# A CITY DIRECTORY USES

## 1. SALES PROMOTION:

### a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's call on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

### b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

### c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

### d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given, radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.

2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.

3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

## 2. CREDIT:

### a. Verifying customer's statements and information.

### b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

### c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

## This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

## Association of North American Directory Publishers

New York 22, N. Y.

# B FOR EVERY BUSINESS

## d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

## e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

## 3. DELIVERY AND SHIPPING:

### a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

### b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

### c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

## 4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk(\*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

## 5. GENERAL INFORMATION:

**The Alphabetical Directory lists**—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

**The Householders' Street Directory** shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

**The Classified Business Directory** shows all business in the city arranged under heading most descriptive of the nature of the business.

**I**N ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

# INTRODUCTION and GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, present to subscribers and the general public, this, the 1962 edition of the Logan City Directory, which also includes Cache County.

Confidence in the growth of Logan's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Logan to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Logan Directory will fulfill its mission as a source of authentic information pertaining to the City and County.

## Seven Major Departments

The seven major departments are arranged in the following order:—

I. **THE BUYERS' GUIDE** constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Logan. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Logan, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory Service.

II. **THE CLASSIFIED BUSINESS DIRECTORY** is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. **THE ALPHABETICAL LIST OF NAMES** of residents and business and professional concerns is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Logan, and the name, official personnel, nature and address of each firm and corporation in the city.

IV. **THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. **THE NUMERICAL TELEPHONE DIRECTORY** is the fifth major department, printed on blue paper.

VI. **THE LOGAN RURAL ROUTE DIRECTORY** is the sixth major department, printed on white paper.

VII. **THE CACHE COUNTY DIRECTORY**, covering the towns and villages of the county, is the seventh major department, printed on white paper.

#### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, as a resort and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Logan and Cache County. There are more than 1,000 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,  
Publishers.

## Statistical Review

Form of Government—Commission.

Population—1960 U. S. Census, 18,900. American-born, 90 per cent. Predominating nationalities of foreign-born residents: English, Swedish and German.

Area—6 square miles.

Altitude—4,535 feet above sea level.

Climate—Mean annual temperature, 47.5 degrees F.; average annual rainfall, 16.17 inches.

Parks—5, with total of 75 acres, valued at \$100,000.

Total Assessed Valuation—\$11,135,887, with \$76.13 per \$1,000 tax rate.

Bonded Debt—\$360,000.

City Statistics—Total street mileage, 70; miles paved and oiled, 55. Miles of sewers, 35. Municipal power plant valued at \$1,500,000. Number of water meters, 3,000; light meters, 4,400. Capacity of water works, 3,000,000 gallons; miles of mains, 50; value of plant, \$700,000. Fire department has 24 men, with 1 station and 10 pieces of motor equipment. Value of fire department property, including building, \$100,000. Police department has 24 men, with 1 station and 14 pieces of motor equipment.

Banks—3, with total resources of \$32,870,000.

Telephones in Service—11,500 Direct Distance Dialing.

Airports—Logan-Cache, Miles N of city limits.

Radio Stations—KVNU, KLGK.

Newspapers—1 local daily circulation.

Trade Area—Retail area has radius of 50 miles, and population of 80,000.

Railroad and Bus Lines—2.

Highways—Junction of U. S. 91 and 89; Interstate 15 coming, 15 miles West; with hi-speed connecting highway.

Hotels—3, with total of 85 rooms.

Motels and Auto Courts—9, with total of 160 rooms.

Hospitals—1, with 100 beds.

Amusements—3 moving-picture houses; 1 theatre; 10 ward recreation halls; 2 bowling parlors; 3 school gymnasiums with swimming pools; 3 tennis courts; 3 parks for softball, picnicking and recreation; natural skating rink and ski area for winter recreation.

Education—Utah State University, with 6,000 students. 9 public schools, including 1 senior high school and 1 junior high. Number of students in public schools, 3,100; teachers, 111.

**Public Libraries**—Cache County Library, with one of the largest genealogical sections of any library in the Intermountain states. Also libraries at Utah State University and the senior and junior high schools.

