3

Background

- LCSH for many decades included headings and subdivisions that were used to describe what a resource *is* rather than what it is *about*. Headings can describe numerous non-subject aspects, including:

Genre/form

Symphonies World maps Comedy films Sports posters

Creator info

Canadian fiction Film posters, Swiss

American poetry--Women authors

African American children's writings Music by Jewish composers

Place of origin

Almanacs, Argentinian Folk music--Appalachian Region

4

Language

Arabic **essays--Egypt** **Short stories, Zambian** (English)

Audience

Young adult **fiction** **Teen films** **Cats--Juvenile poetry**

Music for hearing impaired children

Time period of creation

Rock music--1961-1970 **Tales, Medieval**

Moon--Maps--Early works to 1800

Music medium of performance

Balloon music **Piano quintets** **Concertos** (Bassoon, flute, oboe)

Flutes (3) with orchestra **Horn and viola music**

Guitar--Methods (Blues)

5

Background

- Starting with genre/form in 2007, LC has been developing new controlled vocabularies to describe some of these aspects, with the long-term goal of limiting LCSH to describe what a resource is *about* and using the new vocabularies to describe what it *is*
 - 2007- : *Library of Congress Genre/Form Terms* (LCGFT)
 - 2014- : *Library of Congress Medium of Performance Thesaurus for Music* (LCMPT)
 - 2015- : *Library of Congress Demographic Group Terms* (LCDGT) - used for audience and creator/contributor characteristics

6

Background

- New MARC fields/subfields for
 - Form of work (380)
 - Music medium of performance (382)
 - Demographic group characteristics (385, 386)
 - Place of origin (370)
 - Time period of creation (046 \$k/\$l and \$o/\$p, 388)
- Existing MARC fields for
 - Genre/form (655)
 - Language (008/35-37, 041)
 - Country of production (257)

7

Background

- LC has not yet fully implemented LCGFT in all of its cataloging
- No changes yet to LCSH policies. Continue to assign LCSH according to the *Subject Headings Manual* and assign LCGFT, LCDGT, and LCMPT *in addition*
- LC has no plans at this time to cancel any of the LCSH headings or form subdivisions that overlap with the genre/form terms

About the Library of Congress Genre/Form Terms PDF Files

This page provides print-ready PDF files for the 2018 Edition of the *Library of Congress Genre/Form Terms for Library and Archival Materials* (LCGFT), as well as the draft of the *Genre/Form Terms Manual*, which provides guidelines and instructions for making proposals and for applying genre/form terms.

Data for the 2018 edition was selected in January 2018. For users desiring enhanced functionality, LCGFT will continue as part of LC's web-based subscription product, *Classification Web*.

Earlier editions are available [here](#) but should not be used for cataloging.

(a rock opera is a work of rock music that presents a dramatic story told over multiple songs in the traditional manner of opera. The songs are usually presented in the form of a record album unified by a common theme or narrative. Many rock operas have never been staged as theatrical works, and exist only as audio musical works. For this reason, rock operas are often considered a subset of the concept album, and although many concept albums do not follow a specific story line, the ones that do follow a narrative blur the lines between rock opera and concept album even more)
 670 __ |a Wikipedia, Mar. 30, 2017: |b Rock opera (A rock opera is a collection of rock music songs with lyrics that relate to a common story. Rock operas typically are released as concept albums and are not scripted for acting, which distinguishes them from operas, although several have been adapted as rock musicals. The use of various character roles within the song lyrics is a common

LC Genre/Form Terms

- General principles
 - Consult *Introduction to Library of Congress Genre/Form Terms for Library and Archival Materials* and the *Library of Congress Genre/Form Terms Manual*
<http://www.loc.gov/aba/publications/FreeLCGFT/freelcgft.html>
 - Assigned to individual works *and* to compilations
 - Terms that describe works and expressions are eligible: terms for the intellectual or artistic expression of the work and also the original mode of issuance, where applicable

LC Genre/Form Terms

- General principles
 - Terms that describe manifestation attributes generally are ineligible (e.g., **DVDs; Large print books; Paperbacks**)
 - A few exceptional manifestation-level terms are in LCGFT (e.g., **Internet videos; Video recordings for the hearing impaired**), but they should not be considered precedents

27

LC Genre/Form Terms

- General principles
 - Definition: “Genres and forms may be broadly defined as categories of resources that share known conventions. More specifically, genre/form terms may describe the purpose, structure, content, and/or themes of resources. Genre/form terms describing content and themes most frequently refer to creative works and denote common rhetorical devices that usually combine elements such as plot and setting, character types, etc. Such terms may be closely related to the subjects of the creative works, but are distinct from them.”

28

LC Genre/Form Terms

- General principles

- **Exclusions:** Several other characteristics of works and expressions are closely related to genres and forms, but are not eligible for **explicit** inclusion in LCGFT:

- **ethnicity, nationality, or other characteristics of creators**

Korean drama; Russian folk songs; Artists' writings; Films by children; Music by women composers; Shinto poetry; Taoist music; Mexican American posters

- **intended audience**

Children's stories; Young adult drama; Music for the hearing impaired; Spanish language--Conversation and phrase books (for police)

- **time period of creation**

Medieval music; Han poetry; 19th century maps; Sixties rock 'n roll

29

LC Genre/Form Terms

- General principles

- **Exclusions:** Several other characteristics of works and expressions are closely related to genres and forms, but are not eligible for **explicit** inclusion in LCGFT:

- **language**

French fiction; Tagalog drama; Esperanto wit and humor; Chinese films

- **place of creation**

East Asian periodicals; Southern African newspapers; Inland Empire poetry

- **country of production**

Canadian films; Mexican television programs

- **geographic location**

fiction set in Portland, Oregon; films set in Tokyo

30

LC Genre/Form Terms

- General principles
 - **Exclusions:** Several other characteristics of works and expressions are closely related to genres and forms, but are not eligible for **explicit** inclusion in LCGFT:
 - **popularity of the work**
blockbusters; flops
 - **medium of performance**
Trumpet music; Choruses (Mixed voices); Bassoon, oboe, violin, cello with orchestra
 - **terms that by their nature require a value judgment on the part of catalogers and users**
racist films; patriotic music; feminist poetry

31

LC Genre/Form Terms

- General principles
 - Excluded characteristics **may be implicit** within a genre or form, e.g.
 - Fu** is a Chinese poetic form from the Han Dynasty
 - Chansons de geste** are a type of Old French epic poetry
 - Kuravañci plays** are Tamil musical dance dramas from the 17th and 18th centuries
 - Silent films** generally come from a particular time period of the 20th century
 - Rubble films** are set in the rubble of bombed-out European cities
 - LCGFT has a few exceptional terms indicative of audience which should not be considered precedents, e.g.
 - Children's films; Law for laypersons; Television programs for people with visual disabilities**

38

LC Genre/Form Terms

- General principles
 - Specificity applies to genre/form the same as it does to subjects. Assign LCGFT terms that are specific to the resource being cataloged. A seemingly broad term like **Poetry** is specific when you're cataloging a collection of poems in many different forms.
 - Assign genre/form terms only as they come readily to mind after a superficial review of the resource being cataloged.
 - Assign genre/form terms that correspond to the cataloging treatment of the resource. If cataloging a continuing resource such as a periodical, a monographic series, or a collected set, assign terms that characterize the resource as a whole. If cataloging a work as an analytic, assign terms that characterize the analytic.

