CHIROPRACTIC DEPARTMENT

(1915) R. L. POLK & COMPANY'S

CHIROPRACTIC

(Ki-ro-prak-tic)

A BRIEF ILLUSTRATION AND EXPLANATION

BECAUSE—

No work of man is precisely similar to man himself. Yet, if the imagination is drawn upon, this crude outline of a "Telephone System" will serve in arriving at a better understanding of the "Human System."

From the "Central" building radiate numerous cables. Each cable consists of a number of individual wires, which eventually connect with a "phone" instrument in some office or residence.

For the sake of argument these cables are carried for a certain distance underground in a pipe or tube, which shall be termed a "conduit."

AND THEN

Something happens to this conduit—say it is bent or twisted, thereby bringing undue pressure to bear upon the cable. This pressure will probably damage the wires of which the cable is composed and the "service" will be interrupted.

No matter the "mental energy" expended—work as they will on either end of the wire, the operator or subscriber cannot restore the service.

BUT

Attention must be given at the point of interference—the pressure of the bent or twisted conduit must be removed from the cable.

When the CAUSE is adjusted, the EFFECT will disappear at both ends and perfect transmission of messages assured.

FROM THE HUMAN BRAIN

and contained in a single "nerve cable," start the "nerve fibers," which furnish the life and energy for all bodily functions. This cable follows down the spine, and at short intervals smaller nerves radiate from it. These smaller cables are threaded between the bones of which the spine is composed. The nerve fibers of each of the smaller cables in turn radiate to and "operate" some part of the body.

The only spot where these nerve cables can be "pinched" or suffer undue pressure is at the point where they thread between the bones of the spine.

YET

On the other hand a variety of causes will displace one or more of the bones from correct location, placing undue pressure on the nerve cable, retarding the flow of life and energy through the nerve fibers. In this manner Nature's messages are prevented from reaching a particular part of the human system, which accordingly is "not at ease."

The EFFECT is felt at a part remote from the spine, just as the EFFECT is noticed at the telephone INSTRUMENT.

All the "mental power" in the world will not remove the pressure or "pinch"—the adjustment must be mechanical.

Also, it would be as reasonable to take the phone instrument to pieces in order to restore the service, as to "treat" the part of the body where the effect (or the pain) is felt.

THUS

Chiropractic scientifically adjusts the spine to normal, leaving the nerve cables free to carry their messages of life and energy.

Thus the work of the Chiropractor is not in any sense the "treatment of disease," but merely by scientific use of the hands, adjusting the spinal bones to correct position, allowing Nature to have her perfect way, which no man can improve upon. "Keeping right" is a better plan than "getting right."

F. L. DU PRAW, D. C.

A Business Creed

Not merely to get a man's business, but rather to get his business and his everlasting approval.

The skill, diligence and other necessary things to get both the business and approval are here.

As a result of adherence to this creed, wherever we have made a deal we have made two friends, one the buyer and the other the seller. And the business of this office has been materially increasing year by year for ten years, and it shall continue to grow.

The 20th Century Ironing Board

The only collapsable board on the market that gives entire satisfaction. Over one thousand in use in Bellingham. Can be used indoors or out, to suit the convenience of user. The board is sixteen inches wide, five feet long, can be adjusted to three different heights, which means comfort to a tall person, has one screw on each side, set into crosspieces to prevent warping; is made out of thoroughly seasoned lumber and ought to last a lifetime. Also has an adjustable sleeveboard; does not walk all over the floor as those clamped to a table; no house wife can afford to be without one.

SYNOPSIS OF CONTENTS

We wish to call particular attention to the arrangement of the information contained in this Directory. The advantages will be readily seen by those who, through constant use, are familiar with the general style and make-up of County directories heretofore in use, and this new arrangement, we believe, will enable our patrons, as well as the novice, to readily find the information desired.

You will find the information compiled in the following order:

First—Bellingham Advertising Department.

Second—Title pages and indexes.

