Hello

It is time for a new catalogue again. Seasons seem to fly by ever quicker. However, now is a good time to take stock of the performance of varieties last year and to try to gauge the value of the novelties we are launching into the big world beyond our fields this year.

Looking back at 1967 reminds us of the great pleasure we got from many of our flowers, some were particularly fine and remain clearly in our memory. It was a delight to see the blooms of the inexpensive 2A Ballintoy seen in the picture above, and to see this 3/- bulb winning 1st prize at the London Daffodil Show in the open 2A class.

We're on the Gold Standard!

No we're not with General de Gaulle in advocating a return to the Gold Standard as a solution to our economic difficulties, notwithstanding the murmurs of South African friends!

At London in 1967 we won 2 Gold Medals
3 Silver Gilt Medals
1st for 6 seedlings.

Outside London we won 3 Gold Medals and others.

It was particularly gratifying to see how well Mr. Mitsch's flowers are faring this side of the pond. **Daydream** continues to carry all the honours in the 2D class, and now **Honeybird** is taking over the 1D's. We were happy to get an Award of Merit for **Honeybird** in 1967. We also got a Preliminary Commendation for our large double **Golly** when we put up one bloom; we hope to put more flowers of it up this year to get further awards. The Award of Merit for the flower featured on our cover, **Arctic Doric**, was as a variety for garden decoration and I am sure it was well merited as it has been consistently good here for years as an early long lasting icy white garden plant. It blooms and increases with equal abandon, and you will see that we have managed to reduce its price attractively due to its generous rate of increase.

Panache

Panache was the flower to make the biggest impact on the daffodil world in 1967, gaining its First Class Certificate unanimously on its first showing. Happily the small stock arrived safely at Whitbourne for somewhat less than the asking price of £500. We sent out a leaflet about **Panache** and were happy to distribute some bulbs to enthusiasts. Now we look forward to building **Panache** up into a decent sized stock. It is certainly a world beater in the white trumpet class. Mr. Guy Wilson would have been delighted to see his **Panache** so acclaimed.

2 Double Pinks, and other novelties

This year we have a number of fine things hovering in the wings waiting to take the stage if all goes well. Those that we have named and listed as 1968 novelties are ones we have grown to love and we hope you will enjoy them also, **Bandleader** and **By Jove** were 2 of our 1st prize winning 6 Seedlings entry at the 1967 Daffodil Competition. You will notice that we are not neglecting divisions 5, 6, 7 in our introductions and that at the back of our catalogue we have much expanded the number of small daffodils we list and grow. You will also see that we have added many new kinds to the main part of the catalogue including many new doubles. The pink ones **Pink Cloud** and **Pink Chiffon** are two of these.

Royal Worcester Porcelain

Jean and I are both fond of pots. So we are happy to draw your attention to the offer we are making at the back of the catalogue with the co-operation of the world famous Royal Worcester Porcelain factories.

S.O.S.

Do you find the number of varieties confusing when looking through our list? If so, why not try our new idea, S.O.S., Suggested Order Service! If you look at the centre inset you will see how simple it is for you to get our advice to suit your garden requirements, your tastes, and your pocket! Try us out; you cannot lose anything.

Good daffodil growing. We hope to hear from you, and perhaps see you at one of the spring shows.

NARCISSUS PANACHE

F.C.C. 1967

**PANACHE 2-3 GLW (Courage x Broughshane) x
Empress of Ireland FCC 1967**

Panache is a white, white trumpet. It is a large flower of faultless show form, carriage, and quality. It is clearly the best 1C yet seen and is bound to hold its place for years to come. The greatest advance yet in quality, reliability, and character. Excellent bulb and plant. **£40, \$96 each**

DAFFODILS FOR NATURALISING

Some daffodils naturalise much better than others. The ones we list here are proven kinds and I feel you will get much better results with these than by trying one of the mixtures often advertised. If you intend planting one kind only may I suggest that you would find *N.obvallaris*, The Tenby Daffodil, the best. We can supply this at 45/- for 50, 80/- per 100, 500 for £15, 1,000 for £25, 10,000 for £195.

