, Crawford County, Michigan.

Sealed proposals will be received at the office of the Board of County Road Commissioners at Grayling, Mich., until 10 o'clock central standard time on Monday, Sept. 24th, 1923, by the said Board of County Road Commissioners for the construction of 2.913 miles of road known as Crawford County Road No. 1. Land more particularly described as follows:

Beginning at the corner common to sections 27, 28, 33 and 34, T. 28 N., R. 3 W., Maple Forest township, Crawford County, Michigan; thence running east-by 1913 miles to a point on the section line between sections 26 and 35.  
The work will consist of shaping the grade to a width of twenty-four feet and surfacing to a width of nine feet with one course of gravel as per 1922 edition of State Highway Dept. specifications covering base-course of Class B surface, except that gravel must pass a screen having 1 1/2 in. circular openings and must contain not less than 25% of crusher product.  
A certified check in the sum of \$800.00, made payable to Ralph Hanna, Chairman County Road Commission, must accompany each proposal.  
The right is reserved to reject any or all bids.  
Ralph Hanna, Chairman County Road Comm. Dated at Grayling, Sept. 12th 1923. 9-13-23.

Wool of the Llama.  
The wool of this curious animal is largely in use in Bolivia, where the traveler may see Indian women, sitting before their huts and spinning the wool, while they watch their flocks. These women use hand looms on which they make blankets and shawls.

#### To the Honorable Board of Supervisors of the County of Westford, Michigan.

Gentlemen:  
Your petitioner, the Consumers Power Company, a corporation authorized to do business in the State of Michigan, with its principal office in the City of Jackson, Michigan, represents unto your honorable body as follows:  
That on October 24, 1913, a permit was granted the Western Michigan Power Company to construct in Westford County, at the locations and of the heights specified in said permit.  
That such rights now vest in your petitioner by proper assignments.  
That in said permit, under the heading of "Locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-three (23) North, Range Twelve (12) West. That it is found to be more advantageous to construct the Yuma Dam on the West Half (W 1/2) of the Northwest Quarter (NW 1/4) of Section Thirty (30) North, Range Twelve (12) West, which location is in the same township.  
That in said permit, under the heading of "Height," the Yuma Dam is given as not exceeding thirty (30) feet.  
That in case the location of said dam is changed, it is desirable to change the height to not exceeding seventy-five (75) feet, and also to change the name to "County Line Dam."  
Your petitioner therefore prays that said permit be amended as follows:

Under the heading of "Locations" the following language be stricken out:  
"YUMA DAM: On the NORTHWEST QUARTER (NW 1/4) of the SOUTHWEST QUARTER (SW 1/4) of the NORTHWEST QUARTER (NW 1/4) of Section TWENTY-ONE (21) North, Range TWENTY-THREE (23) West."  
and that there be inserted in lieu thereof, the following:  
"COUNTY LINE DAM: On the WEST HALF (W 1/2) of the NORTHWEST QUARTER (NW 1/4) of Section THIRTY (30) North, Range TWENTY-THREE (23) West."  
That under the heading of "Height," the following language be stricken out:  
"YUMA DAM, THIRTY (30) feet."  
and that there be inserted in lieu thereof, the following:  
"COUNTY LINE DAM, SEVENTY-FIVE (75) feet."  
That in other particulars, said permit shall remain in full force and effect.  
All of which is respectfully submitted.

Dated at the City of Jackson, Michigan, this 30th day of August, A. D. 1923.  
**CONSUMERS POWER CO.**  
By C. W. Tippy,  
Vice Pres. and Genl. Mgr.  
TO ALL WHOM IT MAY CONCERN:  
TAKE NOTICE that a petition to the Board of Supervisors of Westford County, Michigan, of which the foregoing is a true copy, has been filed with the clerk of said Board, to be presented to it at the Court House in the City of Cadillac, Westford County, Michigan, on the 24th day of October, A. D. 1923, at nine o'clock in the forenoon of said day, or as soon thereafter as may be, being at the October, 1923, session of said Board.

**CONSUMERS POWER CO.**  
By C. W. Tippy,  
Vice Pres. and Genl. Mgr.

**MORTGAGE SALE.**  
Whereas, default has been made in the payment of the money secured by a mortgage dated the 20th day of August, 1912, executed by James L. Baer and Emily M. Baer, his wife, to the Roscommon State Bank, a corporation of Roscommon, Michigan, which said mortgage was recorded in the office of the register of deeds of Roscommon county, Michigan, in Liber 1 of Mortgages on pages 59 & 60 on the 8th day of September, 1912; and, Whereas, the amount claimed to be due on said mortgage at the date of this notice is the sum of \$329.76 of principal and interest and the further sum of Fifteen dollars as an attorney fee provided for by statute and which is the whole amount claimed to be unpaid on said mortgage; and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become absolute.

Now, therefore, notice is hereby given that by virtue of the said power of sale and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the front door of the court house in the village of Grayling, Michigan, on the 19th day of October, 1923, at one o'clock in the afternoon; which said premises are described as follows, to-wit:

The northwest quarter of the southeast quarter and the northwest quarter of the southwest quarter of section four, township twenty-five north, range four, west, Crawford County Michigan.

Roscommon State Bank, Mortgagee.  
Dated, July 29th, 1923.  
Hiram R. Smith, Attorney for mortgagee.  
Business Address:  
Roscommon, Michigan. 7-26-13