Third—Bellingham descriptive sketch and alphabetical list of names.

Fourth—Whatcom County descriptive sketch and towns arranged alphabetically with the names in each of the larger towns following sketch of same. These lists include the names taken from the County Tax List, as well as names of all people living on Rural Delivery Routes, making the list for each town complete in itself. INSTEAD OF HAVING THREE SEPARATE ALPHABETICAL lists of names for each town, viz., (1) following sketch, (2) Rural Route list, and (3) Tax list, you will find all the names for each large town following sketch of same, making ONE COMPLETE ALPHABETICAL LIST for each town.

Fifth—Names of all residents of the balance of the county compiled by name with postoffice address.

Sixth—Classified Business Directory of Whatcom County, compiled, first, by Business; second, by Town; third, by Name.

Since the enfranchisement of women in this state, we include the given name of all married women (in parenthesis) following husband's name.

Respectfully,

THE PUBLISHERS.

1211 ELK STREET BELLINGHAM, WASH.

CITY OF BELLINGHAM

Bellingham is the metropolis of Northwest Washington, it is located on Bellingham Bay. This city is served by the Great Northern, Chicago, Milwaukee & St. Paul, Northern Pacific, the Bellingham & Northern Railways and the Bellingham-Skagit Interurban. Other means of transportation are various steamboat lines which connect with the islands and all cities of the Sound. Practically all of the larger coastwise and Oriental ships also touch at this port.

POPULATION OF BELLINGHAM, ESTIMATED BY DEPARTMENT OF COMMERCE AND LABOR, BUREAU OF THE CENSUS, WASHINGTON, D. C., JULY 1ST, 1915

31,609

Multiplying the individual names enumerated for this Directory by $2\frac{1}{2}$, to represent the women and children, makes the Directory estimate

31,610

thus approximately confirming the official estimate of the United States Bureau of the Census, July 1, 1915.

The territory within forty miles supports sixty thousand additional. The principal industries are lumbering, fishing and agriculture, while cement manufacture, dairying, fruit-growing, mining and miscellaneous manufacturing are next in importance. It is the wholesaling and trading center for Whatcom, San Juan and Skagit counties, with a combined area of 4,285 square miles, embracing more than fifty per cent of the arable land of Puget Sound. There are, in the whole region, about 70 saw mills, more than 100 shingle mills, and many logging camps, all employing more than 12,000 men; 20 salmon canneries, employing at the fishing season nearly 8,000 people, and several lime and cement plants, with nearly 1,000 men at work.

There are four condensed milk factories in this region, including the largest condensory on the Coast. More than a dozen creameries, four of them co-operative, one of these being the largest in the State, also demand a large supply of milk. Butter and eggs produced locally do not yet satisfy the local demand, and dairying and poultry raising promise to become the principal occupations of hundreds of farmers.

Practically all the varieties of small fruits do well in the Bellingham area. Strawberries, cherries, gooseberries, currants, apples, pears, peaches and apricots are the leading commercial crops.

Approximately one-tenth of the merchantable timber in Whatcom County has been cut. Immense tracts of virgin soil wait for the farmer, richly mineralized territory to the extent of 1,500 square miles in the Mount Baker and Slate Creek districts promise immense returns to the prospector, great clay deposits are undeveloped, the oyster and halibut fisheries are in their infancy, and manufacturing has scarcely begun in this section. Homes, comfort and wealth for ten times the present population of this section await the newcomers.

Whatcom County leads the State in good roads. Iron and concrete bridges, gravel and crushed stone roads, and dirt roads connect Bellingham with all parts of the county. The steam railroads reach all parts of the county and electric roads are being built. The fertile San Juan Islands, which are scenically the most famous on the Coast, and agriculturally wonderful fruit and dairy sections, are reached by numerous boats from Bellingham, and all other cities on the Sound are in close communication with Bellingham by steamboat lines.

