- 1d **SPELLBINDER.** 1-2 (Guy L. Wilson). A.M. at R.H.S. 1948. This is the most strikingly coloured of the series bred from *King of the North* by *Content*. A large flower of the most wonderful and entirely distinct clear luminous, greeny sulphur-lemon. When fully developed the inside of the trumpet holds its colour, and the serrated brim is tipped with sparkling lemon: hence the flower becomes a reversed bi-colour. A really remarkable and most attractive colour break, which blooms and increases freely.