1967 INTRODUCTIONS

BREAKTHROUGH 3-4 MJB Homage seedling

Large circular large flowers held on tall strong stems well clear of any foliage. Boldly posed flowers have very wide rounded thick petals of bright clear lemon around a flattened saucer crown of deep rich lemon centred green. The almost unique colouring of the perianth must make it a flower on its own. Consistent here but maybe the perianth colour may bleach in much warmer parts of the world. **£15, \$36 each**

5B *The Heavenly Twins:* CASTOR and POLLUX 3-4 Blanchard

So alike we describe them together and make a special offer of one of each. The Heavenly Twins are something new in triandrus hybrids. They grow neatly and have stems with 3 or 4 sparkling white flowers. Most triandrus have cup shaped crowns, but the twins have almost flat cups like those of Chinese White. The vividness of the white cups is so intense as to appear brighter – even than the Snow white petals. John Blanchard, with a parents eye, finds the twins to all intents and purposes the same, but it may well be that in one garden one twin will excel and in a different garden the other take the honours. Excellent quality flowers like very white multi-headed small-cup kinds.

£7.10.0., \$18 for 1 of each

3B

INVITATION 3 MJB Easter Moon x Homage

White and yellow small cupped kind with substance enough to make two flowers out of every one. Thick white petals lie flat at right angles to the neat cup and quite without any suggestion of creases. Rich lemon cup centred green. Show flower. **£7.10.0., \$18 each**

1C

ITS TRUE 2-3 MJB Seedling x Empress of Ireland

Huge white flower with a perianth of tremendously wide flat petals and a trumpet most beautifully proportioned not being too wide in its length but having a very good flange. Makes an immediate impact when seen. Grows strongly, increases well. Reliable. **£17.10.0., \$40 each**

2B

JOHN OF SALISBURY 3 MJB

Sums up in itself many of the quality that breeders seek for in this age. Stands well with good sized flowers of very firm lasting substance and fine spun texture. Petals are held at right angles from crown or perhaps even very slightly reflexed. Crown longish and with a goblet finish, and subtly coloured buff. Good bulb and plant. **£5, \$18 each**

3B

KIMMERIDGE 2-3 Blanchard Portrush x Pretty Polly

An outstanding 3B in its crystalline texture, its very even quality of its crop of flowers, and outstanding in that it blooms very early for a Div. 3 flower. Large round flowers of creaseless sparkling petals laid in one plane and precisely clean cut. Net cup is pale yellow centred green and cleanly ribboned rich orange. The orange needs protection for show. A long neck but this is as strong as any stem and holds the flower in very good show pose the whole life of the flower. Earliest 3B. Very strong plant.

£5, \$12 each

1B

NEW ISSUE 3 WJD Niphetos x Kanchenjunga

Sister to Newcastle but of different style, looking more like a bicolor Queenscourt or Empress of Ireland. Strong plant with very large flowers; impressive perianths of very wide white petals overlapping magnificently. Narrow trumpet widely flanged and coloured a rich primrose yellow.

£7.10.0., \$18 each

2A

TRENDSETTER 2-3 Lea Nanking x Ambergate

Red flushed flowers like this and Gypsy are still rare. This one has the almost legendary Ambergate as one parent. A tall plant with attractive large flowers with golden round petals heavily suffused with pinky orange and a neat crown of deep orange scarlet. Breeders are certain to want this line in their breeding work. **£12, \$29 each**

Hello America !

Since Jean and I started our daffodil business in 1959 one of the most heartening things about it has been the support we have enjoyed from U.S.A. fanciers. Of course it is not just a business with us, we enjoy our daffodils, and it gives us great pleasure to receive the friendly greetings that fly over the Atlantic and make us sure you enjoy your daffodils too.

We hope 1968 is going to be a vintage season for the flowers. We are confident that we shall have a record year business-wise. We have fine stocks. Many kinds both large and small are unobtainable elsewhere. We hope that you too will have a year to remember with pleasure and we do hope to hear from you. No order is too small!

It is easy to import. You can either let us send your bulbs to friends in the U.S.A. to be forwarded to you or we can send your bulbs direct to you. All you have to do to get them direct is to send us the green and yellow import mailing tag from the

U.S. Dept. of Agriculture
Plant Quarantine Division
209 River Street
Hoboken, N.J.

