This Court has been uniformly strict in its rulings upon all matters concerning appeals, compelling parties to comply literally with the requirements of the statutes and rules of court.

The Chief Justice made it in favor of petitioner on the 18th. The defendant on the 19th. The Court in banc, a bond of \$1000 was given by the defendant.

THE ORANGE. In modern European literature the orange has its fair share of place. Milton placed it Paradise, though it actually grows in doubt, he makes it grow on the tree of life.

THE ORANGE. Many late birds have sung of the orange, but none more lovingly than Sidney Lanier, in his "Tampa Robins," where the northern bird carols of "sunlight, song and the orange tree."

THE ORANGE. The earliest race of man who peopled England were the black fellows of the palaeolithic or older stone age. They were hunters and gatherers, and their remains are found in the existing caverns, inferior even to the existing Neanderthals, and of more ancient date.

THE ORANGE. The orange is a fruit of the tropics, and its cultivation in this country is a recent introduction. It is a fruit of the warm countries, and its cultivation here is a recent introduction.
