

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

CRYPTOCENTRUM LATIFOLIUM

Origin: Central & South America

Temperatures: Hot to cool growing small orchid species

Light: Shade

Watering & Fertilizing: Regular watering and fertilizing year – round.

General care: Small size Cryptocentrum species with interesting blooms.

Grows best under hot to cool conditions, in shade, mounted or potted.

Great plant for terrariums, vivariums, glass orbs and frog encounters. Great for indoor growing on windowsills or greenhouses.