If you forward the addressed postcard enclosed for you the Dept of Agriculture will send you your tag/s. All they want to know is, 1, Your name and address; 2, My name and address; 3, The number of bulbs you wish to import, or preferably a slightly larger number.

We shall look forward to hearing from you. Thank you.

NEW FROM U.S.A.

1B

DESCANSO 2-3 Evans Polindra x Frolic

An impeccable show flower of chaste form and refined texture and substance. Large blooms on tall stems, triangular wide shining white petals and a chaste trumpet gently flanged and painted a good lemon-butter yellow. Good pose. Scarce. **£7.10.0** each

2B

JOYOUS 2-3 M Polindra x Ludlow

Rather like My Love but much earlier and of firmer more formal show form. Perianth rigidly pressed and ironed flat away from the longish crown of pale lemon that fades to a creamier shade. Parade ground show stance but not without grace. Most consistently smooth and a very good grower. **£3** each

2B

HOLIDAY FASHION 3 M Mabel Taylor x Interim

A spectacular pink, very large broad flat much overlapping perianth of petals much whiter than might be expected from its parentage. Wide, much ruffled crown with a broad banded margin of deep salmon pink that moves down to the centre of the flower as it develops. Though not of orthodox show form this has drawn high praise from the most orthodox of fanciers. **£6** each

1A

UP FRONT 3-4 M King of the North x Content

A very large flower and later flowering than most. Luminous lemon in wide perianth and large trumpet flared and ruffled at the margin. Strong and tall. Most splendid garden plant. **50/-** each

Jean and Robert

Helen

Jean's letter. . . .

Michael and I hope you enjoy our new catalogue. Next year we shall have more colour in it. Do write to let us know what you think of the catalogue as we are open to suggestions as it is written for you.

Our three children are growing up very quickly. (I shall soon have a rival for my 'letter spot' in Helen — a very keen letter writer already). We are sad to see infant years going by so quickly but I have the consolation of knowing that in future years I shall be able to spend more time outside admiring the daffodils and not so much at the wash tub!

At flowering time Helen, Lindy and Robert go out with Michael and help to collect the flowers for taking to shows. They are becoming quite expert and helpful.

We do thank you for your past support and for the many expressions of thanks and encouragement you have given us. We hope that for you and for us 1968 will be an enjoyable and worthwhile one. All best wishes.

JEAN.

YELLOW TRUMPETS 1A

BRAEMAR 3-4 B Elgin x Golden Goblet

Scotland can be proud of this strong flower, and robust plant. An excellent rich golden daffodil which has helped breed some topline kinds. Thick strong substance and texture perhaps owe something to the jonquil blood inherited from Golden Goblet. Good laster, rich colour, excellent plant. 5/-, 60 cents each; 55/-, \$6.60 doz.

LURGAIN 2-3

Lea Kingscourt x Cromarty
AM 1961

Award of Merit yellow trumpet of very large size, rich thick texture, durable substance and outstanding strength. Broad petals of rounded triangular form held flat away from boldly finished trumpet. Rich golden canary yellow.

30/-, \$3.60 each 3 for 80/-, \$9.60

Yellow Trumpets 1A cont.

MOONMIST 1 M King of the North x Content

I value this soft lemon flower for it is in bloom with Forerunner when most other early flowers are buds deeply nestling in their leaves. Wide flat perianth and well flanged trumpet all in shining tones of lemon and sulphur. Good plant, very free of bloom. **20/-, \$2.40 each**

MOONSHOT 2-3 M King of the North x Content

Over past seasons this flower has impressed more each year with its refined and unusual character. It is one of chaste form with smooth pointed petals and a long trumpet neatly opened at the mouth. The creamy lemon of the perianth shows up the slightly darker colour of the trumpet which at some stages has tints of pinkish apricot like the reflection of the setting sun. **£3, \$7.20 each**

MOON GODDESS 2 GLW King of the North x Content

Immense noble trumpet of waxen texture and ethereal soft stained glass sulphur lemon. A lovely smooth flower broadly overlapping in the wide perianth and beautifully finished in the trumpet. It is an excellent garden plant being one of the most vigorous. **8/6, \$1 each; 85/-, \$11 doz.**

