MR. CITIZEN!

CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory, is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

LOGAN

"SEE BEAUTIFUL LOGAN AND CACHE VALLEY"

(Courtesy Cache Chamber of Commerce)

Statistical Review

Form of Government—Commission.

Population—1960 U. S. Census, 18,900. American-born, 90 per cent. Predominating nationalities of foreign-born residents: English, Swedish and German.

Area—6 square miles.

Altitude—4,535 feet above sea level.

Climate—Mean annual temperature, 47.5 degrees F.; average annual rainfall, 16.17 inches.

Parks—5, with total of 75 acres, valued at \$100,000.

Total Assessed Valuation—\$11,135,887, with \$76.13 per \$1,000 tax rate.

Bonded Debt—\$360,000.

City Statistics—Total street mileage, 70; miles paved and oiled, 55. Miles of sewers, 35. Municipal power plant valued at \$1,500,000. Number of water meters, 3,000; light meters, 4,400. Capacity of water works, 3,000,000 gallons; miles of mains, 50; value of plant, \$700,000. Fire department has 24 men, with 1 station and 8 pieces of motor equipment. Value of fire department property, including building, \$100,000. Police department has 13 men, with 1 station and 3 pieces of motor equipment.

Banks—3, with total resources of \$32,870,000.

Telephones in Service—11,500 Direct Distance Dialing.

Airports—Logan-Cache, Miles N of city limits.

Radio Stations—KVNU, KLGK.

Newspapers—1 local daily circulation.

Trade Area—Retail area has radius of 50 miles, and population of 50,000.

Railroad and Bus Lines—2.

Highways—Junction of U. S. 91 and 89; Interstate 15 coming, 15 miles West; with hi-speed connecting highway.

Hotels—3, with total of 85 rooms.

Motels and Auto Courts—9, with total of 160 rooms.

Hospitals—1, with 100 beds.

Amusements—3 moving-picture houses; 1 theatre; 10 ward recreation halls; 2 bowling parlors; 3 school gymnasiums with swimming pools; 3 tennis courts; 3 parks for softball, picnicking and recreation; natural skating rink and ski area for winter recreation.

Education—Utah State University, with 6,000 students. 9 public schools, including 1 senior high school and 1 junior high. Number of students in public schools, 3,100; teachers, 111.

Public Libraries—Cache County Library, with one of the largest genealogical sections of any library in the Intermountain states. Also libraries at Utah State University and the senior and junior high schools.

Churches—20, representing 6 denominations. 3 seminaries.

Chief Industries of Logan and Cache County—Condensed milk and cheese factories, sugar factory, flour milling and elevators, pea and bean canning plants, knitting and wearing apparel factories, candy and ice cream plants, bakeries, chicken and fish hatcheries, floral houses and nurseries, farm wagon factory, iron works, sand and gravel plants, upholstering and tailor shops, sawmill and millwork, monument companies, mattress factory, bottling works, harness shop, turkey processing plant, abattoir, trout farms, honey culture, mobile home mfg. division; tire re-treading plants.

Industries which are best suited for the crops and conditions have been established here. This being an agricultural section, those industries which use agricultural products have been fostered and supported. The chief crops are hay, grain, sugar beets, potatoes, peas, beans, alfalfa seed, apples, fruits and vegetables. Dairying is one of the main industries, with poultry, including turkeys, developing very fast.

General Review

Logan was settled in the early spring of 1859 by two small groups of families that came from the Salt Lake Valley to build homes in the beautiful Cache Valley. The plateau on which part of Logan is now situated, and the Logan River, with its power and irrigation possibilities, soon convinced these pioneers that this was an excellent place to start a settlement.

The city is located on the lake bed and deltas of the ancient Lake Bonneville. The shore lines of this old lake are plainly visible on the slopes of the foothills of the east mountains. The site of the city was covered with 700 feet of water at the high level of the lake.

Logan was incorporated on Jan. 17, 1866, with Alvin Crockett as the first mayor. The City being near the center of the valley and with the largest stream for irrigation and power purposes, naturally make it the center of development, and it became the county seat soon after its settlement.

Freight service to Logan and the surrounding area is supplied by the Oregon Short Line R. R. (Union Pacific); four trucking companies; one airline serving Logan-Cache airport with four flights daily.

Two through bus services, one Logan intracity line, car rental, one taxi firm and two charter air services provide personal and group transportation.

