For extra photos and latest information about our fuchsias, including many Hybridiser, BFS, AFS and NKvF descriptions, please see our website, where there may also be more cultivars available.

Please Note:

We have used the new RHS hardiness rating system throughout our catalogue and website. The ratings quoted are our best estimate. Hardiness is affected by many factors and cannot be guaranteed.

The new RHS hardiness rating system is at the back of the catalogue.

Bush A - B

Adriaan van Bylant

2009 Cuppens, J, (BE)

Double

Compact bush, abundant lovely blooms, best in part shade. Tube: White, short. Sepals: Pale pink, light yellowish green tips, ½ down, tips recurved. Corolla: Light purple maturing light rose, half flared, wavy petal edges. Parentage: Pink La Campanella x Zonedauw.

H2 (Min 1 to 5°C)

NKvF 7362

Alan Ayckbourn

1985 Clark, Dave, (UK)

Single

Popular, easy to grow, very good for standards. Tube: Baby pink, slightly darker stripes. Sepals: Baby pink through white to green at tips. Corolla: White, ¼ flared when mature.

H2 (Min 1 to 5°C)

NKvF 1007

Albertina

1989 Netjes, (NL)

Single

An easy fuchsia producing loads of attractively flared flowers. Tube: Rose pink, short. Sepals: Pale pink with green tips, held ½ up. Corolla: Baby-pink, ¾ flared.

H2 (Min 1 to 5°C)

NKvF 2238

Alexandra Meles

2011 van der Putten, (NL)

Single

Strikingly coloured, easy, suitable for exhibition, containers & bedding. Largely self-deadheading, nicely compact. Tube: White, very short. Sepals: Pale rose pink, apple green tips, held almost fully up, recurved. Corolla: Violet reddish purple with a patch of very pale pink/white at the base of each petal. Up to ¼ flared.

H2 (Min 1 to 5°C)

AFS 7989 NKvF 4929

NKvF R

Alf Thornley

1981 Clark, Dave, (UK)

Double

Superb and reliable. Medium sized perfect double flowers, upright and bushy. Tube: Pink. Sepals: Vibrant red rose, slightly reflexed. Corolla: A smooth creamy white. Parentage: Lilac Lustre x unknown.

H2 (Min 1 to 5°C)

AFS 1742 NKvF 3632

Alison Patricia

1990 Johns, Eric, (UK)

Semi Double

Small up & outward facing flowers and lots of them. Suitable for standards. Tube: Shortish, red. Sepals: Pink, held ½ down. Corolla: Violet red, veined.

H2 (Min 1 to 5°C)

AFS 3480

RHS AGM

Alison Reynolds

1982 Reynolds, Edmund, (UK)

Double

Beautiful, naturally bushy, strikingly bold colours. Best colour in shade. Tube: Rose pink, slender. Sepals: Rose pink fading towards apple green tips, held ¼ up, slightly reflexed. Corolla: Purple red, purple blue edges, fully flared. Petals of different lengths, rolled or curved, not flat.

H2 (Min 1 to 5°C)

AFS 1679 NKvF 1772

Allan Taylor

2011 Porter, John, (UK)

Single

First class light red & white single, deserves to be more widely grown & shown. Naturally short-jointed, bushy, upright, vigorous & uniform. Flowers displayed noticeably outwards, small, freely & evenly produced. All is neat & beautifully proportioned. Trouble-free, a great fuchsia. Parentage: Maria Landy x Shelford.

H2 (Min 1 to 5°C)

Alyssa May Garcia

2011 Garcia, Sid, (UK)

Double

A successful show fuchsia which provides a superb display both in borders and containers. Tube: Creamy white with pink blush. Sepals: Creamy pink on top, speckled rose pink underneath, held slightly up and recurved when mature. Corolla: Pink with lilac at first then maturing to pink all over, ½ flared when mature. Parentage: Frank Saunders x Lillian Annetts.

H2 (Min 1 to 5°C)

BFS 215

Ambassador

1962 Jones & Machado, (UK)

Single

Graceful, reliable older fuchsia cultivar. Tube: Slender, warm rosy pink. Sepals: Relatively broad, also warm rosy pink, held fully up. Corolla: Smooth, round-edged petals of lavender violet, with a very pale patch at the base.

H2 (Min 1 to 5°C)

AFS 502 NKvF 1029

Bush A - B

Andrew Hadfield

1987 Rowell, Joseph, (UK) Single

Good exhibition cultivar, short jointed, self branching, out & upward facing blooms, sensational colours. Tube: Carmine, short. Sepals: Carmine base, mottled carmine, green, green tips, held horizontal, slight recurve. Corolla: Periwinkle blue, slight pink veining, ½ flared. Parentage: Estelle Marie x unknown.

H2 (Min 1 to 5°C)
AFS 2114 NKvF 3637

Anjo

1989 Heessen, (NL) Single

Attractively variegated, leaves have clear creamy yellow edges & paler green markings, complementing dark stems and classic single flowers. Tube: Medium thickness, creamy white. Sepals: Creamy white, held horizontal, tips recurved. Corolla: Smooth overlapping petals, rounded edge. Purplish rose, pale base. Parentage: Sport of Anton Schreuder.

H2 (Min 1 to 5°C)
NKvF 2239

Angela King

2011 Wilkinson, M, (UK) Single

Nice. Very very nice. Tube: Pink. Sepals: Pale pink with green tips. Held horizontal and reflexed. Corolla: Opens blue, matures to pale cerise and three quarter flared. Parentage: Sophie Louise x Violet.

H2 (Min 1 to 5°C)

Annie Earle

1887 Lye, James, (UK) Single

A vigorous, easy to grow, classically beautiful cultivar, suitable for exhibition, containers and bedding. Tube: Creamy white, slender. Sepals: White, held half down. Corolla: Deep fuchsia, slightly flared.

H2 (Min 1 to 5°C)
NKvF 4052

Angie Baby

N/K N/K Single

Flowers freely. Blooms small to medium sized & very pretty flared shape. Lovely container plant. Tube: Warm peachy orange-pink. Sepals: Orange-pink. Swept right back over tube, reflexed tips. Corolla: Smoky coral pink, salmon. Fully flared.

H2 (Min 1 to 5°C)

Anniek Geerlings

1988 Franck, (NL) Single

Excellent in containers or summer bedding, superb display on an easy to grow plant. Tube: Pale rose pink, hint of lilac, long. Sepals: Pale rose pink, tiny green tips, held slightly down, tips recurved. Corolla: Lilac rose pink, ¼ flared, short. Parentage: Leverkusen x unknown.

H2 (Min 1 to 5°C)
AFS 2849 NKvF 1862

Anhaltiner

1990 Strumper, Karl, (DE) Single

Free-flowering small to medium bush well suited to border or containers. Tube: Pale pink, darker stripes. Sepals: White, pink blush, pale green tips, white under, held ¼ down, partial recurve. Corolla: Light magenta-purple, darker edges, ¼ flared. Parentage: Checkerboard x (U.F.O x Blue Boy)

H2 (Min 1 to 5°C)
NKvF 2425

Antigone

1887 Banks, Edward, (UK) Single

Flowers freely. Medium sized crisply coloured flowers, a real beauty. Tube: Short, white. Sepals: White, slight pink blush. Corolla: Pink/orange.

H2 (Min 1 to 5°C)
NKvF 1821

Anita

1989 Gotz, Paul, (DE) Single

Freely produces small to medium sized bright flowers, suitable for patio containers or borders. Tube: Short, white. coral pink blush. Sepals: White. greenish recurved tips. Held horizontal, recurved tips. Corolla: Pink/orange.

H2 (Min 1 to 5°C)
NKvF 2426

Apart

1991 Moerman, (NL) Single

Attractive & interesting, flowers freely, much underrated. Tube: Creamy white. Sepals: White, green tips, held horizontal, slight recurve. Corolla: Fuchsia pink at petal edges changing through paler pink to white in centre of petal base, ½ flared. Parentage: (Checkerboard x Waternymph) x (Chang x unknown).

H2 (Min 1 to 5°C)
NKvF 2435

Bush A - B

Arels Nina

2011 Elsman, (NL)

Single

Produces medium flowers very freely, flowers contrast well with darkish green foliage. Tube: White, pale green tint. Sepals: White, pale pink edges, pale green tips, held slightly down from horizontal. Corolla: White, very slight pink flushes. ¼ flared. Parentage: Sofie Michiels x WALZ Zylfoon.

H2 (Min 1 to 5°C)

AFS 7934 NKvF 4937

Barbara Reynolds

2005 Reynolds, Gordon, (UK)

Single

Popular exhibition cultivar, has a subtle beauty which is stunning in pots and containers. Tube: Cream, hint of pink. Sepals: Cream, hint of pink at base, slight green tinge at tips, held horizontally, tips recurved. Corolla: White, flaring only slightly when mature.

H2 (Min 1 to 5°C)

Arels Tojo

2011 Elsman, A, (NL)

Single

Eye-catching, easy, classically beautiful, suitable for exhibition, containers or bedding. Tube: White, pink candy stripes, long, slender. Sepals: White, apple green tips, held fully up, recurved. Corolla: Dark reddish purple, ¼ flared. Parentage: Arels Avondzon x Arels Arjen.

H2 (Min 1 to 5°C)

AFS 7985 NKvF 4939

NKvF R

Beauty of Purbeck

1991 Swinbank, (UK)

Semi Double

Flowers appear bright & display well against the foliage, lovely container or bedding plant. Tube: White, pale pink striping. Sepals: White, rose flushes & stripes, green tips, held ½ up & recurved. Corolla: White, ¼ flared. Parentage: Celia Smedley x Arlendon.

H2 (Min 1 to 5°C)

AFS 2912 NKvF 5050

Ashville

2010 Wilkinson, M, (UK)

Single

Striking flower colours which seem to glow, Compact, good for mini or ¼ standard. Tube: Creamy white, pink blush, short. Sepals: White, hint of rose, green tips, held slightly down. Corolla: Rich fuchsia pink mixed with lavender, lighter at base, more pink at edges, ¼ flared. Parentage: Ernie x unnamed seedling.

H2 (Min 1 to 5°C)

BFS 184

Beauty of Trowbridge

1881 Lye, James, (UK)

Single

Medium to large flowers, graceful and alluring. Tube: Stout, Waxy creamy-white, candy striped in pale pink. Sepals: Creamy-white, recurved, greenish at tips. Corolla: Cerise, creamy-white at base.

H2 (Min 1 to 5°C)

NKvF 1146

Avon Celebration

1978 Lockyer, J, (UK)

Semi Double

Attractively coloured semi double flower. Strong upright grower, flowers freely. Tube: White, fairly short. Sepals: White, apple green tips, broad, held ½ up, slightly reflexed. Corolla: White at base, shading through pink to mauve-lilac, darker edges. Foliage: Light green and yellow variegated.

H2 (Min 1 to 5°C)

NKvF 2445

Binnenland ('t Binnenland)

2011 van den Brink, (NL)

Single

Stiffly upright, makes a good half or full standard, best in dappled shade. Tube: Pink, short. Sepals: Pale pink, lighter under, held ½ up & straight. Corolla: Reddish purple. Slightly flared/bell shaped. Parentage: Mrs Lovell Swisher x Pink Bon Accorde.

H2 (Min 1 to 5°C)

AFS 7988 NKvF 4930.

NKvF R

Baby Brooke

2012 Swaby, Alan, (UK)

Single

Elegant, sophisticated, oodles of flowers, gives a fabulous display. Tube: White, hint of rose. Sepals: White, hint of rose blending through white to green tips, held ½ up, recurved. Corolla: Opens violet, matures paler violet with hint of pale purple, little or no flare. Parentage: Anna Louise x Natasha Lynn.

H2 (Min 1 to 5°C)

BFS 226

Black Prince

1861 Banks, Edward, (UK)

Single

A free flowering vigorous bush, easy. Was once a very popular show bench cultivar, could still hold its own. Tube: Bold red, short. Sepals: Bold red, held horizontal, recurved tips. Corolla: Very deep purple, almost black, ¼ flared.

H2 (Min 1 to 5°C)

NKvF 1038

Bush A - B

Bland's New Striped

1872 Bland, J, (UK)

Single

A fine bush, excellent in containers, makes a good standard. Tube: Amaranth red. Sepals: Amaranth red, held slightly up & fully recurved almost to the tube, curly. Corolla: Bold purple with streaks of raspberry down the centre of the petals, ½ flared.

H2 (Min 1 to 5°C)

NKvF 1190

British Sterling

1972 Foster, (US)

Semi Double

Vigorous grower. Easy but is greedy & needs to be fed well. Tube: White, plump, short. Sepals: White on top, pink under, green tips. Corolla: Lavender faintly blushed with rose, delicate pink veined.

H2 (Min 1 to 5°C)

AFS 1084 NKvF 1129

Blue Sleighbells

1970 Barton, (NZ)

Single

One of the very best of the blues. Produces lots of flowers and is largely self dead-heading. Tube: White, faint striping. Sepals: Long, bright white fading to apple green. Corolla: Strong lavender blue, white 'flames' at base.

H2 (Min 1 to 5°C)

AFS 915, NKvF 1082

Calverley - ↓ Bush C - E ↓

1992 Holmes, Ron, (UK)

Single

Smallish upright bush suitable for ¼ or ½ standards as well as containers or bedding. Happy in full sun. Tube: White, pink stripes, short. Sepals: White, deep rose pink stripes, held ½ up. Corolla: Violet, bold. Slightly flared, barrel shaped. Parentage: Wise Choice x Rose of Castile.

H2 (Min 1 to 5°C)

AFS 2881 NKvF 5058

Brenda White

1986 Pacey, (UK)

Single

Strikingly pretty, flowers freely, naturally produces a well shaped bush. Flowers face partially outwards. Tube: Short, carmine pink. Sepals: Carmine pink through white to apple green tips, horizontal, slight recurve. Corolla: Carmine pink blush at base, fading to white, carmine pink veins near base.

H2 (Min 1 to 5°C)

NKvF 1781

Cambridge Louie

1977 Napthen, CW, (UK)

Single

This beauty is named after a keen lady gardener who sadly lost her sight but was able to tell her beloved fuchsias apart by their smell. Tube: Warm pink, medium sized. Sepals: Quite long, warm pink, held horizontal, trace of green on the recurved tips. Corolla: Pinkish violet, ¼ flared, smooth petal edges. Parentage: Lady Isobel Barnett x Mr A Huggett.

H2 (Min 1 to 5°C)

AFS 1473 NKvF 1201

Brian McFetridge

2010 Swaby, Alan, (UK)

Semi Double

Naturally bushy, short jointed, produces a lot of flowers, easy, very beautiful. Tube: Red, darker stripes, slender. Sepals: Red-violet, paler towards green tips, held fully up. Corolla: Indigo-purple, ½ flared when mature. Parentage: Sophie Louise x [London 2000 x (Dorothy Hanley x Voodoo)].

H2 (Min 1 to 5°C)

AFS 7276

Canny Bob

1997 Hewitson, (UK)

Single

Stiffly upright bush, semi-erect flowers. Superb in container, pot or summer bedding. Tube: White, short. Sepals: White, tiny green tips, held slightly down from horizontal. Corolla: Baby pink, bold bright coral pink picotee edges, ¼ flared. Parentage: Bon Accorde x Lye's Unique.

H2 (Min 1 to 5°C)

AFS 4037 NKvF 3689

British Jubilee

1988 Bielby & Oxtoby, (UK)

Double

Named by the British Fuchsia Society for their Golden Jubilee. Tube: Pale pink. Sepals: Pale pink, recurved at tips. Corolla: Claret rose. Parentage: Igloo Maid x Rubra Grandiflora.

H2 (Min 1 to 5°C)

AFS 2330 NKvF 2253

Careless Whisper

2000 de Cooker, Mario, (NL)

Single

Self-branching, carries its lovely tubular flowers in generous terminal clusters. Tube: Light coral, faint darker stripes. Sepals: Held horizontal, white, pale green recurved tips, touch of coral at the base. Corolla: Smooth, unflared petals of soft rosy pink. Parentage: (Sparkling Whisper x (Checkerboard x Machu Picchu)) x (Sparkling Whisper x (Checkerboard x Machu Picchu)).

H2 (Min 1 to 5°C)

AFS 7639 NKvF 4770
VKC Aalsmeer 2000

Bush C - E

Carla Johnston

1986 Pacey, Robert, (UK)

Single

Popular, reliable, well displayed flared blooms. Tube: Medium length & thickness, pale coral. Sepals: White upper surface, a trace of pink on lower surface, held $\frac{3}{4}$ up, slightly recurved tips, hint of green. Corolla: $\frac{3}{4}$ flared, very pale lavender pink. Neat, smooth, rounded petals.

H2 (Min 1 to 5°C)

NKvF 1825

RHS AGM

Caroline

1967 Miller, (UK)

Single

Makes a superb half standard as well as being an excellent container fuchsia. Tube: Pink, short. Sepals: Pink with cream flushes, held fully up and recurved. Corolla: Lavender-violet, $\frac{3}{4}$ flared and bell-shaped.

H2 (Min 1 to 5°C)

NKvF 1314

Chang

1946 Hazard & Hazard, (US)

Single

Flowers profusely, a very reliable cultivar for a superb display. Tube: Short, Orangey red. Sepals: Orangey red fading to green, short, slightly recurved. Corolla: Orange to red. Parentage: *F. cordifolia* x.

H2 (Min 1 to 5°C)

NKvF 1332

RHS AGM

Chantelle Garcia

2009 Garcia, Sid, (UK)

Double

A superb, free-flowering, short-jointed bush. Tube: Fairly short, slightly rounded, very pale pink. Sepals: Pinkish white, distinctly green tips, held $\frac{1}{2}$ up, tips recurved. Corolla: $\frac{3}{4}$ flared. Deep lavender with a pale patch at the base of each slightly wavy and ruffled petal, matures pinkish mauve. Parentage: Lillian Annetts x Grandad Hobbs.

H2 (Min 1 to 5°C)

BFS 116

Chartwell

1977 Gadsby, Cliff, (UK)

Single

Flowers profusely, easy. Ideal summer bedding or container plant. Medium sized. Tube: White. Sepals: Rhodamine pink fading through white to green tips. Slightly swept back from corolla & with recurved tips. Corolla: Bold wisteria blue growing paler toward base of petals. Parentage: Christine Clements x Cloverdale Pearl.

H2 (Min 1 to 5°C)

AFS 1424 NKvF 1335

Checkerboard

1948 Walker & Jones, (US)

Single

Abundant flowers, over a long period, early, easy, can be trained easily to most shapes, though it doesn't do weeping. Makes excellent $\frac{1}{2}$, $\frac{3}{4}$ or full standards. Tube: Red, sometimes striped. Fairly long. Sepals: Red at base then change to white, recurved. Corolla: Darker red than tube, white at the base of the petals.

H2 (Min 1 to 5°C)

NKvF 1341

RHS AGM

Cherry Lee

2013 Phillips, Nancy, (US)

Semi Double

Very lovely, elegant, superb blooms, complimented by unusually bright attractive foliage. Tube: Almost pure white. Sepals: White, reddish pink flush at base, fading to pinkish white tips. Held horizontal, recurved, slight twist. Corolla: Blue violet, fading towards a creamy white at the base, purple red flush & stripe, long, $\frac{3}{4}$ flared. Parentage: Annabel x Golden Girl.

H3 (Min 1 to -5°C)

BFS 247

Clipper

1901 Lye, James, (UK)

Single

Easy, very vigorous, bright, large flowers of substance & intense colour. Good pillar, pyramid. Tube: Scarlet, rounded. Sepals: Scarlet, held $\frac{1}{2}$ to $\frac{3}{4}$ up, reflexed. Corolla: Purple, shaded lighter at base, darker at edge, $\frac{1}{2}$ flared.

H2 (Min 1 to 5°C)

NKvF 3498

Cloverdale Jewel

1974 Gadsby, Cliff, (UK)

Semi Double

A jewel it is. Tube: Rose. Sepals: Rose fading through pink to green tips, $\frac{1}{2}$ up. Corolla: Wisteria blue, rose pink veining towards paler pink petal base. $\frac{1}{4}$ flared. Parentage: Cloverdale x Lady Isobel Barnett.

H2 (Min 1 to 5°C)

AFS 1218 NKvF 1374

Countess of Aberdeen

1856 Forbes, D & Cocker, (UK)

Single

Stiffly upright & compact. Small, utterly gorgeous outward facing flowers towards the tops of the stem. Prefers shade, paler then. Cuttings slow & difficult. Tube: Short, white. Sepals: Short, broad, light red pink, horizontal. Corolla: Pink with a hint of purple or red. $\frac{1}{2}$ flared, smooth petal edges.

H2 (Min 1 to 5°C)

NKvF 1419

Bush C - E

Coxeen

1936 Howlett, J, (UK)

Single

Uncommon, lovely smallish tricolour. Tube: Slightly bulbous, dark pinkish coral, almost striped look. Sepals: Short, relatively broad, horizontal & pure white, greenish tips. Corolla: Purple pink, white flush from top, ½ flared, smooth petal edges.

H2 (Min 1 to 5°C)

De Groot's Dream

1991 Vreek-van't Westeinde, (NL)

Single

Graceful & profuse, a dark beauty. Easy to grow & shape. Tube: Short, bright rose pink. Sepals: Bright scarlet pink, ¼ down. Corolla: Aubergine. Parentage: Maori Pipes x unknown.

H2 (Min 1 to 5°C)

NKvF 3713

Crosby Soroptimist

1989 Clark, Dave, (UK)

Single

Exhibition quality, compact growth, easy to shape, makes excellent standard. Tube: Short, creamy white, pink candy stripes. Sepals: Horizontal, pink, scarlet centre vein, trace of apple green on recurved tips. Corolla: Cream veined pink. ½ flared, smooth petal edges. Parentage: Border Queen x Joy Patmore.

H2 (Min 1 to 5°C)

NKvF 3501

Deborah Jane

2007 Wilkinson, Malcolm, (UK)

A quality fuchsia in beautiful pastels, suits exhibition & containers. Good grower, short jointed, lasting display. Tube: Short, slightly rounded, pale pink, faint darker stripes. Sepals: Pale pink, horizontal, tips recurved. Corolla: Smooth pale lilac petals, ¼ flared. Parentage: Shelford x unnamed seedling.