The San Juan Islands are within a few minutes ride from Bellingham, and their fame draws many tourists to this city. The mountain ranges visible from Bellingham, the Selkirks, Cascades and Olympics, afford unsurpassed scenery; while the glaciers, crevasses, canyons, and mountain torrents enchant the thousands who make the short trip from Bellingham to the mountain regions. The Northern Pacific railway carries the tourist to

Deming, a few miles inland from Bellingham, from whence a newly opened trail is opened to the snow line of Mount Baker. In one day the trip can be made to the top, 11,250 feet above the sea-level, and return under direction of competent mountaineers. Or the Bellingham & Northern Ry will carry the mountain climber to Glacier, from which point another trail leads to the top of Mount Baker. The scenery surrounding the tourist on these trips is superior to that of the Alps, for not only are there mountains, but at the foot of the mountains the most beautiful body of water in the world, Puget Sound, lays clearly visible in all its splendor.

Bellingham is achieving world-wide fame as the center of the most spectacular athletic event ever known, the Mt. Baker Marathon. The Marathon is a race between international mountain climbers from Bellingham to the summit of Mt. Baker and return. The race, which is held annually, takes place in July or August.

The climate of the region is most delightful. There are no extremes of heat and cold, the average for nine years being 50.2 degrees, the highest averaging 84 degrees, the lowest averaging 12.64 above zero. Bellingham has the most sunshine, the least rainfall, and the coolest summers of Puget Sound, and Puget Sound has by far the best, most genial and refreshing climate known to the U. S. Weather Bureau.

Excellent schools and churches are found in every neighborhood, while in the City of Bellingham is located the largest normal school in the State, practically a college in some of its branches; two high schools, two business colleges and eleven graded schools. Two public libraries, several literary clubs, many social clubs, several theatres, and a very strong Y. M. C. A. and Y. W. C. A. afford the social and educational advantages of the most advanced cities.

The City of Bellingham has the Bell telephone system, while every section of the county and most of the farmers' homes are connected by telephone with the city.

Bellingham has five banks, with a total capitalization of \$600,000.00 and deposits of about \$5,000,000.

Bellingham has an ideal gravity water system, owned and operated by the city, and costing more than a million dollars to install. The supply is pure, cold water from rock-walled Lake Whatcom, three miles east and 318 feet above the city. The minimum rate for family use is 50 cents per month. South Bellingham has a system owned by a private company, the source of supply being Lake Padden, 3 miles east and 437 feet above the city.

Bellingham has two first-class daily papers, publishing the Associated, Hearst's and the United Press news service, each paper having from 8 to 14 pages daily, and the morning paper issuing a Sunday edition of 24 to 40 pages. The Reveille is the morning paper, the Herald being the evening publication. The Sentinel, Journal-Progressive and Argus are weekly papers.

Bellingham has a modern amusement park on Lake Whatcom connected by electric cars with the city. A beautiful yacht club house has been erected on Lake Whatcom also. There are many city parks, Cornwall Memorial Park, sixty acres in the city limits, Whatcom Falls Park of forty acres, also in the city limits. Fairhaven Park, of ten acres, Elizabeth Park, and several smaller beauty spots, giving to Bellingham one of the best park systems that could be desired. Lummi Island, close to the city, the sea beach and Sehome Hill, Chuckanut Mountain, Chuckanut Bay, are other points of interest in and near the city, while some of the residential districts, such as Broadway Park, Bellingham Heights, and Garden Park are worthy of note.

The city electric line consists of 23 miles of well equipped street car lines, while the owners of the system are now spending a large sum in improvement and extension.

Bellingham has the largest salmon cannery in the world and the largest cement works in the world, its shingle and lumber mills are among the largest on the Coast. There are 23 shingle mills, eight saw-mills, five planing mills, four salmon canneries, two box factories, three sash and door factories, two can factories, two boiler and engine factories, two brickyards, two cement block factories, five cigar factories, two soda factories and bottling works, a large candy factory, a bed spring and mattress factory, several furniture factories, a glove factory, four boat factories, three wooden office and showcase fixture factories, a large export brewery, a brick and tile factory, a

cement factory, saw works, wagon wheel company, broom handle factory, a broom factory, a cheese factory, a large export flour mill, a trunk factory, three harness factories, an electric sign works, a rubber stamp and seal factory, a tent factory, and two fruit and oyster canneries.

