Buku ini berisikan informasi tentang vegetasi rawa gambut di kawasan Taman Nasional Berbak.

Materi buku ini merupakan salah satu hasil dari proyek *“Promoting The River Basin and Ecosystem Approach for Sustainable Management of SE Asian Lowland Peat Swamp Forest: Case Study Air Hitam Laut River Basin, Jambi Province, Indonesia”*. Kegiatan ini adalah hasil kolaborasi antara International Agriculture Center (IAC) dengan Wetlands International, ALTERRA, ARCADIS EUROCONSULT, WAGENINGEN UNIVERSITY/LEI, WL/DELFT HYDRAULICS (2002-2004). Buku ini dapat diperbanyak atas dukungan proyek GEF-UNDP *“Transforming Effectiveness of Biodiversity Conservation in Sumatera Priority Landscape” (GEF-UNDP Tiger Project)*.

Saya mengucapkan selamat dan penghargaan kepada seluruh pihak yang ikut berperan serta dalam menghadirkan buku ini. Diharapkan buku ini dapat bermanfaat dalam memperkenalkan mengenai keanekaragaman vegetasi kawasan Taman Nasional Berbak kepada masyarakat luas. Selain itu juga dapat menjadi referensi bagi pelajar dan mahasiswa yang melakukan kegiatan edukasi di kawasan Taman Nasional Berbak.