39

LC Genre/Form Terms

- General principles
 - Assign terms based on analysis of the resource being cataloged. Genre/form terms do not need to be justified by descriptive cataloging elements
 - Assign to the resource being cataloged genre/form terms that describe the resource as a whole. Sometimes one term is sufficient, while at other times a complement of terms is necessary
 - Assign broader or more general terms when it's not possible to establish a more specific term, when an array of terms is needed (e.g., for a Western romance novel, three terms are needed: **Western fiction**, **Romance fiction**, and **Novels**), or when the LCGFT Manual includes special instructions to do this

40

LC Genre/Form Terms

- General principles
 - It is permissible to assign both a broader and a narrower term (for a compilation that consists of a predominant genre or form but includes a “significant proportion” of works that would be assigned another term in the hierarchy)
 - Example:* for a poetry collection primarily containing limericks but also containing a significant proportion of other types of humorous poetry, may assign both **Limericks** and **Humorous poetry**
 - If there is a predominant genre/form, assign that term first; if predominant genre/form needs two terms to express it, assign them first

41

LC Genre/Form Terms

- General principles
 - Don't assign genre/form terms to works that have no discernible genre/form (e.g., a history of U.S. foreign relations in the 20th century)
 - For resources with separate parts (e.g., text plus an extensive bibliography or a section of maps; book with accompanying disc) also assign separate terms for the individual parts or materials if they are judged to be significant. May use \$3 to identify the part to which a term applies

42

LC Genre/Form Terms

- General principles

- Number of terms

- If a resource consists of two or three genres that make up a broader genre, and that broader genre includes no other than those two or three genres within its scope, assign the broader genre instead of the two or three narrower genres

Title: The best Rosh ha-Shanah and Yom Kippur music : music of the High Holidays

Term assigned: **High Holiday music** (rather than **Rosh ha-Shanah music** and **Yom Kippur music**)

43

LC Genre/Form Terms

- General principles

- Number of terms - Rule of Three

- If a genre/form term includes in its scope more than three sub-genres or forms, but the resource being cataloged consists of only two or three of those sub-genres or forms, assign the appropriate two or three terms instead of the broader term

Title: Time machine: the history of Canadian 60's garage, punk, and surf, 1985-95

Terms assigned: **Garage rock music**

Punk rock music

Surf music

not **Rock music**, the broader term, because it has more than three NTs

44

LC Genre/Form Terms

- General principles
 - Number of terms - Rule of Three
 - If a resource displays more than three of the narrower terms of a single broader term, assign the broader term unless the rule of four applies
 - Number of terms - Rule of Four
 - For resources that display four sub-genres or forms of a broader term, if the four sub-genres or forms comprise only a small portion of the scope of the broader term (i.e., the broader term has many narrower terms in addition to the four in question), assign the four sub-genres or forms instead of the broader term.
 - *Example:* poetry anthology that consists of four Japanese forms: **Haiku**, **Senryu**, **Tanka**, and **Kyōka**. Assign the four specific terms rather than **Poetry**

45

LC Genre/Form Terms

- General principles
 - Bring out or account for each genre or form in the title and subtitle if they accurately represent the genre(s) and/or form(s) of the resource and if they are useful for retrieval
 - If the title is general but the work is actually of a more specific genre and/or form, assign terms for the specific genre or form
 - If many genres and/or forms are listed on the title page in the manner of a table of contents, treat them as a table of contents
 - Follow additional instructions in the manual for kinds of resources and disciplines (e.g., literature)

46

LC Genre/Form Terms

• General principles

- **Objectivity:** Avoid assigning terms that express personal value judgments and opinions about resources being cataloged. Consider the intent of the author or publisher, and if possible assign terms for this orientation without being judgmental (e.g., if collection says it's humorous poetry, assign the appropriate term even if you don't find the poems funny)
- LCGFT terms are not authorized for any type of subdivision (no \$x, \$y, \$z, or \$v)

Not valid: 655 _7 Science fiction \$z France. \$2 lcgft

655 _7 Science fiction \$y 19th century. \$2 lcgft

LCGFT “General” Terms

- Divided into 10 “top” terms: **Commemorative works; Creative nonfiction; Derivative works; Discursive works; Ephemera; Illustrated works; Informational works; Instructional and educational works; Recreational works; Tactile works**
 - These are mainly for gathering the general terms into broad categories; they will rarely be assigned in a bibliographic record because more specific terms are available
 - Some of the more specific terms may be in the hierarchies of multiple top terms. For example, **Handbooks and manuals** has two BTs, **Instructional and educational works** and **Reference works**, which is an NT of **Informational works**

Ice sports

luge

Luge racing is a relatively new sport that involves sliding down an icy track at high speeds. A luge is a type of sled, similar to the ones used by children, that was invented in 19th century Norway. The first official race, in 1893, attracted 23 competitors from six countries, and was run from the village of Davos to Klosters, Switzerland. In 1913, the International Luge Club was founded in Dresden, Germany, and a track was built there. The first European Luge Championships were held in 1916. In 1935, luge joined the International Bobsleigh and Tobogganing Federation (IBTF) and since 1945, thanks to Germany's influence, luge has become a major sport. In 1957, the International Luge Federation (FIL) was founded, and the following year saw the first World Championships, which are held each year, except during Olympic years. The first Olympic luge competition was held at the 1964 Games in Innsbruck, Austria. Both men and women compete in the sport.

HOW A RACE IS ORGANIZED

Races are held in both singles and doubles (men and women), either on artificial or natural tracks. Competitors race against the clock, and the slider with the best time wins. Each racer is allowed 2 to 4 runs, and the one with the lowest total time is the winner. The starting order for competitors is determined by random draw. When the starter gives the signal, the green light goes on, and the competing competitors: the instant the front of the luge passes the starting coils. The slider has 30 seconds to reach the coils in singles, and 40 seconds in doubles. Races are held over distances of minimum 1,000 m and maximum 1,300 m (men's singles) or between 800 and 1,000 m (doubles and women's singles). Luge is a Winter Olympic sport in which time is measured in milliseconds.

TRACK

Whether natural or artificial, the average luge track is 1.5 km long, with several turns (right, left, S-curves and hairpin curves), and is coated with a thin layer of ice. Artificial tracks are designed around a carefully calculated, theoretical, but unseen ideal path of descent. Natural tracks are made on ice-covered winding roads, and have no hairpins. Luge racing on natural tracks is especially popular in Central Europe, where national and international meets are held.

TECHNIQUE

1. Start
This is the critical moment when the slider has a decisive influence on the outcome of the race. Seated on the luge, the racer swings back and forth while holding on to the steering handles on each side of the track.

2. Push off
When ready, the racer starts off with a powerful push.

3. Acceleration
Once in motion, and after taking one of the starting handles, the slider grips the steering handles, and the sled is pushed into a spiral groove. The racer then pulls the luge handle and holds on to them for the remainder of the race.

4. Descent and steering
The slider lies back to reduce wind resistance and to descend as fast as possible, one steers by pulling the weight slightly with a motion of the head and/or shoulders, or by exerting a bit of pressure on the runners. These body movements, combined with the gravitational force wanted in curves, increase speed.

