## 1 oz Silver Coin

### Endangered Species – Venerable Collared Lizard 1 oz Silver Coin

The Venerable Collared Lizard, or *Crotaphytus antiquus*, is a species of lizard endemic to Northern Mexico. The lizard gets its name from the band around its neck, which resembles the collar of a shirt. The declining population of the lizard has prompted New Zealand Mint to release a limited edition, legal tender, collectible coin to help generate awareness for this endangered species.
