"Vocabularium abbreviaturarum bibliothecarii" című munkánk ez újabb füzete az "Index acronymorum selectorum" kötet részeként, a közlekedési és hírközlési intézmények /ilyen jellegű állami szervek, vasutak, légitársaságok, távirati irodák, sajtóügynökségek stb./ névrövidítéseit tartalmazza. Az idevágó felsőbb fokú állami intézmények /pl. minisztériumok stb./ nevének acronymáit, amelyeket az "Instituta rerum publicarum" c. kötetben közöltünk, technikai okokból nem ismételhettük meg, s így e füzet használói az itt esetleg hiányzó szíglákat az előző kötetben találhatják meg.

Hasznosnak gondoltuk, hogy függelékként közöljük a földrajzi helynevek, valamint a népnevekből képzett melléknevek összegyűjthető rövidítéseit; - e vonatkozásban azonban különösen tudatában vagyunk a teljesség hiányának.

Jelen füzet anyagának feldolgozási módja szinte mindenben megegyezik az előzőével. Az egyes rövidítéseket követi a feloldás, majd - amennyiben megállapítható volt - az illető terület székhelyének, esetleg az országnak megnevezése, ezt követően pedig annak a nyelvnek a betűjele, amelyből a rövidítés származik. A székhelyül szolgáló, gyakrabban előforduló városokat ugyancsak betűrövidítések jelzik. A szíglák feldolgozásánál, az egyöntetűség biztosítása céljából követtük a nemzetközi rövidítésgyűjteményeknek azt a gyakorlatát, hogy a latinbetűs részben - a partikulák kivételével - minden szót nagy kezdőbetűvel irtunk. Ha ugyanazon testületnek több, változó betűértékű rövidítése van, úgy a teljes feloldást csak egyik alaknál adtuk meg, s a változatoknál egyenlőségjellel utaltunk arra a helyre, ahol a teljes feloldás található. Ha egy rövidítés a gyakorlatban változó alakokkal ugyan, de azonos betűértékkel /pl. csupa nagybetűvel vagy részben kisbetűvel stb./ is előfordul, gyűjteményünkben a különböző formai változatok feltüntetéséről kénytelenek voltunk lemondani.

Könyvtárosi és dokumentációs célkitűzéseinkből következően, könyvünk az un. kurrens rövidítések mellett a múltba is visszanyúlt anyagért, - bár ilyenirányú gyűjtésünk nem lehetett oly szisztematikus, mint

VI

az élő anyagra vonatkozó. Sajnos, ez utóbbi vonatkozásban is kénytelenek voltunk - a terjedelemre való tekintettel - bizonyos szelekciót alkalmazni.

Minthogy könyvünk elsősorban a magyar szakemberek használatára készült, a magyar sajátosságoknak megfelelően, a latinbetűs ábécében az ö és ü betűt önálló betűként szerepeltetjük, az o és u után. Az un. diakritikus jeleket a betűrendi beosztásban nem vettük figyelembe. A cyrill-ábécében természetesen külön szerepelnek az ukrán "i" és szerb "j" betűvel kezdődő rövidítések. /Célszerűségi szempontból a latin-, illetőleg cyrillbetűs anyag itt is külön ábécébe került./

Budapest, 1965. november 15.

Az összeállító

Предисловие

Настоящий краткий справочник издан в рамках научной работы "Vocabularium abbreviaturarum bibliothecarii" и являясь частью тома "Index acronymorum selectorum" содержит сокращения наименований учреждений транспорта и связи /соответственных государственных органов, железных дорог, авиатранспортных компаний, телеграфных агенств и агенств печати, и т.д./. Акронимы наименований соответственных высших государственных учреждений /напр. министерств и т.д./, опубликованные в книге "Instituta rerum publicarum", по техническим причинам не повторяются и, таким образом лица, пользующиеся данным справочником, могут найти отсутствие в нем сиглы в предыдущей книге.

Нами считалось целесообразным поместить в виде приложения географические названия населенных пунктов и сокращенные разновидности прилагательных, образованных от наименований народов, причем в этом отношении, мы особо подчеркиваем отсутствие полноты.

Метод разборки материала настоящего справочника почти полностью аналогичен разработке предыдущего справочника. За отдельными сокращениями следуют полные названия, а затем — если это оказалось возможным — название административного центра данного района или страны, а затем указывается буквенное обозначение языка, от которого происходит сокращение. Столицы и наиболее часто встречающиеся города указаны также лишь буквенными сокращениями. При разработке сигл, руко-

водствуясь соображениями обеспечения единообразности, нами преследовалась практика составления сборников международных сокращений, при которой в разделе с латинскими буквами — за исключением партикул — каждое слово выписано с большой начальной буквы. Если одна и та же организация имеет несколько сокращений с различными буквенным обозначением, то полное название дается лишь в связи с одной из разновидностей, а у остальных знак равенства указывает на место нахождения полного названия. В том случае, когда сокращение в практическом применении встречается в различной форме, но с одинаковым буквенным обозначением /напр. пишется только заглавными буквами, или же отчасти строчными буквами, и т.д./, редакция оказалась вынужденной отказаться от приведения в рамках настоящего справочника всех разновидностей.