The United States government has established a bulb experimental farm a few miles from Bellingham, at which place bulbs of the narcissus, hyacinth and tulip plants grow to a perfection equaled by no other place in the world except Holland, and since \$3,000,000 is sent to Holland each year for bulbs, from this country, the demand for bulbs is sure to cause the growth of an immense bulb industry in Whatcom County. At present there are few growers and there are excellent openings for gardeners along these lines.

Flax has been shown to be successfully grown in this section by a series of United States government experiments. There is opportunity in that field for a large and profitable industry, in which considerable capital would be required.

In brief, Bellingham is the manufacturing, wholesale and commercial center for an immense territory of wonderfully fertile and productive country capable of supporting a population of millions, and the mines, timber, fisheries, farms and cement industries are scarcely begun. Manufacturers, wholesalers, miners, farmers, dairymen and fishers are needed in Bellingham and Whatcom County, and the return to industry is sure.

DIRECTORY LIBRARY.

A library of City Directories is maintained by the publishers at the Bellingham Chamber of Commerce, 1311 Dock Street, for the free use of our patrons. As the latest Directories are issued they will be added to the Library, thereby keeping it up to date from year to year. We extend a cordial invitation to each and every one of our subscribers to make frequent uses, either in person or by mail, of this Library and to consult the Directories on file here as often as wished.

ADVERTISING BELLINGHAM.

The Bellingham Directory is placed in the Directory Libraries throughout the United States and Canada and in many of the larger hotels in New York, Chicago and other large cities, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations.

MISCELLANEOUS

CITY GOVERNMENT

City Council, consists of seven members, one from each of the six wards of the city and one at large. Three ward councilmen are elected every year and the councilman at large every two years. Election first Tuesday after first Monday in December

City Officials

STREET AND AVENUE GUIDE

Copyrighted 1915 R. L. Polk & Co.

EXPLANATION

The Philadelphia system of numbering houses is used; that is. to each block is assigned one hundred numbers.

Dock street and Cornwall avenue is made the starting point in Wards 1, 2, 3 and 4 (Whatcom) for all streets running east and west; To the first block east of Dock is assigned 100 to 199, to the second 200 to 299, etc.

In Wards 5 and 6 (So Bellingham) all houses on streets running east and west receive their numbers from an imaginary street 3 west of 4th; Thus between 4th and 5th occur the numbers 400 to 499; between 5th and 6th the numbers 500 to 599, etc.

In all streets running north and south the Whatcom-Fairhaven line (Consolidation av) is used as the starting point, one hundred numbers again being assigned to a block; in Wards 1, 2, 3 and 4 the numbers ascend towards the north; in Wards 5 and 6 they ascend towards the south.

- A, from Whatcom creek ne to Irving, 10 se of Broadway
- ABBEY, Arbor Add, Van Buren to car line,

LIST DEPT.

Tel. Main 1626

R. L. POLK & CO., SEATTLE, WN.

Up-to-date, accurate lists of names and addresses of every Business or Profession. We can also address your envelopes or wrappers, fold, enclose and mail your circulars.

We publish over 500 City, County, State and National Directories in North America; therefore have unexcelled facilities for furnishing advance lists.

For every extra dollar you pay us for lists in advance of publication YOU SAVE TEN DOLLARS IN POSTAGE!

POLK'S ALASKA-YUKON GAZETTEER AND BUSINESS DIRECTORY

Contains an alphabetical list of every city, town, village and hamlet of the North; an exhaustive history of every camp, its population, resources, accessibility, industries, and general information regarding mining, fisheries, agriculture, etc., and a complete list of all residents, arranged alphabetically; also a classified list of every business.

