The contents of this Quick Guide apply to the CASIO E-W Series Electronic Dictionaries. Most illustrations and screen shots show the E-W220.

- In this manual, characters such as the French è and the German ß are referred to as "special alphabetic characters".
- The screen shots and product illustrations shown in this manual may be different from those of the actual product. Also note that some keys and screen indicators are shown in simplified form.

Charging the Battery

Your electronic dictionary has a built-in lithium-ion battery. The battery is not charged when you purchase the electronic dictionary. Charge the battery before use.

Before Charging

- Use the procedure described in this manual to charge the battery.
- For charging, use the USB-AC adaptor that comes with the electronic dictionary. Using a non-specified charger may cause charging problems, malfunction, and breakdown.

Connect (Charging starts automatically.)

- Taking care to ensure that connectors are oriented correctly, connect using the USB cable.
- With the electronic dictionary turned off, connect in the following sequence: ❶, ❷, ❸.
  - If the electronic dictionary is turned on, press ⏻ to turn it off.
  - The electronic dictionary will turn on automatically when charging starts. You can perform operations on the electronic dictionary while charging is in progress.

## After Charging is Complete (Charge lamp off)

- The first time you use the electronic dictionary after charging the battery, remove the stylus from the side, and then use it to press the RESET button.
  - Stylus
  - RESET button
  - Do not use a toothpick, lead pencil, or other object with a breakable tip to press the RESET button.
  - Leaving the battery uncharged for a number of days will cause the electronic dictionary's time and date settings to be reset. The next time you turn on power after this, the electronic dictionary will display a message telling you to set the date and time. Configure settings as required.
  - In some cases, turning on power may cause the charge lamp to flash red, followed by power turning off. This may mean that an internal error has occurred. Try turning power on and off again, and charging the battery. If this does not eliminate the problem, contact your original retailer or authorized CASIO service center.

Configuring Initial Settings

1 Unfold the electronic dictionary.

- Recording microphone
- Display
- Keyboard
- Arrow keys ▲ ◄ ► ▼

Panel Touch and Text Input Tips

- When performing a display screen touch operation, be sure to support the back of the display with your hand.
  - Display
- Strong pressure is not required when performing display screen touch operations.
- Avoid applying excessive pressure during touch operations and input. Strong pressure can cause cracking or breaking of LCD panel.
- For stylus character input, be sure to use only the stylus that comes with your electronic dictionary.
Keyboard Input

- To input numbers, touch the on-screen number keys.

Inputting Alphabetic Characters

Q W E R T Y U I O P
A S D F G H J K L ↵
SHIFT Z X C V B N M 空格 删除
To input this:	Type this:
internet	I N T E R N E T
?	SHIFT K
＊	SHIFT L

- Input of a question mark (?) and asterisk (＊) is not supported for a HOME screen search.

■ Inputting Special Alphabetic Characters, etc.

- For characters that normally include a diacritic, input the character without the diacritic.
  Example: "à" → "a", "ê" → "e", etc.
- For the French "ç" input "c", and for "œ", input "oe".
- For the German "ß", input "ss".
- When entering a noun that is normally accompanied by an article, enter the noun only without the article. To look up "The Beatles" for example, input "beatles".

Inputting Chinese Characters (Pinyin)

Q' W" E" R' T: Y U I O P
A S D F G H J K L 删除
SHIFT Z X C V B N M 空格 删除
- Numbers are not actually printed on the keyboard keys.

To input this:	Perform this operation:

Screen Touch Operations

To select contents

1 On the Quick Palette, touch 【HOME】 to display the HOME screen.

2 Touch 【Contents List】.

3 Touch a category.

- This displays a list of contents.

4 Touch the content you want.

- If all of the dictionaries cannot appear on a single screen page, a dark blue down arrow (▼) will appear on the right of the display. To scroll to the next or previous page, touch the dark blue down arrow (▼) or up arrow (▲).

To select a headword or screen item

1 Enter characters. On the list that appears, touch the term or screen item you want.

Scrolling the Screen

- If there are pages following the currently displayed page, you can scroll to them by swiping the panel.

Assigning Often-used Dictionaries to the HOME Screen

You can assign often-used dictionaries and other contents or categories to the HOME screen for quick and easy recall whenever you need them.

