

Supplement A.

A list of all identified bee specimens collected in Grand Staircase Escalante National Monument between 2000 and 2003. Bees are arranged by family, subfamily, genus, subgenus, and finally species. New species (n. sp.) are those that differ from all published keys and are unique after comparison with all specimens located at the U.S. National Pollinating Insects Laboratory (a collection of nearly 2 million specimens). They are listed with their closest affiliation. Species that do not match with specimen descriptions exactly, nor with known specimens, but are not entirely distinct may represent either variants or new species. We have conservatively listed these as ‘sp.’, rather than as new species, with the closest affiliation in parentheses.

Notes of biogeographical interest are in the last column, and are coded as follows: CP: Endemic to the Colorado Plateau; E: Easternmost occurrence of the bee; GB: Endemic to the Great Basin; GSENM: Found only in GSENM; MD: Previously recorded only in the Mojave Desert; NG: New genus for the state of Utah; N: Northernmost occurrence of the bee; NS: New species for the state of Utah; SD: Previously reported only in the Sonoran Desert; S: Southernmost occurrence of the bee; W: Westernmost occurrence of the bee.

* *Agapostemon angelicus* and *A. texanus* females are impossible to distinguish. The number of specimens reported for each of these two species is for the males only, which can be identified.

Bee Species in GSENM
660 species, 55 genera, 49 new species

Andrenidae, 181 species, 7 genera, 22 new species

Andreninae

<i>Ancylandrena</i> , 1 species		
<i>Ancylandrena timberlakei</i> Zavortink, 1974	1	
<i>Andrena</i> , 71 species, 3 new species		
<i>Andrena (Andrena) frigida</i> Smith, 1853	7	
<i>Andrena (Andrena) macoupinensis</i> Robertson, 1900	26	
<i>Andrena (Andrena) milwaukeensis</i> Graenicher, 1903	339	
<i>Andrena (Andrena) schuhi</i> LaBerge, 1980	289	
<i>Andrena (Belandrena) sphaeralceae</i> Linsley, 1939	14	
<i>Andrena (Callandrena) accepta</i> Viereck, 1916	6	
<i>Andrena (Callandrena) haynesi</i> Viereck and Cockerell, 1914	3	W
<i>Andrena (Callandrena) helianthi</i> Robertson, 1891	5	
<i>Andrena (Callandrena) neomexicana</i> LaBerge, 1967	10	CP
<i>Andrena (Callandrena) pecosana</i> Cockerell, 1913	14	
<i>Andrena (Callandrena) utahensis</i> LaBerge, 1967	112	
<i>Andrena (Callandrena) vulpicolor</i> Cockerell, 1897	25	
<i>Andrena (Callandrena) n. sp. 1</i>	25	
<i>Andrena (Callandrena) sp. 2 (aff. simulata)</i>	1	
<i>Andrena (Callandrena) sp. 1 (aff. pecosana)</i>	8	
<i>Andrena (Cnemidandrena) ramaleyi</i> Cockerell, 1931	107	
<i>Andrena (Cnemidandrena) costillensis</i> Viereck & Cockerell, 1914	66	
<i>Andrena (Cnemidandrena) sp. 3 (aff. aurihirta)</i>	91	
<i>Andrena (Cnemidandrena) sp. 4 (aff. colletina)</i>	63	
<i>Andrena (Cnemidandrena) n. sp. 2 (aff. costillensis)</i>	21	
<i>Andrena (Conandrena) cheyennorum</i> Viereck & Cockerell, 1914	84	
<i>Andrena (Dactylandrena) porterae</i> Cockerell, 1900	2	
<i>Andrena (Dasyandrena) cristata</i> Viereck, 1917	5	
<i>Andrena (Diandrena) evoluta</i> Linsley & MacSwain, 1961	334	
<i>Andrena (Euandrena) astragali</i> Viereck & Cockerell, 1914	18	S
<i>Andrena (Euandrena) chlorura</i> Cockerell, 1916	23	
<i>Andrena (Euandrena) lawrencei</i> Viereck & Cockerell, 1914	11	
<i>Andrena (Euandrena) nigrihirta</i> (Ashmead, 1890)	13	
<i>Andrena (Euandrena) sp. 5 (aff. auricoma)</i>	1	
<i>Andrena (Euandrena) sp. 6 (aff. nigrihirta)</i>	3