REMBRANDT 2-3 Lubbe FCC garden

Rich mid gold flower of good form. Best low priced yellow. Largest bulbs **16/- doz., 110/- per 100.** Strong bulbs **12/- doz., 80/- per 100**

TRUMPETER 3-4 GLW

Undoubtedly one of the best yellow trumpets to be introduced recently. Of excellent bold show form that needs no grooming. Large crops of fine big blooms held in wonderful pose for a long time. Even shining mid-yellow. Strong, blue foliage, neat plant. A group in the garden looks wonderful. *ill. p. 37.* **5/-, 60 cents each; 50/-, \$6 doz.**

WINDJAMMER 2-3 WJD

One of the most effective of all daffodils here. The stock has been a shining mass of sulphur lemon, each large bloom displaying petals as wide as a windjammer's sails and trumpet nobly flanged and proportioned. So generous that there always seems to be 2 flowers where other kinds would be content with 1. A favourite of mine. **20/-, \$2.40 each; £10, \$24 doz.**

RED TRUMPETS 1A

TIDD PRATT 2-3 WOB

A slender trumpet coloured a rich tangerine orange solid from the brim to the base. Narrow golden petals and trumpet are smooth textured. This perky flower is highly fertile and will prove useful in breeding further red trumpets. Scarce. £25, \$60 each

UNCLE REMUS 2-3 WOB

This red trumpet is giving seedlings of very rich colour. It is itself a good sized flower with primrose perianth of petals held at right angles to the full size trumpet-shaped trumpet of uniform glowing deep orange. The plant grows strongly and increases well. It may well be that the main future advances in red trumpets will stem from this variety. £50, \$100 each

No. 17 3 WOB

This is a yellow trumpet seedling bred by Mr. Backhouse and famous as the founder of all his red trumpet breeding. Always gives a percentage of red trumpets amongst its seedlings. A strong growing mid yellow trumpet. This Do-It-Yourself-Red-Trumpet-Breeding-Set is offered at £10, \$24.00 each or 3 for £20, \$48.00, whilst spare stock lasts.

4/-, 45 cents each, 40/-, \$4.50 doz.

FORESIGHT 1 GLW

Few can enjoy a greater welcome, one of the first flowers and of gallant show form. Milk white petals form a wide background for the princely primrose gold trumpet. Wonderful pot plant. So early, so robust, so free of flower, so good it should be in everyone's collection.

2/6, 30 cents each; 25/-, \$3.00 doz.

FROLIC 2-3 M (Beersheba x Kandahar) x Kanchenjunga

One of cleanest and clearest bicolors of high quality yet grown. Very smooth flat pointed petals of vivid white at right angles to rather narrow trumpet nicely flanged and coloured a rich even clear lemon. Grows well.

PINK TRUMPETS 1B

LISDILLON 3 Radcliff

From Down Under where it has been much used in breeding the pinks with which they led the world. Of pleasing quality with a neat rather pointed perianth held neatly and flat away from the rosy pink trumpet which is opened gently at the mouth. Blooms very freely, and increases well.

15/-, \$1.80 each; 150/-, \$18 doz.

RIMA 3-4 M Kenmare x Dawnglo

Smooth pure white petals of fine-spun quality held perfectly flat. Gently flared trumpet of deep lilac toned pink. A very strongly contrasted flower. In our collection its colour has shone out more strongly than other pinks. It grows and increases quickly. Is proving a useful breeding kind as well as a first rate garden and show flower. **£4, \$9 each**

WHITE TRUMPETS 10

BIRTHRIGHT 2-3 GLW Courage x Empress of Ireland

Glorious giant of wonderful refinement, having an immaculate perianth of very broad flat petals that are almost square and give the flower a masculine square rigged appearance. The crystalline texture of the petals grace the whole flower, the perianth that lies so exactly flat and the trumpet. The trumpet is not too wide at the base but is on the grand scale with a most neat bold pleasing flange. All in shining snow white. Consistent performer and excellent plant. **£15, \$36 each**