• H.R. 3393 A bill to amend the Animal Welfare Act to prevent the crime of pet theft.

Introduced on May 7, 1996, by Jon Fox (R-Penn.) and referred to the Committee on Agriculture. Referred to the Subcommittee on Livestock, Dairy, and Poultry on May 13, 1996. Executive comment requested from the U.S. Department of Agriculture on May 20, 1996. This act may be cited as the "Family Pet Protection Act of 1996."

Section 7 of the Animal Welfare Act is amended to read as follows: (a) It shall be unlawful for any research facility to purchase, lease, or acquire in a calendar year a live or dead dog or cat, in or affecting commerce, for research or educational purposes, except from: (1) a licensed dealer who bred and raised the dog or cat; (2) a pound that is in compliance with sections 6, 28, and 30, and that acquired the dog or cat from the legal owner of

The IACUC Process: Facilitating Science in a Well-Managed Animal Care and Use Program

by G. David Ledney, Ph.D., Radiation Medicine Department and Institutional Animal Care and Use Committee, LTC Clayton L. Hudick, USA, M.P.H., D.V.M., A.C.L.A.M., Veterinary Sciences Department; and Robert H. Weichbrod, Ph.D., M.B.A., B.S.M., Veterinary Sciences Department, Armed Forces Radiobiology Research Institute, Bethesda, Maryland

Introduction

Communication among people with diverse backgrounds and vested interests is difficult at best. This is especially true among those concerned with animal welfare issues. An Institutional Animal Care and Use Committee (IACUC) is by its nature a focal point (fig. 1) for communication among all parties who have a stake in the use of animals in biomedical research. While each group may seek resolutions that favor its own interests, when evaluating animal use proposals, must be the ethical use of animals in research and testing.

During a typical review process, IACUC members are accustomed to hearing, "You can't do that," "You don't know the science," "You have no authority," "I've done this so many times already," "That will take too long," "You are an impediment to research," (8) When a frustrated investigator says, "Just tell me what I need to do," an IACUC member may be

• H.R. 2179 To amend the Marine Mammal Protection Act of 1972 to support the International Dolphin Conservation Program in the eastern tropical Pacific Ocean, and for other purposes.

Introduced August 3, 1995, by Randy Cunningham (R-CA) and referred to the Committee on Resources. This Act may be cited as the "International Dolphin Conservation Act Amendments of 1995."

The purposes of this act are the following: to ensure a viable and ecologically sound tuna fishery in the eastern tropical Pacific Ocean, including avoidance of bycatch of non-targeted marine species, maintenance of healthy stocks of tuna, and protection of marine mammal populations; to otherwise strengthen and improve international efforts to reduce incidental dolphin mortality to insignificant levels approaching a zero mortality and serious injury rate as required by

Laboratory Animals in Space Life Sciences Research

by Gary L. Barkowski, D.V.M., M.S., Pennsylvania State University, University Park, Pennsylvania; William W. Wilfinger, Ph.D., Biotech Express, St. Bernard, Ohio; Philip K. Lane, M.D., Lockheed Martin Engineering and Sciences Services Company, National Aeronautics and Space Administration (NASA) Ames Research Center, Moffett Field, California

Abstract

Animals have been invaluable in space life sciences research and have contributed greatly to the current database of knowledge in this field. This article presents an overview of the historical involvement of animals, describes the hardware and logistics of flying animal payloads on the space shuttle orbiters, and discusses future plans for animal experiments in space.

Introduction

Since the beginning of modern space exploration, animals have accompanied and sometimes preceded humans as space travelers. Extensive animal experimentation was used in both the United States and Soviet/Russian space programs to collect the medical knowledge and

LCGFT Literature Terms

- Exclusions from LCGFT
 - Terms that require a value judgment on the part of catalogers and users are ineligible, e.g., **Feminist fiction; Patriotic poetry**
 - Terms for literary movements, e.g., **Dadaist poetry; Expressionist drama; Beat literature**
- However, style and technique *are* eligible, e.g., **Frame stories; Magic realist fiction; Metadramas; Parodies (Literature); Noir comics; Satirical literature; Stream of consciousness fiction**

102

LCGFT Literature Terms

- LCGFT Manual J 235 Special provisions for literature:
- *Fiction*: In addition to other genre/form terms, assign a term for length when it is readily apparent

Novels Novellas Short stories Flash fiction

- *Poetry*: For both individual poems and collections of poetry, rely chiefly on the title, introduction, cover information, etc., to determine whether the poetry is of a specific genre or form. If after a superficial review a specific genre or form cannot be determined, assign the term **Poetry**
- *Poetry*: If the genre or form of a poem or collection of poetry is known to the cataloger due to the cataloger's academic or cultural background, etc., one or more genre/form terms may be assigned to represent the genre or form (e.g., you know that Homer's *Odyssey* is **Epic poetry** even if the resource you're cataloging doesn't say it is)

She has dark flashbacks in the middle of practice, can't concentrate in class, and has terrifying dreams about Lissa. But Rose has an even bigger secret She's in love with Dimitri. And this time, it's way more than a crush. Then Strigoi target the academy in the deadliest attack in Moroi history, and Dimitri is taken. Rose must protect Lissa at all costs, but keeping her best friend safe could mean losing Dimitri forever..." --Amazon.com

100 1_ Tempest, Kate, \$e author.

245 10 Let them eat chaos / \$c Kate Tempest.

500 __ "This poem was written to be read aloud"--Page opposite title page verso.

On back cover:

"Let Them Eat Chaos, Kate Tempest's new long poem written for live performance and heard on the album release of the same name, is both a powerful sermon and a moving play for voices. Seven neighbours inhabit the same London street, but are all unknown to each other. The clock freezes in the small hours, and, one by one, we see directly into their lives: lives that are damaged, disenfranchised, lonely, broken, addicted. Then a great storm breaks over London, and brings them out into the night to face each other--and offers them a chance to connect."

Moving Image Terms

- Top terms: **Motion pictures, Television programs, and Video recordings** *
- LCGFT Manual Instruction Sheet J 240:
 - The word *films* refers to resources that are originally recorded and released on motion picture film, on video, or digitally. The phrase *television programs* refers to those resources that were intended to be telecast.
 - Assign one of these terms: **Fiction films; Nonfiction films; Fiction television programs; Nonfiction television programs**
 - For films, assign either **Short films** (< 40 min.) or **Feature films** (40 min. or longer) as appropriate

* actually, **Visual works** is the top term for moving images and other visual works

133

Moving Image Terms

- LCGFT Manual Instruction Sheet J 240:
 - For moving image resources produced with captions or sign language for viewing by the hearing impaired assign: **Films for the hearing impaired** or **Television programs for the hearing impaired**
 - For moving image resources with additional audio description provided for people with visual disabilities assign: **Films for people with visual disabilities** or **Television programs for people with visual disabilities**.
 - *Local policy decision*: instead of or in addition to above, may assign **Video recordings for the hearing impaired** and/or **Video recordings for people with visual disabilities**

