# Jill Ellis

**2022 COMMENCEMENT SPEAKER**

Jill Ellis, who won back-to-back FIFA Women's World Cups as coach of the U.S. Women's National Team, is the 2022 Illinois Commencement speaker.

**J**ill Ellis was the head coach of the national soccer team for five years, from 2014 to 2019. During her tenure, she won two FIFA Women's World Cups (2015, 2019), earned two FIFA World Coach of the Year honors and coached 132 USWNT games—the most of any coach. She has the most wins in U.S. soccer history and is the only person to win back-to-back Women's World Cups. She left in 2019 with a record of 106-7-19 and is now president of the San Diego Wave FC. She also serves as an ambassador for the United States Soccer Federation.

Ellis' first head coaching opportunity came when she was hired in 1997 to lead the University of Illinois women's soccer team. Ellis was considering two other head coaching offers, but she said her Illinois campus visit sealed the deal.

"Before coming for the interview, I hadn't been to the university, and I'm not even sure I had been to (the state of) Illinois," she said. "But I talked to everyone, I asked a lot of questions and I saw a wonderful opportunity. Illinois is a massive and sprawling campus, but it's also charming and friendly. Everyone was so supportive and excited about the program. When I got the offer, I was thrilled."

After two successful seasons at Illinois, she was recruited and hired by UCLA, where she led the team to eight Final Four appearances and six straight Pac-10 championships in 12 seasons. While at UCLA, she also won National Coach of the Year honors in 2000 before being hired by U.S. Soccer full-time in 2011.

Ellis said it is an honor to return to Illinois after giving her a life-changing coaching opportunity at a young age.

"I am so unbelievably honored to be the Commencement speaker," Ellis said. "I have such fond memories of my time at the University of Illinois and it was a time of so many firsts in my coaching journey. I truly feel Illinois, the players, my staff and the peers I worked alongside provided me with a solid foundation on which to grow. I don't necessarily think about specific matches, but the warmth and energy of the campus left an impact on me. Honestly, if it hadn't been a great experience, I might not have ended up pursuing my career in coaching."

## To the Class of 2022

**Donald J. Edwards,**  
Chairman, Board of Trustees

On behalf of the University of Illinois Board of Trustees, and as a proud alumnus, I am honored to bring greetings and congratulations to the Class of 2022.

You have been through so much to reach today's milestone, juggling your studies with the historic challenges of a global pandemic. In the process, you have done even more than achieve your dreams. You have also helped make our universities among the safest in our nation – a model for our peers – and I am deeply grateful for your understanding, your cooperation and your sacrifice.

Although it has been quite a few years since I sat in your seat at my own graduation here in Urbana-Champaign, I still remember the mix of excitement and anxiety I felt, not knowing exactly what the future would hold. That is understandable. But rest assured that your experiences here, both in and out of the classroom, have provided you the foundation to succeed and flourish. Now take it and build on it. Follow your passions, find your path, and never stop learning. As you take the next step in your life journey, know you carry a bond that forever connects you to your years on this remarkable campus. You are joining one of the world's largest alumni networks—nearly 800,000 strong from across the University of Illinois System's three best-in-class universities. I hope you will carry our flag with pride, with your successes adding to our global reputation for excellence and attracting the new generations of students who want to follow in your footsteps.

I hope you will come back to campus often to share your achievements, your experiences and your insights. And, as you are out there changing workplaces and societies around the world for the better, know that those of us at U of I you have left behind will be working for you, ensuring the value and prestige of an Illinois degree continues to grow. Congratulations again, Class of 2022!

**Timothy L. Killeen,**  
President

Congratulations, graduates!

There are a small handful of days in life that you never forget. From my own experience, I can tell you that today is one of them, so I hope you savor every minute of it.

The impressive milestone you celebrate today is made even more notable by your dedication and resiliency in completing your degree during a pandemic – traits that will no doubt serve you well as you begin the next chapter in your life's journey.