County and city roads are paved and oiled; Logan is the junction point of U. S. Highway 89 and 91, and several state highways. All are serviceable year-round.

Logan and Cache County own jointly the Logan-Cache Airport, about 3½ miles northwest of the City. This is equipped to handle all present-day commercial planes, including night flying, except jet aircraft. It is considered one of the finest airports in the state. Regular air service for mail, express and passengers is established.

All the towns of the valley are well supplied with electric light and power at reasonable rates. Logan and Hyrum have municipal electric light plants and the users of electric current in these cities are favored with low rates. They maintain stand-by service from the Utah Power & Light Co. There is ample electric power for the present industries of the City and County and for many more. Some of the flour and feed mills use water power, which is an added advantage in keeping down operating costs.

Logan City and many nearby towns are serviced by natural gas supplied by the Mountain Fuel Supply Company.

There are three sound banking institutions in Logan, and several in the County. Those in Logan have total resources of over \$22,000,000. They conduct their business along safe and conservative lines, but at the same time they are keen to give financial support to any worthy industry for the development of the city and Valley.

The reservoirs at Hyrum and at Newton, two Government reclamation projects, store more than 20,000 acre-feet of water for irrigation. These reservoirs, with other irrigating streams, make possible better crops and more diversified farming.

Retail stores in Logan carry merchandise to meet the needs of any average family. Variation in quality, cost, and taste is ample.

Logan is proud of its retail stores. For a town of its size, there are no more artistic store window displays or stores in the country. Merchandise to suit all fancies and needs of the people soon will be carried at reasonable prices.

Old Main Bldg. on the Utah State University Campus

As a center of culture and education, Logan is outstanding. There is a wholesome environment for the rearing of families. Utah State University, with an enrollment upwards of 6,000, is an integral part of the community. In its cosmopolitan studentbody are students from several dozen other countries and most of the 50 states.

There are excellent senior and junior high schools and elementary schools. All the schools have substantial buildings and equipment to give the students good opportunities for training, and the city school district has a progressive program of expansion underway.

Commanding a broad view of the valley, the 70-year-old, imposing Logan temple of the Church of Jesus Christ of Latter-Day Saints is situated on a finger of high ground jutting out from the Bonneville bench on the eastern side of the city. It is probably one of the most-photographed sites in the valley.

New Modern Grade School

The dominant church's 30 wards within Logan attend their meetings in buildings ranging from the old, but well-maintained, to the very new and modern. Largest non-Mormon congregation is that of the First Presbyterian Church, but there are also active Catholic, Baptist, Episcopalian, and Church of Christ groups.

Two buildings for sectarian social and religious activities are adjacent to the USU campus—The LDS Institute of Religion and the Newman Center with its new chapel under construction.

Dramatics has a substantial place in Logan life, with a good theater in downtown Logan, an amphitheater at the University used for summer productions, and a full program of public dramatic arts performances at USU. In addition, a civic music association and the university cooperate to bring a fine offering of nationally and internationally known artists to the valley during the year. Dramatics and public speaking are emphasized in schools and churches.

Logan Golf and Country Club's beautiful course, at the mouth of Logan Canyon, is known to be tough. With nine holes being expanded to 18 currently, the treelined fairways are always freshened by the canyon breeze.

The Cache Chamber of Commerce acts as a clearing house for all the major activities of the City and County. It has fine cooperation from the Logan City and Cache County officials, the church officials, the luncheon clubs, the American Legion, the fraternal organizations, the Logan Junior Chamber of Commerce, and the school officials. It has 600 active members, and many worth-while projects are accomplished.

Logan Canyon

As a scenic attraction, Logan Canyon is unsurpassed anywhere. Starting three miles east of Logan, the gorge cuts the mountain range and extends east and north for forty miles through the most beautiful scenery imaginable. A jagged and roughly-hewn canyon, yet it is green and verdant throughout. Very few canyons of this size and depth have the many camping flats with green foliage and grass that Logan Canyon has.

The gorge is as deep as the Grand Canyon and nearly as wide. The range of mountains towers to a maximum height of 9,000 feet above sea level, making the canyon nearly a mile deep. In many sections mountains are glaciated, having harbored at least eleven glaciers. Several small lakes in the tops of the hills attest to this fact.

Logan River is lined with unusual springs. The one from which Logan gets its water supply results from a great plunging truncated syncline in which the water is gathered underground at a width of more than nine miles east and west and twelve miles north and south. The canyon having cut across the structure, allows the water from this great underground drainage basin to issue to the surface in the bottom of the canyon. This type of spring always produces cold water—42 degrees.