134

Moving Image Terms

- OLAC's *Library of Congress Genre-Form Thesaurus (LCGFT) for Moving Images: Best Practices* (http://www.olacinc.org/sites/capc_files/LCGFTbestpractices.pdf)
 - Terms may be assigned from different levels of the same hierarchy if desired (e.g., **Slasher films** as well as **Horror films**; **Sex comedy films** as well as **Comedy films**)
 - Fiction vs. nonfiction: useful for limiting/faceting; guidelines for borderline cases
 - When to assign **Short films** and **Feature films**: films or videos that have been or are likely to have been originally exhibited theatrically or otherwise shown publicly and for films and videos similar in structure and style to films shown in theatrical venues where users may find these categories useful
 - Accessibility terms: base accessibility form terms on the format in hand, normally video recordings, rather than the original format. **Films for the hearing impaired** and **Films for people with visual disabilities** should thus only be used when cataloging moving images in film format. **Television programs for [. . .]** terms would not be used at all

135

Moving Image Terms

- OLAC's *Library of Congress Genre-Form Thesaurus (LCGFT) for Moving Images: Best Practices* (http://www.olacinc.org/sites/capc_files/LCGFTbestpractices.pdf)
 - Recommends order of genre/form terms: from specific terms to broader terms, followed by terms relating to intended audience, technique, derivation, duration, fiction/nonfiction element, form of distribution, and accessibility. Any local terms should follow the authorized LCGFT terms
 - Guidance on when to use **Internet videos**, **Podcasts**, and **Webisodes**
 - **Internet videos**: only when the piece in hand is on the Internet
 - **Podcasts** and **Webisodes**: for resources in their original format online as well as for DVDs containing them

Music Terms

- Use for both sound recordings and notated music
- For notated music, there are additional terms that are assigned to bring out the notated aspect (e.g., **Chorus scores; Fakebooks (Music); Musical sketches; Parts (Music); Piano scores; Scores; Songbooks; Vocal scores**)
- LCGFT Manual J 250 Music – “coming soon”
- Until J 250 comes out, use: Music Library Association’s *Best Practices for Using LCGFT for Music Resources*

139

Music Terms

- Music Library Association’s *Best Practices for Using LCGFT for Music Resources*
(https://cdn.ymaws.com/www.musiclibraryassoc.org/resource/resmgr/BCC_Resources/BPsForUsingLCGFT_Music.pdf)
 - Generally choose the most specific appropriate term available (e.g., **Rock music** instead of **Popular music**)
 - If work combines aspects of two genres/forms that are in different hierarchies, or exemplifies more than one genre/form, give multiple terms (e.g., for an art song, assign both **Songs** and **Art music**)
 - For notated music, give terms for the notated format in addition to any genre/form terms describing the musical work (e.g., for the score and set of parts for a string quartet, assign **Chamber music, Scores, and Parts (Music)**)

140

Music Terms

- Music Library Association's *Best Practices for Using LCGFT for Music Resources*
 - For sound recordings, do not assign **Sound recordings***, but assign terms for particular types of sound recordings if appropriate (e.g., **Film soundtracks, Live sound recordings, Original cast recordings, Remixes (Music), Visual albums**)
 - Guidance on some specific terms (**Art music and Folk music; Chamber music; Arrangements (Music); Excerpts**)
 - LCGFT terms should be used in conjunction with LCMPT terms
 - For now, continue to use LCSH in field 650 according to the guidelines in the Subject Headings Manual

** This practice was based on an earlier version of the authority record that had a scope note limiting the use of **Sound recordings** to collections. That scope note was removed in 2019.*

Cartographic Materials

- LCGFT Manual: No separate instruction sheet for these materials
- *Cartographic Resources Manual* (2016) available through Cataloger's Desktop
 - Replaces LC's *Map Cataloging Manual*
 - Chapter 4. Subject Access:
 - Assign at least one genre form heading for all cartographic materials. Assign a more specific applicable heading or headings in preference to a general one, that is, **Road maps** rather than **Maps**.
 - There is no set order for genre form headings for maps.
 - However, for other cartographic materials, the first heading should be specific to the medium, such as **Atlases**, **World atlases**, **Globes**, or **Relief models**. This heading can then be followed, in no set order, by any another headings that apply, such as **Physical maps** or **Road maps**.

Cartographic Materials

- *Cartographic Resources Manual* (2016) available through Cataloger's Desktop

- Chapter 4. Subject Access:

- A subsidiary map mentioned in a title, subtitle, or cover, even if not indexed, frequently receives a subject or genre/form tracing depending on prominence, detail, typography, or other factors.
- Subsidiary maps, especially insets, which portray a specific subject frequently receive subject or genre/form tracings, whether or not they are indexed.
- The genre/form headings **Maps**, **Tourist maps**, and **Road maps** are all considered general headings, and the maps to which they apply are considered general maps. The use of two of the three general headings on the same work should be explained by the title, alternate title, series, or overall publishers' intent, often clarified by a shows note.

Library of Congress Demographic Group Terms

Audience and Creator/Contributor Characteristics

- Explicit indications of **audience** and **creators/contributors** of works and expressions are out of scope for LCGFT (although currently there are a few exceptions)
- *Introduction to Library of Congress Demographic Group Terms:*

“When LCGFT is fully implemented, LCSH form headings – including those that include both form and audience, or form and creator/contributor characteristics – will no longer be assigned to resources that are for particular audiences, or by members of a particular demographic group. Those headings will be reserved for topical resources about those resources. Since the demographic characteristics of audiences, creators, and contributors are out of scope for LCGFT, another method had to be devised for describing those aspects of resources, or vital information would be lost.”

164

Audience and Creator/Contributor Characteristics

- If we stop using LCSH to describe what resources are, information about audience and creators/contributors needs to be retained somewhere

LCSH: **Almanacs**, **Children's**
LCGFT: **Almanacs**

LCSH: **Young adult fiction**, **Korean**
LCGFT: **Fiction** (or **Novels**, **Short stories**, etc.)

LCSH: **Jazz \$z Lithuania**
LCGFT: **Jazz**

LCSH: **Music by African American composers**
LCGFT: **Music** (or more specific terms)

LCSH: **Music for the blind**

LCGFT: **Poetry**

165

Audience and Creator/Contributor Characteristics

- MARC fields 385 and 386 were developed to have a place to record audience and creator/contributor characteristics
- *Library of Congress Demographic Group Terms* (LCDGT) is a controlled vocabulary specific to demographic groups and was developed for use in 385 and 386 fields
- Initial group of 387 terms were approved in 2015, and there were 1,177 approved terms as of April 2019
- SACO proposals may be made for additional needed terms (although there is currently a moratorium while LC evaluates LCDGT's structure and principles)
- LCDGT should be used with the *Demographic Group Terms Manual* (<https://www.loc.gov/aba/publications/FreeLCDGT/freelcdgt.html>)

MARC 385/386 \$m and \$n

\$m – Demographic group term (NR)

\$n – Demographic group code (NR)

- During the development of the 385 and 386 fields, some commented that many class of persons headings belong to broader group categories that users might want to search or limit by. For example, children, tweens, teenagers, young adults, middle-aged persons, and senior citizens are all examples of **age groups**. Catholics, Baptists, Jews, Buddhists, Mormons, Muslims, Hindus, and Wiccans are all examples of **religious groups**.

Library of Congress Demographic Group Categories Term and Code List

List identifier: lcdgt

<http://www.loc.gov/standards/valuelist/lcdgt.html>

Term and Code List

The purpose of this list of demographic categories and associated codes is to allow terms that are authorized in Library of Congress Demographic Group Terms (LCDGT) to be collocated at a broad level.

