Site Name: Suffolk County Firematics

May, 2017

Site No. 152246

Tax Map No.s: 742-1-3.1, 742-1-3.2

Site Location: 676 Pine Street, Yaphank, NY 11980

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

Perfluorooctanoic acid (PFOS) and perfluorooctanoic acid (PFOA) have been detected at elevated levels in on- and off-site groundwater and in nearby off-site private drinking water wells. The concentrations of PFOS/PFOA in the drinking water supplies exceed the United States Environmental Protection Agency's (USEPA's) drinking water health advisory for PFOS/PFOA, 70 parts per trillion. Actions have been taken to reduce human exposures to PFOS/PFOA in the private water supplies. Actions are needed to define the nature and extent of contamination in groundwater and other environmental media, and to evaluate and address associated human exposures.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.