H2 (Min 1 to 5°C)

Cumbrian Lass

2011 Reynolds, Gordon, (UK)

Single

Very beautiful, vigorous, numerous flowers. Unusual corolla colouring. Tube: Pink, short. Sepals: Pink, bolder at edges, fully up, recurved. Corolla: White, slight lavender smokiness. No flare. Parentage: Harbour Lites x Linda May.

H2 (Min 1 to 5°C)

DebRon's Beau Dean Richard

2009 Monnier, Debbie & Ron, (US)

Double

Gloriously dark, fabulous colour, very pale leaves. Tube: Short, thick, bulbous, red. Sepals: Quite broad, horizontal, tips recurved. Rich magenta, slightly paler below. Corolla: Opens amazing dark purple, matures dark reddish purple, ¼ flared, smooth turned under margins. Parentage: Hermiena x Rohees New Millenium.

H2 (Min 1 to 5°C)

AFS 6981

Dainty Lady

1878 Lowe, H, (UK)

Semi Double

Very pretty classic, handsome dark foliage & stems. Tube: Short, dark red, bulbous. Sepals: Broad, quite short, dark pink red, fully up, recurved. Corolla: Long creamy white petals, ¼ flared, distinct dark pink veins.

H2 (Min 1 to 5°C)

NKvF 1449

DebRon's Party Girls

2009 Monnier, Debbie & Ron, (US)

Single

A cutie, compact & free flowering. Tube: Short, plump, light rose. Sepals: Long, light rose, pale green tips, fully up. Corolla: ¾ flared, wavy margins, opens purple, veined light rose, matures reddish purple, veined light rose. Parentage: Ting-a-Ling x Maxima.

H2 (Min 1 to 5°C)

AFS 6959

Dark & Delicious

N/K N/K

Single

Compact & vigorous. Beautifully shaped medium flowers. Tube: Rich burgundy. Sepals: Deep burgundy, fully up, recurved. Corolla: Dark indigo & purple-violet, burgundy at petal base. Fully flared.

H2 (Min 1 to 5°C)

DebRon's Snow Fairy

2012 Monnier, Debbie & Ron, (US)

Semi Double

Profuse blooms nicely displayed, different. Small, bushy plant. Tube: Dark rose, short, medium. Sepals: Broad, fully up. Upper magenta to pink, dark rose base. Lower creped texture, magenta, pale green tips. Corolla: Opens & matures cream, light reddish purple veins, ½ flared. Parentage: Brookwood Belle x Maxima.

H2 (Min 1 to 5°C)

AFS 8139

Bush C - E

H2 (Min 1 to 5°C)

Doris Joan

1997 Sheppard, Derek, (UK) Single

Easy to grow & shape, great container or show plant. Tube: Creamy white, hint of apple green. Sepals: 1/2 up, fully recurved to tube, creamy white, hint of apple green on top, pale pink under. Corolla: Palest pink, hint of lilac, 1/2 flared, distinct scalloped petal edge. Parentage: Cloverdale Pearl x Border Queen.

H2 (Min 1 to 5°C)
AFS 3777

Deutsche Perle

1874 Twrdy, J, (CZ) Single

A classically beautiful vintage fuchsia, flowers well, good container plant. Tube: Slim, creamy white. Sepals: Creamy white, (faint pink blush in sun) faint green tips. Held just below horizontal. Corolla: Smooth dark pink petals edged purple red, 1/4 flared.

H2 (Min 1 to 5°C)
NKvF 3719

Dorothy Shields

1989 Redfern, Frederick, (UK) Double

Strong upward grower needs early pinching to shape well. Very beautiful, free flowering. Tube: Pale rose. Short. Sepals: Rose, apple green tips, 1/2 up, recurved. Corolla: Violet maturing purple. Parentage: Jackie Bull x Annabel.

H2 (Min 1 to 5°C)
AFS 2472

Diamond Wedding

1989 Holmes, Ron, (UK) Single

Vigorous, good long season, largely self deadheading. Tube: Glossy red, short. Sepals: Glossy red, very pale green tips, 1/2 up, fully recurved when mature. Corolla: Red-violet to red-purple, red veins, 1/2 flared when mature. Parentage: Hugh Morgan x unknown.

H2 (Min 1 to 5°C)
AFS 2332 NKvF 2517

Duchess of Albany

1891 Rundle, W, (UK) Single

Magnificent old cultivar, vigorous, easy, good for containers, bedding and borders. Tube: Medium thick, creamy white. Sepals: Creamy white, firm, held slightly down. Corolla: Rich glowing dark pink red, gently ruffled pleats.

H2 (Min 1 to 5°C)
NKvF 1503

Bush C - E

Dying Embers

1997 Carless, Howard, (UK)

Single

H2 (Min 1 to 5°C)

Elegant, graceful cultivar, dark smokey blooms, dark stems & dark leaves. More smouldering than dying, flowers well. Recommended. Tube: Short, crimson red. Sepals: Crimson red, ½ down, slightly recurved. Corolla: Aubergine, little or no flare.

Eleanor Clark

1980 Clark, Dave, (UK)

Single

H2 (Min 1 to 5°C)

AFS 1539 NKvF 1196

Medium beautifully shaped flowers. Best colour in shade. A very successful exhibition cultivar. Sepals: Very pale pink, deeper pink stripes. Corolla: Seashell pink. Parentage: Sport of Symphony.

East Anglian

1960 Thorne, (UK)

Single

H2 (Min 1 to 5°C)

NKvF 5080

BFS AM, Jones Cup

Naturally self branching, flowers freely, quality plant. Tube: Creamy white, very faint pink blush. Sepals: Creamy white, very faint pink blush, ½ down, recurved tips. Corolla: Deep rose pink fading lighter pink, orange tinge towards base.

Eleanor Grace

1989 Bush, (UK)

Single

H2 (Min 1 to 5°C)

Easy, very rewarding, underrated. Sepals: Rose pink fading paler towards green tips. Horizontal, slight recurve. Corolla: Pink, darker pink veining towards light pink petal base. ½ to ¾ flared when mature.

Echo

1995 Stiff, E, (UK)

Single

H2 (Min 1 to 5°C)

Up & outward facing small flowers, really colourful. Tube: Short, red pink. Sepals: Pinky red, each sepal slightly different colour, size, shape & position may have 5. Usually ½ up, often three darkest recurve, & the broadest, palest one will reflex, all have tiny green tips. Asymmetrical, some twist slightly. Corolla: Picotee edge of dark pink violet, fading to light violet, prominent veins of purple red. Matures more pink. ½ to fully flared.

Emily Eve

2015 Waving, Peter, (UK)

Double

H2 (Min 1 to 5°C)

New for 2015 from Pete, a super, smallish flowered double, naturally short jointed, vigorous, makes a show quality plant. Tube: Bold rose pink, bright red candy stripes. Sepals: Bold rose pink & red, horizontal, reflexed following corolla. Corolla: ¾ flared, lilac pink, fully double. Parentage: Unnamed seedling x Jack King.

Ede Staal

2004 Koerts, Tielko, (NL)

Single

H2 (Min 1 to 5°C)

AFS 5585 NKvF 4875

Amazingly pretty, named after a Dutch singer-songwriter. Tube: White, hint of pink. Sepals: Pale pink through bold bright pink to apple green tips, ½ up, slightly reflexed. Corolla: Baby rose pink, darker picotee edge, ½ flared. Parentage: Gerharda's Panache x Lord Lonsdale.

Erik

2004 Brunnert, Stefan, (DE)

Single

H2 (Min 1 to 5°C)

Elegant upright bush, abundant smaller flowers, fresh, vivid colours, stands out. Tube: Slim, sharp-edged bulge near top, pale pink, greenish white tint. Sepals: Fairly long, slim, ½ down. Unusual pink, overlying darker flush, slightly recurved green tips. Corolla: Almost no flare, smooth overlapping petals of warm magenta pink. Parentage: Zyzy x Venus Victrix.

Eden Rock

N/K N/K

Single

H2 (Min 1 to 5°C)

Elegant, lovely, easy, perfect for containers. Profuse medium blooms. Extremely reliable, trouble free cultivar. Not as widely available as it deserves. Tube: Bold rose red. Sepals: Bold rose red. Corolla: Blueish aubergine.

Evensong

1967 Colville, O, (US)

Single

H2 (Min 1 to 5°C)

NKvF 1572

Upright yet compact, very pretty, great for containers. Tube: Short, slender bulbous, pale pink, darker candy stripes. Sepals: White, pale pink blush at base, ½ up, fully recurved. Corolla: Pure white, sometimes pink blush at base.

Bush F - J

Festoon

1970 Baker, Bernard, (UK)

Single

Festoons itself in small creamy white & rose pink flowers, easy, vigorous. Tube: Slender, creamy white. Sepals: Held $\frac{1}{2}$ up, creamy white through pink to apple green at tips. Corolla: Rose pink, $\frac{1}{4}$ flared.

H2 (Min 1 to 5°C)
NKvF 6137

Glendale

1936 Evans & Reeves, (US)

Single

This lovely old cultivar just wants to flower non-stop, blooms are clustered near the tops of the stems. Tube: Slender, about 1cm ($\frac{3}{8}$ ") long, purple red. Sepals: Held half down, also purple red. Corolla: Barely flared, dark pink.

H2 (Min 1 to 5°C)
NKvF 1312

First Kiss

2003 de Graaf, Herman, (NL)

Semi Double

Neat, almost white flowers, freely carried. A most appealing fuchsia. Tube: Medium thick, cream. Sepals: Held $\frac{1}{2}$ up, recurved, green tips, pale creamy pink upper, slightly darker under. Corolla: $\frac{1}{2}$ flared pale red-pink. Parentage: La Campanella x unknown.

H2 (Min 1 to 5°C)
AFS 1852 NKvF 1235
VKC Award of Merit

Good Girl

2008 Goodwin, (UK)

Single

A very pretty, free flowering, self branching, stiff upright growing cultivar ideal for containers or training into fans or $\frac{1}{2}$ standards etc. Tube: Pale pink. Sepals: Pale pink, horizontal, slightly recurved. Corolla: Violet-blue, maturing light purple. Parentage: Julie Ann Goodwin x Shelford.

H2 (Min 1 to 5°C)
AFS 6937

Geoff Oke

2003 Reynolds, Gordon, (UK)

Single

Low growing, neat, compact, abundant blooms. Tube: Creamy white, short. Sepals: Creamy white, pale pink candy stripes & green tips on top, pale rose, green tips under, held $\frac{1}{2}$ down, gently recurved tips. Corolla: Heliotrope violet, $\frac{1}{4}$ flared.

H2 (Min 1 to 5°C)
AFS 1852 NKvF 1235

Granada

1957 Schnabel, (US)

Double

Large, richly coloured flowers on a vigorous plant. The flower is substantial & lasts well. Tube: Bulbous shape, pinkish red, striped slightly darker. Sepals: Held horizontal, recurved tips, same colour as tube, darker beneath. Corolla: Fully double, rich purple pinks, dark rose veins & flush at the base.

H2 (Min 1 to 5°C)
AFS 290 NKvF 1339

Georges Rémy

1992 Masse, (FR)

Single

Self branching, short jointed, very pretty, abundant unusually shaped tubular flowers. Tube: Rose pink, long. Sepals: Rose pink, held horizontal. Corolla: Purple-rose pink, $\frac{1}{2}$ flared. Parentage: Gartenmeister Bonstedt x unknown.

H1c (Min 5 to 10°C)
AFS 2946 NKvF 3524

Gunar Reich

2008 Michiels, Marcel, (BE)

Double

Flowers very freely, best colours in shade but most flowers in sun or bright conditions. Tube: Pale rose. Sepals: White, light rose tint. Held $\frac{1}{2}$ up, recurved tips. Corolla: Reddish purple maturing light purple. $\frac{1}{2}$ flared. Parentage: Niagara Falls x Ector's Ann Gaby.

H2 (Min 1 to 5°C)
AFS 7172

Gladiator

1899 Lemoine, (FR)

Double

A sumptuous double, vigorous, easy. Tube: Medium length, light red. Sepals: Slightly darker red, quite thick & substantial, held half up. Corolla: Full double, creamy pale pink, darker veins, shading towards the base.

H2 (Min 1 to 5°C)
AFS 2946 NKvF 3524

Hampshire Blue

1983 Clark, David, (UK)

Semi Double

Beautiful pastel shaded flowers display well against the lush foliage. Tube: Creamy white, hint of pink. Sepals: White, hint of pink, held slightly up, recurved almost back to the tube. Corolla: Periwinkle blue, $\frac{1}{2}$ flared when mature.

H2 (Min 1 to 5°C)

Bush F - J

Harlow Car

1988 Johns, Eric, (UK)

Single

A lovely floriferous & bushy cultivar. Tube: Pale pink, slender. Sepals: Very pale pink, rose blushes, held ½ up, recurved. Corolla: White. Parentage: Cloverdale Pearl x Coconut Ice.

H2 (Min 1 to 5°C)
AFS 2327

Hayley Jay

2009 Garcia, Sid, (UK)

Double

Compact smallish flowered double, makes a good bushy plant. Tube: Short, white. Sepals: White, blushed pink, yellowish green tips, held ½ down on the corolla. Corolla: Opens rich lavender tinged mauve, matures mauve. Parentage: Lillian Annetts x Grandad Hobbs.

H2 (Min 1 to 5°C)
BFS 115

Harlow Perfection

2001 Johns, Eric, (UK)

Single

Compact, very free flowering, flowers face up & out, suitable for small containers & exhibition. Tube: Very short, pale pink. Sepals: Pale pink fading through palest pink to apple green tips, held slightly down from horizontal. Corolla: Pale pinkish lilac, ¼ flared.

H2 (Min 1 to 5°C)

Henkelly's Gitano

2008 Spierings, (NL)

Single

A vigorous beauty suitable for containers, borders or bedding. Also suitable for training into ¼ or ½ standards, fans etc. Flowers freely. Tube: Red. Sepals: Red, held horizontally, recurved tips. Corolla: Dark reddish purple. ¼ flared. Parentage: (Drama Girl x Roesse Blacky) x Loxhore Mazurka.

H2 (Min 1 to 5°C)
AFS 7033 NKvF 4722

Harriet Lye

1883 Lye, James (UK)

Single

A James Lye classic cultivar, very vigorous, easy to grow and propagate, a real beauty. Tube: Waxy white. Sepals: Waxy white, tiny green tips, held very slightly down from horizontal. Corolla: Pale pink at the base darkening into bold pink with lilac overtones.

H2 (Min 1 to 5°C)
NKvF 2593

Henkelly's Hermine

2010 Spierings, (NL)

Single

Naturally self branching, short jointed, compact, flowers very generously. Tube: Creamy white, hint of rose. Sepals: White, rose blushes, green tips, held horizontal, slightly recurved. Corolla: Deep violet-purple, ¼ flared. Parentage: Henkelly's Hermine x Henkelly's Xanthos.

H2 (Min 1 to 5°C)
AFS 7688 NKvF 4906

Harvey's Reward

2004 Allsop, (UK)

Single

Flowers freely, attractive blooms, held outwards. Suitable for patio containers, pots & bedding. Tube: Bright White. Sepals: Bright White. Corolla: Vivid burgundy. Parentage: Anita x Hawaiian Sunset.

H2 (Min 1 to 5°C)
AFS 5384

Henkelly's Trubia

2010 Spierings, (NL)

Single

Vigorous, easy, flowers very generous & face outwards. Tube: White, faint pink tinge. Sepals: White at base changing to rose pink then green at the tip, held ½ down, slightly recurved tips. Corolla: Cerise, darker picotee edges, ¼ flared when mature. Parentage: Henkelly's Truskes x Henkelly's Bianca.

H2 (Min 1 to 5°C)
AFS 7692 NKvF 4015

Hawaiian Sunset

1990 Macdonald, Robert, (UK)

Double

Self branching, upright bush, flowers freely. Suitable for ¼ or ½ standards, patio containers, pots & bedding. Tube: Very pale pink. Sepals: Rose pink. Corolla: Rich reddish purple, matures slightly paler. Parentage: Bobby Shaftoe x Eusebia.

H2 (Min 1 to 5°C)
AFS 2673

Henriette Ernst

1907 Curio, Ernst (DE)

Single

A dwarf bush, proportionately large flowers that often have 5 sepals. Tube: Very short, thick, dark pinkish red. Sepals: Dark pinkish red, held horizontal. Corolla: Rich pale purple violet, dark rose veins. Each petal is slightly rolled.

H2 (Min 1 to 5°C)
NKvF 1387

Bush F - J

HeRi Asagi

2008 Buiting, Henry, (NL)

Single

A superb flower in rich jewel colours, makes good container or border plant, ¼ or ½ standard. Tube: Creamy white, medium sized. Sepals: Pale rose pink upper, purple pink under, held fully up, tips recurved. Corolla: Opens purple, matures dark reddish purple, ¾ flared. Parentage: Roesse Carne x Maik Luijten.

H2 (Min 1 to 5°C)
AFS 7271

Herps Schalmey

2006 Waldenmaier, Henk, (NL)

Single

Small, bushy, easy. Tube: Rose. Sepals: Yellowish green tips reflexed. Upper is rose & light apple green, lower pink & pale yellow green, held ½ down. Corolla: Light reddish orange. Parentage: [(F. magdalenae x F. fulgens var. grandiflora) x tetraploid F. fulgens var. gesneriana] x WALZ Floreat

Single

Vigorous, bushy, free flowering, ideal for exhibition, bedding, containers etc. Tube: Very short, creamy pink. Sepals: Creamy pink, mature darker, held ½ up, tips recurved. Corolla: Lavender purple, matures more reddish, paler at base. Petals, different lengths, gently ruffled. Parentage: Lillian Annetts x Grandad Hobbs.

H2 (Min 1 to 5°C)

BFS 160

Jaspers Zuurstok

2010 van Aspert, (NL)

Single

Strong upright grower, needs pinching out in early stages for good shape. 'Zuurstok' means 'Candy'. Tube: White, rose blush, slender. Sepals: Very pale rose, held horizontal, straight. Corolla: Candy pink, up to ¼ flared. Parentage: Gerharda's Panache x Papy René.

H2 (Min 1 to 5°C)

AFS 7344 NKvF 4896

Impulse

1988 Saxondale, (UK)

Double

Abundant large flowers, easy to grow & propagate. Tube: Creamy white. Sepals: Creamy white upper, flushed purple red under, held ½ up with slight twist. Pale green, recurved tips. Corolla: Pale lilac maturing darker. Parentage: Sweet Leilani x Sebastopol.

H2 (Min 1 to 5°C)

AFS 2264 NKvF 2617

Jaunty Jack

2000 Allsop, (UK)

Single

Profuse smallish flowers in colours that are bold and seem to almost glow. Tube: Medium, maroon/red. Sepals: Crimson \maroon/red slightly recurved. Corolla: Red aubergine. Parentage: Bicentennial x Melanie.

H2 (Min 1 to 5°C)

AFS 4472

Ivana van Amsterdam

2002 van der Putten, BW, (NL)

Single

Very vigorous, free flowering, easy, gives a superb display. Tube: Pale rose pink. Sepals: Rose pink, purplish tinge, apple green tips, held ½ up, slightly recurved. Corolla: Very pale lilac base blending to violet, deep violet blue picotee edges, ¾ flared when mature. Parentage: Pink Fantasia x Lambada.

H2 (Min 1 to 5°C)

NKvF 4515

Jean Frisby

2000 Day, Jim, (UK)

Single

Exceptionally pretty picotee edged petals on generously produced flowers. Tube: White. Sepals: White with red-violet blushes towards tips, held horizontal, slight recurve. Corolla: Purple-red, ½ flared.

H2 (Min 1 to 5°C)

Jack Stanway

1985 Rowell, Joseph, (UK)

Single

Flowers freely. One of the prettiest variegated fuchsias. Tube: Medium, white, pink blushes. Sepals: White and pink, slightly recurved tips. Corolla: Pink veined white, petals curving inwards at the ends. Parentage: Sport of Cloverdale Pearl.

H2 (Min 1 to 5°C)

AFS 1971 NKvF 4157

Jeeves

1975 Lockerbie, Ron, (AU)

Semi Double

Difficult to ignore, great in beds, borders or containers, can make a large ½ standard. Tube: Bold red, short. Sepals: Bold red, held slightly up, slight reflex. Corolla: Persian rose, great splashes of rich violet mainly towards the lower half of the petals. ½ flared when mature.

H2 (Min 1 to 5°C)

NKvF 2637

James Lye

1883 Lye, James, (UK)

Double

An old but very fine fuchsia, easy to grow, will make a good standard, pillar, fan etc. Tube: Creamy white with rose blush. Sepals: White with rose blush and green tips. Corolla: Cerise-purple maturing cerise.

H2 (Min 1 to 5°C)

Jennifer Ann

N/K N/K

Single

Classically shaped flowers, corolla is particularly orange. Tube: White. Sepals: White, held ½ down with slight recurve. Corolla: Orange, little or no flare.

H2 (Min 1 to 5°C)

Bush F - J

Jenny May

1998 Bush, Keith, (UK)

Single

H2 (Min 1 to 5°C)

An all-rounder fuchsia which is very good for containers, bedding and the show bench. Tube: Creamy pink. Sepals: Creamy pink, held horizontal, slight recurve. Corolla: Steely wisteria blue maturing lavender. ¼ to ½ flared.

Julie Marie

1987 Kirby, John, (UK)

Double

H2 (Min 1 to 5°C)

Pretty & versatile, free flowering, very slightly lax. Tube: Medium length, pale pink. Sepals: Slightly darker pink, greenish white tips. Corolla: Slightly darker pink, ¾ flared. Parentage: Joy Patmore x unknown.

John Nicholass

2012 Koerts, Tielko, (NL)

Single

H2 (Min 1 to 5°C)

AFS 7631 NKvF4903

Excellent cultivar, massed outward facing flowers, bright bold colour. Tube: Deep rose pink. Sepals: Deep rose, green tips on top, lighter under, held slightly down, recurved tips. Corolla: Aubergine, red tinges, pales to rose-pink at base, deep rose-pink veins, ¼ flared. Parentage: Nellie Nuttall x Prince Syray.

Katie - ↓ Bush K - N ↓

1962 Thornley, Alf, (UK)

Single

H2 (Min 1 to 5°C)

Naturally compact bush, short jointed, unusual flowers which can vary in shape & size. Tube: Smoky pink. Sepals: White, pink edges, green tips, held horizontal. Corolla: Pale rose-pink, up to ½ flared. Parentage: White Spider x Chillerton Beauty.