CANTATRICE 3 GLW. FCC 1939 AM Wissey 1936

Fit for the Gods. Refined as Old Chelsea porcelain. Pointed petals held beautifully away from the slender long trumpet. Pure white smooth satin flowers win regularly at shows. Lovely in the garden. **4/6, 55 cents each; 45/-, \$5.50 doz.**

CHIVALRY 2-3 JLR Broughshane x Brussels

Large circular flower and very white. More refined than either parent. This fine plant is one of the fastest increasing daffodils we grow and gives equally heavy crops of flowers. **20/-, \$2.40 each; 180/-, \$21 doz.**

MOUNT HOOD 3 FCC Wisley 1955

Very good garden daffodil in white and milk white. Strongly growing plant that gives many fine quality large flowers each year. Can be used successfully between shrubs and naturalised. **14/- doz., 95/- a 100**

QUEENSCOURT 2-3 GLW Courage x Empress of Ireland

Large and built on rather similar lines to Empress of Ireland, but whiter and even smoother. Immense white petals somewhat rounded and held strictly at right angles to the narrow trumpet that is opened with a generously and perfectly designed flange to give the final touch of class and exact balance to this noble flower. **£15, \$36 each**

RASHEE 3 GLW Cotterton x Broughshane

Ethereal snow white trumpet made all the finer by a touch of green at the base. Pointed broad perianth matched to a slender and highly polished trumpet finished with a neat roll. Frosty white and creaseless. **17/6, \$2 each; 175/-, \$20 doz.**

RIBER 2-3 Milne

Designed to exhibition specifications but of exceptional value in the garden as it is very floriferous, long lasting, and sturdy. Broad petals and nicely flanged trumpets make Riber a large showy but refined flower. A dream in pots. Increasingly popular. *ill. front cover.* **20/-, \$2.40 each; 200/-, \$24 doz.**

VIGIL 3 GLW AM 1956

A flower of this world perfect enough for the next. There is something unearthly in the way this icy white flower shines in the sunlight. But it is real for it is large and of parchment strong substance. Sharp pointed petals at right angles to graceful and flanged trumpet. Of such fine texture and perfect finish that being human one looks for flaws, but there are none. Last well, blooms carried a little lower than heaven but above the blue green erect foliage. **30/-, \$3.60 each; 3 for 75/-, \$9**

EMPRESS OF IRELAND	30/-, \$3.60
GLENSHESK	8/6, \$1.00
LONGFORD	45/-, \$5.40
STORMONT	35/-, \$4.20

REVERSE BICOLOR TRUMPETS 1D

ENTRANCEMENT 1-2 M King of the North x Content

Entrancement has large flowers of soft greenish lemon, though the slightly frilled trumpet becomes white as it develops. Rather deeper in tone than Lunar Sea and considerably different in shape and ten days earlier. A grand garden plant as can be seen by the illustration.

30/-, \$3.60 each; 300/-, \$36 doz.

HONEYBIRD 2-3 M King of the North x Content AM 1967

Best reverse trumpet yet seen. Excellent in form, texture and pose. Very flat perianth of smoothest quality in rich luminous lemon behind a very neat trumpet that becomes white as it develops. The reverse develops quicker than most. 1st quality plant, unbeatable in exhibition. £6, \$14 each

LUNAR SEA 2-3 M King of the North x Content

Opens a sulphur lemon flower, but trumpet soon fades to near snow white. Most white of reverses. Good form, plant of excellent habit. Tall strong. Uniquely beautiful garden flower. £3, \$7 each

NAMPA 2-3 M King of the North x Content

Distinctive deep coloured reversed bicolor, a powerful flower in the garden, being a very striking contrast with the rich luminous lemon perianth having a white halo at the base of the white trumpet when fully developed. Large and good in pots. Capable of winning at shows. 25/-, \$3.00 each

SPELLBINDER 1-2 GLW King of the North x Content

Alice-in-Wonderland flower. Broad petals and noble flanged trumpet. The whole opens an entrancing cool greeny sulphur lemon, but after a few days the magic begins to work and the inside of the trumpet passes to almost pure white, whilst, like the grin of the Cheshire Cat, a sparkle of lemon is left around the serrated brim.

