Price List

DAFFODIL HAVEN CANBY, OREGON

Again we present our list of Daffodils, and extend our thanks to all of you, who, through your orders in 1949 and previous years, have made this business possible. Inasmuch as there is not a great change in the varieties listed, we are not sending out a new complete handbook catalogue as published two years ago but offer this supplement with new prices. As we prefer to grow and offer the comparatively new and more rare varieties along with a limited number of the best of the standard sorts, our product can go to but a limited group of fanciers and our mailing list must be much smaller than it would be were we catering to that larger audience who buy only the older and standard priced Daffodils. Accordingly, the cost per catalogue is higher than it would otherwise be, and much of this cost must be absorbed in the price of the bulbs.

Our complete catalogue of two years ago is still available. It is free to customers and is supplied for a 25c fee to others, this amount partially defraying the cost of printing and mailing. In it is contained much more information than can be given here. The classification of Daffodils has been changed and the new schedule is printed below. It may be noted that the prices of most varieties other than those selling for 25c per bulb and less are much reduced this year.

VISITORS

Visitors welcome at our gardens during the blooming season except on Sundays, when we are closed.

BEERSHEBA

TERMS

Please send cash with order, or 25% down and the balance before delivery. Prices quoted are prepaid on orders of \$2.50 or more except as noted on seedling bulbs by the hundred, and our cut flower collection. On smaller orders add 25c for postage and packing. However, for those willing to pay express, we will gladly include extra bulbs valued at more than the estimated express charges.

On cash orders of \$10.00 or more sent before August 1st, we will include 15% extra value in bulbs of our selection. Orders sent later than that date will be filled generously but we may not be able to give as much in extra value.

Prices quoted are for good quality double nose bulbs except for a few species that normally make mostly round bulbs. If sold out of double nose size we endeavor to give equal or greater value in smaller sizes.

PLEASE SEND ORDERS BY SEPTEMBER 1st IF POSSIBLE.

REVISED SYSTEM for the CLASSIFICATION of DAFFODILS

For Use On and After January 1, 1950

- (i) "Colored" means yellow or some other color than white.
