Strategy Description Our strategy is based on risk control. We use a semiautomatic strategy combined with trading techniques and a new application (EA) that we developed to trade small-cap trading accounts. So our strategy is to grow small accounts very test all with the help of Expert Advisors (EA) who apply our techniques to achieve consistent results. In practical terms it means that we have a lool that when there is an opportunity tells us where and how to place, we check before we trade whether these situations are interesting as we have coded them in our strategy, and then we decide whether to achivate our "vEOP" that knows where and how to place trades to produce gains. Finally click at the bottom on **START COPYING** (arrow 3)

You will now replicate the trades of our semi-automatic Strategy, which is based on Risk Control, combined with trading techniques and a new application (EA), on your Account.

In order not to lose all of our trades, we advise you to set a very large **stop loss** because in any case our master account from which you copy the trades already has 3 EAs that manage the closing of the account in a diversified manner to protect yours as well.

We therefore advise you to set the **stop loss** parameter within Ctrader to at least **50% of the account**.

Follow the instructions below.

Click where you see the arrow going in the left-hand side menu on the three dashes (arrow 1), then click in the **copy box** (arrow 2) and finally click on the strategy you are copying (arrow 3).

Go to the right and press the indicated button (arrow 1). A drop-down menu will open and press on **'Set Equity Stop Loss**' (arrow 2).

The following screen will open and you will have to enter the **maximum loss**. For example, for a \$1000 account, 50% will be \$500. It should be written \$500. For larger accounts, the value to be entered will be proportional. Once a month check this parameter because if your \$1000 account, for example, will have reached \$2000 or \$5000 the 50% can no longer be \$500 but will have to be changed to \$1000 or \$2500 for the simple reason that Ctrader uses the Equity to Equity ratio as a copy.

You can monitor the progress of your trades on a day-to-day basis via the **TopFx Ctrader app**. To do this simply download the app (available for both Android and IOS) directly to your smart phone by going to our website:

https://copytradingforexsignals.com/

(Scroll to the middle of the website) (arrow 1)

After installing the App, follow these simple steps:

- Enter User and Password to enter the App.
- Click on Copy (arrow 1),

- Then on **COPYING** (arrow 2) to see our copytrading room.

- Once found by clicking on it (arrow 3) you can follow all the work we do for you and the profits made on your account.

By copying the strategy via Ctrader which is one of the most popular ways of Copytrading you copy **Equity - to - Equity**. So the open and close trades are copied from the master account instead for the lottery the formula is defined:

Investor's Equity / Strategy Provider's Equity * Strategy Provider's Volume

Which in practical terms in an example goes like this.

Your equity that you put in the room is 5000, the equity of the strategy provider is 10000 the allotment is 0.02 so:

5000/10000= 0.5 * 0.02 = 0.01

So if the strategy provider opens with 0.02 allotment you open with 0.01 allotment in this example.

DON'T FORGET

Once the money has been loaded into the account, it should be requested to Our contact person in TopFX to give you the **BONUS of 50%** on the amount you have deposited.

IMPORTANT

At any time you can decide to unsubscribe and withdraw your money just click: <u>STOP COPYING THE STRATEGY</u>

Then click Stop Copying again on the screen that follows.

Una vez que haya recibido el correo electrónico, haga clic en el enlace e introduzca dos veces la contraseña que desee; para que le resulte más fácil recordarla, le recomendamos que utilice la misma que puso en TopFx.

En este punto, haga clic de nuevo en el **enlace de acceso único**, que le hemos facilitado, para entrar en la siguiente pantalla..

. Una vez hecho esto, haz clic en la esquina superior derecha en COMENZAR A COPIAR (flecha 1)

Se abrirá un menú desplegable en el que deberá introducir:

- la cuenta que desea utilizar para copiar nuestra estrategia (flecha 1)
- la cantidad de dinero que desea utilizar (pulsando el botón (flecha 2) todo=100%

De esta forma, todo el dinero que hayas destinado a copiar de nuestra sala de señales irá a parar a esa cuenta específica de Ctrader.

Por último, haga clic en la parte inferior en COMENZAR A COPIAR (flecha 3)

Ahora replicará en su Cuenta las operaciones de nuestra Estrategia semiautomática, que se basa en el Control del Riesgo, combinado con técnicas de trading y una nueva aplicación (EA).

