

PRE-SCHOOL CLASSES

REGISTER TODAY!

We specialize in working with pre-school age children. We know how to keep them safe and motivated while learning.

- "Maximites" is our recreational, preschool program, and offers non-competitive classes focusing on motor skill refinement and developmental gymnastics for toddlers and young children.
- Sequential activities designed to develop age-appropriate skills provide each child the opportunity to experience individual challenge, physical accomplishment, and, above all, lots of fun.
- We've designed our Maximite classes for safety and fun. Each class lasts for 50 minutes.