Jotu

N/K N/K

Double

H2 (Min 1 to 5°C)

Produces masses of medium sized eye-catching flowers. Not easy to ignore. Rare, deserves more attention as it's easy to grow and sensational. Tube: Short, pink. Sepals: Longish, pink, white. Corolla: Flamboyant and audacious, stunning violet blue & pink ripple.

Katjan

1998 Carless, Howard, (UK)

Single

H2 (Min 1 to 5°C)

Very pretty fuchsia, distinctive habit, long arching stems. Makes a first-rate small standard. Profuse small flowers. Tube: Rich red. Sepals: Red, slim & pointy. Corolla: Deep red aubergine. Parentage: (F. lyciodes x F. magellanica) x Gerda Manthey.

Joy Patmore

1961 Turner, ET, (UK)

Single

H2 (Min 1 to 5°C)

NKvF 1462

Incredibly pretty and vigorous, a fuchsia with timeless appeal. Tube: Short, white. Sepals: White, held between horizontal & ½ up. Corolla: White at base, white veins leading into rose pink petals with deep pink picotee edges.

Kocarde

1983 de Groot, J (NL)

Single

H2 (Min 1 to 5°C)

NKvF 1492

An attractive flower in warm colours. Easy, free flowering, deserves to be more widely grown. Tube: Medium length, quite plump, orangey pink. Sepals: Medium length, fairly broad, pinkish red, held slightly down. Corolla: Orangey red, red veining. Parentage: Kwintet x Cardinal.

Judith Louise

1995 Barnes, (UK)

Single

H2 (Min 1 to 5°C)

AFS 3544

From distinguished parents & has inherited their superb characteristics, vigorous, easy, abundant flowers. Tube: Creamy white. Sepals: Creamy white, very slight pink blush. Corolla: Cerise, darker at petal edges, blending to white at the base. Parentage: Lye's Unique x Other Fellow.

Lady Isobel Barnett

1968 Gadsby, Cliff, (UK)

Single

H2 (Min 1 to 5°C)

AFS 978 NKvF 1517

An outstanding fuchsia, challenging to exhibit due to heavy pollen production. Carries huge numbers of flowers. Tube: Carmine rose red, short. Sepals: Carmine rose red, held horizontal, recurved. Corolla: Pale purple, darker at edges of petals, pink veins.

Bush K - N

Laepines

N/K N/K

Single

Very free flowering, attractive, ideal for containers or bedding. Rare, beautifully simple. Sometimes offered as 'Leapines'. Tube: Waxy creamy white. Sepals: Creamy white, faint tinge of green at tips. Held slightly down from horizontal, slightly recurved tips. Corolla: Rose red tinted orange.

H2 (Min 1 to 5°C)

Lilian

2000 Johns, Eric, (UK)

Single

A truly lovely fuchsia. The anthers are deep red which contrasts beautifully with the pastel shades of the flower. Makes a good ¼ or ½ standard. Tube: White flushed pink. Sepals: White flushed pink. Corolla: Pale pink/lilac.

H2 (Min 1 to 5°C)

Lancashire Lass

1986 Sinton, (UK)

Single

Short jointed, self branching, outward & upward looking flowers. Tube: Very pale pink, short. Sepals: Very pale pink, green tips, held ½ up, recurved. Corolla: Opens hyacinth blue, matures lavender, ½ flared when mature. Parentage: Estelle Marie x Pennine.

H2 (Min 1 to 5°C)

AFS 2564 NKvF 3307

Lillian Annetts

1993 Clark, Dave, (UK)

Double

Very successful show cultivar. Prolific heavy flowers. Tube: White with pink candy stripes, short. Sepals: White with green tips, held ½ up when mature. Corolla: Blue, white and pink towards centre base of petals.

H2 (Min 1 to 5°C)

RHS AGM

Landgoed Hulshorst

2011 van den Brink, (NL)

Double

Unusual flowers which keep opening until they look like they've exploded. A very striking plant when in full flower. Tube: Deep rose pink. Sepals: Deep rose red. Corolla: Magenta-red, petals have serrated edges. Parentage: Lena Lankman x Sleedoorn.

H2 (Min 1 to 5°C)

AFS 7987 NKvF 4915

NKvF R

Lindisfarne

1974 Ryle & Atkinson, (UK)

Single

Very free flowering, attractive, ideal for containers or bedding, bold eye-catching colours. Tube: Creamy white, pink tinge & striping. Sepals: Creamy white, faint tinge of green at tips, held horizontal, slightly recurved tips. Corolla: Deep blueish purple maturing to violet purple. Petals pink at base, pink & red veins.

H2 (Min 1 to 5°C)

AFS 1168 NKvF 1562

Laura

1986 N/K

Single

Flowers lavishly producing a very bright, colourful exhibition. Tube: Pale orange pink. Sepals: Pale orange pink, held horizontal, recurved green tips. Corolla: Orange-pink at base through orange-red to orange-purple.

H2 (Min 1 to 5°C)

Lionel

1998 Morris, (UK)

Single

A charming cultivar that works well in containers or the front of borders. Has small flowers, would make a superb bonsai. Tube: White. Sepals: White, green tips. Held ½ down, slightly recurved tips. Corolla: Light mauve. Pale pink at base.

H2 (Min 1 to 5°C)

Letty Lye

1877 Lye, James, (UK)

Single

A classic Lye cultivar with pale tube & sepals, purplish corolla, vigorous, ideal for training as a standard or pillar. Tube: Slim, Pinkish white. Sepals: Pinkish white, held horizontal, tips slightly recurved. Corolla: Pinkish purple. Parentage: Arabella Improved x James Lye.

H2 (Min 1 to 5°C)

Little Fellow

1973 Soo Yun Field, (US)

Single

Wide flowers 5cm (2") measured across the sepals), but they still look small. This is a super little plant that's easy to grow. Tube: Red, short, plump, rounded. Sepals: Dark pink red, held horizontal. Corolla: Purple pink, ¼ flared.

H2 (Min 1 to 5°C)

Bush K - N

Loeky

1985 de Graaf, Herman, (NL) Single

Flowers profusely, good for small to medium standards, gives a lovely display. Tube: Bright mid rose red. Sepals: Bright mid rose red, folding well back as they mature. Corolla: Pretty pink, red veins towards base. Matures fully flared. Parentage: Joy Patmore x Impudence.

H2 (Min 1 to 5°C)
AFS 1867 NKvF 1568
VKC AM

London 2000

2000 Heavens, Paul, (UK) Single

Very vigorous, strong upright habit, suitable for pots & containers. Easy to train, makes superb fans & mini or ¼ standards. Tube: White, short. Sepals: White, held ½ up, recurved. Corolla: Cyclamen-purple, maturing cerise, up to ½ flared.

H2 (Min 1 to 5°C)

London Eye

2006 Waving, Pete, (UK) Single

A delectable cultivar that is self branching with short joints. Flowers profusely over a long period. Tube: Pale pink. Sepals: Pale pink through rose, apple green tips. Held slightly down, slightly recurved tips. Corolla: Blue-purple, pink at base, rose veins. Parentage: London 2000 x unknown.

H2 (Min 1 to 5°C)
BFS 16

Loveliness

1869 Lye, James, (UK) Single

**Awaiting
Photo**

Typical Lye fuchsia, lives up to its name, one of our favourites. Early, good for standards, pillars etc. Tube: Clear white, medium length. Sepals: White, held slightly up from horizontal. Corolla: Rose pink, paler at base, ¼ to ½ flared when mature.

H2 (Min 1 to 5°C)
NKvF 1579

Lustre

1868 Bull, (UK) Single

Lustre is a first class fuchsia, easy & floriferous. Tube: Fairly long and slim, creamy white. Sepals: Waxy cream, held ½ up. Corolla: Folded petals of warm orangey pink mature flat.

H2 (Min 1 to 5°C)
NKvF 1787

Lydia

2006 van den Brink, (NL) Single

A real beauty, easy to grow, short jointed, self branching, upright bush. Tube: White, pale green stripes. Sepals: White, green tips, held fully up. Corolla: Reddish purple, pale at opening darker when mature. ½ flared. Parentage: Estelle Marie x unknown.

H1c (Min 5 to 10°C)
AFS 6258 NKvF 4549
NKvF R

Lye's Elegance

1844 Lye, James, (UK) Single

One of Mr Lye's many superb cultivars, well named. Tube: Creamy white, slender. Sepals: Waxy cream, held horizontal. Corolla: Rich cerise, ¼ flared.

H2 (Min 1 to 5°C)

Lye's Unique

1886 Lye, James, (UK) Single

A very free-flowering, vigorous, stiffly upright bush cultivar. Excellent for full standards, columns, pillars, fans & large displays. Very highly recommended. Tube: Crisp white. Sepals: Bright waxy white, held horizontal, very slightly recurved tips. Corolla: Salmon coral red.

H2 (Min 1 to 5°C)
NKvF 1586
RHS AGM

Lynne Patricia

2007 Swaby, Alan, (UK) Double

A superb garden, container & exhibition cultivar, short jointed, self branching & vigorous. Tube: Rose pink, short. Sepals: White, rose pink streaks, pale green tips, held ½ up, recurved. Corolla: White, slight lilac tinge, bold rose veins, ¾ flared. Parentage: [(Baby Bright x Zulu King) x Carla Johnston] x Lillian Annetts.

H2 (Min 1 to 5°C)
AFS 6498

Margaret Pilkington

1984 Clark, Dave, (UK) Single

A generously free flowering, vigorous, stiffly upright bush cultivar. Beautiful flowers. Superb fuchsia. Tube: White with rose stripes. Sepals: White with rose veins. Held ¼ down with strong recurve. Corolla: Violet to purple.

H2 (Min 1 to 5°C)
NKvF 1815

Bush K - N

Mandarin Cream

2011 N/K

Single

Classically beautiful, elegant flowers in subtle colours, flowers very freely, easy, better than average rust resistance. Tube: White, short. Sepals: White, palest pink blushes, faint green tips, held horizontal, slightly recurved. Corolla: Orangey coral red, 1/4 flared.

H2 (Min 1 to 5°C)

Mary Reynolds

1976 Reynolds, Eddie, (UK)

Single

Awaiting Photo

Medium to large fully double boldly coloured flowers, vigorous growth, appreciates pinching out a couple of times to get maximum flower. Tube: Short, rose red. Sepals: Vivid purplish red, held horizontal, reflexed. Corolla: , Violet, fully flared. Parentage: Angel's Flight x Royal Velvet.

H2 (Min 1 to 5°C)

AFS 1363 NKvF 1850

Maria Landy

1991 Wilkinson, Mal, (UK)

Single

Classic beauty, easy, compact, self branching, short jointed. Tube: Pale pink, darker pink stripes. Sepals: Palest pink, white, green tips on top, white, palest green tips under, held horizontal, recurved. Corolla: Pale violet blue, darker picotee edges, matures pale violet, darker picotee edges. Parentage: Bambini x Jenny Sorensen.

H2 (Min 1 to 5°C)

AFS 2784 NKvF 3342

Mauve Beauty

1869 Banks, Edward, (UK)

Double

A very pretty double in soft mauve and pinkish red. Tube: Pinkish red, short and slim. Sepals: Pinkish red, held 1/2 up, tips recurved. Corolla: Lilac mauve, pink streaks, very full.

H2 (Min 1 to 5°C)

Marina Kelly

1990 Massé-Marcenac

Single

Beautiful fuchsia bearing abundant elegant flowers in subtle colours, easy. Tube: White, proportionately long. Sepals: Waxy white, faint green tips, held 1/2 down, slightly recurved. Corolla: Palest baby pink, 1/4 flared. Parentage: Papy René x Whiteknights Pearl.

H2 (Min 1 to 5°C)

AFS 3419 NKvF 3842

Mazda

1947 Reiter, (US)

Single

Hot, glowing colours on a vigorous bush. Needs early pinching. Tube: Short, rather bulbous, orangey pink. Sepals: Orangey pink, held 1/2 up, tips recurved. Corolla: Vivid pinkish orange, paler at base, dark pink veins, 3/4 flared.

H2 (Min 1 to 5°C)

NKvF 1618

Martin's Double Delicate

1998 Beije, Martin, (NL)

Double

Awaiting Photo

A pretty double with delicate lavender flowers. Tube: Light red. Sepals: Light red, held fully up, greenish reflexed tips. Corolla: Double, pale lavender. Parentage: Eden's Delight x Impudence.

H2 (Min 1 to 5°C)

NKvF 3848

Melanie

1987 Haslinger, (DE)

Single

A classic fuchsia flower in deep colours that display beautifully against the lighter foliage. Tube: Dark red, short. Sepals: Dark red, held horizontal, recurved. Corolla: Very dark aubergine navy blue. 1/2 flared when mature.

H2 (Min 1 to 5°C)

NKvF 2713

Martyn Smedley

1968 Gadsby, Cliff, (UK)

Single

A superb free flowering plant with large bright flowers. Tube: Waxy white, faint pink stripes. Sepals: Upper rose pink, lower, slightly darker, held 1/2 down, tips recurved. Corolla: Unflared, pinkish lavender blue. Parentage: Upward Look x Bon Accorde.

H2 (Min 1 to 5°C)

AFS 5974 NKvF 3850

Mersty

2012 Phillips, Nancy, (US)

Double

A pale and lovely flower that doesn't like full sun. Needs careful deadheading, dead stalks tend to hang on. Tube: Greenish white, faintly striped. Sepals: Held 1/2 up, twisted, upper creamy white, lower has purple red flush at base. Green, recurved tips. Corolla: Pale violet, dark pink veins, almost unflared, a mix of long & short petals. Parentage: Annabel x Golden Girl.

H3 (Min 1 to -5°C)

BFS 246

Bush K - N

Michael

1988 Barker, (UK)

Double

Upright bush, becomes a bit lax with weight of flowers, large blooms in substantial bunches. Tube: White, pink stripes. Sepals: White, pink blush, held slightly below horizontal, recurved. Corolla: White, pink base & veins, full, large. Foliage: Variegated green and yellow. Parentage: Sport of Annabel.

H2 (Min 1 to 5°C)
NKvF 4207

Miss Vallejo

1958 Tired, Horace, (US)

Single

A vintage oldie, beautiful in containers or bedding. Our photos don't do her justice, she's lovely. Benefits from a little cossetting over winter. Tube: Short, pale greenish rose. Sepals: Pale rose pink fading to almost white at the tip, held almost fully up when mature. Corolla: Lilac-rose, rose veining.

H2 (Min 1 to 5°C)
AFS 334 NKvF 1639

Micky Goult

1981 Roe, G, (UK)

Single

Superb for summer bedding & exhibition, abundant flowers held facing outwards. Tube: White, light pink flush, short. Sepals: Pink turning to paler pink, green tips. Corolla: Violet rose ageing to lilac. Parentage: Bobby Shaftoe x Santa Barbara.

H2 (Min 1 to 5°C)
NKvF 1629
RHS AGM

Mr W Rundle

1896 Rundle, Walter, (UK)

Single

Vigorous, easy, lovely long slender flowers with bright attractive colours. Tube: Rose red, faint orange-red candy stripes. Sepals: Pale purple-rose fading through almost white to yellow-green tips. Held horizontal, very slight recurve. Corolla: Red, orange overtones, up to ¼ flared.

H2 (Min 1 to 5°C)
NKvF 1658

Mini

1969 Castro, (US)

Single

Stiffly upright bush, numerous brightly coloured blooms, makes good standards & fans etc. Ideal pot & container plant, or summer bedding. Tube: White & rose pink, long. Sepals: Rose pink & white, held ½ down, slightly reflexed. Corolla: Rose red, purple overtones, ¼ flared.

H2 (Min 1 to 5°C)
AFS 840 NKvF 2719

Musetta

1988 Sloots, HA, (NL)

Single

Vigorous, lush, self branching, large leaves & boldly coloured flowers. Tube: Magenta, shortish. Sepals: Magenta, held ½ down, reflexed tips. Corolla: Magenta, slightly wavy petal edges, ½ to ¾ flared. Parentage: Found seedling.

H2 (Min 1 to 5°C)
AFS 2522 NKvF 1988

Mini Rose

1985 de Graaf, Herman, (NL)

Single

Ideal cultivar for smaller containers & small standards. Very easy, small flowers. Tube: Creamy-white, red blush. Sepals: White, red blush at base then white. Held horizontal. Corolla: Red-purple, light rose-red base. ¼ flared. Parentage: Rose of Castile x unknown.

H2 (Min 1 to 5°C)
AFS 1871 NKvF 1634
VKC AM

My Mum

2000 Dobson, Nick, (UK)

Single

Large, vigorous, easy, plenty of flowers, suitable for bedding, borders, containers or training, standards etc. Tube: Pink, slightly darker stripes. Sepals: Pale rose pink on top, darker under, held slightly down from horizontal. Corolla: Bright smoky cerise-rose, ¼ flared. Parentage: Annabel x Lye's Unique.

H2 (Min 1 to 5°C)

Minnesota

1938 Garson, Gordon, (US)

Double

Attractive flowers, freely produced. One of few introduced during the 2nd world war. Tube: Creamy white, trace of pink. Sepals: Creamy white, trace of pink, darker under, held horizontal, greenish tips recurved. Corolla: Opens soft lavender purple, rich pink veins & carmine at the base, matures more magenta, little or no flare.

H2 (Min 1 to 5°C)
NKvF 1639

Napoléon

1846 Meillez, (FR)

Single

About 40cm tall, free flowering, and easy to grow, gives a great display. Tube: Pinkish white, fairly short, bulbous. Sepals: White, a touch of pink at the base, green tips, held horizontal. Corolla: Smooth petals, ¼ flared, pinkish violet, pale patch at petal base.

H2 (Min 1 to 5°C)
NKvF 1927

Bush K - N

Natasha Lynn

2010 Swaby, Alan, (UK)

Single

Easy to grow & propagate, gives a superb display. Tube: Rose pink, darker stripes. Sepals: Rose pink through white to pale green tips, held ½ up, slightly reflexed. Corolla: Violet-blue, rose pink base & veins, ½ flared. Parentage: Lillian Annetts x Lynne Patricia.

H2 (Min 1 to 5°C)
AFS 7277

Oddfellow

1982 Dyos, Alan, (UK)

Double

Seperb, branches well & flowers busily. Chosen by & named for Independent Order of Oddfellows. Possibly hardy. Tube: Fairly short, pale reddish pink. Sepals: Short, broad, pale reddish pink, paling towards greenish white tip, held slightly down, reflexed. Corolla: White petals.

H2 (Min 1 to 5°C)
NKvF 3528

Nathan Rhys

2011 Garcia, Sid, (UK)

Single

Free-flowering compact bush fuchsia, this photo doesn't do it justice. Tube: Rose, short. Sepals: Rose, pale pink tips, held ½ down, slight recurve at tips. Corolla: Opens deep lavender blue, matures lavender-violet, little or no flare. Parentage: Frank Saunders x Lillian Annetts.

H2 (Min 1 to 5°C)
BFS 213

Olive Moon

1987 Tite, (UK)

Single

Subtly endearing flower colour & shape, attractive fuchsia, surprisingly uncommon. Tube: White, pink flush, short. Sepals: White, pink flush, held horizontal, slight recurve. Corolla: White, pink bluish, pink veins towards base, ¾ flared. Parentage: Seedling from Bobby Shaftoe x unknown.

H2 (Min 1 to 5°C)
AFS 2141

Nettala

1973 Francesca, (US)

Single

Unusual single flowers freely produced, a vigorous, easy fuchsia. Tube: Short, deep red. Sepals: Deep red. Shiny. Corolla: Red violet, glows. Parentage: Sport of Chang.

H2 (Min 1 to 5°C)
AFS 1090 NKvF 1929

Olympia

1913 Rozaine-Boucharlet, (FR)

Single

Naturally self branching, short jointed, beautifully coloured, varies a little. Tube: Pale pink, rose pink stripes. Sepals: Pale rose pink, horizontal. Corolla: Persian rose fading to palest pink at petal base, magenta petal edges, rose pink veining. ¾ flared.

H2 (Min 1 to 5°C)

Northern Pride

1979 Ryle, (UK)

Double

Very free-flowering, good for containers & training into standards, fans etc. Tube: Pink, short. Sepals: Rose pink, green tips, held fully up, tips recurved. Corolla: Dark fuchsia pink, purple petal edges, fully flared.

Peter Meredith

2008 Reynolds, Gordon, (UK)

Single

H2 (Min 1 to 5°C)

Excellent, compact, self branching, abundant stiffly held flowers. Tube: White, apple green tinge & stripes. Sepals: White, pink blush fading to apple green blush at tips. Held horizontal, slight recurve at tips. Corolla: Peach pink, bolder pink picotee edges.

Prestonfield

1971 Cathcart, Andrew, (UK)

Single

H2 (Min 1 to 5°C)

One of the most attractive variegated fuchsias we've seen, the lime green with lemon green edged leaves provide a delightful backdrop for the medium size flowers. Tube: White, bold carmine red candy stripes, short. Sepals: Mainly white, some carmine red striping, held horizontal, slight reflex. Corolla: Lavender, pink veins, stains & splashes, ¼ flared.

Petit Four

1992 de Graaf, Herman, (NL)

Single

H2 (Min 1 to 5°C)

AFS 3059 NKvF 4234
VKC AM

Lots of neat bloomss, upright growth, a charming fuchsia with a boldly coloured, open display. Tube: Pink blushed aubergine. Sepals: Pink blushed aubergine tipped pale green. Corolla: Rich dark aubergine. Parentage: Karin de Groot x Madurodam.

Prince Syray

1975 White, R J, (UK)

Single

H2 (Min 1 to 5°C)

NKvF 2333

Abundant massed medium flowers, easy to grow & propagate, prefers semi shade. Tube: Very pale pink, slightly darker candy stripes. Sepals: Pale pink fading lighter towards very pale yellow-green tips, almost horizontal. Corolla: Bright red-rose, slightly darker at base, up to ¼ flared. Parentage: Bon Accorde x Lord Lonsdale.

