PALATINE

FRUIT ROSES

Dear Rose Enthusiasts...

It goes without saying 2020 will be going into history books.

We would like to take just a few words to extend our gratitude to all who worked and supported their communities in their own way during this pandemic - Thank you!

Here at Palatine, on the rose side of our business, 2020 will be known as the year we start offering **NIRP** roses which in every regard is a very positive and exciting thing.

We have been testing and trialing their cultivars for a number of years now and can confirm that they are hardy to our region, very floriferous, and many are beautifully perfumed. They offer blooms as varied as the single petaled climber **Golden Age**® which produces a tremendous avalanche of flowers during its first flush; to elegant hybrid teas such as **Anne Vanderlove**® with her glowing orange petals; to the old-fashioned and romantic flowers of the **Rosemantic series**.
We love them all.

You will note throughout our catalogue that we have larger than normal new roses added to our line up this year. Our list is too long to go into detail here and so we invite you to look through our catalogue and dream your rose garden into a refined existence.

We are glad to help along the way.

*Wishing you a thousand blooms,
much love, and the very, very best!*

PALATINE'S SPRING & SUMMER GARDEN CENTER

WE'RE OPEN:

April 10th, 2021 to September 11th, 2021
Monday to Saturday 9:00AM to 5:00PM

FALL:

Miniature, Landscape & Vigorosa® Roses

Groundcover and landscape roses are a perfect combination for disease resistance, predictable growth and flower production, all in one ground covering package. These roses are specially bred for easy maintenance and most have achieved ADR status, the most highly regarded rating system for disease resistance and overall plant health. Groundcover and landscape roses have a uniquely uniform growth habit and very floriferous bloom cycles making them an excellent choice for large beds or edges. They are very popular with landscapers and public parks.

Hybrid Tea

Hybrid Teas are the archetype of roses in the rose growing world and the most popular of all rose classes. These large flowers with long stems are a garden classic with typically single high centered flowers growing on each stem in upright bushes. Hybrid Tea roses bloom repeatedly and like to be deadheaded after each bloom.

Floribunda

(Summer Romance™ Parfuma® shown)

Floribunda roses have medium to large sized blooms growing in multiple clusters. With an abundance of flowers and different blooming times, Floribunda roses will maintain colour all summer. Over the years the Kordes Fairy Tale roses have gained a formidable reputation for admirable vigour, healthy foliage and abundant flowering. In the meantime a number of new floribundas have joined the ranks of healthy roses that are perfect for gardeners new to the rose culture.

Modern Shrub Roses

Modern shrub roses are a collection of roses that vary in size and in habit. Unlike Hybrid Teas which tend to make long canes, modern shrub roses tend to make shorter but more plentiful branches and are often as wide as they are high. They make an excellent addition within a flower bed and can also be used as borders and hedges. Their bushy habit, floriferous repeat blooms and ease of care are characteristics of this class of roses.

Gems of the Past

(Rosa Alba Suaveolens shown)

For those of us that love the feel of antique-style gardens, the rose gems of the past not only offer the nostalgic feel of yester-year, but incredible fragrance, hardiness, and opulent flowering expressed in a large variety of bloom color, shape and size. Although most of these antique roses bloom only once, their flush is so magnificent that they are still sought after today. The habits of these historic roses vary from bushy, arching, to rambling / climbing and offer an outstanding winter effect with their decorative rose hips and some even with their thorns. Many are shade tolerant.

Alba Roses

NEW! **Armidé** blushed white blooms; non-recurrent.

Climbing & Rambling Roses

Climbing roses are dominated by their growth habit of long canes with the ability to climb up fences, over walls and to cover trellises, arbors and pergolas if properly trained and tied. Ramblers have softer wood and can scramble over other plants and depending on size can even grow into and intertwine with a tree top.

FOR THE
*Love of
Roses!*

Shipping within Canada

Shipping Method — Bare Root Roses Only

We ship our bare root roses via a carrier of our choice.

To determine your shipping cost using our standard shipping method,

please locate the first letter of your postal code and match it up with the number of roses ordered.