4/-, 45 cents each; 40/-, \$4.50 doz.

ALL YELLOW LARGE CUPS 2A

CHEVALIER 2-3 JLR Galway selfed

Chevalier, like Galway, is magnificent as a plant with strong blue green foliage, a guardsman's upright carriage, and such uniformly well turned out flowers are paraded each spring that any inspection will fail to find one to fault. Rather trumpet in appearance, stronger coloured than Galway. Very fine in texture, substance, pose and durability. 40/-, \$4.80 each

DILIGENCE 3 GLW Crocus x Golden Hind

Striking with its wide strongly frilled and notched decorative trumpet crown. A fine exhibition perianth in very rich deep gold and thick substance. Bulbs like cannonballs. 30/-, \$3.60 each

FAWNGLO 3 M Binkie x (King of the North x Content)

A personal favourite of mine in cool haunting tones. A borderline flower in two respects as it might just as well be classed a 2D as the crown does become lighter than the perianth, and by measurement it is nearly a trumpet. It produces many fine-spun flowers of unusual creamy buff, that sometimes carries a luminescent pinkish tone in the crown. A chastely formed flower. 15/-, \$1.80 each; 150/-, \$18 doz.

GALWAY 3 JLR FCC 1949 prob. Royalist x Crocus

Well known daffodil that can be thoroughly recommended on all counts as a show or garden flower and in the dormant season as a missile. Tall stately blooms of singing golden colour, broad petalled, splendid in stature. The crown of trumpet form. 3/-, 35 cents each; 30/-, \$3.50 doz.

GOLDEN TORCH 2-3 FCC 1949 AM Wisley 1956

Big bold fellow with strong petals rigidly set at 90° to the precision-made crown with its saw edge. Golden yellow, slightly darker crown. Exceptionally vigorous and free of bloom 2/6, 30 cents each; 25/-, \$3 doz.

JEST 2-3 M

A joker with flat rounded perianth almost completely hidden behind darker flat widespread crown. Spectacular conversation piece. 7/6 each, 80/- doz.

ORMEAU 2-3 WJD Pilgrimage x Cromarty prob.

TULIPS!

(in a daffodil catalogue—whatever next?)

Let me say quickly we do not intend to start listing the hundreds of tulips at present offered by many firms, but we have so enjoyed growing the new FOSTERIANA – DARWIN hybrids, we have been tempted to put in this little offer. These new hybrids are so much stronger and larger than all other tulips that they really are a separate race. Often the bulbs can be left down for two years quite satisfactorily. The blooms are of course immense and brilliant.

PASSIONALE 3 GLW Rose of Tralee x Irish Rose AM 1957 AM Wisley 1963

From RHS Daffodil Year Book 1964, 'Daffodil Trials at Wisley' Herbert R. Barr. "There was one quite exceptional variety that we saw in the main garden and which was only in its second year — it was Passionale, certainly the best pink I have seen as a garden flower; the colour was good, the pose excellent and the flower flowers well above the foliage, a worthy Guy Wilson plant — it received a unanimous Award of Merit."

An immaculate perianth of long flat petals overlaps to half their length and are held so as to make a perfect L junction with the long cup of delightful pink. Crown as smooth in quality as the polished perianth and is finished with a very lightly opened mouth gently frilled and cut.

Passionale's winning points are these. It is earlier than most pinks. It grows with tremendous strength. It holds its colour well. Above all the pink is probably the purest pink shade yet seen in a daffodil and this is linked to a flower that has featured in many winning show exhibits.

35/-, \$4.20 each; 350/-, \$42 doz.

WHITE LARGE CUPS 2C

ARCTIC DORIC 2GLW AM Wisley 1967

Some are born white, some become white, some have the adjective 'white' thrust upon them. Arctic Doric is born white. It opens very early. Frosty white petals sparkle but the crown is perhaps even whiter, almost with a hint of blue in its purity. Perianth groomed by nature flat firm and wide, the crown being slender and scarcely opened at the mouth. Chaste icy flowers most generously produced from freely blooming and increasing plants. *ill. front cover.*

10/-, \$1.20 each;

100/-, \$12 doz.