Pigglemee

2005 Krom, (NL)

Single

H2 (Min 1 to 5°C)

AFS 5796 NKvF 4235

Growth is wiry & stiffly upright, dark colours are strikingly bold, would make a good ½ standard or Bonsai. Tube: Reddish-purple. Sepals: Reddish-purple, held fully up when mature, recurved. Corolla: Dark reddish-purple, no flare. Parentage: Wout x Mantilla.

Purperklokje

1989 de Graaf, Herman, (NL)

Single

H2 (Min 1 to 5°C)

AFS 3059 NKvF 4234

Lots of neat single flowers, charming, boldly coloured, open display. Tube: Pink blushed aubergine. Sepals: Pink blushed aubergine tipped pale green. Corolla: Rich dark aubergine. Parentage: Karin de Groot x Madurodam.

Pink Sprite

2011 Swaby, Alan, (UK)

Single

H2 (Min 1 to 5°C)

AFS 8008 BFS 228

Elegant, unusual flower shape & clean colours, makes a nice shapely bush fuchsia. Tube: White. Sepals: White, held fully up, green recurved tips, twisty. Corolla: Magenta, white streaks, ½ flared. Parentage: [London 2000 x (Baby Bright x Zulu King)] x Carla Johnson.

Queen Ester

2000 Delta Farm Nursery, (US)

Single

H2 (Min 1 to 5°C)

NKvF 6090

Produces lots of flowers in regular, frequent flushes. Tube: Creamy white, short. Sepals: Creamy white, pale green tips, ¼ down, tiny recurve at tip. Corolla: Violet, white splashes & some raspberry veining from petal base. Little or no flare.

Poppet

1983 Holmes, Ron, (UK)

Single

H3 (Min 1 to -5°C)

Happiest when grown in full sun, well named. Makes good mini or ¼ standard. Tube: Deep carmine red, short, curvy. Sepals: Carmine red on top, lighter under, green tips, held horizontal, slight reflex. Corolla: Rose pink, raspberry veining & edges, ½ flared when mature. Parentage: Beacon x unknown.

Regal

1948 Horton, (US)

Single

H2 (Min 1 to 5°C)

NKvF 1870

Grows vigorously & rapidly upright making a really tall plant, ideal greenhouse or conservatory specimen. Ample brightly coloured very large flowers. Tube: Rose-madder, fairly long, straight. Sepals: Rose-madder, ¾ up, recurved. Corolla: Rose-madder, long, slightly flared.

Bush O - R

Remember Carole Anne

2011 Swaby, Alan, (UK) Double

Flowers bountifully, useful for exhibition, & makes good basket. Hardy to 0°C. Tube: White. Sepals: White, green tips. Corolla: Purple, large rose pink splashes or streaks, fully flared. Parentage: Lillian Annetts x Alison Patricia.

H3 (Min 1 to -5°C)
AFS 7694

Roger de Cooker

1999 de Cooker, Mario, (NL) Single

Unusual, has 10-20% triphylla genes, flowers profusely. Don't over pot. Tube: Long, mainly white, pink blushes. Sepals: White shading to rose pink then apple green at tip. Corolla: Bold rose pink gradually fading to pale pink at petal base. Parentage: [Pangea x (Elsie Mitchell x F. magellanica Alba)] x [(Checkerboard x Machu Picchu) x (Checkerboard x Machu Picchu)].

H2 (Min 1 to 5°C)
NKvF 4648

Compact bush ideal for smaller containers, really pretty. Tube: Pale rose, shortish. Sepals: Pale rose, green tip, horizontal, slight recurve. Corolla: White, purple tinge, purple picotee edge to petals. ½ flared. Parentage: Jenny Sorensen x Braamt's Glorie.

Sleigh Bells

1954 Schnabel, (US)

Single

H2 (Min 1 to 5°C)
AFS 196 NKvF 3931

First class large white flowers, very tall & vigorous, very stiff growth, best if carefully pinched. Tube: White. Sepals: White, apple green tips. Corolla: White, wispy pale pink veins, ¼ flared.

Stardust

1973 Handley, Enid, (UK)

Single

H2 (Min 1 to 5°C)
AFS 1134 NKvF 2094

Stiff upright growth, ideal for standard, fan etc. Tube: Salmon pink, slender. Sepals: Salmon pinky-orange, slightly down, recurved when mature. Corolla: Crimson edges blending through pink to pale orange at petal base, ¼ flared when mature.

Softpink Jubelteen

2002 Michiels & Wagemans, (BE)

Single

H2 (Min 1 to 5°C)
AFS 4928 NKvF 6080
Certificate N.B.F.K. at Meise

Considerable variation in flower colour influenced by shade or full sun. Tube: Palest pink, slightly darker stripes. Sepals: Palest pink through white to green tip above, palest pink, green tip under. ½ down, slight recurve. Corolla: Pale pink, darker picotee edge, ¼ flared when mature. Parentage: Sport of WALZ Jubelteen.

String of Pearls

1976 Pacey, Robert, (UK)

Single/Semi Double

H2 (Min 1 to 5°C)
AFS 1394 NKvF 2871

Exceedingly prolific, smothers itself in medium flowers. Reliable, easy. Tube: Rose pink, curvy shape, slim waist at sepal end. Sepals: Rose pink, paler towards end, pale green tinge. ½ to fully up, slight reflex. Corolla: Very pale rose, purple-blue veining, ¼ to ½ flared. Parentage: F. lycioides x unknown.

Sophie Grace

2011 Swaby, Alan, (UK)

Single

H2 (Min 1 to 5°C)
AFS 8010

Short jointed upright bush, lots of medium lowers, very rewarding. Tube: Rose. Sepals: Rose through white to green tip, ½ up, recurved. Corolla: Violet-blue, ¼ flared when mature. Parentage: Anna Louise x Natasha Lynn.

Sue

1986 Holmes, Ron, (UK)

Single

H2 (Min 1 to 5°C)
NKvF 3950

Bushy & self branching, large boldly coloured flowers display well. Easy, reliable, free flowering repeated over long period. Tube: Cerise red. Sepals: Cerise red. Corolla: Red & orange.

Sophie Louise

1998 Wilkinson, M, (UK)

Single

H1c (Min 5 to 10°C)

Compact, slightly lax, lots of small, very beautiful flowers. Excellent for mini standards & small pot classes. Tube: Palest pink, short. Sepals: Palest pink, fairly long, slightly up, recurved. Corolla: Blue violet, ¼ flared when mature. Parentage: Katrina Thompsen x unnamed seedling.

Summerdaffodil

2008 de Graaf, Herman, (NL)

Single

H2 (Min 1 to 5°C)
AFS 4449 NKvF 3951
VKC AM

Lots of medium sized single flowers in a very appealing shape. Can be difficult to overwinter. Tube: Medium length, white, rose pink blush. Sepals: Slim, white, rose pink overtones, tips tinged green. Corolla: Pale lilac rose pink. Shaped like a daffodil's trumpet. Parentage: Gerharda's Panache x Gerharda's Panache.

Bush S - Z

Sunbeam Hillary

2003 Gotz, Wolfram, (DE)

Single

Vigorous, good in sun. Generous medium to large flowers. Tube: Short greenish white. Sepals: White fading pink. Corolla: Palest lavender.

H2 (Min 1 to 5°C)

Swanley Yellow

1900 Cannell, H, (UK)

Single

Lovely free flowering beauty, bearing lots of medium flowers, but no trace of yellow whatsoever. Tube: Orangey pink. Sepals: Orange pink, tiny apple green tip, horizontal, recurved. Corolla: Orange vermilion, ¼ flared.

H2 (Min 1 to 5°C)
NKvF 2111

Sunray

1872 Rudd, (UK)

Single

Slow growing, needs time to show full potential, likes sun. Grown & prized for superb foliage. Not like Tom West. Tube: Short, red. Sepals: Red, paler on top, deeper below. Corolla: Mauve, darker at outer petal edge. Foliage: Silvery light green & cream, variegated, red blushed when young.

H2 (Min 1 to 5°C)
NKvF 2105

Szilvia Ocsai

2000 Michiels, Marcel, (BE)

Single

Strong upright grower, self branching, free flowering, medium. Tube: Mainly white, occasional pale purple streaks. Sepals: White, purple pink edges & streaks. Held between horizontal & ½ up, recurved, green tip. Corolla: Very pale purple matures extremely pale lavender. ¼ flared. Parentage: Rosella x Rosa Pummelchen.

H2 (Min 1 to 5°C)
AFS 4485

Sunshine

1948 Niederholzer, (US)

Single

Smallish bush, gorgeous, abundant, medium sized flowers, truly lovely. Tube: White flushed pink, pink candy stripes. Sepals: White & bright rose pink, held horizontally, recurved tip, just below horizontal. Corolla: Rose pink, darker picotee petal edge, ½ flared.

H2 (Min 1 to 5°C)
AFS 19 NKvF 2878

Thamar

1987 Springer, (UK)

Single

Free-flowering, self branching, smallish outward facing flowers, tolerates full sun. Tube: White, green flush. Sepals: White, pink flush, apple green tip, ¼ down. Corolla: Light violet fading light purple, white splashing from base.

H2 (Min 1 to 5°C)
NKvF 2128

Susan Green

1981 Caunt, Jack, (UK)

Single

Naturally bushy, free flowering, happy in sun, easy. Tube: White, pale pink flush. Sepals: White, pale pink shades, held horizontally, recurved, slight twist. Corolla: Rose pink, little or no flare.

H2 (Min 1 to 5°C)
AFS 1633 NKvF 3955

The Doctor

1930 Castle Nurseries, (UK)

Single

Splendid colours, makes fine bush or standard. Easy old favourite. Tube: White, fleshy pink lines, slender. Sepals: White washed deep rose pink, darker below, white & green tips. Horizontal, straight. Corolla: Salmony pink, ½ flared.

H2 (Min 1 to 5°C)
NKvF 2131

Swanley Beauty

1875 Lye, James, (UK)

Single

Flowers generously, vigorous, easy. Tube: Waxy white, cream blush. Sepals: White, faint pink tinge darkens towards slightly reflexed tips. Corolla: Soft pink, ¼ to ½ flared.

H2 (Min 1 to 5°C)

Ting-a-Ling

1959 Schnabel, C, Paskesen, E, (US)

Single

Enduringly popular white flowered beauty. Flowers mark easily, protect if showing. Needs shade for purest white. Tube: Short, slender, pink, darker candy stripes. Sepals: Slender, fairly long, white, apple green tip, fully up, slightly recurved. Corolla: ¾ flared when mature, white, faint pink veining near base.

H2 (Min 1 to 5°C)
AFS 381 NKvF 2144

Bush S - Z

Tom Knights

1983 Goulding, Edwin, (UK)

Single

Show bench favourite, quite tall, vigorous, great for bedding, pots & patio containers. Tube: White. Sepals: White, very slight pink blush, slightly up, recurved. Corolla: Lavender blue. ¼ flared. Parentage: Estelle Marie x Coquet Dale.

H2 (Min 1 to 5°C)

AFS 1732 NKvF 2147

Waldis Gräfin

1997 Dietrich, Waltraud, (DE)

Single

Stiffly upright, many strikingly coloured small to medium single flowers. Absolutely gorgeous. Tube: Heliotrope, pink overtone. Sepals: Heliotrope, horizontal, generously recurved. Corolla: Mauve lavender, small amount of plum veining or streaks, up to ¼ flared.

H2 (Min 1 to 5°C)

Turkish Delight

2002 Sinton, (UK)

Single

Small, self branching, bushy, covers itself in flower. Good mini or ¼ standard, ideal for containers. Tube: Pale pink, short. Sepals: Cerise, paler towards green tips, ¾ up, fully recurved. Corolla: Iris blue shaded plum, cerise veining, ¼ flared. Parentage: Bealings x Purple Patch.

H2 (Min 1 to 5°C)

AFS 4827 NKvF 4675

WALZ Doedelzak

1987 Waldenmaier, Henk, (NL)

Single

Colourful & unusual. Medium flowers rapidly & continuously. Tube: Pink & red, yellow-green streaks, fairly thick & wide at ovary end & slim at curved sepal base end. Sepals: Red & dark rose pink, large yellow-green recurved tips. Horizontal when mature. Corolla: Purple, red overtone, ½ to ¾ flared when mature, unusually shaped petals have wavy edges. Parentage: (F. magdalenae x Rubra Grandiflora) x Royal Purple.

H2 (Min 1 to 5°C)

AFS 2397 NKvF 2194
VKC AM

Twinkling Stars

1976 Handley, Enid, (UK)

Single

Small bushy plant, outward facing flowers often have 5 sepals, hence name. Tube: Pink, short. Sepals: Pale rosy pink on top, slightly deeper shade of rosy pink under, green tip. Horizontal, slightly recurved. Corolla: Fuchsia pink, ¼ flared.

H2 (Min 1 to 5°C)

AFS 1373 NKvF 2174

WALZ Jubelteen

1990 Waldenmaier, Henk, (NL)

Single

Masses of medium sized outward facing flowers over a long period. Ideal for containers, bedding, standards etc. Self branching, easy, one of the all-time greats. Tube: Short, white, faint pink lines. Sepals: White on top, light rose pink below, tipped green. Corolla: Bold rose pink. Parentage: Toos x Prince Syray.

H2 (Min 1 to 5°C)

AFS 2841 NKvF 2972
RHS AGM, VKC AM

Vera Garcia

2010 Garcia, Sid, (UK)

Single

Another free flowering, super exhibition cultivar from Sid, also ideal for containers. Tube: Shortish, bold rose pink, darker candy stripes. Sepals: Bold pink, darker edges, pale green tips. Corolla: Lilac, blue overtones, darker edges, paler base, deep rose pink. Parentage: Frank Saunders x Brookwood Belle.

H2 (Min 1 to 5°C)

BFS 161

WALZ Toeter

1987 Waldenmaier, Henk, (NL)

Single

Covers itself in flowers all season. Truly lovely self branching tall bush. Tube: Deep rose, long slender, tapering. Sepals: Deep rose, pronounced yellow-green tips, ½ down. Corolla: Red, ¼ flared. Parentage: (F. magdalenae x Rubra Grandiflora) x WALZ Brandaris.

H1c (Min 5 to 10°C)

AFS 2377 NKvF 2980
VKC AM

Ville de Paris

1993 Masse, (FR)

Single

Profuse small flowers, makes a charming ¼ or ½ standard, superb in a pot or border. Easy, may have 5 or 6 sepals. Tube: Pale pink, faint stripes. Sepals: Pale pink, green tips, slender, slightly down, recurved. Corolla: Reddish purple, ¼ flared. Parentage: Papy René x Pink Rain.

H2 (Min 1 to 5°C)

AFS 3102 NKvF 3978

WALZ Trompet

1985 Waldenmaier, Henk, (NL)

Single

Unusual, easy, numerous large, long, brightly coloured, slightly weird flowers. Tube: Claret rose, occasional yellow stripes, yellow waist, very long, slender. Sepals: Claret rose, greeny yellow tips, ¼ up, tips reflexed. Corolla: Light purple, no flare, petals curve inwards. Parentage: [F. magdalenae x (Forgotten Dreams x unknown)] x Whiteknights Pearl.

H2 (Min 1 to 5°C)

AFS 2073 NKvF 2371
Certificate of Honor, DCI

Bush S - Z

WALZ Tuba

1985 Waldenmaier, Henk, (NL)

Single

Another unusual one, vigorous, bears many very long, brightly coloured flowers. Tube: Crimson, long, slender. Sepals: Crimson, slightly flared, green reflexed tip. Corolla: Tyrian Purple, less than ¼ flared. Parentage: [F. magdalenae x (Forgotten Dreams x unknown)] x Whiteknights Pearl.

H2 (Min 1 to 5°C)

AFS 2074 NKvF 2373

Certificate of Honor, DCI

Wassernymph

1985 N/K (NL)

Single

Strongly upright & early flowering, very beautiful, one of Nick's favourites. Tube: Creamy white, medium length. Sepals: Creamy white. Horizontally, gentle recurve at tips. Corolla: Orange red.

H2 (Min 1 to 5°C)

NKvF 2988

Waveney Queen

1974 Burns, D, (UK)

Single

Very free-flowering, attractive & versatile. Delicate flower colours. Tube: Creamy white, pink flush, short. Sepals: Pale pink fading to green tip, horizontal when mature. Corolla: Pale baby pink, darker pink veining, ¼ flared when mature. Parentage: Border Queen x unknown.

H2 (Min 1 to 5°C)

Waveney Valley

1984 Burns, D, (UK)

Single

Easy & low maintenance, self deadheading. Upright & bushy, makes good ½ or full standard. Tube: Creamy white, short. Sepals: Creamy white on top, very pale pink under, apple green tips horizontal, fully recurved when mature. Corolla: Lavender blue maturing lavender pink, ½ flared when mature. Parentage: Margaret Roe x Eden Lady.

H2 (Min 1 to 5°C)

NKvF 2990

Waveney Waltz

1982 Burns, D, (UK)

Single/Semi Double

Free flowering, medium flowers, was popular for exhibition, still lovely. Tube: Baby pink, very short. Sepals: Baby pink, slightly paler towards tip, held almost horizontal & straight. Corolla: White, some baby pink veining, ¼ to ½ flared. Parentage: Mrs Lawrence Lyons x Flirtation Waltz.

H2 (Min 1 to 5°C)

NKvF 2380

Welsh Dragon

1970 Baker, (UK)

Double

H2 (Min 1 to 5°C)

NKvF 2383

Very pleasing, vigorous & bushy. Large flowers freely produced, reminds me of my first mother-in-law who is Welsh and a lovely lady. I'm not brave enough to say more. Tube: Red, longish, slender with waist. Sepals: Crimson raspberry, broad, horizontal when mature. Corolla: Red-violet, magenta rose splashes from petal base. ¾ flared when mature.

White Queen

1899 Doyle, (UK)

Single

H2 (Min 1 to 5°C)

Sturdy vigorous, slightly lax growth, gives impressive display. Tube: Waxy white, very faint lemon blush. Sepals: White, apple green slightly recurved tip, horizontal when mature. Corolla: Orange at base blending to coral pink, rose edge, ¼ flared.

Whoopee

2015 Waving, Peter, (UK)

Double

H2 (Min 1 to 5°C)

A cracking new compact bush from Pete, self branching, easy to grow into a well shaped dense bush ideal for exhibition. Prefers light shade & fairly cool conditions. Tube: Short, pink, darker candy stripes. Sepals: Slightly below horizontal, fairly broad, pink fading to almost white at tip. Corolla: Pink base, pink veins, fading to white, a hint of mauve. Parentage: Our Cath x unnamed seedling.

Widnes Wonder

1997 Bright, Christine, (UK)

Single

H2 (Min 1 to 5°C)

BFS 97

Compact, neat upright habit, up to 2ft. (60cm) tall, self branching, easy, delightful little flowers. Tube: White, pink flush, short. Sepals: White. pink flush on top, pink under, held horizontal or slightly up, recurved towards pale apple green tip. Corolla: Dark violet blue, maturing more purple, ¼ flared.

Wilf Langton

2001 Evans, (UK)

Single

H2 (Min 1 to 5°C)

Very profuse, small to medium flowers, delightful. Tube: Short, white, horizontal, recurved. Sepals: White fading to pink. Corolla: Opens rich purple, fades to pink lavender.

Semi Trailing A - J

Alde

1988 Goulding, Edwin, (UK)

Single

Variably pleated petals, early, free flowering so ideal for containers, & excellent for bedding. Tube: Rose pink, orange tinge. Sepals: Pink, orange tinge, green tip. Corolla: Apricot pink. Parentage: *F. fulgens* x *Lye's Unique*.

H2 (Min 1 to 5°C)
NKvF 1685

Beauty of Clyffe Hall

1881 Lye, James, (UK)

Single

Very beautiful, strong growing, easy, reliable lax bush, ideal for centre of mixed containers. Tube: Creamy white, pink overtones, medium length. Sepals: Waxy pale pink, pale green tips, horizontal, reflexed tips. Corolla: Fuchsia pink, lighter base, darker edge, ¼ flared when mature.

H2 (Min 1 to 5°C)
NKvF 1778

Aloha

N/K N/K

Single

Heat tolerant, early, flowering abundantly over a prolonged period. Fairly compact, rich colours. Tube: Bright pink. Sepals: Bright pink. Corolla: Purple.

H2 (Min 1 to 5°C)

Beauty of Exeter

1890 Letheren, (FR)

Semi Double

Early, free flowering, makes excellent large basket. Large flowers, weeping stems. If you can train a ½ standard it's amazing. Tube: Very pale rose pink, slim. Sepals: Pale salmon pink, held horizontal, partial recurve. Corolla: Bold rose pink, ½ flared when mature.

H2 (Min 1 to 5°C)
NKvF 1143

Annie den Otter

1993 Den Otter, (NL)

Single

Easy, compact, ideal for containers & bedding. Tube: Apricot, long. Sepals: Apricot rose, horizontal, reflexed. Corolla: Bright rose pink, ¾ flared. Parentage: *WALZ Mandoline* x unknown

H1c (Min 5 to 10°C)
NKvF 3020

Berba's Trio

1986 Bats-Wesseling, (NL)

Single

Flowers have up to 3 colours, produced freely. Prefers shade. Makes very good basket. Tube: Rose pink. Sepals: Rose red flushed pink, carmine under, green tips. ½ up, reflexed tip. Corolla: Variable, white, blue-purple markings matures to red-purple, or white, or purple. Parentage: *La Campanella* x *Bridesmaid*.

H2 (Min 1 to 5°C)
AFS 1930 NKvF 1014

Annie M.G. Schmidt

1996 Krom, Dirk, (NL)

Single

Named after the iconic Dutch writer of children's books, poetry, musicals & more. Unusual colouring, attractively shaped blooms, & easy. Good for baskets & containers. Tube: Magenta. Sepals: Magenta, horizontal, tips recurved. Corolla: ¼ flared, smooth, slightly turned under petals. Palest purple, distinct magenta veining at base. Parentage: *Insa* x unknown.

H2 (Min 1 to 5°C)
AFS 6943 NKvF 3483

Beverley Hills

1936 Evans & Reeves, (US)

Single

Gently arching, easy to deadhead. Tube: Light red pink, darker lines. Sepals: Horizontal, tips so strongly recurved they almost touch tube when mature. Upper surface red pink, lower paler red pink, very pale green tip. Corolla: Purple red, slightly paler at top, smooth overlapping petals, ¼ flared when mature.