1915**

**WHATCOM COUNTY
DIRECTORY**

WHATCOM COUNTY

The northwesternmost county in the United States is Whatcom County. With an arable area of nearly 400,000 acres, and immense resources outside of that, the county is capable of supporting a population many times greater than that now contained therein.

In Whatcom County are possibilities not surpassed by any in the State of Washington. The fertility of the soil is illustrated by some facts. Oats will average about one hundred and fifty bushels to the acre, timothy from four to five tons, potatoes three to four hundred bushels. Fruit growing is becoming a very profitable industry. There are something like 2100 acres planted to fruit, and 170 acres additional were planted this year, mostly to pears. While apples grow to a perfection equal to those of the irrigated section, the region is peculiarly adapted to pears, and the great crop of the county will, in time, be pears. Cherries are a favorable crop with many. Small fruits, blackberries, raspberries, loganberries, goosberries, strawberries and currants are grown, but the berry crop is most important, especially in the

section about Nooksack, where it is gone into on a commercial scale.

Dairying is very important, owing to the luxuriance of the clover and grass crops, and the mild climate, which gives green feed for practically the whole year. Poultry growing has grown to a business of half a million dollars yearly, and is on the increase. The climate is also adapted to that. Land is cheap, too, which is one thing in favor of poultry. Good land for chickens can be got for fifteen or twenty dollars an acre.

Land for dairying, or grain growing will cost from fifty to two hundred, depending on the location and improvements. Uncleared land can be had for less. About Ferndals is a fine dairy country, and about Lynden is the best grain region. Hard wheat does not ripen, as the summers are not hot enough. Pears are grown extensively, and more land is being planted each year.

Blaine is the largest city in the county outside of Bellingham. It is a lumber and cannery town, and with the development of the farm

lands adjacent, is becoming quite an important trading center. Sumas, like Blaine, is on the Canadian border-line. Sumas is at the junction of many railroads and therefore is becoming a manufacturing center.

The twin towns of Nooksack and Everson, the former on the Northern Pacific and the latter on the B. & N. Railway, are growing trading and farming centers. At Everson is a large milk condensing plant, and at Nooksack several canning companies are making that point an important fruit canning and shipping center, berries being the principal fruit crop.

DIRECTORY LIBRARY

A library of City Directories is maintained by the publishers at the Chamber of Commerce, 1311 Dock Street, Bellingham, for the free use of our patrons. As the latest Directories are issued they are added to the library, thereby keeping it up to date from year to year. We extend a cordial invitation to each and every one of our subscribers to make frequent use, either in person or by mail, of this library and to consult the Directories on file here as often as wished.

ADVERTISING WHATCOM COUNTY

The Whatcom County Directory is placed in the Directory Libraries throughout the United States and Canada, and in many of the largest hotels in New York, Chicago and other large cities, where it serves the public as a valuable book of reference and the community it represents as a splendid standing advertisement, for no other publication can convey such an idea of the county, its business interests and all the various institutions and organizations.

COUNTY OFFICIALS

County Court House and County offices Ellsworth bet G and H, Bellingham.

BLAINE ADVERTISING SECTION

WHATCOM COUNTY DIRECTORY (1915)

BLAINE

The International City with a Future

Population over 3500. Settled in 1870. Incorporated 1891 is situated in the nw corner of the United States on Semiahmoo Bay, and with one of the most beautiful and scenic townsites on the Coast. It is surrounded by a fine farming community, rapidly developing. Milling and lumbering interests are extensive, while box making is assuming huge proportions. There are extensive salmon and crab canneries here, comprising six canneries at Blaine and three at Point Roberts, adjacent to Blaine. The finest Tokepoint oysters produced on the Pacific Coast are raised at Blaine. Shipments are made from here all over the Coast and to the Middle and Western states. This industry is a heavy source of revenue. This port is in the matter of imports and exports the third largest in the State, being exceeded only by Seattle and Tacoma. A live Chamber of Commerce exists, the officers of which are always ready to locate industries providing sites at figures to be had in no other city with anything like equal transportation facilities. The principal exports are salmon, crabs, oysters, shingles, boxes, ties, posts and poles. Vegetables of all kinds, fruit including choicest berries, eggs and poultry, with unlimited means of transportation by both rail and steamers. Blaine is well supplied with grade and high schools, has rural free delivery of mail, and telephone system throughout the county. A first-class volunteer Fire Department, municipal electric lights, well paved streets and first-class gravity system of pure water, four up-to-date hotels, two strong State banks, and a large number of progressive merchants in all lines of business. Blaine is well provided with Churches, Congregational, Episcopal, Free Methodist, and Christian Science. There are unique opportunities for manufacturing sites on the Blaine tide lands.