ARDBANE 2-3 GLW St. Brendan x Greenland

A thoroughbred white. Snowy with a green base. Clean cut tailored perianth of wide triangular petals and a three quarter length crown smoothly expanded and scalloped at the brim. One of our favourites.

10/-, \$1.20 each; 100/-, \$12 doz.

BONNEVILLE 2-3 M Ada Finch x Fortune

Almost a sunflower but white. Enormous perianth up to 6" across with a flared trumpet-crown of pale lemon quickly fading to milk white. Makes a dwarf of anything nearby.

15/-, \$1.80 each; 150/-, \$18 doz.

CASTLE OF MEY 3 GLW

By gracious permission of the Queen Mother named after her Scottish highland castle home. White as driven snow, near trumpet proportion, medium size, flawless quality. Flat ironed petals, crown delightfully flanged, and touched at base with magic green.

10/-, \$1.20 each; 100/-, \$12 doz.

EARLY MIST 2 JLR Glendalough x Ardclinis

Looks like a refined white trumpet but beaten by the calipers. Long flanged crown rolled at mouth, perianth silken smooth of firm substance. Pure white. Early.

7/6, 90 cents each; 75/-, \$9 doz.

EASTER MOON 3 GLW Tryst x Greenland

Its obvious quality twice acknowledged as Best Flower in London Daffodil shows. Of Buddha-like implacability. Texture of smoothest of lilies, wide petals of perfect shape setting a standard for this section. Cold sage green nestling in base enlivens vivid shining flower. Good plant, important breeder. *ill. p.14.*

35/-, \$4.20 each

White Large Cups 2C cont.

GLENDERMOTT 3-4 GLW Truth x Broughshane

Miracle in form of a daffodil, icy white with green in base of beautiful trumpet crown. Perfect perianth a triumph of size and refinement. Tall strong. Cannot be overpraised as show, breeding, or garden plant.

25/-, \$3 each

GLENMANUS 3-4 WJD Dava x Justice PC 1949

Most lovely show flower. Wide flat satin-smooth petals overlap in sparkling whiteness behind an exactly proportioned crown of pale cream which passes rapidly to snow white. Polished attractive kind. Strong, free of bloom and increase.

5/-, 60 cents each; 50/-, \$6 doz.

GOOD MEASURE 3 MJB

This excellent 2C is neat in growth and neat in its flower. Firm stems carry bold uniformly snow white blooms of super quality. Good Measure earns its name by the width of the broadly overlapping petals ironed to parade-ground smartness. Chaste crown sparkles. Good bulb. Illustrated as top flower of front colour group RHS Daffodil Year Book 1967. *ill. p.37.*

£6, \$1.4 each

HOMAGE 4-5 GLW (Nelly x Chinese White) x (Tryst x Foggy Dew)

Wonderful worldbeater! Exemplifies the qualities Mr. Wilson strove to combine in his whites. Strong plant with large flowers or circular build, smooth and thick textured like Easter Moon. Snow white flowers made even frostier by dark sage green in the base that retains all its colour and sparkle till the flower finally passes away. Wonderful breeder. Homage named as tribute to Mr. Wilson.

£5, \$12 each

KNOWEHEAD 3 GLW Cotterton x Broughshane

Measures 2C but trumpet like. Aristocratic in bold pose with pointed shovel shaped petals amply overlapping, held with fine precision from trumpet crown which is neatly executed, beautifully flanged, frilled. Exquisite snowy show flower. Aristocratic garden plant.

17/6, \$2 each; 175/-, \$20 doz.

MONA LISA 3-4 Board Chinese White x Pigeon

A 3C's dream of the greater glory, but beaten by the calipers to measure 2C. The 3C's loss, the 2C's gain. Gently smiling perfection in snowy flowers prolifically produced from an impeccable mould. Broad shining petals lie ceaseless and much overlapping behind nearly flat wide gently fluted crown. Distinctive, gentle, smiling flower, a laster of highest class for exhibition or garden. A favourite of mine.