H2 (Min 1 to 5°C)
NKvF 1173

Baby Chang

1950 Hazard, (US)

Single

Lazy, almost creeping, if you want a neat shape needs frequent pinching. Flowers freely. Petite little flowers. Tube: Short, orange red. Sepals: Orange red, greenish tips. Corolla: Orange, greenish ends to petals.

H1c (Min 5 to 10°C)
NKvF 2218

Black to the Future

N/K N/K

Semi Double

Can anyone tell us this striking cultivar's true name or any other history? Unusual colours, fairly vigorous, easy, makes superb large basket. Tube: Red-violet, short. Sepals: Red-violet, ½ up when mature, slight recurve at tip. Corolla: Dark blue-black, fine blue edge to petals & purple flames, ½ to ¾ flared when mature.

H2 (Min 1 to 5°C)

Semi Trailing A - J

Blue Satin

1968 Walker, (US)

Double

Capable of superb basket displays. Tube: White & pale rose, short. Sepals: Rose pink through white to green tip. Almost fully up, slightly recurved. Corolla: Pale violet blue fading to white at petal base. $\frac{3}{4}$ flared when mature.

H2 (Min 1 to 5°C)
AFS 835 NKvF 1768

Coachman

1910 Bright, (UK)

Single

Flowers freely, naturally bushy, suitable for bedding, baskets or containers, very useful & decorative. Well defined clean bright colouring, easy. Tube: Pale salmon pink. Sepals: Pale salmon pink fading slightly towards tip, held slightly down. Corolla: Intense orange red.

H2 (Min 1 to 5°C)
NKvF 1380
RHS AGM

Bow Bells

1972 Handley, Enid, (UK)

Single

Produces so many flowers it may need a little support. Tube: White, faint pink candy stripes, short. Sepals: White tipped green, long, $\frac{1}{2}$ down, recurved tip. Corolla: Magenta fuchsia pink, white at petal base, bold magenta picotee petal edge.

H2 (Min 1 to 5°C)
AFS 1051 NKvF 1093

Collingwood

1945 Niederholzer, (US)

Double

Softly pretty, lovely old cultivar, large flowers. Tube: Medium, creamy white, hint of pink. Sepals: Quite broad, pale pink, apple green tips, horizontal. Corolla: Ruffled double petals of soft pink.

H2 (Min 1 to 5°C)
NKvF 1138

Burgundy Velvet

2005 Swaby, Alan, (UK)

Single

Self branching, masses of flowers, superb container or baskets. Tube: Red violet, short, waisted. Sepals: Red violet, horizontal, recurved. Corolla: Burgundy, $\frac{1}{2}$ flared when mature. Parentage: Arcadia Aubergine x Orange Crush.

H2 (Min 1 to 5°C)
AFS 5653

Dawn Star

1985 Bellamy, (UK)

Double

Truly gorgeous colours, elegant, slender, waisted tube. Tube: White, faint pale pink candy stripes. Sepals: White, modest pale rose pink blush on top, slightly darker below. $\frac{1}{2}$ up, recurved. Corolla: Pale lavender, slight pink overtones, faint pink veining, white & pink base.

H2 (Min 1 to 5°C)
NKvF 1829

Cecil Glass

1887 Lye, James, (UK)

Single

Delightful heritage cultivar, not a typical Lye type. Tube: Pale pink. Sepals: Pale pink, $\frac{1}{2}$ down, strongly reflexed, curving towards petals. Corolla: Rich carmine pink.

H2 (Min 1 to 5°C)
NKvF 3496

DebRon's White Linen

2012 Monnier, Debbie & Ron, (US)

Double

Sumptuous giant flower, viewed from below, looks rather like a lacy tablecloth. Prefers shelter from wind, rain & sun. Blooms can bruise & develop brown patches in prolonged wet weather. Well worth extra care. Tube: Sepals: Broad, white, greenish recurved tip, $\frac{1}{2}$ down. Corolla: Fully double, $\frac{3}{4}$ flared, white. Petal edges lightly waved & toothed. Only stamens & pistil are pink. Parentage: Annabel x Snowy Summit.

H2 (Min 1 to 5°C)
AFS 8140

Chor Echo

1996 Claes, Alfons, (BE)

Single

Profuse blooms, very attractive. Unusual. Tube: Rose. Sepals: Rose, green tips. Corolla: Dark rose, purple petal edge. Parentage: WALZ Harp x unknown.

H2 (Min 1 to 5°C)
AFS 3582 NKvF 3140
Certificate of Merit, NBFK

Delphobe

2011 de Cooker, Mario, (NL)

Single

Very attractive flower shape & colours, easy, Mario recommends pinching once or twice. Named after one of the family Airedale Terriers. Tube: Pale rose, longish, slim. Sepals: Pale rose, horizontal, recurved. Corolla: Red purple, $\frac{3}{4}$ flared. Parentage: Remembering Claire x unknown.

H1c (Min 5 to 10°C)
AFS 7981 NKvF 4913

Semi Trailing A - J

Dorothea Flower

1971 Thornley, Alf, (UK) Single

H2 (Min 1 to 5°C)
AFS 1009 NKvF 1497

Profuse small flowers on lax growth makes excellent basket, pinch well for bush. Vigorous, prefers some shade, suits bedding. A real beauty, much underrated. Tube: White, pale green base. Sepals: White, pale pink veins, pale pink underside, pale green tip. Corolla: Rich lavender blue, pale pink base. Parentage: Hawkshead x Venus Victrix.

Flying Scotsman

1985 Goulding, Edwin, (UK) Double

H2 (Min 1 to 5°C)
NKvF 2281

Abundant, colourful, fairly large flowers, good basket or container. Tube: White, faint pink blush. Sepals: White, faint pink blush on top, white under, horizontal, fully recurved. Corolla: White at base then bold violet & white streaks, ¾ flared. Parentage: Coquet Dale x Snowfire.

Earl of Beaconsfield

1878 Laing, A.P., (UK) Single

H2 (Min 1 to 5°C)
NKvF 1527

Elegant, freely produces quite large flowers, but no seed. Tube: Medium long, salmon pink. Sepals: Salmon pink fading to pale green tip. Corolla: Salmon orange. Parentage: *F. fulgens* x Perfection (Banks).

Forget-Me-Not

1940 Niederholzer, (US) Single

H2 (Min 1 to 5°C)
NKvF 1264

Very beautiful, makes lovely weeping standard & a real blaze of colour wherever you put it. Tube: Palest rose, slim. Sepals: Light rose pink, horizontal, recurved when mature. Corolla: Opens dark lavender blue, fades lavender as it matures, ¼ flared when mature.

Elizabeth

1941 Whiteman, (UK) Single

H2 (Min 1 to 5°C)
NKvF 1548

Masses of elegant colourful flowers. Long, flexible growth. Difficult to train neatly, but lovely otherwise. Tube: Rose pink. Long, slender. Sepals: Rose, green tips. Corolla: Vibrant rose, salmon pink shading.

Formosissima

1846 Girling, P (UK) Single

H2 (Min 1 to 5°C)
NKvF 1268

Elegant slender flowers, vigorous, easy. Tube: Proportionately long, creamy white. Sepals: ½ down, creamy white, apple green tip. Corolla: Bold coral pink, violet overtones, paler at petal base.

Ffion

2003 Welch, (UK) Single

H2 (Min 1 to 5°C)
AFS 5156

Incredibly beautiful. Free-flowering, self branching, naturally bushy, prefers full sun, makes good basket or standard. Tube: White blushed very pale lavender, pale lavender stripes. Sepals: Pale lavender. Corolla: Purple, tinged red. Parentage: Atlantic Crossing x Bill Welch.

Gay Anne

1973 Gadsby, Cliff, (UK) Single/Semi Double

H2 (Min 1 to 5°C)
AFS 1221 NKvF 1758

Strong growing, self branching, very free flowering, superb garden or container plant, easy to train for standard, fan etc. Tube: Claret rose pink. Sepals: Crimson rose, held horizontal, some recurve. Corolla: Lavender pink, magenta petal edge, little or no flare. Parentage: Leonora x Joan Pacey.

Flying Cloud

1949 Reiter, (US) Double

H2 (Min 1 to 5°C)
AFS 27 NKvF 1262

Very freely produces quite large flowers, best colour in shade. Can be trained for baskets, may need support, flowers are heavy. Tube: White, green tinge, or in sun white, pink tinge. Sepals: White, fading to very pale pink, greenish white at tip. Corolla: White, pink blush at base, pink tinge in sun.

Gesäuseperle

1946 Nutzinger, Karl, (AT) Single

H2 (Min 1 to 5°C)
NKvF 2568

A classic, apparently very similar to Amelie Aubin. Tube: Slim, waxy white. Sepals: Quite narrow, creamy white, ½ down. Corolla: Purple, petals have smooth edges, but don't sit entirely flat, ¼ flared.

Semi Trailing A - J

Harriett

1971 Soo Yun Field, (US) Double

Vigorous, fairly free flowering. Easy, makes lovely hanging display. Tube: Short, white, pink tinge. Sepals: Broad, white, hint of pink, green tip, ½ up, slightly reflexed. Corolla: Opens lavender blue, matures lavender, ¾ to fully flared.

H2 (Min 1 to 5°C)
AFS 947 NKvF 1367

Herps Kipkar

2006 Waldenmaier, Henk, (NL) Single

Often described as an upright bush but Henk notes the 'horizontal branches' & so do we. Spreading, dramatic plant. Tube: Reddish purple. Sepals: Dark reddish purple, held slightly below horizontal, slightly recurved tip. Corolla: Purple maturing dark reddish purple. Parentage: Herps Parachute x Naaldwijk 800.

H2 (Min 1 to 5°C)
AFS 6579

Harry Lye

1988 Goulding, Edwin, (UK) Single

Strong growing, makes good standard, fan etc. Tube: White, pink blush. Sepals: Pale pink on top, darker pink under, green tip, ½ up, recurved. Corolla: Violet pink, paler & ¼ flared when mature. Parentage: Unknown.

H3 (Min 1 to -5°C)
NKvF 4151

Hidcote Beauty

1949 Webb, (UK) Single

A seedling raised in the famous garden, can make good basket with care, also makes a good standard. Provides delightful display however grown. Tube: Creamy white. Sepals: White, green tips, ½ down, slight reflex. Corolla: Pale salmon pink, ¼ flared when mature.

H2 (Min 1 to 5°C)
NKvF 1396

Hazel

1988 Richardson, (AU) Double

Flowers heavily, compact, short jointed, produces a dense mass of colour. Tube: White, pink candy stripes, shortish. Sepals: Baby pink, paler towards slightly recurved tip, horizontal. Corolla: Violet blue, baby pink splashes on outer petals, darker towards centre of bloom, fully flared. Parentage: Pink Marshmallow x Midnight Sun.

H2 (Min 1 to 5°C)
AFS 1804

Huet's Baraketh

2006 Braam, (NL) Single

Lovely, petals look as if made of velvet. Tube: Magenta, medium length & thickness. Sepals: Reddish purple, light yellowish green tip. Horizontal, fully recurved when mature. Corolla: Reddish purple maturing purple, ¼ flared. Parentage: Loxhore Mazurka x Hertogin Van Brabant.

H2 (Min 1 to 5°C)
AFS 6387

Henkelly's Chloris

1988 Spierings, (NL) Single

Upright, a few lax stems, can be trained for baskets if wished, makes perfectly good spreading bush. Tube: Rose pink. Sepals: Rose, olive green tip, magenta below, horizontal, recurved tips. Corolla: Purple maturing reddish purple. Parentage: (Drama Girl x Roesse Blacky) x Loxhore Mazurka.

H2 (Min 1 to 5°C)
AFS 6796 NKvF 4481

Ixion

1881 Aubin, RB, (DE) Single

Substantial flower, dramatic glowing shades. Tube: Square in cross section. Light red pink, faint stripes. Sepals: Light red pink upper, light red pink lower, fading to light yellowish green tips, ½ up, tips recurved. Corolla: ½ flared, somewhere between red pink and orange red, fading to light red pink. Petal base has translucent veins.

H2 (Min 1 to 5°C)
NKvF 4155

Henkelly's Vitalia

2012 Spierings, (NL) Semi Double

Free branching, free flowering, very appealing. Tube: Dark rose. Sepals: ½ up, tips recurved, upper surface dark rose, lower magenta. Corolla: Bell shaped, ¼ flared, wavy petal edges, opens reddish purple, matures magenta. Parentage: Henkelly's Syrelle x Hermen Jan Van de Vosse.

H2 (Min 1 to 5°C)
AFS 8224 NKvF 5008
NKvF R

JaDi Messingtetra

2007 Geenen, J, (NL) Single

Good stiff trailer, distinctive shapely blooms, easy & very rewarding. Tube: White, short. Sepals: White, green tips, rose blushes towards base, ½ up. Corolla: opens violet blue, matures purple, fully flared. Parentage: (Parasol x Cameron Ryle) x Delta's Bride.

H2 (Min 1 to 5°C)
AFS 6618

Semi Trailing A - J

James Bamber

2011 Reynolds, Eddie, (UK)

Single

Photographs can't do this justice, it's absolutely gorgeous, & easy to grow. Recommended. Tube: Apricot pink, shortish. Sepals: Fuchsia pink, white crazing, green tips, horizontal or slightly up, slightly recurved tip. Corolla: Pinkish aubergine, long, ¼ flared.

H2 (Min 1 to 5°C)

BFS 234

Lady Heytesbury

1866 Wheeler, S, (UK)

Single

Vigorous, bushy growth, more semi trailing than upright, may need support due to weight of blooms. Tube: Waxy white, slender, straight. Sepals: Waxy white, held horizontally, recurved. Corolla: Rose pink, lighter at base, deeper towards petal edges. ¼ to ½ flared.

H2 (Min 1 to 5°C)

NKvF 1514

Jasper Marnix

2008 de Boer, J, (NL)

Single

Small unusually shaped & coloured flowers, bushy semi-creeping habit, prefers full sun. Tube: Smoky red & green. Sepals: Smoky red fading to green at tip. Corolla: Dark smoky violet. Parentage: (F. perscandens x F. procumbens) x (Lechlade Chinaman x F. splendens).

H2 (Min 1 to 5°C)

AFS 6854 NKvF 4519

Lady Kathleen Spence

1972 Ryle, (UK)

Single

Versatile, free flowering & truly lovely, only cultivar ever awarded a BFS Gold Award of Merit. Tube: White, very slight pink blush. Sepals: White, hint of pink blush, green tips, horizontal, partial recurve. Corolla: Opens delicate lavender, lightens slightly when mature. ¼ flared, long petals. Parentage: Bobby Shaftoe x Schneewittchen.

H2 (Min 1 to 5°C)

AFS 1428 NKvF 1519

BFS Gold AM

Joanne

N/K N/K

Single

Easy to grow, lush & flamboyant. Can be used for baskets or containers. Tube: Rose-red, short. Sepals: Rose red, fully up, recurved to stem. Corolla: Purple mauve changing to carmine pink at base, carmine veining, fully flared.

H2 (Min 1 to 5°C)

Lady Patricia Mountbatten

1985 Clark, Dave, (UK)

Single

Flowers profusely, showy, sophisticated & superb. Versatile, can be trained into hanging baskets & larger standards. Tube: White, pale pink candy stripes, short. Sepals: White, pink tinge, darker at base. Held Horizontal, recurved tips. Corolla: As near blue as you could ask for. Parentage: Eden Lady x Lady Kathleen Spence.

H2 (Min 1 to 5°C)

NKvF 1522

Jungle

1992 Sint, (NL)

Single

Large bush, large soft leaves, clusters of medium sized flowers in terminal racemes. Tube: Long, orange to light red. Sepals: Orange fading to green tip, short, tapered. Corolla: Orange. Parentage: Space Shuttle x Rubra Grandiflora.

H1c (Min 5 to 10°C)

AFS 3278 NKvF 3292

VKC AM

Marble Crepe

2014 de Cooker, Mario, (NL)

Single

Gorgeous new hybrid from Mario. Upright, easy, prolific clusters of tubular flowers. Tube: Pale blush pink. Sepals: Short, pale pink, yellowish green tips, ½ down. Corolla: ¼ flared, baby pink, overall pink veining, deepens with age. Petals crumpled and textured. Parentage: Roger de Cooker x F. fulgens (tetraploid)

H2 (Min 1 to 5°C)

NKvF 7066

Katy Flynn - ↓ Semi Trailing K - Z ↓

2008 Galea, Tony, (UK)

Single

Subtly coloured, elegant & beautiful, up to 2ft (60cm) tall, suitable for exhibition. Tube: Creamy white, thin baby pink candy stripes. Sepals: Pink blushed white at base through white to pale green tips, ½ up, recurved. Corolla: White, faint pink veining, little or no flare. Parentage: Sport from Marilyn Olsen.

H2 (Min 1 to 5°C)

BFS 67

Mood Indigo

1988 de Graaf, Herman, (NL)

Double

Bold, colourful display, fabulous, may be harder than H2. Tube: Greenish white, orange-pink flushes. Sepals: Rose, through white to green tips. Held ½ up, slightly recurved tips. Corolla: Purple maturing red-purple, raspberry-pink splashed, ½ flared. Parentage: (F. lycioides x F. magellanica) x Florentina.

H2 (Min 1 to 5°C)

AFS 2367 NKvF 1953

Semi Trailing K - Z

Moyra

1990 Johns, Eric, (UK)

Double

H2 (Min 1 to 5°C)
AFS 2629

Fabulous, flamboyant, versatile, looks great in bedding or containers, makes a large hanging basket display. Flowers profusely. Tube: Very short, pale pink. Sepals: Baby pink fading lighter towards slightly recurved pale green tips. Corolla: Extravagantly wavy & flared, white petals, pink veining near base. Parentage: Joy Bielby x Nancy Lou.

Nordseebrandung

2006 Schütt, Hartwig, (DE)

Single

H2 (Min 1 to 5°C)
NKvF 4596

Exceptionally striking colours, difficult to ignore or describe & photograph adequately. Tube: Fluorescent bright white, slender. Sepals: White, pink flushes on top, more purple pink under, apple green tips, held horizontal, recurved. Corolla: Deep, iridescent violet red, between ¼ and ½ flared. Parentage: Shirley Halladay x unknown.

Mrs Marshall

1862 Jones, (UK)

Single

H2 (Min 1 to 5°C)
NKvF 1654
RHS AM

Can be trained into all shapes including standard, was known as Grand Duchess Marie & won an RHS Award of Merit in 1929. Generously produces medium flowers, early. Tube: Creamy white, slender, straight. Sepals: Clear creamy white, held horizontally, recurved. Corolla: Rosy cerise, paler at base. ¼ flared.

Orange Drops

1963 Martin, George, (US)

Single

H2 (Min 1 to 5°C)
AFS 572 NKvF 1736

Quality orange flowered beauty, great for weeping standards. Like most orange cultivars is prone to botrytis & colour fades in sun, give some shade to see it at its best. Tube: Pale orange. Sepals: Pale orange, held ¾ up when mature. Corolla: Orange, smoky edges on the petals. ¼ flared when mature.

Mrs W Rundle

1883 Rundle, (UK)

Single

H3 (Min 1 to -5°C)
NKvF 1657

Makes a lovely weeping standard. Old but very respected and capable fuchsia cultivar. Longer, thinner tube & sepals than Mr Rundle. Tube: White, pink blush. Longish. Sepals: Pale pink, faint palest green tips, held ¼ down. Corolla: Raspberry-orange, up to ¼ flared.

Pussycat

1978 Felix, (NL)

Single

H2 (Min 1 to 5°C)
NKvF 2029

Easy to grow, extremely colourful, unusual, appealing. Tube: Pale rose pink, orangey undertone, darker candy stripes. Sepals: Rose pink, orange tinge, dark rose edges, apple green tips, held almost horizontally, slightly reflexed. Corolla: Pink, very slight orange tint, spoon shaped petaloids, less than ¼ flared. Parentage: Leverkusen x Checkerboard.

Muriel

1930 Carbell, (UK)

Single

H2 (Min 1 to 5°C)
NKvF 1660

Big flowers, fast, vigorous growth, makes good weeping standard, pyramid etc. Can be trained up structures before being allowed to flower. Tube: Dark pink red. Sepals: Dark pink red, held up, twisted, tips recurved. Corolla: Pinkish purple, base is dark pink, & veined.

Raspberry Ripple

2008 Swaby, Alan, (UK)

Double

H2 (Min 1 to 5°C)
AFS 6828

Vigorous and free-flowering, fabulously coloured flowers, always attracts attention in containers or baskets. Tube: Red. Sepals: Red, held ½ up. Corolla: White, bold rose splashes from base. ¾ flared. Parentage: (Baby Bright x Zulu King) x Midnight Sun.

Naaldwijk 800

1997 Krom, (NL)

Single

H2 (Min 1 to 5°C)
NKvF 3862

Wonderful. Produces masses of gleaming dark flowers which look lovely against the unique foliage. Tube: Cerise pink. Sepals: Cerise pink to rose red at the tips. Corolla: Aubergine. Foliage: Silvery, metallic green, distinctive. Parentage: (Insa x unknown) x unknown.

Roesse Amold

2007 Roes, Carel, (NL)

Single

H2 (Min 1 to 5°C)
AFS 6673

Superb, makes a wonderful large hanging basket, very attractively shaped & coloured flowers. Tube: White, slender & wider at top & base, elegant. Sepals: White, held fully recurved back to tube. Corolla: Opens & matures rich reddish purple, darker edges, ¾ flared. Parentage: Roesse Lupus x (Luuk van Riet x Roesse Betelgeuze).

Semi Trailing K - Z

Rose of Denmark

1864 Banks, Edward, (UK)

Single

Makes a superb basket display due to the weight of bloom. Excellent, versatile, strong bushy growth, better in its 2nd year. Tube: White, slender with a waist. Sepals: White on top, white with pink blush under. Held $\frac{3}{4}$ up, slightly reflexed. Corolla: Purple-rose, pink veining, more pink at base. $\frac{1}{2}$ flared.

H2 (Min 1 to 5°C)

AFS 1725

Tanya Bridger

1958 Bridger, (UK)

Semi Double

Bushy, free flowering, ideal for baskets or containers, very colourful. Tube: Rose, darker stripes. Sepals: White, hint of rose, held $\frac{1}{2}$ down, slight recurve. Corolla: Electric indigo, $\frac{1}{2}$ flared.