As you go forward in new career paths, additional academic pursuits or whatever your dreams hold, know that your experiences with world-class faculty, with leading-edge academic and student programs and with your fellow students have helped shape you and prepare you well for success. They have set you on a pathway grounded in the talents and civic-minded spirit you nurtured here that will lift your careers, your families and your communities. Your alma mater is proud to soon count you among our impressive alumni roster. We hope you will stay connected and involved and come back often.

On behalf of the entire University of Illinois family, it is an honor to celebrate you. Cherish this special time with colleagues, friends and family, and thrill to the adventures that lie ahead.

**Robert J. Jones,**  
Chancellor

Congratulations on reaching this memorable milestone in your life and journey at Illinois.

From the day you began at this university, you have defined yourselves by your innovative spirit and desire to learn. Your achievements certainly deserve celebration.

It is not lost on me that this is the first University-wide Commencement ceremony held in Memorial Stadium since May 2019. Nothing about the last few years has been easy or normal, but through every obstacle, you have continued to set a new standard and level of excellence here at Illinois. I truly believe that you should not only be extraordinarily proud of the work you have done, but also the person you have become to be sitting in blue regalia, in this seat, in this stadium, at one of the best universities in the world.

On behalf of our entire university community, we are thrilled and honored to welcome you into the Illinois alumni family. I can't wait to see all of the great things you will accomplish, and I look forward to celebrating your success as you begin to use your knowledge and skills to impact the world. In the meantime, I hope you stay connected as you embark on your next chapter.

Congratulations!

# Honorary Degree Citations

## Lonnie G. Bunch III Honorary Degree of Doctor of Humane Letters

Lonnie G. Bunch III, historian, author, administrator. You oversee the most prestigious and arguably most comprehensive museum complex in the world as Secretary of the Smithsonian Institution. You made history when you were named as the first African American to hold that position.

A scholar of American history, you taught at several universities. Your training as a historian underpins your understanding of the essential role of museums in preservation and education. You transformed the Chicago Historical Society as its director.

You have been committed to the public humanities and to ensuring that all voices from the nation's past are represented and preserved. You were the founding director of the National Museum of African American History and Culture. Your determined advocacy built a facility that shares the history and culture of African American communities and assures their place in our national consciousness.

You are responsible for the Smithsonian Institution's 21 museums, 21 libraries, the National Zoo, as well as numerous research and educational centers. Thirty million people per year visit these spaces, colloquially known as "the nation's attic," to explore all aspects of our nation's history and culture.

In recognition of your outstanding leadership and your commitment to the preservation of our shared culture, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Humane Letters.

You led the expansion of the conference to 14 universities, with its footprint now stretching from the Colorado border to the Atlantic Ocean. You created more opportunities for participation; with the addition of ice hockey and lacrosse, the conference now sponsors 28 sports.

You have been a champion for Title IX. The Big Ten Conference was the first to adopt participation goals for female student-athletes under your 1992 Gender Equity Action Plan. Today, the Big Ten leads all conferences with more than 4,600 participating female athletes. And you remain committed to providing opportunities for scholars to earn college degrees while competing in intercollegiate athletics, annually administering some \$200 million in direct support to students.

In recognition of your outstanding leadership and your commitment to higher education, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Humane Letters.

## Rahul Pandharipande Honorary Degree of Doctor of Science

Rahul Pandharipande, mathematician, innovator, teacher. You have been the driving force in creating the field of modern enumerative geometry for more than 25 years and are the world's foremost expert in this and related areas. Your colleagues marvel at your ability to solve notoriously difficult mathematical problems and have rewarded you with the

most prestigious awards and honors in the field. As the son of two distinguished University of Illinois professors, you have deep ties to this community. You have repeatedly returned to this campus as a guest lecturer, co-organized a research conference here, and formed a research collaboration with an Illinois faculty member that resulted in a book. You were at the helm of the re-emergence of the field of enumerative geometry, laying out the structure of the field that is now standard. You have focused on understanding the structure of the solutions of entire families of systems of equations and applied what you learned to discover solutions to major unsolved problems in the field. Your work has had a tremendous impact on theoretical physics through the connection between modern enumerative geometry and string theory. In recognition of your outstanding accomplishments and your dedication to fostering a new generation of remarkable mathematicians, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

## **John Lewis** **Honorary Degree of Doctor of Humane Letters** (posthumous)

John Lewis, humanitarian, statesman, author. You worked tirelessly for peace, equality, and voting rights for every citizen. You were one of the most prominent leaders in the civil rights movement, and you became a leader and elder statesman in the United States Congress.