Исходя из задач библиотечной и документационной работы, наш справочник наряду с т.н. курентными ходиками сокращениями включает и укоренившиеся в прошлом материалы. В этом отношении, собранный нами материал, конечно естественно, не является столь систематичным, как материал настоящего времени. К сожалению, ввиду большого объема, и в связи с последним необходимо было прибегнуть к некоторой селекции материала, предлагаемого к изданию.

Ввиду того, что справочник предназначен, в первую очередь, к использованию венгерскими специалистами, учитывая особенности венгерского языка, буквы *ö* и *ü* приведены самостоятельно вслед за буквами *o* и *u*. Т.н. диакритические знака не учитываются в алфавитном порядке. В

алфавите кириллицы, естественно, отдельно фигурируют сокращения, начинающиеся с украинской "ї" и сербской "ј". /В интересах целесообразности здесь также по отдельности составлены материалы, относящиеся к латинской и кирилловской азбуке/.

Будапешт, 15 ноября 1965 г.

P R E F A C E

The latest fascicle of the work "Vocabularium abbreviaturarum bibliothecarii" as a part of the volume "Index acronymorum selectorum" contains the abbreviations of the names of institutions of communication and telecommunication /of governmental organs, railways, air lines, news and press agencies, etc./. The acronymes of superior state organs supervising this field having been published in the volume "Instituta rerum publicarum" could not be reprinted here for technical reasons, and the users of this fascicle are directed to the preceding volume to find sigla not given here.

It deemed useful to publish the abbreviations of toponyms and of adjectives derived from names of peoples as an appendix though are fully aware of the fact that in this respect the present publication is by far not complete.

The method of treatment of the material of this fascicle is nearly identical with that of the preceding one. Abbreviations are followed by full names and, wherever it was practicable, the residence or country of the institution and the letter symbol of the language the abbreviation comes from. Frequently occurring names of towns of residence are abbreviated, too. In agreement with the practice of international dictionaries of abbreviations, in writing out sigla of Roman characters, with the exception of particles the initials of every word were printed in capital letters. For several different abbreviations of the same institution the full title has been given only once, and at the variants a sign of equality points to the place where the full name is found. For abbreviations composed of the same letters but used in various forms /say, fully capitalized or partly with lower-case letters/ we had to give up the insertion of all variants.

tation, we had to look for material also from the past - though this part of our compilation could not be as systematical as that of living material. We are sorry to say that, for lack of space, we were compelled to adopt some selection also in the latter case.

XII

The book will be used, in the first line, by Hungarian specialists. This is why, following the characteristics of the Hungarian language, ö and ü have been treated as independent letters in the Romanic alphabet, after o and u. Diacritics have not been taken into consideration in the alphabetical order. Naturally, in the Cyrillic alphabet abbreviations beginning by an Ukrainian "i" or a Serbian "j" have been treated separately. /For practical considerations the sections in Romanic and in Cyrillic characters are arranged in alphabetical order separately also here./

Budapest, November 15th 1965.

P R É F A C E

Ce nouveau cahier de notre ouvrage intitulé "Vocabularium abbreviatarum bibliothecarii" qui constitue une partie du volume de l'"Index acronymorum selectorum" contient l'abréviation des noms des institutions des communications et de la télécommunication /organes d'État, chemins de fer, entreprises de trafic aérien, agences télégraphiques, agences de presse etc./. Pour des raisons d'ordre technique, les acronymes des noms des institutions d'État supérieurs /p.ex. ministères/ publiés dans le volume intitulé "Instituta rerum publicarum" n'ont pas été repris icic; pour les sigles éventuellement introuvables dans ce cahier, les lecteurs voudront bien se reporter au volume précédent.

Nous avons estimé utile de donner en annexe les abréviations des noms de lieu géographiques, ainsi que les adjectifs dérivés des noms de peuple; sous ce rapport nous sommes cependant particulièrement conscients des lacunes de l'ouvrage.

En ce qui concerne la mise au point des matériaux de ce cahier, elle suit à peu de choses près, celle des cahiers précédents. Les abréviations sont suivies de leur explication, ensuite-toute les fois que cela a été possible - nous avons indiqué le nom du chef-lieu du territoire en question, en certains cas le nom du pays, puis le signe de la langue fournissant l'abréviation. Les villes représentant des chefs-lieux figurant plus fréquemment, sont également indiquées sous leur forme abrégée. Soucieux de sauvegarder l'uniformité, nous avons suivi, en ce qui concerne les sigles, l'usage général des recueils d'abréviations internationales qui consiste à écrire chaque mot dans la parrie en caractères latins, avec une majuscule, sauf, bien entendu, les particules. Si la même institution est connue sous plusieurs noms abrégés, nous sommes contentés d'indiquer le nom complet une seule fois, en renvoyant ailleurs par un signe d'égalité, à l'endroit où le lecteur trouvera le nom complet. Là où une abréviation se répète dans la pratique sous plusieurs formes, mais avec les lettres toujours identiques /par ex. avec seulement des majuscules ou en partie avec des minuscules, etc./

nous nous sommes vus obligés de renoncer à rendre l'ensemble des variantes.

