Re: Powers Gravel Pit

Dear Jerry:

This letter is intended to confirm our recent concersation to the effect that the Board of County Commissioners' action in recently granting a special use permit for the above sand and gravel operation was intended to extend to the mineral extraction of sand and gravel as well as to the washing plant and batch plant on the premises. The application for the permit, under power of attorney from the owner, extended to mineral extraction, and the Board of County Commissioners interpreted the application to extend to that use of the land.

Very truly yours,

Arthur A. Abplanalp, Jr.
Garfield County Attorney

AAA,jr;mrđ