The demographic group category codes are three-character lowercase alphabetic strings. They are derived from the first letter of the demographic group category and two additional letters from the word(s) making up the demographic group category name.

Age [age]

Use for the chronological age of the group members (e.g., Adults, Children, Infants).

Educational level [edu]

Use for the educational level of the group members (e.g., First grade students, Graduate students, High school students).

Ethnic/cultural [eth]

Use for the ethnic or cultural identification of the group members (e.g., Asian Americans, Maratha (Indic people), Muscogee (North American people). For ethnic and cultural groups that are also demonyms associated with a supra-national region, a country or a sub-national region or jurisdiction, prefer Nation/regional category.

Gender [gdr]

Use for the gender of the group members (e.g., Females, Males, Transgender people).

Language [lng]

Use for the language associated with the group members (e.g., Arabic speakers, English speakers, Zulu speakers).

Medical, psychological, and disability [mpd]

Use for the medical or psychological condition, or the physical or mental disability, of the group members (e.g., Breast cancer patients; Mentally ill; Deaf).

National/regional [nat]

Use for the demonym related to a supra-national region, a country, or a sub-national region or jurisdiction that is associated with the group members (e.g., Angolans, Bavarians, Easterners (United States)). For ethnic and cultural groups that are not also demonyms, prefer Ethnic/cultural category.

Occupation/field of activity [occ]

Use for the activity or avocation associated with the group members (e.g., Hunters, Mathematicians, Textile artists).

Religion [rel]

Use for the religion or denomination, sect, etc., of the group members (e.g., Buddhists, Presbyterians, Shiites).

Sexual orientation [sxo]

Use for the sexual orientation of the group members (e.g., Bisexuals, Gay men, Heterosexuals).

Social [soc]

Use for identifiable social groups that cannot be included in the other categories (e.g., Children of divorced parents, Nursing students, Socialists).

170

385/386 Fields

- \$m and \$n are optional
- \$2 is optional, but recommended if terms recorded are from a controlled vocabulary. Use *lcdgt* for terms from LCDGT
- May repeat \$a when terms are from the same vocabulary:

386 __ Catholics \$a Canadians \$a Librarians \$2 *lcdgt*

A work or works created by Catholic Canadian librarians

- Must repeat the field if \$m or \$n is used and terms belong to different demographic categories:

386 __ \$n rel \$a Catholics \$2 *lcdgt*

386 __ \$n nat \$a Canadians \$2 *lcdgt*

386 __ \$n occ \$a Librarians \$2 *lcdgt*

171

385/386 Fields

- Must repeat field if terms are from different controlled vocabularies:

385 __ \$a Teenagers \$2 *lcdgt*

385 __ \$a Adolescents \$2 *ericd*

A work or works for teenagers

386 __ \$a Indians, North American \$2 *mesh*

386 __ \$a American Indians \$2 *ericd*

386 __ \$a Indians of North America \$2 *lcsh*

A work or works created by Native Americans

172

385/386 Fields

- Generally, break up compound terms into their components. For example:

~~386 __ Japanese American women teachers \$2 lcsb~~

use instead:

386 __ Japanese Americans \$a Women \$a Teachers \$2 lcdgt

or

386 __ \$a Japanese Americans \$2 lcdgt

386 __ \$a Women \$2 lcdgt

386 __ \$a Teachers \$2 lcdgt

A work or works created by Japanese American women teachers

173

- Use \$3 for parts of resource to which the field applies.

245 00 Contemporary African plays / \$c edited and introduced by Martin Banham and Jane Plastow.

386 __ Africans \$2 lcdgt

386 __ \$3 The chattering and the song ; Death and the king's horseman \$a Nigerians \$2 lcdgt

Which Vocabularies to Use?

- Any vocabularies that are on the *Subject Heading and Term Source Codes* list or other appropriate specialized lists such as *Occupation Term Source Codes*

<http://www.loc.gov/standards/sourcelist/subject.html>

- LCDGT is being developed as a preferred vocabulary to use in these fields
- My advice:
 - 1) use LCDGT as first choice
 - 2) propose needed new terms through SACO whenever possible
 - 3) use other vocabularies (LCSH, MeSH, AAT, etc.) as third resort
 - 4) use an uncontrolled/local term as last resort

181

Where Can You Find LCDGT Terms?

- Available in Classification Web and through LC's Linked Data Service (id.loc.gov)
- Now also searchable through Cataloger's Desktop (if you have a Class Web subscription)
- Annually created PDF file at <https://www.loc.gov/aba/publications/FreeLCDGT/DEMOGRAPHIC.pdf>
- Netanel Ganin's list at <http://www.netanelganin.com/projects/lcdgt/lcdgt.html>
- New and changed terms are posted in the monthly lists at <http://www.loc.gov/aba/cataloging/subject/weeklylists>; free subscriptions to the monthly lists, via e-mail or RSS feed, can be arranged at <http://www.loc.gov/rss>
- Full MARC 21 authority records in MARC UTF-8 format are free to download from <http://classificationweb.net/LCDGT/> and in a variety of formats from the Linked Data Service
- Authority records **not** available in OCLC Connexion or SkyRiver 🙄

182

LCDGT Authority Record

- Authorized terms are tagged 150 even though they are used in 3XX fields

183

Why Use LCDGT?

- LCDGT includes many terms that are not in LCSH:
 - language speakers Chinese speakers Korean speakers
 - demonyms for persons from states, provinces, regions, etc.
Wisconsinites Newfoundlanders Tuscans
 - non-U.S. ethnic groups formed as compound terms
Japanese Canadians Asian Australians Bosnian Swedes
 - members of named religious denominations and political parties
Church of Scotland members Fianna Fáil members (Ireland)
- LCDGT terms may be different from LCSH:
 - phrase headings instead of [Main heading]--[Subdivision] strings
Breast cancer patients Bookstore employees
 - Native American tribal groups formed differently
Cherokee (North American people) vs. Cherokee Indians
 - new authority research might lead to choice of different authorized form

About the Library of Congress Demographic Group Terms PDF Files

This page provides PDF files for the 2017 Edition of the *Library of Congress Demographic Group Terms (LCDGT)* as well as the draft of the *Demographic Group Terms Manual*. The LCDGT vocabulary should be used in conjunction with the Manual, which provides guidelines and instructions for making proposals and for applying demographic group terms. Data for this edition was selected in April 2017.

LCDGT is also available in other formats. For users desiring enhanced functionality, LCDGT will continue to be part of LC's web-based subscription product, *Classification Web*. Authority records in MARC UTF-8 format may be freely downloaded from <http://classificationweb.net/LCDGT/>, and they are also available for download in a variety of formats from LC's Linked Data Service, <http://id.loc.gov>.

Earlier editions are available [here](#) but should not be used for cataloging.

Assigning LCDGT - Key Points

- May add Audience Characteristics (field 385) and Creator/Contributor Characteristics (field 386) to bibliographic and authority records
- *LC practice*: one term per field. Repeat field if recording multiple terms. Optionally include \$n code.