Number of Roses	Postal Codes H,J,K,L,M,N	Postal Codes B,C,E,G,P,R,S	Postal Codes A,T,V,X,Y
3 to 9	\$29.95	\$33.95	\$43.95
10 to 19	\$34.95	\$38.95	\$48.95
20 to 29*	\$46.95	\$52.95	\$65.95

(all prices in Canadian Dollars)

* For orders larger than 29 plants use the shipping rate of 29 roses and we will advise on the exact amount with the confirmation. Orders shipping to Hawaii and Alaska please inquire separately for rates.

BC & Newfoundland residence

In accordance with CFIA, British Columbia and Newfoundland residents will require a Movement Certificate. An additional fee of \$12.00 will be charged on your order, in order to obtain the certificate.

Note to all our BC customers

To assure that our product arrives to your home in the same condition that it left our premises we reserve the right to refuse to ship roses in poor weather conditions and/or if no suitable methods of transportation can be agreed upon.

Fine Print for Canadian mail orders

All orders are based on first come, first served basis. We only ship bare root roses and require a three plant minimum. The shipping costs above include packaging and handling fees. Orders need to be paid in full prior to shipping. We reserve the right to adjust shipping date if the shipping time is deemed to be too risky due to weather conditions. Due to fuel surcharges and postal rate changes in January, the above represents our best estimate. If any changes need to be made we will contact you.

Mail order shipping dates

- Fall orders will be shipped on Monday **November 16, 2020**.
- Spring orders will be shipped Mondays from **March 1 to April 26, 2021**.

We accept Visa, MasterCard, e-Transfer and certified cheque.

*A **payment in full will be required** to hold your order. Upon receipt of your payment your order will be confirmed. If you need to make alternate financial arrangements, please contact us.*

ORDER EARLY FOR BEST SELECTION!

Shipping to the United States

We are pleased to offer our bare root roses to our southern neighbours!

Please note that there is a price difference for US mail order roses, due to additional exportation costs such as: brokerage fees, phytosanitary certificates and the ever fluctuating exchange rates, to name a few. Therefore all roses shipping to the USA must be paid for in US. Dollars.

Shipping Method – Bare Root Roses Only

We ship bare root roses via UPS ground. We also offer UPS three day select services which we may recommend depending the time of the year and ship to location. To determine your shipping cost using the available shipping method please locate the desired mode of transportation and match it up with the number of roses ordered.

Number of Roses	UPS GROUND	UPS 3 Day Select to FL, MN, OR, TX, WA, CA (shipping zone 6-8)	UPS 3 Day Select rest of Continental USA
3 to 9	USD \$38.95	USD \$81.95	USD \$65.95
10 to 19	USD \$42.95	USD \$100.95	USD \$75.95
20 to 29*	USD \$58.95	USD \$131.95	USD \$98.95

(all roses being shipped to the USA will be charged in US dollars)

** For orders larger than 29 plants use the shipping rate of 29 roses and we will advise on the exact amount with the confirmation. Orders shipping to Hawaii and Alaska please inquire separately for rates.*

Fine Print for United States Mail Orders

US orders are paid in US funds.

All orders are filled upon first come, first served basis. We only ship bare root roses and require a three plant minimum. The shipping costs above include packaging and handling fees. Orders need to be paid in full prior to shipping. We reserve the right to adjust shipping date if the shipping time is deemed to be too risky due to weather conditions. Due to fuel surcharges and continued UPS rate changes, the above represents our best estimate. If any changes need to be made we will contact you. We do not ship via postal service to the USA. We reserve the right to adjust pricing pending excessive exchange rate fluctuations.

Sales and Conditions

We supply number one grade plants only, defined by a minimum of three strong canes coming from the bud graft. We warrant our plants to be true to name, to be healthy and viable when leaving our premises. We must be notified immediately upon receipt if our roses are not viable or if there is a miscount. Any claims for damage or loss in shipping must be made with the carrier. If plants fail to grow despite following our planting recommendations and adequate watering, we will replace or refund our plant at the charged cost. If any plant is proven to be untrue, we will replace or refund it at the charged cost. All claims must be made before August 30th of the shipping year. Shipping and handling charges are applicable on all replacements. We do not warrant our roses over the winter. For any claims please contact sales@palatineroses.com