City Officials—Mayor, P F Fuller; Treasurer, J J Arnold; Clerk Mrs E E Pruner; Attorney, G D Montfort; Councilmen, B N Kingsley, David Frazure, E B Smith, R Witherow, B Hanson, W W Keyes, C. W. Peters.

On the next page will be found the REPRESENTATIVE BUSINESS FIRMS OF BLAINE. Patronize them as you will find them to be leaders in their lines.

FERNDALE

Pop. 1250. On the G N Ry and Nooksack river, 9 m from Bellingham.

ham, in the heart of the famous Nooksack valley. The great fruit and dairy district of Whatcom County. Splendid drainage, no droughts, floods or destructive storms, a perfect paradise for fruit, while oats, hay, cereals and bulbs attain the acme of perfection here. Has splendid schools, churches, electric light plant, one bank. All lines of business well represented. A mammoth condenser to handle all dairy products, a fruit cannery, 3 shingle mills, 2 sawmills, weekly newspaper, The Ferndale Record, a municipal water plant has recently been established, Farmers' telephone. Express, Great Northern. Telegraph, Western Union. Mail daily. Fred L Whitney P. M.
 Town Officials—Mayor G R Bice, clerk F C Wewetzer, treas S F Whitney, city attorney F W Neal (Bellingham), councilmen Chas Burrows, J E Johnson, M S Brooks, C C Larson.

LYNDEN ADVERTISING SECTION

WHATCOM COUNTY DIRECTORY (1915)

LYNDEN

Population 1,500. Located in the center of the broadest and richest part of the Nooksack Valley 15 miles straight north of the City of Bellingham. Is the terminus of the Lynden branch of the B & N Ry and furnishes more freight for that road than any other town along its entire system. Government maps show that the country in a radius of ten miles of Lynden is more thickly settled than in any like territory north of the Skagit river. This accounts for the many miles of good roads which have been constructed in this part of Whatcom county in the last few years, and which now attract many tourist parties from all parts of the Northwest, and British Columbia. Good garages are found all along the line and the motor travel is becoming more important each year. There are five churches with regular pastors, two public school

buildings, including the high school and one private school called the Christian School; one newspaper, an eight-page all home print; eleven secret and insurance societies, fruit cannery, two creameries, sash and door works, one wood working factory, several large mercantile houses, one bank and several smaller industries. Lynden is the center of the dairy industry in Whatcom County and the Co-operative Creamery does a larger business than any other single creamery in the State of Washington. There are four trains, in and out, daily on the B & N Ry and automobile stages daily between Lynden and Bellingham, Lynden and Sumas, and Lynden, Everson and Nooksack. David Bender, P M.