To display content on the HOME screen

1 On the HOME screen, touch 【Contents List】.

2 Touch and hold the content you want to assign to the HOME screen for about one second.

To rearrange contents on the HOME screen

1 Touch and hold the content you want to reposition for about one second. Continue holding as you drag the content to the desired location, and then release it.
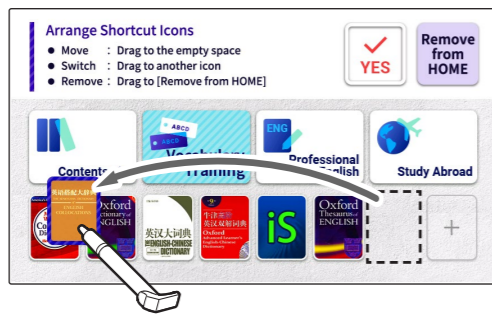

- "YES" will appear at the top of the display if the movement is allowed, while "NO" will appear if it is not.
- To swap two icons with each other, drag one of the icons and drop it on top of the other icon.
- The relocate operation will not be allowed if the icon of the content you are moving is larger than the space available at the destination.
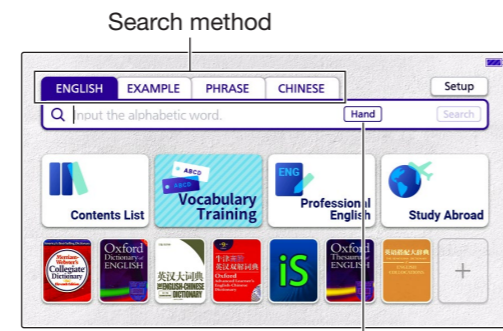

Removing Content From the HOME Screen

1 Touch and hold for about one second the content you want to remove, drag it to ▤ (Remove from HOME) and then release it.

Launching a Search from the HOME Screen

You can input Chinese or alpha characters to perform a Multi-Dictionary Search from the HOME Screen.

1 On the Quick Palette, touch 【HOME】.

- This displays the HOME screen.

2 Touch the search method you want to use: ENGLISH, EXAMPLE, PHRASE, CHINESE.

- This causes the cursor (I) to appear in the search term input box. As long as nothing is contained in the search term input box, you can touch and select a different search method, if you want.
- Touching ⌨ (Handwriting) displays the handwriting input cells. For information about handwriting input, see "Handwriting Input" (➡ page **1**).
- Depending on your electronic dictionary model, you may be able to look up other language terms besides English.

3 Enter the term you want.

- Terms starting with the characters you have entered appear in a list on the display. In the case of EXAMPLE (Example Search) and PHRASE (Phrase Search), enter the characters you want and then press 输入.
- In the case of ENGLISH and CHINESE, a list will appear showing symbols that indicate the dictionaries that contain the term. In the case of EXAMPLE and PHRASE, abbreviations of the dictionary names will appear at the top of the display.

4 Touch the term whose explanation you want to view.

Launching a Search from a Dictionary

Searching for a Term in a Dictionary

You can use any of the three methods below to search for a term in a dictionary.

- For details about the search patterns of each dictionary, see the 收录词典 (Included Dictionaries) chapter in the 用户说明书 (User's Guide) for your electronic dictionary.

■ Using Incremental Search

Terms starting with the characters you have entered appear in a list on the display.

1 Input the term you want to find into the search term input box.

---

2 Touch the candidate you want to view.

- With this search method, you can select the term you want without necessarily inputting all of its characters.

■ Using Search After Input

With this search method, you input a term, touch 【Search】, and then select the one you want from the list of candidates that appears.
This search method can be used with EXAMPLE (Example Search), PHRASE (Phrase Search), etc.

Example: To look up example sentences that contain "dictionary" in The English-Chinese Dictionary

1 Input the term you want to find into the search term input box and then touch 【Search】.

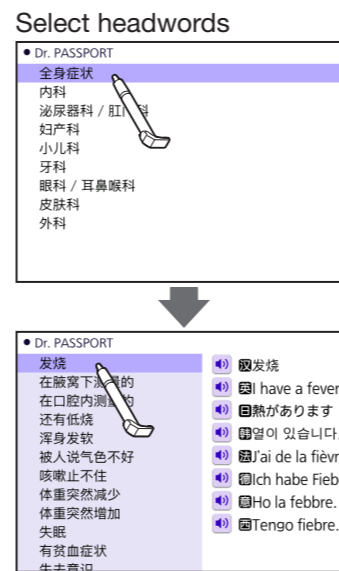

**2** Touch the candidate you want to view.

■ Using Navigation Search

With this search method, you sequentially select categorized items (headwords, images) to navigate to the information you want.