£5, \$12 each

PURITY 3 GLW AM 1960

Award of Merit flower, a perfect show one. Buds open to reveal glistening snow flowers. As they open so they remain, without a suggestion of cream. Wide somewhat pointed petals, a perfectly disciplined team, making a perianth pressed and starched at right angles to the fine-spun crown. Jean picked the name, a lucky one for such a pure flower. Crown shorter than Sister Arctic Doric's. Chaste. Strong. Tall.

10/-, \$1.20 each; 100/-, \$12 doz.

TIBET 2 GLW Tunis x Askelon ☽

Top class giant. Many huge blooms over 5" across with broad smoother perianths and wide eye-catching frilled trumpet crowns. Leek-like leaves. Sweet scented.

7/6, 90 cents; 75/-, \$9 doz.

WORCESTER 2 MJB

Crystalline sparkle in perianth and crown of this large fine quality flower. A hint of lemon in the gently frilled crown enhances its beauty early on, this fades in the sun to leave the whole frosty white. A most vigorous well-posed large cup flower that opens early, lasts well and is quite superb as a plant and generous increaser.

70/-, \$8.40 each

REVERSE BICOLOR LARGE CUPS 2D

DAYDREAM 3 M Binkie x (King of the North x Content) FCC 1966

Acclaimed as the best of its class. We were happy to get a First Class Certificate for this wonderful flower and plant. Most perfectly formed, with very flat overlapping rich glowing lemon perianth and a crown of near trumpet length, opening lemon but soon fading to near pure white. A white halo enhances its beauty. Opens after Bethany, its sister. Is a little deeper in colour and is somewhat more rounded in form.

ill. front cover.

70/-, \$8.40 each

BETHANY 3 M Binkie x (King of the North x Content)

Americans rate this best 2D. Beautiful flower of precise form. Ironed overlapping perianth is a soft luminous clear deep sulphur lemon. The crown, just short of trumpet length, opens same shade but rapidly becomes white particularly inside, though it saves enough lemon to touch round the frill. Large 1st class show flower, opening before Daydream.

70/-, \$8.40 each

BINKIE 3 GLW

Fine large cup flower that opens lemon, the crown fading later to nearly pure white. Good plant.

2/-, 25 cents each; 20/-, \$2.50 doz.; £7 per 100

CHARTER 2-3 M Binkie x (King of the North x Content) AM 1964

Stands like a regimental sergeant major; grows with the abandoned vigour of a pop singer in full cry; lasts with the fortunate persistence of the British aristocracy. Delicate and bewitching in colouring. Parchment firm petals stand broad and flat away from the longish crown. Flowers open in shining lemon, the crown being darker, but this is quickly changed for whilst the petals retain their colour, the crowns fades after a day or two to white.

Our daughter Lindy calls Charter, 'the one with the long handles.' It is tall and strong. Much the earliest of all 2Ds but also the longest lasting. Distinct from any other in

this class and first class for show or in the garden. I reckon this is probably our most important stock and expect it to be sold by the ton in the future, it is such a worthwhile garden plant. *ill. p.00.*

50/-, \$6 each, 3 for 125/-, \$14.40; £24, \$50 doz.

Reverse Bicolour Large Cups 2D cont.

LIMEADE 2-3 M Binkie x (King of the North x Content)

Proven over several years to be quite outstanding as a flower of the utmost refinement and a very floriferous long lasting garden one. Glowing rich lemon in the broad pointed flat perianth and slender trumpet crown. The crown develops good reverse colouring as the flower develops. Highly recommended. **50/-, \$6 each**

PASTORALE 2-3 M Binkie x (King of the North x Content)

Distinct graceful show flower. Widely overlapping broad slightly reflexed pale lemon perianth. The crown is pale lemon suffused buff apricot slowly fading to white with a narrow rim of lemon. Old Fashioned Daffodils

Most daffodils appeal to me, the old ones as well as the latest novelties. I hope to make a collection of some of these old kinds and early hybrids, a daffodil museum. I should be pleased to hear from anyone who may have a bulb or so to spare of such kinds as Princess Mary, Beacon, White Knight, Mde. de Graaff, Peter Barr, Frank Miles, Mozart, Garriboli. The idea is to preserve some of the interesting plants of yesteryear.

Some of the older kinds worth a place in the garden are these below which are most persistent plants that can be left down year after year.