Para no perder todas nuestras operaciones, te aconsejamos que pongas un **stop loss** muy grande porque en cualquier caso nuestra cuenta maestra desde la que copias las operaciones ya tiene 3 EAs que gestionan el cierre de la cuenta de forma diversificada para proteger también la tuya.

Por lo tanto, le aconsejamos que fije el parámetro de **stop loss** en Ctrader en al menos el **50% de la cuenta**.

Siga las instrucciones que figuran a continuación.

Haz clic donde veas que va la flecha en el menú de la izquierda sobre los tres guiones (flecha 1), luego haz clic en el **cuadro de copia** (flecha 2) y, por último, haz clic en la estrategia que estás copiando (flecha 3).

Vaya a la derecha y pulse el botón indicado (flecha 1). Se abrirá un menú desplegable y pulse "Establecer Stop Loss de Equidad" (flecha 2).

Se abrirá la siguiente pantalla y tendrá que introducir **la pérdida máxima**. Por ejemplo, para una cuenta de 1.000 \$, el 50% serán 500 \$. **Se escribirá 500 dólares.** Para cuentas más grandes, el valor a introducir será proporcional. Una vez al mes compruebe este parámetro porque si su cuenta de \$1000, por ejemplo, habrá alcanzado los \$2000 o \$5000 el 50% ya no podrá ser de \$500 sino que tendrá que cambiarse a \$1000 o \$2500 por la sencilla razón de que Ctrader utiliza como copia el ratio de Equidad a Equidad..

Copiando la estrategia a través de Ctrader que es una de las formas más populares de Copytrading copias **Equidad – a - Equidad**. Así que las operaciones de apertura y cierre se copian de la cuenta maestra en lugar para la lotería se define la fórmula:

Investor's Equity / Strategy Provider's Equity * Strategy Provider's Volume

Lo que puesto de forma práctica en un ejemplo dice así.

Su equidad que usted pone en la habitación es 5000, la equidad del proveedor de la estrategia es 10000 la huerto es 0,02 así:

5000/10000= 0.5 * 0.02 = 0.01

Por lo tanto, si el proveedor de la estrategia abre con una asignación de 0,02, en este ejemplo usted abre con una asignación de 0,01.

NO OLVIDAR

Una vez que haya cargado el dinero en su cuenta, deberá solicitar a nuestra persona de contacto en TopFX que le conceda el **BONO del 50%** sobre la cantidad que haya depositado.

Ora replicherete le operazioni della nostra Strategia semiautomatica che si basa sul Controllo del rischio, combinata con tecniche di trading ed una nuova applicazione (EA), sul Vostro Conto.

Per non perdere tutti i nostri trade vi consigliamo di impostare uno **stop loss** molto ampio perché comunque il nostro conto master da cui voi copiate le operazioni possiede già 3 EA che gestiscono in modo diversificato la chiusura del conto a protezione anche dei vostri.

Quindi vi consigliamo di impostare il parametro dello **stop loss** all'interno di Ctrader almeno al **50% del conto**.

Una volta al mese verificate questo parametro perché se il vostro conto da 1000 dollari, ad esempio, sarà arrivato a 2000 o a 5000 dollari il 50% non può essere più 500 dollari ma dovrà essere cambiato in 1000 o 2500 dollari per il semplice motivo che Ctrader usa come copiatura il rapporto Equity to Equity.

- Inserite User e Password per entrare nell'App.
- Cliccate su Copy (freccia 1),
- Successivamente su COPYING (freccia 2) per vedere la nostra sala copytrading.
- Una volta trovata premendo su di essa (freccia 3) potete seguire tutto il lavoro che faremo per voi e i profitti ottenuti sul vostro conto.

Copiando la strategia tramite Ctrader, che è uno dei modi più conosciuti di Copytrading, voi copierete **Equity - to - Equity**. Quindi le operazioni di apertura e chiusura vengono copiate dal conto master invece per il lottaggio viene definita la formula:

Investor's Equity / Strategy Provider's Equity * Strategy Provider's Volume

Che detta in maniera pratica in un esempio è così.

Il capitale vostro che mettete nella sala è 5000, il capitale del fornitore della strategia è 10000 il lottaggio è 0.02 quindi:

5000/10000= 0.5 * 0.02 = 0.01

Quindi se il fornitore della strategia apre con lottaggio 0,02 voi aprite con lottaggio 0,01 in questo esempio.

DA NON DIMENTICARE

Una volta caricato i soldi sul conto, va richiesto al Nostro referente in TopFX di farvi dare il **BONUS del 50%** sull'importo che avete versato.