Town Officials—Mayor P A Oakes, Clerk R B Le Cocq, Treasurer W R Jones, Councilmen, C K Smith, H E Stuart, F E Bateman, C R Axling, Geo Seovill

SUMAS ADVERTISING SECTION

WHATCOM COUNTY DIRECTORY (1915)

SUMAS

A Growing Railroad Center

Population 1,500. Settled in 1890, incorporated in 1891. On Sumas River and Johnson Cr, at junction of C, M & St P, C P R, N P, G N, and B C Electric Railways, on the British Columbia boundary line, with U S customs and immigration offices. It is the center of the richest agricultural district in Washington, on the lines of five railroads, the distributing point for the Glacier coal fields, the Kendall lime and cement quarries and the Mt Baker lumber region, has ready transportation to all markets of the world. The climate is as near perfect as you would wish it, and is cheaper comparatively than in any other section of the West. All lines of business are represented. Adventist, Baptist, Episcopal, Christian and Catholic churches. Several hotels have recently been completed among them being the Hotel Swail, which is modern in every respect. Electric light and power plant, which furnishes the cheapest electrical power in the United States for manufacturing purposes, 2 cents per kilowatt hour. Good schools, both public and high schools. Daily stages to Blaine, Everson, Nooksack, Lynden and Bellingham, which travel over some of the best hard-surface and gravel roads in the state. Many automobile tourists take advantage of this and find good garages and hotels for stopovers. Has a bank, lumber and shingle mills, a creamery and other lines of industry. Two weekly newspapers, the Sumas News and the Sumas Advocate. Independent and Pacific telephones. Telg, Postal, Exp, Dominion Northern and Wells Fargo. Mail daily, Robert T Johnson, P M.

Town Officials—Mayor, Jackson Wells; treasurer, Franklin Haworth; justice, Franklin Haworth; clerk, J L Mitchell; attorney, Karl H Kober; city engineer, S J Noble; councilmen, J W Smith, O D Post, Dr M T Dalton, R C Tudor and C N Hendrickson.

LIST DEPT.

Tel. Main 1626

R. L. POLK & CO., SEATTLE, Wn.

Up-to-date, accurate lists of names and addresses of every Business or Profession. We can also address your envelopes or wrappers, fold, enclose and mail your circulars.

We publish over 500 City, County, State and National Directories in North America; therefore have unexcelled facilities for furnishing advance lists.

For every extra dollar you pay us for lists in advance of publication YOU SAVE TEN DOLLARS IN POSTAGE!

POLK'S ALASKA-YUKON GAZETTEER AND BUSINESS DIRECTORY

Contains an alphabetical list of every city, town, village and hamlet of the North; an exhaustive history of every camp, its population, resources, accessibility, industries, and general information regarding mining, fisheries, agriculture, etc., and a complete list of all residents, arranged alphabetically; also a classified list of every business.

COLLARS to be properly laundered with the least wear and tear **MUST** be moulded into shape—an operation which cannot be performed on the polished collar owing to the lack of friction. And this friction which polishes the collar also wears it out.

Good collar work is the foundation of success in the laundry business.

We've built the foundation—will YOU test it?

Appendix A

Conversion Specifications

This digital copy of the Bellingham City Directory (1915) was created using the following specifications:

- All scans were performed using an original copy of the directory and flatbed scanners.
- Black and white pages were scanned at 600dpi and saved in the TIF file format using LZW compression.
- Pages which included photos or details that black and white was deemed inadequate to capture were scanned at 300dpi grey scale and saved in the JPG file format using 15% compression.
- Color pages were scanned at 300dpi and saved in the JPG file format using 15% compression.
- Adobe Acrobat was used to create a PDF file for easier viewing including bookmarks for faster navigation.

Conversion Team

Special thanks to the following who assisted in the conversion of this document to digital form:

Bellingham Public Library – Access to copy of 1915 directory to scan pages 411-414
Niedermeyer, Steven J. – Scanning, image preparation, PDF creation, and quality control
Safsten, Mary – Scanning, quality control
Safsten, Robert – Scanning, quality control

Conversion Facts

Conversion completion date: 4 Sep 2005

Place of conversion: Bellingham, Whatcom, Washington, USA

Conversion Notes

Some damage to the original directory occurred during the scanning process. Pages 411-414 had been torn from the directory in the past. Another copy of the 1915 directory was borrowed from the Bellingham Public Library to scan these missing pages. The use of flatbed scanners which were nearly flush with the surrounding surface reduced the amount of pressure placed on the directory during the scanning process.
