PROFILE

About Company

Our Expertise

PERITUS EXIM PRIVATE LIMITED is an Infrastructure Development company with diverse experience in turnkey execution of various Infrastructure projects in the area of –

- Water Supply Solutions,**
- Irrigation**
- Oil & Gas Transmission and Distribution pipelines, CNG Stations**
- Power Transmission, Distribution and Renewable Energy**
- Roads & Bridges**
- Buildings & Structures**

Peritus is a leading and one of the most reliable Infrastructure Development company, implementing engineering projects in India and Africa. Peritus has a rich project track-record having executed even complex construction projects on schedule and with quality.

Advantages

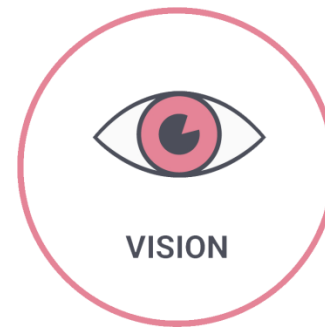

Our strength lies principally in our state of the art, technology driven approach. With comprehensive understanding of each aspect of the project, our team ensures smooth delivery of any assignment taken. With intensive investment in research and development, we believe in capitalizing on the most advanced technologies and adopt most efficient tools available to complete the given tasks and thus ensuring results of the highest quality.

The core belief in enhancing competitiveness by adapting technology-based solutions, is what guarantees perfection and effective implementation of every project undertaken. Proving our mettle, our company has worked hard to establish a multinational client base to offer a strong platform for execution of challenging and logistically complex projects.

Our stellar reputation of delivering the best has found us several Global partners, directing us toward a strong vendor and client base, which continues to grow at a fast pace.

Vision

A better world: Infrastructure for All

Mission

With the vision of developing engineering and infrastructural development to provide better standards of living for people across the world, we have defined the essence of our company through our mission.

The company finds it in their core to adhere to their mission “to become a leading engineering infrastructure company which specializes in providing cost effective and high quality solutions, by utilizing the most advanced technology, customized to meet the requirements of the customers, thus promoting technology transfer advantages from developed world to developing countries.”

We continue to strive to achieve this mission, embodying this spirit and drive for excellence in every task undertaken.

Core Values

- Perpetuate through quality. emerge through innovation
- Commitment
- Profitability
- Environmental safety

AREAS OF OPERATION

Water Supply Management

At Peritus we have built a solid reputation for excellence as a total solution provider for Water Supply and Treatment projects. Our unparalleled expertise and our ability to engineer most advanced and robust solutions, gives us a unique position in the global water industry. Peritus undertakes the following works under water supply management portfolio:

- Water Pipeline works – MS, DI, HDPE, PVC
- Water Treatment Plants & Pumping Station works
- Associated Civil Works such as Elevated and Ground Reservoirs etc.

Irrigation

Peritus undertakes the following works under irrigation portfolio:

- Pipeline works
- Drip, Sprinkler & Central Pivot System - Supply & Installation works
- Electromechanical works
- Associated Civil Works such as Elevated and Ground Reservoirs etc.

OIL & GAS PIPELINES AND CNG STATIONS

Peritus provides integrated engineering, procurement and construction services to the Oil & Gas sector. Peritus undertakes the following works under this portfolio:

- *Oil & Gas Transmission and Distribution Pipelines*
- *Complete CNG stations*
- *City Gas Distribution networks-*
- *Associated Civil Works*

Power Transmission, Distribution and Renewable Energy

Peritus undertakes the following works under Energy & Power portfolio:

- *Power Transmission & Distribution Lines*
- *Rural Electrification*
- *Renewable Energy (Solar, Wind & Biogas plants)*
- *Associated Civil Works*

Transportation

Peritus undertakes the following works under Buildings and Structures portfolio:

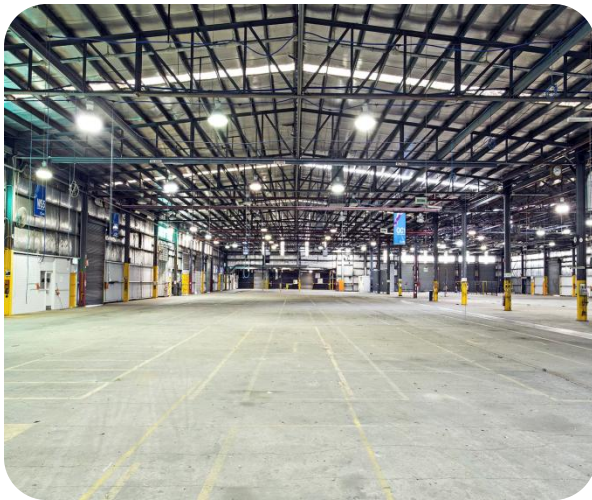

- *Road works*
- *Bridges and Flyovers*
- *Rail works*

Buildings and Structures

Peritus undertakes the following works under Buildings and Structures portfolio:

- *Civil Work*
- *MEP Work*
- *Buildings*
- *Structures*
- *Ware Houses*
- *Mechanical, Electrical, and Plumbing Works*
- *Smart Cities*

KEY PROJECT

Project Synopsis - Extension of The Lake Victoria Pipeline Water Supply Project to Tabora, Nzega and Igunga Towns (Package III)

Main Client: Ministry of Water and Irrigation, Govt. of United Republic of Tanzania

Project Client: Afcons Infrastructure Ltd – SMC JV

Brief Scope: 300km Water pipelines (MS, DI & UPVC), Reservoirs, Valve Chambers and associated work

Project Synopsis - Construction of Gravity Main DN 300 (PVC PIPE), 8200M from Mowe to Pongwe for Improvement of Water Supply in Muheza Township

Client: Tanga Water Authority, Ministry of Water and Irrigation, Govt. of Tanzania

Brief Scope: Water pipeline (PVC), River Crossings, Valve Chambers and associated work

Project Synopsis – Construction of Pipe Laying, Chambers and Kiosk Work of Package No.02 for Completion of Balance Works for Rehabilitation of Chalinze Water Treatment Plant

Main Client - Dar Es Salaam Water Authority, Ministry of Water and Irrigation, Govt. of Tanzania

Client - Afcons Infrastructure Limited

Brief Scop - UPVC Pipelines, Pump House, Valve Chambers and Associated work

Project Synopsis - City Gas Distribution Project, Maharashtra

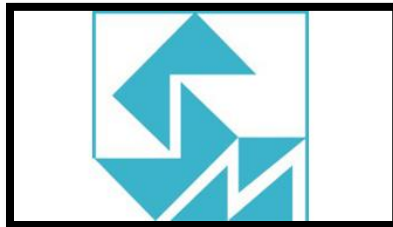

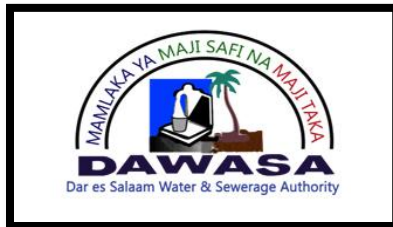

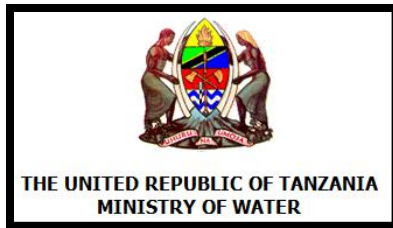

Main Client - Mahanagar Natural Gas Limited

Brief Scope - MDPE Pipelines, MRS, DRS, GI Pipelines, Industrial , Commercial and House connections including installation of Regulators, meters etc

Project Synopsis Chhitakhudari complex pressurized pipeline irrigation Project,
Client- JWIL,
scope- 1. HDPE/DI pipeline laying 2. MS pipeline laying
Location- Jabalpur, MP(India)