Mountains Logan

At Beaver Mountain, 29 miles up the canyon, is a new ski area, popular among enthusiasts of northern Utah and southern Idaho. It has a lodge, concessions, ample parking and two lifts, one a T-bar on a beginner's hill. A new lodge and ski tow operate during the ski season.

Logan Canyon differs from most canyons of the Wasatch in that the bottom is always green and covered with vegetation. There are numerous cirques and flats admirably suited for camping. Douglas fir, Engelman spruce, lodgepole pine, and fir balsam are quite abundant. Large areas are covered with aspen, willow, alder and birch. Hard maples occupy the higher slopes, and junipers cover the dry ridges.

Logan Canyon has the distinction of having the oldest living juniper tree in the world. It is located on Cottonwood Ridge above the Logan Cave, about two miles from the road. The tree is nearly 27 feet in circumference, 44 feet high, and is estimated by authorities to be more than 3,000 years old. It was a sapling in the time of King Solomon.

Logan River has always been a good fishing stream. The river is stocked every year and the abundance of food in the stream contributes to rapid growth. A few years ago a Ger-

man brown trout weighing 37 pounds was caught. Hundreds of elk roam the ranges, and thousands of deer live among the aspens and quite often are visible from the highway.

Scene in Logan Canyon

Through programs largely completed by the old Civilian Conservation Corps and augmented by the U. S. Forest Service, running water, sanitary and picnicking improvements enable thousands to enjoy the cool of the canyon about half the year. In the largest area, Guinavah Park, are 41 individual spots complete with stove, table, garbage can, etc. Two open picnic and play areas can each serve up to 500 persons at a time, and an amphitheater nearby seats 600. Cold spring water is piped throughout Guinavah—an area constantly in demand by parties large and small.

U. S. 89, now two lanes but slated for further improvement, winds up the length of the canyon (40 miles), with numerous side roads offering tours to more remote scenes for the more adventurous tourist and for hunters. Beautiful Tony Grove Lake is a rough six miles drive from the highway; hidden, high White Pine Lake is a short hike further.

Withheld till the last on the upcanyon drive is the panorama of Bear lake seen from the 8,000 foot summit. Changing from indigo and turquoise in bright, summer sun, to sandy and slate-grey in a storm and ice-white in the winter, Bear Lake is backed by lavender and vermillion cliffs with snow-capped peaks in the distance—an awe-inspiring view.

Logan Canyon is proving to be a tourists' delight, and a haven for the resident.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

THE PUBLISHERS

The Rock of Ages dealer franchise is the most respected in the memorial industry. Men of character and integrity have made it this way. We are confident that this enviable reputation will be upheld by Brown Monument & Vault Co.

Your Rock of Ages Authorized Dealer helps you by surveying your cemetery lot with due consideration for the size and design of other monuments nearby.

He can advise you as to cemetery privileges. With all the resources of the Rock of Ages organization behind him, he can assure you of complete satisfaction in the monument or marker itself and in its handling and installation.

Two good names to remember when you plan your family memorial: Rock of Ages and Brown Monument & Vault Co.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

POLK'S LOGAN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1961

Copyright, 1961, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

THE FIRST NATIONAL BANK

OF LOGAN

OVER 69 YEARS OF SERVICE

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with
the latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

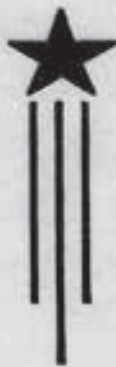

**CITY DIRECTORY
ADVERTISING
IS *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

**Therefore your ad in the City Directory
is seen by buyers from coast-to-coast**

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

POLK'S LOGAN NUMERICAL TELEPHONE DIRECTORY 1961

Copyright, 1961, by R. L. Polk & Co.

Due to the necessity of frequently changing telephone numbers assigned to users, we suggest that you verify this information by referring to your local telephone book to see if any changes have been made since this Directory was compiled.

MR. CITIZEN!

CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. Your name, listed correctly in the City Directory, is a great asset. This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

VITAL INFORMATION

AT YOUR FINGER-TIPS!

 Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

MORE PEOPLE ARE SEEING CITY DIRECTORY ADS

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN

ON EARTH

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

- 1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- 2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- 3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- 4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.
- 5 A *Statistical and Historical Story* of your city plus miscellaneous other information.