H2 (Min 1 to 5°C)

NKvF 2122

Ruth King

1967 Tired, (US)

Double

Abundant compact medium to large double flowers. Would make a spectacular weeping standard. Tube: Pink, short. Sepals: Pink through white to green tips, held horizontal with slight recurve. Corolla: Lilac & white, compact, $\frac{1}{2}$ flared.

H2 (Min 1 to 5°C)

AFS 736

Twist and Shout

N/K N/K

Single

Pretty, fairly large pastel flowers, distinctive. Tube: Pale pink, darker pink stripes. Sepals: Long, slim, $\frac{1}{2}$ down or horizontal, tips strongly recurved, & twisted both clockwise & widdershins. Corolla: $\frac{1}{4}$ flared, soft lavender petals, may be gently ruffled. Pink patch at base, some pink veining.

H2 (Min 1 to 5°C)

Sunset

1948 Niederholzer, (US)

Single

Compact, low growing, freely flowering, great for mini or $\frac{1}{4}$ standards. Tube: Waxy white. Sepals: Pale pink on top, slightly darker under, pale green tips, held horizontal, slightly recurved. Corolla: Bright glowing coral pink, $\frac{1}{4}$ to $\frac{1}{2}$ flared. Parentage: Rolla x Aurora Superba.

H2 (Min 1 to 5°C)

NKvF 2106

WALZ Bruintje

1985 Waldenmaier, Henk, (NL)

Single

Easy, vigorous, bunches of brightly coloured blooms, ideal for containers or borders. Susceptible to botrytis, but overwinters well. Tube: Reddish pink. Sepals: Bright reddish pink on top, bright baby pink under. Corolla: Pale ruby red, bolder veins, slightly ruffled edges, $\frac{1}{4}$ flared. Parentage: Achievement x Achievement.

H2 (Min 1 to 5°C)

AFS 1898 NKvF 2182

Certificate of Honor, DCI

Swanley Pendula

1875 Lye, James, (UK)

Single

Very beautiful, easy, makes a lovely large hanging basket or low spreading bush. Tube: Long and slender, pales to orange-pink. Sepals: Fairly short and narrow, held horizontally when mature, palest orange-pink. Corolla: $\frac{1}{4}$ flared, rich orange, vermilion tones, darker petal edges.

H2 (Min 1 to 5°C)

WALZ Mandoline

1988 Waldenmaier, Henk, (NL)

Double

Excellent, versatile, massed vivid blooms, easy, makes good basket, lax bedding or container plant, also standards, fans etc. Tube: Light orange. Sepals: Reddish orange on top, orange under, slightly below horizontal, reflexed tip. Corolla: Deep orange, $\frac{1}{4}$ to $\frac{1}{2}$ flared, inner petals larger than outer. Parentage: (F. magdalenae x Rubra Grandiflora) x Bicentennial.

H2 (Min 1 to 5°C)

AFS 2524 NKvF 2360

NKvF AM

Sylvia Barker

1973 Barker, (UK)

Single

Hugely successful exhibition cultivar, flowers very freely, vigorous grower, a useful fuchsia for training or standards, can produce large weeping heads. Tube: Creamy white. Sepals: Creamy white, pale green tips, held $\frac{1}{2}$ down, recurved. Corolla: Smoky scarlet.

H2 (Min 1 to 5°C)

AFS 1077

Waveney Sunrise

1986 Burns, D, (UK)

Single

Masses of medium flowers, a real beauty, needs some shade as it burns in full sun. Tube: Medium, pale pink, orange tinge. Sepals: Pink fading through white to green. Corolla: Bright red. Foliage: Striking yellow foliage with red veining on young growth.

H2 (Min 1 to 5°C)

NKvF 2989

Semi Trailing K - Z

Wentworth

1986 Goulding, (UK)

Single

Freely bears large bunches of tubular blooms. Named after famous British golf course. Tube: Orange to pale orange, slender. Sepals: Orange at base fading through rose pink to white, apple green tip, ½ down, slight reflex.

H2 (Min 1 to 5°C)
NKvF 3000

Amazing Maisie

2001 Allsop, (UK)

Semi Double

Abundant flowers, an excellent basket or container variety. Tube: Pale baby pink, slender. Sepals: Pale baby pink, green tips, held fully up, recurved. Corolla: Smoky orange, smoky purple & orange-pink splashes. Parentage: Coachman x Marcus Graham.

H2 (Min 1 to 5°C)
AFS 4632 NKvF 5041

White Spider

1951 Haag, (US)

Single

Early & vigorous. very free-flowering, strong horizontal growth, makes good standard. Tube: Pale pink, longish, slender. Sepals: Very pale pink, green tip, long, horizontal, recurved, wildly curly. Corolla: White, pink veining, long petals, up to ¼ flared.

H2 (Min 1 to 5°C)
NKvF 3000

Auntie Jinks

1970 Wilson, (UK)

Single

Masses of gorgeous blooms. Popular basket & exhibition fuchsia with enduring appeal & exceptional beauty. Tube: Pinkred. Sepals: White, scarlet edging. Corolla: Violet, white blush. Parentage: Checkerboard x Checkerboard.

H2 (Min 1 to 5°C)
NKvF 1019
RHS AGM

Wilson's Sugar Pink

1979 Wilson, (UK)

Single

Suitable for hanging baskets, beds, borders or containers, a pleasure to grow. Stems tend to be stiffer in full sun, giving more of a bush habit. Tube: White, pink shading. Sepals: Palest pink on top, slightly darker pink under. Corolla: Mallow pink. Parentage: Mrs Marshall x Mrs Marshall.

H2 (Min 1 to 5°C)

VKC AM

Autumnale

1880 Courcelles, (FR)

Single

Mainly grown for its outstanding colourful foliage, pinch out regularly. Best colour in younger growth. Tube: Scarlet. Sepals: Scarlet-rose, held ½ down. Corolla: Purple, little or no flare. Foliage: Green, yellow, dark red, salmon etc.

H2 (Min 1 to 5°C)
NKvF 1101
RHS AGM

Zus Liebrechts

2006 Buiting, Henry, (NL)

Double

Attractive & stylish double. Large blooms in abundance. Suits baskets but better for containers, bedding or borders. Tube: Fairly long, pink fading to green. Sepals: Pink fading to green. Corolla: Violet, blue-violet edges. Parentage: Bicentennial x Sofie Michiels.

H2 (Min 1 to 5°C)
AFS 6106

Belinda Jane

1994 Fisher, (UK)

Single

Naturally cascading & vigorous, long, arching, heavily flowered stems, medium blooms. Tube: Waxy white, slender. Sepals: Waxy white, green tips, held ½ down, small recurve at tips. Corolla: Pink-salmon-orange, ½ flared when mature.

H2 (Min 1 to 5°C)

Alton Water - ↓ Trailing A - J ↓

1992 Ransby, (UK)

Single/Semi Double

Very attractive foliage, easy, charming fuchsia, ideal for baskets and window boxes. Tube: Pale pink. Sepals: Pale pink. Corolla: Mauve. Foliage: Variegated green & lemon. Parentage: Sport of Thames Valley.

H2 (Min 1 to 5°C)
NKvF 4046

Big Slim

1994 Sloots, (NL)

Single

Growth is slender, brittle, requires careful pinching out, some support for the longer stems can help. Not easy to shape but gives a superb display anyway. Tube: Very long, thin, pale pinky tangerine. Sepals: Slim sepals, white to pink to green tips. Corolla: Darker orangey pink. Parentage: Walz Harp x Lye's Unique.

H1c (Min 5 to 10°C)
AFS 3615 NKvF 3112

Trailing A - J

Blauer Engel

1995 Dietrich, Waltraud, (DE)

Double

Makes amazing hanging basket displays with its numerous large flowers. Also incorrectly referred to as Blue Angel. Tube: White, pale green stripe. Sepals: White. Corolla: Blue, dark wisteria shade. Parentage: La Campanella x unknown.

H2 (Min 1 to 5°C)
NKvF 5022

DebRon's Tonii Nicole

2009 Monnier, Debbie & Ron, (US)

Double

Natural trailer, self-branching, prolific, lovely. Tube: Yellowish white. Sepals: White, tipped apple green upper, pink under, eventually fully up, tips recurved. Corolla: ½ flared, light violet splashed pink. Parentage: Celebration x Drama Girl.

H2 (Min 1 to 5°C)
AFS 6928

Blowick

1984 Porter, Alan, (UK)

Single

Unusual stiff, mounded, bushy growth, great for weeping standards, half standards, baskets & tall containers. Tube: Pale fuchsia pink, slightly darker stripes, short. Sepals: Fuchsia pink, held horizontal, slight recurve at tips. Corolla: Opens mallow-purple, matures plum. ½ flared. Parentage: Cloverdale Pearl x unknown.

H2 (Min 1 to 5°C)
NKvF 1069

Delta's Fellow

1991 Vreek-van't Westeinde, (NL)

Single

Self branching, very free flowering, naturally trailing, useful for all types of hanging displays. Flowers over a long period. This is a very poor photo. Tube: Soft pale rose. Sepals: White, green tips. , reflexed. Corolla: Soft lilac. Parentage: Longfellow x Iceberg.

H2 (Min 1 to 5°C)
AFS 2793 NKvF 2268

Blue Veil

1980 Pacey, Robert, (UK)

Double

Vigorous, naturally trailing, prolific, easily produces a spectacular hanging basket display. Tube: White, pink candy stripes, short. Sepals: White, held horizontal, varying recurve. Corolla: Pale blue, slight violet overtone, fully flared. Holds colour as flowers mature.

H2 (Min 1 to 5°C)
NKvF 1203

Emily

2001 Gotz, Wolfram, (DE)

Single

Freely produces small to medium sized very pretty flowers. Very good for producing a rounded display in a hanging basket. Tube: Short, white blushed slightly pink. Sepals: White slightly blushed pink, green tips. Boldly recurved. Corolla: Lilac.

H2 (Min 1 to 5°C)

Daisy Bell

1977 Miesecke, Carl, (US)

Single

Gorgeous orangey flowers, deepening in sun. Like Blowick, mounded, bushy, trailing habit. Tube: Pale rose pink, orange tinge. Sepals: Pale orange-pink fading to green tips, held ¼ down, slightly reflexed. Corolla: Vermilion, orangey near base. ¼ flared. Foliage: Notable pale green.

H2 (Min 1 to 5°C)
AFS 1140 NKvF 1452

Fiona

1958 Clark, (UK)

Single

Vigorous, strong, spreading growth, abundant flowers, underrated. Tube: White. Sepals: White, green tips, held partly up in a random fashion. Corolla: Pale lavender, white at base of the petals. ½ flared.

H2 (Min 1 to 5°C)
NKvF 1232

Dark Mystery

1967 Spierings, Henk, (NL)

Single

Naturally trailing, deep, dark, very good for all types of hanging displays. Sometimes sold as Dark Mistery. Tube: White. Sepals: Rose aubergine. Slightly swept back from corolla, recurved tips. Corolla: Aubergine.

H2 (Min 1 to 5°C)

Flair

1961 Tiret, (US)

Single

Vigorous fuchsia, large flowers, generously produced. Tube: Pale pink, fairly short, slender. Sepals: Pale rose through pale pink to green tips, held fully up. Corolla: Lavender blue, paler towards base.

H2 (Min 1 to 5°C)

Double

Free-flowering, naturally trailing, ideal for hanging baskets. Tube: Porcelain-white, occasional faint rose blush. Sepals: Pale pink, apple green tips, held horizontal or slightly up, recurved tips. Corolla: Pale lilac-pink, deepening rose-pink towards edges, darker picotee edge, ½ flared. Parentage: Pink Panther x Pink Marshmallow.

H2 (Min 1 to 5°C)
AFS 2625 NKvF 2658

Land van Beveren

1990 Sainenoy, (BE)

Single

Easy, naturally trailing, flowers generously, very pleasing to the eye. Tube: Waxy white, slender. Sepals: Waxy white, held horizontal, slight recurve. Corolla: Carmine pink, small white flashes from base of petals, ¼ flared. Parentage: La Campanella x unknown.

H2 (Min 1 to 5°C)
AFS 2614 NKvF 2668

Lisi

1985 Strümper, Karl, (DE)

Single

Compact, short-jointed, free flowering, naturally trailing, ideal for hanging baskets & mini standards. Tube: White. Sepals: White, pale rose pink blush on outer half, held ½ down, slight recurve. Corolla: Violet, pinker & paler towards middle base of petals, darker towards the edges. ¼ to ½ flared.

H2 (Min 1 to 5°C)
NKvF 2290

Long Fellow

1960 Lockerbie, Ron, (AU)

Single

Truly beautiful, slender, elegant, numerous elongated eye-catching flowers. Tube: White, occasional very slight pink blush, long, slender, tapers. Sepals: White, rose-violet blush at base, darker under, held horizontal, fully recurved. Corolla: Violet, red overtones, pale rose pink near base, long, slender, no flare.

H2 (Min 1 to 5°C)
NKvF 1571

Moonglow

1991 Riley, Robert, (US)

Double

Naturally trailing, masses of large flowers, easy, fabulous in baskets. Tube: White, maybe very faint peachy-pink tinge. Sepals: White, peachy-pink tinge, held ½ down, partial recurve, sometimes gentle twists. Corolla: White, ¾ flared. Parentage: Pink Marshmallow x Drama Girl.

H2 (Min 1 to 5°C)
AFS 2744 NKvF 4212

My Honey

1976 Palko, (US)

Single

Naturally trailing, flowers heavily, superb display. Tube: White, pink flush. Sepals: White, pink flush on top, more pink under, pale green tips, held horizontal, slight reflex. Corolla: Light purple mauve, darker picotee edges, carmine pink base. ¼ flared.

H2 (Min 1 to 5°C)
AFS 1351 NKvF 1680

Trailing K - Z

Olympic Lass

1967 Sutherland, (US)

Double

Floriferous, naturally trailing, vigorous, an excellent choice for hanging displays. Tube: Rose pink & white. Sepals: Rose red at base then white, green tips, recurved. Corolla: Purple, pink bias & darker purple edging. Parentage: Thunderbird x Sutherland.

H2 (Min 1 to 5°C)
AFS 745 NKvF 3580

Orange Blossom

1987 Meier, M, (UK)

Single

Swathes of brightly coloured flowers, excellent choice for hanging baskets. Tube: White, orange-rose blush. Sepals: White, orange-rose blush, apple green tips, held horizontal or slightly up, slight reflex at tips. Corolla: Bright orange easing to red near petal edges.

H2 (Min 1 to 5°C)
NKvF 4224 ?

Paul und Carola

2007 Michiels, Marcel, (BE)

Double

Vigorous, naturally trailing, medium flowers, superb for baskets. Tube: Rose pink, yellow-green candy stripes, tapering. Sepals: Rose pink, apple green tips, held slightly up, slight reflex at tips. Corolla: Violet maturing light purple, rose base & veins, ½ flared. Parentage: Jef Vander Kuylen x Hilda.

H2 (Min 1 to 5°C)
AFS 6332

Pink Rain

1976 de Graaf, Herman, (NL)

Single

Wonderful cultivar, abundant blooms, slightly stiff, gives a wide display. Good for training shapes & bonsai. Tube: Pale pink, lilac overtone. Sepals: Pale pink, lilac hint, fading through white to green tips. Corolla: Light mallow purple, rose pink veins. ¼ flared. Parentage : (F.lycioides x F.magellanica) x (Dorothea Flower x Golden Glow).

H2 (Min 1 to 5°C)
AFS 2055 NKvF 2786
NKvF AM

Popsie Girl

1990 Dowell, (UK)

Single

Very pretty fuchsia whose flowers look wonderful against the foliage. Tube: Pale pink with slightly bolder pink striping. Sepals: Pale pink, orangey tinge. Held slightly down. Corolla: Orange, pink bias. Foliage: Silvery green & pink, cream edge variegation.

H2 (Min 1 to 5°C)
NKvF 4240

President Margaret Slater

1972 Taylor, Arthur, (UK)

Single

Named after a former BFS president, naturally trailing, cascades of flowers, tolerates heat & produces its best flower colour in a sunny position. Tube: White, slender. Sepals: White, very pale rose pink blush, apple green tips, held between ¼ & ½ up, reflexed. Corolla: Mauve, salmon pink flushes, ¼ flared. Parentage: Cascade x Taffy.

H2 (Min 1 to 5°C)
AFS 1119 NKvF 1889

Princessita

1940 Niederholzer, (US)

Single

Excellent for hanging baskets. Used to be successful exhibition cultivar. Tube: White, faint green tinge & stripes. Sepals: White on top, slight pink blush under, long, narrow, recurved. Corolla: Deep rose pink, purple bias. Parentage: Fandango x Mrs W Rundle.

H2 (Min 1 to 5°C)
NKvF 1733

Put's Folly

1971 Baker, (UK)

Single

Naturally trailing fuchsia ideal for hanging baskets, grows vigorously, easy, gives a wonderful show. Tube: Pale pink, elongated, slender. Sepals: Creamy white above, pale pink blush under. Held horizontal, slight reflex. Corolla: Lilac-pink, paler pink at the base.

H2 (Min 1 to 5°C)
NKvF 2027

Ratatouille

1988 de Graaf, Herman, (NL)

Double

A striking double flowered fuchsia of unusual colour markings, superb in containers. Tube: White. Sepals: White, green tips, held up, recurved, curly. Corolla: Purple, white splashes, fully flared. Parentage: [(F.lycioides x F.magellanica) x F.excorticata] x Seventh Heaven.

H2 (Min 1 to 5°C)
AFS 2519 NKvF 2352

Red Spider

1946 Reiter, (US)

Single

Superb in baskets & containers, needs pinching out in early stages but produces beautiful long, heavily flowered, arching stems. Tube: Crimson, slender, longish. Sepals: Crimson, held horizontally & very curvy & twisty. Corolla: Rose-violet, fairly long, little flare.

H2 (Min 1 to 5°C)
NKvF 2337

Trailing K - Z

Remembering Claire

2008 de Cooker, Mario, (NL)

Single

H2 (Min 1 to 5°C)
AFS 7025 NKvF 4710

Naturally trailing, long, single flowers. Named after a little pig of Mario's. Tube: Pale purple, long, slender - bolder purple grown in full sun. Sepals: Pale purple, held ¼ down, slight recurve. Corolla: Deep purple, ¼ flared. Parentage: {(F. juntasensis x F. inflata) x F. magdalenae} x {(Checkerboard x Machu Picchu) x (Checkerboard x Machu Picchu)} x Wilsons Pearls.

Rosemary Higham

1971 Barnes, (UK)

Single

H2 (Min 1 to 5°C)

Striking variegated foliage, medium sized abundant flowers, naturally trailing habit, one of the best basket varieties. Tube: Longish, pink. Sepals: Pink, bolder pink line down middle. Corolla: Rose pink. Foliage: Variegated silver green, pale green & cream.

René-Madeleine

1999 Ector, (BE)

Single

H2 (Min 1 to 5°C)
AFS 4184
NKvF AM

Incredibly pretty, flouncy & eye-catching. Vigorous, great for baskets. Tube: White, peach overtones. Sepals: White or candy pink, white central stripe, horizontal, recurved, twisted. Corolla: Pale purple, pink base, rose veins. Parentage: Blue Lake x unknown.

Sensation

1962 Munkner, William, (US)

Single

H2 (Min 1 to 5°C)
AFS 545 NKvF 2062

Fairly vigorous, suitable for large & small baskets & containers. Feed well for swathes of flower. Tube: Creamy white. Sepals: Creamy white, held ½ up, recurved. Corolla: Rich violet shaded pink, more so towards petal base. Pink veins, creamy-pink splashes.

Roesse Duck

2006 Roes, (NL)

Single

H2 (Min 1 to 5°C)
AFS 6156

Petite & perky, lovely colours, fabulous for container & half baskets. Tube: Rose, tapered. Sepals: Rose, slightly darker underside, fully recurved. Corolla: Purple maturing to reddish purple, ¼ flared. Parentage: Rosea x Luuk van Riet.

Strawberry Daiquiri

2004 Four Oaks, (UK)

Single

H2 (Min 1 to 5°C)

Abundant, continuous flowering, superb baskets. Tube: Pale pink, short. Sepals: Pink, slightly darker under, held horizontal, slight recurve. Corolla: Deep rose red, ¼ flared when mature.

Roesse Meton

2007 Roes, (NL)

Single

H2 (Min 1 to 5°C)
AFS 6672

Lots of distinctively shaped, appealing flowers. Splendid basket cultivar. Tube: Pale violet, long, slender & tapering. Sepals: Pale pink, green tips, held horizontal, recurved. Corolla: Violet-blue matures violet, ½ flared. Parentage: Roesse Duck x Sofie Michiels.

Temptation

1959 Peterson, (US)

Single

H2 (Min 1 to 5°C)
AFS 376 NKvF 2124

Bushy & floriferous, bright, fresh looking flowers. These photos are of a flower well past its best. Tube: White, pink blush. Sepals: White, pink blush, held horizontal, slight recurve. Corolla: Red with orange cast, ¼ flared.

Rolt's Ruby

1994 Rolt, Gwen, (UK)

Single

H2 (Min 1 to 5°C)
AFS 3571

Flamboyant, boldly coloured, non-flaring fully double. Flowers fairly freely, makes terrific basket. Tube: Dark reddish purple. Sepals: Dark reddish purple, held horizontal, recurved. Corolla: Extremely dark purple maturing slightly lighter, no flare, three tiers. Parentage: Ratatouille x Dr. Foster.

Trailing King

1936 Brown, (US)

Single

H2 (Min 1 to 5°C)
NKvF 2157

Naturally trailing, abundant smallish flowers in swathes, very pleasing. Tube: Short, white. Sepals: White, greenish tips. Held horizontal, outer half reflexed. Corolla: Pink orange.

Trailing K - Z

Vincent van Gogh

1984 van der Post, (NL) Single

Reliable & easy, flowers its socks off all summer. Largely self dead-heading, gorgeous. Tube: Pink, darker at stem end, long, slender. Sepals: Pink, green tips, held ½ down. Corolla: Pink, up to ½ flared. Parentage: *F. speciosa* x *Rubra Grandiflora*.

