

INDUSTRY-PREFERRED
**LIQUID LEVEL CONTROLS +
TANK MANAGEMENT SYSTEMS**

We Are A **CENTURY-YOUNG** Manufacturer

Having been a leader in the manufacture of liquid level control systems since 1914, we continue to adapt and innovate amid a rapidly changing and rigorous environment.

SOME OF OUR APPLICATIONS

- Bulk Terminals
- DEF
- Retail Fueling
- Mission Critical
- Wastewater
- Chemicals
- Fleet Fueling
- Aviation Fueling
- Lubricants

Our name has been displayed on liquid level gauges from the Panama Canal to tanks that fuel Air Force One.

Our Extensive Technical & Regulatory Expertise Drive

PURPOSE-BUILT SOLUTIONS.

Pneumercator's engineering, technical support, manufacturing and sales teams leverage 200+ years of combined industry experience to deliver leading environmental compliance and safety equipment, including NEMA 4X and 7 enclosures for tank monitoring systems. We'll even customize a product to meet your application's needs.

RELIABILITY, QUALITY AND AFFORDABILITY

Underscore Everything We Do.

We design our liquid level control, monitoring and leak prevention equipment with longevity in mind. Engineered to be practical and adapt to future needs, our products reduce installation costs and drive operational efficiencies.

FREE TECHNICAL SUPPORT

Is Available When You Need It The Most.

If you want to talk to a call center, go with another manufacturer. If you want an answer from a small, accessible team of experts, then take advantage of our free phone support for the life of our products. Plus, reference our extensive library of manuals, wiring diagrams and more 24 hours a day.

YOUR SUCCESS MATTERS TO US.

Teamwork, dedication, a positive attitude and pride in our work galvanize our mission to solve our customers' liquid level control challenges.

My Facility building has a TMS3000 for monitoring the UST & Day tank fuel levels and leak monitoring system.

This unit has worked flawlessly for over 18 years with the exception of some field sensors needing timely maintenance.

Beautiful and very reliable product.

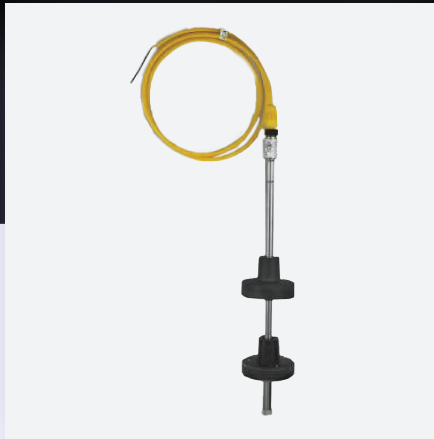

About Our Name

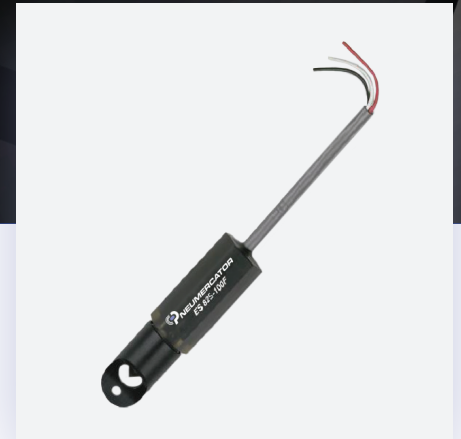

Pneumercator is derived from PNEUmatic MERCury indicATOR.

TMS Series Wired and Wireless Tank Management Systems

Magnetostriuctive Level Probes for Wired & Wireless TMS Systems

Secondary Containment Leak Sensors for Wired & Wireless TMS Systems

DR Series Direct Reading Mechanical Tank Gauge

LS600 Series Single & Multi-Float Level Sensors for TMS, LC & PC Series Consoles

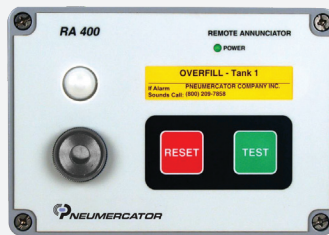

P Series Hydrostatic Tank Gauging Systems

PRODUCTS

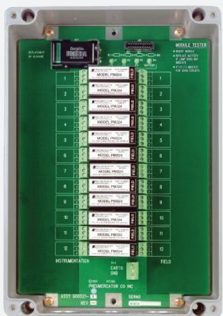

Electronic Line Leak Sensors

Remote Display/Alarm
Annunciators for Wired
& Wireless TMS Systems

PC Series Pump/Valve
Control Panels

PD Series Surge
Suppression Systems

LC Series Leak/Point
Level Alarm Consoles
