

Lychnis viscaria 'Splendens Plena'
PASSION™

Height 45cm
Spread 45cm

FULL SUN

CONTAINER

MIXED BORDERS

EDGING

DRY TOLERANT

FROST TOLERANT

FEATURES:

- Lively display of hot pink, ruffled flowers during spring.
- Low clumping foliage is ornamental and evergreen.
- Low maintenance and easy to grow.
- Dry tolerant once established.

SUGGESTED USES:

- Mixed or perennial style gardens.
- Rockeries and small gardens.
- Edging or mass plant as ground cover.
- General garden use.

CULTURAL CARE

Prefers a full sun location in most soil types given good drainage. Low watering requirements withstanding some dryness but should be watered regularly during extended periods of heat.

No pruning required although trimming off spent flower stems will encourage a lengthier display. An application of a slow release fertiliser after flowering would be beneficial to overall performance.
