## **Price List 2018**

This year we have added many exciting new products to our assortment of spring-flowering bulbs and tuberous plants. Among other things, the exuberant flowering, multi-flowered (Club-) Tulips, now available in five colors. Other novelties that we would like to bring to your attention are Allium 'Purple Rain', an ornamental onion with a natural look and great for naturalizing, beautiful Irises, such as *I. aucheri* and *I. 'Dardanus'* (perennials) and a few new Hippeastrum. The latter are mentioned under the chapter Flower bulbs for indoors.

The offered Cyclamen are from Dutch grown cultivated stock, vital, small tubers for naturalization underneath (deciduous) trees and shrubs.