H1c (Min 5 to 10°C)
AFS 7993 NKvF 2948

WALZ Blauwkous

1989 Waldenmaier, Henk, (NL) Double

Natural trailer, striking colours, easy, needs to go into winter growing well. Discolours in full sun, best in light shade. Tube: Bright pale pink. Sepals: Broad, held ½ up, bright light pink upper, rose under, recurved tips. Corolla: Rich purple-blue, darker edges. ¾ flared. Parentage: *Suzanna* x unknown.

H2 (Min 1 to 5°C)
AFS 2709 NKvF 2190

WALZ Freule

1985 Waldenmaier, Henk, (NL) Single

Distinguished by profuse flowering & rich opening colour. Makes a very good basket. Tube: White, pink candy stripes, slim, tapering. Sepals: Pale rose pink through white to green. Corolla: Rich magenta shading to rose at petal base, matures paler, ½ flared. Parentage: *Amelie Aubin* x unknown.

H2 (Min 1 to 5°C)
AFS 1902 NKvF 2970

WALZ Harp

1990 Waldenmaier, Henk, (NL) Single

Long, bright, large flowers, naturally trailing, superb for baskets. Tube: Salmon rose, long, slender, tapered. Sepals: Salmon rose fading to orange, horizontal, reflexed. Corolla: Orange at the base blending to bold dark red. ¼ Flared. Parentage: (*F. magdalenae* x *Rubra Grandiflora*) x Bicentennial.

H2 (Min 1 to 5°C)
AFS 2523 NKvF 2354
VKC AM

WALZ Hoorn

1985 Waldenmaier, Henk, (NL) Single

Natural trailer, bunches of slender, tubular flowers. Tube: Bright cardinal red, long, slender with a hip at the sepal end. Sepals: Bold cardinal red, pale pink tips, ½ down, slight tip reflex. Corolla: Magenta, ¼ flared. Parentage: [*F. magdalenae* x (Forgotten Dreams x unknown)] x *Whiteknights Pearl*.

H2 (Min 1 to 5°C)
AFS 2065 NKvF 2357
Certificate of Honor, DCI

WALZ Parasol

1984 Waldenmaier, Henk, (NL) Single

Dense masses of flower, prefers full sun, needs bright conditions, fairly stiff growth, good for large baskets. Tube: Creamy pink, candy stripes. Sepals: Neyron rose on top, darker under, very pale green tips, half down, recurved. Corolla: Bright vermilion maturing azalea pink, just over ½ flared. Parentage: *Walz Floreat* x *Golden Glow*.

H2 (Min 1 to 5°C)
AFS 1905 NKvF 2978
Certificate of Honor, DCI

Wattenpost

2002 Schütt, Hartwig, (DE) Single

Quite large, vigorous, prolific, easy, rewarding & recommended. Tube: White, rose pink streaks, curvy. Sepals: White, rose blush on top, white under, horizontal, fully recurved. Corolla: Coral-orange, ¼ flared, lower half of petals curve out. Parentage: *Pepeline* x *Delta's Dream*.

H2 (Min 1 to 5°C)
AFS 8402 NKvF 4697

Windhapper

1991 Moerman, A, (NL) Single

Beautiful large flowers, elegant, graceful, very easy, fabulous baskets. Tube: White, short. Sepals: White on top, pale rose pink under, very long, held just below horizontal, slight recurve. Corolla: Violet, shading rose pink in centre base of petals, no flare, long, straight. Parentage: (*La Campanella* x unknown) x unknown.

H2 (Min 1 to 5°C)
NKvF 3471

Zeeuwse Parel

1992 Herwijnen, van, (NL) Single

Exceptionally beautiful, long sepals, elegant. Makes eye-catching basket. Tube: Rose, slender. Sepals: Rose, touch of violet, held slightly down, recurved. Corolla: Indigo-violet, shading to rose at the base of the petals, little or no flare, quite long. Parentage: *Leverkusen* x *Stanley Cash*.

H2 (Min 1 to 5°C)
NKvF 3014

Zellertal

1989 Gotz, Paul, (DE) Single

Slender beauty, flowers very freely, superb for hanging containers. Tube: Creamy white, long, slender, straight. Sepals: White, rose pink tinge, tiny apple green tips. Held slightly below horizontal. Corolla: Bright coral pink, occasional pale pink splashes, about ¼ flared, attractively crinkled petal edges.

H2 (Min 1 to 5°C)
NKvF 3015

Trailing K - Z

Zulu King

1990 de Graaf, Herman, (NL)

Single

Naturally trailing, flower colours stay the same from opening to maturity. Tube: Deep carmine red. Sepals: Deep carmine, held horizontal, slight recurve. Corolla: Intense deep dark aubergine. Parentage: Zulu Queen x Zulu Queen.

<p>F. thymifolia</p> <p>1823 Humboldt, Bonpland, Kunth Single</p>  <p>Very prolific flowering encliandra fuchsia, the resulting berries are also attractive. Small leaves. Tube: Fuchsia pink. Sepals: Fuchsia pink. Corolla: Fuchsia pink.</p> <p>H2 (Min 1 to 5°C)</p>	<p>Gris</p> <p>N/K N/K Single</p>  <p>A bit of a mystery - we can't find anything out about it. Has silvery grey leaves on reddish stems, and fairly lax growth. Attractive and unusul. Tube: Slim, rich pink. Sepals: Rich pink, horizontal, recurved. Corolla: Rich pink. Foliage: Small, metallic silvery grey leaves.</p> <p>H2 (Min 1 to 5°C)</p>

Encliandra

Jan van Erp

1998 Keijzer, A. G. (NL)

Single

Charming little flower, growth smaller, more open than a typical encliandra. Large berries. Tube: Medium, deep pink. Sepals: Deep pink, held ½ down. Corolla: Slightly paler pink, ¾ flared. Parentage: *F. cylindracea* x *F. encliandra* var. *Tetradactyla*.

H2 (Min 1 to 5°C)
NKvF 3797

Laura Cross

1999 Strickland-Evans, (UK)

Single

Liberally produces miniature brightly coloured flowers, one of our favourites. Tube: Short, bright pink. Sepals: Bright pink. Corolla: Orange pink.

H3 (Min 1 to -5°C)

Jimmy Cricket

1998 Strickland, Trevor, (UK)

Single

Produces lots of cute flowers & is quite vigorous, producing long stems laden with scented flowers. Tube: Pink. Sepals: Pink & white. Corolla: Coral pink.

H1c (Min 5 to 10°C)
NKvF 3797

Little Jessica

2015 Garcia, Sid, (UK)

Single

A compact encliandra, abundant pretty white flowers which develop reddish purple blushes as they mature. Tube: White. Sepals: White, purplish red blushes when mature, held slightly up from horizontal. Corolla: White, faint reddish purple blushes & ¾ flared when mature. Parentage: Gina Bowman x unknown.

H2 (Min 1 to 5°C)

Just Pink

1997 Strickland, Trevor, (UK)

Single

Naturally bushy growth, petite pale pink flowers, flowers well, makes good bonsai. Tube: Ruby & pink. Sepals: Pale pink. Corolla: Pale pink.

H1c (Min 5 to 10°C)

Marlies de Keijzer

1999 de Keijzer, AG, (NL)

Single

Abundant scarlet pink & peachy pink flowers, easy. Tube: Proportionately long, pale pink. Sepals: Pale pink at tube end becoming scarlet pink at tip, held horizontal, recurved. Corolla: Peach pink, ¾ flared, slightly recurved petals. Parentage: *F. encliandra* x *F. thymifolia* ssp. *thymifolia*.

H2 (Min 1 to 5°C)
NKvF 3845

Katinka

1989 Goedman, (NL)

Single

Slightly larger flowers than most of the encliandra types. Tube: Fuchsia pink & scarlet. Sepals: Scarlet, orange overtones. Corolla: Red, orange overtones. Parentage: *F. ravenii* x *F. microphylla* ssp. *Microphylla*.

H1c (Min 5 to 10°C)
NKvF 3045

Mendocino Mini

1975 Francesca, Stasko, (US)

Single

A cutie, quite lax bush. Tiny, very pretty flowers, easy, would make good bonsai. Tube: White, proportionately long. Sepals: Open white, quickly change to rose pink, held fully up, recurved. Corolla: Rose pink, ¾ flared. Parentage: *F. fulgens* x *F. x bacillaris*.

H2 (Min 1 to 5°C)
AFS 1290 NKvF 6178

Kirsten de Keijzer

NK de Keijzer, (NL)

Single

Flowers with distinct orangey centre & pink, lobed stigma. Tube: Medium length, slightly bulbous, rich pink. Sepals: Rich pink upper, ditto below, greenish yellow patch in the middle, ½ down. Corolla: Rich pink overlaid with deep orange, fully flared.

H1c (Min 5 to 10°C)
NKvF 6010

Mrs Lee Belton

2007 Morrison, Jill, (UK)

Single

Fairly vigorous, pinkish orangey self coloured flowers, lobed pink stigma. Tube: Medium length, pinkish orange. Sepals: Pinkish orange, horizontal, tips slightly reflexed. Corolla: Fully flared, pinkish orange.

H2 (Min 1 to 5°C)

Encliandra

Neopolitan

1984 Clark, Dave, (UK)

Single

An unusual one - scented - & carries white, pink & red flowers at the same time. Deservedly popular. Tube: White, aging through pink to red. Sepals: Ditto. Corolla: Ditto.

H3 (Min 1 to -5°C)

Oulton Tu-Fu

1998 Payne, (UK)

Single

Extraordinarily pretty, liberally produces tiny but lovely flowers. Tube: Fresh pink. Sepals: Pink, short. Corolla: Pink.

H1c (Min 5 to 10°C)

Obcylin

1997 Beije, Martin

Single

First rate, easy & vigorous. Often more than one flower per node, flowers larger than typical. Tube: Short, light orangey pink. Sepals: Held slightly up, light orangey pink. Corolla: Fully flared, orange. Parentage: *F. obconica* x *F. cylindracea*.

H2 (Min 1 to 5°C)

NKvF 3867

Radings Michelle

1986 Reiman, Dr. Drude, (NL)

Single

A vigorous encliandra type fuchsia producing long wiry stems bearing many tiny but cute flowers. Tube: Magenta-rose. Sepals: Magenta-rose, darker at tips. Corolla: Light rose-magenta.

H3 (Min 1 to -5°C)

AFS 1936 NKvF 1689

O'Carol

2005 Strickland, Trevor, (UK)

Single

Upright open growth, abundant perfect miniature flowers that stand out amongst other encliandras. Tube: Short, white, pink blush, matures darker. Sepals: Creamy pink, green tinge, fully up, matures darker. Corolla: Warm rosy pink, white blush, broad petals that flare back.

H3 (Min 1 to -5°C)

Shawna Ree

1985 Pike, (US)

Single

Exceptionally pretty, slightly lax habit, easy to grow & train. Tube: White. Sepals: Pale red-violet, matures darker. Corolla: Palest violet-pink. Parentage: Mendocino Mini x unknown.

H3 (Min 1 to -5°C)

AFS 1838

Orange Star

2002 Robson, J & L., (UK)

Single

Tiny spiky little dark pinkish orange flowers that stick out in all directions on an open, upright bush. Tube: Dark pinkish orange, slender, long. Sepals: Quite long & thin, held 1/2 up, dark pinkish orange. Corolla: Dark orange, 3/4 flared.

H2 (Min 1 to 5°C)

Siberoet

2000 de Boer, J., (NL)

Single

A super hybrid with flowers like an encliandra, but larger, very appealing. Tube: Pale pink. Sepals: Pale pink, 1/2 down, tips reflexed. Corolla: Opens white, matures pale pink, 1/2 flared, bell shaped. Parentage: *F. apetala* x *F. obconica*.

H2 (Min 1 to 5°C)

AFS 4716 NKvF 3929

Botanical Award, Aalsmeer, 2000

Oulton Hoya

2008 Payne, (UK)

Single

Self branching, with little pinching produces a dense bushy plant. Great for shapes and bonsai. Tube: Pale rose. Sepals: Pale rose, darker tips. Corolla: White with pink tinge.

H1c (Min 5 to 10°C)

Silver Lining

N/K N/K

Single

A lovely encliandra type, great foliage, vigorous spreading plant. Tube: Dark pink. Sepals: Dark pink, long, slender, held 3/4 up, recurved. Corolla: Bright pink, 3/4 flared. Foliage: Pale metallic silvery grey, deep red stems.

H2 (Min 1 to 5°C)

Encliandra

Snowflake

1998 Strickland, Trevor, (UK) Single

H1c (Min 5 to 10°C)

Naturally self branching & bushy, lots of cute flowers, recommended for exhibition. Tube: White, quite long, slim. Sepals: White with green tips that lighten with age, ½ down. Corolla: White, ¾ flared.

Toosje Vantveer

2012 Smits, A, (NL) Single

H2 (Min 1 to 5°C)
AFS 8217 NKvF 5005
NKvF R

An unusual hybrid with tiny dark orange red flowers, proportionately large black berries, free branching. Tube: Dark red, short, thin. Sepals: Dark red, held horizontal, tips recurved. Corolla: Opens & matures dark orange red, fully flared. Parentage: F. cylindracea x F. paniculata.

Straat of Plenty

2002 de Boer, J, (NL) Single

H3 (Min 1 to -5°C)
AFS 5171 NKvF 4657
NKvF AM

Unusual, flowers are larger than typical encliandra types, & carried in profuse terminal clusters. Prominent lobed stigma. Tube: Pale pink. Sepals: Rose, held fully up, tips recurved. Corolla: Opens & matures pale pink, fully flared. Parentage: F. obconica x [(F. procumbens x F. paniculata) x Igloo Maid].

White Clove

N/K N/K Single

H1c (Min 5 to 10°C)

Long, slender stems can reach 39" (1m) high, ideal for training into hoops and other shapes. Soft leaves, very tiny flowers, big plant, often sold as hardy. Tube: White, long for type. Sepals: Pale mauve-pink. Corolla: Pale mauve-pink, matures darker.

Sweet Sarah

1999 Lee, (US) Single

H3 (Min 1 to -5°C)

**Awaiting
Photo**

Self branching & bushy fuchsia, adorable flowers on long, slightly lax stems. Easy to grow & train. Tube: Pale pink. Sepals: Coral pink. Corolla: Coral pink.

Amaranth - ↓ Species & Unusual Hybrids ↓

2004 Dijkstra, Egbert, (NL) Single

H1c (Min 5 to 10°C)
AFS 5787 NKvF 4047

Lots of flowers for its type, a small, free-branching bush, tolerates full sun. Tube: Long, red, orange overtones. Sepals: Bold rose pink, green tips. Corolla: ½ flared, orange, sometimes red edges. Parentage: [(F. michoacanensis x F. obconica) x Ashley] x F. splendens.

Think Pink

2009 Plows, Redine, (US) Single

H3 (Min 1 to -5°C)
AFS 2500

Flowers profusely, even when young, easy. Notable resistance to gall mite. Tube: Dark rose. Sepals: Upper surface dark rose, lower is paler, held horizontal. Corolla: Pale rose, fully flared.

Anneke de Keijzer

1998 de Keijzer, (NL) Single

H1c (Min 5 to 10°C)
NKvF 3640

Numerous lovely medium tubular flowers, a much underrated semi trailer. Also referred to as Anita de Keijzer. Tube: Orange, long, slender. Sepals: Deep rose red fading to orange. Corolla: Orange. Parentage: Fanfare x F. andrei.

Tomarama

1987 Fuchsiarama, (ES) Single

H3 (Min 1 to -5°C)
AFS 2165

Beautiful, somewhat lax growth. Produces long arching stems carrying many cute little flowers. Tube: Light pink, quite long. Sepals: Light pink. Corolla: Palest pink. Parentage: Mendocino Mini x unknown.

Atahualpa

2000 Beije, Martin, (NL) Single

H1c (Min 5 to 10°C)
NKvF 4058

Flowers profusely, large dramatic flowers on a vigorously upright bush. Spectacular. Tube: Long, Red/orange. Sepals: Orange red. Corolla: Bright orange-red. Parentage: F. vulcanica x Lechlade Apache.

Species & Unusual Hybrids

Daryn John Woods

2000 Goulding, Edwin, (UK)

Single

Unusually coloured flowers appear a little later in the season but look superb against the dark green foliage. Makes a lovely container fuchsia, likes to shoot from underground, prefers a wide pot. Tube: Aubergine violet. Sepals: Aubergine violet. Corolla: Purple. Parentage: *Thalia* x *F. juntasensis*.

H1c (Min 5 to 10°C)

NKvF 4423

Elburg's Minibel

2009 de Groot, J, (NL)

Single

Strong upright grower, can make a large plant. Very tiny, pretty flowers. Tube: Short, pale green, stippled purple when mature. Sepals: Held fully up, recurved, pale green, more reddish purple as it matures. Corolla: Opens & matures pure white, fully flared. Parentage: Found seedling.

H2 (Min 1 to 5°C)

AFS 6979 NKvF 4709

F. boliviana

1882 Carrière, (BO)

Single

Bushy upright plant, large, softly downy leaves. Large bunches of gorgeous, very long, bold crimson flowers. Its large berries are sold throughout South America to eat raw or cooked. Tube: Bright scarlet, very long. Sepals: Bright scarlet, short. Corolla: Bold bright scarlet. Section: Fuchsia.

H1c (Min 5 to 10°C)

F. boliviana Alba

1876 Carrière, (BO)

Single

Pale form of *F. boliviana*, berries just as good. Large bunches of gorgeous white, pink & crimson flowers. Tube: Very long, white. Sepals: Fully reflexed, short, flushed pink, green tips. Corolla: Bold crimson red. Section: Fuchsia.

H1c (Min 5 to 10°C)

F. coccinea

1789 Kew Gardens, (UK)

Single

An appealing, pretty species, dainty, elegant & free flowering. Tube: Pale pink. Sepals: Rich rose pink, quite long. Corolla: Dark purple, small, neat. Section: Quelusua.

H6 (Min -20 to -15°C)

F. colensoi purpurescens

1867 Hooker, (NZ)

Single

One of few from New Zealand, an interesting plant with its green flowers & blue pollen. Lax, spreading habit. Tube: Green. Sepals: Green. Corolla: None. Foliage: Mid green, distinct bronzy purple cast. Section: Skinnera

H4 (Min -10 to -5°C)

F. campos-portoi

1935 Pilger & Schulze (BR)

Single

Native to Brazil, reputedly very hardy & popular with hybridisers. Noted gall mite resistance. Tube: Red, short, slender. Sepals: Red, ½ down, recurved. Corolla: Bluish red maturing purplish red, little or no flare. Section: Quelusua.

H4 (Min -10 to -5°C)

F. denticulata

1802 Ruiz & Pavon, (PE)

Single

Prefers slightly cooler conditions than most, easy. Stunningly beautiful flowers, long dark leaves. Tube: Long, pink/red. Sepals: Red through white to green tips. Corolla: Scarlet to red. Section: Fuchsia.

H2 (Min 1 to 5°C)

F. encliandra ssp. encliandra

1969 Berry, Dr Paul E, (US)

Single

Very pretty, miniature flowered, compact, bushy little species. Tube: Pale rose pink, conical. Sepals: Bold rose pink, slender, held ¾ up. Corolla: Bright & bold rose pink, fully flared, very recurved.

H2 (Min 1 to 5°C)

F. glaziovana

1888 Taubert, (BR)

Single

From the cloud forests of southern Brazil, one of the easiest, proven resistance to rust, red spider mite & white fly. Reputedly resistant to Fuchsia Gall Mite, attracting much interest from hybridisers. Flower: Single. Tube: Deep pink, slender. Sepals: Deep pink, slightly lighter under, held ½ down, slight reflex. Corolla: Deep violet, no flare. Section: Quelusua.

H3 (Min 1 to -5°C)

Species & Unusual Hybrids

F. hatschbachii

1985 Berry, P, (BR)

Single

H1c (Min 5 to 10°C)

Vigorous, rather wiry growth habit. May need some support, uses other shrubs and climbers for support in the wild, can be trained into very tall shapes. Long, arching stems with lots of elegant flowers. Tube: Red. Sepals: Red, held well down. Corolla: Violet. Section: Quelusia.

F. procumbens

1834 Cunningham, (NZ)

Single

H4 (Min -10 to -5°C)

Hardy, prostrate, creeping/trailing species from New Zealand. Flowers are tiny, upward looking & have bright blue pollen. Large pinkish orange fruits. Tube: Green, yellow & red. Sepals: Green, short, purple tipped. Corolla: None. Heart shaped tiny leaves. Section Procumbentes.

F. juntasensis

1898 Kuntze, (BO)

Single

H1c (Min 5 to 10°C)

An stunning species, always popular. Often flowers during winter on older growth, produces large orange fruits, occasionally observed growing epiphytically in the wild. Tube: Curved, long, lilac, purple veins. Sepals: Lilac to pale lilac at tips. Corolla: None, but has spectacular stamens with purple filaments & bright orange anthers. Section: Hemsleyella.

F. procumbens 'Wirral'

N/K N/K

Single

H4 (Min -10 to -5°C)

A variegated form of F. procumbens (previously known as Argenteus) with identical flowers and habit. They both seem to do better grown in a clay pot, rather than a plastic one. Origins unknown. Foliage: Green variegated cream, grey/silver undersides. Very pretty.

F. loxensis

1823 Humboldt, Bonpland, Kunth

Single

H1c (Min 5 to 10°C)

Very brightly coloured flowers, large open bush, easy. Tube: Deep pink. Sepals: Deep pink with green tips. Corolla: Orange. Section: Fuchsia.

F. regia ssp. serrae

N/K N/K

Single

H5 (Min -15 to -10°C)

Generally reckoned to be the most free-flowering fuchsia amongst the F. regia subspecies. Very vigorous & can make a large bush or hedge. Tube: Bold red. Sepals: Bold red, 1/2 down, slightly recurved. Corolla: Purple. Foliage: Dark green, red veins, dark stems. Section Quelusia.

F. lycioides

1800 Andrews, (CL)

Single

H1c (Min 5 to 10°C)

F. lycioides grows on the edge of the Atacama Desert, limited to a narrow coastal strip in central Chile, a hostile environment, only moderate winter rainfall & long dry summers. Mature specimens drought tolerant due to tuberous roots. Should not be over watered especially in winter. Tube: Smoky pink. Sepals: Pink with green tips. Corolla: A red purple. Section: Kierschlegeria.