**Churches**—20, representing 6 denominations. 3 seminaries.

**Chief Industries of Logan and Cache County**—Condensed milk and cheese factories, sugar factory, flour milling and elevators, pea and bean canning plants, knitting and wearing apparel factories, candy and ice cream plants, bakeries, chicken and fish hatcheries, floral houses and nurseries, farm wagon factory, iron works, sand and gravel plants, upholstering and tailor shops, sawmill and millwork, monument companies, mattress factory, bottling works, harness shop, turkey processing plant, abattoir, trout farms, honey culture, mobile home mfg. division; tire re-treading plants.

Industries which are best suited for the crops and conditions have been established here. This being an agricultural section, those industries which use agricultural products have been fostered and supported. The chief crops are hay, grain, sugar beets, potatoes, peas, beans, alfalfa seed, apples, fruits and vegetables. Dairying is one of the main industries, with poultry, including turkeys, developing very fast.

### General Review

Logan was settled in the early spring of 1859 by two small groups of families that came from the Salt Lake Valley to build homes in the beautiful Cache Valley. The plateau on which part of Logan is now situated, and the Logan River, with its power and irrigation possibilities, soon convinced these pioneers that this was an excellent place to start a settlement.

The city is located on the lake bed and deltas of the ancient Lake Bonneville. The shore lines of this old lake are plainly visible on the slopes of the foothills of the east mountains. The site of the city was covered with 700 feet of water at the high level of the lake.

Logan was incorporated on Jan. 17, 1866, with Alvin Crockett as the first mayor. The City being near the center of the valley and with the largest stream for irrigation and power purposes, naturally make it the center of development, and it became the county seat soon after its settlement.

Freight service to Logan and the surrounding area is supplied by the Oregon Short Line R. R. (Union Pacific); four trucking companies; one airline serving Logan-Cache airport with four flights daily.

Two through bus services, one Logan intracity line, car rental, one taxi firm and two charter air services provide personal and group transportation.

County and city roads are paved and oiled; Logan is the junction point of U. S. Highway 89 and 91, and several state highways. All are serviceable year-round.

Logan and Cache County own jointly the Logan-Cache Airport, about 3½ miles northwest of the City. This is equipped to handle all present-day commercial planes, in-

cluding night flying, except jet aircraft. It is considered one of the finest airports in the state. Regular air service for mail, express and passengers is established.

All the towns of the valley are well supplied with electric light and power at reasonable rates. Logan and Hyrum have municipal electric light plants and the users of electric current in these cities are favored with low rates. They maintain stand-by service from the Utah Power & Light Co. There is ample electric power for the present industries of the City and County and for many more. Some of the flour and feed mills use water power, which is an added advantage in keeping down operating costs.

Logan City and many nearby towns are serviced by natural gas supplied by the Mountain Fuel Supply Company.

There are three sound banking institutions in Logan, and several in the County. Those in Logan have total resources of over \$22,000,000. They conduct their business along safe and conservative lines, but at the same time they are keen to give financial support to any worthy industry for the development of the City and Valley.

The reservoirs at Hyrum and at Newton, two Government reclamation projects, store more than 20,000 acre-feet of water for irrigation. These reservoirs, with other irrigating streams, make possible better crops and more diversified farming.

Retail stores in Logan carry merchandise to meet the needs of any average family. Variation in quality, cost, and taste is ample.

Logan is proud of its retail stores. For a town of its size, there are no more artistic store window displays or stores in the country. Merchandise to suit all fancies and needs of the people is carried at reasonable prices.

As a center of culture and education, Logan is outstanding. There is a wholesome environment for the rearing of families. Utah State University, with an enrollment upwards of 6,000, is an integral part of the community. In its cosmopolitan studentbody are students from several dozen other countries and most of the 50 states.

New Modern Grade School

There are excellent senior and junior high schools and elementary schools. All the schools have substantial buildings and equipment to give the students good opportunities for training, and the city school district has a progressive program of expansion underway.

Commanding a broad view of the valley, the 70-year-old, imposing Logan temple of the Church of Jesus Christ of Latter-Day Saints is situated on a finger of high ground jutting out from the Bonneville bench on the eastern side of the city. It is probably one of the most-photographed sites in the valley.