Conformément à notre but, qui est de fournir une aide aux bibliothécaires et au travail de documentation, nous donnons en plus des abréviations courantes, aussi des matériaux plus anciens, quoique, bien entendu, sous ce rapport, notre travail n'ait pu être aussi systématique que pour les matériaux modernes. Quant à ses derniers, la limitation de l'étendu du volume nous a contraints d'opérer une certaine sélection.

Étant donné, que le cahier est destiné avant tout à des spécialistes hongrois, les lettres ö et ü de l'alphabet latin figurent sous forme indépendante, après les lettres o et u. L'ordre alphabétique n'a pas tenu compte des signes diacritiques. Dans l'alphabet cyrillique nous avons naturellement distingué les abréviations commençant par un "i" ukrainien et un "j" serbe. /Pour des raisons d'utilité, les matériaux en caractères latins et les matériaux en caractères cyrilliques ont été groupés, ici aussi, selon un ordre alphabétique différent/.

Budapest le 15 Novembre 1965.

V O R W O R T.

Dieses neue Heft unserer "Vocabularium abbreviaturarum bibliothecarii" enthält - als Teil des Bandes "Index acronymorum selectorum" - die Namensabkürzungen von Verkehrs- und Kommunikationsinstitutionen /staatlichen Organen, Eisenbahnen, Luftverkehrsgesellschaften, Telegraphenbureaus, Presseagenturen u.a./. Die Akronyme der einschlägigen höheren staatlichen Institutionen /z.B. Ministerien/, die wir im Band "Instituta rerum publicarum" publizierten, konnten aus technischen Gründen nicht wiederholt werden. Demzufolge können bei Benutzung dieses Heftes die evtl. fehlenden Sigel im erwähnten früheren Band vorgefunden werden.

Obwohl wir es als nützlich erachteten die Sammelabkürzungen der geographischen Ortsnamen und der aus Völkernamen gebildeten Adjektive im Anhang durchzugeben; sind wir uns jedoch vollkommen bewusst, wie unvollständig dies bewerkstelligt werden konnte.

Die Aufarbeitungsmethode des Materiels ist im vorliegenden Heft mit der des vorangegangenen identisch. Den einzelnen Abkürzungen folgt die Auflösung, anschliessend - insofern dies festzustellen war - die Benennung des Sitzes des betreffenden Gebietes evtl. des Landes, ferner das Schriftzeichen jener Sprache, aus der die Abkürzung stammt. Die als Residenz dienenden, öfter vorkommenden Städte werden ebenfalls durch Buchstabenabbreviaturen kenntlich gemacht. Bei der Aufarbeitung der Sigel haben wir im Interesse der Gleichförmigkeit die bei den internationalen Abbreviationssammlungen angewandte Praxis befolgt, laut der wir im Teil mit lateinischen Lettern - mit Ausnahme der Partikeln - jedes Wort mit grossem Anfangsbuchstaben schrieben. Sollte dieselbe Körperschaft über mehrere Abkürzungen von variablem Charakter verfügen, so wurde die Auflösung nur für eine Form angegeben und bei den Varianten mittels Gleichheitszeichens auf jene Stelle hingewiesen, wo die volle Auflösung zu finden ist.

Falls eine Abkürzung in der Praxis zwar in einer veränderlichen Form, jedoch auch mit identischem Buchstabenwert /z.B. mit lauter grossen

oder teils auch mit kleinen Buchstaben/ vorkommt, mussten wir bei unserer Sammlung von den verschiedenen Variationen der Form Abstand nehmen.

Unser Buch grifft - den bibliothekarischen und dokumentarischen Zielsetzungen folgend - neben den sogenannten kurrenten Abkürzungen - auch auf die Vergangenheit zurück, obwohl unsere Sammlung in dieser Richtung nicht so systematisch sein konnte wie die auf das lebende Material bezügliche. Leider sahen wir uns gezwungen, auch diesbezüglich - mit Rücksicht auf den Umfang - eine gewisse Selektion vorzunehmen.

Nachdem unser Buch in erster Linie ungarischen Fachleuten dient, liessen wir - den ungarischen Eigenarten entsprechend - die Buchstaben ö und ü des lateinischen Alphabets als selbständige Buchstaben hinter o und u einschalten. Die sogenannten diakritischen Zeichen liessen wir bei der alphabetischen Einteilung unbeachtet. Natürlich wurden im cyrillischen Alphabet die mit dem ukrainischen "i" und dem serbischen "j" beginnenden Abkürzungen gesondert aufgeführt. /Vom Gesichtspunkt der Zweckdienlichkeit wurde das mit lateinischen bzw. cyrillischen Buchstaben beginnende Material auch hier einem gesonderten Alphabet zugeteilt./

Budapest, 15.11.1965.