F. splendens

1832 Zuccarini, (MX)

Single

H1c (Min 5 to 10°C)

The most widely distributed of Ellobium species, sometimes seen growing as an epiphyte. Flowers all year in the wild, will do so in UK if conditions suitable. Tube: Coral red, somewhat flattened just past the ovary, length varies. Sepals: Coral red, then green. Corolla: Green. Section: Ellobium.

F. perscandens

1927 Cockayne & Allen, (NZ)

Single

H3 (Min 1 to -5°C)

Unusual, multi coloured flowers borne on the stems. Tube: Dark pink to aubergine. Sepals: Aubergine to yellow green, held horizontal, reflexed. Corolla: Vestigial, aubergine, 3/4 flared. Section Skinnera.

F. thymifolia ssp. thymifolia

N/K N/K

Single

H3 (Min 1 to -5°C)

Miniature flowers on tall, vigorous upright bush, much larger, softer leaves than F.thymifolia. White, lobed, stigma. Tube: White, cone shaped. Sepals: Fully up, white pink crimson green. Corolla: White with pale lilac pink blushes.

Species & Unusual Hybrids

First Success

1985 Weeda, B, (NL)

Single

A super interspecific hybrid, very pretty small flowers in large panicle clusters. Needs plenty of root room, will make a large, spectacular plant. Tube: Pink, slender. Sepals: Light pink, held horizontal, green tips. Corolla: Light pink, ¼ flared. Parentage: *F. paniculata* x *F. splendens*.

H1c (Min 5 to 10°C)
AFS 1853 NKvF 2277

Grasmere

1964 Travis, James, (UK)

Single

Fast growing, surprisingly cold tolerant. Masses of tubular flowers in terminal racemes. Lax bush/semi trailing, useful in containers & baskets. Tube: Coral red, longish, slim. Sepals: Coral red, green tipped. Corolla: Bold coral pink. Parentage: *F. cordifolia* x *F. lycoides*.

H3 (Min 1 to -5°C)
AFS 1151 NKvF 1342

Grietje

1984 Bögemann, Lutz, (DE)

Single

Vigorous, easy, not an enclandra but miniature in type, small erect flowers in small clusters, very pretty. Would make a great bonsai. Tube: Yellowish green at ovary end then rosy red & pink. Sepals: Light rose on top, purple below, green tips. Corolla: Purple red, fully flared. Parentage: *F. cylindracea* x *F. paniculata*.

H2 (Min 1 to 5°C)
NKvF 1973

Herps Bazuin

2004 Waldenmaier, Henk, (NL)

Single

Superb. Vigorous & easy hybrid. Big plant, big leaves, needs a big pot. Clusters of giant, tubular orange flowers from a young age. Tube: Light orange. Sepals: Orange upper, peach lower, fully down, reflexed tips. Corolla: Opens & matures dark orange. Parentage: (*F. magdalenae* x *Rubra Grandiflora*) x (*F. fulgens* var. *gesneriana* x *F. fulgens* var. *gesneriana* tetraploid).

H1c (Min 5 to 10°C)
AFS 5390 NKvF 4504
VKC AM

Herps Conga

2007 Waldenmaier, Henk, (NL)

Single

Unusually long tube for a full double, vigorous, best kept quite dry during the winter. Tube: Bold lilac red, long, tubular. Sepals: Dark lilac red, green tips, held ½ up. Corolla: Opens purple, matures dark reddish purple, full double, ¾ flared. Parentage: (*F. magdalenae* x *F. fulgens grandiflora*) x Hertogin Van Brabant.

H2 (Min 1 to 5°C)
AFS 6767

Javelin

1990 Brouwer, (NL)

Single

Adaptable & beautiful, for baskets, or trained as standard, pillar, fan etc. Tube: Crimson, longish, slim. Sepals: Cardinal red on top, crimson under, green tips. Fully recurved when mature. Corolla: Deep red. Parentage: *F. magellanica* (80.541 Berry) x *Rubra Grandiflora*.

H2 (Min 1 to 5°C)
AFS 3004 NKvF 2636
VKC AM

Leclade Debutante

1984 Wright, (UK)

Single

Really appreciates sun & warmth. Flowers freely all summer. Tube: Pale pink. Sepals: Pale pink, green on upper half, horizontal, reflexed tips. Corolla: Clear pink. Parentage: *F. paniculata* x *F. magdalenae*.

H1c (Min 5 to 10°C)
AFS 1789 NKvF 2671

Leclade Maiden

1985 Wright, (UK)

Single

Steady & reliable grower, quite happy in shady areas, just potters along and does its own thing. Very enjoyable. Tube: Rose pink. Sepals: Pale lemony green. Corolla: Pale pink, darker edges.

H1c (Min 5 to 10°C)
NKvF 4180

Leclade Martianess

1985 Wright, (UK)

Single

Uncommon, worth growing for its subtle colours & unusual shaped single flowers. Tube: Long, flattened at tube end, pale orange. Sepals: Green, held ½ down. Corolla: Pale orange, increasing pink blush towards maturity. Petals edged buttery cream on the inside. Parentage: (*F. fulgens* x *F. splendens*) x *F. splendens*.

H1c (Min 5 to 10°C)
NKvF 4181

Martin's Inspiration

2000 Beije, Martin, (NL)

Single

Unusual & very pretty. Elegant, very small flowers well displayed against dark shiny leaves. Tube: White to pale pink. Sepals: Red to purple, fully up, recurved. Corolla: Pale pink through to mauvish purple, ½ flared, recurved. Parentage: (*Baby Chang* x *F. paniculata*) x *F. fulpila*.

H2 (Min 1 to 5°C)
NKvF 4034

Species & Unusual Hybrids

Miep Aalhuizen

1986 de Graaf, Herman, (NL)

Single

Unusual, beautifully shaped flowers and glossy foliage. Very vigorous - can reach 6-8ft (1.8-2.4m). Tube: Lilac-pink, longish, tapered. Sepals: Lilac-rose, held horizontal & recurved. Corolla: Lilac-rose, fully flared. Parentage: *F. arborescens* x *F. venusta*.

H1c (Min 5 to 10°C)
AFS 2188 NKvF 1630

Rubra Grandiflora

c.1880 Henderson, (UK)

Single

Lush foliage, strong growing. Very long tubular flowers borne in terminal clusters. Needs 7°C minimum. Water sparingly in cooler months. Tube: Red, very long. Sepals: Red through yellow to green tips, held ½ down. Corolla: Red-vermilion, ½ flared. Parentage: Believed to be a *F. fulgens* hybrid.

H1c (Min 5 to 10°C)
NKvF 6062

Northumbrian Pipes

1983 de Graaf, Herman, (NL)

Single

Easy, abundant, very attractive flowers. Tube: Long, slim, maroon to pink. Sepals: Pink with green tinge at tips. Short, ½ down. Corolla: Pale lilac rose, ½ flared. Parentage: *F. magdalanae* x *F. paniculata*.

H2 (Min 1 to 5°C)
AFS 1884 NKvF 1981
VKC Botanical Award

Shuna Lindsay

1980 Travis, James, (UK)

Single

Produces lots of beautiful flowers, displayed against dark, red-veined foliage. Named after the hybridiser's grand-daughter. Tube: Vermilion fading to pink, long. Sepals: Pink through white to green tips. Corolla: Orange, pink at base.

H1c (Min 5 to 10°C)
AFS 1585

Pan

1992 de Graaf, Herman, (NL)

Single

Easy to grow, unusual cultivar, stylish display & flowers look great against the glossy dark foliage. Tube: Rich pink, long, slim. Sepals: Rich pink, held slightly down, slight reflex. Corolla: Pink, ¼ flared. Parentage: Small Pipes x *F. magdalanae*.

H2 (Min 1 to 5°C)
AFS 2988 NKvF 2755
VKC AM

Straat Magelhaen

1996 de Boer, J, (NL)

Single

True trailing or creeping fuchsia that will cascade from tall containers or baskets to 3ft (90cm) or more. Few flowers but very unusual & interesting. Very easy. Tube: Green, maroon undertones. Sepals: Green, dark red tinges. Corolla: None. Parentage: *F. perscandens* x *F. procumbens*.

H1c (Min 5 to 10°C)
AFS 3824 NKvF 4292

Red Rain

1986 de Graaf, Herman, (NL)

Single

Flowers are fairly small but abundant, compact, would make a good bonsai. Tube: Bold dark red, long. Sepals: Bold dark red, slightly lighter below, held just below horizontal, slight reflex. Corolla: Rich red, ¼ flared. Parentage: (*F. lycioides* x *F. magellanica*) x *F. triphylla*.

H1c (Min 5 to 10°C)
AFS 2189 NKvF 1702
NKvF AM

Taco

1997 de Boer, J, (NL)

Single

Big plant, big leaves, big bunches of big flowers - spectacular. Stiff upright growth, stems can snap in strong wind. Tube: Reddish pink, long. Sepals: Rose pink blending to lemon & finally to apple green at tips. Corolla: Rose, small, flared into separate slender petals. Parentage: (*F. denticulata* x *F. decussata*) x *Rubra Grandiflora*.

H1c (Min 5 to 10°C)
AFS 4077 NKvF 3959

Rijs 2001

2001 de Boer, J, (NL)

Single

Flowers look like a giant encliandra, pretty in hanging baskets, pots or containers. Colours paler in shade. Tube: Dark rose. Sepals: Light greenish white, ½ down, tips recurved. Corolla: Open & mature white, ½ flared. Parentage: *F. obconica* x *F. splendens*.

H2 (Min 1 to 5°C)
AFS 4889 NKvF 4251

Tarra Valley

1987 Felix, (NL)

Single

Unusual, subtle beauty. Small, intriguing flowers. Tube: Proportionately long, pale olive green. Sepals: Light green, aubergine edge. Corolla: Rich plum/aubergine. Parentage: *F. colensoi* x *F. splendens*.

H1c (Min 5 to 10°C)
AFS 2193 NKvF 2123

Species & Unusual Hybrids

Vendeta

2002 Blaber, (UK)

Single

H1c (Min 5 to 10°C)

Numerous long, medium sized flowers. Stiffly upright, easy to train into upright forms. Tube: Raspberry red, long, tapered. Sepals: Raspberry red, green tips, short. Corolla: Orange, long, ¼ flared. Parentage: *F. venusta* x *F. denticulata*.

Fred Swales

1988 Bielby\Oxtoby, (UK)

Single

H1c (Min 5 to 10°C)

AFS 2314 NKvF 2553

Rather lax growth, long tapering flowers in terminal racemes. Tube: Long, orangeread. Sepals: Orange. Corolla: Orange. Parentage: *Gartenmeister Bonstedt* x *F. fulgens*.

WALZ Lucifer

1991 Waldenmaier, Henk, (NL)

Single

H2 (Min 1 to 5°C)

AFS 2998 NKvF 2976

Happy in full sun, starts early, produces flush after flush of bloom. Tube: Rose pink, long, slender. Sepals: Rose pink, tiny green tips, held almost horizontal. Corolla: Orange, rose veining, can be orange-rose overall, ¼ flared. Parentage: *F. magellanica* var. *conica rosea* x *Rubra Grandiflora*.

Börnemann's Beste

1905 Bonstedt, (DE)

Single

H1c (Min 5 to 10°C)

NKvF 1090

RHS AGM

Also known as Georg Börnemann. Terminal bunches of tubular flowers. Vigorous and easy. Tube: Reddish salmon-pink. Sepals: Reddish salmon-pink. Corolla: Orange-pink. Parentage: *F. triphylla* x unknown.

Wilma van Druten

1997 Koerts, Tielko, (NL)

Single

H2 (Min 1 to 5°C)

AFS 5771 NKvF 4007

Colourful tubular beauty, bunches of lovely flowers, prefers full sun. Best flowers & foliage in bright conditions. Tube: Reddish purple, long. Sepals: Reddish purple fading to green at tip, held ½ up. Corolla: Opens & matures red, ¼ flared. Parentage: *Fuji San* x *Pink Cornet*.

Göttingen

1904 Bonstedt, (DE)

Single

H1c (Min 5 to 10°C)

NKvF 1334

Easy & reliable, large bunches of orange-red flowers. Tube: Orange red. Sepals: Orange red. Corolla: Coral red. Parentage: *F. triphylla* x unknown.

Andenken an Heinrich Henkel - ↓ *Triphylla* ↓

1896 Rehne, Friedrich, (DE)

Single

H1c (Min 5 to 10°C)

NKvF 1044

Popular for over a century, easy, flowers freely, magnificent foliage. Tube: Light reddish pink. Sepals: Light reddish pink. Corolla: Light crimson red.

John Maynard Scales

1985 Goulding, Edwin, (UK)

Single

H1c (Min 5 to 10°C)

NKvF 2642

RHS AGM

Strong, vigorously upright, easy, distinctive foliage. Dense bunches of tubular flowers. Ideal for large containers, pinch early for maximum flowers. Tube: Orange, salmony pink cast. Sepals: Orange, salmony-pink cast. Corolla: Pink, orange overtones. Parentage: *Thalia* x *F. fulgens* var. *gesneriana*.

Dharlah

2011 de Cooker, Mario, (NL)

Single

H2 (Min 1 to 5°C)

AFS 8165 NKvF 4916

NKvF R

Vigorous, upright, suited for bush, pillar or standard. Best colour out of direct sun. Signs of hardiness - if proven, could achieve a height of 5ft (1.5m) within a few months. Tube: Pale rose pink. Sepals: Pale rose pink, held ½ down, slightly reflexed. Corolla: White, pale rose pink blush, ¼ flared. Parentage: [(*Göttingen* x *Our Ted*) x (*Göttingen* x *Our Ted*)] x *Delicate White*.

Koralle

1905 Bonstedt, (DE)

Single

H1c (Min 5 to 10°C)

NKvF 1499

Terminal bunches of long, tapered, flowers, flowers generously, old but reliable & deservedly popular. Also known as *Coralie*. Tube: Long, thin, salmon orange. Sepals: Salmon orange, short. Corolla: Salmon orange. Parentage: *F. triphylla* x *F. fulgens*.

Triphylla

Leverkusen

1923 Hartnauer, (DE)

Single

Unusual triphylla type in that it produces flowers mainly from the leaf axils. Can be sensitive to sudden changes in atmosphere. Fantastic in containers. Tube: Rose-cerise. Sepals: Rose-cerise, held ½ down, reflexed tips. Corolla: Rosy cerise, orange tint.

H1c (Min 5 to 10°C)
NKvF 1547

Mary

1897 Bonstedt, (DE)

Single

Undoubtedly one of the very best, an exhibition banker, well deserves a place in any collection. Tube: Bold electric crimson. Sepals: Bright electric crimson, held fully up. Corolla: Bright electric crimson, ¾ flared. Parentage: F. triphylla x F. corymbiflora.

H1c (Min 5 to 10°C)
NKvF 1612
RHS AGM

Michael Wallis

1983 Kimberley, B, (UK)

Single

One of the easiest triphyllas, quite large upright bush with lots of flowers. Tube: Pink, darker candy stripes, long, slender. Sepals: Pale pink through white to lemon green tips, held ½ down. Corolla: Dusky reddish pink, darker edges.

H1c (Min 5 to 10°C)
NKvF 4588

Monty Python

1994 Van den Burgh, (NL)

Single

Strong spreading growth, continuous terminal flowering after first flush. Superb in mixed containers or large baskets. Tube: Orange pink, long. Sepals: Bright orange, salmon pink tips, ½ down, slightly reflexed. Corolla: Deep orange. Parentage: Göttingen x Regal.

H1c (Min 5 to 10°C)
AFS 3475 NKvF 3358
VKC AM

Noblesse

1987 Moerman, (NL)

Single

Has some triphylla genes & beautiful perky flowers. Tube: Long, slim, rose pink, darker stripes. Sepals: Rose pink, tiny apple green tips. Corolla: Bold rose pink. Parentage: Leverkusen x (Chang x unknown).

H1c (Min 5 to 10°C)
NKvF 2311

Orient Express

1985 Goulding, Edwin, (UK)

Single

Vigorous upright growth needs early pinching for a well-shaped plant. Easy & reliable. Tube: Pink, darker stripes, long. Sepals: Pale pink, ½ down. Corolla: Rose-pink, ¼ flared when mature. Parentage: Thalia x Lye's Unique.

H1c (Min 5 to 10°C)
NKvF 1937
RHS AGM

Phaidra

1999 Cooker, Mario de, (NL)

Single

Superb, flowers look well against handsome dark foliage. Tube: Rich rose red, long. Sepals: Rich rose red, dark green-red tip, held slightly down, recurved. Corolla: Deep rose pink, scarlet veining, ½ flared. Parentage: [(F. magdalenae x F. fulgens var. grandiflora) x Göttingen] x [(Checkerboard x Machu Picchu) x (Checkerboard x Machu Picchu)].

H1c (Min 5 to 10°C)
AFS 7652 NKvF 3883

Piper's Vale

1992 Stannard, (UK)

Single

True triphylla type, terminal flowering. Massed bunches of long brightly coloured flowers, a real beauty. Ideal for baskets & exhibition Tube: Long, pink. Sepals: Pink, ½ down. Corolla: Deeper pink.

H1c (Min 5 to 10°C)
NKvF 3388

Pledle

N/K N/K

Single

Dark leaves, small dark flowers, small upright bush, unusual and lovely. We can't find anything about its history or origins, can you help? Tube: Rose red blending to red-violet. Sepals: Red-violet with plum tips. Corolla: Rich mulberry.

H1c (Min 5 to 10°C)

Roos Breytenbach

1993 Stannard, (UK)

Single

Wonderful long, elegant, flowers for an extended period. Makes lovely weeping ½ standard. Tube: Long, red, pink bias. Sepals: Short, red, pink bias. Corolla: Pink, crinkly pleats, orange tint at base.

H1c (Min 5 to 10°C)
NKvF 3416

Triphylla

Sparky

1994 Webb, (UK)

Single

Petite triphylla hybrid with cute little flowers & small heart shaped leaves. Tube: Deep smoky red. Sepals: Deep smoky red tipped green, short, spiky. Corolla: Deep smoky red, short petals. Parentage: *F. procumbens* x *Thalia*.

H1c (Min 5 to 10°C)

NKvF 3935

Strike the Viol

2012 Cooker, Mario de, (NL)

Single

Flowers freely, clusters of smallish tubular blooms, a beauty. Tube: Flamingo pink, orange overtones. Sepals: Rose pink, claret tips. Corolla: Orange blending to shocking pink at edge. Parentage: (*Göttingen* x *Our Ted*) x (*Göttingen* x *Our Ted*).

H1c (Min 5 to 10°C)

AFS 8166 NKvF 5015

NKvF R

Tauden's Heil

N/K N/K, (US)

Single

Popular for its large terminal bunches of flowers which are long & tapered. Tube: Salmon orange, long, slender. Sepals: Salmon orange, short, spiky, tips green tinged. Corolla: Salmon orange.

H1c (Min 5 to 10°C)

NKvF 2898

Thalia

1905 Bonstedt, (DE)

Single

Stiffly upright growing triphylla fuchsia needing some early pinching. Winning prizes since 1905, wonderful container plant. Tube: Scarlet orange, slim, tapering. Sepals: Scarlet orange, paler tips, $\frac{3}{4}$ down. Corolla: Orange red. Parentage: *F. triphylla* x unknown.

H1c (Min 5 to 10°C)

NKvF 2905

RHS AGM

Whiteknights Ruby

1976 Wright, (UK)

Single

Easy, not especially fast but self branching after the first pinch or two, lovely smaller flowers. Tube: Imperial purple, long. Sepals: Imperial purple, small. Corolla: Imperial purple, short. Parentage: *F. triphylla* x *F. procumbens*.

H1c (Min 5 to 10°C)

AFS 1357 NKvF 4341

Rating	Temperature ranges (°C)	Category	Definition	USDA
H1a	>15	Heated greenhouse – tropical	Under glass all year.	13
H1b	10 - 15	Heated greenhouse – subtropical	Can be grown outside in the summer in hotter, sunny and sheltered locations (such as city centre areas), but generally perform better under glass all year round.	12
H1c	5 - 10	Heated greenhouse – warm temperate	Can be grown outside in the summer throughout most of the UK while day-time temperatures are high enough to promote growth. (Most bedding plants, tomatoes and cucumbers).	11
H2	1 - 5	Tender - cool or frost-free greenhouse	Tolerant of low temperatures, but not surviving being frozen. Except in frost-free inner-city areas or coastal extremities requires glasshouse conditions. Can be grown outside once risk of frost is over. (Most succulents, many subtropical plants, annual bedding plants, many spring-sown vegetables).	10b
H3	1 - -5	Half hardy - unheated greenhouse/mild winter.	Hardy in coastal and relatively mild parts of the UK except in severe winters and at risk from sudden (early) frosts. May be hardy elsewhere with wall shelter or good microclimate. Likely to be damaged or killed in cold winters, particularly with no snow cover or if pot grown. Can often survive with some artificial protection in winter. (Many Mediterranean-climate plants, spring sown vegetables for later harvesting).	9b/10a
H4	-10 - -5	Hardy - average winter	Hardy though most of the UK apart from inland valleys, at altitude and central/northerly locations. May suffer foliage damage and stem dieback in harsh winters in cold gardens. Some normally hardy plants may not survive long wet winters in heavy or poorly drained soil. Plants in pots are more vulnerable to harsh winters, particularly evergreens and many bulbs. (Many herbaceous and woody plants, winter brassicas, leeks).	8b/9a
H5	-15 - -10	Hardy - cold winter	Hardy in most places throughout the UK even in severe winters. May not withstand open/exposed sites or central/northern locations. Many evergreens will suffer foliage damage, and plants in pots will be at increased risk. (Many herbaceous and woody plants, some brassicas, leeks).	7b/8a
H6	-20 - -15	Hardy - very cold winter	Hardy in all of UK and northern Europe. Many plants grown in containers will be damaged unless given protection. (Herbaceous and woody plants from continental climates).	6b/7a
H7	< -20	Very hardy	Hardy in the severest European continental climates including exposed upland locations in the UK. (Herbaceous and woody plants from continental climates).	6a-1

Hardiness rating notes

1. New hardiness ratings supersede the previous RHS hardiness ratings (H1-H4) which are not the direct equivalents of the new ratings.
2. The temperature ranges are intended to be absolute minimum winter temperatures (°C), not the long-term average annual extreme minimum temperature used for the USDA zones.