The dominant church's 30 wards within Logan attend their meetings in buildings ranging from the old, but well-maintained, to the very new and modern. Largest non-Mormon congregation is that of the First Presbyterian Church, but there are also active Catholic, Baptist, Episcopalian, and Church of Christ groups.

Old Main Building on the Utah State University Campus

Two buildings for sectarian social and religious activities are adjacent to the USU campus—The LDS Institute of Religion and the Newman Center with its new chapel under construction.

Dramatics has a substantial place in Logan life, with a good theater in downtown Logan, an amphitheater at the University used for summer productions, and a full program of public dramatic arts performances at USU. In addition, a civic music association and the university cooperate to bring a fine offering of nationally and internationally known artists to the valley during the year. Dramatics and public speaking are emphasized in schools and churches.

Logan Golf and Country Club's beautiful course, at the mouth of Logan Canyon, is known to be tough. With 18 holes, the treelined fairways are always freshened by the canyon breeze.

The Cache Chamber of Commerce acts as a clearing house for all the major activities of the City and County. It has fine cooperation from the Logan City and Cache County officials, the church officials, the luncheon clubs, the American Legion, the fraternal organizations, the Logan Junior Chamber of Commerce, and the school officials. It has 600 active members, and many worth-while projects are accomplished.

### Logan Canyon

As a scenic attraction, Logan Canyon is unsurpassed anywhere. Starting three miles east of Logan, the gorge cuts the mountain range and extends east and north for forty miles through the most beautiful scenery imaginable. A jagged and roughly-hewn canyon, yet it is green and verdant throughout. Very few canyons of this size and depth have the many camping flats with green foliage and grass that Logan Canyon has.

The gorge is as deep as the Grand Canyon and nearly as wide. The range of mountains towers to a maximum height of 9,000 feet above sea level, making the canyon nearly a mile deep. In many sections mountains are glaciated, having harbored at least eleven glaciers. Several small lakes in the tops of the hills attest to this fact.

Logan River is lined with unusual springs. The one from which Logan gets its water supply results from a great plunging truncated syncline in which the water is gathered underground at a width of more than nine miles east and west and twelve miles north and south. The canyon having cut across the structure, allows the water from this great underground drainage basin to issue to the surface in the bottom of the canyon. This type of spring always produces cold water—42 degrees.

At Beaver Mountain, 29 miles up the canyon, is a new ski area, popular among enthusiasts of northern Utah and southern Idaho. It has a lodge, concessions, ample parking and two lifts, one a T-bar on a beginner's hill. A new lodge and ski tow operate during the ski season.

Logan Canyon differs from most canyons of the Wasatch in that the bottom is always green and covered with vegetation. There are numerous cirques and flats admirably suited for camping. Douglas fir, Engleman spruce, lodgepole

Mountains Logan

pine, and fir balsam are quite abundant. Large areas are covered with aspen, willow, alder and birch. Hard maples occupy the higher slopes, and junipers cover the dry ridges.

Logan Canyon has the distinction of having the oldest living juniper tree in the world. It is located on Cottonwood Ridge above the Logan Cave, about two miles from the road. The tree is nearly 27 feet in circumference, 44 feet high, and is estimated by authorities to be more than 3,000 years old. It was a sapling in the time of King Solomon.

Logan River has always been a good fishing stream. The river is stocked every year and the abundance of food in the stream contributes to rapid growth. A few years ago a German brown trout weighing 37 pounds was caught. Hundreds of elk roam the ranges, and thousands of deer live among the aspens and quite often are visible from the highway.

Through programs largely completed by the old Civilian Conservation Corps and augmented by the U. S. Forest Service, running water, sanitary and picnicking improvements enable thousands to enjoy the cool of the canyon about half the year. In the largest area, Guinavah Park, are 41 individual spots complete with stove, table, garbage can, etc. Two open picnic and play areas can each serve up to 500 persons at a time, and an amphitheater nearby seats 600. Cold spring water is piped throughout Guinavah—an area constantly in demand by parties large and small.