201

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Audience may be explicitly stated or implicit. Infer audience through examination of the resource (subject matter, format, etc.).
 - Liberally assign inferred audiences for juvenile resources, both fiction and nonfiction. Not restricted to age and educational level terms. For example, for a picture book on intercountry adoption for ages 5-9, you could assign both **School children** and **Adoptees**, if considered useful for those wishing to find a resource to help explain adoption to young children
 - No limit to number of terms that can be assigned

202

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Generally, all editions of a resource should get the same audience terms assigned, unless the audience has changed significantly. Generally, all editions of a resource by the same creator should get the same creator terms.
 - You may assign terms that overlap in meaning if they are in different group categories (e.g., **Teenagers** and **High school students**; **Asian Americans** and **Americans**)
 - Creator/contributor terms should be based on self-identification as a member of a particular demographic group
 - Avoid assigning terms based solely on a photograph or a person's name. Gendered titles (Ms., Mr., Madame, contessa) and pronouns (he, she, elle, er, etc.) may be used, with caution, to choose terms describing a person's gender

203

What do each of these people have in common?

204

Assigning LCDGT - Key Points

- LCDGT Manual L 480 (Audience) and L 485 (Creators/Contributors)
 - Demographic terms assigned to one of a creator's resources generally can be used on other resources created by the same person
 - Assign a term that is broader or more general than the group it is intended to cover only when it is not possible to establish a precise term, or when an array of terms is needed
 - Assign a separate term for each discrete element rather than compound terms (e.g., **Japanese Americans** and **Women** and **Teachers**, rather than the LCSH term **Japanese American women teachers**)
- L 487 gives guidance on the order of the terms
 - If classification number does not reflect either the audience or creator/contributor characteristics, the order doesn't matter

205

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Age level and Educational level terms can both be assigned
 - 385 __ Teenagers \$2 lcdgt
 - 385 __ Junior high school students \$2 lcdgt
 - 385 __ High school students \$2 lcdgt
 - Assign **Adults** only when resource specifically states that as the audience. This can include statements found on a resource such as "Ages 10 and up":
 - 385 __ Preteens \$2 lcdgt
 - 385 __ Teenagers \$2 lcdgt
 - 385 __ Adults \$2 lcdgt
 - Many resources may not have a specific audience and that's OK. Resources with a general audience do not get any audience terms assigned.

206

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Ethnic/cultural terms and nationality/regional terms may both be assigned, even if they share wording (e.g., **Korean Americans** and **Americans**)
 - Assign demonyms based on statements that indicate current or former residence in a place
 - Do not attempt to distinguish between people who were born and/or grew up in a place and those who moved to that place later in their lives. Do not attempt to discern immigration and naturalization status, except as explicitly indicated on the resource itself.

“... was born and raised in Australia and currently lives in Spain”

386 __ Australians \$a Spaniards \$2 lcdgt

207

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - When the audience or creator/contributor resides below the first-level administrative subdivisions of countries (e.g., a state, a province), assign terms for the first-level administrative subdivision. For example, for a resident of Long Island or someone who grew up on Long Island, assign **New Yorkers (New York State)**.
 - *Note*: LC is still deciding whether and how to establish demonyms for places below the first-level administrative subdivision of a country
 - Possible interim practice:
 - If there is an well known demonym for the local place, assign it *without a subfield* \$2 or with \$2 *local* if you keep your own list of locally assigned terms
 - For creator/contributors, could also add 370 \$g for the place of origin of work

For example: A collection of poetry written by people from Ithaca, New York

370 __ \$g Ithaca (N.Y.) \$2 naf

386 __ Ithacans *or* Ithacans \$2 local

386 __ New Yorkers (New York State) \$2 lcdgt

208

Assigning LCDGT - Key Points

- Follow special instructions in L 510-L 560 if there are any
 - Do *not* assign language terms just to reflect the language of a resource (e.g., don't assign audience **German speakers** to every resource in German). Language terms for audience are usually assigned for resources that instruct speakers of one language who are learning another language.
 - Bilingual dictionaries may have two audience speaker terms assigned if speakers of both languages would find it useful
 - 245 00 Collins English-Italian, Italian-English dictionary ...
 - 385 __ English speakers \$2 lcdgt
 - 385 __ Italian speakers \$2 lcdgt
 - Monolingual language dictionaries would *not* be assigned a language audience term, e.g., don't assign **English speakers** to the OED or to *A Dictionary of Economics*

209

Assigning LCDGT - Key Points

- Do not assign a term from the Occupation/Field of Activity category when the term is redundant with the format of resource being cataloged. That is, don't assign **Composers** as a creator characteristic of a score. It's a score, so its creator must be a composer! Similarly, don't assign **Poets** to every book of poetry. However, if you have a non-musical work written by a composer, then assigning **Composers** as a creator characteristic is useful.

211

Assigning LCDGT - Key Points

- Consider SACO proposals for new LCDGT terms needed in new cataloging (once moratorium has been lifted)
- Continue to follow current subject cataloging policies and procedures as found the *Subject Headings Manual*. That is, assignment of LCDGT in fields 385 and 386 is *in addition* to what you assign in 6XX fields.

Local filmmaker Bao Tran is making a modern kung fu movie, *The Paper Tigers*

By Jennifer Lee
IE Contributor

Director Bao Tran knows how to get things done. As a student at Seattle University, Tran balanced school and his independent film projects and the credits resulted in Tran's first feature film, *The Paper Tigers*. Putting up film school because of his expenses, he settled on a major that satisfied his parents' desire for him to become a filmmaker and his own desire to become a filmmaker.

"I knew I wasn't going to use the degree, but I had to figure out how to do something really didn't like to teach a class," he said. "It was just not my style and direction. There was no balance to making films and doing schoolwork. I just had to do it. I knew making movies so much that I was willing to drop out with doing both for four years."

The period of his life was so crucial that he continues to have nightmares 15 years after he graduated about whether he finished his coursework and whether he got all the credits he needed to graduate. For Tran, there was no way he was going to extend his misery for another year or spend an extra dime on something he didn't care for.

It is this work ethic and discipline that he adheres to on his current project, *The Paper Tigers*. Written and directed by Tran, the movie is about three childhood friends who come together to avenge their martial arts master Uncle most martial arts films, however, the heroes of this story are put their grime with their glory days behind them, saddled with duties and responsibilities expected of fathers and husbands.

"Imagine you had a fight or death match during schoolwork. I just had to do it. I knew making movies so much that I was willing to drop out with doing both for four years."

APA Legislative Day creates space for community members to celebrate and connect

By Thanhmy Cham
IE Contributor

"We're here for a meeting, honestly. I'm not sure. I've just been to be here," said Kim Choo excitedly, fighting to speak through the pack that has his in his mouth. This was the first time at the state capitol. He was among a thousand attendees, some posing for selfies with capitol architecture in the background and others headlining their own Facebook to their friends near and far. Lines of people streamed from the Capitol building toward the Capitol Flag Circle where APIC, Pierce County and the state capitol, the arena was being gutted the crowd hyped up in call and response.

"Alright, we're going to talk about what we're going to do, right? We're asking the legislature to add another \$1 million to socialization services, yeah?" She got a huge "Yeah!" to a crowd that included Palau, Bhutanese, Bangladeshi and I-land communities.

