Johnny Wright, Special Assignment 601-422-9289

Friends and Fellow Cattlemen,

On behalf of MG/4M Farms and Smith Farms, I would like to welcome you to the Seventh Annual Southern Cattlemen's Sale. Once again, two outstanding programs have come together to bring one great offering. Before we go any further, I would like to thank the Melancon and Smith families for allowing me to assist in the marketing of their cattle.

Both operations continue to progress each year in order to bring you the best product possible. Through thought out genetic selection, use of artificial insemination/embryo transfer, utilizing new technologies and developing cattle the right way they continue to breed cattle that will work for you. Having grown up in the Hereford breed and now having worked for the American Angus Association, I admire both breeds for their strengths. Both breeds make efficient, easy doing cattle with excellent maternal and carcass traits that can perform in the feedlot and on the rail. MG/4M Farms and Smith Farms have taken those strengths and have created cattle that are well adapted to the south.

No matter your needs, this sale has something for you. The bulls are stout from top to bottom and they excel for a variety of traits. They are backed by breed leading AI sires and cow families that are productive and highly maternal. In the registered female division, both programs will be offering a nice set of pairs, and do not forget to check out the commercial F1 females from MG/4M.

As an added feature to this year's sale, all the cattle will be videoed. To view the videos, be sure to check out my website at www.simsplusllc.com. As always, if I can be of any assistance, do not hesitate to call, text or email. We look forward to seeing you on sale day!

Sincerely,

Mark C. Sims

HEREFORD DIVISION

LOTS 1-79, + COMM. FEMALES

Dear Friends,

Welcome to our 7th Annual Southern Cattlemen's Bull & Female Sale. As we look forward to each year's sale, we are completely grateful to those customers who have put their trust in our program. We put many hours into making these breeding decisions, keeping in mind what works best for real world cattle production.

We are very proud of this year's bull offering. All of our bulls have been genomic tested to produce more accurate EPD's. The genetics we select for represent the total package each breeder is striving for; calving ease, maternal performance, optimum offspring growth as well as carcass merit. They have been raised here in South Mississippi, are and ready to go to work for you. The cattle have been supplemented with a forage-based ration to help ensure their optimum genetic potential but being mindful not to over condition. These bulls are the type and kind that will improve productivity in your cow herd.

We have also decided to offer a great set of our productive Hereford females. Some will be bred back to our newest herd sire, 111ET, and some will be bred to a Brahman bull for those F1 enthusiasts. We will also have an excellent set of bred and exposed F1/half-bloods. These heifers are all home raised and the right kind!

Please feel free to contact us if you have any questions. Once again, we truly appreciate your confidence in our program, and we look forward to visiting with you on sale day.

All the best,

Ron, Shaunna, Rylie & Stran Melancon

INTEGRITY BUILT IN YOUR HEREFORD SOURCE

HEREFORD ADVANTAGE PROGRAM

Increase added marketing power and brand recognition with feeder cattle sired by a Hereford Bull Battery ranking in the top 20% for the \$CHB index. The Certified Hereford Beef Index (\$CHB) is a terminal sire index that is built on a production system where Hereford Bulls are used on British-cross cows with a focus on gain and end product merit.

ANGUS DIVISION

LOTS 101 - 169

Dear Friends,

We have finally made it to the year 2020. I'm believing for this year to be one of perfect vision. We have just wrapped up breeding for the year and we are excited to see the outcome of the fall calves.

But first let's get to the business at hand.

Our 7th Annual Southern Cattlemen's Bull Sale is upon us. This year as always, we are proud to bring you some of our finest Angus Bulls. At this time, we have 55 Bulls featured in the sale. All have been or will be tested for fertility and are ready for service. All animals have also had the Angus GS testing done to make their EPDs more accurate, in other words it's a DNA test that we use to help predict traits bulls or cows will pass on to their offspring, helping us to make better breeding and ranching decisions.

As always, our bulls were developed with the commercial breeder in mind.

As a group the bulls are structurally sound, they are thick & moderately framed with strong maternal traits bred into them. This set of bulls are kept as a large group with lots of space and ample grass with limited grain. If you are from South Mississippi you know that our weather changes from day to day. These animals have adjusted well and thrived in spite of our sometimes-extreme weather. And are ready for their new homes.

We wanted to send out a special THANK YOU to Mr. Jarvene Shackelford and the ALB Auctions for helping with our Sales to this point. Mr. Jarvene has made the sales smooth and easy to maneuver. He made the decision to retire this year and while we are going to miss him greatly, we are happy for him and wish him the best in his retirement.

We are also proud to announce our new Sales Manager, Sims Plus, LLC, with this comes Mark Sims and his wife Kirbie. Mark is a young man we met several years ago in his and our travels with Angus. He has been Regional Manager for the American Angus Association for a few years now. He and his family have been in the cattle business for many years. Leading him to want to be a Sales Manager himself. I am looking forward to many years of this relationship with Mark.

Lastly, but certainly not least... We would like to thank YOU!! Our Customers.

If you are a returning customer or a new one, without you we could not continue to have successful sales. So again, Thank You!!

We are looking forward to seeing you February 15, 2020. Come hungry, as always, we will provide breakfast for you starting at 8:00am.

Our sincerest regards,

Lane & Karla Smith

INTEGRITY BUILT IN YOUR ANGUS SOURCE

BUY BULLS ON TARGET

The Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the Certified Angus Beef® brand. Bulls must be at least breed average or better for marbling EPD and \$ Grid of non-parent Angus sires to qualify for use of the Targeting the Brand logo. Even when these numbers do not appear on the catalog listing, the logo gives you confidence that these minimum genetic requirements are met. Actual EPD requirements are outlined below based on the breed averages from the Fall 2017 Angus Sire Summary.