U. S. 89, now two lanes but slated for further improvement, winds up the length of the canyon (40 miles), with numerous side roads offering tours to more remote scenes for the more adventurous tourist and for hunters. Beautiful Tony Grove Lake is a rough six miles drive from the highway; hidden, high White Pine Lake is a short hike further.

Withheld till the last on the upcanyon drive is the panorama of Bear lake seen from the 8,000 foot summit. Changing from indigo and turquoise in bright, summer sun, to sandy and slate-grey in a storm and ice-white in the winter, Bear Lake is backed by lavender and vermilion cliffs with snow-capped peaks in the distance—an awe-inspiring view.

Logan Canyon is proving to be a tourists' delight, and a haven for the resident.

Scene in Logan Canyon

## **CASHIERS! TELLERS! CLERKS!**

*Do your employers furnish you with the  
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## MR. CITIZEN!

**CORRECT INFORMATION  
IS VALUABLE TO YOU!**

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

The Rock of Ages dealer franchise is the most respected in the memorial industry. Men of character and integrity have made it this way. We are confident that this enviable reputation will be upheld by Brown Monument & Vault Co.

Your Rock of Ages Authorized Dealer helps you by surveying your cemetery lot with due consideration for the size and design of other monuments nearby.

He can advise you as to cemetery privileges. With all the resources of the Rock of Ages organization behind him, he can assure you of complete satisfaction in the monument or marker itself and in its handling and installation.

Two good names to remember when you plan your family memorial: Rock of Ages and Brown Monument & Vault Co.

# SPECIAL MAILING LISTS

R. L. Polk & Co. makes available special mailing lists, built from the latest available information. Among unique services provided by the compiler of this City Directory are lists of:

## BIRTHS

If you have a product or a service for the baby market you will want to know to whose home new babies have been delivered. Birth lists are available either nationally, or in metropolitan New York and northern New Jersey. The date of birth, name or sex of the child, parents' name, street and city address, and telephone number (if desired) can be provided. Keep up with the baby market through this unique listing service.

## ENGAGEMENTS

Names and addresses of brides-to-be . . . of her parents . . . and of the young man in the case . . . are available throughout the country, or in individual states or territories such as metropolitan New York or northern New Jersey. This service is provided weekly. Invaluable information for furniture, clothing and gift merchandisers. Information is provided approximately three months prior to wedding date . . . just when the engaged couple are buying and shopping for their future needs.

## HOME BUYERS

To sell merchandise or services to new home buyers you must know who they are and where they live. R. L. Polk & Co. supplies weekly lists of new home owners. The information is available by county in metropolitan New York and northern New Jersey. Advance information is provided for those who have purchased or are building homes for personal occupancy and have not yet taken possession. List data includes present address and phone number, approximate date of removal and location of newly purchased property and price paid.

## BUSINESS TENANCY SERVICE

Through R. L. Polk & Co. it is possible to obtain, tri-weekly, advance information concerning new firms about to enter business and established firms who, due to expansion, are about to move. This unique information is available for metropolitan New York and northern New Jersey. Data includes name of the firm, name of a chief executive, the type of business, present address, phone numbers, and the new address.

In addition to these special mailing lists, R. L. POLK & CO. provides mailing lists of more than 7,000 classifications.

## **CASHIERS! TELLERS! CLERKS!**

*Do your employers furnish you with the  
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## POLK'S LOGAN CITY DIRECTORY 1962

Copyright, 1962, by R. L. Polk & Co.

For List of General Abbreviations see opposite page

### SPECIAL ABBREVIATIONS

NL.....	North Logan
PO.....	Post Office
RH.....	River Heights
TelCo.....	Mountain States Telephone & Telegraph Co
UPRR.....	Union Pacific Railroad Co
USU.....	Utah State University

### EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address, other members of the family and roomers are indicated by r preceding the street address.

## Alphabetical List of Names

# **MR. CITIZEN!**

**CORRECT INFORMATION IS  
VALUABLE TO YOU!**

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. Your name, listed correctly in the City Directory, is a great asset. This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

## POLK'S LOGAN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

### 1962

Copyright, 1962, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.