Your life was one of the most inspiring profiles in courage that our nation has ever produced. You joined the civil rights movement as a teenager. You were named chairman of the Student Non-Violent Coordinating Committee in 1963.

You led many of the most notable protests in the history of the civil rights movement: the Freedom Rides, the Selma to Montgomery march across the Edmund Pettis Bridge, and countless other sit-ins and voter registration efforts. Though repeatedly jailed and beaten, you remained dedicated to the principle of non-violence.

Your recognitions include the Presidential Medal of Freedom and the John F. Kennedy Profile in Courage Award. Your graphic novel on the Civil Rights Movement, *MARCH*, won the National Book Award in young people's literature. Throughout your career, you prioritized educating children about the civil rights struggle, and your final editorial encouraged future generations to continue the work for justice.

## **Mario Molina** **Honorary Degree of Doctor of Science** (posthumous)

Mario Molina, researcher, advocate, presidents' advisor. You were among the world's leading scientists dedicated to atmospheric chemistry. You co-authored the first report predicting that global emissions of chlorofluorocarbons could deplete stratospheric ozone.

Your research identified the chemical properties of compounds that play an essential role in breaking down the stratospheric ozone layer. You identified a new class of chemical reactions that occur on the surface of ice particles, including those present in the atmosphere. You demonstrated a new sequence of catalytic reactions that explain a major cause of ozone destruction. Your tireless advocacy and scientific diplomacy helped bring about the Montreal Protocol, an international agreement to phase out CFCs and other ozone-depleting chemicals.

Later in your career, you investigated air quality in mega-cities in the global south. This research resulted in improved air quality in your hometown of Mexico City, and you became a leading voice urging the world to address global warming.

Your research on stratospheric chemistry earned the 1995 Nobel Prize in Chemistry. You served on the Presidential Committee of Advisors on Science and Technology for President Bill Clinton and President Barack Obama, who awarded you the Presidential Medal of Freedom.

In recognition of your pioneering research and your leadership in rallying the world to confront environmental issues, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

# University Honors | Bronze Tablet Scholars

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade point average of at least 3.5 and must rank on the basis of cumulative grade point average in the upper 3 percent of their college graduating class on the basis of all work taken through the academic term prior to graduation.

University Honors recipients wear orange and blue braided cords as part of their formal academic attire.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as “Bronze Tablet Scholars.”

## Academic Dress

Caps and gowns were first worn at Illinois Commencement in 1897. Today, graduating students and faculty members wear traditional academic regalia to signify the degree-granting university and the level of achievement. Graduates wear tassels on the right of their caps and move them to the left after degrees are conferred by the university president.

### Faculty

Faculty members wearing engraved bronze medallions signify endowed chair holders and professors—one of the highest honors the university can bestow on faculty members.

### Board of Trustees

The Board of Trustees gowns are identified with chevrons on a sleeve. The chevrons represent the three campuses and are in order in which the campuses were established.

### President

The president wears the emblematic Jewel of Office at all formal academic ceremonies. The names of the former presidents and their years of service are engraved on the gold collar.

### Chancellor

The chancellor wears the Chain of Office, a symbol of leadership that is engraved with the name of the former chancellors and their years of service. The gold emblem will be worn at all formal academic ceremonies.

## Stole of Gratitude

Students come to the University of Illinois Urbana-Champaign to change the world. While they're here, they find people who forever change their lives. The stole of gratitude provides graduates with the unique opportunity to reflect on their time at Illinois.

After Commencement, new graduates can present the stole to a significant person who supported their personal and academic journey.

## Departments of Study

At Illinois, the tassels for bachelor's degree candidates, the lining of the hoods for master's degree candidates and the velvet edging on the hoods for doctoral candidates indicate the field of study.