The 2019 Asian Pacific Americans (APA) Legislative Day, organized by the Asian Pacific Islander Coalition (APIC), welcomed over a thousand Washington state residents. According to its website, APIC's origins were in response to an anti-immigrant provision in the Welfare Reform Act of 1996, with the establishment of APA Legislative Day that same year.

Also known as the Personal Responsibility and Work Opportunity Act, this piece of legislation was signed into law by President Bill Clinton and entered in a dramatic change to the welfare system by excluding non-citizens from many social services benefits.

As the crowd awaited an appearance by Gov. Jay Inslee and other legislators, they were treated to a packed agenda of cultural performances.

About IE

Established in 1974, the International Examiner (IE) is the oldest and largest nonprofit, pan-Asian Pacific American publication in the Northwest. Named after the historic and thriving multi-ethnic International District (ID) of Seattle, the IE aspires to be a credible catalyst for building an inspiring, connected, well-respected, and socially conscious Asian Pacific American (APA) community.

Our mission is to promote critical thinking, dialogue, and action by providing timely, accurate, and culturally sensitive coverage of relevant APA matters.

We are a multi-media informational, educational, arts, culture, and heritage organization. We produce a twice-monthly newspaper and daily-updated website. The IE also provides learning opportunities for APA youth, professionals and community members.

Our goals are to:

1. Be a reliable source of information for Asian Pacific American communities about important issues and events;
2. Be a voice for distinct Asian Pacific American views and perspectives;
3. Provide employment opportunities and experience for Asian Pacific American writers, photographers, artists, and advertising representatives;
4. Promote a better understanding about and among our diverse Asian Pacific American communities;
5. To serve as an educational resource about the Asian Pacific American communities in classrooms and lecture halls;
6. To maintain the highest professional standards of journalistic excellence in news, content and production.

A children's book about HIV with a First Nations storyline

Includes study material for students, teachers, parents, health educators and others

Author Larry Loyie was born in Slave Lake, Alberta. He spent his early years living a traditional Cree life and treasures the lessons he learned from the elders. He went to residential school from the age of 10 to 14, then began his working life. Larry returned to school later in life to fulfill his childhood dream of becoming a writer. He received the 2001 Canada Post Literacy Award for Individual Achievement (British Columbia). In 2003, Larry was the first First Nations writer to win the Norma Fleck Award for Canadian Children's Non-Fiction for his first children's book *As Long as the Rivers Flow*.

Co-author Constance Brissenden BA, MA is a freelance writer and editor. She is the author of 14 books of travel and history. In 1993, Constance and Larry formed Living Traditions Writers Group (www.firstnationswriter.com) to encourage First Nations people to write about their traditions and stories.

Illustrator Heather D. Holmlund has roots in the northern town of Fort Frances, Ontario, where she grew up. Her source of artistic vision has always been the spiritual essence of the Canadian landscape and its people. Heather attended York University in the visual arts program, before making her home in Pickering, Ontario. She is the award-winning illustrator of *As Long as the Rivers Flow*.

An Introduction to Spanish for Health Care Workers facilitates better communication between health care providers and the growing Spanish-speaking community in the United States. It is not a phrase book or a translator. It is a first course in Spanish, progressively merging conversation and a health care lexicon in various medical contexts. Although it does not call for a prerequisite knowledge of Spanish, this book is also helpful to people who speak limited Spanish and aspire to apply their Spanish in a medical setting. Topics include building the patient-practitioner relationship, the patient's chief complaint, taking medical history, and defining current symptoms. We progress to injuries, pharmacotherapy, diet and nutrition, tests and procedures, diagnoses, and specialized topics such as hospitalizations, dentistry, illnesses, tropical and infectious diseases, mental health, palliative care, maternity, and sexual protection.

Robert O. Chase is a social worker and a pretrial competency examiner for the Connecticut Department of Mental Health and Addiction Services. An American-Dominican citizen, he teaches Spanish at local hospitals and at Tunxis Community College, drawing on rich Latin-American immersion experiences. **Clarisa B. Medina de Chase** is a rehabilitation therapist at Connecticut Valley Hospital. A Dominican-American citizen, she appreciates the value and challenges of learning to successfully function in multiple sociocultural and linguistic contexts.

Back cover: "Tailored specifically for undergraduate students, this Companion offers uniquely comprehensive coverage of the topics necessary for successful communication in psychology, making it a valuable resource for research methods and introductory psychology courses."

Introduction:

"Most students and even faculty in psychology and related disciplines receive little or no formal training in how to communicate effectively. ...

The purpose of this book is to provide the basic information that students and professionals alike need to communicate well and succeed in psychology and related disciplines. ...

Chapter 1 is on getting started. It discusses how you can learn about and communicate effectively in psychology and related fields. It contains tips for ensuring that you will make the very best use possible of your college experiences in psychology and related fields.

Chapter 2 presents and discusses eight common misconceptions that students hold about psychology papers. ..."

Teaching and Advising Statement:

I taught HD 1150, Introduction to Infant and Child Development, and the accompanying section, HD 1160, in the fall of 2014. In the spring of 2015 I taught HD 4440 and HD 6440, the undergraduate and graduate sections of my course on The Nature of Intelligence. In the fall of 2015, I taught HD 1100, Lifespan Development, as well as HD 4450 and 6450, Ethical Challenges in the Behavioral and Brain Sciences. In the fall of 2016, I taught HD 1100 and also HD 4440 and 6440. I also advise 10 undergraduate students who come to my weekly lab meetings, some of whom sign up for credit through independent study. The lab meeting does not have a course number. I base my instruction on the augmented theory of successful intelligence, meaning that I emphasize in teaching and assessment creative, analytical, practical, and wisdom-based/ethical thinking.

Together with my wife, Karin Sternberg, I revised our cognitive-psychology textbook with Cengage

Cognitive Psychology (7th ed.).

With Karin, I also produced this year

The Psychologist's Companion (6th ed.)

The Psychologist's Companion for Undergraduates.

I also wrote three texts for advanced students and junior faculty:

Psychology 101 1/2 (2nd ed.)

Starting Your Career in Academic Psychology

Career Paths in Psychology (3rd ed.)

I was listed as one of the "top 33 psychologists for psychology textbook citations by Griggs & Christopher, 2016, in Teachign of Psychology. I was ranked #5, and #3 among those still living.

Music - Medium of Performance

- *Library of Congress Medium of Performance Terms for Music (LCMPT)* was developed by LC and the Music Library Association as the controlled vocabulary to use in field 382
- 872 terms as of March 30, 2019
- [Best Practices for Using LCMPT](https://www.musiclibraryassoc.org/mpage/cmc_mlabestpractices) at MLA Best Practices website:
- Terms searchable in Classification Web and id.loc.gov (but not in OCLC)
- Annual cumulation of terms and draft LCMPT manual at <https://www.loc.gov/aba/publications/FreeLCMPT/freelcmpt.html>

262

Music - Medium of Performance

LCSH (650) terms that include medium of performance only (Piano music) or genre/form combined with medium (Concertos (Violin)) will eventually be limited to use on works *about* that medium/genre/form. For all other works, the genre/form aspect goes to field 655 and the medium of performance aspect goes to 382. So, for example, for a score or sound recording:

650 _0 Sonatas (Cello) *becomes*

382 01 cello \$n 1 \$s 1 \$2 lcmpt

655 _7 Sonatas. \$2 lcgft

650 _0 Quartets (Oboe, violin, viola, cello) *becomes*

382 01 oboe \$n 1 \$a violin \$n 1 \$a viola \$n 1 \$a cello \$n 1 \$s 4 \$2 lcmpt

655 _7 Chamber music. \$2 lcgft

and for notated music appropriate LCGFT term(s), e.g. Scores; Parts (Music)

263

Time Period of Creation

- If we stop using LCSH terms to describe what something is, we now know where to put genre/form, audience, and creator characteristics. But what about LCSH strings that include chronological information?