Example: To look up 8-language expressions for communicating information about symptoms and pain (Dr. PASSPORT)

Select headwords

Example: To look up with the 不列颠简明百科全书 (BRITANNICA CONCISE)

Select images
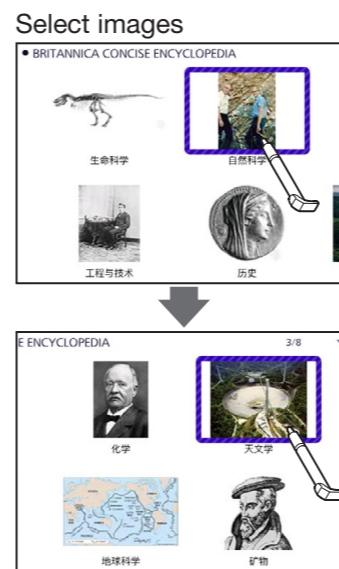

Looking Up Another Term From a Definition Screen

■ Inputting Another Term in the Same Dictionary

After specifying a dictionary and looking up a term, you can look up another term in the same dictionary by simply inputting it while the current term's definition screen is displayed.

■ Looking Up a Term Indicated by ➡

When there is green text following ➡ on a definition screen, it means that there is another term that includes the current term, related items, or other information within the current dictionary.
With some dictionaries, only green text is displayed without ➡.

Example: On the "entrepreneur" definition screen, looking up the meaning of "enterprise" in 英汉大词典 (The English-Chinese Dictionary)
Touching "ENTERPRISE" jumps to the "enterprise" definition screen.

- ➡ means that "enterprise" is a related item.
- If pronunciation or other audio is playing back, pause playback before performing this operation.
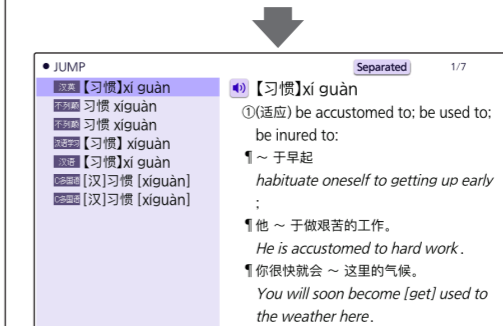

■ Looking Up a Displayed Term

Example: On the "custom" definition screen in The English-Chinese Dictionary, looking up the Chinese meaning of 习惯

1 On the "custom" definition screen, drag across 习惯 from left to right.

- The mini dictionary will also appear to the left of the Touch Menu, which you can use to view the meaning of the selected term.

---

2 On the Touch Menu, touch 【Word Jump】.

- Touching 【Separated】 in the upper right of the list screen switches to lists for each individual dictionary. To return to the list screen, touch 【Combined】.
3 Touch the term whose explanation you want to view.

Displaying Detailed Information

Use the operations described here to view detailed explanations and other information about looked up words and terms.

Viewing Phrases

If ⟨PHR⟩ is on the screen, it indicates that there is phrase information available for the term you are viewing.

1 Touch an icon on the display.

2 Touch the candidate you want to view.

Viewing Examples and Explanations

If ⟨EX⟩, ⟨COM⟩ or ⟨IMG⟩ is on the display, it means that example, illustration, explanation, or other information is available.

1 Touch an icon on the display.

Pronunciation

You can use earphones or the product's built-in speaker to hear readings of terms, examples, etc.

Hearing Native Speaker Pronunciation

1 While a detailed explanation screen is displayed, touch 发音 (Audio) on the Quick Palette.

- This causes the Touch Menu to enter the Audio Mode and plays the pronunciation.
- To change the volume level, touch ◄ or ► on the Touch Menu.
- To change the playback speed, touch − or + on the Touch Menu.
- To change the number of repeats to three or five, touch 【Play Once】 on the Touch Menu.

2 To exit the Audio Mode, touch ✕ in the upper right corner of the Touch Menu.

- Note the following precautions concerning English terms.
  – Proper pronunciation will not be produced for a language other than English.
  – The pronunciation produced by the electronic dictionary may not be correct if there is more than one pronunciation for a term.
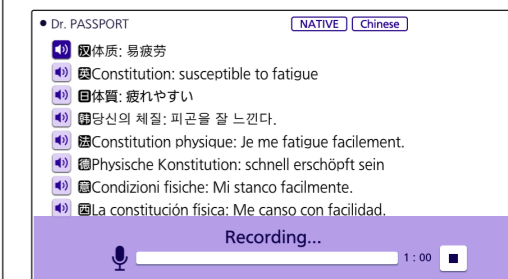

Recording Your Reading to Compare with Native Speaker Reading

1 On the Quick Palette, touch 发音 (Audio).

- This displays the Audio Mode Touch Menu and plays back the pronunciation.

2 On the Touch Menu, touch 【Record】.

3 After the "Recording…" screen appears, pronounce the same term into the recording microphone.

- After you finish recording, touch ■.

4 On the Touch Menu, touch 【Compare】.

- The native speaker reading and the recorded reading will play back in succession.
- If you want to compare the readings more, keep touching 【Compare】.
- To re-record your reading, repeat the above procedure from step 2.

5 To exit the compare operation, touch ✕.

- Exiting a comparison operation will automatically delete the reading you recorded.