Rock music \$y 1971-1980

Orchestral music \$y 18th century

What Vocabulary To Use in 388

- LC maintains a list called *Temporal Term Source Codes* (<https://www.loc.gov/standards/sourcelist/temporal.html>). But there is nothing currently on the list!
- “Many general subject lists and thesauri also contain controlled vocabularies for specifying time periods. Thus those general sources may also be used in usage elements identified for temporal terms, with the appropriate source code (see [Subject Heading and Term Source Codes](#))”
- Maybe some day LC will decide it needs to create the LCTTT (LC Temporal Terms Thesaurus). Or some other group might create a temporal terms list.
- For now, use terms from other general lists, e.g., LCSH, FAST

Discovery Systems

- We have deconstructed LCSH into a number of facets, and we have other additional facets that describe works and expressions. You will be getting records through copy cataloging with faceted data in them. You may (I hope) also start adding faceted data to copy and/or original cataloging. But what does your ILS do with all of it?
- Possibilities:
 - ~~Throw out the faceted fields~~
 - ~~Ignore the faceted fields~~
 - Index everything for keyword
 - Provide facets for limiting
 - Provide browse searches
 - Other ideas?

At the top, there is a green header with the UO Libraries logo and navigation links: Research Support, Services, Collections, Library Accounts, and Ab. Below this is a green bar with 'INFORMATION FOR:' followed by links for UNDERGRADUATES, GRADUATE STUDENTS, FACULTY & STAFF, and VISITORS. The main heading is 'LibrarySearch' with the subtext 'Search for books, articles, media, and more'. A search bar contains the text 'Keyword' and a dropdown menu with 'novels' selected, which is circled in red. To the right of the search bar is a dropdown menu with 'UO + Summit + Articles, etc.' and a search icon. Below the search bar is a link for 'Advanced Search'. At the bottom of the search bar area are links for 'LibrarySearch Help', 'WorldCat', 'Ejournals A-Z', 'Course Reserves', and 'Try LibrarySearch' with a 'BETA' badge.

The screenshot shows the LibrarySearch results page. On the left, there are filters for 'Show only', 'Material Type', 'Author/Creator', 'Library', 'Date' (with a range from 1600 to 2017), 'Subject', 'Collection', 'Language', 'Genre/Form', 'Journal Title', 'Course Instructor', and 'Suggested New Searches'. The 'Genre/Form' filter is circled in red, and its dropdown menu is open, showing a list of genres with counts: Bibliography (367), Comic books, strips, etc (6,291), Comics (Graphic works) (2,106), Criticism, interpretation, etc (7,801), Detective and mystery fiction (521), and More options. A 'Refine Search' panel is also open, showing a table of genres with checkboxes for 'Include' and 'Exclude'. The 'Genre/Form' column lists the same genres as the dropdown menu. The 'Include' and 'Exclude' columns have checkboxes. The 'Refine Search' panel has 'Continue' and 'Cancel' buttons. The main search results area shows 'Results 1 - 20 of 75,483 for U'. The first result is 'Novels' by Edith Wharton, published by Viking in 1985. The second result is 'Novels' by Nathaniel Hawthorne, published by the Viking Press. The 'UO Libraries' logo is in the top right corner.

Title Amongst thistles and thorns

Author [Austin Clarke, 1934-2016, author.](#) >

Description Set in Barbados in the early 1950s, this uncompromising novel depicts the pain of childhood in a world where poverty and blackness are despised, and kids are treated as objects on which adults can take out their self-contempt and frustration. Milton Sobers is a nine-year-old on the run from a series of sadistic beatings from both his schoolmaster and his washer-woman mother. Dreaming of a life in Harlem, which is predominately black, open, and free, Milton encounters many comic and sad adventures that inevitably return him to the situation he was trying to escape. Full Implementation of Faceted Vocabularies

Finally - What About All Our Old Records?

- In order for faceted vocabularies to work best, we will need to figure out how to add facets to legacy records. Think about how many literature and music records don't have any genre/form terms in them. Audience and creator/contributor terms would also be helpful.
- ALCTS CaMMS Subject Analysis Committee has issued a white paper: *A Brave New (Faceted) World: Towards Full Implementation of Library of Congress Faceted Vocabularies* (<http://hdl.handle.net/11213/8146>)

296

A Brave New (Faceted) World

- Key Points:

- need critical mass of bibliographic metadata that includes these faceted attributes
- full-scale implementation requires a combination of broad and comprehensive training of catalogers (“current implementation”) and retrospective implementation through the development of nuanced and powerful machine algorithms
- requires buy-in and support of national and international entities like PCC, LC, OCLC and library systems vendors
- addition of genre/form terms should be a core requirement for PCC records
- strongly encourage the addition of 382 fields, using LCMPT terms whenever appropriate
- add LCDGT to both bibliographic and authority records, until authority records are created for all personal names and works and expressions; then just add to authority records
- shows how retrospective enhancement of records could be achieved based on fixed field values and codes, LCSH and classification numbers, and other data already in records

NEW OCLC MUSIC TOOLKIT FOR GENERATING FACETED MUSIC DATA

The Music Library Association's Vocabularies Subcommittee is pleased to announce the availability of a new OCLC tool for automated generation of faceted terms based on Library of Congress Subject Headings for music and related coded data in MARC bibliographic records. The Music Toolkit, developed by Gary Strawn (of Authority Toolkit fame), is an OCLC macro that incorporates a program written by Strawn which analyzes existing bibliographic data and generates corresponding faceted terms from the *Library of Congress Medium of Performance Thesaurus* (LCMPT), *Library of Congress Genre/Form Terms* (LCGFT), and *Library of Congress Demographic Group Terms* (LCDGT), as well as other faceted metadata such as dates and geographic place names. The Toolkit output is then evaluated and adjusted as necessary by the cataloger, who is responsible for correct application of LC faceted terms and their corresponding MARC fields and, if desired, OCLC WorldCat master record replacement.

This tool streamlines the retrospective enhancement of bibliographic data for music resources, further advancing the eventual goal of full-scale implementation of faceted vocabularies, and the enhanced discovery of music resources that this data enables. The underlying algorithm, developed by the MLA Vocabularies Subcommittee, can also be programmed to perform batch record enhancements on entire bibliographic databases. Thus, the Music Toolkit, in addition to being a time-saving tool for music catalogers, is a testing mechanism for Strawn's program and the MLA algorithm itself. All who work with music bibliographic data are invited to read the content linked below, install the Music Toolkit, and provide feedback to MLA/VS accordingly via the Google form listed below. Please be aware that the MLA algorithm, as well as Strawn's program and Toolkit, are all works in progress, and MLA/VS and Strawn will continue to collaborate to refine and improve it.
